

EL PASO ELECTRIC COMPANY

SCHEDULE NO. 01

RESIDENTIAL SERVICE RATE

APPLICABILITY

This rate schedule is available for electric service used in single-family residences or individually metered apartments for primarily domestic or home use, and other non-commercial uses located on the same property and used in connection with the main residence.

TERRITORY

Texas Service Area

TYPE OF SERVICE

Service available under this rate schedule will normally be 120/240 volt, single phase, taken at a single point of delivery designated by the Company and at one of the Company's standard types of service. Electric energy will be measured by a single meter, or other measuring device, of each kind needed.

Single-phase motor operation is permitted under this service where the size of individual motors does not exceed 5 horsepower (HP), except that three-phase 120/240 volt service may be provided for motors over 5 HP if determined by the Company to be economically feasible. Single or three-phase motors shall not exceed 5 or 10 HP individual capacity without the written approval of the Company.

OFF-PEAK WATER HEATING RIDER

This rider is closed to all new service applications.

This rider is available for domestic electric water heating service (swimming pool water heating, and water heating utilized for space heating excluded). The service shall be metered on a circuit which shall include only water heating elements and exclude all other services.

Periods of electric supply service may be scheduled to conform to off-peak conditions of the Company's system. The Company reserves the right to change the off-peak period of supply to meet the changing off-peak conditions of its system. The Company, at its option, will furnish and connect to the Customer's wiring and retain ownership of a time switch or suitable device to regulate the hours of use.

Service under this rider shall be limited to water heaters of thirty (30) gallons or more capacity. All water heaters will be controlled by a thermostat and if two or more heating elements are used, the water heater will be wired so that only one element will operate at one time. The minimum wattage of all heating elements shall total not less than 3,000 watts. Service may be limited where the Customer has an abnormally large connected load, and is only available as a secondary service in conjunction with a main service.

LOW INCOME RIDER

Upon qualification under the below defined Low Income Rider (“LIR”) criteria, the Customer Charge will not be applicable to the Residential Customer’s monthly billing. All other provisions of this rate schedule remain unchanged.

1. The LIR is available to qualified residential customers identified by the Texas Health and Human Services Commission (“HHSC”) client database as authorized to receive Supplemental Nutrition Assistance Program (“SNAP”) benefits for a period of time pursuant to the eligibility and assistance requirements of the SNAP program.
2. On a monthly basis, the Company will compare the names and addresses in its Texas residential customer database with those in the HHSC client database. The HHSC client must be the Company customer of record at his or her residential address. All matching customers will be certified to receive the LIR through the time period in which they are authorized for SNAP assistance, or for twelve (12) months, whichever is greater. However, a Customer’s eligibility for the LIR will terminate if the Customer is removed from the HHSC database when HHSC annually purges its client database and removes the client, or if the Customer changes his or her service address and the address no longer matches the HHSC database. The Company may extend the LIR to a Customer when the Customer’s SNAP assistance is re-authorized or extended by HHSC for an additional period of time.
3. The LIR is also available to qualified residential customers identified by an EPE-recognized public assistance agency (“Agency”) operating in El Paso, Hudspeth, and Culberson counties as meeting the Agency’s assistance requirements. The Agency or the Customer must provide the Company documentation of Agency eligibility. Qualifying Customers will receive the LIR for the authorized assistance time period or, if the Agency does not state an authorized time period, for twelve (12) months. The Company may extend the LIR to a Customer when the Customer is re-authorized or

extended by the Agency for an additional period of time.

FIXED FUEL FACTOR

Service under this rate schedule is subject to the provisions of the Company's Rate Schedule No. 98 (Fixed Fuel Factor).

ENERGY EFFICIENCY COST RECOVERY FACTOR

Service under this rate schedule is subject to the provisions of the Company's Rate Schedule No. 97(Energy Efficiency Cost Recovery Factor).

MILITARY BASE DISCOUNT RECOVERY FACTOR

Service under this rate schedule is subject to the provisions of the Company's Rate Schedule No. 96 (Military Base Discount Recovery Factor).

TERMS OF PAYMENT

The due date of the bill for utility service shall not be less than sixteen (16) days after issuance. A bill becomes delinquent if not received at the Company by the due date. If the due date falls on a holiday or weekend, the next Company business day shall apply.

TERMS AND CONDITIONS

Service supplied under this rate schedule is subject to the Company's Rules and Regulations on file with the Public Utility Commission of Texas and available for inspection at Company offices.

APPLICATION OF RESIDENTIAL SERVICE RATE

This rate schedule is available only under the following conditions:

1. For a single household or single family for primarily domestic purposes in individual private residences, individually metered apartments, or non-commercial uses located on the same property and used in connection with and as an extension from the main residence.
2. For separately metered living quarters recognized as single-family living quarters for domestic home use.

EL PASO ELECTRIC COMPANY

SCHEDULE NO. 01

RESIDENTIAL SERVICE RATE

3. Service under this rate shall include home lighting and residential power for operation of household appliances.
4. Single-phase motors for domestic use may not exceed 10 HP without the written approval of the Company. The use of all single or three-phase motors over 5 HP must be approved by the Company concerning the motor's lock rotor amperes.
5. If three-phase service is supplied, sizes and other loads will be subject to Company approval. Three-phase service is only available from existing lines at the service location or if the Company determines it is economically feasible to bring the service to the location.
6. Wiring may be extended from the residence circuit to private garages, barns and similar structures and/or wells which are located on the same property as the residence and used exclusively for domestic purposes in connection with the residence.
7. For residences where rooms are rented or meals are served to boarders if these uses are incidental to the maintenance of a private residence, are permitted.

This rate is not available under the following conditions:

1. If a separate meter and service are provided for non-residential service, including but not limited to, garages, barns and similar structures and/or water wells and swimming pools, even though their use may be in connection with the residence.
2. When it is evident, either visually and/or electrically, that activity of a business or professional character is being conducted in the residence. Service to a combination residential and commercial establishment will be supplied under the appropriate commercial service rate, but the portion used as living quarters may be wired and metered separately and served on the Residential Service Rate.
3. When service in the primary residence is resold or shared with one or more other family residences. For example, a garage apartment or separate living quarters connected to the main residence electric service, or a duplex with one meter are not eligible for service under this rate schedule. The additional residence or separate living quarters may be placed on the residential rate if local zoning ordinances permit such use and the additional residence is served and metered separately.
4. When the Customer operates devices which cause undue fluctuation of voltage. Service may be limited at the Company's discretion when the Customer has an abnormally large connected load or kW demand.
