(DO NOT COMPLETE IF 1A, 1B, OR 1C COMPLETED ABOVE)

A multifamily property is eligible if at least 75% of the tenant household income before taxes meets the HUD or Health and Human Services (HHS) low-income criteria [$\leq 80\%$ Area Median Income (AMI) or $\leq 200\%$ of Federal Poverty Level (FPL) guidelines].

**STEP 1: Fill out the Multifamily Property Income Calculation Worksheet.
(Excel or hard copy must be included with this form)**

To accurately determine tenant **household income**, use the tenant rental application showing the number of individuals residing in the unit and the household income dated from within the past 18 months. If the rental application does not show the required information or the information is over 18 months old, then the tenant(s) must complete the **Single-Family Income Eligibility form**. Supporting documentation for each unit must be available for utility audit.

STEP 2: Compare the tenant's total household income per week, month, or year to the amount shown in the table below for the number of persons residing in the unit. Households may qualify based on HUD AMI limits or HHS FPL guidelines.

HUD AMI limits by geography and household size can be found here <https://www.hudexchange.info/programs/home/home-income-limits/> or <https://www.huduser.gov/portal/datasets/il.html>

Or, refer to the table below to verify income eligibility on whether the total household income is equal to or less than the amount shown by household size.
