

EL PASO ELECTRIC COMPANY

JOB DESCRIPTION

TITLE: System Operator I – Transmission **CLASSIFICATION**
NUMBER: 022917 **GRADE**
LEVEL: 09

DEPARTMENT: System Operations **DIVISION:** System
Operations &
Planning **LOCATION:** Transmountain

JOB PURPOSE:

Under the general supervision of the Manager of System Operations is responsible for the safe, efficient, and reliable operation of EPE's transmission and distribution systems. Also, responsible for working with operating and field personnel to safely restore customer load, isolate equipment for maintenance, issuing hot line holds and clearances, and directing/monitoring switching procedures. Applies reliability tools to acquire a situational awareness of anticipated normal and contingency conditions, and develops appropriate responses to correct problems and stabilize the interconnected system. Maintains on a daily basis all distribution one-lines, substation one-lines, Energy Management System (EMS) displays, Geographic Information System (GIS) displays, and Smart Grid displays. Coordinates and executes routine and emergency procedures, as well as, power restoration plans in accordance with EPE General Orders, and North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC) reliability standards.

EDUCATION AND/OR SPECIAL TRAINING:

1. Bachelor Degree from an accredited college or university in Engineering; Minimum of an Associate Degree in Engineering Technology; or other analytical/technical field with basic knowledge of electric theory or power systems; or an equivalent combination of related training and experience.
2. One (1) year experience as a System Operator Trainee or an equivalent level of experience on an interconnected electrical system (two (2) years).
3. Must obtain NERC Balancing, Interchange, and Transmission Operator (BIT) certification within one (1) year of hire date, or maintain certification.
4. Successfully completes System Operator I – Transmission Examination within one (1) year of hire date.

EXPERIENCE AND MINIMUM REQUIREMENTS:

1. Basic knowledge of electrical principles, procedures and components, power system operations including power plant operations, fundamentals of alternating current circuits, and electrical safety policies and procedures.
2. Working knowledge in the use of personal computers, and ability to learn specialized software applications.
3. Ability to project current system conditions to future projections and take appropriate action.
4. Ability to monitor and apply control system principles rationally to solve practical problems and deal with a variety of concrete variables in situations where only limited standardization exists.
5. Ability to communicate effectively, orally and in writing.
6. Must have the ability of communicate in English fluently with all operating personnel responsible for the real-time generation control and operation of the interconnected Bulk Electric System.
7. Ability to establish and maintain good working relationships with officers, managers, fellow employees, representatives of other utilities, outside consultants and the public.
8. Ability to maintain a strong sense of propriety concerning confidential matters.

16. Operates the phase shifter and coordinates with the System Operator - Generation any adjustments required in order to maintain adequate El Paso Import Capability (EPIC).
17. Operates the HVDC tie as well as its associated Static VAR Compensator to import or export power to the Southwest Power Pool region.
18. Maintains on a daily basis all distribution one-lines, substation one-lines, Energy Management System (EMS) displays, Geographic Information System (GIS) displays, and Smart Grid displays.
19. Communicates abnormal system conditions to the WECC Reliability Coordinator (RC).
20. Complies with all applicable Company policies, procedures and code of ethics as well as all applicable governmental laws and regulations to include employment, safety and environmental standards and regulations.

AUTHORITY OF SYSTEM OPERATOR:

During normal and emergency conditions, El Paso Electric Company System Operators have the authority, following NERC and WECC reliability standards, to take or direct timely and appropriate real-time actions. Such actions shall include shedding of firm load to prevent or alleviate System Operating Limit violations and/or Reliability Operating Limit violations. These actions are performed without obtaining authority from higher-level personnel within El Paso Electric Company.

OTHER JOB FUNCTIONS:

Performs other related tasks that are not included, but are within the context of duties defined.

ENVIRONMENTAL DEMANDS:

The incumbents in this classification are not substantially exposed to adverse environmental conditions; primary work environment is typically of an office or administrative nature.

PHYSICAL DEMANDS:

1. Sedentary work: Exerting up to 10 pounds of force occasionally, and/or a negligible amount of force frequently or constantly to lift, carry, push, pull or otherwise move objects. This position will require sitting most of the time.
2. Walking: Moving about on foot to accomplish tasks.
3. Fingering: Picking, pinching, typing or otherwise working, primarily with fingers rather than with the whole hand or arm as in handling.
