

El Paso Electric SCORE® Plus Program Executive Summary

IMAGINE THE POSSIBILITIES WITH AN EXTRA \$127 MILLION* IN THE LOCAL ECONOMY

That's the impact the SCORE Plus Program has had on New Mexico organizations. Energy is one of the largest operating expenses facing an organization. The SCORE Plus Program provides you with the resources to identify energy efficiency opportunities and convert them into savings.

El Paso Electric (EPE) has partnered with CLEAResult to administer the program, and no products or services are sold through the program. Incentives are available for new and retrofit qualifying projects.

The SCORE Plus Program is available to EPE large commercial customers with a 100+ kW average demand and school and government facilities in New Mexico. The program's intent is to influence retrofit, renovation and new construction projects to higher levels of energy efficiency while educating Participants, design professionals and trade allies on energy efficiency best practices for future projects.

By participating in the program, you can take advantage of the following resources:

- **INCENTIVES** for every kWh and kW saved on qualifying projects, such as:
 - New Construction Projects
 - Strategic Energy Management
 - Custom M&V Projects
 - Lighting Retrofits
 - Lighting and Miscellaneous Controls
 - HVAC Installs and System Upgrades
 - CoolSaver HVAC Tune-Ups
 - ENERGY STAR® Certified Pool Pumps
 - ENERGY STAR Certified Commercial Food Service Equipment
 - Cool Roof Rating Council (CRRCC) Listed Cool Roofs
 - Refrigeration Measures
 - Building Envelope Measures
- **TECHNICAL ASSISTANCE** to help identify and evaluate energy efficiency opportunities.
- **COMMUNICATIONS SUPPORT** to help publicize your energy efficiency accomplishments.
- **STRATEGIC ENERGY MANAGEMENT** consulting and energy performance tracking for an in-depth look at your facility's energy consumption and exactly how you use energy.

Please contact EPE or CLEAResult should you have any questions or need additional information.

We look forward to helping your organization save energy and money.
