BEFORE THE NEW MEXICO PUBLIC REGULATION COMMISSION

IN THE MATTER OF THE APPLICATION OF EL PASO ELECTRIC COMPANY FOR REVISION OF ITS RETAIL ELECTRIC RATES PURSUANT TO ADVICE NOTICE NO. 317

Docket No. 25-00082-UT

EL PASO ELECTRIC COMPANY,

Applicant.

EL PASO ELECTRIC COMPANY'S
NOTICE OF ERRATA AND FILING OF REPLACEMENT EXHIBITS

El Paso Electric Company ("EPE" or "Company") respectfully submits this Notice of Errata and Filing of Replacement Exhibits ("Notice"). EPE discovered or was made aware of the following four issues in the attachments to its Application for Revision of Retail Electric Rates filed March 27, 2026 ("Application"):

1. Exhibit JJS-1 to the testimony of John J. Spanos (PDF pages 915 to 1283 in PRCe360) inadvertently contained the wrong document. Rather than Mr. Spanos' qualifications, the incorrect attachment contained the depreciation study to which Mr. Spanos testifies. **Exhibit A** to this Notice contains a replacement Exhibit JJS-1 with the correct document.
2. Table AH-7 in the Direct Testimony of Adrian Hernandez (PDF page 1973 in PRCe360) is difficult to read. **Exhibit B** to this Notice contains the corrected pages of Mr. Hernandez' testimony.
3. Schedule A-3 (PDF pages 2324 to 2335 in PRCe360) did not follow the correct format, included more information than required by Rule 17.9.530 NMAC, and incorrectly

labeled the document in the upper right-hand corner of each page of the document. A replacement Schedule A-3 in the correct format is attached as **Exhibit C** to this Notice.

4. The Application inadvertently omitted several of the workpapers completed by EPE. Specifically, the workpapers attached to the Application (PDF pages 3317 to 3937 in PRCe360) included only workpaper O and workpapers for individual witnesses Nelson, Soto, and Carrasco. Attached as **Exhibit D** is a replacement set of workpapers that includes workpapers A, G, H, J, K, M, O, and P, along with the workpapers for the individual witnesses. Workpaper O and the individual witness workpapers are unchanged, but EPE is including a complete set of workpapers for the convenience of the Commission, the Hearing Examiners, and the parties.

EPE requests that these corrected pages and replacement exhibits (Exhibits A through D to this Notice) be substituted for the incorrect versions filed with EPE's Application on March 27, 2026. Neither Staff, other parties, nor the Commission were prejudiced by this error because service of the corrected versions was made in advance of any deadlines being adopted by the Hearing Examiners. This Notice is being filed for completeness and accuracy of the record in this docket.

Exhibit JJS-1 REPLACEMENT – Statement of Qualifications

JOHN SPANOS

DEPRECIATION EXPERIENCE

Q. Please state your name.

A. My name is John J. Spanos.

Q. What is your educational background?

A. I have Bachelor of Science degrees in Industrial Management and Mathematics from Carnegie-Mellon University and a Master of Business Administration from York College.

Q. Do you belong to any professional societies?

A. Yes. I am a member and past President of the Society of Depreciation Professionals and a member of the American Gas Association/Edison Electric Institute Industry Accounting Committee.

Q. Do you hold any special certification as a depreciation expert?

A. Yes. The Society of Depreciation Professionals has established national standards for depreciation professionals. The Society administers an examination to become certified in this field. I passed the certification exam in September 1997 and was recertified in August 2003, February 2008, January 2013, February 2018 and February 2023.

Q. Please outline your experience in the field of depreciation.

A. In June 1986, I was employed by Gannett Fleming Valuation and Rate Consultants, Inc. as a Depreciation Analyst. During the period from June 1986 through December 1995, I helped prepare numerous depreciation and original cost studies for utility companies in various industries. I helped perform depreciation studies for the following telephone companies: United Telephone of Pennsylvania, United Telephone of New Jersey, and Anchorage Telephone Utility. I helped perform depreciation studies for the following companies in

the railroad industry: Union Pacific Railroad, Burlington Northern Railroad, and Wisconsin Central Transportation Corporation.

I helped perform depreciation studies for the following organizations in the electric utility industry: Chugach Electric Association, The Cincinnati Gas and Electric Company (CG&E), The Union Light, Heat and Power Company (ULH&P), Northwest Territories Power Corporation, and the City of Calgary - Electric System.

I helped perform depreciation studies for the following pipeline companies: TransCanada Pipelines Limited, Trans Mountain Pipe Line Company Ltd., Interprovincial Pipe Line Inc., Nova Gas Transmission Limited and Lakehead Pipeline Company.

I helped perform depreciation studies for the following gas utility companies: Columbia Gas of Pennsylvania, Columbia Gas of Maryland, The Peoples Natural Gas Company, T. W. Phillips Gas & Oil Company, CG&E, ULH&P, Lawrenceburg Gas Company and Penn Fuel Gas, Inc.

I helped perform depreciation studies for the following water utility companies: Indiana-American Water Company, Consumers Pennsylvania Water Company and The York Water Company; and depreciation and original cost studies for Philadelphia Suburban Water Company and Pennsylvania-American Water Company.

In each of the above studies, I assembled and analyzed historical and simulated data, performed field reviews, developed preliminary estimates of service life and net salvage, calculated annual depreciation, and prepared reports for submission to state public utility commissions or federal regulatory agencies. I performed these studies under the general direction of William M. Stout, P.E.

In January 1996, I was assigned to the position of Supervisor of Depreciation Studies. In July 1999, I was promoted to the position of Manager, Depreciation and

Valuation Studies. In December 2000, I was promoted to the position as Vice-President of Gannett Fleming Valuation and Rate Consultants, Inc., in April 2012, I was promoted to the position as Senior Vice President of the Valuation and Rate Division of Gannett Fleming Inc. (now doing business as Gannett Fleming Valuation and Rate Consultants, LLC) and in January of 2019, I was promoted to my present position of President of Gannett Fleming Valuation and Rate Consultants, LLC. In my current position I am responsible for conducting all depreciation, valuation and original cost studies, including the preparation of final exhibits and responses to data requests for submission to the appropriate regulatory bodies.

Since January 1996, I have conducted depreciation studies similar to those previously listed including assignments for Pennsylvania-American Water Company; Aqua Pennsylvania; Kentucky-American Water Company; Virginia-American Water Company; Indiana-American Water Company; Iowa-American Water Company; New Jersey-American Water Company; Hampton Water Works Company; Omaha Public Power District; Enbridge Pipe Line Company; Inc.; Columbia Gas of Virginia, Inc.; Virginia Natural Gas Company National Fuel Gas Distribution Corporation - New York and Pennsylvania Divisions; The City of Bethlehem - Bureau of Water; The City of Coatesville Authority; The City of Lancaster - Bureau of Water; Peoples Energy Corporation; The York Water Company; Public Service Company of Colorado; Enbridge Pipelines; Enbridge Gas Distribution, Inc.; Reliant Energy-HLP; Massachusetts-American Water Company; St. Louis County Water Company; Missouri-American Water Company; Chugach Electric Association; Alliant Energy; Oklahoma Gas & Electric Company; Nevada Power Company; Dominion Virginia Power; NUI-Virginia Gas Companies; Pacific Gas & Electric Company; PSI Energy; NUI - Elizabethtown Gas Company; Cinergy Corporation – CG&E; Cinergy

Corporation – ULH&P; Columbia Gas of Kentucky; South Carolina Electric & Gas Company; Idaho Power Company; El Paso Electric Company; Aqua North Carolina; Aqua Ohio; Aqua Texas, Inc.; Aqua Illinois, Inc.; Ameren Missouri; Central Hudson Gas & Electric; Centennial Pipeline Company; CenterPoint Energy-Arkansas; CenterPoint Energy – Oklahoma; CenterPoint Energy – Entex; CenterPoint Energy - Louisiana; NSTAR – Boston Edison Company; Westar Energy, Inc.; United Water Pennsylvania; PPL Electric Utilities; PPL Gas Utilities; Wisconsin Power & Light Company; TransAlaska Pipeline; Avista Corporation; Northwest Natural Gas; Allegheny Energy Supply, Inc.; Public Service Company of North Carolina; South Jersey Gas Company; Duquesne Light Company; MidAmerican Energy Company; Laclede Gas; Duke Energy Company; E.ON U.S. Services Inc.; Elkton Gas Services; Anchorage Water and Wastewater Utility; Kansas City Power and Light; Duke Energy North Carolina; Duke Energy South Carolina; Monongahela Power Company; Potomac Edison Company; Duke Energy Ohio Gas; Duke Energy Kentucky; Duke Energy Indiana; Duke Energy Progress; Northern Indiana Public Service Company; Tennessee- American Water Company; Columbia Gas of Maryland; Maryland-American Water Company; Bonneville Power Administration; NSTAR Electric and Gas Company; EPCOR Distribution, Inc.; B. C. Gas Utility, Ltd; Entergy Arkansas; Entergy Texas; Entergy Mississippi; Entergy Louisiana; Entergy Gulf States Louisiana; the Borough of Hanover; Louisville Gas and Electric Company; Kentucky Utilities Company; Madison Gas and Electric; Central Maine Power; PEPCO; PacifiCorp; Minnesota Energy Resource Group; Jersey Central Power & Light Company; Cheyenne Light, Fuel and Power Company; United Water Arkansas; Central Vermont Public Service Corporation; Green Mountain Power; Portland General Electric Company; Atlantic City Electric; Nicor Gas Company; Black Hills Power; Black Hills Colorado Gas; Black Hills Energy Arkansas, Inc.; Black Hills Kansas

Gas; Black Hills Service Company; Black Hills Utility Holdings; Public Service Company of Oklahoma; City of Dubois; Peoples Gas Light and Coke Company; North Shore Gas Company; Connecticut Light and Power; New York State Electric and Gas Corporation; Rochester Gas and Electric Corporation; Greater Missouri Operations; Tennessee Valley Authority; Omaha Public Power District; Indianapolis Power & Light Company; Vermont Gas Systems, Inc.; Metropolitan Edison; Pennsylvania Electric; West Penn Power; Pennsylvania Power; PHI Service Company - Delmarva Power and Light; Atmos Energy Corporation; Citizens Energy Group; PSE&G Company; Berkshire Gas Company; Alabama Gas Corporation; Mid-Atlantic Interstate Transmission, LLC; SUEZ Water; WEC Energy Group; Rocky Mountain Natural Gas, LLC; Illinois-American Water Company; Northern Illinois Gas Company; Public Service of New Hampshire; FirstEnergy Service Corporation; Northeast Ohio Natural Gas Corporation; Blue Granite Water Company; Spire Missouri, Inc.; Dominion Energy South Carolina, Inc.; South FirstEnergy Operating Companies; Dayton Power and Light Company; Liberty Utilities; East Kentucky Power Cooperative; Bangor Natural Gas; Hanover Borough Municipal Water Works; West Virginia American Water Company; Evergy Metro; Evergy Missouri West; Granite State Electric; Bluegrass Water; The Borough of Ambler; Newtown Artesian Water Company and Connecticut Water Company.

My additional duties include determining final life and salvage estimates, conducting field reviews, presenting recommended depreciation rates to management for its consideration and supporting such rates before regulatory bodies.

Q. Have you submitted testimony to any state utility commission on the subject of utility plant depreciation?

A. Yes. I have submitted testimony to the Pennsylvania Public Utility Commission; the

Commonwealth of Kentucky Public Service Commission; the Public Utilities Commission of Ohio; the Nevada Public Utility Commission; the Public Utilities Board of New Jersey; the Missouri Public Service Commission; the Massachusetts Department of Telecommunications and Energy; the Alberta Energy & Utility Board; the Idaho Public Utility Commission; the Louisiana Public Service Commission; the State Corporation Commission of Kansas; the Oklahoma Corporate Commission; the Public Service Commission of South Carolina; Railroad Commission of Texas – Gas Services Division; the New York Public Service Commission; Illinois Commerce Commission; the Indiana Utility Regulatory Commission; the California Public Utilities Commission; the Federal Energy Regulatory Commission ("FERC"); the Arkansas Public Service Commission; the Public Utility Commission of Texas; Maryland Public Service Commission; Washington Utilities and Transportation Commission; The Tennessee Regulatory Commission; the Regulatory Commission of Alaska; Minnesota Public Utility Commission; Utah Public Service Commission; District of Columbia Public Service Commission; the Mississippi Public Service Commission; Delaware Public Service Commission; Virginia State Corporation Commission; Colorado Public Utility Commission; Oregon Public Utility Commission; South Dakota Public Utilities Commission; Wisconsin Public Service Commission; Wyoming Public Service Commission; the Public Service Commission of West Virginia; Maine Public Utility Commission; Iowa Utility Board; Connecticut Public Utilities Regulatory Authority; New Mexico Public Regulation Commission; Commonwealth of Massachusetts Department of Public Utilities; Rhode Island Public Utilities Commission and the North Carolina Utilities Commission.

Q. Have you had any additional education relating to utility plant depreciation?

A. Yes. I have completed the following courses conducted by Depreciation Programs, Inc.:

"Techniques of Life Analysis," "Techniques of Salvage and Depreciation Analysis," "Forecasting Life and Salvage," "Modeling and Life Analysis Using Simulation," and "Managing a Depreciation Study." I have also completed the "Introduction to Public Utility Accounting" program conducted by the American Gas Association.

Q. Does this conclude your qualification statement?

A. Yes.

EXHIBIT B

HERNANDEZ CORRECTED DIRECT TESTIMONY

PAGES 1,973 – 1,974

of Rate Nos. 3 and 7 because Rate No. 3 would be the qualifying rate for many customers if they are not eligible to take service under a reopened Rate No. 7.

Table AH-7

Rate Class	Full Cost of Service	Billing Determinants	Full Cost
	($)	(kWh)	($/kWh)
Rate 3	22,119,827	203,022,875	0.1089524
Rate 7	9,349,455	81,192,961	0.1151511
		Differential ($/kWh)	0.0061987
		(%)	0.0568936

The table shows no significant disparity exists in the cost of serving Rate No. 7 and Rate No. 3 customers. It also shows that the cost to serve Rate No. 7 customers is about 5.7 percent more than the cost to serve Rate No. 3 customers.

The results show that there is no cost basis for having a separate rate class for governmental entities. However, at this time, EPE is proposing to leave Rate No. 7 closed to new customers.

IX. SUMMARY AND CONCLUSION

Q128. PLEASE SUMMARIZE YOUR TESTIMONY.

A. The JCOS for the Test Year ended September 30, 2025, results in a total revenue requirement of $297.0 million and a base rate revenue requirement of

$210.7 million for the New Mexico jurisdiction. The base revenue deficiency is $70.6 million.

The CCOS shows the assignment of the revenue requirements discussed above to each rate class. Table 5 summarizes the CCOS, and the resulting rate increase required to achieve an equalized rate of return across rate classes. The resulting firm base revenue requirements (net of non-firm revenues) for each class are shown on line 1 of Schedule N-1 and the results for each rate class by DEC Component are shown in Schedule L-1.

Q129. IN YOUR OPINION, ARE THE ALLOCATION METHODS AND THE RESULTS OF THE ALLOCATIONS EMPLOYED IN EPE'S COST-OF-SERVICE STUDIES FAIR AND REASONABLE?

A. Yes. The allocation methods employed in EPE's cost-of-service studies are fair and reasonable and accurately present the costs to serve each jurisdiction and rate class. Furthermore, the methods that have been employed in conducting the cost-of-service studies utilize well-reasoned methods which are commonly employed in the electric utility industry.

Q130. DOES THIS CONCLUDE YOUR TESTIMONY?

A. Yes, it does.

(a) Reflects the requested New Mexico coal reclamation amount from Case No. 15-00109-UT.

(b) Adjustment reflects annualized kwh sales decrease to gas expense and and weatherized kwh sales increase to gas expense, respectively.

(c) Reflects adjustment to add back DOE refund for units 1 and 2 nuclear fuel expense.

(d) Reflects removal of Palo Verde Unit 3 nuclear fuel expense.

(e) Represents the total company portion of capacity charges, related to the Buena Vista, Carne, and Santa Teresa battery energy storage facilities, to be requested for recovery via base rates in this case. See page 3 of this adjustment.

(f) Represents the amortization of the regulatory asset related to the New Mexico portion of Buena Vista Battery capacity charges that were approved by the NMPRC in Case No. 19-00348-UT as a system resource. Includes one year of amortization plus related carrying costs for the recovery of NM Buena Vista Capacity charges.

7	New Mexico Annual Capacity Amount	$ 670,096	$ 8,572,200	$ 7,770,000	$ 17,012,296	$ 653,366	$ 17,665,662

(a) Represents the amortization of the regulatory asset related to the New Mexico portion of Buena Vista Battery capacity charges that were approved by the NMPRC in Case No. 19-00348-UT as a system resource. Includes one year of amortization plus related carrying costs for the recovery of NM Buena Vista Capacity charges.

(b) The Buena Vista annual capacity is jurisdictionally allocated to New Mexico based on the D1 Prod allocator per this case. All others are direct assigned to New Mexico.

Line No.	(a) Description	(b) Total Company	(c) New Mexico
	Salaries And Wages Expense		
1	Expense Amount, As Adjusted	$ 87,176,894	
	Less:		
2	Amount Per Books	$ 82,986,272	
3	Adjustment	$ 4,190,622	$ 1,013,909

Justification for requested adjustment:
EPE Salaries and Wages are annualized based on payroll data as of the end of the Base Period in this case, September 2025. This annualized payroll data is adjusted to reflect the contractual increase for union employees set forth in the current collective bargaining agreement and a pay increase for non-union employees based on the lower of budgeted increase or prior three-year average increase. These increases will be effective February 2026. A calculated O&M average expense ratio is then applied to the adjusted payroll and bonus amounts.

Scams

Digital Performance

The campaign aimed to enhance community awareness of utility scams and guide users to El Paso Electric's scam awareness page for additional information on how to identify and respond to scams.

Media Channels and Performance:

Social Media Reach: Successfully engaged a large audience, generating strong interest and meaningful interactions. The ad's compelling content and targeting strategy contributed to a strong response, reflected in its high click-through rate, making it highly effective in capturing attention and driving engagement.

Sponsored Article: The article attracted a large audience with minimal duplicate reads, demonstrating strong engagement and a successful reach.

Media Channel	Impressions	Reach	Clicks	CTR
Facebook/IG	800,453	655,710	18,605	2.33
Sponsored Art cle	1,327	986	---	---

October 16, 2024 – December 28, 2024

English Carousel
Reach: 48,032
Impressions: 227,478
Reactions: 54
Comments: 6
Clicks: 5,182
CTR: 2.27%
Shares: 6

Spanish Carousel
Reach: 127,201
Impressions: 572,975
Reactions: 329
Comments: 26
Clicks: 13,423
CTR: 2.34%
Shares: 110

Insights

- Both English and Spanish carousel ads significantly outperformed the platform's CTR benchmark of 0.09%-1.3%
- The Spanish carousel generated more engagement with 329 reactions, 26 comments, and 110 shares. This indicates that Spanish-language messaging resonated particularly well with the target audience.

The industry benchmark for this platform is a Click-Through Rate (CTR) between 0.09% - 1.3%

Positive Audience Feedback:

- Many comments on both English and Spanish ads thanked the utility for sharing scam tips or shared personal scam experiences and advice, creating organic, user-generated content that enhanced the posts and boosted campaign credibility.

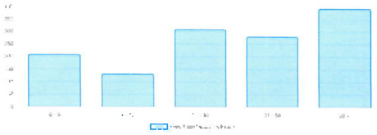
December 11, 2024 – January 13, 2025

Article
Reads: 1,327
Unique Reads: 1,228
Engaged Reads: 986
Engaged Rate (10+ Sec): 74.30%

Facebook Sponsored Post
Impressions: 57,062
Clicks: 1,218
Reach: 52,529
CTR: 2.13%

Insights

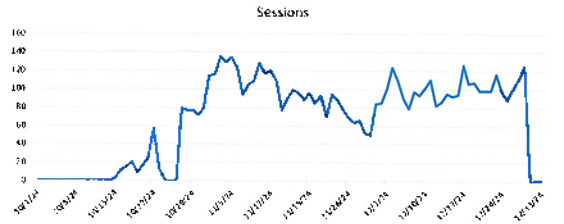


- The average scroll rate was 45%, indicating that readers typically do not scroll beyond halfway through the article. This highlights the importance of placing key content within the first half of the article.
- The article was read 1,327 times by 1,228 unique readers, indicating minimal duplicate reads. This suggests a strong and distinct interest in the content.

The chart to the right shows that the most engaged reads occurred in the 60+ seconds range, followed by the 11-30 seconds bracket as the second highest. This data indicates that the article successfully retained a significant amount of readers' attention, with an average active time of 48 seconds.

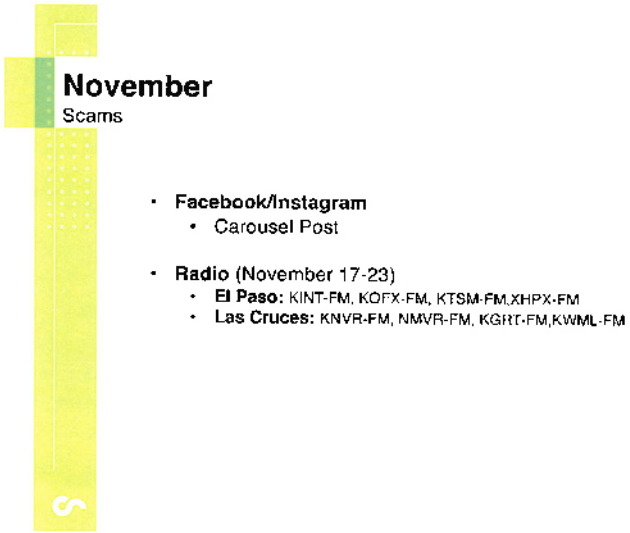
The average number of reads per campaign on this platform is approximately 1,100
Average read time for this platform is 45 seconds.

Read article here



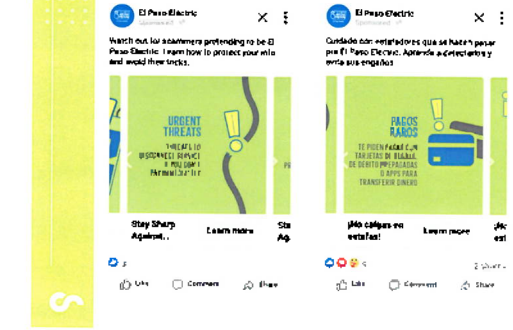
Scams

Website Analytics
Google Analytics



Insights

- Facebook contributed 6,148 sessions, accounting for most of the traffic. This underscores its strength in driving awareness and bringing users to the site.
- Facebook's engagement rate (21%) is decent, indicating that a fair proportion of sessions led to meaningful actions. However, EP Times outperforms it with a 29% engagement rate, showcasing its ability to drive quality interactions
- The timeline shows a steady increase in sessions starting in late October, peaking around early November, and then stabilizing throughout December. This suggests that the campaign effectively built momentum, but additional efforts may be needed to sustain engagement in the long term.



Session source	Sessions	Engaged sessions	Engagement rate	Average engagement time per session (in seconds)
Facebook	6148	1369	21%	6.42
EP Times	14	4	29%	23.71

Session is a period of user activity on your website or app. It starts when a user lands on your site and ends after 30 minutes of inactivity or when the user leaves
Engaged Session is a session that lasts 10 seconds or longer, includes a complete conversion events, or has 2 or more pageviews or screen views
Engagement Rate is the percentage of engaged sessions (Engaged sessions/Sessions)

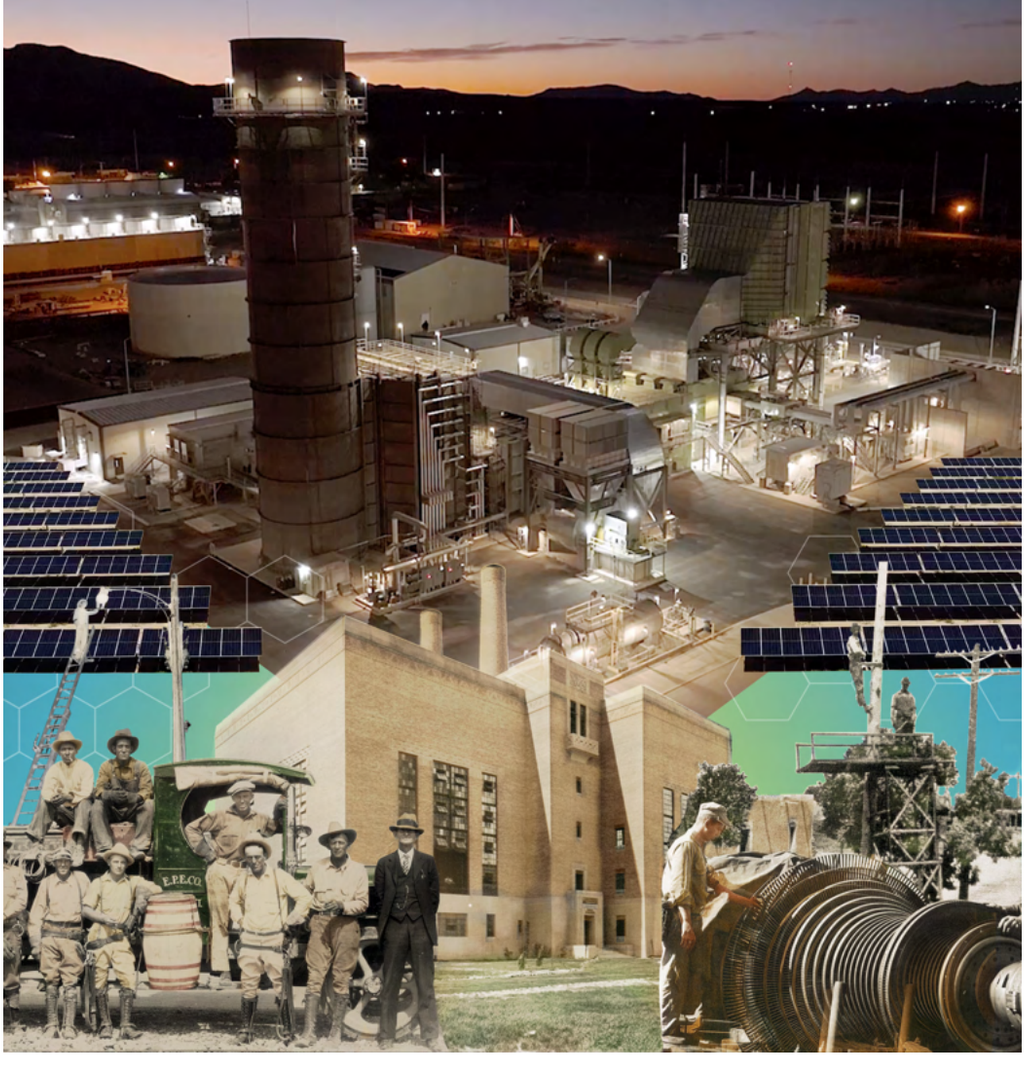
The Electric Company
El Paso Electric



BUILT TO LAST.
PIONEERING PROGRESS.

From mule-driven cars to the earliest power lines to today's smart grid, El Paso Electric has helped lay the foundation for how our communities grow and connect.

Today, we're building on that foundation — expanding our infrastructure, integrating cleaner energy, and investing in the reliability local families and businesses count on.

Because supporting this region means supporting innovation and what's ahead.

See how we're planning for the future at

Notice: This email originated outside of EPE, exercise caution with links and attachments. This email came from outside the organization, were you expecting it? **Think before you Click!**

Hello Jacob - this is what we used last year, if you want the same or tweak it a bit.

WHEN IT'S HOT....

This weather brought to you by El Paso Electric - Stay safe this summer as temperatures soar! EPE continuously monitors extreme heat, as line crews work safely and quickly to ensure you have reliable power.

WHEN STORMS IN THE AREA OR FORECASTED....

"This severe weather season, if storms lead to power outages, El Paso Electric's dedicated crews will work quickly and safely to restore your power. Stay informed and report outages in real time by downloading the El Paso Electric app."

"Doppler" Dave Speelman
Chief Meteorologist

Hello Jacob - this is what we used last year, if you want the same or tweak it a bit.

WHEN IT'S HOT....

This weather brought to you by El Paso Electric - Stay safe this summer as temperatures soar! EPE continuously monitors extreme heat, as line crews work safely and quickly to ensure you have reliable power.

WHEN STORMS IN THE AREA OR FORECASTED....

"This severe weather season, if storms lead to power outages, El Paso Electric's dedicated crews will work quickly and safely to restore your power. Stay informed and report outages in real time by downloading the El Paso Electric app."

Hello Jacob - this is what we used last year, if you want the same or tweak it a bit.

WHEN IT'S HOT....

This weather brought to you by El Paso Electric - Stay safe this summer as temperatures soar! EPE continuously monitors extreme heat, as line crews work safely and quickly to ensure you have reliable power.

WHEN STORMS IN THE AREA OR FORECASTED....

"This severe weather season, if storms lead to power outages, El Paso Electric's dedicated crews will work quickly and safely to restore your power. Stay informed and report outages in real time by downloading the El Paso Electric app."

"Doppler" Dave Speelman
Chief Meteorologist

Hi Anita,

That is correct. The Corporate Sustainability Report ad will run on 5/24. Please note the other ad, NM TEP – EVs will be for the Guide.

Let me know if you have further questions.

Thank you,
Clarissa

Subject: Las Cruces Bulletin: El Paso Electric - Full Page Ad

Hi Belinda,

Hope all is well! EPE is interested in securing a full-page ad placement in your upcoming publication, and I've attached the creative for your reference. Could you please confirm receipt? Upon the publication of the ad, please send an e-tear for our records. Thanks so much.

*Please note we are also finalizing creative for the 2024-2025 Think Local First Guide! My colleague Angie had reached out regarding this placement and I will be your main POC moving forward.

Thank you,
Clarissa

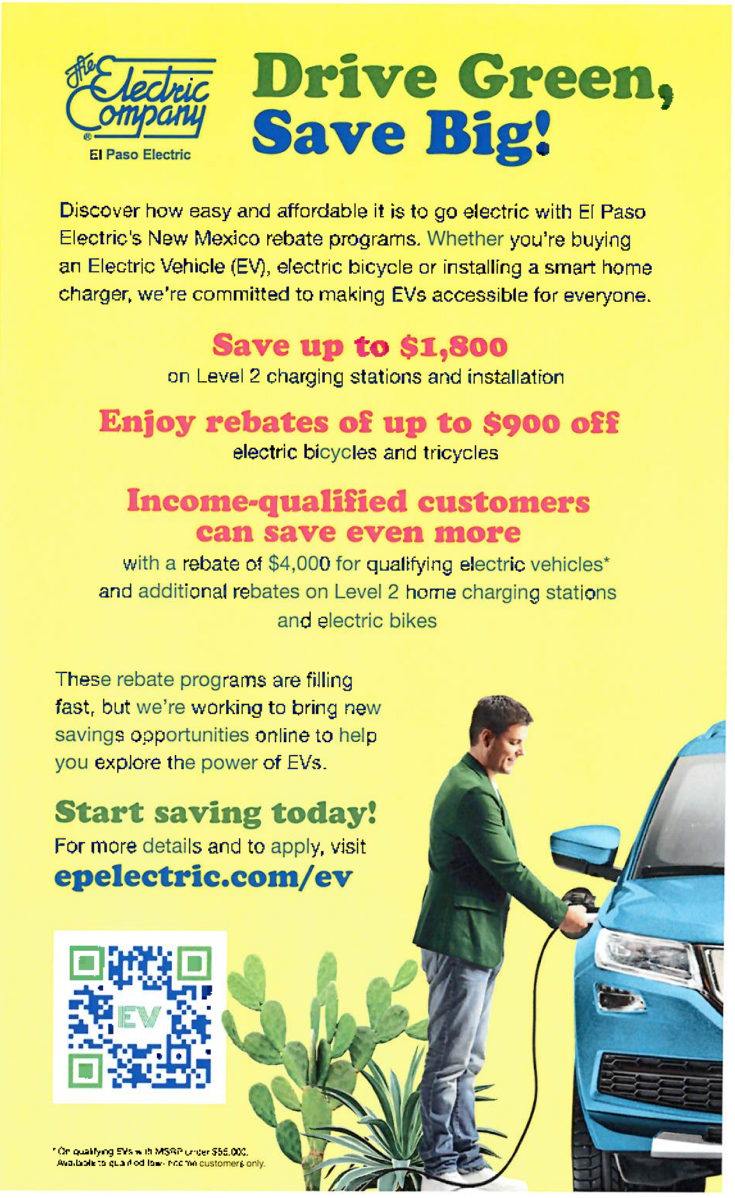
Hello Eve,



Our team at El Paso Electric would like to purchase a full page or insider cover (not sure how insider cover would look like) to raise community awareness of our rebates for electric vehicles, home chargers, as a part of $11.8 mil portfolio of programs.

How do we go about working with you on that?

Angie and team

WE ARE TRANSFORMING **THE ENERGY LANDSCAPE**

Angie Rodriguez | El Paso Electric Company

The Electric Company
El Paso Electric
Drive Green, Save Big!
Discover how easy and affordable it is to go electric with El Paso Electric's New Mexico rebate programs. Whether you're buying an Electric Vehicle (EV), electric bicycle or installing a smart home charger, we're committed to making EVs accessible for everyone.
Save up to $1,800
on Level 2 charging stations and installation
Enjoy rebates of up to $900 off
electric bicycles and tricycles
Income-qualified customers can save even more
with a rebate of $4,000 for qualifying electric vehicles*
and additional rebates on Level 2 home charging stations
and electric bikes
These rebate programs are filling fast, but we're working to bring new savings opportunities online to help you explore the power of EVs.
Start saving today!

Notes Volume Discount Q3 2024

Summary of Charges

Description	Units Delivered	Rate	Net Total
Volume Discount Q3 2024	1	$16,543.80000	-$16,543.80

Subtotal	$16,543.80
Tax	$0.00
Total	**-$16,543.80 USD**
Total Applied	**$0.00 USD**
Remaining Credit	**-$16,543.80 USD**

Please process the invoice by the due date. There is a 1.5% overdue charge per month on late invoices. StackAdapt Inc. reserves the right to suspend service until overdue invoices are paid in full. The credit memo expires 12 months from the date of issuance.

This invoice supersedes any other version of invoices reflecting fees owed to StackAdapt for the same period marked on the invoice. If there are any discrepancies in the charges listed on an invoice, contact the Account Receivable department in writing within 15 days from the original date of the invoice. Failure to report a dispute within this timeframe may result in the charges being considered as accepted.

Questions? Please contact the Billing Team or your Account Executive (AE) at billing@stackadapt.com

  KVLC 101.1 - $1,347.68

- **Proofs:**
  - **Script English:**
    You'll want to show off your savings from El Paso Electric's energy efficiency programs. They're something to be proud of!

    Like… "Post-selfies-with-your-new-air-conditioner" proud. [SFX: Camera flash and shutter]

    [increasingly excited] Or "get-a-tattoo-of-your-insulation" proud. [SFX: Buzzing tattoo machine]

    [Excitement reaches its peak] Or "Hire-a-pilot-to-write-'I love my smart thermostat'-in-the-sky proud!" [SFX: Small twin-prop airplane]

    [breaking the fourth wall, in a normal voice] Ahem… sorry… all these rebates, discounts, and lower electric bills, even I get carried away…

    [resuming radio voice] Make eligible home upgrades and stack up the savings at Reclaim The Power dot com.
  - **Audio file:** LINKED HERE

  - **Script Spanish:**
    Vas a querer presumir los ahorros que vas a hacer con los programas de energía eficiente de El Paso Electric

    Tanto como para postear una selfie de tu nuevo aire acondicionado. [SFX: Camera flash and shutter]

    O si quieres tatuártelo también.[SFX: Buzzing tattoo machine]

[Excitement reaches its peak] O como para contratar a un piloto que escriba ¡Amo mi termostato inteligente! en el cielo. [SFX: Small twin-prop airplane]

[breaking the fourth wall, in a normal voice] Hmm… perdón… todos estos reembolsos, descuentos, y ahorros en las facturas de electricidad, hasta yo me dejo llevar! …

[resuming radio voice] Haz actualizaciones elegibles en tu hogar y acumula tus ahorros en Reclaim The Power punto com.

1	Expense Amount, As Adjusted	$ 9,089,711	
	Less:		
2	Amount Per Books	9,857,792	
3	Adjustment	$ (768,081)	$ (164,793)

FERC Account	Per Book	Adjustment	As Adjusted	New Mexico
921	$ 6,601,183	$ (2,027)	$ 6,599,156	$ (435)
930.2	3,256,609	(766,054)	2,490,555	(164,358)
	$ 9,857,792	$ (768,081)	$ 9,089,711	$ (164,793)

Justification for Requested Adjustment

To annualize and normalize BOD Fees, and to reflect the 50% reduction on BOD fees consistent with the Commission's rate treatment in the 2020 Rate Case in NMPRC Case No. 20-00104-UT, and to remove lobbying expenses misclassified in O&M expense.

EL PASO ELECTRIC COMPANY
2026 NEW MEXICO RATE CASE
WORKPAPER A-3 SUMMARY OF COST OF SERVICE ADJUSTMENTS
OPERATION AND MAINTENANCE EXPENSE
MISCELLANEOUS GENERAL AND OTHER EXPENSES
SPONSOR: STEVEN SIERRA
PREPARER: EN LI
FOR THE BASE AND TEST YEAR PERIODS ENDED SEPTEMBER 30, 2025

Line No.	(a) Account No.	(b) Description	(c) Amount
		Board of Directors' Fees	
1	930.2	Annualize, normalize and reduce one half of Directors' Fees	$ (766,054)
		Other Expenses	
2	921	Remove Lobbying Expenses Misclassified in O&M	$ (2,027)
3		Total	$ (768,081)

Directors' Fees Per Book	$	1,323,554	
Annualized BOD Fees		(1,115,000)	(a)
Reduce one half of BOD Fees		557,500	(b)
Total Adjustment		(766,054)	
Directors' Fees, As Adjusted	$	557,500	

(a) Based on annualized BOD fee schedule as of 1/1/2025 for seven paid BOD members. BOD is comprised of ten Directors, but only seven Directors are compensated for their service. BOD includes two IIF US 2-level representatives and EPE's CEO, who are not compensated for their service.

(b) To reduce one half of the Directors' Fees, consistent with the Commission's rate treatment in the 2020 Rate Case in NMPRC Case No. 20-00104-UT.

Line No.	(a) Description	(b) Total Company	(c) New Mexico
	Regulatory Commission Expense FERC Account No. 928		
1	Expense, As Adjusted	$ 4,370,594 (C)	
	Less:		
2	Amount Per Books	5,118,731 (A)	
3	Adjustment	$ (748,137) (B)	$ (142,056)

Justification for Requested Adjustment

(A) Energy efficiency (EE) amounts that are included with Other Regulatory Activities are excluded within the adjustment.

Other Regulatory Activities	$	5,118,731 (A)
Energy Efficiency	$	8,467,465
Total Per Books	$	13,586,196

(B) This adjustment represents the net decrease in regulatory commission expenses to include rate case expense estimates for the current case amortized over a two year period, and to exclude prior rate case related expenses, and other amounts as noted in page 3 of this adjustment.

(C) Included in cost of service are Other Regulatory activities and current rate case amortization.

		Total Company Amount
Total Other Regulatory Activities		$ 5,118,731
Include current 2026 NM Rate Case Expenses amortized over two years	(P2)	1,007,900
Exclude 2020 New Mexico Rate Case Amortization	(P3)	(325,848)
Exclude amortization expense related to the Texas jurisdiction	(P3)	(854,849)
Exclude amortization expense related to the FERC jurisdiction	(P3)	(575,340)
Expense, As Adjusted		$ 4,370,594

32	Total		$ 5,118,731	$ (748,137)	$ 4,370,594	

Note:

(A) The adjustment reflects one year of amortization for the 2026 New Mexico Rate Case expense estimate. Refer to page 2 of this adjustment.

(B) The Total Company amount is being requested in this case to cover similar regulatory commission expenses that may arise in future cases.

(C) The adjustment removes amounts recovered in a separate rider.

(D) The adjustment zeroes out the beginning balance that was reclassified to another account.

(E) These amounts are not allocated to the New Mexico jurisdiction.

(F) Regulatory activity consists of other general regulatory expenses related to various cases and/or filings.

Amounts may not add or tie due to rounding.

Total	$ 6,638,411	$ 583,317	$ 7,221,728		$ 1,691,481

(A) Represents amortization of a regulatory asset related to renewable energy and associated costs as per NMPRC Case Nos. 15-00127-UT and 20-00104-UT. These costs will be fully amortized by June 2026.

(B) Represents amortization of a regulatory asset related to costs associated with EPE's NMPRC approved Transportation Electrification Plan as per NMPRC Case No. 20-00241-UT. These costs are recovered through a separate rider that is updated annually.

(C) Represents one year of amortization for the regulatory asset related to the extended depreciable life of Palo Verde. In NMPRC Case No. 09-00171-UT, the NMPRC extended the depreciable life of Palo Verde an additional 20 years for New Mexico rate making purposes, reducing the depreciation expense collected from New Mexico customers in rates, effective January 2010. In April 2011, the Nuclear Regulatory Commission renewed the operating license for all three units at Palo Verde for an additional 20 years; therefore, the incremental difference in Palo Verde depreciation for the New Mexico jurisdiction is being amortized to account 407.3 over the remaining life of Palo Verde. See EPE witness Prieto's direct testimony.

(D) Represents amortization of Demand Response Pilot Program costs that will be fully amortized in June 2026 as per NMPRC Case No. 17-00016-UT.

(E) To include one year of amortization related to the regulatory asset for the New Mexico Four Corners decommissioning as per NMPRC Case No. 20-00104-UT.

(F) Represents amortization of the regulatory asset related to EPE's request to recover non-capitalized Western Energy Imbalance Market ("EIM") implementation costs on a New Mexico jurisdictional basis per NMPRC Case No. 21-00180-UT. Includes one year of amortization plus related carrying costs for the recovery of EIM implementation costs.

(G) The Final Order on Remand from the New Mexico Supreme Court in NMPRC Case No. 20-00104-UT approved EPE's updated filed rates effective January 1, 2024. The updated rates include approximately $0.6 million in additional annual base revenue requirement related to amounts found to be unlawfully excluded by the NMPRC's prior order in the case. The Final Order on Remand also approved EPE's request to record additional revenue from the date of the Supreme Court remand to December 31, 2023, as a regulatory asset for recovery in EPE's next rate case. Includes one year of amortization plus related carrying costs for recovery of the New Mexico Rate Case Remand costs.

(H) Represents amortization of the regulatory assets related to the costs of the New Mexico Automated Metering System Time Varying Rate Pilot Program in NMPRC Case No. 24-00113-UT. Includes one year of amortization plus related carrying costs for the recovery of NM Time Varying Rate Pilot Program costs.

(I) Represents amortization of a regulatory asset related to New Mexico portion of bad debt expense and other COVID-19 expenses. Includes one year of amortization. See EPE Witness Prieto's direct testimony.

(J) These amounts are not allocated to the New Mexico jurisdiction.

(K) The Total Company Amount represents the amortization of a regulatory asset related to the New Mexico portion of the net book value of non-advanced meters as per NMPRC Case No. 21-00269-UT. See EPE Witness Prieto's direct testimony.

(L) The Total Company Amount includes one year amortization of the New Mexico portion of reacquired debt approved in NMPRC Case No. 06-00258-UT, reaffirmed in Case No. 15-00127-UT, and uncontested in Case No. 20-00104-UT.

Amounts may not add or tie due to rounding.

2026 NEW MEXICO RATE CASE FILING
INTEREST ON CUSTOMER DEPOSITS
SPONSOR: STEVEN SIERRA
PREPARER: ASHLEY ARAGON
FOR THE BASE AND TEST YEAR PERIOD ENDED SEPTEMBER 30, 2025

Line No.	(a) Description	(b) Total Company	(c) New Mexico
	Interest on Customer Deposits FERC Acct. No. 930.2		
1	Expense Amount, As Adjusted	$ 562,958	
	Less:		
2	Amount Per Book	0	
3	Adjustment	$ 562,958	$ 81,791

Note:

	Deposit Balances 9/30/2025	Approved Rate	Annual Interest Amount	NM Amount
New Mexico	$ 1,749,065	4.38%	$ 76,609	$ 76,609
Texas	9,107,149	5.05%	459,911	0
FERC	352,500	7.50%	26,438	5,182
Total	$ 11,208,714		$ 562,958	$ 81,791

Justification for requested adjustment:

This adjustment reclassifies interest on electric customer deposits from FERC 431 - Other Interest Expense, a below-the-line account, to FERC 930.2 - Miscellaneous General Expense, an above-the-line account that is included as part of the cost of service. Interest is calculated by applying current interest rates to customer deposit balances at the end of the Base Period.

(A) To remove amounts from rate base as EPE is not requesting a return on these amounts.

(B) To remove amounts from rate base as these amounts are included in a separate rider.

(C) Represents a regulatory asset related to New Mexico portion of bad debt expense and other COVID-19 expenses. EPE is not requesting a return on these costs. See EPE Witness Prieto's direct testimony.

(D) In NMPRC Case No. 09-00171-UT, the NMPRC extended the depreciable life of Palo Verde an additional 20 years for New Mexico rate making purposes, reducing the depreciation expense collected from New Mexico customers in rates, effective January 2010. In April 2011, the Nuclear Regulatory Commission renewed the operating license for all three units at Palo Verde for an additional 20 years; therefore, the incremental difference in Palo Verde depreciation for the New Mexico jurisdiction is being amortized to account 407.3 over the remaining life of Palo Verde. Includes adjustment for one year of amortization. See EPE witness Prieto's direct testimony.

(E) These amounts are not allocated to the New Mexico jurisdiction.

(F) Includes the net book value of non-advanced (legacy) meters which were charged to a regulatory asset in accordance with NMPRC Case No. 21-00269-UT, and the portion related to Texas. The adjustment removes the costs related to the New Mexico jurisdiction which are not requested in rate base. The remaining amount is not allocated to the New Mexico jurisdiction. See EPE Witness Prieto's direct testimony.

(G) These costs are recorded in account 186 for the Palo Verde Water Agreement and are included in the Company's requested rate base as an "other addition" to rate base, not as a regulatory asset, as per the Final Order from the New Mexico Supreme Court in NMPRC Case No. 20-00104-UT.

(H) These costs are recorded in account 189 for Unamortized Reacquired Debt and have been included in the Company's requested rate base as an "other addition" to rate base, not as a regulatory asset, as approved in NMPRC Case No. 06-00258-UT, reaffirmed in Case No. 15-00127-UT and uncontested in Case No. 20-00104-UT. The adjustment reflects all unamortized reacquired debt except the New Mexico portion and removes one year of amortization.

(I) Post-1997 rate base adjustment for Pensions and OPEB. Refer to pages 3 through 8 of this adjustment and the direct testimony of EPE Witness Sierra for further discussion.

Amounts may not add or tie due to rounding.

Summary of Post-1997 Rate Base Adjustment for Pension/OPEB
(Amounts in $ Thousand)

SUMMARY

	RIP	SERP	Excess	OPEB	Total
Total from January 1, 1998 to September 30, 2025:					
EPE's Contributions (Net of Capitalization) (a)	$ 181,222	$ 40,734	$ 5,080	$ 41,170	$ 268,206
Amount Requested from Customers (Net of Capitalization) (b)	$ 111,020	$ 32,268	$ 7,546	$ 104,828	$ 255,663
Excess (Deficit) EPE's Contributions to Customers' Contributions (c)	$ 70,202	$ 8,465	$ (2,466)	$ (63,658)	$ 12,543

(a) Refer to line 6 of WP A-3 Adjustment No. 33 pages 4-8
(b) Refer to line 7 of WP A-3 Adjustment No. 33 pages 4-8
(c) Refer to line 8 of WP A-3 Adjustment No. 33 pages 4-8

Amounts may not tie to other schedules due to rounding.

(A) Upon adoption of Accounting Standards Update 2017-07, Compensation-Retirement Benefits, effective January 1, 2018, the Company continued to record all components of net periodic benefit cost as an operating expense in its regulatory-basis financial statements, but elected to conform to the GAAP capitalization policy, which is that only the service cost component is eligible for capitalization. The service cost component of net periodic pension cost is not presented in this schedule for 1998-2017 since it is not used in the calculations prior to the implementation date of ASU 2017-07.
(B) The Company used a capitalization rate of 13.87% from 1997 to 2004 as we don't have information readily available for those years. The 13.87% is the capitalization rate for 2005.

(A) Upon adoption of Accounting Standards Update 2017-07, Compensation-Retirement Benefits, effective January 1, 2018, the Company continued to record all components of net periodic benefit cost as an operating expense in its regulatory-basis financial statements, but elected to conform to the GAAP capitalization policy, which is that only the service cost component is eligible for capitalization. The service cost component of net periodic pension cost is not presented in this schedule for 1998-2017 since it is not used in the calculations prior to the implementation date of ASU 2017-07.
(B) The Company used a capitalization rate of 13.87% from 1997 to 2004 as we don't have information readily available for those years. The 13.87% is the capitalization rate for 2005.

<Sources> FERC Form 1, Actuarial Reports and NM Rate Cases filed in 1990, 1998, 2003, 2006, 2009, 2015, and 2020.
Amounts may not tie to other schedules due to rounding.

FOR THE BASE PERIOD AND TEST YEAR ENDED SEPTEMBER 30, 2025

	(a)	(b)
Line No.	WP G-01: Capitalization, The Cost of Capital, and Overall Rate of Return	Sep - 2025
	Base Period:	
	RETURN ON COMMON EQUITY:	
1	NET INCOME FOR THE 12ME TEST PERIOD	$ 202,454,027
2	PROPRIETARY CAPITAL AS OF TEST PERIOD	2,462,690,053
3	RETURN ON COMMON EQUITY	8.2208%
	Test Year Period:	
4	NET INCOME FOR THE 12ME TEST PERIOD	$ 202,454,027 -
5	PROPRIETARY CAPITAL AS OF TEST PERIOD [3]	2,531,079,053
6	RETURN ON COMMON EQUITY	7.9987%
7	REQUESTED RETURN ON COMMON EQUITY [4]	10.7000%

[1] Refer to the Direct Testimony of EPE witness Richard Gonzalez for discussion and support for EPE's proposed Test Year Period capital structure, cost of debt, and weighted cost of capital.

[2] Refer to the Direct Testimony of EPE witness Jennifer Nelson for support for EPE's proposed return on common stock equity.

[3] Amount reflects an equity infusion of $170M received 10/28/25 less $101.6M of dividends paid on 10/30/25.

[4] Return on equity is based on an analysis from our expert witness Jennifer Nelson.

Amounts may not add or tie to other schedules due to rounding.

EXECUTION VERSION

ARTICLE 1
ESTABLISHMENT OF PLAN

1.1 Amendment and Restatement of Plan. Set forth in this document is the amendment and restatement of the Retirement Income Plan for Employees of El Paso Electric Company (the "Plan") effective January 1, 2022, except as provided herein or as otherwise required by applicable law. The Plan became effective July 1, 1945, and has previously been amended, and amended and restated, from time to time, as required by applicable law. The Plan was most recently amended and restated effective January 1, 2020. Prior to the 2020 restatement, the Plan was amended and restated on January 27, 2016, effective January 1, 2016, and then subsequently amended (a) with the execution of the First Amendment to the Plan on December 12, 2016 to modify the definition of Base Pay (as defined in Section 2.10) for purposes of calculating pay credits to Cash Balance Accounts (as defined under Section 2.16) effective January 1, 2017, (b) with the execution of the Second Amendment to the Plan on June 5, 2017, effective April 1, 2014, when Cash Balance Benefits became available under the Plan with respect to certain post-March 31, 2014 benefit accruals under the Plan, to comply with requests made by the Internal Revenue Service (the "IRS") in connection with its issuance of the Plan's most recent favorable determination letter on May 18, 2017, (c) with the execution of the Third Amendment to the Plan on June 27, 2017 to use an equivalency method for calculating Hours of Service (as defined in Section 2.40) under the Plan beginning January 1, 2018, and (d) with the execution of the Fourth Amendment to the Plan on January 27, 2020 to add Separate Accounts (as defined in Section 14.1) under Internal Revenue Code ("Code") Section 401(h) to the Plan effective February 1, 2020 for the payment of post-retirement health and related administrative expenses for certain retired employees under the Plan (and their eligible spouses and dependents).

This amendment and restatement of the Plan is intended to comply with applicable law, including the Setting Every Community Up for Retirement Enhancement Act (the "SECURE Act") (including, the change in the required beginning date under Code Section 401(a)(9)) and those requirements in the 2021 Required Amendments List for Qualified Retirement Plans, effective on the dates required by applicable law, and shall be construed accordingly. This amendment and restatement also removes the one-year marriage requirement.

1.2 Purpose of Plan. The purpose of the Plan is to reward eligible employees of El Paso Electric Company (the "Sponsor"), as determined herein, for their long and faithful service to the Sponsor by providing retirement benefits that are definitely determinable and not dependent on profits.

1.3 Cash Balance Benefits. The Cash Balance Benefit provisions of the Plan did not become effective until April 1, 2014. In connection with the implementation of the Plan's Cash Balance Benefit provisions, there was no conversion of pre-April 1, 2014, benefits to Cash Balance Benefits.

1.4 Status of Plan. The Plan is covered by the Employee Retirement Income Security Act of 1974 ("ERISA") and is intended to be a qualified defined benefit pension plan, within the meaning of Code Section 401(a). It shall be construed and administered in a manner consistent with applicable provisions of the Code and ERISA.

1.5 Trust Agreement. To implement the provisions of the Plan, the Sponsor has previously entered into a trust agreement creating the Trust (as defined in Section 2.82), such Trust being incorporated herein by reference and forming a part of the Plan. The Trust is intended to satisfy the

requirements of Code Section 501(a) and shall be construed and administered in a manner consistent with this intent.

ARTICLE 2
DEFINITIONS

The following words and terms shall have the meanings set forth below unless the context of their usage plainly indicates otherwise.

2.1 Accrued Benefit. In the case of a Cash Balance Member, a single life only annuity payable as of the Cash Balance Member's Normal Retirement Date that is Actuarially Equivalent, under the provisions of Section 2.2(e), to the Cash Balance Member's Cash Balance Account as of the determination date or, if the determination date is before the Cash Balance Member's Normal Retirement Date, a single life only annuity payable as of the Cash Balance Member's Normal Retirement Date that is Actuarially Equivalent, under the provisions of Section 2.2(e), to the Cash Balance Member's Cash Balance Account as of the determination date projected to the Cash Balance Member's Normal Retirement Date at the interest crediting rate under Section 2.16(b) as of the determination date plus, in the case of a Cash Balance Member who accrued benefits under the Plan prior to becoming a Cash Balance Member, the benefit that the Cash Balance Member accrued under the Plan prior to becoming a Cash Balance Member, as determined under the following provisions of this Section 2.1, where Average Monthly Earnings and Benefit Accrual Service are as defined in Sections 2.9 and 2.12, respectively. In the case of a Member, other than a Cash Balance Member, a single life only annuity payable as of a Member's Normal Retirement Date or Retirement Date, if later, equal to the product of 1.25 percent of his Average Monthly Earnings and his Benefit Accrual Service; provided, however, that a Member's Accrued Benefit shall not be less than the greatest of

(a) 1.5 percent of his Average Monthly Earnings as of October 17, 1990, multiplied by years of Projected Benefit Service as of October 17, 1990, less one percent of his Social Security Benefit, multiplied by his years of Projected Benefit Service limited to 45 years. This amount multiplied by the ratio of the number of his Benefit Accrual Service (determined only through October 17, 1990), to the number of his Projected Benefit Service produces the total value of this paragraph (a);

(b) $25.00 multiplied by his years (not to exceed ten) of Projected Benefit Service at his retirement date. This amount multiplied by the ratio of the number of his Benefit Accrual Service to the number of his Projected Benefit Service produces the total value of this paragraph (b); or

(c) the amount of his June 30, 1982, monthly benefit payable in accordance with provisions of the Plan as of that date based on his Benefit Accrual Service at his retirement date and Average Monthly Earnings as of June 30, 1982.

Offset for Benefits Provided Under Plan: If a Member under the Plan is entitled to any benefit under group annuity contracts deemed purchased prior to August 1, 1989, including Equitable group annuity contracts 956, 1868, 1868A and 6660, then notwithstanding any other provision of the Plan, any benefits payable to such Member or his Beneficiary hereunder shall be subject to offset as described below.

Such Member's Accrued Benefit shall be computed as provided in this Section 2.1 less an amount equal to the amount of frozen benefits shown in Appendix A, which shall be paid under the applicable group annuity contract.

Hereinafter, a single life only annuity payable as of a Member's Normal Retirement Date is referred to as the "normal" form of benefit.

The Accrued Benefit of any Member with at least one Hour of Service in a Plan Year beginning after December 31, 1988, shall equal the greater of (a) the Member's Frozen Accrued Benefit (as defined in the following paragraph), or (b) the Member's Accrued Benefit calculated above based on the normal retirement benefit formula provided in Section 6.1.

"Frozen Accrued Benefit" means a Member's Accrued Benefit under the Plan determined as of the latest Fresh Start Date (as defined below in this Section 2.1) as if the Member terminated employment with the Employer on that date and without regard to any amendment to the Plan adopted after that date, other than amendments recognized as effective as of or before that date under Code Section 401(b) or Regulation Section 1.401(a)(4)-11(g).

If, as of the latest Fresh Start Date, the amount of a Member's Frozen Accrued Benefit was limited by the application of Code Section 415, the Member's Frozen Accrued Benefit will be increased for years after the latest Fresh Start Date to the extent permitted under Code Section 415(d)(1). If (a) the Plan's normal form of benefit in effect on the latest Fresh Start Date is not the same as the normal form under the Plan after the latest Fresh Start Date and/or (b) the Normal Retirement Age for any Member on that date was greater than the Normal Retirement Age for that Member under the Plan after the latest Fresh Start Date, the stated Frozen Accrued Benefit will be expressed as an actuarially equivalent benefit in the normal form under the Plan after the latest Fresh Start Date, commencing at the Member's Normal Retirement Age under the Plan in effect after the latest Fresh Start Date. Each Member's Frozen Accrued Benefit will be increased, to the extent necessary, so that the base benefit percentage, determined with reference to all years of credited service as of the latest Fresh Start Date, is not less than 50 percent of the excess benefit percentage as of the latest Fresh Start Date, determined with reference to all years of credited service as of the latest Fresh Start Date. Each Member's offset applied to determine the Frozen Accrued Benefit will be decreased, to the extent necessary, so that it does not exceed 50 percent of the benefit determined without applying the offset, taking into account all years of credited service as of the latest Fresh Start Date.

"Fresh Start Date" means the last day of the Plan Year preceding a Plan Year for which any amendment to the Plan that directly or indirectly affects the amount of a Member's benefit determined under the current benefit formula, is made effective.

Notwithstanding any other provision in the Plan, the Accrued Benefit of each Section 401(a)(17) Member (as defined below in this Section 2.1) under the Plan will be the greater of

(a) the Member's Accrued Benefit as of the last day of the last Plan Year beginning before January 1, 1994, frozen in accordance with Regulation Section 1.401(a)(4)-13, or

(b) the Member's Accrued Benefit determined with respect to the benefit formula applicable for the Plan Year beginning on or after January 1, 1994, as applied to the Member's total years of service taken into account under the Plan for purposes of benefit accruals.

A "Section 401(a)(17) Member" means a Member whose current Accrued Benefit, as of a date on or after the first day of the first Plan Year beginning on or after January 1, 1994, is based on compensation for a year beginning prior to the first day of the first Plan Year beginning on or after January 1, 1994, that exceeded $150,000.

2.2 Actuarial Equivalent or Actuarially Equivalent.

(a) For purposes of annuity distributions under the Plan (that is, for purposes of converting single life only annuities to other forms of annuities, but not for purposes of converting Cash Balance Accounts to annuities), a benefit differing in time, period or manner of payment, from a specified annuity benefit provided under the Plan, but having the same value at the date of commencement of benefits when computed using the 1971 Group Annuity Mortality Table for males, set back three years, and an interest rate of six percent compounded annually.

(b) For lump sum distributions payable prior to December 31, 1999, the interest rate used for determining Actuarial Equivalence shall be the lesser of (1) the rates that would be used by the PBGC, as of the first day of the Plan Year in which a distribution occurs, for purposes of determining the present value of a Member's benefit under the Plan, or (2) six percent compounded annually.

(c) Notwithstanding the two preceding paragraphs of this Section 2.2, a lump sum distribution that becomes payable on or after January 1, 2000, will be the greater of the amount determined using the assumptions stated in Section 2.2(a) or the amount determined using the following assumptions:

Mortality: The "applicable mortality table" under Code Section 417(e)(3), which is the Commissioner's Standard Table used to determine reserves for group annuity contracts issued on the date as of which present value is being determined.

Interest: The "applicable interest rate" under Code Section 417(e)(3), determined as of the second month immediately preceding the first day of the Plan Year in which the distribution is being made and which is the annual interest rate on the 30-year Treasury Securities for such month as specified by the Commissioner in revenue rulings, notices or other guidance published in the Internal Revenue Bulletin.

(d) Notwithstanding the foregoing, a lump sum distribution that becomes payable on or after January 1, 2008, shall be determined using the following assumptions:

Mortality: The "applicable mortality table" under Code Section 417(e)(3)(B).

Interest: The "applicable interest rate" under Code Section 417(e)(3)(C), determined as of the second month immediately preceding the first day of the Plan Year in which the distribution is being made.

(e) Notwithstanding the foregoing, and except as otherwise required by Section 11.14 upon termination of the Plan, (1) a single life only annuity, derived from a Member's benefit accrued under the Plan prior to becoming a Cash Balance Member, that becomes payable as a lump sum distribution on or after April 1, 2014, or (2) a Cash Balance Account (as determined under Section 2.16) that may be paid as a single life only annuity on or after April 1, 2014, shall be determined using the following assumptions:

Mortality: The "applicable mortality table" under Code Section 417(e)(3)(B).

Interest: The "applicable interest rate" under Code Section 417(e)(3)(C), determined as of the fifth month immediately preceding the first day of the Plan Year in which the distribution is being made.

A Cash Balance Member's early retirement Cash Balance Benefits under Section 6.1(b)(3) or deferred vested Cash Balance Benefits commencing prior to his Normal Retirement Date under Section 6.13 shall be equal to the Cash Balance Member's Accrued Benefit multiplied by the immediate annuity factor as of the Cash Balance Member's Normal Retirement Date, based on the Mortality and Interest specified in Section 2.2(e). This result is discounted from the Cash Balance Member's Normal Retirement Date to the Cash Balance Member's Benefit Commencement Date at the interest crediting rate under Section 2.16(b) as of the Benefit Commencement Date, and then divided by the immediate annuity factor as of the Cash Balance Member's Benefit Commencement Date, based on the Mortality and Interest specified in this Section 2.2(e).

2.3 Affiliated Employer. The following entities, other than an Employer: (a) any member of a controlled group of corporations (within the meaning of Code Section 414(b)) that includes the Employer; (b) any incorporated or unincorporated trade or business that is under common control (within the meaning of Code Section 414(c)) with the Employer; (c) any organization, whether or not incorporated, that is a member of an affiliated service group (within the meaning of Code Section 414(m)) that includes the Employer; and (d) any other entity required to be aggregated with the Employer under Code Section 414(o).

2.4 AFTAP. The Plan's adjusted funding target attainment percentage, as defined in Regulation Section 1.436-1(j)(i).

2.5 Alternate Payee. An Alternate Payee as defined in Code Section 414(p)(8).

2.6 Annual Compensation. For purposes of Article 10, compensation within the meaning of Code Section 415(c).

2.7 Authorized Leave of Absence. An unpaid, temporary cessation from active employment authorized by the Employer pursuant to an established uniform, nondiscriminatory policy, whether occasioned by illness, military service or any other reason.

2.8 Average Annual Compensation. For purposes of Article 10, a Member's Compensation (as modified by Regulation Sections 1.415-2(d)(1) and (2)) averaged over his consecutive years of Benefit Accrual Service with the Employer (not to exceed five) during which he earned his highest Compensation.

2.9 Average Monthly Earnings. Except as provided in the following two paragraphs with respect to Cash Balance Members, the monthly average of a Member's annualized rate of basic compensation (excluding bonuses, overtime pay, expense allowances, profit sharing and any other extra compensation such as supplemental payments and other extra compensation in any form) as of any date and for each of the days beginning the four years preceding such date. Such average shall be computed by dividing the total of the Member's annualized rate of basic compensation for the five years by 60. If a Member has less than five years of service from his date of employment to his date of termination, his Average Monthly Earnings will be based on his annualized rate of basic compensation during his years of service from his date of employment to his date of termination. Compensation subsequent to termination of participation shall not be recognized.

The Average Monthly Earnings of a Cash Balance Member who had an Accrued Benefit under the Plan as of March 31, 2014, but who was no longer employed by the Employer as of March 31, 2014, shall be the Cash Balance Member's Average Monthly Earnings as of his most recent employment termination date preceding March 31, 2014, and in no event shall his Average Monthly Earnings increase after March 31, 2014 (so that, in no event shall his Accrued Benefit, other than a Cash Balance Benefit (as determined under Section 2.16), increase as a result of increases in his Average Monthly Earnings after March 31, 2014).

The Average Monthly Earnings of a Cash Balance Member (a) who is employed by the Employer as of April 1, 2014 (other than a Cash Balance Member who is hired or re-hired after December 31, 2013 and before April 1, 2014), and (b) who becomes a Cash Balance Member in the Plan as of April 1, 2014 in accordance with Section 3.1 (whether or not such Cash Balance Member had become a Member in the Plan in accordance with Section 3.1 prior to December 31, 2013), shall be the monthly average of the Cash Balance Member's annualized rate of basic compensation (excluding bonuses, overtime pay, expense allowances, profit sharing and any other extra compensation such as supplemental payments and other extra compensation in any form) as of March 31, 2014 and as of March 31 of the preceding four calendar years. Such average shall be computed by dividing the total of the Cash Balance Member's annualized rate of basic compensation for the five years by 60. If the Cash Balance Member has less than five years of service from his date of employment to March 31, 2014, his Average Monthly Earnings will be based on his annualized rate of basic compensation during his years of service from his date of employment to March 31, 2014. In no event shall the Average Monthly Earnings of a Cash Balance Member described in the first sentence of this paragraph increase after March 31, 2014 (so that, in no event shall his Accrued Benefit, other than a Cash Balance Benefit (as determined under Section 2.16), increase as a result of increases in his Average Monthly Earnings after March 31, 2014).

For any Plan Year beginning after December 31, 1988, the Committee must take into account only the first $200,000 (or such larger amount as the Commissioner may prescribe under Code Section 401(a)(17)) of any Member's annualized rate of basic compensation.

In addition to other applicable limitations set forth in the Plan, and notwithstanding any other provision of the Plan to the contrary, for Plan Years beginning on or after January 1, 1994, the Compensation of each Member taken into account under the Plan shall not exceed the OBRA '93 Annual Compensation Limit. The "OBRA '93 Annual Compensation Limit" is $150,000, as adjusted for increases in the cost of living in accordance with Code Section 401(a)(17)(B). The cost-of-living adjustment in effect

for a calendar year applies to any period, not exceeding 12 months, over which Compensation is determined ("Determination Period") beginning in such calendar year. If a Determination Period consists of fewer than 12 months, the OBRA '93 Annual Compensation Limit will be multiplied by a fraction, the numerator of which is the number of months in the Determination Period, and the denominator of which is 12.

Any reference in the Plan to the limitation under Code Section 401(a)(17) shall mean the "OBRA '93 Annual Compensation Limit" set forth in this Section 2.9.

If Compensation for any prior Determination Period is taken into account in determining a Member's benefits accruing in the current Plan Year, Compensation for that prior Determination Period is subject to the OBRA '93 Annual Compensation Limit in effect for that prior Determination Period. For this purpose, for Determination Periods beginning before the first day of the first Plan Year beginning on or after January 1, 1994, the OBRA '93 Annual Compensation Limit is $150,000.

Notwithstanding the foregoing, effective as of January 1, 2002, the annual Compensation of each Member taken into account in determining benefit accruals for any Plan Year shall not exceed $200,000, as adjusted for cost-of-living increases in accordance with Code Section 401(a)(17)(B). Annual compensation means compensation during the Plan Year or any such other consecutive 12-month period over which compensation is otherwise determined under the Plan (the determination period). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

2.10 Base Pay. Base Pay is used to calculate pay credits to the Cash Balance Accounts of Cash Balance Members under Section 2.16(a).

(a) Definition of Basic Compensation Used to Determine Base Pay. In determining Base Pay under this Section 2.10, a Cash Balance Member's "Basic Compensation" means the Cash Balance Member's basic compensation (excluding bonuses, overtime pay, expense allowances, profit sharing, supplemental payments and any other extra compensation in any form), prior to deductions.

(b) Base Pay if Cash Balance Member Employed throughout the Entire Plan Year. In the case of a Cash Balance Member who is an Employee throughout the entire Plan Year, Base Pay is determined by dividing the Cash Balance Member's Basic Compensation, determined as of the last day of each calendar month within the Plan Year, by 12, and then adding the results of these 12 calculations to arrive at the Cash Balance Member's Base Pay for the Plan Year.

Example -- Employment throughout the Entire Plan Year. For a Cash Balance Member who is an Employee throughout the entire Plan Year, if the Cash Balance Member's Basic Compensation as of the last day of January, February, March, April, May, June and July of the Plan Year is $30,000, before the Cash Balance Member's Basic Compensation is raised to $35,000 in August, on or before the last day of August, and the Cash Balance Member's Basic Compensation is $35,000 as of the last day of August, September, October, November and December of the Plan Year, such Cash Balance Member's Base Pay would be *$32,083.35, calculated as $17,500.00* ($30,000.00 divided by 12 months in the calendar year (to obtain $2,500.00) multiplied by the seven months of January through July) *plus $14,583.35* ($35,000.00 divided by 12 months in the calendar year (to obtain $2,916.67) multiplied by the five months of August through December).

(c) Base Pay if Cash Balance Member Not Employed throughout the Entire Plan Year. In the case a Cash Balance Member who is not an Employee throughout the entire Plan Year (if, for example, his Employment Commencement Date or his Re-Employment Commencement Date is after the first day of the Plan Year, or if he terminates employment with the Employer before the last day of the Plan Year), Base Pay for the Plan Year is the sum of the amounts determined under the following three paragraphs, as applicable:

(1) for those calendar months within the Plan Year during which the Cash Balance Member is employed for the entire month, the amount determined by dividing the Cash Balance Member's Basic Compensation, determined as of the last day of each such calendar month, by 12, and then adding the results of these separate calculations for each of the calendar months within the Plan Year during which the Cash Balance Member is an Employee for the entire month;

(2) for any calendar month within the Plan Year in which the Cash Balance Member's Employment Commencement Date or his Re-Employment Commencement Date occurs, the result obtained by dividing the Cash Balance Member's Basic Compensation, determined as of the last day of such calendar month, by 12, and then multiplying the result thereof by a fraction, the numerator of which is the number of days in such month during which he is an Employee and the denominator of which is the total number of days in such month; and

(3) for any calendar month within the Plan Year in which the Cash Balance Member terminates employment with the Employer, the result obtained by dividing the Cash Balance Member's Basic Compensation, determined as of his employment termination date, by 12, and then multiplying the result thereof by a fraction, the numerator of which is the number of days in such month during which he is an Employee and the denominator of which is the total number of days in such month.

The first example below illustrates the Base Pay calculation for a Cash Balance Member whose Employment Commencement Date or Re-Employment Commencement Date occurs after the first day of the Plan Year. The second example below illustrates the Base Pay calculation for a Cash Balance Member who terminates employment with the Employer before the last day of the Plan Year. In the case of a Cash Balance Member whose Employment Commencement Date or Re-Employment Commencement Date occurs after the first day of the Plan Year and who terminates employment with the Employer before the last day of the Plan Year, his Base Pay would be calculated taking into account the principles illustrated under both of the examples below.

Example – Employment Commencement Date or Re-Employment Commencement Date After First Day of Plan Year. For an Employee who is a Cash Balance Member, whose Employment Commencement Date or Re- Employment Commencement Date is March 5 of the Plan Year, whose Basic Compensation is $30,000 as of the last day of March, April, May and June, before his Basic Compensation is raised to $35,000 in July, on or before the last day of July, so that his Basic Compensation is $35,000.00 as of the last day of July, August, September, October, November and December, and who continues his employment with the Employer throughout the remainder of the Plan Year, such Cash Balance Member's Base Pay would be *$27,177.44, calculated as* (1) consistent with Section 2.10(c)(2) for the month of March, *$2,177.42* ($30,000.00 divided by 12 months in the calendar year (to obtain $2,500.00), multiplied by a fraction, the numerator of which is 27 (the number of days in

March during which the Cash Balance Member is an Employee) and the denominator of which is 31 (the total number of days in March), *plus* (2) consistent with Section 2.10(c)(1) for the months of April through December, *$25,000.02*, calculated as $7,500.00 ($30,000.00 divided by 12 months in the calendar year (to obtain $2,500.00) multiplied by the three months of April, May and June) plus $17,500.02 ($35,000.00 divided by 12 months in the calendar year (to obtain $2,916.67) multiplied by the six months of July through December).

Example – Employment Termination Date Before Last Day of Plan Year. For a Cash Balance Member who is an Employee from the first day of the Plan Year until he terminates employment with the Employer on September 8 of the Plan Year, whose Basic Compensation is $30,000 as of the last day of January, February, March, April, May, June and July, before his Basic Compensation is raised to $35,000 in August, on or before the last day of August, and his Basic Compensation is $35,000.00 as of the last day of August and as of his employment termination date on September 8, such Cash Balance Member's Base Pay would be *$21,194.45, calculated as* (1) consistent with Section 2.10(c)(1) for the months of January through August, *$20,416.67*, calculated as $17,500 ($30,000.00 divided by 12 months in the calendar year (to obtain $2,500), multiplied by the seven months of January through July), plus $2,916.67 for the month of August ($35,000.00 divided by 12 months in the calendar year (to obtain $2,916.67), multiplied by the one month of August), *plus* (2) consistent with Section 2.10(c)(3) for the month of September, *$777.78* ($35,000.00 divided by 12 months in the calendar year (to obtain $2,916.67), multiplied by a fraction, the numerator of which is eight (the number of days in September during which the Cash Balance Member is an Employee) and the denominator of which is 30 (the total number of days in September).

(d) Limitation on Base Pay. For each Plan Year, a Cash Balance Member's annual Base Pay taken into account in calculating pay credits to his Cash Balance Account (as described under Section 2.16) shall not exceed $200,000, as adjusted for cost-of-living increases in accordance with Code Section 401(a)(17)(B).

2.11 Beneficiary. A person or persons (natural or otherwise) designated by a Member in accordance with the provisions of Section 9.1 to receive any death benefit payable under the Plan.

2.12 Benefit Accrual Service. Except as provided in Section 6.1(d)(1) for purposes of the 1989 Special Supplement program under Section 6.1(c), and except as provided in the final paragraph of this Section 2.12 with respect to Cash Balance Members, each Member shall be credited with a year of Benefit Accrual Service in any Plan Year during which he completes at least 1,000 Hours of Service for the Employer. Except as provided in the final paragraph of this Section 2.12, the Plan takes into account years of service an Employee completes with the Employer, including, in accordance with Section 6.14, certain years of service prior to his Normal Retirement Date or Re-Employment Commencement Date during which a Member is considered Disabled, except

(a) If a Member with a zero percent Vested Accrued Benefit incurs a Break in Service, the Committee shall disregard his Benefit Accrual Service before the Break in Service if the number of the Employee's consecutive Breaks in Service equals or exceeds the greater of five or the aggregate number of the Employee's years of service prior to the Break in Service. The aggregate number of years of service before the Break in Service does not include any years of service not required to be taken into account under this exception by reason of any prior Break in Service. (See Section 6.4

for the manner in which the Cash Balance Account of a Cash Balance Member will be handled if a Cash Balance Member with a zero percent Vested Accrued Benefit incurs a Break in Service.)

(b) If a Member with a 100 percent Vested Accrued Benefit receives a lump sum distribution of the Actuarial Equivalent of his Accrued Benefit, whether by retirement or otherwise, his Benefit Accrual Service shall be disregarded immediately after such receipt. If no such distribution was received or if Section 6.3 applies, upon re-employment, his Benefit Accrual Service shall be reinstated to that to which he was entitled prior to his separation from service. (See Section 6.5 for the manner in which the Cash Balance Account of a Cash Balance Member will be handled if a Cash Balance Member with a 100 percent Vested Accrued Benefit receives a lump sum distribution of his Cash Balance Account, whether by retirement or otherwise.)

Prior to January 1, 1989, a Member shall be entitled to Benefit Accrual Service in accordance with the terms of the Plan in effect prior to that date.

A Cash Balance Member (other than a Cash Balance Member who is hired or re-hired after December 31, 2013, and before April 1, 2014) who completes at least one Hour of Service with the Employer during the period beginning January 1, 2014, and ending March 31, 2014 (whether or not such Cash Balance Member had become a Member in the Plan in accordance with Section 3.1 prior to December 31, 2013) shall receive credit for 0.25 year of Benefit Accrual Service for the 2014 Plan Year. In no event shall a Cash Balance Member's Benefit Accrual Service, as determined under the provisions of this Section 2.12, increase after March 31, 2014 (so that, in no event shall his Accrued Benefit, other than a Cash Balance Benefit (as determined under Section 2.16), increase as a result of increases in his Benefit Accrual Service after March 31, 2014), subject to the following exception. A Member whose employment terminated due to Disability at a time when the Member was not a Cash Balance Member, who is removed from the disability roll by reason of ceasing to be incapacitated, and is returned to active employment, may receive post-March 31, 2014, Benefit Accrual Service in accordance with Section 6.14.

2.13 Benefit Commencement Date. The date on which a Member's benefit payments commence under the Plan. The Benefit Commencement Date of a Member who dies after his Normal Retirement Age but prior to receiving benefits under the Plan shall be the first day of the month following his date of death.

2.14 Board. The Board of Directors of El Paso Electric Company or any committee of the Board authorized to act on its behalf.

2.15 Break in Service. A Member's failure to complete at least 501 Hours of Service with the Employer during any Plan Year. This Break in Service concept has no application to Members who are Vested upon termination of employment. Solely for purposes of determining whether a Member has incurred a Break in Service, Hours of Service shall be recognized for Authorized Leaves of Absence and Maternity or Paternity Leaves. The Hours of Service credited for a Maternity or Paternity Leave shall be those that would normally have been credited but for such Absence, or in any case in which the Committee is unable to determine the hours normally credited, eight Hours of Service per business day. The total Hours of Service credited for a Maternity or Paternity Leave shall not exceed 501. For this purpose, Hours of Service shall be credited for the computation period in which the absence from work

begins, only if credit is necessary to prevent a Member from incurring a Break in Service, or in any other case, in the immediately following computation period.

2.16 Cash Balance Benefits; Cash Balance Accounts. Cash Balance Benefits are benefits provided to Cash Balance Members hereunder that are expressed as Cash Balance Accounts consisting of pay credits determined under Section 2.16(a) and interest credits determined under Section 2.16(b). Under Sections 2.16(a) and 2.16(b), which provide for pay credits and interest credits based on an interest crediting rate not below 3.8 percent for the Plan Year, compounded monthly, and consistent with Code Section 411(b)(5)(B)(i)(II), a Cash Balance Member's Cash Balance Account as of the Member's Annuity Starting Date shall be no less than the sum of the pay credits to such Cash Balance Member's Cash Balance Account, reduced to reflect the value of any prior distributions from such Cash Balance Member's Cash Balance Account. This requirement applies only as of an Annuity Starting Date as of which a distribution of the Cash Balance Member's entire remaining vested benefit under the Plan commences.

(a) Pay Credits. For each Plan Year beginning January 1, 2014 and thereafter, each Cash Balance Member who is employed by the Employer on the last day of the Plan Year shall receive a pay credit to his Cash Balance Account as of the last day of the Plan Year, as determined under the Pay Credit Chart set forth in this Section 2.16(a), based on the sum of the Cash Balance Member's attained age (expressed in whole years) plus his completed Years of Vesting Service (also expressed in whole years) as of the last day of the Plan Year. For each Plan Year beginning January 1, 2014 and thereafter, each Cash Balance Member who terminates employment with the Employer prior to the last day of the Plan Year shall receive a pay credit to his Cash Balance Account as of the last day of the month coinciding with or immediately following the Cash Balance Member's employment termination date, as determined under the Pay Credit Chart set forth in this Section 2.16(a), based on the sum of the Cash Balance Member's attained age (expressed in whole years) plus his completed Years of Vesting Service (also expressed in whole years) as of his employment termination date.

Pay Credit Chart

Cash Balance Member's Age Plus Years of Vesting Service	Percentage of Cash Balance Member's Base Pay for the Plan Year
Less than 30	3.00%
30 – 39	4.00%
40 – 49	5.00%
50 – 59	6.00%
60 – 69	7.00%
70 – 79	8.00%
80 or More	9.00%

For the avoidance of doubt, the opening balance of a Cash Balance Member's Cash Balance Account, prior to the first pay credit being made to his Cash Balance Account under this Section 2.16(a) (which in no event shall be prior to the 2014 Plan Year) shall be zero.

(b) Interest Credits. Each Cash Balance Member who has a balance in his Cash Balance Account shall receive an interest credit to his Cash Balance Account as of the last day of each month, based on the balance of his Cash Balance Account as of the last day of the preceding month, beginning as of the last day of the month following the month in which the Cash Balance Member receives the first pay credit to his Cash Balance Account under Section 2.16(a), and ending as of the last day of the month preceding the first to occur of the following: (1) the first day of the month as of which the Cash Balance Member or his Spouse or Beneficiary, as applicable, receives an involuntary cash out distribution in accordance with Section 6.2, (2) the first day of the month as of which the Cash Balance Member or his Spouse or Beneficiary, as applicable, receives a lump sum distribution under Section 6.8 or 6.11, or (3) the first day of the month as of which the Cash Balance Member's or his Spouse's or Beneficiary's, as applicable, pension commences under Section 6.8 or 6.11. Except as otherwise required by Section 11.14 upon termination of the Plan, interest credits shall be calculated by multiplying the value of the Cash Balance Member's Cash Balance Account as of the last day of the preceding month (taking into account pay credits under Section 2.16(a) and interest credits under this Section 2.16(b) through the last day of the preceding month) by the Thirty-Year Treasury Bond Rate for the month; provided, however, that in no event shall the interest crediting rate be below 3.8 percent for the Plan Year, compounded monthly. For purposes of the preceding sentence, the "Thirty-Year Treasury Bond Rate" for each month shall be the rate, which, when compounded monthly for the 12 months of the Plan Year, is equal to the Nominal Thirty-Year Treasury Constant Maturity, as reported in the Federal Reserve Bulletin for the fifth month preceding the Plan Year.

2.17 Code. As defined in Section 1.1, the Internal Revenue Code, as it may be amended from time to time, and regulations issued thereunder. Reference to a section of the Code shall include that section and any comparable section or sections of future legislation that amends, supplements or supersedes such section, and any regulations issued thereunder.

2.18 Commissioner. The Commissioner of the Internal Revenue Service.

2.19 Committee. The persons appointed by the Board to assist in the administration of the Plan. The Committee is the Benefits Oversight Committee, or any successor committee appointed by the Board.

2.20 Compensation. Except as provided in Section 6.16 with respect to Code Section 415 limitations, a Member's Compensation as shown on his Form W-2 for federal income tax withholding purposes and any amounts that are contributed by the Employer pursuant to a salary reduction agreement and that are not includable in the gross income of an Employee under Code Section 125, 402(e)(3), 402(h) or 403(b). For Plan Years beginning on or after January 1, 2001, Compensation shall include amounts that are not includable in the gross income of the Employee by reason of Code Section 132(f)(4). Compensation shall be measured on the basis of the Plan Year. The limitations on the amount of annual compensation described in Section 2.9 are relevant under this Section 2.20.

Effective January 1, 2009, differential wage payments (as defined in Code Section 3401(h)(2)) will be included in a Member's Compensation, provided that all employees of the Employer on active duty in the uniformed services (as defined in Chapter 43 of Title 38 of the United States Code) for a period of more than 30 days are determined by the Committee to receive differential wage payments on reasonably equivalent terms and, if eligible to participate in a retirement plan maintained

by the Employer, to make contributions based on the differential wage payments on reasonably equivalent terms.

2.21 Designated Beneficiary. For purposes of Section 7.6, the individual who is designated as the Beneficiary under the Plan and is the Designated Beneficiary under Code Section 401(a)(9) and Regulation Section 1.401(a)(9)-4.

2.22 Determination Date. For purposes of Article 10, with respect to any Plan Year, the last day of the preceding Plan Year.

2.23 Direct Rollover. For purposes of Section 7.8, Direct Rollover as described in Section 7.8(d).

2.24 Disability or Disabled. A period in which a Member is eligible for and is receiving disability benefits under the federal Social Security Act.

2.25 Distributee. For purposes of Section 7.8, Distributee as described in Section 7.8(c).

2.26 Distribution Calendar Year. For purposes of Section 7.6, a calendar year for which a minimum distribution is required. For distributions beginning before the Member's death, the first Distribution Calendar Year is the calendar year immediately preceding the calendar year that includes the Member's Required Beginning Date. For distributions beginning after the Member's death, the first Distribution Calendar Year is the calendar year in which distributions are required to begin under Section 7.6(d)(4)(B). The required minimum distribution for the Member's first Distribution Calendar Year will be made on or before the Member's Required Beginning Date. The required minimum distribution for other Distribution Calendar Years, including the required minimum distribution for the Distribution Calendar Year in which the Member's Required Beginning Date occurs, will be made on or before December 31st of that Distribution Calendar Year.

2.27 Early Retirement Date. For a Member, other than a Cash Balance Member, the date on which the Member has attained age 55 and completed five Years of Vesting Service, or, for a Cash Balance Member, the date on which the Member has attained age 55 and completed three Years of Vesting Service.

2.28 Effective Date. For purposes of Article 12, the first day of the Plan Year in which the Employer initially established the Plan.

2.29 Eligibility Computation Period. The 12-consecutive-month period measured from an Employee's Employment Commencement Date and each anniversary thereof.

2.30 Eligible Member. Eligible Member, as defined in Section 6.1(d)(2) for purposes of Section 6.1(c).

2.31 Eligible Retirement Plan. For purposes of Section 7.8, Eligible Retirement Plan as described in Section 7.8(b).

2.32 Eligible Rollover Distribution. For purposes of Section 7.8, Eligible Rollover Distribution as described in Section 7.8(a).

2.33 Employee. An employee who is receiving remuneration for personal services rendered to the Employer (or who, were it not for being on an Authorized Leave of Absence, would be receiving such remuneration). Employee shall also include Leased Employees.

Notwithstanding the preceding paragraph, a Leased Employee shall not be considered to be an Employee of the Employer if

(a) Leased Employees do not constitute more than 20 percent of the Employer's non-highly compensated workforce, and

(b) such employee is covered by a money purchase pension plan providing

(1) a nonintegrated employer contribution rate of at least ten percent of Compensation as defined in Code Section 414(n)(5)(C)(iii),

(2) immediate participation, and

(3) full and immediate Vesting.

2.34 Employer. Except as otherwise provided in the Plan, El Paso Electric Company and any other organization that may in the future, with the consent of El Paso Electric Company, adopt the Plan for the benefit of its eligible employees, and any successor of either that shall assume the obligations under the Plan.

2.35 Employment Commencement Date. The date on which an Employee first performs an Hour of Service.

2.36 ERISA. As defined in Section 1.4, the Employee Retirement Income Security Act of 1974, as it may be amended from time to time, and regulations issued thereunder. Reference to a section of ERISA shall include that section and any comparable section or sections of future legislation that amends, supplements or supersedes such section, and any regulations issued thereunder.

2.37 Fiduciary. One who is a Fiduciary under ERISA Section 3(21) but only with respect to the specific responsibilities of the Fiduciary. Fiduciaries under the Plan include, but are not limited to (a) the Sponsor, (b) the Employer, (c) the Committee, (d) the Trustee and (e) any Investment Manager appointed hereunder.

2.38 Five Percent Owner. A Five Percent Owner as defined in Code Section 416(i)(1).

2.39 Highly Compensated Employee. Any Employee or former Employee who is a Highly Compensated Employee as defined in Code Section 414(q). Generally, an Employee or former Employee is considered a Highly Compensated Employee if such Employee or former Employee is in one or more of the following groups:

(a) Employees who at any time during the determination year or the look back year were Five Percent Owners.

(b) Employees who, during the look back year

(1) received Compensation in excess of $80,000 (or such other amount as adjusted by the Secretary of the Treasury to reflect cost-of-living increases in accordance with Code Section 414(q)(l)), and

(2) were in the Top Paid Group of Employees for the look back year.

The "determination year" is the Plan Year, and the "look back year" is the 12-month period preceding the determination year.

A former Employee shall be treated as a Highly Compensated Employee if (1) such former Employee was a Highly Compensated Employee when he separated from service, or (2) such former Employee was a Highly Compensated Employee at any time after attaining age 55.

2.40 Hour of Service.

(a) Each hour for which an Employee is paid, or entitled to payment, for the performance of duties for the Employer. These hours shall be credited to an Employee for the computation period or periods in which duties are performed.

(b) Each hour for which an Employee is paid, or entitled to payment, by the Employer on account of a period of time during which no duties are performed (irrespective of whether the employment relationship has terminated) due to vacation, holiday, illness, incapacity (including disability), layoff, jury duty, military duty or Authorized Leave of Absence. No more than 501 Hours of Service shall be credited under this Section 2.40(b) for any single continuous period (whether or not such period occurs in a single computation period). Hours under this Section 2.40(b) shall be calculated and credited pursuant to Department of Labor Regulation Section 2530.200b-2, which is incorporated herein by reference.

(c) Each hour for which back pay, irrespective of mitigation of damages, is either awarded or agreed to by the Employer. The same Hours of Service shall not be credited both under Section 2.40(a) or (b), as the case may be, and under this Section 2.40(c). These hours shall be credited to an Employee for the computation period or periods to which the award or agreement pertains rather than the computation period in which the award, agreement or payment is made.

(d) Under the equivalency based on months of employment method set forth in Regulation Section 2530.200b-3(e)(iv), 190 Hours of Service shall be credited for each month for which an Employee would be required to be credited with at least one Hour of Service under this Section 2.40.

(e) An Hour of Service with an Affiliated Employer shall be credited as an Hour of Service with the Employer.

(f) Hours of Service also shall be credited for any individual considered an Employee for purposes of this Plan under Code Section 414(n).

(g) The above provisions shall be construed so as to resolve any ambiguities in favor of crediting Employees with Hours of Service.

2.41 Investment Manager. Any person, firm or corporation who

(a) is a registered investment adviser under the Investment Advisers Act of 1940, a bank or an insurance company;

(b) has the power to manage, acquire or dispose of Plan assets; and

(c) acknowledges in writing his fiduciary responsibility to the Plan.

2.42 IRS. As defined in Section 1.1, the Internal Revenue Service.

2.43 Key Employee. For purposes of Article 10, an Employee or former Employee (including any deceased Employee) who is a Key Employee as defined in Code Section 416(i)(1). Generally, an Employee or former Employee (including any deceased Employee) is considered a Key Employee if at any time during the Plan Year that includes the Determination Date he is included in one or more of the following groups: (a) an Officer, (b) a Five Percent Owner or (c) a One Percent Owner.

2.44 Leased Employee. Any person (other than an Employee of the Employer) who pursuant to an agreement between the Employer and any other person ("leasing organization") has performed services for the Employer or an Affiliated Employer on a substantially full-time basis for a period of at least one year, where such services are performed under the primary direction or control of the Employer. Contributions or benefits provided to a Leased Employee by the leasing organization that are attributable to services performed for the Employer shall be treated as provided by the Employer.

2.45 Life Expectancy. For purposes of Section 7.6, Life Expectancy as computed by use of the Single Life Table in Regulation Section 1.401(a)(9)-9.

2.46 Limitation Year. The Plan Year.

2.47 Maternity or Paternity Leave. An absence from work for any period by reason of the Employee's pregnancy, birth of the Employee's child, placement of a child with the Employee in connection with the adoption of the child, or any absence for the purpose of caring for the child for a period immediately following birth or placement. For this purpose, Hours of Service shall be credited for the computation period in which the absence from work begins, only if credit therefore is necessary to prevent the Employee from incurring a Break in Service, or in any other case, in the immediately following computation period. The Hours of Service credited for a Maternity or Paternity Leave shall be those that would normally have been credited but for the Absence, or in any case in which the Committee is unable to determine the hours normally credited, eight Hours of Service per day. The total Hours of Service to be credited for a Maternity or Paternity Leave shall not exceed 501.

2.48 Member; Cash Balance Member. An Employee who has satisfied the eligibility requirements to participate in the Plan pursuant to Section 3.1 and who has an Accrued Benefit under the Plan. Effective April 1, 2014, and thereafter, the Plan covers the following two groups of Members: Cash Balance Members and Members other than Cash Balance Members. Cash Balance Members consist of Members (a) who are hired or re-hired by the Employer on or after April 1, 2014 and who become Cash Balance Members under Section 3.1; (b) who are hired or re-hired by the Employer after December 31, 2013 and before April 1, 2014 and who become Cash Balance Members on April 1, 2014 under Section 3.1; and (c) who are hired or re-hired by the Employer on or before December 31, 2013, who affirmatively elect to accrue Cash Balance Benefits under the Plan with respect to their post-March 31, 2014 employment with the Employer, and who become Cash Balance Members on April 1, 2014 under Section 3.1. Some Cash Balance Members have Cash Balance Benefits as well as other Accrued Benefits under the Plan. Unless they may later become Cash Balance Members as described in the preceding provisions of this Section 2.48, Members other than Cash Balance Members consist of (a) Members whose employment with the Employer terminated prior to December 31, 2013 (including certain Disabled Members, consistent with the provisions of Sections 2.12 and 6.14), (b) Employees who are Members on December 31, 2013 and who do not affirmatively elect, during the period beginning January 13, 2014 and ending February 28, 2014, and in accordance with procedures established by the Committee, to accrue Cash Balance Benefits with respect to their post-March 31, 2014 employment with the Employer, and (c) Employees of the Employer on December 31, 2013, who are not Members, and who do not affirmatively elect, during the period beginning January 13, 2014 and ending February 28, 2014, and in accordance with procedures established by the Committee, to accrue Cash Balance Benefits with respect to their post-March 31, 2014 employment with the Employer, but who later satisfy the eligibility requirements (including the Year of Eligibility Service requirement) to become a Member, other than a Cash Balance Member, under Section 3.1. Where appropriate in the context, Members shall include (a) Cash Balance Members and Members other than Cash Balance Members, and (b) former Members.

2.49 Member's Account Balance. For purposes of Section 7.6, the account balance as of the last valuation date in the Valuation Calendar Year increased by the amount of any contributions made and allocated or forfeitures allocated to the account balance as of dates in the Valuation Calendar Year after the valuation date and decreased by distributions made in the Valuation Calendar Year after the valuation date. The account balance for the Valuation Calendar Year includes any amounts rolled over or transferred to the Plan either in the Valuation Calendar Year or in the Distribution Calendar Year if distributed or transferred in the Valuation Calendar Year.

2.50 Minimum Normal Retirement Benefit. For purposes of Article 10, Minimum Normal Retirement Benefit as described in Section 10.1(f).

2.51 New 25 Employees. For purposes of Article 12, New 25 Employees as defined in Section 12.5.

2.52 Non-Key Employee. For purposes of Article 10, any Employee or former Employee (including any deceased Employee) who is not a Key Employee.

2.53 Normal Retirement Age. The date a Member attains age 65 or, if later, his fifth anniversary of commencement of participation in the Plan.

2.54 Normal Retirement Date. The first day of the month coinciding with or next following a Member's separation from service with the Employer after attaining Normal Retirement Age. For a Member separating from service with the Employer prior to attaining Normal Retirement Age, Normal Retirement Date means the first day of the month coinciding with or next following his attainment of Normal Retirement Age.

2.55 Officer. For purposes of Article 10, an officer of the Employer as defined in Code Section 416(i)(1) with Annual Compensation from the Employer and Affiliated Employers of more than $130,000, as adjusted under Code Section 416(i)(1).

2.56 One Percent Owner. For purposes of Article 10, a One Percent Owner as defined in Code Section 416(i)(1) with Annual Compensation from the Employer and Affiliated Employers of more than $150,000.

2.57 Original 25 Employees. For purposes of Article 12, Original 25 Employees as defined in Section 12.4.

2.58 PBGC. The Pension Benefit Guaranty Corporation.

2.59 Permissive Aggregation Group. For purposes of Article 10, Permissive Aggregation Group as described in Section 10.1(d).

2.60 Plan. The Retirement Income Plan for Employees of El Paso Electric Company, as defined in Section 1.1 and as amended from time to time.

2.61 Plan Administrator. The Committee described in Section 2.19.

2.62 Plan Year. The Plan's 12-consecutive-month accounting year commencing each January 1st and ending the following December 31st.

2.63 Present Value of Accrued Benefits. For purposes of Article 10, Present Value of Accrued Benefits as described in Section 10.1(b).

2.64 Projected Benefit Service. A Member's Benefit Accrual Service as of January 1, 1989, and, if such date is prior to his Normal Retirement Date, the additional Benefit Service he would be expected to accrue from such date if he continued in the employ of the Employer until his Normal Retirement Date.

2.65 QDRO. A qualified domestic relations order as defined in Code Section 414(p)(1)(A).

2.66 Qualified Joint and Survivor Annuity. For a Member who dies with a surviving Spouse, an annuity for the life of the Member with a survivor annuity for the life of his surviving Spouse that is equal to 50 percent of the amount of the annuity that is payable during the joint lives of the Member and the surviving Spouse and that is the Actuarial Equivalent of the single life only annuity that expresses the Member's Accrued Benefit. For an unmarried Member, Qualified Joint and Survivor Annuity means the annuity that expresses his Accrued Benefit.

2.67 Qualified Optional Survivor Annuity. For a Member who dies with a surviving, an annuity for the life of the Member with a survivor annuity for the life of his surviving Spouse that is equal to 75 percent of the amount of the annuity that is payable during the joint lives of the Member and the surviving Spouse and that is the Actuarial Equivalent of the single life only annuity that expresses the Member's Accrued Benefit.

2.68 Qualified Pre-Retirement Survivor Annuity. For a Member who dies with a surviving Spouse, an annuity for the life of the surviving Spouse of the Member under which the payments are determined as follows:

(a) In the case of a Member who dies before attaining age 55 under the Plan, the benefit determined under this Section 2.68 shall be the same benefit that would have been payable if a Member had

(1) separated from service on the date of death (or if earlier, the date of separation from service),

(2) survived to the earliest retirement age under the Plan,

(3) retired with an immediate Qualified Joint and Survivor Annuity at the earliest retirement age under the Plan, and

(4) died on the day after the earliest retirement age under the Plan.

(b) In the case of a Member who dies after attaining age 55 under the Plan but before commencement of payment of his Accrued Benefit (or its Actuarial Equivalent), the benefit determined under this Section 2.68 shall be the same benefit that would have been payable if a Member had retired with an immediate Qualified Joint and Survivor Annuity on the day before his date of death.

(c) See Section 6.10 for Pre-Retirement Death Benefits, and see Section 6.11 for special death benefits available for Cash Balance Members.

2.69 Re-Employment Commencement Date. The date on which an Employee again performs an Hour of Service following his termination of employment.

2.70 Required Aggregation Group. For purposes of Article 10, Required Aggregation Group as described in Section 10.1(e).

2.71 Required Beginning Date. For purposes of Section 7.6, the Required Beginning Date specified in the first paragraph of Section 7.6.

2.72 Retirement Date. The first day of the month coinciding with or next following the date on which a Member separates from service with the Employer under either Section 2.27 (Early Retirement Date) or 2.54 (Normal Retirement Date).

2.73 Social Security Benefit. The amount of monthly benefit, based on the provisions of the federal Social Security Act as amended and in effect on the earlier of the January 1st coinciding with or

immediately preceding a Member's date of termination of employment such Member is entitled to receive as his "primary insurance amount," at age 65 (or date of termination, if later) assuming that (a) he has or will apply for such benefit, (b) no event occurs that shall delay, suspend or forfeit the amount of such benefit in whole or in part, (c) if termination or death, while still in the employ of the Employer, occurs prior to age 65, he shall continue to receive earnings at the same rate in effect at termination (which would be treated as taxable wages for purposes of the federal Social Security Act) until attaining age 65, and (d) his earnings history, for calendar years preceding the years for which Employer records are available, shall be derived by applying the U.S. National Average Wage indices to the earliest full calendar year available from Employer records. Notwithstanding the foregoing sentence, effective January 1, 1984, a Member's estimated earnings shall be used for all years before retirement or termination of employment as defined in paragraph (d) of this Section 2.73; additionally, each Member has the right to have his benefit computed on the basis of actual salary history instead of estimated earnings. Each Employee shall be provided with written notice of his right to supply actual salary history and of the financial consequences of failing to supply such history. The designation, so long as such substitution or addition does not alter the period over which distributions are to be made under the designation, directly or indirectly (for example, by altering the relevant measuring life). As used herein, the term "primary insurance amount" shall have the meaning ascribed to it in the federal Social Security Act as amended and in effect on the earlier of the January 1st coinciding with or immediately preceding the affected Member's date of termination of employment.

2.74 Social Security Offset. An offset as of the close of the last Plan Year prior to January 1, 1989, of a Member's primary insurance amount under the federal Social Security Act (appropriately adjusted to reflect benefit commencement prior to a Member's attainment of Social Security Retirement Age) against such Member's Accrued Benefit. Furthermore, if a Member receives distribution from the Plan based wholly or partly on this preserved Accrued Benefit and the prior benefit formula calculated the primary insurance amount based on an estimated earnings for any years prior to the year of termination of employment, the Committee shall provide a Member a written notice of (a) his right to provide the Committee actual salary history, (b) the financial effect of failing to supply actual salary history, and (c) a Member's right to obtain actual salary history from the Social Security Administration. If a Member provides the Committee actual salary history within six months (or such longer period of time the Committee determines is administratively reasonable) following the later of the date a Member terminates or the date the Committee notifies him of the amount of his benefit, the Committee shall adjust a Member's benefit to reflect an offset based on the actual salary history.

2.75 Special Retirement Date. Special Retirement Date, as defined in Section 6.1(d)(3) for purposes of Section 6.1(c).

2.76 Sponsor. As defined in Section 1.2, El Paso Electric Company.

2.77 Spouse; Spousal. A Member's legal spouse, including a same sex spouse recognized as such in the state where the marriage is performed, except that such term will not include (a) a common law spouse in the absence of a Declaration and Registration of Informal Marriage filed with the County Clerk and provided to the Employer, (b) an opposite sex domestic partner, or (c) a same sex domestic partner.

2.78 TEFRA. The Tax Equity and Fiscal Responsibility Act of 1982.

2.79 Top Heavy Group. For purposes of Article 10, Top Heavy Group as described in Section 10.1(c).

2.80 Top Heavy Plan. For purposes of Article 10, Top Heavy Plan as described in Section 10.1(a).

2.81 Top Paid Group. The Employees that, as a group, constitute the top 20 percent of all Employees when ranked on the basis of compensation (as determined under Code Section 414(q)(3)) for the calendar year.

2.82 Trust. The Plan assets held in trust by the Trustee, together with all income, profits and increments thereto, constituting the fund to which contributions are made and from which benefits are provided.

2.83 Trust Agreement. The separate Agreement entered into between the Sponsor and the Trustee establishing the Trust, which forms part of the Plan.

2.84 Trustee. Any duly appointed, qualified and acting trustee or successor trustee that assumes responsibility and liability for the Plan assets under terms acceptable to the Trustee, upon execution of such document or documents acceptable to the Trustee evidencing acceptance of Plan assets and liabilities.

2.85 Valuation Calendar Year. The calendar year immediately preceding the Distribution Calendar Year.

2.86 Vested. The extent to which a Member's Accrued Benefit is nonforfeitable. Other forms of the word "Vest" shall have the meaning that the suffix would normally connote given the meaning of Vested.

2.87 Vesting Computation Period. The Plan Year.

2.88 Year of Eligibility Service. An Eligibility Computation Period during which an Employee completes not less than 1,000 Hours of Service with the Employer or an Affiliated Employer, except as follows: A Break in Service occurs for an Eligibility Computation Period during which an Employee has not completed more than 500 Hours of Service. Further, only in determining whether an Employee has incurred a Break in Service for this purpose, Hours of Service shall be recognized for Authorized Leaves of Absence and Maternity and Paternity Leaves.

2.89 Year of Vesting Service. A Vesting Computation Period during which an Employee completes not less than 1,000 Hours of Service with the Employer or an Affiliated Employer, including years of service a Member is considered Disabled, prior to his Normal Retirement Date or Re-Employment Commencement Date, except if a Member with a zero percent Vested Accrued Benefit incurs a Break in Service as described in Section 2.15.

ARTICLE 3
ELIGIBILITY AND MEMBERSHIP

3.1 Eligibility for Membership. Except as otherwise provided in this Section 3.1, each Employee shall become a Member in the Plan, other than a Cash Balance Member, on the first day of any month coinciding with or immediately following his completion of one Year of Eligibility Service, provided he is still employed by the Employer on such date. Effective April 1, 2014 and thereafter, (a) if not already a Cash Balance Member in the Plan, an Employee who is hired or re-hired by the Employer on or after April 1, 2014 shall become a Cash Balance Member in the Plan on his Employment Commencement Date or his Re-Employment Commencement Date, as applicable; (b) an Employee who is hired or re-hired by the Employer after December 31, 2013 and before April 1, 2014, and who remains an Employee of the Employer on April 1, 2014, shall become a Cash Balance Member in the Plan on April 1, 2014; and (c) an Employee who is hired or re-hired by the Employer on or before December 31, 2013, who affirmatively elects, during the period beginning January 13, 2014 and ending February 28, 2014, and in accordance with procedures established by the Committee, to accrue Cash Balance Benefits under the Plan with respect to his post-March 31, 2014 employment with the Employer, and who remains an Employee of the Employer on April 1, 2014, shall become a Cash Balance Member in the Plan on April 1, 2014. For the avoidance of doubt, an Employee who is on an approved leave of absence shall be treated as an Employee, so that, for example, an Employee who is hired or re-hired by the Employer on or before December 31, 2013, and who is on an approved leave of absence on December 31, 2013, shall be permitted to elect, in accordance with this Section 3.1, to accrue Cash Balance Benefits under the Plan with respect to his post-March 31, 2014, employment with the Employer. The preceding provisions of this Section 3.1 notwithstanding, neither Leased Employees nor Employees who the Employer designates in its records as interns shall be eligible to participate in the Plan, and an individual's status as an Employee, a Leased Employee or an intern for purposes of eligibility under the Plan will be determined by the Committee, and that determination will be conclusive and binding on all persons.

3.2 Membership Upon Re-Employment. An Employee who is a Member (or was formerly a Member) who is re-hired after a separation from service shall be eligible to resume active membership in the Plan on his Re-Employment Commencement Date, subject to the Break in Service rule under Section 2.88. Any Employee who terminated employment prior to satisfying the Plan's eligibility conditions becomes a Member in accordance with Section 3.1.

ARTICLE 4
CONTRIBUTIONS

4.1 Employer Contributions. The Employer alone shall make the contributions required to fund the cost of benefits provided by the Plan.

4.2 Determination of Employer Contributions. The Employer, from its records and reports of the actuary, shall determine the amount of any contribution to be made to the Trust under the terms of the Plan. In this regard, the Employer may place full reliance upon all reports, opinions, tables, valuations, certificates and computations that the actuary furnishes to the Employer.

4.3 Member Contributions. The Plan does not require or permit contributions from Members; provided, however, under Section 14.5, the Employer may, in the future, require Members to

make contributions to the Separate Accounts established for post-retirement health benefits under Article 14.

4.4 Member Rollover Contributions. The Plan does not permit rollover contributions from Members.

4.5 Return of Employer Contributions. Except as provided in this Section 4.5, in Section 12.2, in Article 14, or as otherwise specifically permitted by law, it shall be impossible by operation of the Plan or Trust, by the happening of any contingency, by collateral arrangement or by any other means, for any part of the corpus or income of the Trust maintained pursuant to the Plan or any funds contributed thereto to be used for, or diverted to, purposes other than the exclusive benefit of Members or their Beneficiaries.

(a) Contribution by Mistake of Fact. In the event the Employer shall make an excessive contribution under a mistake of fact pursuant to ERISA Section 403(c)(2)(A), the Employer may demand repayment of such excessive contribution at any time within one year following the time of payment, and the Trustee shall return such amount to the Employer within the one-year period. Earnings of the Plan attributable to the excess contribution may not be returned to the Employer, but any losses attributable thereto must reduce the amount so returned.

(b) Disallowed Deduction. All contributions by the Employer to the Trust are strictly conditioned upon the deductibility of such contributions by the Employer under the Code and, to the extent any deduction is disallowed, the Employer may within one year following a final determination of the disallowance, whether by agreement with the IRS or by final decision of a court of competent jurisdiction, demand repayment of such disallowed contribution, and the Trustee shall return such contribution within one year following the disallowance. Earnings of the Plan attributable to the excess contributions will not be returned to the Employer, and any losses attributable thereto shall reduce the amount so returned.

4.6 Forfeitures. To the extent not used to pay administrative expenses under the Plan, the Committee shall allocate the amount of a Member's Accrued Benefit forfeited under the Plan to reduce Employer contributions for the Plan Year in which the forfeiture occurs. A Member's Accrued Benefit shall not be increased by the allocation of forfeitures at any time prior to termination of the Plan.

ARTICLE 5
VESTING

5.1 Vesting Schedule. Upon a Member's termination of employment due to death or Disability, or at or after his Early Retirement Date or his Normal Retirement Age, the Member shall be 100 percent Vested in his Accrued Benefit. At any other time, a Cash Balance Member's *total* Vested Accrued Benefit (including his Vested Accrued Benefit attributable to Cash Balance Benefits and his Vested Accrued Benefit not attributable to Cash Balance Benefits, if any) shall be determined from the following schedule based on his Years of Vesting Service:

Years of Vesting Service	Percent Vested
Less than Three	0%
Three or More	100%

At any other time, the Vested Accrued Benefit of a Member, other than a Cash Balance Member, shall be determined from the following schedule based on his Years of Vesting Service:

Years of Vesting Service	Percent Vested
Less than Five	0%
Five or More	100%

For purposes of this Section 5.1, a Member who terminates employment before his Accrued Benefit is Vested shall (a) be deemed to have a complete distribution of his Accrued Benefit, in accordance with Section 6.2, on his date of termination of employment, and (b) his Accrued Benefit that is not Vested (in accordance with this Section 5.1) shall be immediately forfeited.

5.2 Changes in Vesting Schedule. If the Plan's Vesting schedule in Section 5.1 is amended, in any way that directly or indirectly affects the computation of a Member's Vested interest in his Accrued Benefit, affected Members who have completed at least three Years of Vesting Service as of the date the amendment is adopted or deemed to be made shall have the Vested portion of their Accrued Benefits determined under the more favorable of the two Vesting schedules. Members who have not completed at least three years of Vesting Service as of the date the amendment is adopted or deemed to be made shall have the Vested portion of their Accrued Benefits determined under the new Vesting schedule, except that no Member shall have his Vested percentage decreased by any Plan amendment.

ARTICLE 6
AMOUNT AND FORM OF BENEFITS

6.1 Retirement Benefits.

(a) Normal Retirement. Normal retirement benefits, subject to the limitations in Section 6.16, shall be a Member's Accrued Benefit described in Section 2.1. A Member's Accrued Benefit, other than his Cash Balance Benefit, if any, is expressed as a single life only annuity payable as of the Member's Normal Retirement Date or Retirement Date, if later, and a Cash Balance Member's Accrued Benefit attributable to his Cash Balance Account, shall be converted to a single life only annuity payable as of the Member's Normal Retirement Date or Retirement Date, if later, under the provisions of Section 2.2(e). The amount of monthly retirement income determined under this Section 6.1(a) shall be subject to actuarial adjustment under Section 2.2(a) if a Member is to receive a monthly retirement income in a form other than a single life only annuity.

(b) Early Retirement. Early retirement benefits, available to all Members subject to the limitations in Section 6.16, shall be a Member's Accrued Benefit described in Sections 2.1 and 6.1(a), adjusted in accordance with paragraphs (1), (2) and (3) of this paragraph (b), as applicable.

(1) The Accrued Benefit of a Member, other than a Cash Balance Member, or for a Cash Balance Member, his Accrued Benefit, if any, excluding his Cash Balance Benefits, payable on or after his Early Retirement Date, reduced to take into account early commencement prior to his Normal Retirement Date. Such reduction shall be in accordance with the following schedule.

Retirement Age	Percent of Accrued Benefit
65	100.00%
64	93.33%
63	86.67%
62	80.00%
61	73.33%
60	66.67%
59	63.33%
58	60.00%
57	56.67%
56	53.33%
55	50.00%

Straight line interpolation of these percentages shall be employed where fractional years are involved. Notwithstanding the foregoing schedule, no early retirement reduction shall apply (1) if the Member retires on or after his Early Retirement Date after completing at least 20 Years of Vesting Service and attaining age 62, or (2) if the Member retires on or after his Early Retirement Date after June 30, 1983, and if the sum of his attained age and Years of Vesting Service exceeds 85 years.

(2) For a Cash Balance Member, for his Accrued Benefit, if any, excluding his Cash Balance Benefits, payable before his Early Retirement Date, a single life only annuity commencing as of the Cash Balance Member's Benefit Commencement Date that is Actuarially Equivalent, under the provisions of Section 2.2(e), to a single life only annuity commencing as of such Member's Normal Retirement Date.

(3) For a Cash Balance Member, for his Cash Balance Benefits, a single life only annuity commencing as of the Cash Balance Member's Benefit Commencement Date that is Actuarially Equivalent, under the provisions of Section 2.2(e), to the Cash Balance Member's Accrued Benefit attributable to his Cash Balance Account.

In the case of a Cash Balance Member, in no event will the *total* early retirement benefit payable under this Section 6.1(b) be less than a single life only annuity that is Actuarially Equivalent, under the provisions of Section 2.2(e), to the lump sum distribution available to the Cash Balance Member under Section 6.1(a).

The amount of monthly retirement income determined under this Section 6.1(b) shall be subject to actuarial adjustment under Section 2.2(a) if a Member is to receive a monthly retirement income in a form other than a single life only annuity.

(c) Early Retirement - 1989 Special Supplement. In lieu of the monthly retirement income otherwise payable under Section 6.1(b), a Member who

(1) is an Employee on February 13, 1989, and

(2) will have attained age 55 on or before December 31, 1989, and

(3) is 100 percent Vested by the beginning of the five-week period between February 14, 1989, and March 17, 1989, and who elects retirement during this five-week period (with retirement occurring no later than April 30, 1989), or

(4) is 100 percent Vested by the beginning of the two-week period between June 2, 1989, and June 16, 1989, and who elects retirement during this two-week period (with retirement occurring no later than July 1, 1989),

shall be entitled to a monthly retirement income equal to the sum of the amounts described in Sections 6.1(c)(5) and (6).

(5) his Accrued Benefit calculated at his date of retirement under the greatest of

(A) The product of (i) and (ii), where

(i) is 1.5 percent of his Average Monthly Earnings as of his Special Retirement Date multiplied by his years of Projected Benefit Service less one percent of his Social Security Benefit, determined as of his Special Retirement Date, multiplied by his years of Projected Benefit Service limited to 45 years, and

(ii) is the ratio of his Benefit Accrual Service as of his Special Retirement Date to his years of Projected Benefit Service.

(B) $25 multiplied by his years of Projected Benefit Service (not to exceed ten) and the ratio of his Benefit Accrual Service as of his Special Retirement Date to his years of Projected Benefit Service, or

(C) The amount of his June 30, 1982, monthly benefit payable in accordance with provisions of the Plan as of that date based on his Benefit Accrual Service at his Special Retirement Date and Average Monthly Earnings as of June 30, 1982.

(6) A monthly supplemental benefit equal to the greater of (A) the equivalent of 60 percent of his monthly Accrued Benefit, calculated as described under this Section 6.1(c) as of his Special Retirement Date, or (B) $250 commencing on the first day of the month coinciding with or next following his date of retirement.

(A) Such monthly retirement income shall not be reduced to take into account a Member's younger age and the early commencement of his benefits. The amount of monthly retirement income determined under this Section 6.1(c) shall be subject to actuarial

adjustment if a Member is to receive a monthly retirement income in a form other than as described herein.

(B) The amount of monthly retirement income described in this Section 6.1(c)(6) shall be payable as a temporary benefit during a Member's lifetime with the last payment to be made to him on the earlier of the month in which his death occurs or in which he attains age 62 and if death occurs in a month before he attains age 62 and the Member dies with a surviving Spouse, then 50 percent of the amount described in clause (B) of the first sentence of this Section 6.1(c)(6) shall be payable as a temporary benefit to the spouse commencing on the first day of the month following the Member's death during the lifetime of the spouse with the last payment to be made for the earlier of the month in which the spouse's death occurs or in which the Member would have attained age 62 but for his earlier death.

(d) Definitions for Purposes of Section 6.1(c). For purposes of Section 6.1(c), the following definitions shall apply:

(1) Benefit Accrual Service. The meaning prescribed in Section 2.12, with additional credited years of Benefit Accrual Service attributed to each Eligible Member equal to the difference in his age at his Special Retirement Date and age 65 (not to exceed five years).

(2) Eligible Member. A Member who is age 55 on or before December 31, 1989, and 100 percent vested, who elects to participate in the 1989 Special Supplement program of the Employer.

(3) Special Retirement Date. April 30, 1989, or any other date the Committee shall deem appropriate under the provisions of the 1989 Special Supplement program.

6.2 Involuntary Cash Out. If the lump sum Actuarial Equivalent of a Member's Vested Accrued Benefit does not exceed $1,000 ($5,000 for distributions prior to March 28, 2005) when he is first eligible for a distribution, the Committee may distribute the entire amount in a single cash payment without the consent of the Member (or if the Member is married, the Member's Spouse), provided that (a) proper notice regarding the Member's right to a distribution is given to the Member, and (b) the amount of the Vested Accrued Benefit remains less than $1,000 ($5,000 for distributions prior to March 28, 2005) on the date the distribution is made. If a distribution is made under this Section 6.2, the Committee shall disregard the Member's years of service represented by the distribution.

6.3 Buy Back of Disregarded Service Due to Cash Out. If a Member receives a distribution pursuant to Section 6.2 and the Committee disregards the Member's years of service represented by the distribution, then this Section 6.3 applies to a Member who has received the distribution and is re-employed.

A Member described in the preceding paragraph shall have the right to repay the full portion of his Employer-provided benefit that he received in a distribution described in Section 6.2, provided that (a) the full repayment includes interest at the rate of five percent per annum (as adjusted by the IRS) from the date of the distribution, (b) the Member resumes covered employment under the Plan, and (c) his right to repay has not expired. A Member's right to repay shall expire on the earlier of

(a) the date five years after the Member's first Re-Employment Commencement Date following the distribution, or

(b) the close of the first period of five consecutive one-year Breaks in Service commencing after the distribution.

If, prior to the expiration of the repayment period, the re-employed Member makes full repayment in accordance with this Section 6.3, the Committee shall restore the Member's disregarded years of service. The restoration shall include all Code Section 411(d)(6) protected benefits applicable to the restored Accrued Benefit, in accordance with applicable regulations.

6.4 Cash Balance Account Following Termination. If a Cash Balance Member with a zero percent Vested Accrued Benefit incurs a Break in Service, the Cash Balance Member will forfeit his Cash Balance Account if the Cash Balance Member's consecutive Breaks in Service equals or exceeds the greater of five or the aggregate number of the Cash Balance Member's years of service prior to the Break in Service.

6.5 Buy Back of Cash Balance Account Following Lump Sum Distribution. A Cash Balance Member, who receives a lump sum distribution of his Cash Balance Account upon retirement or otherwise, and who is re-employed, shall have the right to repay his entire Cash Balance Account to the Plan in accordance with this Section 6.5. The Cash Balance Member must repay the lump sum distribution of his Cash Balance Account to the Plan, together with the interest credits that would have been allocated to his Cash Balance Account under the Plan had he not received the lump sum distribution. The Cash Balance Member must repay such amounts to the Plan by the earlier of

(a) the date five years after the Cash Balance Member's first Re-Employment Commencement Date following the distribution; or

(b) the close of the first period of five consecutive one-year Breaks in Service commencing after the distribution.

If, prior to the expiration of the repayment period, the re-employed Cash Balance Member makes full repayment in accordance with this Section 6.5, the Cash Balance Member's Cash Balance Account will be restored. The restoration shall include all Code Section 411(d)(6) protected benefits applicable to the restored Accrued Benefit, in accordance with applicable regulations.

6.6 Automatic Form of Benefit. Every Member shall have *all* of his benefits (including his Cash Balance Benefits, if any) paid in the form of a Qualified Joint and Survivor Annuity, except to the extent that a valid election is made under Section 6.7.

6.7 Waiver of Qualified Joint and Survivor Annuity. A Member (or if married, a Member and his Spouse) may elect an optional form of benefit rather than the automatic form of benefit described in Section 6.6. Such optional forms are set forth in Section 6.8, and the manner of waiver of the automatic form is described in Section 6.9.

6.8 Optional Benefit Forms. Subject to the provisions of Section 6.9, a Member (or if married, a Member and his Spouse) may decline the automatic form of benefit specified in Section 6.6,

and elect (under a procedure prescribed by the Committee) an optional Actuarially Equivalent benefit. Any election of an optional Actuarially Equivalent benefit shall apply to the Member's *total* Accrued Benefit, including his Accrued Benefit, if any, attributable to his Cash Balance Benefit, and his Accrued Benefit, if any, based primarily on his Average Monthly Earnings and his Benefit Accrual Service. The following options described under paragraphs (a), (b) and (c) (which are sometimes referred to herein as "optional annuity benefit forms") are available to all Members:

(a) Joint and Survivor Annuity. A joint life annuity is payable for the life of the Member with a survivor annuity for the life of any person designated by the Member. The amount payable to the survivor shall be 25 percent, 50 percent, 75 percent or 100 percent of the amount of the annuity payable during the joint lives of the Member and the person designated. For the avoidance of doubt, the Qualified Optional Survivor Annuity is offered as a joint and survivor annuity under this paragraph (a).

(b) Life Annuity with Term Certain. An annuity is payable for the life of the Member, with 120 monthly payments guaranteed, regardless of whether the Member dies before all 120 payments have been made. In the event of the Member's death prior to payment of 120 monthly installments, the same amount of annuity shall be payable for the remainder of such 120 months to the Beneficiary.

(c) Single Life Only Annuity. An annuity is payable for the life of the Member until his death.

(d) Lump Sum Distribution. In addition to the above optional annuity benefit forms, a lump sum distribution option is available to Cash Balance Members only. Any election of a lump sum distribution shall apply to the Cash Balance Member's *total* Accrued Benefit, including his Accrued Benefit attributable to his Cash Balance Account and his Accrued Benefit, if any, based primarily on his Average Monthly Earnings and his Benefit Accrual Service. The amount of the Cash Balance Member's lump sum distribution shall equal (1) the Cash Balance Member's Cash Balance Account, plus (2)(a) in the case of a Cash Balance Member who has an Accrued Benefit, other than a Cash Balance Benefit, and who has not attained his Early Retirement Date, the present value of a single life only annuity commencing on such Cash Balance Member's Normal Retirement Date, or (2)(b) in the case of a Cash Balance Member who has an Accrued Benefit, other than a Cash Balance Benefit, and who has attained his Early Retirement Date, the present value of a single life only annuity commencing on such Cash Balance Member's Normal Retirement Date, or if greater, the present value of the immediate single life only annuity available to the Cash Balance Member under the provisions of Section 6.1(b).

6.9 Waiver of Automatic Benefit Form.

(a) Each Member (or if married, the Member and his Spouse) shall be provided a written explanation of

(1) the terms and conditions of the Qualified Joint and Survivor Annuity,

(2) the Member's right to make, and the effect of making, an election to waive the Qualified Joint and Survivor Annuity,

(3) the Member's Spouse's rights regarding the election to waive the Qualified Joint and Survivor Annuity, and the effect of any waiver and/or revocation thereof,

(4) the right of the Member to revoke any waiver of the Qualified Joint and Survivor Annuity,

(5) the relative values of the various optional forms of benefit under the Plan, as provided in Regulation Section 1.417(a)(3)-1,

(6) the right of the Member to elect a Retroactive Annuity Starting Date, if available to the Member under Section 6.9(c), and

(7) information that clearly indicates that the Member has a right to at least 30 days to consider whether to waive the Qualified Joint and Survivor Annuity and consent to a form of distribution other than a Qualified Joint and Survivor Annuity.

Except as provided in Section 6.9(c), the written explanation of the Qualified Joint and Survivor Annuity shall be furnished to the Member (and if married, the Member and his Spouse) no earlier than 180 days nor later than 30 days before the Member's Annuity Starting Date. "Annuity Starting Date" means (A) the first day of the first period for which an amount is payable as an annuity, or (B) in the case of a benefit not payable in the form of an annuity, the first day on which all events have occurred that entitle the Member to the benefit.

Except as provided in Section 6.9(c), if the Member, after having received the written explanation of the Qualified Joint and Survivor Annuity, affirmatively elects a form of distribution and, if married, the Member's Spouse consents to that form of distribution (if necessary), the Plan may provide such written notice less than 30 days before the Annuity Starting Date, provided that the following conditions are met: (A) the Member is permitted to revoke an affirmative distribution election at least until the Annuity Starting Date, or if later, at any time prior to the expiration of the seven-day period that begins the day after the explanation of the Qualified Joint and Survivor Annuity is provided, (B) the Annuity Starting Date is after the date that the written notice is provided, and (C) distribution in accordance with the affirmative election does not commence before the expiration of the seven-day period that begins the day after the written notice is provided.

During the 180-day period ending on the Annuity Starting Date, the Member (or if married, the Member and his Spouse) may, at any time and any number of times, waive the Qualified Joint and Survivor Annuity and/or revoke any previous waiver and again elect the Qualified Joint and Survivor Annuity.

If a Member fails to return his waiver of the Qualified Joint and Survivor Annuity form of benefit by the Member's Annuity Starting Date, the Member's benefit will begin to be paid on his Annuity Starting Date in the form of a Qualified Joint and Survivor Annuity.

(b) Except to the extent that a Member is not married, or his Spouse cannot be located, the Member's election to waive a Qualified Joint and Survivor Annuity or to change a previous Beneficiary designation (see Sections 2.11 and 9.1) shall not be given effect unless

(1) his Spouse provides consent in writing to the election,

(2) the election designates a beneficiary (or a form of benefit) that may not be changed without Spousal consent (or the consent of the Spouse expressly permits designations by the Member without any requirement of further consent by the Spouse), and

(3) the written consent of the Spouse is witnessed by a Plan representative or a notary public.

(c) "Retroactive Annuity Starting Date" means an Annuity Starting Date affirmatively elected by a Member that occurs on or before the date that the written explanation of the Qualified Joint and Survivor Annuity is provided to the Member; provided, however, such election shall be subject to the following requirements:

(1) The Member may not elect a Retroactive Annuity Starting Date that precedes the Member's Normal Retirement Date under the terms of the Plan in effect as of the Retroactive Annuity Starting Date, or if later, his termination of employment.

(2) The Member shall receive a make-up payment to reflect any missed payment or payments for the period from the Retroactive Annuity Starting Date to the date of the actual make-up payment, with an appropriate adjustment for interest from the date the missed payment or payments would have been made to the date of the actual make-up payment. The benefit determined as of the Retroactive Annuity Starting Date must satisfy the requirements of Code Section 417(e)(3), if applicable, and Code Section 415 with the applicable interest rate and applicable mortality table determined as of that date. Future periodic payments shall be the same as the future periodic payments, if any, that would have been paid to the Member had payments actually commenced on the Retroactive Annuity Starting Date.

(3) Except in the case where payment of the Member's benefit is not subject to the present value requirements of Code Section 417(e)(3) and payments commence within 12 months of the Member's Retroactive Annuity Starting Date, the Member's benefit determined based on the Retroactive Annuity Starting Date, including any interest adjustment, shall satisfy the provisions of Code Section 415, if the date the distribution commences is substituted for the Retroactive Annuity Starting Date for all purposes of determining the limits under Code Section 415.

(4) In the case of a form of benefit that would have been subject to the present value requirements of Code Section 417(e)(3) if distributions had commenced as of the Retroactive Annuity Starting Date, the distribution as of the date distributions commence shall be no less than the benefit produced by applying the applicable interest rate and the applicable mortality table determined as of such date to the annuity form that was used to determine the benefit amount as of the Member's Retroactive Annuity Starting Date.

(5) The provisions of Section 6.9(a) regarding the timing requirements for giving consent and providing an explanation of the Qualified Joint and Survivor Annuity shall apply by substituting the date of the first actual payment of benefits based on the Retroactive Annuity Starting Date for the Annuity Starting Date.

(6) If the Member's Spouse as of the Retroactive Annuity Starting Date would not be the Member's Spouse determined as of the date distributions commence, consent of that former Spouse is not needed to waive the Qualified Joint and Survivor Annuity with respect to the Retroactive Annuity Starting Date, unless otherwise provided under a QDRO.

(7) The Member's Spouse (including an alternate payee who is treated as the Spouse under a QDRO) determined as of the date distributions commence shall consent to the distribution in a manner that would satisfy the requirements of Code Section 417(a)(2) unless the amount of the Spouse's survivor annuity payments under the Retroactive Annuity Starting Date is no less than the amount the Spouse would have received under the Qualified Joint and Survivor Annuity if the Annuity Starting Date were substituted for the Retroactive Annuity Starting Date.

(d) The Plan will not fail to satisfy the timing requirements of Section 6.9(a) merely because, due to administrative delay, a distribution commences more than 180 days after the written explanation of the Qualified Joint and Survivor Annuity is provided to the Member.

6.10 Pre-Retirement Death Benefit. A monthly Spouse's benefit is payable upon the death of a Member who on the date of his death

(a) is employed by the Employer, except that a Member who is Disabled, is entitled to this protection only during the one-year period following the date of his initial Disability (and on the first anniversary of his last Hour of Service, a Disabled Member shall be considered terminated for purposes of this Section 6.10);

(b) has attained age 50 and completed at least ten Years of Vesting Service;

(c) has not attained Normal Retirement Age; and

(d) has a surviving Spouse on the date of his death.

Subject to the limitations in Section 6.16, the amount of monthly benefit payable to the surviving Spouse under this Spouse's benefit shall be equal to one-half of the Accrued Benefit of the Member. There shall be no reduction to the Accrued Benefit for early commencement or for optional forms of payment.

Payments of this monthly Spouse's benefit shall commence on the first day of the month following a Member's death and shall end with the month in which the surviving Spouse dies.

In all other cases, subject to the limitations in Section 6.16, upon the death of a Member, his surviving Spouse (if any) is eligible for a Qualified Pre-Retirement Survivor Annuity calculated as specified in Section 2.68. Such benefit shall commence in accordance with Section 7.2.

See Section 6.11 for special death benefits available for Cash Balance Members.

6.11 Special Death Benefit for Cash Balance Members. In lieu of the death benefits described in Sections 2.68 and 6.10, upon the death of a Cash Balance Member who has not received a lump sum distribution from the Plan, or commenced a pension distribution from the Plan, with respect to his total

Accrued Benefit, the Cash Balance Member's surviving Spouse, shall be entitled to (a) the Cash Balance Member's Accrued Benefit attributable to his Cash Balance Account under the Plan, and (b) *if* the requirements for a Qualified Pre-Retirement Survivor Annuity under Section 2.68 or a Pre-Retirement Death Benefit under Section 6.10 are satisfied, the benefit that would be payable under Section 2.68 or 6.10, as applicable, with respect to the Cash Balance Member's Accrued Benefit, if any, that is not attributable to his Cash Balance Account. If the Cash Balance Member does not have a surviving Spouse on the date of his death, or if the Cash Balance Member's surviving consents at a time and in a manner satisfactory to the Committee (pursuant to a nondiscriminatory policy), the benefit payable under this Section 6.11 shall be payable to the Cash Balance Member's Beneficiary. The *total* death benefit payable under this Section 6.11 shall be payable either in the form of a lump sum distribution or in the form of a life annuity. Any lump sum distribution payable with respect to a Cash Balance Member's Accrued Benefit that is attributable to his Cash Balance Account shall equal his Cash Balance Account. In the case of a Cash Balance Member who has an Accrued Benefit that is not attributable to his Cash Balance Account, any lump sum distribution payable with respect to his Accrued Benefit that is not attributable to his Cash Balance Account shall be based on the life expectancy of the Cash Balance Member's surviving Spouse. Death benefits that become payable under this Section 6.11 shall commence as of the first day of the month coinciding with or next following the Cash Balance Member's date of death, without regard to the Cash Balance Member's age at date of death; provided, however, that the Cash Balance Member's surviving Spouse may elect to delay commencement of benefits until the Cash Balance Member would have attained his Normal Retirement Date. In no event shall an annuity payable under this Section 6.11 be less than a qualified pre-retirement survivor annuity.

6.12 Waiver of Qualified Pre-Retirement Survivor Annuity. A Member, other than a Cash Balance Member, may not waive the Qualified Pre-Retirement Survivor Annuity described in Section 2.68 and may not name a non-Spouse Beneficiary with respect to any death benefit arising because of the Member's death. Consistent with Section 6.11, a Cash Balance Member may, with Spousal consent, waive the Qualified Pre-Retirement Survivor Annuity described in Section 2.68 and may name a non-Spouse Beneficiary with respect to any death benefit arising because of the Member's death, all in accordance with applicable legal requirements.

6.13 Deferred Vested Benefit. Subject to the limitations in Section 6.16, if a Member, other than a Cash Balance Member, terminates employment after completing at least five Years of Vesting Service, he may elect to receive his Accrued Benefit at his Early or Normal Retirement Date. If a Member, other than a Cash Balance Member, elects to have his benefit commence at his Early Retirement Date, the monthly benefit shall be reduced in accordance with Section 6.1(b).

Subject to the limitations in Section 6.16, if a Cash Balance Member terminates employment after completing at least three Years of Vesting Service, without regard to the Cash Balance Member's age at termination of employment, he may elect, at a time and in a manner satisfactory to the Committee (pursuant to a nondiscriminatory policy), to receive his Accrued Benefit as of the first day of any month following his termination of employment. If a Cash Balance Member elects to have his Cash Balance Benefits commence prior to his Normal Retirement Date, his Cash Balance Benefits shall be Actuarially Equivalent, under the provisions of Section 2.2(e), to the Cash Balance Member's Accrued Benefit attributable to his Cash Balance Account. If a Cash Balance Member elects to have his Accrued Benefit, other than his Cash Balance Benefits, commence prior to his Normal Retirement Date, that portion of his Accrued Benefit, other than his Cash Balance Benefits, shall be reduced in accordance with Section 6.1(b). Subject to the provisions of the Plan, the Cash Balance Member's Accrued Benefit may

be distributed as either a lump sum distribution or an optional annuity benefit form available under Section 6.8.

A Member's termination benefit shall be computed in the form of a single life only annuity and shall commence at the time stated in Section 7.1 and in the form specified in Section 6.6, unless an optional form of benefit is selected in accordance with Section 6.8.

6.14 Disability Retirement Benefit. Subject to the limitations in Section 6.16, a Member whose employment terminated due to Disability, at a time when such Member was not a Cash Balance Member, and who is still Disabled at his Normal Retirement Date shall be entitled to receive the Accrued Benefit for which he is eligible under the Plan based on his years of Benefit Accrual Service (including credit for all years of Benefit Accrual Service while Disabled) and Average Monthly Earnings as of his date of Disability.

The disability retirement benefit of a Member whose employment terminated due to Disability, at a time when such Member was not a Cash Balance Member, shall be computed in the form of a single life only annuity and shall commence at the time stated in Section 7.1 and in the form specified in Section 6.6, unless an optional form of benefit is selected in accordance with Section 6.8.

If a Member whose employment terminated due to Disability, at a time when such Member was not a Cash Balance Member, elects to retire early while on the disability roll or otherwise is removed from the disability roll by reason of ceasing to be incapacitated, and is not returned to active employment, the Employee shall receive the pension benefits for which he is eligible under the Plan, but based on his years of Benefit Accrual Service and Average Monthly Earnings for which he was credited when placed on the disability roll.

An Employee whose employment terminated due to Disability prior to December 31, 2013, and who is not an Employee on December 31, 2013, is not eligible to affirmatively elect, during the period beginning January 13, 2014, and ending February 28, 2014, and in accordance with procedures established by Committee, to accrue Cash Balance Benefits under the Plan with respect to his post-March 31, 2014, employment with the Employer. However, if a Member, whose employment terminated due to Disability at a time when such Member was not a Cash Balance Member, is removed from the disability roll by reason of ceasing to be incapacitated, and is returned to active employment on or after January 1, 2014, the Employee shall be treated as a re-hired Employee, who becomes a Cash Balance Member as of April 1, 2014, or if later, as of his re-hire date, and such Employee's Accrued Benefit shall consist of (a) the Accrued Benefit to which the Employee is entitled under the Plan based on his Benefit Accrual Service (including all years of Benefit Accrual Service while Disabled) and his Average Monthly Earnings as of his date of Disability, plus (b) the Accrued Benefit derived from the Employee's Cash Balance Benefit for his employment after he is returned to active employment.

6.15 Preservation of Accrued Payments and Benefits. Notwithstanding any provision of the Plan to the contrary, this amendment and restatement of the Plan shall not operate to exclude, diminish, limit or restrict benefits accrued under the Plan prior to the amendment and restatement.

6.16 Limitation on Benefits.

(a) Transitional Limitation. Notwithstanding any provision in the Plan to the contrary, Highly Compensated Employees may not receive a distribution after January 31, 1989, of a benefit that exceeds the benefit that a Member had accrued as of the last day of the 1988 Plan Year until such time as the benefit accrued for him under the Plan, as amended for the Tax Reform Act of 1986, exceeds his Code Section 411(d)(6) protected benefits as of the last day of the 1988 Plan Year.

(b) Code Section 415 Requirements. The Plan hereby incorporates by reference the limitations on benefits and contributions relating to maximum permissible annual benefits, as if fully set out herein. The maximum annual benefit under the Plan shall not exceed, for any Member, the maximum permissible annual benefit under Code Section 415. This Section 6.16 is intended to comply with the requirements of the final 415 regulations published April 5, 2007, and is to be construed in accordance with such regulations and guidance issued thereunder. Except as otherwise provided, this Section 6.16 is effective as of the first day of the first Limitation Year beginning on or after July 1, 2007.

(c) General Code Section 415 Rules.

(1) Maximum Benefits. No benefit shall be payable to a Member or Beneficiary in excess of the benefit permitted to be paid under Code Section 415 and Regulations thereunder, the terms of which are incorporated by reference herein. For purposes of computing the limitation under Code Section 415, compensation for any Limitation Year shall mean the Member's compensation from the Employer and its Affiliated Employers for the Limitation Year.

(A) Notwithstanding the foregoing, for Limitation Years commencing prior to July 1, 2007, compensation taken into account for purposes of the limitation upon Plan benefits set forth in Code Section 415 was not limited by the dollar limitation set forth in Code Section 401(a)(17). Accordingly, a Member's accrued benefit shall not be less than his Accrued Benefit as of the last day of the last Limitation Year beginning prior to July 1, 2007, and for purposes of computing such accrued benefit as of the last day of the last Limitation Year beginning prior to July 1, 2007, the Member's compensation prior to the first day of the first Limitation Year beginning on or after July 1, 2007, taken into account for purposes of the Code Section 415(b) limitation shall not be limited by the dollar limitation set forth in Code Section 401(a)(17).

(B) Effective as of the first day of the first Limitation Year beginning on or after July 1, 2007, compensation for purposes of applying the Code Section 415(b) limitation shall not include any amounts paid after an employee's severance from employment (as defined in Regulation Section 1.415(a)-1(f)(5)) unless such amounts (A) are paid in the employee's final regular paycheck, (B) are paid (or would have been paid but for an election under Code Section 125, 132(f)(4), 401(k), 403(b), 408(k), 408(p)(2)(A)(i) or 457(b)) by the later of 2½ months after severance from employment with the Employer or the end of the Limitation Year that includes the date of the severance from employment with the Employer, (C) are regular compensation for services during the employee's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar amounts, and (D) would have been paid to the employee prior to a severance from employment if the employee had continued in employment with the Employer.

(C) Effective January 1, 2009, differential wage payments (as defined in Code Section 3401(h)(2)) will be included in a Member's compensation for purposes of computing the Code Section 415 limitation.

(2) Adjustment to Form of Benefit for Forms other than a Straight Life Annuity.

(A) Benefits Paid in a Form to which Code Section 417(e)(3) does not Apply. For purposes of determining the maximum permissible benefit payable under the Plan for a benefit paid in a form to which Code Section 417(e)(3) does not apply, the actuarially equivalent straight life annuity benefit is the greater of (i) the annual amount of the straight life annuity payable to the Member under the Plan commencing at the same Annuity Starting Date as the form of benefit payable to the Member, or (ii) the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the form of benefit payable to the Member, computed using a five percent interest assumption and the applicable mortality table described in Regulation Section 1.417(e)-1(d)(2) for that Annuity Starting Date.

(B) Benefits Paid in a Form to which Code Section 417(e)(3) Applies. For Plan Years beginning after December 31, 2005, the actuarially equivalent straight life annuity benefit for a benefit paid in a form to which Code Section 417(e)(3) applies is the greatest of (i) the annual amount of the straight life annuity commencing at the Annuity Starting Date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table otherwise specified in the Plan; (ii) the annual amount of the straight life annuity commencing at the Annuity Starting Date that has the same actuarial present value as the particular form of benefit payable, calculated using a 5.5 percent interest rate assumption and the applicable mortality table for the distribution under Regulation Section 1.417(e)-1(d)(2); or (iii) the annual amount of the straight life annuity commencing at the Annuity Starting Date that has the same actuarial present value as the particular form of benefit payable (computed using the applicable interest rate for the distribution under Regulation Section 1.417(e)-1(d)(3) and the applicable mortality table for the distribution under Regulation Section 1.417(e)-1(d)(2)), divided by 1.05.

(C) Special Rule for Distributions in Plan Years Beginning in 2004 and 2005. For a distribution to which Code Section 417(e)(3) applies and which has an Annuity Starting Date occurring in Plan Years beginning in 2004 or 2005, except as provided in Section 101(d)(3) of the Pension Funding Equity Act of 2004, the actuarially equivalent straight life annuity benefit is the greater of (i) the annual amount of the straight life annuity commencing at the Annuity Starting Date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table otherwise specified in the Plan, or (ii) the annual amount of the straight life annuity commencing at the Annuity Starting Date that has the same actuarial present value as the particular form of benefit payable, computed using a 5.5 percent interest rate assumption and the applicable mortality table for the distribution under Regulation Section 1.417(e)-1(d)(2).

6.17 Required Information. Each Member who elects to take an optional form of benefit under the Plan shall provide the information to the Committee that is required to implement the election. Failure to provide such information shall result in the Member receiving the automatic form of benefit under the Plan.

6.18 Nonduplication and Suspension of Benefits. This Section 6.18 addresses the manner in which pension benefits that have commenced to a Member in an optional annuity benefit form described in Section 6.8 will be handled in the event that such Member is re-employed by the Employer. Without regard to such Member's Re-Employment Commencement Date, the Member who is receiving pension benefits under an optional annuity benefit form shall continue to receive pension benefits under his previously-elected optional annuity benefit form.

The recomputation provisions of this paragraph apply only to a Member who has commenced an optional annuity benefit form described in Section 6.8 and only with respect to such Member's Accrued Benefit, if any, other than his Cash Balance Benefit. In the case of such a Member, the Committee shall recompute that portion of the Member's Accrued Benefit, if any, described in the preceding sentence on the date, following his Re-Employment Commencement Date, that he ceases to be an Employee. The Accrued Benefit so recomputed shall be reduced by the Actuarial Equivalent of the benefit previously paid to the Member, and in no event shall the recomputation result in a reduction in such Member's Accrued Benefit.

6.19 USERRA. Notwithstanding any provision of the Plan to the contrary, contributions, benefits and service credit with respect to qualified military service will be provided in accordance with Code Section 414(u). Effective January 1, 2007, if a Member dies while performing qualified military service (as defined in Code Section 414(u)), the Member's Beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan had the Member resumed employment and then terminated employment on account of death.

ARTICLE 7
TIMING OF DISTRIBUTIONS

7.1 Commencement of Retirement Benefit. Except to the extent that

(a) a Member forfeits his Accrued Benefit under Section 5.1,

(b) the Actuarial Equivalent of his Accrued Benefit becomes payable under Section 6.2,

(c) he dies prior to receipt of any portion of his Accrued Benefit (or its Actuarial Equivalent), or

(d) he elects an alternative Benefit Commencement Date under Section 7.3,

payment of his Accrued Benefit (or its Actuarial Equivalent) shall commence on his Normal Retirement Date.

7.2 Commencement of Death Benefits. Except as provided in Section 6.11 with respect to Cash Balance Members, death benefits described in Section 6.10 that become payable to a Member's eligible Spouse shall commence on the date set forth in Section 6.10, and death benefits described in Section 2.68 that become payable to a Member's eligible Spouse shall commence as of the first day of the month coinciding with or next following the later of

(a) the Member's date of death, or

(b) the date the Member would have attained the earliest retirement date under the Plan.

The preceding provisions of this Section 7.2 notwithstanding, a Member's eligible Spouse may elect to delay commencement of death benefits under Section 2.68 or Section 6.10, as applicable, until the Member would have attained his Normal Retirement Date.

7.3 Election of Alternative Benefit Commencement Date.

Except as otherwise provided under the Plan, a Member may elect, at a time and in a manner satisfactory to the Committee (pursuant to a nondiscriminatory policy), a different Benefit Commencement Date than would otherwise be prescribed under Section 7.1.

(a) Upon or after attainment of Normal Retirement Age, a Member may elect to commence receipt of his Accrued Benefit (or if greater, the Actuarial Equivalent of his Accrued Benefit at his Normal Retirement Date) at any time after termination of employment, subject to the provisions of Section 7.6.

(b) In the case of a Member's early retirement, he may elect commencement of payment of a reduced benefit at any time after attainment of age 55.

(c) A Member who separates from service with the Employer prior to attainment of age 55 may elect commencement of a reduced benefit at any time on or after his attainment of age 55, and prior to his Normal Retirement Date.

In addition, except as otherwise provided in the Plan, a Member who is a Cash Balance Member may elect, at a time and in a manner satisfactory to the Committee (pursuant to a nondiscriminatory policy), either a lump sum distribution or an optional annuity benefit form available under Section 6.8, as of the first day of any month following the Cash Balance Member's termination of employment, without regard to the Cash Balance Member's age at termination of employment.

7.4 Required Member Consent to Distribute. If the Actuarial Equivalent of a Member's Vested Accrued Benefit exceeds $1,000 ($5,000 for distributions occurring before March 28, 2005) at the time the Member is eligible for a distribution, no distribution shall be made without the written consent of the Member (and if married, the Member's Spouse), except with respect to distributions

(a) after the Member's Normal Retirement Date,

(b) after the Member's death,

(c) required under Section 7.6, or

(d) pursuant to a QDRO.

7.5 Qualified Domestic Relations Orders and Benefit Commencement. All rights and benefits, including elections, provided to a Member under the Plan shall be subject to the rights afforded to an Alternate Payee under a QDRO. The Committee shall establish a written procedure to determine the qualified status of any domestic relations orders received by the Plan and to administer distributions under QDROs. Subject to the preceding provisions of this Section 7.5, a distribution that is made to an Alternate Payee under a QDRO, after the Member, all or any portion of whose Plan benefits have been assigned to the Alternate Payee under the QDRO, becomes a Cash Balance Member under the Plan, may commence before the Member has separated from service, and before the Member has reached his "Earliest Retirement Age," as such term is defined in Code Section 414(p)(4)(B), under the Plan; provided, however, that a distribution that is made to an Alternate Payee of a Member who has not become a Cash Balance Member under the Plan may commence before the Member has separated from service, but not before the Member has reached his Earliest Retirement Age under the Plan.

7.6 Mandatory Distributions. If any distribution commencement date described under Section 7.6(a), either by Plan provision or by Member election (or nonelection) is later than a Member's Required Beginning Date, the Committee instead must direct the Trustee to make distribution under this Section 7.6 on the Member's Required Beginning Date. Except as otherwise specified in this Section 7.6, a Member's "Required Beginning Date" is April 1st of the calendar year following the later of (a) the calendar year in which the Member attains age 72 (70½, for Members who attained such age before January 1, 2020) or (b) the calendar year in which the Member retires; provided, however, that this clause (b) shall not apply in the case of a Member who is a Five Percent Owner with respect to the Plan Year ending in the calendar year in which he attains age 72 (70½ for Members who attained such age before January 1, 2020). A mandatory distribution required at a Member's Required Beginning Date shall be in the normal annuity form of distribution required under Section 6.6 unless the Member, pursuant to Article 6, makes a valid election to receive an alternative form of payment.

(a) Minimum Distribution Requirements for Members. The Committee may not direct the Trustee to distribute a Member's Vested Accrued Benefit, nor may a Member elect to have the Trustee distribute his Vested Accrued Benefit, under a method of payment that, as of the Required Beginning Date, does not satisfy the minimum distribution requirements under Code Section 401(a)(9).

(1) Minimum Distribution for Annuity Distribution. An annuity distribution made to a Member pursuant to this Section 7.6 must satisfy all of the following requirements:

(A) The periodic payment intervals under the annuity may not be longer than one year.

(B) The distribution period must not exceed the life (or joint lives) of a Member and his Designated Beneficiary or a period certain not longer than the Life Expectancy (or joint life expectancy) of a Member and his Designated Beneficiary.

(C) The annuity does not recalculate Life Expectancy.

(D) The Member or Beneficiary may not lengthen the period certain, if applicable, even if the period certain is shorter than the maximum period permitted under Code Section 401(a)(9).

(E) The payments are nonincreasing or increase only under the following circumstances: (i) with any percentage increase in an eligible cost-of-living index as provided in Treasury Regulation Section 1.409(a)(9)-6(o)(2) for the 12 month period ending in the year during which the increase occurs or the prior year; (ii) a percentage increase that occurs at specified times (for example, at specified ages) and does not exceed the cumulative total of annual percentage increases in an eligible cost-of-living index (as defined in Treasury Regulation Section 1.409(a)(9)-6(o)(2)) after the Annuity Starting Date, or if later, the date of the most recent percentage increase; (iii) an increase to take into account the reduction to the amount of the Member's payments to provide a survivor benefit, but only if there is no longer a survivor benefit because the Beneficiary whose life was being used to determine the survivor distribution period dies or is no longer the Member's beneficiary pursuant to a qualified domestic relations order under Code Section 414(p); (iv) an increase to pay increased benefits that result from a Plan amendment; (v) an increase to allow a Beneficiary to convert the survivor portion of a joint and survivor annuity into a single-sum distribution upon the Member's death; (vi) an increase to the extent permitted in accordance with Treasury Regulation Section 1.409(a)(9)-6(o)(3), (4) or (5); (vi) an increase as a result of the resumption of benefits that were suspended pursuant to Code Section 411(a)(3)(B), Code Section 418E (for an insolvent plan) or Code Section 432(e)(9) (for a Member or Beneficiary of a plan in critical and declining status whose benefits have been suspended under Code Section 432(e)(9), if the suspension of benefits consists of a temporary reduction of benefits or if suspended benefits resume because of a failure to meet the conditions of Code Section 432(e)(9)(C); or (vii) an increase due to payments from an annuity contract purchased from an insurance company in accordance Treasury Regulation Section 1.409(a)(9)-6(o)(4).

(F) If the annuity is a life annuity (or a life annuity with a period certain not exceeding 20 years) the minimum distribution required by a Member's Required Beginning Date is one payment interval. Subsequent minimum distributions are the payment intervals determined under the annuity, even if the second payment interval occurs in the calendar year following the year in which the Required Beginning Date occurs.

(G) If the annuity provides a period certain without a life contingency, or if a life annuity with a period certain exceeding 20 years, the minimum distribution for each calendar year subject to this Section 7.6 is the annual amount, determined by totaling the periodic payments for a calendar year. The minimum distribution due by a Member's Required Beginning Date is the annual amount for the calendar year preceding that Required Beginning Date. The minimum distribution for the calendar year that includes the Required Beginning Date and for all subsequent calendar years is the annual amount for that calendar year and the annuity must pay that minimum distribution no later than December 31st of that calendar year.

(2) Minimum Distribution Incidental Death Benefit ("MDIB"). If a Member's Spouse is not his Designated Beneficiary, an annuity commencing after December 31, 1988, must satisfy the MDIB requirements of this Section 7.6(a)(2). If the annuity provides a period certain without a life contingency, the period certain in effect as of the first Distribution Calendar Year may not exceed the applicable period determined under the maximum period certain table set forth in Regulation Section 1.401(a)(9)-2. If the annuity with a life contingency includes a period certain, the period certain at any time on or after a Member's Required Beginning Date may not exceed the maximum period certain determined under the table described in the immediately preceding sentence. If the annuity is a joint and survivor annuity payable for the joint lives of a Member and a non-Spouse Beneficiary, the survivor percentage in effect at any time on or after a Member's Required Beginning Date may not exceed the

percentage determined under the applicable percentage table set forth in Regulation Section 1.401(a)(9)-2. A joint and survivor annuity under which the survivor percentage does not exceed 50 percent always satisfies this Section 7.6(a)(2). A life annuity payable to a Member, without any period certain, is not subject to the MDIB requirements of this Section 7.6(a)(2).

(3) Transitional Rules. An annuity commencing prior to January 1, 1989, satisfies the incidental benefits requirement if it satisfies the MDIB requirements under Section 7.6(a)(2) or if the present value of the retirement benefits payable solely to a Member is greater than 50 percent of the present value of the total benefits payable to the Member and his Beneficiaries. This transitional rule also applies to deferred annuity contracts distributed to or owned by a Member prior to January 1, 1989, unless the Employer makes additional contributions under the Plan with respect to that contract.

(4) Additional Accruals. Benefits accruing to a Member after his Required Beginning Date constitute a separate component of the annuity distribution described in this Section 7.6(a) beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues. The Annuity Starting Date and form of distribution commenced by the Required Beginning Date applies to the distribution of these additional accruals, unless a Member elects otherwise pursuant to his benefit options described in Article 6, and that election otherwise complies with the minimum distribution requirements of this Section 7.6(a). An additional accrual includes any portion of a Member's Accrued Benefit that becomes Vested during the applicable calendar year.

(5) Nonannuity Distributions. If a Member elects an installment distribution directly from the Trust, under which the method of payment is in the form of an individual account distribution, the distribution method must satisfy the minimum distribution requirements that apply to individual accounts, including the MDIB requirements that apply to individual accounts, as determined under Code Section 401(a)(9). A lump sum distribution made on or before a Member's Required Beginning Date of his entire Vested Accrued Benefit under the Plan satisfies the minimum distribution requirements of this Section 7.6(a). Furthermore, a lump sum payment of additional accruals, as described under Section 7.6(a)(4), no later than the end of the first payment interval ending in the calendar year immediately following the calendar year in which such amounts accrue, satisfies the minimum distribution requirements of this Section 7.6(a).

(b) Minimum Distribution Requirements for Beneficiaries. The method of distribution to a Member's Beneficiary must satisfy Code Section 401(a)(9). If a Member's death occurs after his Required Beginning Date or, if earlier, the date a Member commences an irrevocable annuity pursuant to this Article 7, the method of payment to the Beneficiary must provide for completion of payment over a period that does not exceed the payment period that had commenced for the Member. If a Member's death occurs prior to his Required Beginning Date, and the Member has not commenced an irrevocable annuity pursuant to this Article 7, the method of payment to the Beneficiary must provide for completion of payment to the Beneficiary over a period not exceeding (1) five years after the date of the Member's death (with payments completed by December 31st of the calendar year in which occurs the fifth anniversary of the Member's date of death), or (2) if the Beneficiary is a Designated Beneficiary, the Designated Beneficiary's Life Expectancy. The Committee may not direct payment of a Member's Vested Accrued Benefit over a period described in clause (2) of this Section 7.6(b) unless the Trustee shall commence payment to the Designated Beneficiary not later than the December 31st following the close of the calendar year in which the Member's death occurred or, if later, and if the

Designated Beneficiary is the Member's surviving Spouse, December 31st of the calendar year in which the Member would have attained age 72 (70½ for Members who attained such age before January 1, 2020). The Committee must use the unisex Life Expectancy multiples under Regulation Section 1.72-9 for purposes of applying this Section 7.6(b). An annuity distribution to the Designated Beneficiary, whether directly from the Trust or in the form of a nontransferable annuity contract, satisfies clause (2) of this Section 7.6(b) if the annuity satisfies the minimum distribution requirements of Section 7.6(a), but applying paragraphs (F) and (G) of Section 7.6(a)(1) as follows: (A) the Distribution Calendar Years applicable to the Designated Beneficiary are the calendar year in which benefits must commence under clause (2) of this Section 7.6(b) and all subsequent calendar years; and (B) the first payment interval under paragraph (F) is due by the December 31st described in clause (2) of this Section 7.6(b). A lump sum distribution to the Beneficiary made no later than the date described in clause (1) of this Section 7.6(b) satisfies these minimum distribution requirements. In the case of a nonannuity distribution to a Designated Beneficiary, the Plan satisfies the requirement of this Section 7.6(b) if the distribution method satisfies the minimum distribution requirements applicable to individual accounts, as determined under Code Section 401(a)(9), and the first minimum distribution occurs no later than the December 31st described in clause (2) of this Section 7.6(b). The Committee shall apply this Section 7.6(b) by treating any amount paid to a Member's child, that becomes payable to a Member's surviving Spouse upon the child's attaining the age of majority, as paid to the Member's surviving Spouse.

(c) Special Rules. The Committee, only upon a Member's written request or, in the case of a distribution described in Section 7.6(b), only upon the written request of a Member's Spouse, may recalculate the applicable Life Expectancy period for purposes of calculating the minimum distribution applicable to a Distribution Calendar Year following the first Distribution Calendar Year. The Member must make a recalculation election not later than his Required Beginning Date. A surviving Spouse must make a recalculation election no later than the December 31st date described in clause (2) of Section 7.6(b). A recalculation election applicable to a joint Life Expectancy payment, where the survivor is a non-Spouse Beneficiary, may not take into account any adjustment to any Life Expectancy other than a Member's Life Expectancy, as prescribed by applicable regulations under Code Section 401(a)(9). In the absence of a recalculation election, the Plan does not permit recalculation of the applicable Life Expectancy factor.

No commencement of benefits shall be required to comply with this Section 7.6 to the extent that a Member has a valid election under TEFRA Section 242(b)(2).

(d) Notwithstanding the foregoing provisions of this Section 7.6, effective as of January 1, 2022, the following rules shall apply for purposes of determining required minimum distributions.

(1) Precedence. The requirements of this Section 7.6(d) will take precedence over any inconsistent provisions of the Plan.

(2) Requirements of Treasury Regulations Incorporated. All distributions required under this Section 7.6(d) will be determined and made in accordance with the Treasury Regulations under Code Section 401(a)(9).

(3) TEFRA Section 242(b)(2) Elections. Notwithstanding the other provisions of this Section 7.6(d), distributions may be made under a designation made before January 1, 1984, in accordance with TEFRA Section 242(b)(2) (E)and the provisions of the Plan that relate to TEFRA.

(4) Time and Manner of Distribution.

(A) Required Beginning Date. The Member's entire interest will be distributed, or begin to be distributed, to the Member no later than the Member's Required Beginning Date. If a Member, other than a Five Percent Owner, retires after attaining age 70½, the Member's Accrued Benefit will be actuarially increased to take into account the period during which the Member was not receiving benefits under the Plan.

(B) Death of Member Before Distributions Begin. If the Member dies before distributions begin, the Member's entire interest will be distributed, or begin to be distributed, no later than as follows:

(i) If the Member's surviving Spouse is the Member's sole Designated Beneficiary, then distributions to the surviving Spouse will begin by December 31st of the calendar year immediately following the calendar year in which the Member died, or by December 31st of the calendar year in which the Member would have attained age 72 (70½ for Members who attained such age before January 1, 2020), if later.

(ii) If the Member's surviving Spouse is not the Member's sole Designated Beneficiary, then distributions to the Designated Beneficiary will begin by December 31st of the calendar year immediately following the calendar year in which the Member died.

(iii) If there is no Designated Beneficiary as of September 30th of the year following the year of the Member's death, the Member's entire interest will be distributed by December 31st of the calendar year including the fifth anniversary of the Member's death; provided, however, that if payments are restricted by Code Section 436(d), distribution of the Member's interest may be extended beyond such fifth anniversary date so long as payments begin by the fifth year after the Member's death and are paid in a form that is as accelerated as permitted under Code Section 436(d).

(iv) If the Member's surviving Spouse is the Member's sole Designated Beneficiary and the surviving Spouse dies after the Member but before distributions to the surviving Spouse begin, this Section 7.6(d)(4)(B), other than Section 7.6(d)(4)(B)(i), will apply as if the surviving Spouse were the Member.

For purposes of this Section 7.6(d)(4)(B) and Section 7.6(d)(6), unless Section 7.6(d)(4)(B)(iv) applies, distributions are considered to begin on the Member's Required Beginning Date. If Section 7.6(d)(4)(B)(iv) applies, distributions are considered to begin on the date distributions are required to begin to the surviving Spouse under Section 7.6(d)(4)(B)(i). If distributions under an annuity purchased from an insurance company irrevocably commence to the Member before the Member's Required Beginning Date (or to the Member's surviving Spouse before the date distributions are required to begin to the surviving Spouse under Section 7.6(d)(4)(B)(i)), the date distributions are considered to begin is the date distributions actually commence.

(C) Forms of Distribution. Unless the Member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the Required Beginning Date, as of the first Distribution Calendar Year, distributions will be made in accordance with Sections 7.6(d)(5) and (6). If the Member's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of Code Section 401(a)(9).

(D) Amount to be Distributed Each Year. If the Member's interest is distributed in the form of an annuity, the annuity must satisfy the requirements set forth in Section 7.6(a)(1).

(E) Amount to be Distributed by Required Beginning Date. The amount that must be distributed on or before the Member's Required Beginning Date (or, if the Member dies before distributions begin, the date distributions are required to begin under Section 7.6(d)(4)(B)(i) or Section 7.6(d)(4)(B)(ii) is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the bi-monthly, monthly, semi-annually, annually or other, as applicable, periods for which payments are received. All of the Member's benefit accruals as of the last day of the first Distribution Calendar Year must be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the Member's Required Beginning Date.

(f) Additional Accruals After First Distribution Calendar Year. Any additional benefits accruing to the Member in a calendar year after the first Distribution Calendar Year must commence to be distributed in accordance with the provisions of this Section 7.6(d), beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such additional benefit amount accrues .

(5) Required Minimum Distributions During Member's Lifetime.

(A) Joint Life Annuities with Non-Spouse Beneficiaries. If the Member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Member and a non-Spouse beneficiary, the periodic annuity payment payable to the Designated Beneficiary after the Member's death must not at any time after the Member's Required Beginning Date exceed the applicable percentage of the annuity payment payable to the Member using Table 1 set forth in Treasury Regulation Section 1.401(a)(9)-6. If the form of distribution combines a joint and survivor annuity for the joint lives of the Member and a non-Spouse beneficiary and a period certain annuity, the requirement in the preceding sentence will apply to annuity payments to be made to the Designated Beneficiary after the expiration of the period certain.

(B) Period Certain Annuities. Unless the Member's Spouse is the sole Designated Beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the Member's lifetime may not exceed the applicable distribution period for the Member under the Uniform Lifetime Table set forth in Treasury Regulation Section 1.401(a)(9)-9(c)(2) for the calendar year that contains the Member's Annuity Starting Date. the Annuity Starting Date precedes the year in which the Member reaches age 72 (70 for

Members who attained such age before January 1, 2020), the applicable distribution period for the Member is the distribution period for age 72 (or 70, if applicable) under the Uniform Lifetime Table set forth in Treasury Regulation Section 1.401(a)(9)-9(c)(2) plus the excess of 72 (or age 70, if applicable) over the age of the Member as of the Member's birthday in the year that contains the Annuity Starting Date. If the Member's Spouse is the Member's sole Designated Beneficiary, and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the Member's applicable distribution period, as determined under this section 7.6(d), or the joint life and last survivor expectancy of the Member and the Member's spouse as determined under the Joint and Last Survivor Table set forth in Treasury Regulation Section 1.401(a)(9)-9(d), using the Member's and spouse's attained ages as of the Member's and spouse's birthdays in the calendar year that contains the Annuity Starting Date.

(6) Required Minimum Distributions When Member Dies Before Distributions Begin.

(A) Member Survived by Designated Beneficiary. If the Member dies before the date distributions begin and there is a Designated Beneficiary, the Member's entire interest will be distributed, beginning no later than the time described in Section 7.6(d)(4)(B)(i) or Section 7.6(d)(4)(B)(ii) or (b), over the life of the Designated Beneficiary or over a period certain not exceeding:

(i) unless the Annuity Starting Date is before the first Distribution Calendar Year, the life expectancy of the Designated Beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the Member's death; or

(ii) if the Annuity Starting Date is before the first Distribution Calendar Year, the life expectancy of the Designated Beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the Annuity Starting Date

(B) No Designated Beneficiary. If the Member dies before the date distributions begin and there is no Designated Beneficiary as of September 30th of the year after the year of the Member's death, distribution of the Member's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Member's death.

(C) Death of Surviving Spouse Before Distributions to Surviving Spouse Begin. If the Member dies before the date distributions begin, the Member's surviving Spouse is the Member's sole Designated Beneficiary, and the surviving Spouse dies before distributions are required to begin to the surviving Spouse under Section 7.6(d)(4)(B)(i), this Section 7.6(d)(6)(C) will apply as if the surviving Spouse were the Member.

(7) Distributions to Member's Child. For purposes of this Section 7.6, payments made by the Plan to a Member's child following the death of the Member are treated as if made to the surviving Spouse of the Member until the child reaches the age of 21 provided that such payments become payable to the Member's surviving Spouse upon cessation of such payments to the child if such surviving Spouse is then living.

7.7 ERISA Required Commencement Date. Payment of a Member's benefits, unless the Member elects otherwise, shall begin not later than the 60th day after the latest of the close of the Plan Year in which occurs

(a) the date on which the Member attains age 65,

(b) the tenth anniversary of the year in which the Member commenced participation in the Plan, or

(c) the date on which the Member terminates his service with the Employer.

7.8 Payment of Distribution Directly to Eligible Retirement Plan. Notwithstanding any provision of the Plan to the contrary that would otherwise limit a Distributee's election under this Section 7.8, a Distributee may elect, at the time and in the manner prescribed by the Committee, to have any portion of an Eligible Rollover Distribution paid directly to an Eligible Retirement Plan specified by the Distributee in a Direct Rollover. For purposes of this Section 7.8, the following definitions shall apply

(a) Eligible Rollover Distribution. An Eligible Rollover Distribution is any distribution of all or any portion of the balance to the credit of the Distributee, except that an Eligible Rollover Distribution does not include (1) any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the Distributee or the joint lives (or joint life expectancies) of the Distributee and the Distributee's designated Beneficiary, or for a specified period of ten years or more, or (2) any distribution to the extent such distribution is required under Code Section 401(a)(9).

(b) Eligible Retirement Plan. An Eligible Retirement Plan is an individual retirement account described in Code Section 408(a), an individual retirement annuity described in Code Section 408(b), an annuity plan described in Code Section 403(a), a qualified trust described in Code Section 401(a), an annuity contract described in Code Section 401(b), an eligible deferred compensation plan under Code Section 457(b) (maintained by a state, a political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state, where such eligible plan agrees to separately account for amounts transferred into such plan from this Plan), or effective January 1, 2008, an individual retirement plan as described in Code Section 408A (subject to the restrictions of Code Section 408A(c)(3)(B) prior to January 1, 2010) that accepts the Distributee's Eligible Rollover Distribution. This definition of Eligible Retirement Plan shall also apply in the case of a distribution to a surviving Spouse, or to a Spouse or former Spouse who is the Alternate Payee under a QDRO.

(c) Distributee. A Distributee includes an Employee or former Employee. In addition, an Employee's or former Employee's surviving Spouse and the Employee's or former Employee's Spouse or former Spouse who is the Alternate Payee under a QDRO are Distributees with regard to the interest of such Spouse.

Effective January 1, 2007, a Beneficiary of a Member who is (1) not the surviving Spouse of the Member and (2) a designated Beneficiary may elect, at the time and in the manner prescribed by the Committee, to have any portion of a distribution to which such Beneficiary is entitled transferred directly to an individual retirement plan described in Code Section 402(c)(8)(B)(i) or (ii) that is

established for the purpose of receiving such distribution on behalf of such Beneficiary. If such direct transfer is made, (1) such direct transfer shall be treated as an Eligible Rollover Distribution, (2) the individual retirement plan shall be treated as an inherited individual retirement account or individual retirement annuity (within the meaning of Code Section 408(d)(3)(C)), and (3) Code Section 401(a)(9)(B) (other than clause (iv) thereof) shall apply to such plan. For this purpose, certain trusts shall be treated as designated beneficiaries, as provided in Code Section 402(c)(11)(B).

(d) Direct Rollover. A Direct Rollover is a payment by the Plan to the Eligible Retirement Plan specified by the Distributee.

7.9 Payment of Distribution When Member Cannot be Located. Effective January 1, 2009, if it is not possible to make a required payment to a Member or Beneficiary on the date when the payment would otherwise be made under the Plan because the Member or Beneficiary cannot be located after making a reasonable effort to do so, a payment retroactive to the date the payment should have been made may be made no later than 60 days after the date the Member or Beneficiary is located in accordance with Regulation Section 1.401(a)-14(d).

ARTICLE 8
ADMINISTRATION OF PLAN

8.1 Appointment and Term of Committee. The Board shall appoint at least three individuals to the Committee, the members of which shall serve until their resignation, death or removal. Any person, including but not limited to the directors, shareholders, officers and employees of the Employer, shall be eligible to serve on the Committee. Vacancies on the Committee arising by resignation, death, removal or otherwise shall be filled by the Board. Until such vacancies are filled, however, the remaining members of the Committee shall carry out the powers and duties of the Committee. A member of the Committee may resign at any time by delivering his written notice of resignation to the Board, with or without cause or prior notice, to take effect on the date specified. The Board may remove a member of the Committee at any time by delivering a written notice of removal to the Committee member, with or without cause or prior notice, to take effect on the date specified.

8.2 Powers and Responsibilities.

(a) Statement of Funding Policy. The Committee shall establish a funding policy and method, including but not limited to determination of short-term objectives for liquidity and long-term objectives for investment growth, or shall appoint a qualified person to do so. The Committee shall review, not less often than annually, all pertinent Employee information and Plan data in order to adjust the Plan's established funding policy and method to carry out the Plan's objectives. The Committee shall communicate the funding policy and method, and any changes thereto, periodically as it deems appropriate, to the Trustee and any Investment Manager.

(b) Appointment of Investment Manager. The Committee shall have the authority to appoint an Investment Manager or Managers to manage, including the power to acquire and dispose of, any or all of the Trust assets. In the event of any such appointment, the Committee shall establish the portion of the Trust assets that shall be subject to the management of the Investment Manager and shall so notify the Trustee in writing. Neither the Committee nor the Trustee shall have investment

responsibility with respect to those assets subject to the investment direction of the Investment Manager.

(c) Appointment of Advisors. The Committee, or the Trustee with the consent of the Committee, may appoint counsel, specialists, advisors and other persons, as the Committee or the Trustee deems necessary or desirable in connection with the administration of the Plan.

(d) Specific Powers and Duties. The primary responsibility of the Committee is to administer the Plan for the exclusive benefit of the Members and their Beneficiaries, subject to the terms of the Plan. The Committee shall administer the Plan in accordance with the terms hereof and shall have the power to determine all questions arising in connection with the administration, interpretation and application of the Plan, and as more specifically set forth in this Section 8.2 and other Sections of the Plan. The Committee may correct any defect, supply any omission or reconcile any inconsistency in such manner and to such extent as it deems necessary or advisable to carry out the purposes of the Plan; provided, however, that any interpretation or construction shall be nondiscriminatory and consistent with the intent that the Plan continue to be a qualified plan and trust under Code Sections 401(a) and 501(a) and that the Plan continue to comply with ERISA.

The Committee is charged with the duties of the general administration of the Plan, including but not limited to the following:

(1) resolving all questions relating to the eligibility of Employees to participate or remain Members hereunder;

(2) computing, certifying and directing the Trustee with respect to the amount and kind of benefits to which a Member shall be entitled hereunder;

(3) authorizing and directing the Trustee with respect to all disbursements from the Trust;

(4) maintaining all necessary records for the administration of the Plan;

(5) interpreting the provisions of the Plan and making and publishing such rules for regulation of the Plan as are consistent with the terms hereof;

(6) determining the size and type of any annuity contract to be purchased from an insurer, and designating the insurer from which such contract shall be purchased;

(7) providing information to any Member regarding his rights, benefits or elections available under the Plan;

(8) furnishing the Employer with information that the Employer may require for tax or other purposes;

(9) enforcing the terms of the Plan and the rules and regulations adopted by the Committee;

(10) reviewing and rendering decisions with respect to a claim for (or a denial of a claim for) a benefit under the Plan; and

(11) determining the value of a Member's Accrued Benefit and the Vested percentage of each Member's Accrued Benefit.

(e) Other Powers and Duties. The Committee shall have all powers necessary or appropriate to fulfill its duties under the Plan.

8.3 Allocation of Duties Among Committee Members. The Committee may select a Chairman from among its members. A Secretary, who may or may not be a member of the Committee, may also be appointed by the Committee. The Chairman shall preside at all meetings of the Committee unless, in his absence, a Vice Chairman selected by the Committee presides. The Secretary shall keep all minutes of Committee proceedings and such records and documents as are necessary for the proper administration of the Plan.

The responsibilities of each Committee member may be specified by the Sponsor and accepted in writing by the member. In the event that no such delegation is made by the Sponsor, the Committee members may, by written instrument, allocate responsibilities among themselves, in which event the Committee shall notify the Sponsor and the Trustee in writing of such action and specify the responsibilities of each Committee member. The Trustee thereafter shall accept and rely upon any documents executed by the appropriate member of the Committee until such time as the Sponsor or the Committee files with the Trustee a written revocation of such designation.

8.4 Compensation of Committee Members. Committee members may receive reasonable compensation for services rendered, except that no person serving on the Committee who receives full-time pay from the Employer shall receive compensation from the Plan. All Committee members may receive reimbursement of expenses properly and actually incurred in the performance of duties under the Plan.

8.5 Manner of Acting. Except where there has been an allocation or delegation of administrative authority pursuant to Section 8.3, the Committee shall act by a majority of its members. The Chairman or the Secretary of the Committee may execute a certificate or other written evidence of Committee action. The Committee may delegate any of its rights, powers and duties to any one or more of its members, including the power to execute any document on behalf of the Committee, in which event the Committee shall notify the Board, the Employer and the Trustee of the name or names of its members so designated. The Trustee thereafter shall accept and rely upon any document executed by such member or members as representing action by the Committee, until the Committee files with the Board, the Employer and the Trustee written revocation of such designation.

8.6 Records and Reports. The Committee shall keep a record of all actions taken and shall keep all other books of account, records and other data that may be necessary for the proper administration of the Plan. The Committee shall be responsible for supplying all information and reports to the IRS, Department of Labor, Members, Beneficiaries and others, as required by law; provided, however, that reports concerning distributions, whether to a governmental agency or a recipient, shall be the responsibility of the Trustee.

8.7 Information from Employer. The Employer shall furnish to the Trustee proper written evidence of the names of the individuals duly appointed to the Committee, and of any resignations, deaths, removals or replacements of Committee members. To enable the Committee to perform its functions, the Employer shall provide full and timely information to the Committee on all matters relating to each Member's compensation, hours of service, years of service, retirement, death, disability or termination of employment, and such other pertinent facts and data as the Committee may require. The Committee shall advise the Trustee of the foregoing facts as may be pertinent to the Trustee's duties under the Plan. The Committee and Trustee may rely upon such information as is provided by the Employer and shall have no duty or responsibility to verify such information.

8.8 Payment of Expenses. Any bond required by applicable law for the performance of duties by Committee members, as well as all reasonable and necessary costs, expenses and liabilities incurred by the Committee in the supervision and administration of the Plan, that are not paid by the Employer, shall be a charge against the Plan assets and shall be paid therefrom (from forfeitures under the Plan or otherwise) by the Trustee, as directed in writing by the Committee. All Plan administration expenses may be paid from Plan assets (from forfeitures under the Plan or otherwise), unless paid by the Employer. Such expenses shall include any expenses incident to the functioning of the Committee, including but not limited to, fees of accountants, counsel and other specialists, and other costs of administering the Plan. Until paid, the expenses shall constitute a liability of the Plan assets. However, the Employer may reimburse the Trust for any administrative expenses incurred under this Section 8.8 or otherwise under the Plan.

8.9 Discretion. The Committee shall discharge its duties with respect to the Plan in the sole interest of the Members and their Beneficiaries, using the care, skill and discretion that a prudent man acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character under then prevailing circumstances. The Committee, in communicating the funding policy to the Trustee and any Investment Manager appointed under the Plan, shall instruct them to diversify the investments of the Trust so as to minimize the risk of large losses, unless it is clearly prudent under the circumstances not to do so.

8.10 Liability of Committee. No member of the Committee shall be liable for any act or omission on his own part, or on the part of any other Committee member, the Trustee, an Investment Manager or any other Fiduciary or agent appointed to serve the Plan, except to the extent required by law and to the extent that liability cannot be waived.

8.11 Employer Liability. The Employer assumes no obligation or responsibility with respect to any Employee, Member or Beneficiary for any act of, or failure to act on the part of, the Committee, the Trustee, an Investment Manager or any other Fiduciary, except to the extent that liability cannot be waived.

8.12 Bonding. Every Fiduciary, unless exempted by ERISA, shall be bonded in an amount not less than ten percent of the amount of the fund such Fiduciary handles; provided, however, that the minimum bond shall be $1,000 and the maximum bond, $500,000. The amount of the bond shall be determined at the beginning of each Plan Year by the amount of funds handled by each such person, group, or class to be covered and their predecessors, if any, during the preceding Plan Year, or if there is no preceding Plan Year, then by the amount of the funds to be handled during the then current year. The bond shall provide protection to the Plan against any loss by reason of acts of fraud or dishonesty by

the Fiduciary alone or in connivance with others. The surety shall be listed on the Department of Treasury's Listing of Approved Sureties, and the bond shall be in a form approved by the Secretary of Labor. Notwithstanding anything herein to the contrary, the cost of such bonds shall be an expense of the Plan and may, at the election of the Committee, be paid from the Plan assets or by the Employer.

8.13 Indemnification. The Employer shall indemnify each member of the Committee and each member of its Board from and against any and all liabilities, claims, costs and expenses incurred as a result of any act or omission in connection with the performance of fiduciary duties or responsibilities, if any, under the Plan and applicable law, except for liabilities, claims, costs and expenses arising from gross negligence or willful misconduct. It is specifically provided that the Employer may purchase out of its own funds, or the Trustee may purchase out of the Trust, insurance for the members of the Committee and any other Fiduciary appointed by the Board, the Employer or the Committee, and for the Trust itself, to cover liability or losses occurring by reason of the act or omission of any one or more of the members of the Committee or any other Fiduciary appointed to serve the Plan, provided such insurance permits recourse by the insurer against such Fiduciaries in the case of a breach of a fiduciary duty by one or more of the Fiduciaries.

8.14 Multiple Fiduciary Capacities. An individual, organization, firm or other entity may serve in more than one fiduciary capacity with respect to the Plan, including the ability to serve both as Trustee and as a member of the Committee.

8.15 Information to Members. The Committee shall make available to each Member and Beneficiary such records, documents and other data required by ERISA, and such Member or Beneficiary shall have the right to examine such materials at a reasonable time during normal business hours. Except as otherwise required by law, a Beneficiary's right to (and the Committee's duty to provide to the Beneficiary) information or data concerning the Plan does not arise until he first becomes entitled to receive a benefit under the Plan. Nothing included in the Plan, however, shall give a Member or Beneficiary the right to examine materials reflecting the compensation or benefits paid to any other individual Member or Beneficiary.

8.16 Reliance. Anyone required to give evidence under the terms of the Plan may do so by certificate, affidavit, document or other information that the person to act in reliance thereon may consider pertinent, reliable and genuine, and to have been signed, made or presented by the proper party or parties. The Plan's Fiduciaries shall be fully protected in acting and relying upon any evidence described in this Section 8.16.

8.17 No Decisions by Interested Party in Own Benefit. A member of the Committee who is also a Member in the Plan shall not vote or act upon any matter relating solely to himself. In any case in which a member of the Committee is so disqualified to act, and the remaining members cannot agree, the Board shall appoint a temporary substitute member to exercise all of the powers of the disqualified member concerning the matter in which he is disqualified.

ARTICLE 9
MEMBER ADMINISTRATIVE PROVISIONS AND CLAIMS PROCEDURE

9.1 Beneficiary Designations. Each Member from time to time may designate any person or persons (who may be designated contingently or successively and may be an entity other than a natural

person) as his Beneficiary or Beneficiaries to whom his Plan benefits are paid if he dies before receipt of all such benefits (if any are required to be paid at all). Each Beneficiary designation shall be on a form approved by the Committee and will be effective only when such form is filed with the Committee during the Member's lifetime.

Each Beneficiary designation filed with the Committee will cancel all Beneficiary designations previously filed with the Committee. In the event a married Member designates a Beneficiary other than his Spouse, such designation is subject to the provisions of Section 6.9.

9.2 No Beneficiary Designation. If a married Member fails to designate a Beneficiary or if a married Member names a Beneficiary other than his Spouse and the Spouse's consent is not on file with the Committee, the Member's Vested Accrued Benefit shall be paid to the designated Beneficiary only to the extent it is not required to be paid to his surviving Spouse (if any benefit is required to be paid at all).

If a Member fails to designate a Beneficiary in the manner provided under the Plan, and is not survived by a Spouse or if the Beneficiary designated by a deceased Member dies before him or before complete distribution of his benefits, the Committee shall direct the Trustee to distribute the balance of the Member's benefits to the Member's executor or administrator.

9.3 Personal Information to Committee. Each Member and each Beneficiary of a deceased Member must furnish to the Committee or Trustee, as designated by the Committee, such evidence, data or information as the Committee or Trustee considers necessary or desirable for purposes of administering the Plan. The provisions of the Plan are effective for the benefit of each Member upon the condition precedent that each Member will furnish promptly full, true and complete evidence, data and information when requested by the Committee or Trustee, provided that the Committee or Trustee shall advise each Member of the effect of his failure to comply with its request.

9.4 Address for Notification. Each Member and each Beneficiary of a deceased Member shall file with the Committee or Trustee, as designated by the Committee, from time to time, in writing, his address and any change of address. Any communication, statement or notice addressed to a Member or Beneficiary at his last address filed with the Committee, or as shown on the records of the Employer, shall bind the Member or Beneficiary for all purposes under the Plan.

9.5 Location of Member or Beneficiary Unknown. In the event that all, or any portion, of the distribution payable to a Member or his Beneficiary hereunder shall, at the expiration of six months after it shall become payable, remain unpaid solely by reason of the inability of the Committee, after sending a registered letter, return receipt requested, to the last known address, and after further diligent effort, to ascertain the whereabouts of such Member or his Beneficiary, such amount shall be used in the same manner as a forfeiture under the Plan. In the event a Member or Beneficiary is located subsequent to his benefit being forfeited, such benefit shall be restored.

9.6 Notice of Change in Plan Terms. The Committee, within the time prescribed by ERISA, shall furnish all Members and Beneficiaries a summary plan description and a summary description of any material modification to the Plan, or notice of discontinuance of the Plan, and all other information required by ERISA to be furnished, without charge.

9.7 Review of Plan Documents and Information. Any Member or Beneficiary of a deceased Member may examine copies of the Plan, its summary descriptions, the latest annual report, any bargaining agreement, this document and the Trust Agreement, contract or any other instrument under which the Plan is established or maintained. The Chairman of the Committee will maintain all of the items listed in this Section 9.7 in his office, or in such other place or places as he may designate from time to time in order to comply with ERISA, for examination during reasonable business hours. Upon written request of a Member or a deceased Member's Beneficiary, the Committee shall furnish a copy of any item listed in this Section 9.7. The Committee may make a reasonable charge to the requesting party for copies so furnished.

9.8 Claims Procedure. Claims for benefits under the Plan may be filed with the Committee on forms supplied by the Employer. Written notice of the disposition of a claim shall be furnished to the claimant within 90 days after the claimant's application is filed (or within 180 days if the Committee has determined that special circumstances require an extension of time and has notified the claimant of the extension). In the event the claim is denied, (a) the reasons for the denial shall be specifically set forth in the notice in language calculated to be understood by the claimant, (b) pertinent Plan provisions shall be cited, (c) where appropriate, a description of any additional material or information necessary, and an explanation as to how the claimant can perfect the claim, shall be provided, and (d) the claimant shall be furnished an explanation of the Plan's claims review procedure and applicable time limits.

9.9 Claims Review Procedure. Any Employee, former Employee, or Beneficiary of either, who has been denied a benefit by a decision of the Committee pursuant to Section 9.8 shall be entitled to file with the Committee (on a form that may be obtained from the Committee) a request for a hearing. Such request, together with a written statement of the reasons that the claimant believes his claim should be allowed, shall be filed with the Committee no later than 60 days after receipt of the written notification provided for in Section 9.8.

The claimant or his representative shall have an opportunity to review all documents in the possession of the Committee that are pertinent to the claim at issue and its disallowance. The claimant or his representative shall have an opportunity to submit written comments, documents, records and other information in support of his claim. At any hearing that is conducted, either the claimant or the Committee may cause a court reporter to attend the hearing and record the proceedings. In such event, a complete written transcript of the proceedings shall be furnished to both parties by the court reporter. The full expense of any such court reporter and such transcript shall be borne by the party causing the court reporter to attend the hearing.

A final decision as to the allowance of the claim shall be made by the Committee within 60 days of receipt of the appeal (or within 120 days if the Committee has determined that special circumstances require an extension of time and has notified the claimant of the extension). The Committee's decision on appeal shall be communicated in writing to the claimant. Such communication shall be written in a manner calculated to be understood by the claimant and shall include specific reasons for the decision and specific references to the pertinent Plan provisions on which the decision is based.

ARTICLE 10
TOP HEAVY PLAN PROVISIONS

10.1 Purpose and Definitions. The purpose of this Article 10 is to ensure that Non-Key Employees receive the minimum benefits and Vesting required under Code Section 416 in the event that the Plan becomes a Top Heavy Plan for any Plan Year. For purposes of complying with the top heavy plan requirements under Code Section 416, the following definitions, in addition to certain definitions set forth in Article 2, shall apply.

(a) Top Heavy Plan. This Plan, if as of the Determination Date, the aggregate of the Present Value of Accrued Benefits for Key Employees under the Plan is greater than 60 percent of the aggregate Present Value of Accrued Benefits for all Employees under the Plan.

The Plan shall also be considered a Top Heavy Plan if it is part of a Required Aggregation Group that is a Top Heavy Group.

For purposes of calculating the 60 percent top heavy ratio described in this Section 10.1(a), the Accrued Benefits of Members who are not Key Employees but who were Key Employees in prior years, and Members who have not performed services for the Employer at any time during the one-year period ending on the applicable Determination Date, shall not be taken into account.

(b) Present Value of Accrued Benefits. The actuarially calculated present value of a Member's Accrued Benefit based on the following assumptions:

(1) Present values shall be determined as of the valuation date used for computing Plan costs for minimum funding purposes (regardless of whether a valuation is actually performed for a particular year) that falls within the 12-month period ending on the Determination Date.

(2) Accrued Benefits shall be determined as if a Member voluntarily terminated service as of the valuation date.

(3) Present values shall be determined based on the interest and mortality rates used for minimum funding purposes.

(4) In the case of a Member other than a Key Employee, a Member's Present Value of Accrued Benefits shall be determined using the single accrual method used for all plans of the Employer, or if no such single method exists, using a method that results in benefits accruing not more rapidly than the slowest accrual rate permitted under Code Section 411(b)(1)(C).

(5) Notwithstanding the foregoing, the present value of the Employee's Accrued Benefit as of the Determination Date shall be increased by the distributions made with respect to the Employee under the Plan and any Plan aggregated with the Plan under Code Section 416(g)(2) during the one-year period ending on the Determination Date. The preceding sentence shall also apply to distributions under a terminated plan that, had it not been terminated, would have been aggregated with the Plan under Code Section 416(g)(2)(A)(i). In the case of a distribution made for a reason other

than severance from employment, death or disability, this provision shall be applied by substituting "five-year period" for "one-year period."

(c) Top Heavy Group. Any aggregation group if, as of the Determination Date, the sum of the aggregate accounts of Key Employees under all defined contribution plans included in such group and the Present Value of Accrued Benefits for all Key Employees under all defined benefit plans in such group, exceeds 60 percent of a similar sum determined for all Employees.

(d) Permissive Aggregation Group. The Required Aggregation Group plus any other plan or plans of the Employer that, when considered as a group with the Required Aggregation Group, would continue to satisfy the requirements of Code Sections 401(a)(4) and 410. If the Permissive Aggregation Group is not a Top Heavy Group, then no plans in such group shall be considered Top Heavy.

(e) Required Aggregation Group. In determining a Required Aggregation Group hereunder, each qualified plan of the Employer in which a Key Employee is a Member in the Plan Year including the Determination Date and each other plan of the Employer that enables any plan in which a Key Employee participates to meet the requirements of Code Section 401(a)(4) or 410 will be required to be aggregated. In the case of a Required Aggregation Group, each plan in the group will be considered a Top Heavy Plan if the Required Aggregation Group is a Top Heavy Group. No plan in the Required Aggregation Group will be considered a Top Heavy Plan if the Required Aggregation Group is not a Top Heavy Group.

(f) Minimum Normal Retirement Benefit. The Minimum Normal Retirement Benefit equals the applicable percentage of the Non-Key Employee's Average Annual Compensation, where applicable percentage is two percent multiplied by the number of years of Benefit Accrual Service (not to exceed ten) earned as a Non-Key Employee Member in years in which this Plan is a Top Heavy Plan.

10.2 Minimum Normal Retirement Benefit Requirement. If the Plan is a Top Heavy Plan, the Plan guarantees a Minimum Normal Retirement Benefit for each Non-Key Employee who is a Member in the Plan.

The Plan shall be deemed to satisfy the Minimum Normal Retirement Benefit requirement for a Non-Key Employee if the Non-Key Employee's Accrued Benefit at the end of any year in which the Plan is a Top Heavy Plan is at least equal to the Minimum Normal Retirement Benefit. For purposes of determining whether the Minimum Normal Retirement Benefit requirement is satisfied (whether through the actual Accrued Benefit or under this Section 10.2 and Section 10.3), a Member's normal retirement benefit shall be tested using a single life only annuity (with no ancillary benefits) commencing at age 65. If the normal retirement benefit is tested in any other form, it shall be actuarially adjusted, using the Actuarial Equivalent definition under Section 2.2 in accordance with Regulation Section 1.416-1, M-3.

The Minimum Normal Retirement Benefit shall not be integrated with Social Security and contributions to Social Security shall not be taken into account for purposes of determining whether the Minimum Normal Retirement Benefit has been provided.

10.3 Additional Accruals. If, at the end of any year in which the Plan is a Top Heavy Plan, a Non-Key Employee Member's Accrued Benefit is not at least equal to his Minimum Normal Retirement Benefit, then the Non-Key Employee Member shall earn the additional accrual necessary to increase his Accrued Benefit to the Minimum Normal Retirement Benefit. The Non-Key Employee Member's Accrued Benefit shall never be less than his Minimum Normal Retirement Benefit regardless of the Plan's Top Heavy status in Plan Years subsequent to a Plan Year in which he earned an additional accrual under Section 10.2 and this Section 10.3.

10.4 Minimum Vesting Requirement. If the Plan is considered a Top Heavy Plan, then the following Vesting schedule shall come into effect and replace the Vesting schedules in Section 5.1.

Years of Vesting Service	Percent Vested
Less than three	0%
Three or more	100%

The implementation of the above Vesting schedule shall be automatic and shall be deemed to have been made by a Plan amendment as of the Determination Date immediately preceding the first day of the Plan Year in which the Plan is a Top Heavy Plan, and shall be subject to the provisions of Section 5.2 (relating to a change of Vesting schedules), but shall not be applicable to Members who do not complete at least one Hour of Service after the Plan becomes a Top Heavy Plan.

If on a subsequent Determination Date the Plan is no longer a Top Heavy Plan, the Plan may be amended to return to the prior Vesting schedules under Section 5.1. Such Plan amendment shall be subject to the provisions of Section 5.2, but in no way shall the amendment decrease the Vested percentage of a Member's Accrued Benefit that became subject to the top heavy Vesting schedule set forth in the above table under this Section 10.4.

ARTICLE 11
AMENDMENT, TERMINATION, MERGER AND MISCELLANEOUS PLAN PROVISIONS

11.1 Intent to Qualify. This Plan is intended to be a qualified defined benefit pension plan within the meaning of Code Section 401(a). The Trust is intended to be an exempt trust within the meaning of Code Section 501(a).

11.2 Exclusive Benefit/Prohibition on Diversion of Assets. This Plan has been executed for the exclusive benefit of the Members and their Beneficiaries. All assets of the Plan shall be held in the Trust for the exclusive benefit of the Members and their Beneficiaries hereunder. So far as possible, the Plan shall be interpreted and administered in a manner consistent with this intent and with the intention of the Employer that the Plan shall at all times comply fully with the requirements of applicable laws and legal guidance. Neither the Employer nor the Committee shall exercise any power or right, or perform any act, that is in conflict with or violates such laws or legal guidance. Any power or right granted under the Plan, or retained by the Employer, shall be void to the extent that its exercise or retention shall violate laws or legal guidance. The Employer shall make any and all retroactive amendments to the Plan that are required under applicable laws and legal guidance, in order to establish and maintain the Plan as a qualified plan pursuant to Code Section 401(a) and the Trust, which is part of the Plan, as tax exempt pursuant to Code Section 501(a). Except as provided in Section 4.5 or 12.2, or otherwise specifically permitted by law, it shall be impossible by operation of the Plan or Trust,

by termination of either, by power of revocation or amendment, by the happening of any contingency, by collateral arrangement or by any other means, for any part of the corpus or income of the Trust or any funds contributed to the Trust to be used for, or diverted to, purposes other than the exclusive benefit of Members and their Beneficiaries.

11.3 Nondiscrimination. All provisions of the Plan shall be interpreted and applied in a uniform and nondiscriminatory manner.

11.4 Nonalienation of Benefits. Subject to the exceptions set forth below in this Section 11.4, no benefit payable from the Trust to any person (including a Member or his Beneficiary) shall be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance or charge, and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber or charge same shall be void. No such benefit shall be liable in any manner for, or subject to, the debts, contracts, liabilities, engagements or torts of any such person, nor shall it be subject to attachment or legal process for or against such person, and the same shall not be recognized by the Trustee, except to the extent required by law.

The preceding paragraph shall not apply to the extent that a Member or Beneficiary is indebted to the Plan for any reason under a provision of the Plan. At the time a distribution is to be made to or for the benefit of a Member or Beneficiary, such portion of the distribution amount equal to the indebtedness shall be paid by the Trustee to the Trustee or the Committee, at the direction of the Committee, to apply against or discharge the indebtedness. Prior to making a payment, however, the Committee must give the Member or Beneficiary written notice that the indebtedness is to be so paid in whole or part from his vested Accrued Benefit. If the Member or Beneficiary does not agree that the indebtedness is a valid claim against his vested Accrued Benefit, he shall be entitled to a review of the validity of the claim in accordance with Sections 9.8 and 9.9.

The first paragraph of this Section 11.4 shall not apply to a QDRO or such other domestic relations order permitted to be so treated by the Committee under the provisions of the Retirement Equity Act of 1984. All rights and benefits, including elections provided to Members, their Spouses or Beneficiaries, shall be subject to the rights accorded Alternate Payees under QDROs. To the extent provided under a QDRO, a former Spouse of a Member shall be treated as his Spouse or surviving Spouse for purposes of the Plan.

11.5 Applicable Law. The Plan shall be construed and administered in accordance with ERISA and the laws of the State of Texas, to the extent that such laws are not preempted by ERISA.

11.6 Headings Not to Control. Titles, headings and subheadings have been used in the Plan for convenience of reference only and are to be ignored in the interpretation of the Plan's provisions.

11.7 Gender and Number. Words used herein in the masculine or feminine gender shall be construed as the feminine or masculine gender, respectively, where appropriate. Words used in the singular or plural shall be construed as the plural or singular, respectively, where appropriate.

11.8 Severability. Should any provision of the Plan be determined to be void by a court of competent jurisdiction, the Plan will continue to operate, subject to the Board's right to amend or

terminate under Sections 11.14 and 11.16, and for purposes of the jurisdiction of the court only, will be deemed not to include the provision determined to be void.

11.9 No Contract of Employment. The adoption and maintenance of the Plan shall not be deemed to constitute a contract between the Employer and any Employee or Member, and shall not be considered an inducement to the employment of any person. Nothing included herein shall be construed to give any Employee or Member the right to be retained in the employ of the Employer, or to interfere with the right of the Employer to terminate the employment of any Employee or Member at any time.

11.10 No Duplication of Benefits. There shall be no duplication of benefits under the Plan as a result of employment by more than one Employer.

11.11 Legal Action. In the event a claim, suit or proceeding is brought regarding the Plan and/or the Trust, to which the Committee and/or the Trustee may be a party, and such claim, suit or proceeding is resolved in favor of the Committee and/or the Trustee, they shall be entitled to reimbursement from the Trust for their costs, attorneys' fees and other expenses for which they may be liable.

Except as otherwise provided by ERISA, only the Employer, the Committee and the Trustee shall be necessary parties to any court proceeding involving the Trustee or the Trust. No Member or Beneficiary shall be entitled to any notice of process unless required by ERISA. Any final judgment entered in any proceeding shall be binding and conclusive upon the Employer, the Committee, the Trustee, the Members and their Beneficiaries.

11.12 Protective Clause. Neither the Sponsor, the Employer, the Committee nor the Trustee, nor their successors, shall be responsible for the validity of an insurance contract issued hereunder, or for the failure on the part of an insurer to make payments provided under any such contract, or for the action of any person that may delay payment or render a contract null, void or unenforceable, in whole or in part.

11.13 Action by Sponsor or Employer. Whenever the Sponsor or Employer is permitted or required, under the terms of the Plan, to perform any act, such act shall be performed by a person duly authorized by its legally constituted authority.

11.14 Right to Amend and Terminate. The Employer hopes and expects to continue the Plan indefinitely, but continuation of the Plan is not assumed as a contractual obligation. Therefore, the Employer reserves the right to amend the Plan in whole or in part at any time and from time to time, without the consent of any other party, except that at no time shall an amendment

(a) violate the exclusive benefit requirement or the prohibition on diversion of assets under Section 11.2;

(b) affect the duties, rights or responsibilities of the Trustee or the Committee without the written consent of the affected party; or

(c) reduce the Accrued Benefit of a Member, except to the extent permitted by applicable law, regulation or ruling that specifically permits the reduction of same. Any amendment shall be treated as prohibitively reducing a Member's Accrued Benefit determined immediately before the adoption of such amendment if it has the effect, with respect to benefits accrued prior to adoption of the amendment, of (1) eliminating or reducing an early retirement benefit or a retirement type subsidy, or (2) eliminating an optional form of benefit.

Each amendment shall be in writing and shall state the date on which it is effective (which may be a retroactive or a prospective effective date). Amendments shall be approved by the Board or by the Committee, if so authorized by the Board.

No amendment that affects the rights, duties or responsibilities of the Trustee, Committee or an Investment Manager may be made without such party's written consent. The Trustee shall not be required to execute any such amendment unless the Trust Agreement is amended thereby.

Upon termination of the Plan, a Member's benefit shall be determined using the interest rate and mortality table otherwise applicable for determining the Member's benefit under the Plan without regard to the termination of the Plan. Any interest rate used to determine a Cash Balance Member's benefit under the Plan that is a variable rate, including any interest crediting rate and any interest rate used to determine annuity benefits, shall be determined as the average of the rates of interest used under the Plan for that purpose during the five-year period ending on the Plan termination date.

11.15 Security Required for Certain Amendments. For Plan Years beginning prior to January 1, 2008, in accordance with ERISA Section 307, any amendment adopted by the Employer that has the effect of increasing the Plan's current liability (as such term is defined in ERISA Section 302(d)) such that the funded current liability percentage (as also defined in ERISA Section 302(d)) for the Plan Year in which such amendment takes effect is less than 60 percent, including the amount of the unfunded current liability (as defined in ERISA Section 302(d)) under the Plan attributable to the Plan amendment, then the Sponsor (or any member of the controlled group of the Sponsor) shall be required prior to such amendment taking effect to provide security to the Plan.

The security required under this Section 11.15 shall consist of

(a) a bond issued by a corporate surety company that is an acceptable surety for purposes of ERISA Section 412,

(b) cash, or United States obligations that mature in three years or less, held in escrow by a bank or similar financial institution, or

(c) such other form of security as is satisfactory to the Secretary of the Treasury and the parties involved.

The amount of the security shall be equal to the excess of (d) over (e), where

(d) equals the lesser of

(1) the amount of additional Plan assets that would be necessary to increase the funded current liability percentage under the Plan to 60 percent, including the amount of the unfunded current liability under the Plan attributable to the Plan amendment, or

(2) the amount of the increase in current liability under the Plan attributable to the Plan amendment, and

(e) equals $10,000,000.

The security shall be released (and any amounts thereunder shall be refunded together with any interest accrued thereon) at the end of the first Plan Year that ends after the provision of the security and for which the funded current liability percentage is not less than 60 percent. If the IRS publishes regulations prescribing the partial release of security by reason of increases in the funded current liability percentage, the security shall be released under the Plan in accordance with such regulations.

11.16 Termination of Plan. The Employer shall have the right, at any time, to suspend or discontinue its contributions under the Plan, and to terminate the Plan and Trust at any time. The Plan shall terminate upon the first to occur of the following:

(a) the date terminated by action of the Employer;

(b) the date the Employer is judicially declared bankrupt or insolvent; or

(c) the dissolution, merger, consolidation or reorganization of the Employer or the sale by the Employer of all or substantially all of its assets, unless the successor or purchaser makes provision to continue the Plan, in which event the successor or purchaser shall become the Employer under the Plan.

Upon termination of the Plan, the distribution provisions of the Plan shall remain operative.

To liquidate the Trust, the Committee shall purchase either deferred or immediate annuity contracts (as the circumstances require and depending on the payment status of benefits) for each Member whose lump sum Actuarial Equivalent Vested Accrued Benefit exceeds $3,500 ($5,000 for Plan Years beginning after December 31, 1997) and who does not elect immediate distribution. Any such annuity contracts must protect a Member's distribution rights under the Plan.

The Trust shall continue until the Trustee has distributed all of the benefits under the Plan in accordance with the direction of the Committee. A resolution or amendment to freeze all future benefit accruals, but otherwise to continue to maintain the Plan, shall not be a termination for purposes of this Section 11.16. Further, a merger or direct transfer described in Section 11.18 is not a termination for purposes of the special distribution provisions described in this Section 11.16.

In the event of Plan termination, the benefit of any Highly Compensated Employee or any highly compensated former employee shall be limited to a benefit that is nondiscriminatory under Code Section 401(a)(4).

11.17 Vesting upon Termination. Notwithstanding any other provision of the Plan to the contrary, upon the full or partial termination of the Plan, an affected Member's right to his Accrued Benefit shall be 100 percent Vested to the extent funded.

11.18 Mergers, Consolidations and Transfers. In the event of a merger or consolidation of the Plan with, or transfer, in whole or in part, of the assets and liabilities of the Trust to another trust held under another plan of deferred compensation maintained or to be established for the benefit of some or all of the Members, the assets of the Trust with respect to such Members shall be transferred to the other trust only if

(a) each Member would (if either this Plan or the other plan then terminated) receive a benefit immediately after the merger, consolidation or transfer that is equal to or greater than the benefit he would have been entitled to receive immediately before the merger, consolidation or transfer;

(b) actions of the Sponsor, or of any new or successor sponsor for the affected Members, authorize such transfer of assets, and in the case of the new or successor sponsor, its resolutions include an assumption of liabilities with respect to such Members' inclusion in the new sponsor's plan; and

(c) such other plan and trust satisfy the requirements of Code Sections 401(a) and 501(a).

11.19 Named Fiduciaries. The Named Fiduciaries of this Plan are (a) the Sponsor, (b) the Employer, (c) the Committee, (d) the Trustee and (e) any Investment Manager appointed under Section 8.2(b). The Named Fiduciaries shall have only those specific powers, duties, responsibilities and obligations as are specifically given them under the Plan. In general, the Sponsor shall have sole authority to appoint and remove the Trustee and the Committee, and to amend or terminate the Plan, in whole or in part. The Employer shall have sole responsibility for making contributions for Members who are its Employees, as provided under Article 4. The Committee shall have sole responsibility for the administration of the Plan, which responsibility is specifically described in the Plan. The Trustee shall have sole responsibility for management of the Trust assets, except those assets the management of which has been assigned to an Investment Manager, who shall be solely responsible for the management of the assets assigned to it, all as specifically provided herein. Each Named Fiduciary warrants that any direction given, information furnished or action taken by it is in accordance with the Plan's provisions, authorizing or providing for such direction, information or action. Furthermore, each Named Fiduciary may rely upon any direction, information or action of another Named Fiduciary as being proper under the Plan, and is not required to inquire into the propriety of any such direction, information or action. It is intended that each Named Fiduciary shall be responsible for the proper exercise of its own powers, duties, responsibilities and obligations under the Plan. Any person or group may serve in more than one fiduciary capacity.

11.20 Successors. In the event of the dissolution, merger, consolidation or reorganization of the Sponsor or an Employer, provision may be made by which the Plan will be continued by the successor to the Sponsor or the Employer. In this case, the successor shall be substituted for the Sponsor or the Employer, as the case may be, under the Plan. The substitution of the successor shall

constitute an assumption of Plan liabilities by the successor, and the successor shall have all of the powers, duties and responsibilities of the Sponsor or the Employer under the Plan.

11.21 Fiduciaries Not Insurers. The Fiduciaries under the Plan in no way guarantee the Trust from investment loss or depreciation. The Employer does not guarantee the payment of any benefit that may be or become due to any person from the Trust. The liability of the Committee and the Trustee to make any payment from the Trust at any time is limited to the then available Trust assets.

11.22 Notice and Waiver of Notice. Whenever written notice concerning a matter under the Plan is required to be given hereunder, it shall be deemed given on the date deposited at a United States Postal Service station, first class postage paid. Notice may be waived by any party otherwise entitled thereto.

11.23 Returned Payments. If no one claims a payment or distribution made from the Trust, or if a payment that was mailed to the last known address of a Member or Beneficiary is returned because the addressee failed to claim the payment, the Trustee shall promptly cease benefit payments, redeposit into the Trust such payment or payments that remain unclaimed and notify the Committee. The Committee and/or the Trustee shall conduct a reasonable search for the Member or Beneficiary, but if after a reasonable search there is no success, the provisions of Section 9.5 shall apply to the benefit payments.

11.24 Release of Claims. Any payment to a Member, his legal representative, Beneficiary, or to any guardian or committee appointed for such Member or Beneficiary shall, to the extent thereof, be in full satisfaction of all claims hereunder against the Sponsor, Employer, Committee, Plan and Trustee, any of whom may require such Member, legal representative, Beneficiary, guardian or committee, as a condition precedent to such payment, to execute a receipt and release thereof in such form as shall be determined by the Sponsor, Employer, Committee, Plan or Trustee

11.25 Payments to Minors or Incompetents. In the event a distribution is to be made to a minor Beneficiary, or to the custodian for the minor Beneficiary under the Uniform Gift to Minors Act or Gift to Minors Act, if permitted by the laws of the state in which the Beneficiary resides, the distribution to the legal guardian, custodian or parent of the minor Beneficiary shall fully discharge the Sponsor, Employer, Committee, Plan and Trustee from further liability on account thereof.

If the Committee receives satisfactory evidence (a) that any person entitled to a benefit under the Plan is physically, mentally or legally incompetent to receive the benefit and give a valid receipt for the benefit at the time it is payable, and (b) that an individual or institution is then maintaining or has custody of the person and/or that a guardian or other representative of the person has been appointed to see to his affairs, the Committee may direct the Trustee to pay the benefit to the individual or institution maintaining or then having custody of the person and/or the guardian or other representative of the person, and the receipt by that individual, institution, guardian or other representative shall fully discharge the Sponsor, Employer, Committee, Plan and Trustee from further liability to such person.

11.26 Multiple Copies of Plan and/or Trust Documents. This Plan and the Trust Agreement may be executed in any number of counterparts, each of which shall be deemed an original but all of

which shall constitute one and the same Plan or Trust Agreement (as the case may be), and shall be binding on the respective successors and assigns of the Employer and other Fiduciaries.

ARTICLE 12
RESTRICTIONS ON CERTAIN BENEFIT PAYMENTS

12.1 Application of Assets on Termination or Discontinuance. If the Plan is terminated by the Employer, the Trustee shall liquidate all assets of the Plan and shall determine the value of the Trust as of the business day next following the date of such termination. Subject to the provisions of Sections 12.2 through 12.10, the Committee shall allocate assets of the Plan among Members and Beneficiaries according to the following priorities:

(a) to defray all costs and charges (including those of counsel, the Trustee and any other persons engaged by the Committee or Trustee, with the Committee's approval, providing services to the Plan) for the orderly liquidation and distribution of the Trust as provided in this Section 12.1;

(b) to a Member's benefits payable from his Employee contributions (if any);

(c) to benefits payable as an annuity:

(1) in the case of a benefit of a Member or Beneficiary that was in pay status as of the beginning of the three-year period ending on the Plan's termination date, each such benefit, based on the Plan's provisions (as in effect during the five-year period ending on such date) under which such benefit would be the least; or

(2) in the case of a Member's or Beneficiary's benefit (other than a benefit described in Section 12.1(c)(1)) that would have been in pay status as of the beginning of such three-year period if the Member had retired prior to the beginning of the three-year period and if his benefits had commenced (in the normal form of annuity under the Plan) as of the beginning of such period, each such benefit based on the provisions of the Plan (as in effect during the five-year period ending on such date) under which such benefit would be the least.

For purposes of Section 12.1(c)(1), the lowest benefit in pay status during a three-year period is the benefit in pay status for such period.

(d) all other Plan benefits insured by the PBGC;

(e) all other Vested benefits under the Plan; and

(f) any other benefits under the Plan (but not any benefits to which a Member does not have a Vested right thereto or which a Member has not yet satisfied the requirements therefor).

If assets are insufficient to provide all benefits under the Plan, the Committee shall cause the Plan assets to be allocated to satisfy obligations within each category by order of priority. If assets are insufficient to provide all benefits under a priority category, the Plan assets shall be allocated to Members within that category in the ratio that each Member's total benefits bears to the total

benefits of all Members within that category. The Committee shall cause the assets that are not required to be allocated under ERISA Sections 4044(a)(1), (2), (3) and (4)(A) to be allocated in a manner that shall reduce to the extent possible discrimination as described in Code Section 401(a)(4).

In the event that funds are insufficient, Members shall have no recourse against the Sponsor, the Employer, the Committee, the Trust, the Trustee or any other Fiduciary, Employee or organization providing services to the Plan.

12.2 Surplus After Termination. If the Employer has overfunded the Plan as of the time the Plan is terminated, the Trustee may return the amount by which the Employer has overfunded the Plan to the Employer. The Employer shall state by written request to the Trustee the amount of the overfunding it wishes the Trustee to return after satisfying all liabilities under the terminated Plan.

12.3 Recapture of Certain Payments. If the Plan is terminated as to the Employer, there shall be repaid to the Trust the following amount in respect of any benefit whose payment commenced within the three-year period immediately preceding the date of termination;

(a) the payments received by a Member in respect of benefits during the three-year period minus

(b) the sum of

(1) the total of the benefits that would have been received by a Member in the three-year period if payments were made in the form of a life annuity,

(2) total of the excesses for each of the three years of $10,000 (or the actual payment of such benefits in the year, if less) over the amount in Section 12.3(b)(1) applicable to the year, and

(3) the present value at the date of Plan termination of the portion of the benefits guaranteed by the PBGC as if the benefits commenced as a life annuity.

Repayment under this Section 12.3 shall only be required to provide a full allocation in respect of all benefits in Sections 12.1(a) and (b) and shall not be required in respect of any amount whose repayment would, in the determination of the PBGC, cause substantial economic hardship to a Member or his Beneficiary.

12.4 Benefit Restrictions for Certain Employees Before 1992. Notwithstanding any other provision of the Plan to the contrary, the Employer contributions that the Trustee may use to provide benefits for Members who are among the 25 highest paid Employees (the "Original 25 Employees") as of the Effective Date (including any Employees who are not Members on the Effective Date but who later may become Members) and whose annual retirement benefits shall exceed $1,500 shall not exceed the greatest of

(a) $20,000,

(b) an amount equal to 20 percent of the first $50,000 of the Member's Average Annual Compensation multiplied by the number of years elapsed between the Effective Date and the earliest to occur of:

(1) the date the Plan terminates,

(2) the date the Member's retirement benefit becomes payable, or

(3) the date the Employer fails to meet the full current costs of the Plan, or

(c) if an Employee is a substantial owner (as defined in ERISA Section 4022(b)(5)), the present value of his guaranteed benefit under ERISA Section 4022, or the present value of the benefit he would be guaranteed under ERISA Section 4022 if the Plan terminated on the date benefits commence (determined in accordance with PBGC regulations). If an Employee is not a substantial owner, the present value of his maximum benefit under ERISA Section 4022(b)(3)(B) on the earlier of the date the Plan terminated or the date his benefits commence (determined in accordance with PBGC regulations) regardless of any other limitations in ERISA Section 4022.

12.5 Substantial Changes in Plan. If the Employer changes the Plan so as to increase substantially the extent of possible discrimination as to contributions and as to benefits actually payable in the event of the subsequent termination of the Plan or the subsequent discontinuance of contributions under the Plan, the Employer shall apply the provisions of Section 12.4 to the 25 highest paid Employees (the "New 25 Employees") as of the date of the change (including any Employees who later may become Members) and whose annual retirement benefit shall exceed $1,500.

The Committee shall continue the restrictions described in Section 12.4 to the Original 25 Employees for the period the restrictions apply to them despite imposing restrictions on the New 25 Employees.

The Committee shall apply the restrictions in Section 12.4 to the New 25 Employees as if the Effective Date is the date of the change described in the first paragraph of this Section 12.5. Further, the Committee shall apply the restrictions of Section 12.4 to the New 25 Employees substituting for Section 12.4(b) the greater of the following:

(a) the Employer contributions (or the funds attributable to Employer contributions) the Trustee would have applied to provide a Member's retirement benefit if the Employer had not changed the Plan, or

(b) the sum of

(1) the Employer contributions (or the funds attributable to Employer contributions) the Trustee would have applied to provide a Member's retirement benefit if the Employer had terminated the Plan the day before the date of the change, and

(2) the product of the number of years the Employer satisfied the full current costs of the Plan after the date of the change multiplied by the smaller of $10,000 or 20 percent of a Member's annual Compensation.

12.6 Termination of Certain Members. If a Member to whom the limitations of Section 12.4 or 12.5 apply terminates employment while the limitations are in effect, the Member may nevertheless receive a lump sum payment of benefits in excess of such limitations provided the Member enters into an agreement with the Trustee requiring the Member to repay to the Trustee all amounts he has received in excess of such limitations. The Member's requirement to repay shall apply in the event the Plan terminates within the restricted ten-year period or if within such period the Employer has not met the Plan's full current costs. The Trustee shall not pay any benefit to a Member under this Section 12.6 unless the Member provides adequate security for his contingent repayment obligation. Such security shall be in the form required by regulations or promulgations of the IRS.

12.7 Full Payment While Plan in Effect. The restrictions in Section 12.4 shall not prevent the current payment of full retirement benefits called for by the Plan for any retired Member while the Plan is in full effect and the Employer has met its full current costs.

12.8 Restrictions Not to Apply to Death Benefits. The restrictions in Section 12.4 shall not prevent the full payment of any insurance, death or survivor's benefits on behalf of a Member who dies while the Plan is in full effect and the Employer has met its full current costs.

12.9 Lapse on Restrictions. The Section 12.4 restrictions shall only apply if

(a) the Employer terminates the Plan within ten years of the Effective Date, or

(b) one of the Original 25 Employees' retirement benefits becomes payable within ten years of the Effective Date.

If one of the Original 25 Employees' benefits is subject to restriction under Section 12.4 because of Section 12.9(b), then the Trustee shall apply the restrictions only until the date that is ten years from the Effective Date.

12.10 Benefit Restrictions for Certain Employees.

(a) For Plan Years beginning on or after January 1, 1992 and before January 1, 2008, benefits distributed to any of the 25 most Highly Compensated Employee and highly compensated former employees with the greatest compensation in the current or prior year are restricted such that the monthly payments are no greater than an amount equal to the monthly payment that would be made on behalf of such individual under a straight life annuity that is the actuarial equivalent of the sum of the individual's Accrued Benefit, the individual's other benefits under the Plan (other than a Social Security supplement within the meaning of Regulation Section 1.411(a)-7(c)(4)(ii)), and the amount the individual is entitled to receive under a Social Security supplement. However, the limitation of this Section 12.10 shall not apply if

(1) after payment of the benefit to an individual described above, the value of Plan assets equals or exceeds 110 percent of the value of current liabilities, as defined in Code Section 412(1)(7);

(2) the value of the benefits for an individual described above is less than one percent of the value of current liabilities before distribution; or

(3) the value of the benefits payable under the Plan to an individual described above does not exceed $5,000 ($3,500 for Plan Years beginning prior to August 5, 1997).

(b) For purposes of this Section 12.10, benefit includes any periodic income, any withdrawal values payable to a living Member, and any death benefits not provided for by insurance on the individual's life.

(c) An individual's otherwise restricted benefit may be distributed in full to the affected individual if, prior to receipt of the restricted amount, the individual enters into a written agreement with the Committee to secure repayment to the Plan of the restricted amount. The restricted amount is the excess of the amounts distributed to the individual (accumulated with reasonable interest) over the amounts that could have been distributed to the individual under the straight life annuity described above (accumulated with reasonable interest). The individual may secure repayment of the restricted amount upon distribution by

(1) entering into an agreement for promptly depositing in escrow with an acceptable depositary, property having a fair market value equal to at least 125 percent of the restricted amount;

(2) providing a bank letter of credit in an amount equal to at least 100 percent of the restricted amount; or

(3) posting a bond equal to at least 100 percent of the restricted amount. The bond must be furnished by an insurance company, bonding company or other surety for federal bonds.

(d) The escrow arrangement may permit an individual to withdraw from escrow amounts in excess of 125 percent of the restricted amount. If the market value of the property in an escrow account falls below 110 percent of the remaining restricted amount, the individual must deposit additional property to bring the value of the property held by the depositary up to 125 percent of the restricted amount. The escrow arrangement may provide that the individual has the right to receive any income from the property placed in escrow, subject to the individual's obligation to deposit additional property, as set forth in the preceding sentence.

(e) A surety or bank may release any liability on a bond or letter of credit in excess of 100 percent of the restricted amount.

(f) If the Committee certifies to the depositary, surety or bank that the individual (or the individual's estate) is no longer obligated to repay any restricted amount, a depositary may deliver to the individual any property held under an escrow arrangement, and a surety or bank may release any liability on an individual's bond or letter of credit.

(g) Notwithstanding the foregoing, with respect to Plan Years beginning prior to January 1, 1992, compliance with the Plan and Treasury Regulations then in effect shall be deemed compliance with this Section 12.10.

12.11 No Decrease in Benefits by Change in Social Security. In the case of a Member or Beneficiary who is receiving benefits under the Plan or a Member who has terminated employment with the Employer and has a nonforfeitable Accrued Benefit under the Plan, any increase in the taxable wage base or the benefit level payable under Title 11 of the federal Social Security Act shall not affect in any way the benefits payable under the Plan to the Member or Beneficiary. The Plan does not permit the recalculation of any benefits accrued before the Member's termination of employment on the basis of change in Social Security benefit levels or the taxable wage base in effect during years of Benefit Accrual Service after re-employment with the Employer.

ARTICLE 13
LIMITATIONS APPLICABLE IF THE PLAN'S AFTAP IS LESS THAN 80 PERCENT OR IF THE SPONSOR IS IN BANKRUPTCY

13.1 Limitations Applicable if the Plan's AFTAP is Less than 80 Percent, But Not Less than 60 Percent. Notwithstanding any other provisions of the Plan, if the Plan's AFTAP for a Plan Year is less than 80 percent (or would be less than 80 percent to the extent described in Section 13.1(b) below) but is not less than 60 percent, then the limitations set forth in this Section 13.1 shall apply.

(a) 50 Percent Limitation on Single Sum Payments, Other Accelerated Forms of Distribution, and Other Prohibited Payments. A Member or Beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an Annuity Starting Date on or after the applicable section 436 measurement date, and the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment, unless the present value of the portion of the benefit that is being paid in a prohibited payment does not exceed the lesser of:

(1) 50 percent of the present value of the benefit payable in the optional form of benefit that includes the prohibited payment; or

(2) 100 percent of the PBGC maximum benefit guarantee amount (as defined in Regulation Section 1.436-1(d)(3)(iii)(C)).

The limitation set forth in this Section 13.1(a) does not apply to any payment of a benefit which under Code Section 411(a)(11) may be immediately distributed without the consent of the Member. If an optional form of benefit that is otherwise available under the terms of the Plan is not available to a Member or Beneficiary as of the Annuity Starting Date because of the application of the requirements of this Section 13.1(a), the Member or Beneficiary is permitted to elect to bifurcate the benefit into unrestricted and restricted portions (as described in Regulation Section 1.436-1(d)(3)(iii)(D)). The Member or Beneficiary may also elect any other optional form of benefit otherwise available under the Plan at that Annuity Starting Date that would satisfy the 50 percent/PBGC maximum benefit guarantee amount limitation described in this Section 13.1(a), or may elect to defer the benefit in accordance with any general right to defer commencement of benefits under the Plan.

(b) Plan Amendments Increasing Liability for Benefits. No amendment to the Plan that has the effect of increasing liabilities of the Plan by reason of increases in benefits, establishment of new benefits, changing the rate of benefit accrual, or changing the rate at which benefits become nonforfeitable shall take effect in a Plan Year if the AFTAP for the Plan Year is

(1) less than 80 percent; or

(2) 80 percent or more, but would be less than 80 percent if the benefits attributable to the amendment were taken into account in determining the AFTAP.

The limitation set forth in this Section 13.1(b) does not apply to any amendment to the Plan that provides a benefit increase under a plan formula that is not based on compensation, provided that the rate of such increase does not exceed the contemporaneous rate of increase in the average wages of Members covered by the amendment.

13.2 Limitations Applicable if the Plan's AFTAP is Less than 60 Percent. Notwithstanding any other provisions of the Plan, if the Plan's AFTAP for a Plan Year is less than 60 percent (or would be less than 60 percent to the extent described in Section 13.2(b)), then the limitations in this Section 13.2 apply.

(a) Single Sums, Other Accelerated Forms of Distribution, and Other Prohibited Payments Not Permitted. A Member or Beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an Annuity Starting Date on or after the applicable section 436 measurement date, and the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment. The limitation set forth in this Section 13.2(a) does not apply to any payment of a benefit which under Code Section 411(a)(11) may be immediately distributed without the consent of the Member.

(b) Shutdown Benefits and Other Unpredictable Contingent Event Benefits Not Permitted to be Paid. An unpredictable contingent event benefit with respect to an unpredictable contingent event occurring during a Plan Year shall not be paid if the AFTAP for the Plan Year is

(1) less than 60 percent; or

(2) 60 percent or more, but would be less than 60 percent if the AFTAP were redetermined applying an actuarial assumption that the likelihood of occurrence of the unpredictable contingent event during the Plan Year is 100 percent.

(c) Benefit Accruals Frozen. Benefit accruals under the Plan shall cease as of the applicable section 436 measurement date. In addition, if the Plan is required to cease benefit accruals under this Section 13.2(c), then the Plan is not permitted to be amended in a manner that would increase the liabilities of the Plan by reason of an increase in benefits or establishment of new benefits.

13.3 Limitations Applicable if the Sponsor is in Bankruptcy. Notwithstanding any other provisions of the Plan, a Member or Beneficiary is not permitted to elect, and the Plan shall not pay, a single sum payment or other optional form of benefit that includes a prohibited payment with an

Annuity Starting Date that occurs during any period in which the Sponsor is a debtor in a case under title 11, United States Code, or similar federal or state law, except for payments made within a Plan Year with an Annuity Starting Date that occurs on or after the date on which the Plan's enrolled actuary certifies that the Plan's AFTAP for that Plan Year is not less than 100 percent. In addition, during such period in which the Sponsor is a debtor, the Plan shall not make any payment for the purchase of an irrevocable commitment from an insurer to pay benefits or any other payment or transfer that is a prohibited payment, except for payments that occur on a date within a Plan Year that is on or after the date on which the Plan's enrolled actuary certifies that the Plan's AFTAP for that Plan Year is not less than 100 percent. The limitation set forth in this Section 13.3 does not apply to any payment of a benefit which under Code Section 411(a)(11) may be immediately distributed without the consent of the Member.

13.4 Provisions Applicable After Limitations Cease to Apply.

(a) Resumption of Prohibited Payments. If a limitation on prohibited payments under Section 13.1(a), 13.2(a) or 13.3 applied to the Plan as of a section 436 measurement date, but that limit no longer applies to the Plan as of a later section 436 measurement date, then that limitation does not apply to benefits with Annuity Starting Dates that are on or after that later section 436 measurement date.

(b) Resumption of Benefit Accruals. If a limitation on benefit accruals under Section 13.2(c) applied to the Plan as of a section 436 measurement date, but that limitation no longer applies to the Plan as of a later section 436 measurement date, then benefit accruals shall resume prospectively and that limitation does not apply to benefit accruals that are based on service on or after that later section 436 measurement date, except as otherwise provided under the Plan. The Plan shall comply with the rules relating to partial years of participation and the prohibition on double proration under Department of Labor Regulation 29 CFR Section 2530.204-2(c) and (d).

(c) Shutdown and Other Unpredictable Contingent Event Benefits. If an unpredictable contingent event benefit with respect to an unpredictable contingent event that occurs during the Plan Year is not permitted to be paid after the occurrence of the event because of the limitation of Section 13.2(b), but is permitted to be paid later in the same Plan Year (as a result of additional contributions or pursuant to the enrolled actuary's certification of the AFTAP for the Plan Year that meets the requirements of Regulation Section 1.436-1(g)(5)(ii)(B)), then that unpredictable contingent event benefit shall be paid, retroactive to the period that benefit would have been payable under the terms of the Plan (determined without regard to Section 13.2(b)). If the unpredictable contingent event benefit does not become payable during the Plan Year in accordance with the preceding sentence, then the Plan is treated as if it does not provide for that benefit.

(d) Treatment of Plan Amendments That Do Not Take Effect. If a plan amendment does not take effect as of the effective date of the amendment because of the limitation of Section 13.1(b) or Section 13.2(c), but is permitted to take effect later in the same Plan Year (as a result of additional contributions or pursuant to the enrolled actuary's certification of the AFTAP for the Plan Year that meets the requirements of Regulation Section 1.436-1(g)(5)(ii)(C)), then the plan amendment must automatically take effect as of the first day of the Plan Year (or if later, the original effective date of the amendment). If the plan amendment cannot take effect during the same Plan Year, then it shall be treated as if it were never adopted, unless the plan amendment provides otherwise.

13.5 Notice Requirement. See ERISA Section 101(j) for rules requiring the plan administrator of a single employer defined benefit pension plan to provide a written notice to Members and beneficiaries within 30 days after certain specified dates if the plan has become subject to a limitation described in Section 13.1(a), 13.2 or 13.3.

13.6 Methods to Avoid or Terminate Benefit Limitations. See Code Sections 436(b)(2), (c)(2), (e)(2) and (f) and Regulation Section 1.436-1(f) for rules relating to employer contributions and other methods to avoid or terminate the application of the limitations set forth in Sections 13.1 through 13.3 for a plan year. In general, the methods a plan sponsor may use to avoid or terminate one or more of the benefit limitations under Sections 13.1 through 13.3 for a plan year include employer contributions and elections to increase the amount of plan assets which are taken into account in determining the AFTAP, making an employer contribution that is specifically designated as a current year contribution that is made to avoid or terminate application of certain of the benefit limitations, or providing security to the plan.

13.7 Special Rules.

(a) Rules of Operation for Periods Prior to and After Certification of Plan's AFTAP.

(1) In General. Code Section 436(h) and Regulation Section 1.436-1(h) set forth a series of presumptions that apply (A) before the Plan's enrolled actuary issues a certification of the Plan's AFTAP for the Plan Year, and (B) if the Plan's enrolled actuary does not issue a certification of the Plan's AFTAP for the Plan Year before the first day of the tenth month of the Plan Year (or if the Plan's enrolled actuary issues a range certification for the Plan Year pursuant to Regulation Section 1.436-1(h)(4)(ii) but does not issue a certification of the specific ATAP for the Plan by the last day of the Plan Year). For any period during which a presumption under Code Section 436(h) and Regulation Section 1.436-1(h) applies to the Plan, the limitations under Sections 13.1 through 13.3 are applied to the Plan as if the AFTAP for the Plan Year were the presumed AFTAP determined under the rules of Code Section 436(h) and Regulation Section 1.436-1(h)(1), (2) or (3). These presumptions are set forth in Sections 13.7(a)(2) through (4).

(2) Presumption of Continued Underfunding Beginning First Day of Plan Year. If a limitation under Section 13.1, 13.2 or 13.3 applied to the Plan on the last day of the preceding Plan Year, then, commencing on the first day of the current Plan Year and continuing until the Plan's enrolled actuary issues a certification of the AFTAP for the Plan for the current Plan Year, or if earlier, the date Section 13.7(a)(3) or 13.7(a)(4) applies to the Plan:

(A) The AFTAP of the Plan for the current Plan Year is presumed to be the AFTAP in effect on the last day of the preceding Plan Year; and

(B) The first day of the current Plan Year is a section 436 measurement date.

(3) Presumption of Underfunding Beginning First Day of Fourth Month. If the Plan's enrolled actuary has not issued a certification of the AFTAP for the Plan Year before the first day of the fourth month of the Plan Year and the Plan's AFTAP for the preceding Plan Year was either at

least 60 percent but less than 70 percent or at least 80 percent but less than 90 percent, or is described in Regulation Section 1.436-1(h)(2)(ii), then, commencing on the first day of the fourth month of the current Plan Year and continuing until the Plan's enrolled actuary issues a certification of the AFTAP for the Plan for the current Plan Year, or if earlier, the date Section 13.7(a)(4) applies to the Plan:

(A) The AFTAP of the Plan for the current Plan Year is presumed to be the Plan's AFTAP for the preceding Plan Year reduced by ten percentage points; and

(B) The first day of the fourth month of the current Plan Year is a section 436 measurement date.

(4) Presumption of Underfunding On and After First Day of Tenth Month. If the Plan's enrolled actuary has not issued a certification of the AFTAP for the Plan Year before the first day of the tenth month of the Plan Year (or if the Plan's enrolled actuary has issued a range certification for the Plan Year pursuant to Regulation Section 1.436-1(h)(4)(ii) but has not issued a certification of the specific AFTAP for the Plan by the last day of the Plan Year), then, commencing on the first day of the tenth month of the current Plan Year and continuing through the end of the Plan Year:

(A) The AFTAP of the Plan for the current Plan Year is presumed to be less than 60 percent; and

(B) The first day of the tenth month of the current Plan Year is a section 436 measurement date.

(b) New Plans, Plan Termination, Certain Frozen Plans and Other Special Rules.

(1) First Five Plan Years. The limitations in Sections 13.1(b), 13.2(b) and 13.2(c) do not apply to a new plan for the first five plan years of the plan, determined under the rules of Code Section 436(i) and Regulation Section 1.436-1(a)(3)(i).

(2) Plan Termination. The limitations on prohibited payments in Sections 13.1(a), 13.2(a) and 13.3 do not apply to prohibited payments that are made to carry out the termination of the Plan in accordance with applicable law. Any other limitations under this Article 13 do not cease to apply as a result of termination of the Plan.

(3) Exception to Limitations on Prohibited Payments under Certain Frozen Plans. The limitations on prohibited payments set forth in Sections 13.1(a), 13.2(a) and 13.3 do not apply for a Plan Year if the terms of the Plan, as in effect for the period beginning September 1, 2005, and continuing through the end of the Plan Year, provide for no benefit accruals with respect to any Members. This Section 13.7(b)(3) shall cease to apply as of the date any benefits accrue under the Plan or the date on which a Plan amendment that increases benefits takes effect.

(4) Special Rules Relating to Unpredictable Contingent Event Benefits and Plan Amendments Increasing Benefit Liability. During any period in which none of the presumptions under Section 13.7(a) apply to the Plan and the Plan's enrolled actuary has not yet issued a certification of the Plan's AFTAP for the Plan Year, the limitations under Section 13.1(b) and Section 13.2(b) shall be

based on the inclusive presumed AFTAP for the Plan, calculated in accordance with Regulation Section 1.436-1(g)(2)(iii).

(c) Special Rules under Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010.

(1) Payments under Social Security Leveling Options. For purposes of determining whether the limitations under Section 13.1(a) or 13.2(a) apply to payments under a Social Security leveling option, within the meaning of Code Section 436(j)(3)(C)(i), the AFTAP for a Plan Year shall be determined in accordance with the "Special Rule for Certain Years" under Code Section 436(j)(3) and any Regulations or other published guidance thereunder issued by the IRS.

(2) Limitation on Benefit Accruals. For purposes of determining whether the accrual limitation under Section 13.2(c) applies to the Plan, the AFTAP for a Plan Year shall be determined in accordance with the "Special Rule for Certain Years" under Code Section 436(j)(3) (except as provided under Section 203(b) of the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010, if applicable).

(d) Interpretation of Provisions. The limitations imposed by this Article 13 shall be interpreted and administered in accordance with Code Section 436 and Regulation Section 1.436-1.

13.8 Definitions. The definitions in the following Regulations apply for purposes of Sections 13.1 through 13.7: Section 1.436-1(j)(1) defining adjusted funding target attainment percentage; Section 1.436-1(j)(2) defining Annuity Starting Date; Section 1.436-1(j)(6) defining prohibited payment; Section 1.436-1(j)(8) defining section 436 measurement date; and Section 1.436-1(j)(9) defining an unpredictable contingent event and an unpredictable contingent event benefit.

13.9 Effective Date. The provisions of Sections 13.1 through 13.8 are effective for Plan Years beginning after December 31, 2007.

ARTICLE 14
RETIREE HEALTH CARE SEPARATE ACCOUNTS

14.1 Establishment. Effective February 1, 2020, a separate account within the meaning of Code Section 401(h) ("Separate Account") is established and maintained under the Plan to provide post-retirement medical, hospital, vision care and prescription drug benefits that are considered sickness, accident, hospitalization and medical expenses under Code Section 401(h) (hereinafter, "post-retirement health benefits") to Members under the El Paso Electric Company Retiree Welfare Benefits Plan ("Retiree Medical Plan") (and their eligible spouses and dependents) who are Members under the Plan and who satisfy the eligibility requirements set forth in Section 14.2. In no event shall the Plan discriminate in favor of officers, shareholders, supervisory employees or highly compensated employees with respect to post-retirement health benefits provided under this Article 14 or with respect to contributions to the Separate Account or any Key Employee Separate Accounts established under Section 14.3 (collectively, the "Separate Accounts"). The benefits and time periods with respect to which post-retirement health benefits provided under the Separate Accounts will be paid shall be determined under the Retiree Medical Plan, without Employer discretion as to the timing or amount of benefit payments. As used in this Article 14, "dependent" shall mean a child, as defined in Code Section

152(f)(1), of an eligible retiree, as determined under Section 14.2, who as of the end of the calendar year has not attained age 27; provided, however, that under the current terms of the Retiree Medical Plan, in general, dependents who have attained age 26 are not eligible.

14.2 Eligible Retirees. The Separate Accounts will be available to provide post-retirement health benefits under the Retiree Medical Plan for Members under the Plan (and their eligible spouses and dependents) (a) who are eligible for coverage under the Retiree Medical Plan, (b) who are non-collectively bargained employees who retire under the terms of the Plan and are eligible to receive retirement benefits under the Plan, (c) who are under age 60 as of January 1, 2020, and (d) who terminate employment on or after January 1, 2020. Post-retirement health benefits under the Retiree Medical Plan for all other retired employees will not be covered or funded by the Separate Accounts. Notwithstanding the foregoing, no amounts shall be payable from the Separate Accounts to the extent that such liabilities are funded by the Employer under a voluntary employees' beneficiary association or any other funding arrangement.

14.3 Key Employees. No amount shall be payable from the assets of the Separate Account established under Section 14.1 for post-retirement health benefits for an individual (or his eligible spouse and dependents) who at any time has been a Key Employee (as defined in Code Section 416(i)), and post-retirement health benefits for Key Employees shall be payable directly from the general assets of the Employer or another funding vehicle established by the Employer. The preceding provisions of this Section 14.3 notwithstanding, the Employer may establish and maintain "Key Employee Separate Accounts" under the Plan for the payment of post-retirement health benefits under the Retiree Medical Plan for Members who are Key Employees and who satisfy the eligibility requirements set forth in Section 14.2 (and their eligible spouses and dependents), and post-retirement health benefits shall be payable from each such Key Employee Separate Account only to such Key Employee for whom the Key Employee Separate Account is established (and his eligible spouse and dependents).

14.4 Funding.

(a) Reasonable and Ascertainable. Amounts contributed to the Separate Accounts shall be reasonable and ascertainable. Contributions to the Separate Accounts shall be determined using reasonable actuarial assumptions, which include consideration of the terms and coverage of the Retiree Medical Plan, the Retiree Medical Plan's funding, and any forfeitures arising due to employee turnover, deaths or items of like nature. In determining how much may be contributed to the Plan to provide post-retirement health benefits, the Plan's enrolled actuary may take into account reasonably projected increases in health care costs due to inflation and other factors. In no case shall Separate Account forfeitures prior to termination of the Plan serve to increase the benefits payable under the Retiree Medical Plan. Forfeitures of individual interests in Separate Accounts maintained under this Article 14 that occur prior to termination of the Plan must be applied as soon as possible to reduce Employer contributions to fund post-retirement health benefits under this Article 14.

(b) Subordinate Benefits. Post-retirement health benefits paid by the Separate Accounts shall be subordinate to the Plan's retirement benefits. Accordingly, subject to Section 14.4(a), the aggregate actual contributions to the Separate Accounts for providing post-retirement health benefits under the Retiree Medical Plan shall not exceed 25 percent of the total aggregate actual contributions made to the Plan (other than contributions to fund past service credits) after the date on which the Separate Account is established under Section 14.1 The amount of any contribution returned

to the Employer under Section 4.5 shall not be taken into account in applying the 25 percent limit on contributions to provide post-retirement health benefits.

14.5 Separate Account Contributions. The Employer shall designate which contributions to the Plan are being made for post-retirement health benefits at the time the contributions are made, and these contributions shall be credited to the Separate Accounts established under this Article 14. Although contributions to the Separate Accounts are currently provided entirely from Employer contributions, the Employer may, in the future, require Members to make contributions to the Separate Accounts established under this Article 14.

14.6 Commingling of Separate Account Assets for Investment Purposes. All contributions to the Separate Accounts may be commingled with Plan assets held for retirement benefits for investment and custody purposes, but, for recordkeeping purposes, all contributions to the Separate Accounts and earnings thereon, if any, together with all disbursements from the Separate Accounts, shall be recorded and accounted for in one or more Separate Accounts relating solely to the provision of post-retirement health benefits under the Retiree Medical Plan. If the Employer makes a contribution to the Trust that includes amounts allocable both to retirement benefits under the Plan and post-retirement health benefits under the Plan's Separate Accounts, the Employer shall clearly specify the portion of such contribution allocable to such retirement benefits and the portion allocable to such post-retirement health benefits allocable to each of the Plan's Separate Accounts.

14.7 Post-Retirement Health Benefits Not Vested. Neither Retiree Medical Plan nor Separate Account benefits (a) constitute any portion of a Member's "accrued benefit" under the Plan, (b) are subject to the vesting requirements of Code Section 411 or the vesting schedules set forth under Section 5.1, (c) are subject to protection under Code Section 411(d)(6) from reduction or elimination, or (d) are protected by corresponding provisions of ERISA. The Employer expressly reserves the right to change, reduce or eliminate the benefits provided under the Retiree Medical Plan (and the corresponding post-retirement health benefits provided under the Separate Accounts) at any time and in any fashion, and no person may rely on the future continuation of the Retiree Medical Plan (or the corresponding post-retirement health benefits provided under the Separate Accounts). Post-retirement health benefits shall be provided under the Plan only to the extent they can be paid from assets then credited to the Separate Accounts.

14.8 Exclusive Benefit. Separate Account assets shall be used solely for the purpose of (a) providing post-retirement health benefits for Members under the Plan who satisfy the eligibility requirements set forth in Section 14.2, and (b) paying any necessary or appropriate expenses attributable to the administration of the Separate Accounts. No part of the corpus or income of the Separate Accounts shall be used for, or diverted to, any purpose other than the provision of post-retirement health benefits at any time prior to the satisfaction of all liabilities for post-retirement health benefits under this Article 14. Notwithstanding Code Section 401(a)(2), upon the satisfaction of all post-retirement health benefit liabilities incurred with respect eligible retirees, as determined under Section 14.2, any amounts that remain in the Separate Accounts shall be returned to the Employer by the Trustee. If the Separate Accounts in their entireties are ever terminated (even though the Plan continues in existence) or if the Plan in its entirety is ever terminated, upon the satisfaction of all liabilities arising out of the operation of the Separate Accounts, any surplus remaining in the Separate Accounts shall be returned to the Employer to the extent required by Code Section 401(h).

14.9 Modification, Amendment and Termination. The Employer reserves the right to modify, amend or terminate the Retiree Medical Plan at any time. The establishment and operation of the Separate Accounts do not obligate the Employer in any way to continue to maintain any health care plans of any nature or to provide post-retirement health care coverage of any kind. In the event that the Employer terminates post-retirement health coverage, this Plan shall have no liability to provide further health coverage for current or future retirees, for purposes of determining the amount to be returned to the Employer under Section 14.8. No amendment, modification or termination of the Retiree Medical Plan, nor change in Employer contributions under this Article 14, shall retroactively, adversely affect any Member's benefit under the Retiree Medical Plan.

IN WITNESS WHEREOF, this amended and restated Plan has been executed this 22 day of July, 2022.

EL PASO ELECTRIC COMPANY

RETIREE WELFARE BENEFITS PLAN

Plan No. 511

As Amended and Restated Effective January 1, 2023

EL PASO ELECTRIC COMPANY
RETIREE WELFARE BENEFITS PLAN

As Amended and Restated Effective January 1, 2023

W I T N E S S E T H:

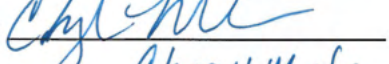
WHEREAS, effective January 1, 2004, El Paso Electric Company (the "**Company**") previously established the El Paso Electric Company Retiree Welfare Benefits Plan (the "**Plan**"), Plan Number 511 to provide certain medical, prescription drug and life insurance benefits to eligible retired employees and disabled employees of the Company and their eligible spouses and children;;

WHEREAS, the medical and prescription drug benefits provided under the Plan are exempt from the special enrollment rules under the Health Insurance Portability and Accountability Act of 1996 ("**HIPAA**") and the Plan will be administered in accordance with such exemption;

WHEREAS, the medical and prescription drug benefits provided under the Plan are exempt from the provisions of the Patient Protection and Affordable Care Act of 2010 and the Health Care and Education Reconciliation Act of 2010, and any regulations or rulings issued thereunder (collectively "**Health Care Reform**"), but the Plan has elected to comply with certain provisions of Health Care Reform on a voluntary basis.

WHEREAS, the Company amended and restated the Plan effective January 1, 2012, to make further administrative changes and comply with recent legislation and regulatory requirements.

WHEREAS, the Company amended and restated the Plan generally effective January 1, 2015, to reflect its (i) compliance with the recent Supreme Court decision and subsequent Internal Revenue Service guidance regarding same sex marriage and (ii) the addition of domestic partner benefits.



WHEREAS, the Company amended and restated the Plan generally effective January 1, 2016, to eliminate domestic partner benefits in light of the recent Supreme Court decision regarding same sex marriage and make certain administrative clarifications.

WHEREAS, the Company now desires to amend and restate the Plan generally effective January 1, 2023, to close the Plan to new entrants and make certain administrative clarifications.

NOW, THEREFORE, the Company hereby amends and restates the Plan effective January 1, 2023.

EXECUTED effective as of January 1, 2023.

Definitions and Construction

1.1 Definitions

The following capitalized terms have the respective meanings set forth below, unless the context clearly indicates otherwise:

(a) **Administrative Agreement**: The agreement entered into with each individual or entity providing administrative services with respect to the Plan.

(b) **Administrative Provider**: Any individual or entity operating under an Administrative Agreement to provide administrative services with respect to any benefits offered under the Plan.

(c) **Adverse Benefit Determination**: Any denial, reduction or termination of or failure to provide or make payment (in whole or in part) for a Plan benefit, including any denial, reduction, termination, rescission or failure to provide or make payment that is based on a determination of a Claimant's eligibility to participate in the Plan, and a denial, reduction, termination, or failure to provide or make payment resulting from the application of any utilization review, as well the failure to cover an item or service for which benefits are otherwise provided because it is determined to be experimental, investigational, unproven or not medically necessary or appropriate. With respect to health benefits, any reduction or termination of an ongoing course of treatment prior to its scheduled expiration will be treated as an Adverse Benefit Determination regarding a Concurrent Care Claim. Further, any invalidation of a claim for failure to furnish written proof of loss or to comply with the claim submission procedure will be treated as an Adverse Benefit Determination.

(d) **Benefits Administrator**: The person or office to whom the Plan Administrator has delegated day-to-day Plan administration responsibilities and who, pursuant to such delegation, processes Plan benefit claims in the ordinary course.

(e) **Child or Children**: Except as provided otherwise in the Component Program Documents, any of the following individuals who were covered under the Employee Welfare Benefits Plan and qualify as such at the time an Employee first becomes a Retired Employee or Disabled Employee:

(i) The natural child of the Retired Employee or Disabled Employee, as applicable, or Spouse

(ii) A legally adopted child (or child placed for adoption) with the Retired Employee or Disabled Employee, as applicable, or Spouse

(iii) A stepchild of the Retired Employee or Disabled Employee, as applicable, or Spouse

(iv) A child for which the Retired Employee or Disabled Employee, as applicable, or Spouse is the legal guardian, or

(v) A child for whom the Retired Employee or Disabled Employee, as applicable, or Spouse has received a court order requiring that the Retired Employee, Disabled Employee or Spouse provide health coverage

In the event that a Retired Employee, a Disabled Employee, a Participant or a Spouse acquires additional children after the Retired Employee's retirement or separation from service, such subsequent children will not qualify as Children under this Plan.

(f) **Claimant**: A Participant, Spouse, Child, beneficiary or an authorized representative of such individual who has filed or desires to file a claim for a Plan benefit.

(g) **COBRA**: The Consolidated Omnibus Budget Reconciliation Act of 1985, as amended, and any regulations or rulings issued thereunder.

(h) **COBRA Beneficiary**: Each qualified beneficiary within the meaning of Section 4.3 who has elected continuation of coverage pursuant to Article IV and thereby is covered under the Plan.

(i) **COBRA Contribution** The maximum amount that Code section 4980B(f)(2)(c) permits the Employer to charge a qualified beneficiary (as defined in Article IV) for his COBRA coverage (as defined in Article IV).

(j) **Code**: The Internal Revenue Code of 1986, as amended, and any regulations or rulings issued thereunder.

(k) **Company**: El Paso Electric Company.

(l) **Component Programs**: The benefit programs offered by the Company under the Plan, which include the Medical Benefit Program, Prescription Drug Benefit Program, and Life Benefit Program. The types and/or terms of the Component Programs may be amended from time to time without the need for a formal amendment to the Plan.

(m) **Component Program Documents**: The adoption agreements, plan documents and summary plan descriptions for the Plan containing the specific terms of the benefits provided under the Plan. The Component Program Documents will be attached as Appendix A to the Plan and incorporated herein by this reference.

(n) **Concurrent Care Claim**: Any request to extend an ongoing course of a health benefit treatment beyond the period of time or number of treatments that has previously been approved under the Plan.

(o) **Condition**: Any sickness, injury, or other mental or physical malady that may give rise to the payment of benefits under the Plan.

(p) **Covered Child or Covered Children**: Each Child or who is covered under the Plan pursuant to Section 3.5.

(q) **Covered Person**: Each Participant, Covered Spouse, Covered Child and COBRA Beneficiary. For purposes of the HIPAA privacy and security provisions applicable to the Plan, "Covered Person" means a Retired Employee, Disabled Employee, Child or Spouse that is enrolled in the Plan.

(r) **Covered Spouse**: Each Spouse who is covered under the Plan pursuant to Section 3.5.

(s) **Disabled Employee**. An Employee who has attained age 41 and completed at least 24 years of "Benefit Accrual Service" as that term is defined in the Retirement Plan with the Company and whose termination of employment with an Employer was in connection with the Employee's being determined to be disabled pursuant to the terms of any, then in place, group long term disability policy sponsored by the Employer, or if no such policy is currently in place, the Employee's being determined to be disabled within the meaning of the Social Security Act.

(t) **Effective Date**: January 1, 2023, except as otherwise stated herein or required by law.

(u) **Employee**: Each individual employed or formerly employed by the Employer; provided, however, that "Employee" will not include any employee who is a leased employee within the meaning of section 414(n) of the Code or who is determined by the Employer to be an independent contractor (even if such leased employee or independent contractor is subsequently determined by the Internal Revenue Service, the Department of Labor, a court of competent jurisdiction or the Employer to be or have been a common law employee of the Employer).

(v) **Employee Welfare Benefits Plan**: The El Paso Electric Company Welfare Benefits Plan, as amended from time to time.

(w) **Employer**: The Company and each Participating Employer.

(x) **ERISA**: The Employee Retirement Income Security Act of 1974, as amended and any regulations or rulings issued thereunder.

(y) **GINA**: The Genetic Information Nondiscrimination Act of 2008, as it may be amended from time to time, and any regulations or rulings issued thereunder.

(z) **HCR**: Collectively, the Patient Protection and Affordable Care Act of 2010 and the Health Care and Education Reconciliation Act of 2010, and any regulations or rulings issued thereunder.

(aa) **Health Care Professional**: A physician or other health care professional licensed, accredited or certified to perform specified health services consistent with State law.

(bb) **HIPAA**: The Health Insurance Portability and Accountability Act of 1996, as amended. To the extent that this Plan is subject to HIPAA's privacy and security requirements, the Plan and the Employee Welfare Benefits Plan will be a single

covered entity for purposes of complying with such requirements, and the required amendments to this Plan will be set forth in the Employee Welfare Benefits Plan; provided, however, that with respect to the Plan, amendments relating to HIPAA's privacy requirements will be effective April 14, 2004. The terms of such HIPAA privacy and security requirements as set forth in the Employee Welfare Benefits Plan, if applicable, are hereby incorporated by this reference.

Because the Plan covers only Retired Employees and Disabled Employees, the Plan is not subject to HIPAA's portability requirements as set forth in subtitle K, chapter 100 of the Code (*i.e.*, the special enrollment and portability requirements of section 9801 of the Code, the health status nondiscrimination requirements of section 9802 of the Code, the guaranteed renewability requirements of section 9803 of the Code, and the mental parity provisions of section 9812 of the Code) and section 713 of ERISA regarding mandated coverage of post-mastectomy reconstructive surgery.

Likewise, the Plan is not technically subject to the provisions of HCR; however, the Company has elected to apply certain of such provisions to the Plan on a voluntary basis.

(cc) **HMO**: Any health maintenance organization or similar organization or network of individuals or organizations that has contracted to provide medical, mental, and/or other health-related benefits to Covered Persons.

(dd) **Independent Fiduciary**: The person or entity retained by the Plan Administrator to perform the review of an Adverse Benefit Determination, who must be an individual other than (i) the individual who made the Adverse Benefit Determination that is the subject of the review, and (ii) the subordinate of such individual.

(ee) **Life Benefit Program**: The Component Program, if any, providing life insurance benefits to Covered Persons.

(ff) **Medical Benefit Program**: The Component Program, if any, providing medical benefits to Covered Persons.

(gg) **Medicare**: The medical care benefits program provided under title XVIII of the Social Security Act of 1965, as amended.

(hh) **Participant**: Each Retired Employee or Disabled Employee who is a participant in the Plan pursuant to Article III.

(ii) **Participating Employer**: Any subsidiary or affiliate of the Company that has adopted the Plan pursuant to Section 11.6.

(jj) **Plan**: The El Paso Electric Company Retiree Welfare Benefits Plan, as set forth herein and as the same may be amended from time to time.

(kk) **Plan Administrator**: The administrator of the Plan, as set forth in Section 9.1

(ll) **Plan Year**: The calendar year.

(mm) **Post-Service Claim**: Any claim for a Plan health benefit that is not a Pre-Service Claim.

(nn) **PPO**: Any preferred provider organization or other similar organization or arrangement with which the Employer has contracted to provide medical, mental, and/or other health-related benefits, including pharmacy benefits, for Participants, Covered Spouses and Covered Children.

(oo) **Prescription Drug Benefit Program**: The Component Program, if any, providing prescription drug benefits to Covered Persons, which may be a separate program or may be provided pursuant to the Medical Benefit Program.

(pp) **Pre-Service Claim**: Any claim for a Plan health benefit the terms of which condition receipt thereof, in whole or in part, on approval of the benefit in advance of obtaining medical care.

(qq) **Primary Plan**: With respect to a Condition, if a Covered Person is:

(i) Covered under a plan of an employer other than the Employer that provides a benefit of the same type as the benefit provided under the Plan and that does not have a coordination of benefits provision, the Primary Plan is the other plan.

(ii) Covered under a plan of an employer other than the Employer that provides a benefit of the same type as the benefit provided under the Plan and that has a coordination of benefits provision, in accordance with the following:

(A) For a Condition incurred by a Participant (other than a Participant who is covered under the other plan as a Retired Employee or Disabled Employee and has been so covered for longer than his period of coverage under the Plan), the Primary Plan is the Plan;

(B) For a Condition incurred by (1) a Covered Spouse, (2) Covered Child or (3) a Participant who is covered under the other plan as a Retired Employee or Disabled Employee and who has been so covered for a period of time longer than the period of coverage under the Plan, if the Covered Spouse, Covered Child or the Participant is an active participant (either as an employee, former employee, retiree, director, or former director) in the plan of an employer other than the Employer, the Primary Plan is the other plan;

(C) For a Condition incurred by a Covered Spouse or a Covered Child who is covered through COBRA under a plan other than the Plan, the Primary Plan is the Plan;

(D) For a Condition incurred by a Covered Child (other than a Child who is the stepchild of either the Retired Employee or Disabled

Employee, as applicable, or his Spouse) and who is a covered dependent under a plan of the employer of the Spouse, the Primary Plan is the plan covering the parent of the Child whose birthday falls earlier in the calendar year, except that, if the birthdays of both parents of the Child fall on the same day, the plan of the parent who has been an active participant in the plan for the longer period of time is the Primary Plan;

(E) For a Condition incurred by a Covered Child and is the stepchild of either the Retired Employee or Disabled Employee, as applicable, or his Spouse, and who is a covered dependent under a plan of an employer other than the Employer, and whose natural parents were never married or whose natural or adoptive parents are divorced or legally separated, (1) the Primary Plan is the plan of the parent who by divorce decree, separation agreement, other legal document, or state law is designated primarily responsible for the medical, dental, and other health care expenses of the Child or (2) in the absence of designation by divorce decree, separation agreement, other legal document, or state law a) the Primary Plan is the plan of the parent who has the primary right to possession of the Child, or b) in the absence of a plan described in Clause a), the Primary Plan is the plan of the spouse of the parent described in Clause a), if any, or c) in the absence of a plan described in Clause b), the Primary Plan is the plan of the parent who does not have the primary right to possession of the Child

(F) For a Condition incurred by a COBRA Beneficiary who is an active participant (either as an employee, former employee, retiree, director, or former director) in a plan other than the Plan, the Primary Plan is the other plan; and

(G) For a Condition incurred by a COBRA Beneficiary who is covered as a dependent under a plan other than the Plan, the Primary Plan is the other plan.

(iii) Covered under Medicare for a reason other than end-stage renal disease, the Primary Plan is Medicare for a Covered Retiree and the Plan is the Primary Plan for a Covered Spouse or Child.

(iv) Covered under Medicare due to end-stage renal disease, the Primary Plan is Medicare after the time period prescribed in Department of Health and Human Services regulation section 411.102(a) has elapsed.

(rr) **Retirement Plan**. The Retirement Income Plan for Employees of El Paso Electric Company.

(ss) **Retired Employee**: An Employee who terminates employment with the Employer and at the time of such termination is (i) covered under the Employee Welfare Benefits Plan and has attained at least age 55 and completed at least 5 years of "Benefit Accrual Service," as that term is defined in the Retirement Plan

with the Company and (ii) elects to commence benefits under the Retirement Plan at the time of such termination of employment. An Employee who satisfies the conditions it subsection (i) above and who does not elect to commence benefits under the Retirement Plan at the time of such termination of employment will not be eligible for benefits under this Plan. Such Employee may, however, be entitled to elect COBRA continuation coverage under the Employee Welfare Benefits Plan.

(tt) **Secondary Plan**: With respect to a Condition, if a Covered Person covered under the Plan also is covered under a plan of an employer other than the Employer and that other plan provides a benefit of the same type as the applicable benefit provided under the Plan, the Secondary Plan is the Plan, or other plan, that is not the Primary Plan.

(uu) **Spouse**: An individual who is the legal spouse, including a same sex spouse, except that such term will not include unless otherwise provided in a Component Program Document (i) a common law spouse unless the Retired Employee or Disabled Employee has filed a Declaration and Registration of Informal Marriage with the County Clerk and provided a copy of the same to the Plan Administrator, or (ii) a spouse who is an Employee or a Participant. In the event that a Retired Employee or Disabled Employee or Participant marries or remarries after his retirement or separation from service, such subsequent spouse will not qualify as a Spouse under this Plan.

(vv) **Third Party**: Any individual who, or entity that, is or may be liable to a Covered Person for a Condition or for payment of damages or expenses related to a Condition. This term includes first-party automobile insurance coverage such as personal-injury-protection/medical coverage and uninsured/underinsured motorist coverage of the Covered Person.

(ww) **Urgent Care Claim**: Any Plan health benefit claim for medical care or treatment with respect to which the application of the time periods otherwise applicable to such claim (i) could seriously jeopardize, as determined either by a physician with knowledge of the Claimant's medical condition or by the Benefits Administrator (applying the judgment of a prudent layperson who possesses an average knowledge of health and medicine), the Claimant's life, health or ability to regain maximum function, or (ii) would subject the Claimant, in the opinion of a physician with knowledge of the Claimant's medical condition, to severe pain that cannot be adequately managed without the care or treatment that is the subject of the claim.

1.2 Number and Gender

Where appropriate herein, the singular includes the plural, and vice versa; and the masculine gender includes the feminine gender, and vice versa.

1.3 Miscellaneous Construction

The headings of Articles and Sections, and Paragraphs herein are solely for convenience. If there is any conflict between such headings and the text of the Plan, the text of the Plan will control. All references herein to the capitalized terms "Sections,"

"Articles," "Paragraphs," "Clauses" and the like are to this document unless otherwise indicated. The terms "herein" and "hereof," as well as other similar compounds of "here" when appearing in the Plan document, refer to the entire Plan document and not to any particular part, unless the context clearly indicates otherwise. The terms "includes" and "including" appearing herein mean "includes but is not limited to" and "including but not limited to," respectively.

1.4 Reference to Plan Includes Component Program Documents

Any reference to the Plan includes the Component Program Documents unless otherwise indicated.

1.5 Incorporation of Component Program Documents

The Component Program Documents in their entirety are incorporated herein by reference and made a part of the Plan.

1.6 Inconsistent Provisions in the Component Program Documents

If, and only if, any provision in a Component Program Document conflicts with, contradicts, or renders ambiguous any provision in this document, the provision in this document will control unless otherwise specifically provided.

1.7 Effect Upon Other Plans

Except to the extent provided herein, nothing in the Plan will be construed to affect the provisions of any other plan maintained by the Employer, including a plan intended to comply with the qualification provisions of sections 401(a) and 501(a) of the Code.

1.8 Jurisdiction

Except to the extent ERISA or any other federal law applies to the Plan and preempts state law, the Plan will be construed, enforced, and administered according to the laws of the State of Texas.

1.9 Severability

If any provision of the Plan or a Component Program Document is held illegal, invalid, or unenforceable for any reason, that holding will not affect the remaining provisions of the Plan. Instead, the Plan will be construed and enforced as if the illegal, invalid, or unenforceable provision had not been included herein.

End of Article I

ARTICLE II

Establishment and Purpose

2.1 Establishment and Purpose

The Company has adopted and established the Plan for the purposes of providing medical, prescription drug and life insurance benefits to Retired Employees and Disabled Employees and their Spouses the terms and conditions of which are outlined in the Component Program Documents. As required by applicable law, a Retired Employee, Disabled Employee, Spouse who enrolls in a Medicare prescription drug plan will not be eligible to receive prescription drug coverage under the Plan for the period during which his Medicare prescription drug coverage is in effect.

2.2 Intention to be Welfare Benefit Plan

The Company intends the Plan to be an employee welfare benefit plan under section 3(1) of ERISA and its regulations, to the extent the benefits provided by each Component Program so permit. If any benefit provided under the Plan is determined not to be a benefit eligible to constitute an employee welfare benefit plan under section 3(1) of ERISA, such a determination will not prevent the remainder of the Plan from qualifying as an employee welfare benefit plan within the meaning of such section.

End of Article II

ARTICLE III

Participation

3.1 Commencement of Participation

Employees hired on and after January 1, 2023, will not be eligible to become Participant's in the Plan. Each Retired Employee or Disabled Employee who was hired before January 1, 2023, will become a Participant in the Plan as of the date and in accordance with the terms set forth in the Component Program Documents. Enrollment and coverage in the Plan will be subject to any required premium payment applicable to such coverage and to all other terms and conditions set forth in the Component Program Documents. If a Retired Employee or Disabled Employee does not elect to become a Participant in the Plan in connection with his retirement or disability retirement with the Employer he may be entitled to elect to continue his coverage under the Employee Welfare Plan pursuant to COBRA.

3.2 Enrollment in the Plan

Notwithstanding any other provision of this Section 3.2 or the terms and conditions of a Component Program Document, a Retired Employee or Disabled Employee must complete any applicable enrollment forms and provide all necessary information (*e.g.*, Social Security Numbers) required for participation in, and coverage under, the Plan, including without limitation any documents or other information required for purposes of verifying such Retired Employee's or Disabled Employee's eligibility to participate in a Component Program. Enrollment in the Plan will not be effective unless and until all required forms and information have been timely provided, and may be suspended in the event that an otherwise eligible Retired Employee or Disabled Employee fails to provide necessary information or forms with respect to his coverage or that of his Spouse or Child, until such information or forms have been provided to the Plan Administrator.

3.3 Amending or Changing Coverage; Re-enrollment

A Retired Employee or Disabled Employee who becomes a Participant and subsequently elects to terminate coverage under the Plan will not be permitted to re-enroll in the Plan, except in the case of a Participant who is reemployed as an Employee and whose participation in the Plan terminates under Section 3.4(b) in which case such Participant may reenroll himself (and his Spouse and Child whose prior participation in the Plan ceased by reason of the Participant's reemployment as provided in Section 3.5(c)) in the Plan upon his subsequent termination of employment with the Employer. As provided in Article I, a Retired Employee or Disabled Employee who does not elect to become a Participant when he is first eligible may not elect to enroll in the Plan during any subsequent annual enrollment period.

3.4 Termination of Participation

Except as otherwise specifically provided by the Plan, a Participant will cease to participate in the Plan when any one of the following occurs:

(a) The Participant fails to make any required payment as set forth in the Component Program Documents or otherwise fails to meet the eligibility provisions in the Component Program Documents;

(b) The date the Participant is reemployed as an Employee in which case he will be eligible for coverage under the Employee Welfare Benefits Plan as of the date of his reemployment or such other date as may be specified in the Component Program Documents; or

(c) The effective date of termination of the Plan.

Except as provided in Section 3.3, if a Participant ceases to participate in the Plan, he will not be entitled to resume participating in the Plan.

3.5 Spouse and Child Coverage

(a) **Commencement of Participation**. Each Spouse and Child will become a Covered Person under the Plan as of the date and in accordance with the terms set forth in Component Program Documents. Enrollment and coverage in the Plan will be subject to any required premium payment applicable to such coverage and to all other terms and conditions set forth in the Component Program Documents.

(b) **Enrollment in the Plan**. Notwithstanding any other provision of this Section or the terms and conditions of the Plan, an eligible Spouse and Child must complete any applicable enrollment forms and provide all necessary information (e.g., Social Security Numbers) required for participation in, and coverage under, the Plan, including without limitation any documents or other information required for purposes of verifying such Spouse's or Child's eligibility to participate in the Plan. Enrollment in the Plan will not be effective unless and until all required forms and information have been timely provided, and may be suspended in the event that an otherwise eligible Spouse or Child fails to provide necessary information or forms with respect to his coverage, until such information, documents, or forms have been provided to the Plan Administrator.

(c) **Termination of Participation**. Plan coverage for a Participant's Covered Spouse and/or Covered Child will terminate when any one of the following occurs:

(i) The Participant or Spouse or Child fails to make any required payment for Spouse or Child coverage as set forth in the Component Program Documents or the Spouse or Child otherwise fails to meet the eligibility provisions set forth in the Component Program Documents;

(ii) The date the Participant is reemployed as an Employee in which case the Spouse or Child will be eligible for coverage under the Employee Welfare Benefits Plan as of the date of the Participant's reemployment]or such other date as may be specified in the Component Program Documents;

(iii) The date the Covered Spouse and/or Covered Child ceases to be eligible under the terms of the Component Program Documents; or

(iv) The effective date of termination of the Plan.

If coverage for a Covered Spouse or Covered Child terminates, he will not be entitled to resume coverage in the Plan except as provided in Section 3.3 in connection with the Participant's reemployment and reenrollment in the Plan.

3.6 Special Requirements

To the extent required, if the Plan is a group health plan within the meaning of section 9832 of the Code, the Plan will operate in compliance with the applicable requirements of subtitle K, chapter 100 of the Code (i.e., the newborns and mothers protection provisions in section 9811 of the Code and the applicable mandates of HCR, as amended, of section 9815 of the Code), which provisions are hereby incorporated herein by reference.

Effective January 1, 2010, to the extent required and if the Plan is a "group health plan" within the meaning of GINA, the Plan will comply with the requirements of GINA (unless the Plan is only providing excepted benefits within the meaning of section 9832 of the Code, including limited scope dental and vision benefits), to the extent that they are applicable to the Plan.

The Company or the Plan Administrator may make exceptions to the coverage provisions of a Health Care Component when it deems necessary and any such exception will not constitute binding precedent with respect to any other coverage situation.

3.7 Dependent Coverage

No dependents other than a Spouse or Child meeting the requirements of Section 3.5 above will be eligible for coverage under the Plan.

3.8 Election Between COBRA and Plan Coverage

The medical and prescription drug coverage under this Plan will constitute "alternative coverage" to COBRA within the meaning of Treasury Regulation section 54.4980B-7, Q&A 7. To participate in the Plan, a Retired Employee or Disabled Employee, as applicable, and his eligible Spouse and eligible Children must separately waive their rights to COBRA coverage arising from the Retired Employee's retirement or Disabled Employee's disability retirement from the Employer.

3.9 Correction of Coverage or Enrollment Error

If the Plan Administrator determines in its discretion that an error has occurred with respect to enrollment or coverage under the Plan, the Plan Administrator may correct any such error in any manner it deems appropriate.

End of Article III

ARTICLE IV

COBRA

4.1 Continuation of Coverage

(a) **General Rule**. Subject to the provisions of this Article IV, each "qualified beneficiary" who would "lose coverage" under the Medical Benefit Program or Prescription Drug Program as a result of a "qualifying event" will be entitled to elect, within the "election period," continuation of "coverage" under the applicable Component Program. The foregoing terms in quotations are defined below.

(b) **Coverage**. In Section 4.1(a), "coverage" means medical and prescription drug coverage that—as of the time coverage is being provided—is identical to the coverage provided under the Plan to similarly situated beneficiaries under the Plan who have not had a qualifying event. If coverage under the Plan is modified for any group of similarly-situated beneficiaries, coverage under this Article IV will likewise be modified for all individuals who are similarly-situated qualified beneficiaries under the Plan. Further, if there is a choice among coverage options available to participants in the Plan, this choice will be offered to each qualified beneficiary. Continuation of coverage will not be conditioned upon—nor discriminate on the basis of lack of—evidence of insurability or medical underwriting.

4.2 Qualifying Event and Loss of Coverage

(a) **Qualifying Event**. In this Article, the term "qualifying event" means, with respect to a Covered Person, any of the following events that—if not for the continuation of coverage required under Section 4.1—would cause a qualified beneficiary to "lose coverage" under the Medical Benefit Program or Prescription Drug Program:

(i) Divorce or legal separation of the Covered Spouse from the Participant;

(ii) A Child ceasing to qualify as such under the terms of the Plan; or

(iii) A bankruptcy proceeding in a case under title 11 of the United States Code, commencing on or after July 1, 1986, with respect to the Employer from whose employment a Participant retired at any time. For purposes of the foregoing, a loss of coverage includes a substantial elimination of coverage with respect to a qualified beneficiary described in Section 4.3(a)(ii) within one year before or after the date of commencement of the bankruptcy proceeding in a case under Title 11 of the United States Code. For purposes of this Paragraph and all provisions of Article IV applicable to this Paragraph, "Participant" means an individual who is a retiree of the Employer and is (or was) provided coverage under the Plan because he worked for the Employer.

(b) **Loss of Coverage**. In this Article IV, to "lose coverage" means to cease to be covered under the same terms and conditions as in effect immediately prior to the qualifying event. If coverage is reduced or eliminated in anticipation of an

event, the reduction or elimination is disregarded in determining whether the event causes a loss of coverage. Moreover, a loss of coverage need not occur immediately after the event, so long as the loss of coverage will occur prior to the end of the coverage period described in Section 4.7.

4.3 Qualified Beneficiaries

(a) **General Rule**. In this Article IV, the term "qualified beneficiary" means:

(i) For a qualifying event other than bankruptcy of the Employer, a Spouse, or Child of a Participant who was covered under the Plan on the day before a qualifying event; and

(ii) For a qualifying event that is the bankruptcy of the Employer as described in Section 4.2(a)(iii), a Participant who had retired on or before the date of substantial elimination of coverage and any other individual who, on the day before such qualifying event, was a Covered Spouse of the Participant.

(b) **Exclusions**. The term "qualified beneficiary" will not include a Participant or Covered Spouse or Covered Child of a Participant whose status as a Retired Employee or Disabled Employee is attributable to a period in which he was a nonresident alien and received from the Employer no earned income (within the meaning of section 911(d)(2) of the Code) constituting income from sources within the United States (within the meaning of section 861(a)(3) of the Code).

4.4 Notice Requirements

(a) **Initial Notice of COBRA Rights**. The Plan Administrator will provide, at the time of commencement of coverage under the Plan, written notice to each Participant, Covered Spouse and Covered Child of the rights provided under this Article IV. Such notice will be provided not later than the **earlier** of (i) 90 days after medical or prescription drug coverage under the Plan begins, or (ii) the first date on which the Plan Administrator is required to provide the Covered Person with notice of the right to elect to continue any of such coverages under the Plan on account of the occurrence of a qualifying event. Further, in any case where the Plan Administrator is required to provide notice of the right to elect continuation coverage as described in (ii), the furnishing of the notice of the right to elect continuation coverage under Section 4.4(d) will be deemed to satisfy the requirements of this Section 4.4(a).

(b) **Employer Notice of Qualifying Event**. The Employer will notify the Plan Administrator of a qualifying event that is a bankruptcy as described in Section 4.2(a)(iii) within 30 days of the **later** of (i) the date of the qualifying event or (ii) the date medical or prescription drug coverage under the Plan is lost as a result of the qualifying event.

(c) **Participant or Qualified Beneficiary Notice**. Each Participant or qualified beneficiary must notify the Plan Administrator in writing of the occurrence of any qualifying event which is a divorce or legal separation described in Section 4.2(a)(i) or a loss of Child status under Section 4.2(a)(ii) within 60 days of the

later of (i) the date of the qualifying event, (ii) the date the qualified beneficiary would lose medical or prescription drug coverage because of the qualifying event, or (iii) the date the qualified beneficiary is informed through the distribution of the Component Program Documents or general notice of the responsibility to provide such notice to the Plan Administrator and the Plan's procedures for doing so. If this notice of qualifying event is not so provided, the qualified beneficiary will lose his right to elect such continuation of coverage.

(d) **Plan Administrator Notice of Rights to Elect Continuation Coverage**. Upon receipt of the notice by the Employer described in Section 4.4(b) (regarding a qualifying event which is the bankruptcy of the Employer), or upon receipt of the notice from the Participant or qualified beneficiary described in Section 4.4(c) (regarding a qualifying event which is a divorce or legal separation or loss of Child status), the Plan Administrator will notify any qualified beneficiary of the right to elect COBRA continuation coverage with respect to such qualifying event. This notice will be given to the qualified beneficiary within 14 days of the date on which the Plan Administrator is notified under Section 4.4(b) or (c), whichever is applicable, and will contain the information required by Labor Regulation section 2590.606-4(b)(4). Any such notice to an individual who is a qualified beneficiary as the Spouse of the Participant will be treated as notice to all other qualified beneficiaries who are minors residing with that Spouse at the time the notice is given.

(e) **Plan Administrator Notice of Unavailability of COBRA**. If the Plan Administrator receives notice from a Participant or qualified beneficiary of a qualifying event pursuant to Section 4.4(c) above and determines that such qualified beneficiary is not entitled to continuation coverage under COBRA, the Plan Administrator will notify the qualified beneficiary that COBRA continuation coverage is not available and the reasons why. Such notice of the unavailability of COBRA continuation coverage will be provided within 14 days after the Plan Administrator receives notice of the qualifying event pursuant to Section 4.4(c) above.

4.5 Election Period

The term "election period" means the period that begins on the date medical or prescription drug coverage terminates under the Plan due to a qualifying event and ends 60 days after the later of (i) the date on which such coverage terminates under the Plan due to the qualifying event or (ii) the date the qualified beneficiary is sent the notice required under Section 4.4(d). Notwithstanding Section 11.7 (regarding notice and filing), an election of continuation coverage will be deemed made when sent by the qualified beneficiary. An election of continuation coverage made during the election period is retroactive to the date of the qualifying event. If a qualified beneficiary waives his right to elect continuation coverage, the waiver may be revoked by the qualified beneficiary at any time during the election period; provided, however, that if a qualified beneficiary revokes his waiver, continuation coverage will not be provided for any period prior to the waiver.

4.6 Cost of Coverage

(a) **Responsible Party**. A qualified beneficiary who elects continuation coverage under this Article IV will be solely responsible for paying the full cost of such continued coverage. Payment is considered made when it is sent to the proper party. The Employer will not be obligated to contribute to the cost of continuation coverage. Payment of any initial premium by or on behalf of a qualified beneficiary will not be required until 45 days after the date continuation coverage is elected and will cover the cost of coverage for the period from the date of the qualifying event.

(b) **Amount**. The cost of continuation coverage will be determined by the Plan Administrator and will not exceed 102 percent of the cost to the Plan for the same period of coverage for other similarly-situated individuals who have not experienced a qualifying event. At the election of the payor, the cost of continuation coverage may be paid in monthly installments. If timely payment of such cost is made in an amount not significantly less than the amount required, then the amount paid will be deemed to satisfy the amount required, unless the qualified beneficiary is notified of the amount of the deficiency and is given a reasonable time not less than 30 days after the date of the notice in which to pay the deficiency.

4.7 Period of Coverage

Except as provided in Section 4.10, continuation coverage will extend for the period beginning on the date of the qualifying event and ending:

(a) For a qualifying event other than bankruptcy of the Employer, 36 months after the qualifying event; and

(b) For a qualifying event that is a bankruptcy of the Employer as described in Section 4.2(a)(iii),

(i) when the Participant or the qualified beneficiary who is the surviving Spouse of the Participant dies, or

(ii) for the surviving Spouse of the Participant, 36 months after the Participant dies.

4.8 Termination of Coverage

(a) **Date of Termination**. Continuation coverage for a qualified beneficiary will terminate prior to the period of coverage described in Section 4.7 when any one of the following occurs:

(i) The Employer—and all entities that are members of a group that is described in section 414(b), (c), (m), or (o) of the Code and that includes the Employer—cease to provide any group health plan within the meaning of section 5000(b)(1) of the Code or section 607(1) of ERISA;

(ii) Coverage ceases under the Plan due to a failure to pay any premium required under the Plan within the **latest** of (A) 30 days after the date

due, (B) the last date a Participant is permitted to make any required contribution under the terms of the Plan, or (C) if applicable, the last date the Employer is permitted to pay for coverage of similarly-situated Participants under the terms of a contract between the Employer and any PPO or other entity that provides group-health benefits on behalf of the Employer; or

(iii) The qualified beneficiary first becomes covered under any other group health plan within the meaning of section 5000(b)(1) of the Code or section 607(1) of ERISA of an employer other than the Employer, provided that such coverage does not begin on or before the date on which continuation coverage is elected, and also provided that such other group health plan does not contain any exclusion or limitation with respect to any preexisting condition of the qualified beneficiary (other than an exclusion or limitation that does not apply to (or is satisfied by) such person because of the creditable coverage provisions of chapter 100 of Title 26, or part 7 of subtitle B of Title I of ERISA).

(b) **Notification of Termination**. The Plan Administrator will notify a COBRA Beneficiary that continuation coverage of the COBRA Beneficiary has terminated under the provisions of either Section 4.7 or this Section 4.8, and of the effective date of such termination. The notice must also advise the COBRA Beneficiary of any rights to other group health coverage that are available upon the termination of coverage pursuant to this Article IV. The notice will be provided as soon as administratively feasible after the date of termination.

4.9 Rights and Obligations of COBRA Beneficiary

Except as otherwise specifically provided in the Plan, each individual who becomes a COBRA Beneficiary pursuant to this Article IV will have the same rights and obligations as those provided to Participants, Covered Spouses and Covered Children under the terms of the Plan, including those regarding enrollment, amendment, termination or change of coverage, coordination of benefits, subrogation, claims procedure and review, and provision of information.

4.10 Applicability of Article and Statutory Conflict

This Article IV will apply only to the Plan or to a Covered Person to the extent that the Plan, Covered Person is subject to or entitled to the continuation of coverage provisions of COBRA pursuant to section 4980B of the Code or sections 601 through 608 of ERISA. This Article IV will be administered in the manner required by COBRA and the regulations issued thereunder. In the event that there is a discrepancy between the provisions of this Article IV and COBRA or the regulations issued thereunder, such discrepancy will be resolved to give full effect to the provisions of COBRA and/or such regulations.

End of Article IV

ARTICLE V

Coordination of Benefits

5.1 Coordination With Other Plans

(a) **Other Plan Coverage**. If a Covered Person is covered under a plan of an employer other than the Employer, that provides a benefit of the same type as the applicable benefit provided under the Plan, a claim for a benefit under the Plan will be paid on behalf of the Covered Person as follows:

(i) If the Plan is the Primary Plan, a benefit will be paid by the Plan without regard to any amount paid or payable under any other plan.

(ii) If the Plan is the Secondary Plan, the amount paid by the Plan will be any excess of (A) the amount the Plan would be required to pay if it were the Primary Plan over (B) the amount paid or payable by the Primary Plan.

(b) **Reduction of Plan Benefits**. If the Plan is the Secondary Plan and a payment of a benefit payable under more than one provision of the Plan to a Covered Person is thereby reduced by the amount paid or payable from the Primary Plan, then each benefit payable under each such provision will be reduced by that portion of the total reduction that each such benefit bears to the total benefit payable under the Plan.

5.2 Coordination with Medicare

If a Covered Person is eligible for Medicare, a claim for benefits under the Plan will be paid on behalf of the Covered Person as follows:

(a) If the Plan is the Primary Plan, a benefit will be paid without regard to any amount paid or payable under the terms of Medicare.

(b) If the Plan is the Secondary Plan, the amount paid by the Plan will be any excess of (i) the amount the Plan would be required to pay if it were the Primary Plan over (ii) the amount paid or payable under the terms of Medicare, provided, however, that no payment will be made under the Plan to the extent such amount would exceed the maximum amount that may be billed to the Plan by the provider pursuant to Medicare.

(c) In determining the amount paid or payable under the terms of Medicare for purposes of this Section 5.2, the Plan will consider all Medicare benefits paid or payable to the Covered Person or to the provider directly for the same Condition.

5.3 Limitation on Coordination of Benefits

A Covered Person will not recover more under this Article V than 100 percent of the expense incurred as a result of a Condition.

5.4 Right to Receive and Release Information

For the purpose of administering this Article V, the Plan Administrator may—without consent of or notice to any Covered Person or other person—release to or obtain from any other individual or entity any information the Plan Administrator deems appropriate. Any Covered Person or other person or entity claiming benefits or reimbursement under the Plan will furnish the Plan Administrator with whatever information the Plan Administrator requests to implement this Article V.

5.5 Corrective Payment

If another plan, person or entity paid a benefit that should have been paid by the Plan in accordance with this Article V, the Plan Administrator will have the right to pay to any such plan, person, or entity an amount the Plan Administrator determines in its discretion to be necessary to comply with the provisions of this Article V. Amounts paid pursuant to the preceding sentence will be deemed to be benefits paid under the Plan for all purposes, and the Plan Administrator will be fully discharged from liability under the Plan.

5.6 Right of Recovery

If the Plan pays a benefit that should have been paid by another plan, person, or entity in accordance with this Article V, the Plan Administrator will have the right to recover the payment from such plan, person, or entity in any manner the Plan Administrator deems appropriate.

5.7 Coordination with Component Program Documents

If the Component Program Documents contain coordination of benefits provisions, those provisions will control over this Article V. However, if the provisions in the Component Program Documents do not address or are ambiguous with respect to a particular issue, and this Article V would address that issue or ambiguity, then this Article will apply and will control to the extent necessary to resolve the issue or ambiguity.

End of Article V

ARTICLE VI

Subrogation

6.1 Plan's Right of Subrogation

Subject to the provisions of this Article VI, if a Covered Person is entitled to a benefit under the Plan for a Condition caused or possibly caused by a Third Party or for which a Third Party may be liable, (a) as a condition to receiving this benefit such Covered Person will agree to reimburse the Plan in full and first priority and the Plan Administrator may require the Covered Person to sign an agreement to reimburse the Plan, and (b) the Plan will be subrogated to all rights, however arising, of the Covered Person against the Third Party. The right of subrogation set forth herein will not limit any additional rights of subrogation the Plan may have under the applicable laws of any State to seek repayment of the benefit from the Third Party.

6.2 Amounts Recoverable

The Plan is subrogated to any right of a Covered Person to recover any and all benefits, which have been paid or are payable—or which are likely (in the opinion of the Plan Administrator) to become payable under the Plan—and which are related to any Condition for which a Third Party is or may be liable, without regard to whether the payment is characterized as recovery for pain and suffering, mental anguish, punitive damages, or any other basis of recovery other than for medical or other welfare benefits provided by the Plan and regardless of whether the liability of the Third Party is reduced to a recovery as a result of legal proceedings, arbitration, compromise settlement or otherwise.

The Plan's subrogation rights under this Article VI will be a first priority claim against all Third Parties and the amount to which the Plan is entitled pursuant to its rights under this Article VI will be paid to the Plan before any amounts are paid to the Covered Person, or in the event such amount to which the Plan is entitled is not paid immediately to the Plan, such amount will be segregated and held in constructive trust for the Plan. In addition, the Plan may recover from the amounts recovered from such Third Parties its reasonable costs and attorneys' fees.

The amount to which the Plan is subrogated, or the amount to which the Plan is entitled to reimbursement, will not be limited or reduced because the Third Party is liable only in part, the Third Party's resources or insurance is limited, the Participant has not been fully compensated (*i.e.*, made whole), or to share in a pro rata allocation of a Participant's fees and costs (including attorney fees) incurred in pursuit of a claim (*e.g.*, "common fund doctrine"), or because of any other reason.

To the extent the amount to which the Plan is subrogated, or entitled to reimbursement, is so limited or reduced under the applicable laws of any State then the Plan will have the right to reimbursement from a Participant for the maximum amount by which the Plan's rights are limited or reduced by State law.

6.3 Limitation on Plan's Recovery

The Plan's right of subrogation will not exceed either (a) the sum of the amount of benefits paid, payable, or likely (in the opinion of the Plan Administrator) to become

payable under the Plan, plus the Plan's reasonable costs and attorneys' fees, or (b) the total amount of the recovery from Third Parties.

6.4 Enforcement

To enforce any provision of this Article VI, the Plan Administrator may:

(a) bring an action in the name of the Plan, Covered Person against a Third Party or the Third Party's liability carrier or in the case of uninsured or underinsured motorist coverage, the Participant's, Covered Spouse's or Covered Child's automobile insurance carrier;

(b) join in any action by a Covered Person against a Third Party or the Third Party's liability carrier or in the case of uninsured or underinsured motorist coverage, the Participant's, Covered Spouse's or Covered Child's automobile insurance carrier;

(c) offset future benefits by amounts that a Covered Person has obtained (or could have obtained with reasonable diligence) from a Third Party or the Third Party's liability carrier or in the case of uninsured or underinsured motorist coverage, the Participant's, Covered Spouse's or Covered Child's automobile insurance carrier;

(d) bring an action to set aside any settlement agreement entered into without the consent of the Plan Administrator;

(e) bring an action against a Covered Person for an equitable lien or constructive trust against amounts recovered by a Third Party; or

(f) take any other action it deems appropriate.

The Plan Administrator may—without consent of or notice to any Covered Person or other person—release to or obtain from any other individual or entity any information the Plan Administrator deems appropriate for the enforcement of this Article VI.

6.5 Obligations of Covered Persons

In addition to the other obligations set forth in this Article VI, the following obligations apply to Covered Persons:

(a) The Covered Person will execute and deliver to the Plan Administrator any reimbursement agreement, assignment, and other documents the Plan Administrator requests for enforcing the Plan's rights under this Article VI, will provide to the Plan Administrator any information regarding recovery sought or received from any third party (including the amount and source of such recovery), will not take any action that might prejudice the Plan's rights under this Article VI, and will not release any Third Party (even if the release purports to be a partial release or a release for the excess liability over Plan benefits) without the Plan Administrator's advance written consent. The Plan's rights will not be affected by a release of any Third Party entered into without such consent.

(b) If a Covered Person initiates a liability claim against any Third Party or the Third Party's liability carrier, or if recovery is sought against the Participant's or Covered Spouse's automobile insurance carrier under the uninsured or

underinsured endorsement, the amounts described in Section 6.2 must be included in the claim.

(c) If a Covered Person receives money from or on behalf of any Third Party, the Covered Person will serve as a constructive trustee for the Plan and hold such money in trust for the Plan, to the extent of the Plan's rights under this Article VI. Failure to do so will constitute a breach of the Participant's or Covered Spouse's or Covered Spouse's fiduciary duty under the Plan.

(d) Each Covered Person who incurs any Condition will inform the Plan Administrator whenever it appears a Third Party is or may be liable to the Covered Person as a result of that Condition. Each Covered Person will inform any Third Party, attorney, and insurance carrier, as well as any other individual or entity connected with a Condition or involved in the collection of any amount connected with a Condition, of the Plan's right of subrogation.

(e) Failure of the Covered Person to comply in all respects with this Article VI may, in the Plan Administrator's discretion, cause a denial of benefits for a Condition or a termination of coverage for the Covered Person under the Plan.

6.6 Waiver

The Plan Administrator in its sole and absolute discretion may waive or modify any of the provisions of this Article VI whenever it deems appropriate under the facts and circumstances of a particular case.

6.7 Coordination with Component Program Documents

If a Component Program Document contains subrogation provisions, those provisions will control over this Article VI with respect to that Component Program to the extent those provisions are in compliance with the law, including any applicable case law, and are drafted to provide for maximum allowable recovery by the Component Program. However, if the provisions in the Component Program Documents do not address or are ambiguous with respect to a particular issue, and this Article VI would address that issue or ambiguity, then this Article VI will apply and will control to the extent necessary to resolve the issue or ambiguity.

End of Article VI

ARTICLE VII

Claims Procedure

7.1 Claims For Benefits

Claims for benefits or reimbursement under the Plan will be submitted and processed in accordance with this Article VII, unless the Component Program Documents contain different claims procedures, in which case the claims procedures as set forth in the Component Program Documents will apply. However, if the claims procedures contained in the Component Program Documents do not address or are ambiguous with respect to a particular issue, and this Article VII would address that issue or ambiguity, then this Article VII will apply and will control to the extent necessary to resolve the issue or ambiguity. References in this Article VII to the Benefits Administrator, Plan Administrator or Independent Fiduciary includes any delegate thereof.

7.2 Filing Claim

A Claimant must file with the Benefits Administrator a written claim for benefits under the Plan with written proof of loss no later than the date specified in the Component Program Documents (or if no such date is specified, March 31 of the Plan Year following the Plan Year in which the related expense was incurred) on the form provided by, or in any other manner approved by, the Benefits Administrator. For purposes of applying the time periods for benefit determination pursuant to Sections 7.5 or 7.6 below, filing a claim with the Benefits Administrator will be treated as filing a claim with the Plan Administrator. In connection with the submission of a claim, the Claimant may examine the Plan and any other relevant documents relating to the claim, and may submit written comments relating to such claim to the Benefits Administrator coincident with the filing of the benefit claim form. Failure of a Claimant to furnish written proof of loss or to comply with the claim submission procedure will invalidate such claim unless the Benefits Administrator in its discretion determines that it was not reasonably possible to provide such proof or comply with such procedure; provided that, if a Claimant's communication regarding a Pre-Service Claim is received by the Benefits Administrator and names the Claimant, his specific medical condition or symptom, and the specific treatment, service or product for which approval is requested, but otherwise fails to follow the claims submission procedure, the Benefits Administrator will notify the Claimant of the failure and the proper procedures to be followed to file a claim for benefits. Such notification will be provided as soon as possible, but not later than five days (24 hours in the case of an Urgent Care Claim) following the failure and may be oral unless the Claimant requests written notification.

7.3 Processing of Benefit Claim

Upon receipt of fully completed benefit claim forms from a Claimant, the Benefits Administrator will determine if the Claimant's right to the requested benefit, payable at the time or times and in the form requested, is clear and, if so, will process such benefit claim without resort to the Plan Administrator.

If the Benefits Administrator or the Claimant's physician determines that a claim is a Pre-Service Urgent Care Claim other than a Concurrent Care Claim, the Benefits Administrator will affirmatively notify the Claimant of the Plan's coverage decision as soon as possible taking into account his medical condition and not later than 72 hours

after receipt of the benefit claim in the case of an Urgent Care Claim other than a Concurrent Care Claim, unless sufficient information has not been provided for the Benefits Administrator to determine whether and to what extent benefits are covered. In the case of a Concurrent Care Claim involving Urgent Care, the Benefits Administrator will affirmatively notify the Claimant of the Plan's coverage decision within 24 hours, if the claim is submitted at least 24 hours before the scheduled date of treatment. Otherwise, the Concurrent Care Claim involving Urgent Care will be treated the same as a Pre-Service Urgent Care Claim. For all other Pre-Service Claims, the Benefits Administrator will affirmatively notify the Claimant not less than 15 days after receipt of the benefit claim. If the Benefits Administrator determines that the Claimant's right to the requested benefit, payable at the time or times and in the form requested, is not clear, it will refer the benefit claim to the Plan Administrator, for review and determination, which referral will include:

(a) All materials submitted to the Benefits Administrator by the Claimant in connection with the claim;

(b) A written description of why the Benefits Administrator was of the view that the Claimant's right to the benefit, payable at the time or times and in the form requested, was not clear;

(c) A description of all Plan provisions pertaining to the benefit claim;

(d) Where appropriate, a summary as to whether such Plan provisions have in the past been consistently applied with respect to other similarly situated Claimants; and

(e) Such other information as may be helpful or relevant to the Plan Administrator in its consideration of the claim.

If the Claimant's claim is referred to the Plan Administrator, the Claimant may examine any relevant document relating to his claim and may submit written comments or other information to the Plan Administrator to supplement his benefit claim. Within the time period described in Sections 7.5 or 7.6, whichever is applicable to a claim, the Plan Administrator will consider the referral regarding the claim of the Claimant and make a decision as to whether it is to be approved, modified or denied. If the claim is approved, the Plan Administrator will direct the Benefits Administrator to process the approved claim as soon as administratively practicable and within the time periods specified in the first paragraph of this Section 7.3.

7.4 Notification of Adverse Determination

In any case of an Adverse Benefit Determination of a claim for a Plan benefit, the Plan Administrator, will furnish written notice to the affected Claimant within the notification periods described in Sections 7.5 or 7.6, whichever is applicable to such claim below. Any notice that denies a benefit claim of a Claimant in whole or in part will, in a manner calculated to be understood by the Claimant:

(a) Include information sufficient to identify the claim involved including for health claims subject to HCR, the date or dates of service, the health care provider and the claim amount (if applicable);

(b) State the specific reason or reasons for the Adverse Benefit Determination, including the opportunity to request the diagnostic and treatment codes and their meanings;

(c) Provide specific reference to pertinent Plan provisions on which the Adverse Benefit Determination is based;

(d) If an internal rule, guideline, protocol or other similar criterion was relied upon in making the Adverse Benefit Determination, either provide such criterion or state that such criterion was relied upon and that a copy of the criterion will be provided free of charge to the Claimant upon request;

(e) If the Adverse Benefit Determination is based on a medical necessity, experimental treatment or similar exclusion or limit, either explain the scientific or clinical judgment for the determination, applying the terms of the Plan to the Claimant's medical circumstances, or state that such explanation will be provided free of charge to the Claimant upon request;

(f) If applicable, describe any additional material or information necessary for the Claimant to perfect the claim and explain why such material or information is necessary;

(g) Describe the Plan's review procedures and time limits applicable to such procedures, including a statement of the Claimant's right to bring a civil action under section 502(a) of ERISA following an Adverse Benefit Determination on appeal;

(h) Disclose the availability of – and contact information for – any applicable office of health insurance consumer assistance or ombudsman established under HCR to assist individuals with the internal review procedures; and

(i) If an Urgent Care Claim is involved, provide a description of the expedited review process available for Urgent Care Claims (see Section 7.7).

7.5 Timing of Adverse Benefit Determination Notification Regarding Health Claims

The Plan Administrator will provide a Claimant with notice of an Adverse Benefit Determination regarding a health claim (i.e., medical or prescription drug claims) within the following time periods:

(a) In the case of a Pre-Service Urgent Care Claim other than a Concurrent Care Claim, as soon as possible, taking into account the Claimant's medical exigencies, but not later than 72 hours after the claim is received by the Plan Administrator, unless sufficient information has not been received from the Claimant to determine whether and to what extent benefits are covered. If there is not sufficient information for the Plan to decide whether the claim is covered, the Claimant will be notified, either directly or through the Claimant's treating physician, of the information necessary to complete the claim as soon as possible within 24 hours after such claim is received by the Plan Administrator and will be given a reasonable additional amount of time, at least 48 hours to provide the specified information, and notice of the Plan Administrator's benefit determination will be provided to the Claimant within 48 hours after the earlier of

(i) the Plan Administrator's receipt of the specified information or (ii) the end of the period afforded the Claimant to provide the specified information. In addition, such notification may be provided orally (provided that written or electronic notification is provided within three days following such oral notification).

(b) In the case of a properly submitted Urgent Care Claim that is a Concurrent Care Claim, if such claim is made at least 24 hours before the scheduled expiration of treatment, notice of the disposition of the claim will be furnished to the Claimant as soon as possible, taking into account the Claimant's medical exigencies, but not later than 24 hours before the scheduled date of treatment. If such claim is not made at least 24 hours prior to the scheduled expiration of treatment, the claim will be governed by Paragraph (a) above.

(c) In the case of a decision to reduce or terminate a previously approved ongoing course of health benefit treatment that was to be provided over a period of time or a number of treatments, the Plan Administrator will notify the Claimant of the Adverse Benefit Determination at a time sufficiently in advance of the reduction or termination to allow the Claimant to appeal and obtain a determination on review of such Adverse Benefit Determination before the benefit is reduced or terminated.

(d) In the case of a Pre-Service Claim not described in Paragraphs (a) through (c) above, the Plan Administrator will notify the Claimant of the Adverse Benefit Determination within a reasonable period of time appropriate to the medical circumstances but not later than 15 days after receipt of the claim by the Plan (which period may be extended one time for up to an additional 15 days provided that the Plan Administrator both determines that such extension is necessary due to matters beyond the control of the Plan and notifies the Claimant prior to the expiration of the initial 15-day period of the circumstances requiring the extension of time and the date by which the Plan expects to render a decision).

(e) In the case of a Post-Service Claim not described in Paragraphs (a) through (c) above, the Plan Administrator will notify the Claimant of the Adverse Benefit Determination within a reasonable period of time but not later than 30 days after receipt of the claim (which period may be extended one time for up to 15 days provided that the Plan Administrator both determines that such extension is necessary due to matters beyond the control of the Plan and notifies the Claimant before the expiration of the initial 30-day period of the circumstances requiring the extension of time and the date by which the Plan expects to render a decision).

The period of time within which an Adverse Benefit Determination will be made, as described above, will begin at the time a claim is filed in accordance with the reasonable procedures of the Plan, without regard to whether all the information necessary to make a benefit determination accompanies the filing. In the case of claims described in Paragraphs (d) or (e) above, in the event an extension of the period of time for an Adverse Benefit Determination is required because additional information is necessary to decide the claim, (including examination by a physician selected by the Plan Administrator or the performance of an autopsy), the notice of extension will specifically describe the required information, the Claimant will be afforded at least 45 days from receipt of the notice to provide such specified information, and the period for making the

Adverse Benefit Determination will be tolled from the date on which the notification of the extension is sent to the Claimant until the date on which the Claimant responds to the request for additional information.

7.6 Timing of Adverse Benefit Determination Notification Regarding Non-Health and Claims

In any case of an Adverse Benefit Determination of a claim for a Plan benefit that is not a health claim, the Plan Administrator will furnish written notice to the affected Claimant within a reasonable period of time but not later than 90 days after receipt of such claim for Plan benefits (or within 180 days if special circumstances necessitate an extension of the 90-day period and the Claimant is informed of such extension in writing within the 90-day period and is provided with an extension notice consisting of an explanation of the special circumstances requiring the extension of time and the date by which the benefit determination will be made). The period of time within which an Adverse Benefit Determination will be made, as described in this Section 7.6, will begin at the time a claim is filed in accordance with the reasonable procedures of the Plan, without regard to whether all the information necessary to make a benefit determination accompanies the filing.

7.7 Appeal of Adverse Benefit Determination Regarding Health Claims

A Claimant has the right to appeal an Adverse Benefit Determination regarding a health claim as follows:

(a) The Claimant must file a written appeal (or provide oral notice if an Urgent Care Claim is involved) with the Plan Administrator or Independent Fiduciary, as applicable, not later than 180 days following receipt by the Claimant of the Adverse Benefit Determination notification;

(b) The Claimant will have the opportunity to submit written comments, documents, records, and other information relating to the claim for benefits to the Plan Administrator or Independent Fiduciary;

(c) The Claimant will have the right to have all comments, documents, records, and other information relating to the claim for benefits that have been submitted by the Claimant considered on appeal without regard to whether such comments, documents, records or information were considered in the initial benefit determination;

(d) The Claimant will have reasonable access to, and copies of, all documents, records, and other information relevant to the claim for benefits free of charge upon request, including (i) documents, records or other information relied upon for the benefit determination, (ii) documents, records or other information submitted, considered or generated without regard to whether such documents, records or other information were relied upon in making the benefit determination, (iii) documents, records or other information that demonstrates compliance with the claims procedure in making the initial benefit determination, and (iv) documents, records or other information that constitutes a statement of policy or guidance with respect to the Plan concerning the denied treatment option or benefit for the Claimant's diagnosis, without regard to whether such

statement of policy or guidance was relied upon in making the initial benefit determination;

(e) The review of the Adverse Benefit Determination on appeal will not give deference to the original decision;

(f) The review of the Adverse Benefit Determination on appeal will be conducted solely by the Independent Fiduciary;

(g) If the initial benefit determination was based in whole or in part on a medical judgment, including determinations with regard to whether a particular treatment, drug or other item is experimental, investigational or not medically necessary or appropriate, the Independent Fiduciary conducting the review will consult with a Health Care Professional with appropriate training and experience in the applicable field of medicine who was not consulted, and is not the subordinate of someone who was consulted, during the initial benefit determination; and

(h) The Claimant will have the right to have identified to him the medical or vocational experts whose advice was obtained in connection with the Adverse Benefit Determination (without regard to whether the advice was relied upon in making such determination).

The decision on review by the Independent Fiduciary will be binding and conclusive upon all persons, and the Claimant will neither be required nor be permitted to pursue further appeals to the Plan Administrator or Independent Fiduciary. Notwithstanding anything to the contrary in this Section 7.7, an expedited review process is available for Urgent Care Claims. A request for expedited review may be submitted orally or in writing, in which case all necessary information will be transmitted between the Plan Administrator or Independent Fiduciary and the Claimant by telephone, facsimile or other similarly expeditious method.

7.8 Special Rules for Internal Review of a Health Benefits Claims Determination

Effective January 1, 2011, a Claimant has additional rights with respect to a request for review of a claim denial involving health benefits, except to the extent provided otherwise in the Component Program Documents.

(a) The Claimant has the right to review his claim file and to present evidence and testimony regarding the claim;

(b) The Plan must provide the Claimant, free of charge, with any new or additional evidence that it considered or generated in connection with the claim as soon as possible so that the Claimant has an opportunity to respond before the date the decision is required on the Claimant's appeal. Similarly, the Plan cannot deny and appeal based on a new or additional rationale until the Claimant has been provided with the rationale, free of charge. This must be done as soon as possible to give the Claimant an opportunity to respond before the date the decision is required on his appeal;

(c) The Plan must continue to provide coverage until the Claimant's appeal has been decided;

(d) The Plan must notify the Claimant of the right to request the diagnostic and treatment codes (and their meanings) in all notices of Adverse Benefit Determination (and notices of final internal Adverse Benefit Determinations) and such information, if requested by the Claimant, will be provided on request. The Plan will not consider a request for diagnosis or treatment codes, in itself, to be a request for an internal appeal;

(e) If a Claimant's appeal involves an Urgent Care Claim, an expedited appeal may be initiated by telephone. A Claimant may appeal a denial involving an Urgent Care Claim either orally or in writing. All necessary information, including the appeal decision, will be communicated between the Claimant and the Plan by telephone, facsimile, or other similar method. In certain circumstances, a Claimant may be eligible to seek an expedited outside review of a claim involving an Urgent Care Claim, under the outside review procedures described in Section 7.17, except to the extent provided otherwise in the Component Program Documents; and

(f) No decisions regarding hiring, compensation, termination, promotion or other similar matters with respect to the Independent Fiduciary reviewing the claim will be based on the likelihood such Independent Fiduciary will support a denial of benefits.

7.9 Internal Review of Adverse Benefit Determination Regarding Non-Health Claims

A Claimant has the right to have an Adverse Benefit Determination regarding a claim that is not a health claim reviewed in accordance with the following claims review procedure:

(a) The Claimant must submit a written request for such review to the Plan Administrator not later than 60 days following receipt by the Claimant of the Adverse Benefit Determination notification;

(b) The Claimant will have the opportunity to submit written comments, documents, records, and other information relating to the claim for benefits to the Plan Administrator;

(c) The Claimant will have the right to have all comments, documents, records, and other information relating to the claim for benefits that have been submitted by the Claimant considered on review without regard to whether such comments, documents, records, or information was considered in the initial benefit determination; and

(d) The Claimant will have reasonable access to, and copies of, all documents, records, and other information relevant to the claim for benefits free of charge upon request, including (i) documents, records, or other information relied upon for the benefit determination, (ii) documents, records, or other information submitted, considered, or generated without regard to whether such documents, records or other information were relied upon in making the benefit determination, and (iii) documents, records, or other information that demonstrates compliance with the standard claims procedure.

The decision on review by the Plan Administrator will be binding and conclusive upon all persons, and the Claimant will neither be required nor be permitted to pursue further appeals to the Plan Administrator.

7.10 Notification of Benefit Determination on Internal Review

Notice of the final benefit determination regarding an Adverse Benefit Determination will be furnished in writing or electronically to the Claimant after a full and fair review. Notice of an Adverse Benefit Determination upon review will be provided at the time described in Sections 7.11 and 7.12 below, whichever is applicable with respect to a claim, and will:

(a) Include information identifying the claim, including in the case of a health claim subject to HCR, the date or dates of service, the health care provider and the claim amount, if applicable

(b) State the specific reason or reasons for the Adverse Benefit Determination, including the opportunity to request the diagnostic and treatment codes and their meanings;

(c) Provide specific reference to pertinent Plan provisions on which the Adverse Benefit Determination is based;

(d) State that the Claimant is entitled to receive, upon request and free of charge, reasonable access to and copies of all documents, records, and other information relevant to the Claimant's claim for benefits including (i) documents, records or other information relied upon for the benefit determination, (ii) documents, records or other information submitted, considered or generated without regard to whether such documents, records or other information were relied upon in making the benefit determination, (iii) documents, records or other information that demonstrates compliance with the standard claims procedure in making the benefit determination on the Claimant's claim, and (iv) in the case of claims regarding health benefits, documents, records or other information that constitutes a statement of policy or guidance with respect to the Plan concerning the denied treatment option or benefit for the Claimant's diagnosis, without regard to whether such statement of policy or guidance was relied upon in making the benefit determination;

(e) If applicable, describe any additional material or information necessary for the Claimant to perfect the claim and explain why such material or information is necessary;

(f) If applicable, include an explanation of the outside review procedures, including information on how to file a request for outside review and explain why such information or material is necessary;

(g) Disclose the availability of -- and contact information for – any applicable office of health insurance consumer assistance or ombudsman established under HCR to assist individuals with the internal and outside review procedures;

(h) Describe the Claimant's right to bring an action under section 502(a) of ERISA or to request an outside review if the Claimant's claim is denied on final appeal;

(i) If an internal rule, guideline, protocol or other similar criterion was relied upon in making the Adverse Benefit Determination, either provide such criterion or state that such criterion was relied upon and that a copy of the criterion will be provided free of charge to the Claimant upon request;

(j) If the Adverse Benefit Determination is based on a medical necessity, experimental treatment or similar exclusion or limit, explain the scientific or clinical judgment for the determination, applying the terms of the Plan to the Claimant's medical circumstances; and

(k) If it is deemed necessary, include the following statement: "You and your plan may have other voluntary alternative dispute resolution options, such as mediation. One way to find out what may be available is to contact your local U.S. Department of Labor Office and your State insurance regulatory agency."

7.11 Timing of Notification Regarding Review of Health Claims

For Urgent Care Claims, such notice will be furnished as soon as possible, taking into account the Claimant's medical exigencies, but not later than 72 hours following a request for review. For other health claims, such notice will be furnished (a) within a reasonable period of time appropriate to the medical circumstances but not later than 30 days following a request for a review of a Pre-Service Claim, and (b) within a reasonable period of time but not later than 60 days following a request for a review of a Post-Service Claim. The period of time within which a benefit determination on review will be made begins at the time an appeal is filed in accordance with the reasonable procedures of the Plan, without regard to whether all the information necessary to make a benefit determination on review accompanies the filing.

7.12 Timing of Notification Regarding Review of Non-Health Claims

The Plan Administrator will notify a Claimant of its determination on review with respect to the Adverse Benefit Determination of the Claimant regarding a claim that is not a health claim within a reasonable period of time but not later than 60 days after the receipt of the Claimant's request for review unless the Plan Administrator determines that special circumstances require an extension of time for processing the review of the Adverse Benefit Determination. If the Plan Administrator determines that such extension of time is required, written notice of the extension (which will indicate the special circumstances requiring the extension and the date by which the Plan Administrator expects to render the determination on review) will be furnished to the Claimant prior to the termination of the initial 60-day review period. In no event will such extension exceed a period of 60 days from the end of the initial 60-day review period. In the event such extension is due to the Claimant's failure to submit necessary information, the period for making the determination on a review will be tolled from the date on which the notification of the extension is sent to the Claimant until the date on which the Claimant responds to the request for additional information

7.13 Exhaustion Required

Completion of the internal claims procedures described in this Article VII will be a condition precedent to commencing any legal or equitable action regarding a claim for benefits under the Plan by a Claimant, or by any other person or entity claiming rights

through such Claimant. However, the Plan Administrator may waive in writing this completion requirement.

7.14 Limitations Period on Actions Against the Plan

A Claimant must bring any legal or equitable action to contest a final decision made with respect to a claim under this Article VIII within two years of the date that the Plan Administrator (or the individual or entity who is responsible for issuing such final claims determination) sends written or electronic notification of such final claims determination to the Claimant, or the Claimant's right to bring such a legal or equitable action will be waived.

7.15 Payment of Benefits

(a) **Time and Form of Payment**. If the Benefits Administrator, Plan Administrator, or Independent Fiduciary determines that a Claimant is entitled to a benefit hereunder, payment of such benefit will be made to such Claimant (or commence, as applicable) as soon as administratively practicable after the date the Benefits Administrator, Plan Administrator, or Independent Fiduciary determines that such Claimant is entitled to such benefit or on such other date as may be established pursuant to the terms of the Component Program Documents and, in the absence of such terms in accordance with the following:

(i) Any benefit assigned to a provider of services or to a former will be paid directly to such provider or former Spouse, or to the Covered Person, whichever the Benefits Administrator, Plan Administrator or Independent Fiduciary chooses;

(ii) Any benefit payable upon the death of a Covered Person will be paid to the estate of the Covered Person or to the designated beneficiary, whichever the Benefits Administrator, Plan Administrator or Independent Fiduciary chooses; and

(iii) Any other benefit payable will be paid to the Covered Person (or in the case of a Covered Dependent, the Participant) subject to Section 11.2 (regarding payments to minors or incompetents).

(b) **Special Rules**. The following additional special rules apply to the payment of benefits:

(i) Benefits under the Plan will be paid in accordance with any assignment of rights made by or on behalf of a Covered Person in the Plan as required by a state plan for medical assistance approved under Title XIX of the Social Security Act pursuant to section 1912(a)(1)(A) of such Act; and

(ii) To the extent a state plan for medical assistance approved under Title XIX of the Social Security Act has paid benefits in any case in which the Plan has a legal liability to pay for the items or services constituting such assistance, payment under the Plan will be made in accordance with any state law giving the state the rights to such payment for a Covered Person.

7.16 Authorized Representatives

An authorized representative may act on behalf of a Claimant in pursuing a benefit claim or an appeal of an Adverse Benefit Determination. An individual or entity will only be determined to be a Claimant's authorized representative for such purposes if the Claimant has provided the Plan Administrator with a written statement identifying such individual or entity as his authorized representative and describing the scope of the authority of such authorized representative; provided that, for an Urgent Care Claim, a Health Care Professional with knowledge of a Claimant's medical condition will be permitted to act as the authorized representative of the Claimant. In the event a Claimant identifies an individual or entity as his authorized representative in writing to the Plan Administrator but fails to describe the scope of the authority of such authorized representative, the Plan Administrator will assume that such authorized representative has full powers to act with respect to all matters pertaining to the Claimant's benefit claim under the Plan or appeal of an Adverse Benefit Determination with respect to such benefit claim.

7.17 HCR Claims Rules

Effective January 1, 2011, the portion of the Plan providing medical and prescription drug benefits subject to HCR as a non-grandfathered plan, as such term is defined by HCR, will comply with the claims applicable to non-grandfathered plans under HCR, and such claim rules that vary from the claim rules described herein will be described in the Component Program Documents.

End of Article VII

ARTICLE VIII

Funding of Plan

8.1 Source of Benefits

Except for benefits provided by an Insurer or an HMO or a trust, benefits under the Plan will be paid from the general assets of the Employer from Participants' contributions as required by the applicable Component Program Documents. HMO and PPO premiums will be paid to the applicable HMO or PPO from the trust, general assets of the Employer and/or from Participants' contributions, within the time required by the applicable Component Program Documents or applicable HMO or PPO contract. Insurance premiums for any benefits which are provided through an Insurer will be paid to the applicable Insurer from the trust, general assets of the Employer and/or from Participants' contributions, within the time required by the applicable Component Program Documents or applicable contract with the Insurer. All premiums will be paid within the time prescribed by Department of Labor regulation section 2510.3-102.

In the event that the Plan is funded by a trust and insurance contract, the insurance contracts will be held outside of the trust and shall not constitute an asset of the trust subject to the annual audit requirement.

8.2 Participant Contributions

(a) **Amount**. Participants' contributions will be determined by the Employer and will be set forth in the Component Program Documents. Upon enrollment of a Participant in, amendment of coverage under, or enrollment of a Spouse or Child in the Plan, the Participant will be advised of any required contributions under the Plan. Further, Participants' contributions may be changed by and in the sole discretion of the Employer, and each Participant will be advised of any change in the amount of contributions as provided in the applicable Component Program Documents or, in the absence of such provision, in writing no later than 31 days prior to the effective date of the change. A COBRA Beneficiary will be required to contribute any additional amount determined in accordance with Section 4.6.

(b) **Payment**. Participants will pay their contributions in the manner and within the time period set forth in the applicable Component Program Documents.

End of Article VIII

ARTICLE IX

Administration of Plan

9.1 Plan Administrator

The Benefits Oversight Committee will be the Plan Administrator. The general administration of the Plan will be vested in the Plan Administrator. For purposes of ERISA, the Plan Administrator will be the "Plan Administrator" and the named "fiduciary" with respect to the general administration of the Plan. The Plan Administrator will designate persons who will be authorized to sign for the Plan Administrator, and upon such designation, the signature of such persons will bind the Plan Administrator.

9.2 Discretion to Interpret Plan

The Plan Administrator will have full and absolute discretion to construe and interpret all provisions of the Plan and the Component Program Documents, including the discretion to resolve ambiguities, inconsistencies, or omissions conclusively; provided, however, that all such discretionary interpretations and decisions will be applied in a uniform and nondiscriminatory manner to all Participants, beneficiaries, and Covered Persons who are similarly situated. All decisions of the Plan Administrator upon all matters within the scope of its authority will be binding and conclusive upon all persons.

9.3 Powers and Duties

In addition to the powers described in Section 9.2 and all other powers specifically granted under the Plan, the Plan Administrator will have all powers necessary or proper to administer the Plan and to discharge its duties under the Plan, and it will have full and absolute discretion in its exercise thereof; provided, however, that the Plan Administrator may appoint the Benefits Administrator to carry out all of such powers and duties. The Plan Administrator's powers and duties will include the following:

(a) To make and enforce any rules, regulations, and procedures it deems necessary or proper for the orderly and efficient administration of the Plan;

(b) To enter into an Administrative Agreement with any individual or entity to perform services relating to one or more Component Programs;

(c) To delegate its duties to any individual or entity;

(d) Unless such authority is delegated to an Administrative Provider pursuant to Sections 9.5 and 9.7 (or to the Benefits Administrator or Insurer), to interpret and decide all matters of fact in granting or denying benefits and claims under the Plan (except for the decision on an appeal of a denial of benefits which pursuant to Article VII is vested in an Independent Fiduciary), its interpretation and decision thereof to be final and conclusive on all persons claiming benefits under the Plan;

(e) To determine eligibility under the terms of the Plan, its determination thereof to be final and conclusive on all persons;

(f) Unless such authority is delegated to an Administrative Provider pursuant to Sections 9.5 or 9.7 (or to the Benefits Administrator or Insurer), to determine the

amount of and authorize the payment of benefits under the Plan, its determination and authorization thereof to be final and conclusive on all persons;

(g) To prepare and distribute information explaining the Plan;

(h) To obtain from the Employer, the Compensation Committee, Eligible Employees, beneficiaries, Spouses any information it deems necessary for the proper administration of the Plan;

(i) To appoint an Administrative Provider as set forth in Section 9.7;

(j) To sue or cause suit to be brought in the name of the Plan;

(k) To determine the manner in which the assets of this Plan, or any part thereof; will be held, invested, and disbursed;

(l) To make applications to legal reserve life insurance companies for policies to meet any of the requirements of the Plan or any Component Program; and

(m) Subject to the provisions of Article VII, to establish a claims procedure, including a procedure for the review of any claims denied by an Administrative Provider.

9.4 Expenses; Records

The Employer will pay the reasonable expenses incident to the administration of the Plan, including the compensation of any legal counsel, accountants, advisors, or other technical or clerical assistance as may be required; and any other expenses incidental to the operation of the Plan that the Plan Administrator determines are proper. Expenses of the Plan may be prorated, as determined by the Plan Administrator, among the Company and Participating Employers. The Plan Administrator will keep appropriate records and will make available to any Participant or beneficiary for examination during business hours any records pertaining to that individual's interest in the Plan.

9.5 Delegation by Plan Administrator

(a) **Delegation.** The Plan Administrator may delegate any of its powers, duties, and responsibilities with respect to the operation and administration of the Plan, including the administration of claims, the authority to authorize payment of benefits, the review of denied or modified claims, and the discretion to decide matters of fact and to interpret Plan provisions. The Plan Administrator also may employ, and authorize any of its delegates to employ, persons to render advice regarding any fiduciary responsibility hereunder. All delegations will be terminable by the Plan Administrator upon such notice as it deems appropriate. Except as may otherwise be specifically provided in the applicable Component Program Document, in the case of any insured Component Program, the applicable Insurer is hereby delegated the powers and duties of the Plan Administrator, including, without limitation, the discretion to interpret the Plan provisions, with respect to such insured Component Program

(b) **Liability and Indemnification.** Upon designation and acceptance of such delegation, employment, or authorization, the Plan Administrator will have no liability for the acts or omissions of any such designee except as may be required by law. However, if the delegate is an individual employee of the Company or a

member of its Board of Directors, the Company will indemnify and hold harmless such individual against all expenses and liabilities arising out of their administrative functions or fiduciary responsibilities hereunder, including any expenses and liabilities caused by or resulting from an act or omission constituting the negligence of such individual in the performance of such functions or responsibilities, but excluding expenses and liabilities arising out of the individual's gross negligence or willful misconduct. Expenses against which the individual will be indemnified include the amounts of any settlement, judgment, costs, counsel fees, and related charges reasonably incurred. Notwithstanding the foregoing provisions of this Paragraph (b), this indemnification will not apply to any expense incurred without the consent or approval of the Company, unless the Company waives the consent or approval in writing. Except as may otherwise be specifically provided in the applicable Component Program Document, in the case of any insured Component Program, the applicable Insurer is hereby delegated the powers and duties of the Plan Administrator, including, without limitation, the discretion to interpret the Plan provisions, with respect to such insured Component Program.

9.6 Reliance on Reports, Certificates, and Participant Information

The Plan Administrator will be entitled to rely conclusively upon all tables, valuations, certificates, opinions, and reports furnished by an actuary, accountant, controller, counsel, insurance company, Administrative Provider, or other person employed or engaged for such purposes. Moreover, the Plan Administrator and the Employer will be entitled to rely upon information furnished to the Plan Administrator or the Employer by a Covered Person, including such person's current mailing address.

9.7 Administrative Provider and Benefits Administrator

The Plan Administrator may appoint a Benefits Administrator and one or more Administrative Providers. Subject to the direction and ultimate discretion of the Plan Administrator, the Administrative Provider will have the duties and powers necessary to process claims and make payments under the Plan, including the following:

(a) To act under the direction and control of the Plan Administrator;

(b) To determine eligibility for participation in the Plan and entitlement to benefits thereunder

(c) To receive, review, verify, and investigate all requests for benefits under the Plan;

(d) In the discretion of the Benefits Administrator and/or Administrative Provider, to decide matters of fact, determine eligibility for benefits, and to determine the amount, manner, and timing of benefit payments under the Plan;

(e) To inform the Plan Administrator as to the amount and timing of payments for benefits and expenses under the Plan;

(f) To prescribe procedures to be followed by Participants in filing requests for benefits under the Plan;

(g) To secure from the Employer, the Plan Administrator, and the Participants, beneficiaries, and Covered Dependents any information necessary for the proper processing and payment of benefits under the Plan;

(h) To furnish the Employer and the Plan Administrator, upon request, with reasonable and appropriate reports with respect to the processing and payment of benefits under the Plan;

(i) To maintain records relating to requests for benefits, processing of benefits, and payment or denial of requests for benefits; and

(j) To do such other acts as may be necessary or requested by the Plan Administrator to handle the processing and payment of benefits under the Plan

provided, however, that in the case of an Administrative Provider, such provider will have only those powers specifically designated by the Plan Administrator and set forth in the applicable Administrative Agreement.

End of Article IX

ARTICLE X

Amendment and Termination of Plan

10.1 Right to Amend

Benefits under the Plan are neither "vested" nor "accrued". Notwithstanding any provision of any other communication, either oral or written, made by the Company, the Employer, the Plan Administrator, the Benefits Administrator, an Administrative Provider, or any other individual or entity, the Company, through an action of the Compensation Committee or the Benefits Oversight Committee, has the absolute and unconditional right to amend the Plan and the Component Program Documents, on behalf of the Company and each Participating Employer, including the right to reduce or eliminate benefits and the right to amend prospectively or retroactively. All Amendments to the Plan must be in writing and executed by an authorized representative of the Company, and any oral statements or representations made by the Company, the Employer, the Plan Administrator, the Benefits Administrator, an Administrative Provider, or any other individual or entity that alter, modify, amend, or are inconsistent with the written terms of the Plan will be invalid and unenforceable and may not be relied upon by any Participant, beneficiary, Spouse, service provider, or other individual or entity.

10.2 Right to Terminate; Automatic Termination

The Employer hopes and expects to continue the Plan. However, notwithstanding any provision of any other communication, either oral or written, made by the Employer, the Plan Administrator, an Administrative Provider, or any other individual or entity to Employees, Retired Employees, Disabled Employees, Participants, any service provider, or any other individual or entity, the Company through an action of the Compensation Committee has the absolute and unconditional right to terminate the Plan and any Component Programs, in whole or in part, on behalf of the Company and each Participating Employer.

10.3 Effect of Amendment or Termination

If the Plan is amended or terminated, each Covered Person and beneficiary will have no further rights hereunder and the Employer will have no further obligations hereunder, except as otherwise specifically provided under the terms of the Plan and the Component Program Documents; provided, however, that no modification, alteration, amendment, suspension, or termination will be made that would diminish any vested accrued benefits arising from incurred but unpaid claims of Covered Persons or beneficiaries existing prior to the effective date of such modification, alteration, amendment, suspension, or termination.

10.4 Merger or Consolidation

If the Employer does not survive any dissolution, merger, consolidation, or reorganization, the Plan will terminate with respect to the Employer and its retirees or former employees unless the Plan is continued by the successor to the Employer and such successor agrees to be bound by the terms and conditions of the Plan.

End of Article X

ARTICLE XI

Miscellaneous Provisions

11.1 No Guarantee of Employment

Nothing herein will alter the presumption of employment at will. Nothing herein will be construed to be a contract between the Employer and an employee, retiree, or former employee, or to be consideration for or an inducement of the employment of any employee by the Employer. Nothing herein will grant any employee the right to be retained in the service of the Employer or limit in any way the right of the Employer to discharge or terminate the service of any employee at any time, without regard to the effect such discharge or termination may have on any rights under the Plan.

11.2 Payments to Minors and Incompetents

If a Covered Person entitled to receive any benefits under the Plan is a minor, is determined by the Plan Administrator to be incompetent, or is adjudged by a court of competent jurisdiction to be legally incapable of giving valid receipt and discharge for benefits provided under the Plan, the Plan Administrator may pay such benefits to the duly-appointed guardian or conservator of such person or to any third party who is authorized (as determined by the Plan Administrator) to receive any benefit under the Plan for the Covered Person. Such payment will fully discharge all liabilities and obligations of the Plan Administrator under the Plan with respect to such benefits.

11.3 No Vested Right to Benefits

No Covered Person nor anyone claiming through such Covered Person will have any right to or interest in any benefits hereunder, except as specifically provided herein.

11.4 Non-alienation of Benefits

Except as provided in Section 11.8 (regarding incorrect information) and Section 11.10 (regarding compromise of claims), or except as the Plan Administrator may otherwise permit by rule or regulation, no interest in or benefit payable under the Plan will be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, or charge, and any attempt by a Covered Person to anticipate, alienate, sell, transfer, assign, pledge, encumber, or charge the same will be void and of no effect; nor will any interest in or benefit payable under the Plan be in any way subject to any legal or equitable process, including garnishment, attachment, levy, seizure, or lien. This provision will be construed to provide each Covered Person, or other person claiming any interest or benefit in the Plan through a Covered Person, with the maximum protection afforded such Covered Person's interest in the Plan (and benefits thereunder) by law against alienation or encumbrance, and against any legal and equitable process, including attachment, garnishment, levy, seizure, or lien.

11.5 Unknown Whereabouts

Each Participant will inform the Plan Administrator or its delegate of his current mailing address and the current mailing address of his Covered Spouse and beneficiaries. If a Participant fails to inform the Plan Administrator of his current mailing address or the current mailing address of each Covered Spouse or beneficiary, neither the Plan Administrator, any Administrative Provider, nor the Employer will be responsible for any

late payment or loss of benefits, nor for failure of any notice to be provided or provided timely under the terms of the Plan to such individual. In addition, any communication, statement or notice addressed to a Participant at the last mailing address provided by such Participant to the Plan Administrator will be binding upon such person for all purposes of the Plan, and the Plan Administrator will not be obligated to search for or ascertain the whereabouts of any such Participant.

11.6 Participating Employers

(a) **Adoption by Affiliates**. Affiliates or subsidiaries of the Company may become Participating Employers pursuant to the provisions of this Section 11.6. By written instrument delivered to the Secretary of the Company, the Plan Administrator, and the designated Participating Employer, the Company may designate any affiliated entity or organization eligible by law to adopt and thereby participate in the Plan as a Participating Employer. The instrument will specify the effective date of adoption and will become a part of the Plan as to the designated Participating Employer and its employees. Upon its provision of any information to the Plan Administrator required by the terms of—or otherwise submitted with respect to—the Plan, each Participating Employer will be conclusively presumed to have consented to such designation and to have adopted the Plan, and to have agreed to be bound by the terms of the Plan and any and all amendments thereto; provided, however, that the terms of the Plan may be modified to increase the obligations of a Participating Employer only with the consent of such Participating Employer, which consent will be conclusively presumed upon the Participating Employer's provision of any information to the Plan Administrator required by the terms of—or otherwise submitted with respect to—the Plan, following notice of the modification.

(b) **Termination of Participation**. By notice from an authorized representative or an appropriate action of its board of directors or non-corporate counterpart, any Participating Employer may terminate its participation in the Plan or a Component Program by giving written notice of intent to withdraw to the Plan Administrator and the Secretary of the Company at least 90 days prior to the proposed date of withdrawal, unless the Plan Administrator and the Company agree to waive all or part of such 90-day notice. Moreover, the Company in its discretion may terminate a Participating Employer's participation in the Plan or a Component Program at any time by giving written notice of such termination to the Participating Employer, the Plan Administrator, and the Secretary of the Company.

(c) **Transfers of Employment**. Transfer of employment among the Company and Participating Employers will not be considered as a termination of employment or retirement for purposes of the Plan.

11.7 Notice and Filing

Any notice, administrative form, or other communication required to be provided to, delivered to, or filed with the Plan Administrator will include provision to, delivery to, or filing with any person or entity designated by the Plan Administrator to be an agent for the disbursement and receipt of administrative forms and communications. Except as otherwise provided herein, where such provision, delivery, or filing is required, it will be

deemed given or made only upon actual receipt of such notice, administrative form, or other communication by the Plan Administrator or designee. Unless otherwise provided by law, any notice or other document sent by the Employer, the Plan Administrator, or an Administrative Provider will be deemed given or made when deposited in the mail, when entrusted to a courier or delivery service, or when sent by telefax or other electronic means. Any notice required hereunder may be waived by the person entitled to notice.

11.8 Incorrect Information, Fraud, Concealment, or Error

(a) **Recovery Due to Errors**. If because of a human or systems error, or because of incorrect information provided by or correct information failed to be provided by fraud, misrepresentation, or concealment of any relevant fact (as determined by the Plan Administrator) by any Covered Person, beneficiary, or other individual, the Plan: enrolls any individual in a Component Program; provides continuation coverage pursuant to Article IV; pays a claim under the Plan; incurs a liability for failure to enroll, provide continuation coverage, or pay a benefit claim, or for terminating enrollment or continuation coverage; or makes any overpayment or erroneous payment, the Plan Administrator will be entitled to recover from such Covered Person, beneficiary, or other individual the benefit paid or the liability incurred, together with all expenses incidental to or necessary for such recovery. This recovery may be by whatever means the Plan Administrator chooses, including by offset against benefits otherwise properly due hereunder.

(b) **No Diminished Right to Benefits.** Human or systems error will not deprive an Eligible Employee or a Spouse of coverage or affect the amount of benefits to which a Covered Person or beneficiary is otherwise entitled under the terms of the Plan.

11.9 Medical Responsibilities

All responsibility for medical decisions concerning any treatment, drug, service, or supply for a Covered Person rests with the Covered Person and such person's treating physician. Neither the Employer, the Plan, the Plan Administrator, nor an Administrative Provider has any responsibility for any such medical decision or for any act or omission of any physician, hospital, pharmacist, nurse, or other provider of medical goods or services; each may rely upon the representations of any physician, hospital, pharmacist, nurse, or other provider of goods or services without any duty to verify independently the truth of such representations. A decision concerning any treatment, drug, service, or supply, or any other decision made by a Covered Person or medical provider, will in no way affect the decision by the Plan Administrator or its delegate whether a benefit is payable under the Plan with respect to such treatment, drug, service, or supply.

11.10 Compromise of Claims

A claim for benefits may be compromised on any terms acceptable to both the Participant and the Plan Administrator.

11.11 Electronic Administration

The Plan may be administered electronically by use of telephonic and/or computer resources. It is specifically contemplated that, where the Plan refers to communications such as designations, writings, notices, elections, and the like, these communications

may occur electronically pursuant to such procedures as the Plan Administrator may establish.

11.12 Reimbursement of Company for Excess Benefit Payment

If, due to error or otherwise, an individual receives a benefit payment under this Plan any portion of which is in excess of the benefit, if any, to which the individual may be entitled under the terms of the Plan or a Component Program Document, such individual will reimburse the Plan or Company for the full amount of the excess benefit payment. Such individual will also hold the Plan and Company harmless for any liability either of them may incur for a failure to withhold federal or state income taxes or payroll taxes from the excess benefit payment. If the individual fails to repay the Company or Plan for the excess benefit payment, the Plan will be entitled to recover such excess benefit payment by reducing the amount of any future benefit payments to which the individual or any member of his family may be entitled under the Plan.

11.13 Required Documentation

Whenever the Plan requires or permits a Participant to give notice to the Plan or to the Company, or to make an election or apply for coverage or payment of benefits or otherwise to communicate with the Plan or the Company or representative of either of said parties ("**Plan Communication**"), the Plan Administrator may impose reasonable requirements regarding the form and timing of any such Plan Communication including, but not limited to, the use of standard forms, and the imposition of requirements that any such Plan Communication be delivered not less than a reasonable period of time prior to the effective date of any such Plan Communication, and may require the Participant to provide substantiation of information related to Plan participation. Such forms and other requirements, including requirements regarding substantiation of information, may be changed from time to time by the Plan Administrator or authorized personnel in the Human Resources Department of the Company and such personnel similarly may approve forms or requirements imposed by third parties engaged to provide services to the Plan.

11.14 No Reliance

Benefits under the Plan are payable only to the extent provided by the Plan document and such other documents as are contemplated by this instrument to be a part of this Plan. No Retired Employee, Disabled Employee, Covered Spouse, Participant, or assignee will be entitled to rely on any verification of coverage or description of coverage given or alleged to have been given to such person which is inconsistent with the terms of the Plan.

11.15 Execution of Receipts and Releases

Any payment to or on behalf of any Participant or to his dependent, beneficiary or legal representative ("**payee**"), in accordance with the provisions of the Plan, will to the extent thereof be in full satisfaction of all claims hereunder against the Plan, the Plan Administrator, and the Company. The Plan Administrator may require such payee, as a condition precedent to such payment, to execute a receipt and release therefor in such form as the Plan Administrator will determine.

11.16 No Conversion Privilege

Except as provided in an insurance policy which serves as a Component Program Document, Participants will have no right or ability to convert coverage provided under the Plan to an individual policy upon terminating participation in the Plan.

11.17 Entire Plan

This document (together with any other documents incorporated by reference herein) constitutes the entire Plan and there are no oral terms or conditions to the contrary. Any change, modification, or amendment to the Plan must comply with the requirements of Article X of the Plan.

End of Article XI

Appendix A

EL PASO ELECTRIC COMPANY
RETIREE WELFARE BENEFITS PLAN

COMPONENT PROGRAM DOCUMENTS

Execution

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

Between

EL PASO ELECTRIC COMPANY

and

STATE STREET BANK AND TRUST COMPANY

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

This Agreement (the "Trust Agreement" or "Agreement") made as of September 29, 2023, by and between EL PASO ELECTRIC COMPANY, a corporation organized under the laws of the State of Texas (the "Client") and STATE STREET BANK AND TRUST COMPANY, a trust company organized under the laws of the Commonwealth of Massachusetts (the "Trustee").

WITNESSETH:

WHEREAS, the Client maintains the Retirement Income Plan for Employees of El Paso Electric Company (the "Plan") for the exclusive benefit of certain of its employees;

WHEREAS, the Client has by a Trust Agreement dated June 1, 2002, as amended, with Wells Fargo Bank Minnesota (subsequently acquired by Principal Trust Company) established a single trust to serve as the funding vehicle for the Plans (the "Trust");

WHEREAS, the authority to conduct the general operation and administration of the Plan is vested in the Client, acting through its Benefits Oversight Committee, the "Administrator" of the Plan, who has the authority and is subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement;

WHEREAS, the Client may appoint another Administrative Committee and delegate to such Committee such of its authorities and duties as it may determine;

WHEREAS, the Client, acting through its Benefits Oversight Committee, has appointed State Street Bank and Trust Company as successor trustee to Principal Trust Company (the "Prior Trustee"), effective August 10, 2023.

NOW, THEREFORE, the Client and the Trustee do hereby adopt this Trust Agreement as the funding vehicle for the Plan, upon the terms and conditions hereinafter set forth:

1. DEFINITIONS AND INTERPRETATION.

Defined terms and the general rules of interpretation agreed to by the Parties are set forth in Schedule 1.

2. TRUST FUND.

2.1 Trust Name. This Trust shall be known as the Retirement Income Trust for Employees of El Paso Electric Company.

2.2 Receipt of Assets. The Trustee shall receive and accept for the purposes hereof (a) those assets held in Trust by the Prior Trustee and (b) all sums of money and other Property paid to it by or at the direction of the Client, and shall hold, invest, reinvest, manage, administer and distribute such monies and other Property and the increments, proceeds, earnings and income thereof pursuant to the terms of this Trust Agreement and for the exclusive benefit of participants in the Plan and their beneficiaries. The Trustee need not inquire into the source of any money or Property transferred to it nor into the authority or right of the transferor of such money or Property to transfer such money or Property to the Trustee. Additional terms and conditions with respect to the custody of the assets held by the Trustee are set forth in Appendix A hereto.

2.3 The Plan. The Client shall be responsible for verifying that while any assets of the Plan are held in the Trust Fund, the Plan (i) is "qualified" within the meaning of Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code"); (ii) is permitted by existing or future rulings of the United States Treasury Department to pool its funds in a group trust; (iii) permits its assets to be commingled for

investment purposes with the assets of other such plans by investing such assets in this Trust Fund whether or not its assets will in fact be held in a separate Investment Fund; and (iv) that the terms of the Plan are consistent with the terms of this Trust Agreement.

2.4 Plan Amendments. This Trust incorporates and forms a part of the Plan for which funds are held hereunder. The Client warrants that promptly upon the adoption of any amendment to the Plan it will furnish the Trustee with a copy of the amendment and with an appropriate certificate evidencing its due adoption. The Client further agrees that no amendment of the Plan shall have the effect of changing the rights, duties, and liabilities of the Trustee without its written consent. The Trustee may rely on the latest Plan documents furnished it as above provided without further inquiry or verification. In the event of any conflict between the Plan and this Trust Agreement as to the duties of the Trustee, this Trust Agreement shall govern and control.

2.5 No Trustee Duty Regarding Contributions. The Trustee shall not be under any duty to require payment of any contributions to the Trust Fund, or to see that any payment made to it is computed in accordance with the provisions of the Plan, or otherwise be responsible for the adequacy of the Trust Fund to meet and discharge any liabilities under the Plan. The named fiduciary responsible for ensuring timely payment of contributions to the Trust Fund is the Client.

3. DISBURSEMENTS FROM THE TRUST FUND.

The Trustee shall from time to time on receipt of a Proper Instruction from the Administrator make payments out of the Trust Fund to such persons, including the Client, in such manner, in such amounts and for such purposes as may be specified in the directions of the Administrator.

The Administrator shall be responsible for ensuring that any payment directed under this Section conforms to the provisions of the Plan, this Trust Agreement, and the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Code. Each Proper Instruction of the Administrator shall be in writing and shall be deemed to include a certification that any payment or other distribution directed thereby is one which the Administrator is authorized to direct, and the Trustee may conclusively rely on such deemed certification without further investigation. The Trustee shall not incur any liability or other damage on account of any payments or other distributions made by it pursuant to a Proper Instruction of the Administrator.

If any contribution or portion thereof is made by the Client by a mistake of fact, the Trustee shall, upon written request of the Client, return such contribution or portion thereof to the Client within one (1) year following the payment of the contribution to the Trustee. However, earnings attributable to such contribution or portion thereof shall not be returned to the Client but shall remain in the Trust Fund and the amount returned to the Client shall be reduced by any losses attributable to such contribution or portion thereof.

Contributions by the Client are conditioned upon the deductibility of each contribution under Code Section 404. To the extent the deduction is disallowed, the Trustee shall, upon written request from the Client , return such contribution (to the extent disallowed) to the Client within one (1) year after such disallowance. However, earnings attributable to such contribution (or disallowed portion thereof) shall not be returned to the Client but shall remain in the Trust Fund, and the amount returned to the Client shall be reduced by any losses attributable to such contribution (or disallowed portion thereof). Return of non-deductible contributions shall be made in accordance with the requirements of Revenue, Procedure 90--49 or any other applicable regulations or procedures.

4. ADMINISTRATOR SELECTED INVESTMENT FUNDS.

4.1 In General. The Administrator, from time to time and in accordance with provisions of the Plan, may direct the Trustee to establish one or more Investment Funds, which may be invested in (i) shares of investment companies registered under the Investment Company Act of 1940, (ii) collective funds maintained by a bank or trust company, (iii) various classes of common stock of the Client, (iv) pools of

insurance contracts, (v) funds managed by a registered investment manager, bank or insurance company, (vi) accounts managed by Investment Managers; and (vii) other investment funds or vehicles with the consent of the Trustee. The Trustee shall have no liability for any loss of any kind which may result by reason of the manner of division of the Trust Fund into Investment Funds, or for the investment management of these accounts, except as provided for in Section 4.4 respecting a Trustee managed investment account, if any. The Trustee shall transfer to each such Investment Fund such portion of the assets of the Trust Fund as the Administrator directs via Proper Instructions. The Trustee shall not incur any liability on account of following any Proper Instruction of the Administrator and the Trustee shall be under no duty to review the investment guidelines, objectives and restrictions so established. To the extent that Proper Instructions from the Administrator to the Trustee represent investment instructions of the Plan's participants, the Trustee shall have no responsibility for such investment elections and shall incur no liability on account of the direct and necessary results of investing the assets of the Trust Fund in accordance with such participant investment instructions.

All interest, dividends and other income received with respect to, and any proceeds received from the sale or other disposition of, Property held in an Investment Fund shall be credited to and reinvested in such Investment Fund. All expenses of the Trust Fund which are allocable to a particular Investment Fund shall be so allocated and charged. The Administrator, or when so authorized, the Investment Manager, may direct the Trustee to eliminate an Investment Fund, and the Trustee shall thereupon dispose of the assets of such Investment Fund and reinvest the proceeds thereof in accordance with the directions of the Administrator or Investment Manager, when so authorized.

If, and to the extent specifically authorized by the Plan, the Administrator may direct the Trustee to establish one or more Investment Funds all of the assets of which shall be invested in securities which constitute "qualifying employer securities" or "qualifying employer real property" within the meaning of Section 407 of ERISA, it shall be the duty of the Administrator to determine that such investment is not prohibited by Sections 406 or 407 of ERISA.

4.2 Investment Manager Accounts. The Administrator, from time to time and in accordance with the provisions of the Plan, may appoint one or more Investment Managers with investment discretion over an Investment Account.

The Administrator shall be responsible for ascertaining that, while each Investment Manager is acting in that capacity hereunder, the following requirements are satisfied:

(a) The Investment Manager is either (i) registered as an investment adviser under the Investment Advisers Act of 1940; (ii) is not registered as an investment adviser under such Act by reason of paragraph (1) of Section 203A(a) of such Act, is registered as an investment adviser under the laws of the State (referred to in such paragraph (1)) in which it maintains its principal office and place of business, and, at the time the fiduciary last filed the registration form most recently filed by the fiduciary with such State in order to maintain the fiduciary's registration under the laws of such State, also filed a copy of such form with the Secretary of Labor, (iii) a bank as defined in that Act or (iv) an insurance company qualified to perform the services described in (b) below under the laws of more than one state;

(b) The Investment Manager has the power to manage, acquire or dispose of any assets of the Plan for which it is responsible hereunder;

(c) The Investment Manager has acknowledged in writing to the Administrator that it is a fiduciary with respect to the Plan within the meaning of Section 3(21)(A) of ERISA;

(d) The Plan provides for the appointment of the Investment Manager in accordance with Section 402(c)(3) of ERISA, and the Investment Manager is appointed as so provided;

(e) Any Investment Manager with authority to invest in assets which will be held outside the

jurisdiction of the district courts of the United States is an entity described in ERISA regulations at 29 C.F.R. § 2550.404b-1(a)(2)(i).

The Administrator shall furnish the Trustee with written notice of the appointment of each Investment Manager hereunder, and of the termination of any such appointment. Such notice shall specify the assets which shall constitute the Investment Account of such Investment Manager. The Trustee shall be fully protected in relying upon the effectiveness of such appointment and the Investment Manager's continuing satisfaction of the requirements set forth above until it receives written notice from the Administrator to the contrary.

The Trustee shall conclusively presume that each Investment Manager, under its investment management agreement, is entitled to act, in directing the investment and reinvestment of the Investment Account for which it is responsible, in its sole and independent discretion and without limitation.

The Trustee shall have no liability (i) for the acts or omissions of any Investment Manager; (ii) for following Proper Instructions of an Investment Manager, the Administrator, or the Committee, which are given in accordance with this Trust Agreement; (iii) for failing to act in the absence of Investment Manager direction; or (iv) for any loss of any kind which may result by reason of the manner of division of the Trust Fund or Investment Fund into Investment Accounts.

Except for publicly traded qualifying employer securities, an Investment Manager shall certify, at the request of the Trustee, the value of any Property held in any Investment Account managed by such Investment Manager, and such certification shall be regarded as a direction with regard to such valuation. The Trustee shall be entitled to conclusively rely upon such valuation for all purposes under this Trust Agreement.

4.3 Client Managed Investment Accounts. The Trustee shall, if so directed in writing by the Administrator, segregate all or a portion of the Trust Fund held by it into one or more separate investment accounts over which the Administrator may exercise investment discretion ("Client Managed Investment Accounts"). The Administrator, by written notice to the Trustee, may at any time relinquish its powers under this Section 4.3 and direct that a Client Managed Investment Account shall no longer be maintained. In addition, during any time when there is no Investment Manager with respect to an Investment Account (such as before an investment management agreement takes effect or after it terminates), the Administrator shall direct the investment and reinvestment of such Investment Account. Whenever the Administrator is directing the investment and reinvestment of an Investment Account or a Client Managed Investment Account, the Administrator shall have the powers and duties which an Investment Manager would have under this Trust Agreement if an Investment Manager were then serving and the Trustee shall be protected in relying on the Administrator's directions without reviewing investments or making suggestions to the same extent as it would be protected under this Trust Agreement if it had relied on the directions of an Investment Manager.

4.4 Trustee Managed Investment Accounts. The Trustee shall have no investment discretion and no duty or responsibility to direct the investment and reinvestment of the Trust Fund, any Investment Fund or any Investment Account unless expressly agreed to in writing between the Trustee and the Administrator. In the event that the Trustee enters into such an agreement, it shall have the powers and duties of an Investment Manager under this Trust Agreement with regard to such Investment Account.

5. POWERS OF THE TRUSTEE.

5.1 Directed Investment Powers of the Trustee. The Trustee shall have and exercise the following powers and authority: (i) over Investment Accounts where it has express investment management discretion as provided in Section 4.4; (ii) upon direction of the Investment Manager of an Investment Account; or (iii) upon direction of the Administrator: (y) for a Client Managed Investment Account; and (z) for voting and tendering of qualified employer securities, in each case subject to receipt of Proper Instructions where applicable, the Custody Addendum set forth on Appendix A and any further restrictions noted below:

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

(a) To purchase, receive, or subscribe for any Property and to retain in trust such Property.

(b) To acquire and hold qualifying employer securities and qualifying employer real property, as such investments are defined in Section 407(d) of ERISA.

(c) To sell for cash or on credit, to grant options, convert, redeem, exchange for other Property, to enter into standby agreements for future investment, either with or without a standby fee, or otherwise to dispose of any Property at any time held by it.

(d) To settle, compromise or submit to arbitration any claims, debts, or damages, due or owing to or from the trust, to commence or defend suits or legal proceedings and to represent the trust in all suits or legal proceedings in any court of law or before any other body or tribunal.

(e) To trade in financial options and futures, including index options and options on futures and to execute in connection therewith such account agreements and other agreements in such form and upon such terms as the Investment Manager or the Administrator shall direct.

(f) To exercise all voting rights, tender or exchange rights, any conversion privileges, subscription rights and other rights and powers available in connection with any Property at any time held by it; to oppose or to consent to the reorganization, consolidation, merger, or readjustment of the finances of any corporation, company or association, or to the sale, mortgage, pledge or lease of the property of any corporation, company or association any of the Securities which may at any time be held by it and to do any act with reference thereto, including the exercise of options, the making of agreements or subscriptions and the payment of expenses, assessments or subscriptions, which may be deemed necessary or advisable by the Investment Manager or Administrator in connection therewith, and to hold and retain any Property which it may so acquire; and to deposit any property with any protective, reorganization or similar committee, and to pay and agree to pay part of the expenses and compensation of any such committee and any assessments levied with respect to property so deposited.

(g) To exercise all voting or tender offer rights with respect to all qualifying employer securities held by it. The Administrator shall inform the Trustee of the voting and tender offer provisions of the Plan. The Administrator shall furnish the Trustee with all information and assistance which the Trustee may reasonably request.

(h) To borrow money in such amounts and upon such terms and conditions as shall be deemed advisable or proper by the Administrator or Investment Manager to carry out the purposes of the trust and to pledge any Property for the repayment of any such loan.

(i) To invest all or a portion of the Trust Fund in contracts issued by insurance companies, including contracts under which the insurance company holds Plan assets in a separate account or commingled separate account managed by the insurance company. The Trustee shall not be responsible for the terms of any insurance contract that it is directed to purchase and hold or for the selection of the issuer thereof or for performing any functions under such contract (other than the execution of any documents incidental thereto) as directed.

(j) To manage, administer, operate, lease for any number of years, develop, improve, repair, alter, demolish, mortgage, pledge, grant options with respect to, or otherwise deal with any real property or interest therein at any time held by it, and to hold any such real property in its own name or in the name of a nominee, with or without the addition of words indicating that such property is held in a fiduciary capacity, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(k) To renew, extend or participate in the renewal or extension of any mortgage, upon such terms as may be deemed advisable by the Investment Manager or Administrator, and to agree to a reduction in the rate of interest on any mortgage or of any guarantee pertaining thereto in any manner and to any extent that may be deemed advisable by the Investment Manager or Administrator for the protection of the Trust Fund or the preservation of the value of the investment; to waive any default, whether in the performance of any covenant or condition of any mortgage or in the performance of any guarantee, or to enforce any such default in such manner and to such extent as may be deemed advisable by the Investment Manager or Administrator; to exercise and enforce any and all rights of foreclosure, to bid on property on foreclosure, to take a deed in lieu of foreclosure with or without paying consideration therefor, and in connection therewith to release the obligation on the bond secured by such mortgage, and to exercise and enforce in any action, suit or proceeding at law or in equity any rights or remedies in respect to any such mortgage or guarantee.

(l) To hold part or all of the Trust Fund uninvested.

(m) To purchase and sell foreign currencies and enter into contracts for foreign exchange, including transactions entered into with State Street Bank and Trust Company, its agents or subcustodians.

(n) To form corporations and to create trusts to hold title to any Property, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(o) To register any Securities held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such Securities are held in a fiduciary capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(p) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases, or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(q) To deposit Cash at any bank, including State Street Bank and Trust Company (i) in any type of interest bearing investments (including, but not limited to savings accounts, money market accounts, certificates of deposit and repurchase agreements) and (ii) in noninterest bearing accounts (including but not limited to checking accounts).

(r) To invest in collective investment funds maintained by State Street Bank and Trust Company or by other banks for the investment of the assets of employee benefit plans qualified under Section 401(a) of the Code, whereupon the instruments establishing such funds, as amended, shall be deemed a part of this Trust Agreement and incorporated by reference herein.

(s) To invest in open-end and closed-end investment companies, regardless of the purposes for which such fund or funds were created, including those managed, serviced, or advised by the Trustee or an Affiliate of the Trustee, and in any partnership, limited or unlimited, joint venture and other forms of joint enterprise created for any lawful purpose.

Except as otherwise provided in this Trust Agreement, the Investment Manager of an Investment Account or the Administrator in the case of a Client Managed Investment Account shall have the power and authority, to be exercised in its sole discretion at any time and from time to time, to issue orders for the purchase or sale of Securities directly to a broker. Written notification of the issuance of each such order shall be given promptly to the Trustee by the Investment Manager or the Administrator and the confirmation of each such order shall be confirmed to the Trustee by the broker. Unless otherwise directed by the

Administrator or Investment Manager through a Proper Instruction, such notification shall be authority for the Trustee to pay for Securities purchased or to deliver Securities sold as the case may be. Upon the direction of the Investment Manager or the Administrator through a Proper Instruction, the Trustee will execute and deliver appropriate trading authorizations, but no such authorization shall be deemed to increase the liability or responsibility of the Trustee under this Trust Agreement.

The Trustee shall process Corporate Actions and class actions in the manner described in the Custody Addendum set forth in Appendix A.

If the Trustee is directed by the Administrator or an Investment Manager through a Proper Instruction to purchase Securities issued by any foreign government or agency thereof, or by any corporation or other entity domiciled outside of the United States, it shall be the responsibility of the Administrator or Investment Manager, as the case may be, to advise the Trustee in writing with respect to any Laws or regulations of any foreign countries or any United States territory or possession which shall apply in any manner whatsoever to such Securities, including, without limitation, receipt by the Trustee of dividends, interest or other distributions on such Securities.

The Administrator reserves the power and authority, to be exercised in its sole discretion at any time and from time to time, to execute and deliver documents on behalf of the Trust to effect investment transactions (the "Execution Documents") in the case of a Client Managed Investment Account, and to authorize its duly appointed Investment Manager to execute Execution Documents in the case of an Investment Account. Copies of the Execution Documents will be provided to the Trustee by the Administrator or Investment Manager, as soon as practicable after execution, and the Administrator or Investment Manager shall maintain copies of the same in its own records. Subject to Section 1.4 of Appendix A, the Administrator hereby directs the Trustee to accept into the Trust all assets that are invested in by the Trust, pursuant to the execution of Execution Documents by the Administrator or the Investment Manager.

5.2 Administrative Powers of the Trustee. Notwithstanding the appointment of an Investment Manager, the Trustee shall have the following powers and authority, to be exercised in its sole discretion, with respect to the Trust Fund:

(a) To employ suitable agents, custodians and counsel and to pay their reasonable expenses and compensation.

(b) To appoint ancillary trustees to hold any portion of the assets of the trust and to pay their reasonable expenses and compensation.

(c) To register any Securities held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such Securities are held in a fiduciary capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(d) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(e) Generally to do all ministerial acts, whether or not expressly authorized, which the Trustee may deem necessary or desirable in carrying out its duties under this Trust Agreement.

Notwithstanding anything in the Plan or this Trust Agreement to the contrary, the Trustee shall not be required by the Client, the Administrator or any Investment Manager to engage in any action, nor make any investment which constitutes a prohibited transaction or is otherwise contrary to the provisions of ERISA or which is otherwise contrary to Law or to the terms of the Plan or this Trust Agreement.

5.3 Record Retention. The Trustee shall retain its records and accountings relating to the Trust

as long as necessary for the proper administration thereof and at least for any period required by ERISA or other applicable law.

6. STANDARD OF CARE.

6.1 Standard of Care. The Trustee acknowledges that, in its capacity as a directed trustee, limited fiduciary status and duties apply to its performance of certain obligations pursuant to Section 403(a)(1) of ERISA when acting upon Proper Instructions. The Trustee agrees that, to the extent it performs duties under this Trust Agreement as a fiduciary under Section 3(21) of ERISA, it will perform its duties under this Trust Agreement with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Where the Trustee does not act as a fiduciary under Section 3(21) of ERISA, the Trustee will (a) in the performance of its duties set forth in Appendix A, exercise the reasonable skill, care and diligence expected of a professional provider of custody services to institutional investors and act in good faith and in accordance with generally applicable industry standards and practices, or (b) for all other purposes, exercise reasonable care.

6.2 Liability for Losses. Subject to the limitations and exclusions of liability in this Trust Agreement, the Trustee will be liable for Losses suffered or incurred by the Client to the extent such Losses are caused by the negligence, willful default, or fraud of the Trustee in the performance of its obligations under this Agreement. The parties agree that "negligence" will mean a breach by the Trustee of its obligation to exercise the standard of care described in Section 6.1 above.

6.3 Responsibility for Delegates. The Trustee will be liable to the Client for the acts and omissions of its Delegates as if it had committed such acts and omissions itself.

6.4 Force Majeure. Neither Party will be in breach of this Trust Agreement or liable for Losses arising by reason of the occurrence of a Force Majeure Event that prevents, hinders or delays it from or in performing its obligations under this Agreement, except, in the case of the Trustee, to the extent that such Losses are attributable to its breach of its business continuity obligations under this Trust Agreement.

6.5 No Liability for Certain Losses. Except as may be required by ERISA, the Trustee will not be liable to the Plan for any Losses to the extent they arise from or are caused by:

6.5.1 the Trustee acting upon any (i) Proper Instruction or (ii) if a Proper Instruction is not required in a particular circumstance, any other direction, instruction, information, notice, request, consent, certificate, instrument or other writing that the Trustee reasonably believes, subject to Section 8.5, below, to be genuine and to be signed or otherwise given by or on behalf of a person authorized to do so;

6.5.2 a delay in processing or any failure to process any Proper Instruction to the extent permitted under Section 8, subject to the satisfaction of the conditions set out in that Section, as applicable;

6.5.3 the failure of the Client or any Authorized Person to comply with the Client's obligations under this Agreement; or

6.5.4 any other acts and omissions of the Client, Investment Manager, any Authorized Person, or any third party, including any Third Party Agent, Market Participant, Authorized Data Source, CSD, or Financial Market Utility.

6.6 Mutual Exclusion of Indirect and Other Loss. Notwithstanding any other provision of this Trust Agreement, neither Party will be liable to the other for: (i) indirect, consequential, speculative, punitive or special Loss or (ii) loss of profit, revenue, opportunity, business, anticipated savings, goodwill and damage to reputation, or Loss of any similar kind; in each case whether or not a Party has been advised of

or otherwise could have anticipated the possibility of such losses, except to the extent any such losses cannot be excluded or limited as a matter of Law applicable to either Party.

7. INDEMNITY.

7.1 Indemnity by Client. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Trust Agreement, including Section 6.6, the Plan (to the extent permitted by ERISA), and the Client (to the extent the Plan is not permitted to indemnify under ERISA) will indemnify the Trustee against any direct Losses incurred by the Trustee (including Losses incurred by Subcustodians or Delegates for which the Trustee is liable) in connection with the performance of its duties under this Trust Agreement, including acting on Proper Instructions and Losses incurred by virtue of being the holder of record of the Plan's assets, except, in each case, to the extent such Losses result from the Trustee's negligence, wilful default or fraud (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.2 Indemnity by Trustee. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Agreement, including Section 6.5 and 6.6, the Trustee will indemnify the Client and the Plan against any direct Losses incurred by the Client and the Plan, in each case, to the extent such Losses result from the negligence, wilful default or fraud of the Trustee (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.3 Duty to Mitigate. Each Party will use reasonable efforts to mitigate any Losses in respect of which it claims indemnification under this Trust Agreement.

7.4 Notice of Claims. A Party seeking indemnification under this Section ("Indemnified Party") against a third-party claim ("Indemnified Claim") will promptly provide written notice of such claim to the Party obligated to indemnify ("Indemnifying Party"). The failure to notify the Indemnifying Party will not relieve such Party of any liability under this Section, except to the extent that such failure materially prejudices the investigation and/or defense of the Indemnified Claim.

7.5 Right to Control Third Party Claims. The Indemnifying Party will, at its own expense, be entitled but not obligated to control and direct the investigation and defense of any Indemnified Claim, except where the Trustee is the Indemnified Party and is seeking indemnification from multiple customers for claims based on common facts or otherwise related to the Indemnified Claim, in which case the Trustee will have the right to control and direct the investigation and defense of such claim, at the expense of (i) the Indemnifying Party or (ii) all of the customers from which indemnification is sought, including the Indemnifying Party, pro rata, as appropriate. Where the Indemnifying Party controls and directs the investigation of the defence of the Indemnified Claim, the Indemnified Party may retain separate counsel at its own expense. If a conflict of interest exists between the Parties with respect to the defense of such claim, the reasonable cost of separate counsel will be an indemnified expense.

7.6 Settlement of Claims. Neither Party may settle an Indemnified Claim without the consent of the other Party, which consent will not be unreasonably withheld, conditioned or delayed, provided that the Indemnifying Party will have the right to settle an Indemnified Claim without the consent of the Indemnified Party if such settlement:

7.6.1 involves only the payment of money;

7.6.2 fully and unconditionally releases the Indemnified Party from any liability in exchange for the amount paid in settlement; and

7.6.3 does not include any admission of fault or liability in relation to the Indemnified Party.

7.7 Cooperation. In all cases, each Party will, as applicable, provide reasonable cooperation and assistance to the other Party and keep the other Party apprised as to the status of the Indemnified Claim, including any discussions relating to the settlement of the claim and the details of any settlement offer.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

8. PROPER INSTRUCTIONS AND AUTHENTICATION PRODEDURES.

8.1 Dealings in Cash and Securities. The Trustee will conduct all transactions and dealings in Cash and Securities under this Trust Agreement in accordance with Proper Instructions, subject to any other rights it may have under this Trust Agreement.

8.2 Appointment of Authorized Persons. The Client and any Investment Manager will provide the Trustee with a list of the names and (if applicable) signatures, of Authorized Persons in a form agreed by the Parties from time to time. The Trustee may rely upon the authority of each Authorized Person until it receives written notice to the contrary from the Client and has had a reasonable time to act on such notice.

8.3 Authentication Procedures. The Trustee will implement Authentication Procedures with the Client and with any Investment Manager appointed by the Client. The Client acknowledges that the Authentication Procedures are intended to provide a commercially reasonable degree of protection against unauthorized transactions of certain types and are not designed to detect errors. Any purported Proper Instruction received by the Trustee in accordance with an Authentication Procedure will be taken to have originated from an Authorized Person and will constitute a Proper Instruction under this Trust Agreement for all purposes.

8.4 Security Measures by Client. The Client is responsible for ensuring that appropriate security measures are implemented to prevent unauthorized disclosure or use of any Authentication Procedure made available to it or an Investment Manager in connection with this Trust Agreement.

8.5 No Duty to Verify. Except to the extent the Trustee is required to comply with Authentication Procedures under Section 8.3 above, the Trustee has no duty to verify that personnel of the Client or any Investment Manager engaged in investment activity are authorized to do so or that any instructions received by the Trustee are duly authorized.

8.6 Decline/Delay in Processing. The Trustee reserves the right to decline to process or delay the processing of any purported Proper Instruction where:

8.6.1 the Trustee, in good faith, determines that the instruction may not have been properly authorized;

8.6.2 the instruction is inaccurate, incomplete or unclear;

8.6.3 the instruction conflicts with the terms of this Trust Agreement or any Law applicable to either Party, Local Market Practice or the Trustee's standard operating procedures; or

8.6.4 the Trustee has not been given a reasonable time period to effect the instruction.

In these circumstances, the Trustee will promptly seek authentication, clarification, correction or amendment of any Proper Instruction, as the case may be.

8.7 Cancellation and Amendment. The Trustee will use reasonable efforts to act on Proper Instructions to cancel or amend previously issued Proper Instructions if:

8.7.1 the Trustee has not already acted on the previously issued Proper Instructions; and

8.7.2 the Proper Instruction to cancel or amend is received before the applicable deadlines specified from time to time in the Client Publications or applicable event notification.

The Trustee is not responsible or liable if the request to cancel or amend cannot be satisfied.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

8.8 Oral Instructions. If applicable, the Trustee may act on an oral instruction (given in accordance with an agreed Authentication Procedure) before receipt of any written confirmation and irrespective of whether any subsequent written confirmation conforms to the oral instruction.

8.9 Conflicting Claims. If there is a dispute or conflicting claim with respect to Securities or Cash held by the Trustee under this Trust Agreement, the Trustee is entitled to refuse to act on a Proper Instruction of the Client or any Investment Manager in relation to the particular Securities or Cash until either (i) the dispute or conflicting claims have been finally determined by a court of competent jurisdiction or settled by agreement between the conflicting parties, and the Trustee has received written evidence satisfactory to it of such determination or agreement, or (ii) the Trustee has received an indemnity, security or both, satisfactory to it and sufficient to hold it harmless from and against any and all Losses which the Trustee may incur as a result of its actions.

8.10 Matters Not Requiring Proper Instructions. The Client authorizes the Trustee in the absence of Proper Instructions to attend to all matters which may be necessary or appropriate to discharge its duties and give effect to the terms of this Trust Agreement, including the execution, in the Client's name or on its behalf, of any affidavits, certificates of ownership and other certificates and documents relating to Securities.

9. TAXES AND TRUSTEE COMPENSATION.

The Trustee shall pay out of the Trust Fund all real and personal property taxes, income taxes and other taxes of any and all kinds levied or assessed under existing or future laws against the Trust Fund. Until advised to the contrary by the Administrator, the Trustee shall assume that the Trust is exempt from Federal, State and local income taxes, and shall act in accordance with that assumption. The Administrator shall timely file all Federal, State and local tax and information returns relating to the Plan and Trust.

The Trustee shall be paid such reasonable compensation in a written fee schedule or otherwise as shall from time to time be agreed upon by the Client and the Trustee in writing. Such compensation and all reasonable and proper expenses of administration of the Trust, including counsel Fees, shall be withdrawn by the Trustee out of the Trust Fund unless paid by the Client, but such compensation and expenses shall be paid by the Client if the same cannot by operation of law be withdrawn from the Trust Fund.

Payments from the Trust Fund under this Section 9 may be made without approval or direction of the Administrator.

In connection with the performance of its obligations under this Trust Agreement, the Trustee will hold cash balances from time to time and will have no liability for interest from the date of receipt until the disbursement of such cash balances in accordance with Proper Instructions received from the Administrator, and the Trustee has had a reasonable opportunity to act thereon. The Trustee may also hold cash balances awaiting distribution from the Plan without liability for interest until checks issued by the Trustee are presented for payment by the payee or until a reasonable time after the Trustee is otherwise instructed as to the disposition of such assets, the timing of which is beyond the control of the Trustee. Any "float" earned by the Trustee shall constitute a part of the Trustee's overall compensation for performance of Services.

To assist the Administrator in estimating the amount of float earned by the Trustee, general information associated with account activity (including disbursement and investment activity) is available to the Client on MyStateStreet, and for such short-term U.S. balances, the rate of return earned by the Trustee is generally equivalent to the current Fed Funds rate, less FDIC insurance charges.

10. CREDITORS RIGHTS.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

10.1 Security. To secure the full and timely satisfaction of all Secured Liabilities, the Client on behalf of the Plan hereby grants, to the maximum extent permitted by Law, including ERISA, to the Trustee a security interest in and a right of retention, sale and set off, as applicable, against (i) all of the Plan's Cash, Securities, and other assets, whether now existing or hereafter acquired, in the possession or under the control of the Trustee or its Subcustodians pursuant to this Trust Agreement and (ii) any and all cash proceeds of any of the above (collectively, the "Collateral").

10.2 Rights of the Trustee. In the event that the Plan fails to satisfy in full any of the Secured Liabilities as and when due and payable, the Trustee will have, in addition to all other rights and remedies arising under this Trust Agreement or under applicable Law, the rights and remedies of a secured party under applicable Law. Without prejudice to the Trustee's other rights and remedies, the Trustee will be entitled, in each case as and to the extent reasonably necessary to satisfy in full the Secured Liabilities and any related transaction expenses, to (a) exercise its right of retention and withhold delivery of any Collateral and otherwise refuse to act on any Proper Instruction relating to such Collateral, (b) sell or otherwise realize any Collateral, and (c) set off the net proceeds of such sale or realization of Collateral and/or the amount of any deposit balances standing to the credit of the Client in any Cash Account(s) against such Secured Liabilities.

10.3 Exercise of Rights. The Trustee may exercise its rights and remedies against the Collateral in any manner (including by any method, at any time or place, and on any terms) as it deems, in good faith, to be commercially reasonable under the circumstances, and will use reasonable efforts to effect any sale of Collateral at the prevailing market price in the relevant market. Without limiting the foregoing, the Client on behalf of the Plan acknowledges that it will be commercially reasonable for the Trustee to, among other things: (i) accelerate or cause the acceleration of the maturity of any fixed term deposits comprised in the Collateral and (ii) effect any necessary currency conversions through its own trading desk at such exchange rates as it determines in its reasonable discretion, which rates may include a mark-up from the rates the Trustee receives on the interbank market.

10.4 Notice. The Trustee will use reasonable efforts to give the Client (on behalf of the Plan) prior notice of any exercise of the right to sell or otherwise realize Collateral set forth above, provided that the Trustee will not be obligated to give prior notice or delay exercising its rights pending or after the provision of such notice if, in its reasonable judgment, giving such notice or any such delay would prejudice its ability to obtain satisfaction in full of the Secured Liabilities.

11. FOREIGN EXCHANGE.

11.1 Generally. Upon receipt of Proper Instructions, the Trustee shall facilitate the processing and settlement of foreign exchange transactions. Such foreign exchange transactions do not constitute part of the Services provided by the Trustee under this Trust Agreement.

11.2 Client Elections. The Client or the Investment Manager (acting on behalf of the Plan) may elect to enter into and execute foreign exchange transactions with third parties that are not affiliated with the Trustee, with State Street Global Markets, which is the foreign exchange division of State Street Bank and Trust Company and its affiliated companies ("SSGM"), or with a subcustodian. Where the Client or the Investment Manager gives Proper Instructions for the execution of a foreign exchange transaction using an indirect foreign exchange service described in the Client Publications, the Client (or its Investment Manager) instructs the Trustee, on behalf of the Plan, to direct the execution of such foreign exchange transaction to SSGM or, when the relevant currency is not traded by SSGM, to the applicable subcustodian. The Trustee shall not have any agency (except as contemplated in the preceding sentence), trust or fiduciary obligation to the Client, or the Investment Manager or any other person in connection with the execution of any foreign exchange transaction. The Trustee shall have no responsibility under this Trust Agreement for the selection of the counterparty to, or the method of execution of, any foreign exchange transaction entered into by the Investment Manager or the Client (on behalf of the Plan) or the reasonableness of the execution rate on any such transaction.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

11.3 Client Acknowledgement. The Client (on behalf of the Plan) acknowledges that in connection with all foreign exchange transactions entered into by the Client (or its Investment Manager acting on the Plan's behalf) with SSGM or any subcustodian, SSGM and each such subcustodian:

11.3.1 shall be acting in a principal capacity and not as broker, agent or fiduciary to the Client, the Plan or its Investment Manager;

11.3.2 shall seek to profit from such foreign exchange transactions, and are entitled to retain and not disclose any such profit to the Client, the Plan or its Investment Manager; and

11.3.3 shall enter into such foreign exchange transactions pursuant to the terms and conditions, including pricing or pricing methodology, (a) agreed with the Client or the Investment Manager on behalf of the Plan from time to time or (b) in the case of an indirect foreign exchange service (i) as established by SSGM and set forth in the Client Publications with respect to the particular foreign exchange execution services selected by the Client or the Investment Manager on behalf of the Plan or (ii) as established by the subcustodian from time to time.

11.4 Transactions by State Street. The Trustee or its affiliates, including SSGM, may trade based upon information that is not available to, and may enter into transactions for its own account or the account of clients in the same or opposite direction to the transactions entered into with the Client (or its Investment Manager acting on the Plan's behalf), and shall have no obligation under this Trust Agreement to share such information with or consider the interests of their respective counterparties, including, where applicable, the Client or the Investment Manager (acting on the Plan's behalf).

12. ACCOUNTS OF THE TRUSTEE.

The Trustee shall maintain or cause to be maintained suitable records, data and information relating to its functions hereunder.

The Trustee shall keep accurate and detailed accounts of all investments, receipts, disbursements, and other actions hereunder, and such other records as the Administrator shall from time to time direct, as agreed to by the Trustee.

Within sixty (60) days after the close of each fiscal year of the Trust and at more frequent intervals if agreed to by the Parties hereto, and within sixty (60) days after the removal or resignation of the Trustee as provided hereunder, the Trustee shall render to the Client a written statement and account showing in reasonable summary the investments, receipts, disbursements, and other transactions engaged in during the preceding fiscal year or period, and setting forth the assets and liabilities of the Trust Fund. Unless the Client shall have filed with the Trustee written exceptions or objections to any such statement and account within sixty (60) days after receipt thereof, the Client shall be deemed to have approved such statement and account, and in such case or upon written approval by the Administrator of any such statement and account, the Trustee shall be released and discharged with respect to all matters and things embraced in such statement and account as though it had been settled by a decree of a court of competent jurisdiction in an action or proceeding in which the Client, all other necessary parties and all persons having any beneficial interest in the Trust Fund were parties.

The Trustee shall determine the fair market value of assets of the Trust Fund based upon valuations provided by Investment Managers, information and financial publications of general circulation, statistical and valuation services, records of security exchanges, appraisals by qualified persons, transactions and bona fide offers in assets of the type in question and other information customarily used in the valuation of property.

The Client or its delegate, each Investment Manager, and the Trustee shall file such descriptions and reports and make such other publications, disclosures, registrations and other filings as are required of them respectively by ERISA.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

Nothing contained in this Trust Agreement or in the Plan shall deprive the Trustee of the right to have a judicial settlement of its account. In any proceeding for a judicial settlement of the Trustee's accounts or for instructions in connection with the Trust, the only necessary party thereto in addition to the Trustee shall be the Client, and no participant or other person having or claiming any interest in the Trust Fund shall be entitled to any notice or service of process (except as required by law). Any judgment, decision or award entered in any such proceeding or action shall be conclusive upon all interested persons.

13. AUDIT RIGHTS.

13.1 Client and Regulator Access. The Trustee will allow the Client and the Client's regulators or supervisory authorities to perform periodic on-site audits as may be reasonably required to examine the Trustee's performance of the Services.

13.2 Frequency and Scope. For inspections requested by the Client that are not the result of an audit of the Plan or Trust by the government, an administrative tribunal or a court (such request will include reasonable advance notice) and agreed to by the Trustee, the Trustee reserves the right to impose reasonable limitations on the number, frequency, timing, and scope of such audits.

13.3 Limitations on Disclosure. Nothing contained in this Section will obligate the Trustee to provide access to or otherwise disclose: (i) any information that is unrelated to the Client and the provision of the Services to the Client; (ii) any information that is treated as confidential under the Trustee's corporate policies, including, without limitation, internal audit reports, compliance or risk management plans or reports, work papers and other reports, and information relating to management functions; or (iii) any other documents, reports, or information that the Trustee is obligated or entitled to maintain in confidence as a matter of law or regulation. In addition, any access provided to technology will be limited to a demonstration by the Trustee of the functionality thereof and a reasonable opportunity to communicate with the Trustee's personnel regarding such technology.

14. RESIGNATION AND REMOVAL OF TRUSTEE.

The Trustee may resign at any time by giving ninety (90) days' prior written notice to the Client, which notice may be waived by the Client. The Client may remove the Trustee at any time upon ninety (90) days' prior written notice to the Trustee, which notice may be waived by the Trustee. In case of the resignation or removal of the Trustee, the Client shall appoint a successor trustee. Any successor trustee shall have the same powers and duties as those conferred upon the Trustee named in this Trust Agreement. The removal of a Trustee and the appointment of a new Trustee shall be by a written instrument delivered to the Trustee. Upon the appointment of a successor trustee and after the final account of the resigning or removed Trustee has been approved or settled, the resigning or removed Trustee shall transfer or deliver the assets held in the Trust to such successor trustee, provided that the Trustee may reserve such reasonable amount as the Trustee may deem necessary for outstanding and accrued charges against the Trust Fund.

This Trust Agreement may be terminated by either the Trustee or the Client, without penalty, upon notice to the other party, with immediate effect or at such later date stated in the notice, in the event such other party commits any material and continuing breach under this Trust Agreement and such breach, although capable of remedy, has not been remedied within thirty (30) days of written notice by a party to the breaching party or, if such breach is not capable of cure within such thirty (30) day period, within a reasonable time mutually agreed to in writing by the Parties, provided that such breaching party commences to cure such breach within such thirty (30) day period and diligently pursues the cure of such breach to completion, provided, however, that no cure period will apply to a material and continuing breach that is incapable of cure.

In addition, Trustee may terminate this Trust Agreement, without penalty, upon notice to the Client with immediate effect or at such later date stated in the notice, in the event the Client does not satisfy Trustee's know-your-customer/anti-money laundering compliance policies.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

15. AMENDMENT AND TERMINATION.

15.1 No Diversion. The Trust Fund shall be for the exclusive purpose of providing benefits to participants under the Plan and their respective beneficiaries and, if permitted by the Plan, defraying reasonable expenses of administering the Plan. Such expenses may include premiums for the bonding of Plan officials required by ERISA. No part of the corpus or income of the Trust Fund may be used for, or diverted to, purposes other than for the exclusive benefit of participants under the Plan or their respective beneficiaries. Notwithstanding the foregoing, assets may be returned to the Client to the extent that the law permits such transfer.

The Trustee shall be under no obligation to return any part of the Trust Fund as provided in this Section 15.1 until the Trustee has received a written certification from the Administrator that such return is in compliance with this Section 15.1, the Plan and the requirements of Law. The Trustee shall rely conclusively on such written certification and shall be under no obligation to investigate or otherwise determine its propriety.

15.2 Amendment. Subject to the provisions of Section 15.1, this Trust Agreement may be amended at any time or from time to time and in any manner by written agreement of the Trustee and the Client, and the provisions of any such amendment may be made applicable to the Trust Fund as constituted at the time of the amendment as well as to the part of the Trust Fund subsequently acquired.

15.3 Termination of Plan and Trust. If the Plan is terminated, this Trust Agreement shall nevertheless continue in effect until the Trust Fund has been distributed in accordance with the provisions of the Plan pursuant to directions of the Administrator under Section 3. After the termination of the Plan and the satisfaction of all liabilities of the Plan to participants and their respective beneficiaries, any residual assets remaining in the Trust Fund attributable to the Plan shall be returned to the Client as the Administrator may specify and subject to applicable law, and this Trust shall thereupon terminate.

15.4 Transfer to Other Funding Agency. If, pursuant to directions under Section 3, the entire Trust Fund is transferred to a funding agency for the Plan that is not a trustee, this Trust shall thereupon terminate.

16. BUSINESS CONTINUITY, INTERNAL CONTROLS AND INFORMATION SECURITY.

16.1 Business Continuity Plans. The Trustee will at all times maintain a business contingency plan and a disaster recovery plan and will take commercially reasonable measures to maintain and periodically test such plans. The Trustee will implement such plans following the occurrence of an event which results in an interruption or suspension of the Services to be provided by the Trustee.

16.2 Internal Controls Review and Report. The Trustee will retain a firm of independent auditors to perform an annual review of certain internal controls and procedures employed by the Trustee in the provision of the Services and issue a standard System and Organization Controls 1 or equivalent report based on such review. The Trustee will provide a copy of the report to the Client upon request.

16.3 Information Security Systems and Controls. The Trustee will maintain commercially reasonable information security systems and controls, which include administrative, technical, and physical safeguards that are designed to: (i) maintain the security and confidentiality of the Client's data; (ii) protect against any anticipated threats or hazards to the security or integrity of the Client's data, including appropriate measures designed to meet legal and regulatory requirements applying to the Trustee; and (iii) protect against unauthorized access to or use of the Client's data.

16.4 Virus Detection. The Trustee will at all times employ a current version of one of the leading commercially available virus detection software programs to test the hardware and software

applications used by it to deliver the Services for the presence of any computer code designed to disrupt, disable, harm, or otherwise impede operation.

17. CONFIDENTIALITY AND USE OF DATA.

17.1 Confidentiality.

17.1.1 No Disclosure Without Consent. Subject to Section 17.2 and Section 17.3, Confidential Information will not be disclosed by the Receiving Party to any third party without the prior consent of the Disclosing Party.

17.1.2 No limitations of obligations under Trust Agreement or at Law. Except as expressly contemplated by this Trust Agreement, nothing in this Section 17 will limit the confidentiality and data-protection obligations of the Trustee and its Affiliates under this Trust Agreement and Law applicable to the Trustee.

17.2 Use of Confidential Information and Data.

17.2.1 Use of Data of Confidential Information and Data Generally. Subject to this Section 17.2 and Section 17.3, all Confidential Information, including Data, will be used by the Receiving Party for the purpose of providing or receiving Services, as applicable, pursuant to this Trust Agreement or otherwise discharging its obligations under this Trust Agreement.

17.2.2 Use of Data for Indicators. The Trustee and its Affiliates may use Data to develop, publish or otherwise distribute to third parties certain investor behavior "indicators" or "indices" that represent broad trends in the flow of investment funds into various markets, sectors or investment instruments (collectively, the "Indicators"), but only so long as (i) the Data is combined or aggregated with (A) information relating to other customers of the Trustee and/or (B) information derived from other sources, in each case such that the Indicators do not allow for attribution to or identification of such Data with the Client or the Plan, (ii) the Data represents less than a statistically meaningful portion of all of the data used to create the Indicators and (iii) the Trustee publishes or otherwise distributes to third parties only the Indicators and under no circumstance publishes, makes available, distributes or otherwise discloses any of the Data to any third party, whether aggregated, anonymized or otherwise, except as expressly permitted under this Trust Agreement.

17.2.3 Economic Benefit from Indicators. The Client acknowledges that the Trustee may seek and realize economic benefit from the publication or distribution of the Indicators.

17.3 Disclosure of Confidential Information and Data.

17.3.1 Disclosure of Confidential Information to Representatives. The Receiving Party may disclose the Disclosing Party's Confidential Information without the Disclosing Party's consent to its attorneys, accountants, auditors, consultants and other similar advisors that have a reasonable need to know such Confidential Information ("Representatives"), provided such Confidential Information is disclosed under obligations of confidentiality that prohibit the disclosure or use of such Confidential Information by the Representatives for any purpose other than the specific engagement with the Receiving Party for which the Representative has been retained and that are otherwise no less restrictive than the confidentiality obligations contained in this Trust Agreement. The Parties acknowledge that use of Confidential Information by a Representative to represent its other clients in dealing with the Disclosing Party would constitute a breach of this Section 18.3. Where the Trustee is the Receiving Party, "Representatives" will include its Affiliates and Service Providers (as defined below).

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

17.3.2 Disclosure and Use of Confidential Information by Trustee. The Trustee may disclose and permit use (as applicable) of Confidential Information of the Plan without the Client's consent:

17.3.2.1 to its Affiliates and any of its third-party agents and service providers ("Service Providers") in connection with the provision of Services, the discharge of its obligations under this Trust Agreement or the carrying out of any Proper Instruction, including in accordance with the standard practices or requirements of any Financial Market Utility or in connection with the settlement, holding or administration of Cash, Securities or other instruments;

17.3.2.2 to its Affiliates in connection with the management of the businesses of the Trustee and its Affiliates, including, but not limited to, financial and operational management and reporting, risk management, legal and regulatory compliance and client service management and marketing.

Where possible, such Confidential Information must be disclosed under obligations of confidentiality or in a manner consistent with industry practice.

17.3.3 Confidential Information and Cloud Computing and Storage. Each Party may store Confidential Information with third-party providers of information technology services, and permit access to Confidential Information by such providers as reasonably necessary for the receipt of cloud computing and storage services and related hardware and software maintenance and support. Such Confidential Information must be disclosed under obligations of confidentiality.

17.3.4 Disclosure of Confidential Information to Comply with Law. The Receiving Party may disclose the Disclosing Party's Confidential Information to the extent such disclosure is required to satisfy any legal requirement (including in response to court-issued orders, investigative demands, subpoenas or similar processes or to satisfy the requirements of any applicable regulatory authority).

17.3.5 Harm of Unauthorized Disclosure of Confidential Information. Each Party acknowledges that the disclosure to any non-authorized third party of Confidential Information or the use of Confidential Information in breach of this Trust Agreement, may immediately give rise to continuing irreparable injury inadequately compensable in damages at law, and in such cases the Receiving Party agrees to waive any defense that an adequate remedy at law is available if the Disclosing Party seeks to obtain injunctive relief against any such breach or any threatened breach.

17.3.6 Responsibility for Representatives. Each Party will be responsible for any use or disclosure of Confidential Information of the Disclosing Party in breach of this Trust Agreement by its Representatives as though such Party had used or disclosed such Confidential Information itself.

17.3.7 No Disclosure to Trustee Asset Manager Division. Unless the Trustee or an Affiliate has been engaged to act as an Investment Manager for the Plan, in no event will the Trustee allow representatives of its asset management division or Affiliates engaged in asset management to have access to or to use Confidential Information of the Client, including Data.

18. DELEGATION.

18.1 Use of Delegates. The Trustee shall have the right, without prior notice to or the consent

of the Client or the Plan, to employ Delegates to provide or assist it in the provision of any part of the Services other than Services required by Law applicable to either Party to be performed by a qualified custodian or CSD. Unless otherwise agreed in a fee schedule, the Trustee will be responsible for the compensation of its Delegates.

18.2 Provision of Information Regarding Delegates. The Trustee will provide or make available to the Client on a quarterly or other periodic basis information regarding its global operating model for the delivery of the Services, which information shall include the identities of Delegates affiliated with the Trustee that perform or may perform any part of the Services, and the locations from which such Delegates perform Services, as well as such other information about its Delegates as the Client may reasonably request from time to time.

18.3 Third Parties. Nothing in this Section limits or restricts the Trustee's right to use Affiliates or third parties to perform or discharge, or assist it in the performance or discharge of, any obligations or duties under this Trust Agreement other than the provision of the Services.

19. OBLIGATIONS OF THE CLIENT.

19.1 Provide Information. The Client will provide or cause to be provided to the Trustee all data, information, documents and instructions concerning the Client and the investment activity of the Client in relation to the Portfolio as may be reasonably necessary or as the Trustee may reasonably request, in each case in a complete, accurate and timely manner, in order to enable the Trustee to discharge its duties under this Agreement.

19.2 AML Compliance. The Client will comply with all applicable anti-money laundering, sanctions or other financial crime legislation applicable to it and will provide the Trustee with all necessary sanctions questionnaires, declarations and other documentation in order for the Trustee to comply with its anti-money laundering policy.

19.3 Pass Through Representations. To the extent that the Trustee is required to give (or is deemed to have given) any representation, warranty or undertaking to a third party relating to the Client in accordance with normal market practice in connection with the execution of transaction documents or the issuance or transmission of trade notifications, confirmations and/or settlement instructions, whether using facsimile transmission, industry messaging or matching utilities and/or the proprietary software of Third Party Agents and Market Participants, CSDs or other Financial Market Utilities, the Client will be deemed to have made such representation, warranty or undertaking to the Trustee.

19.4 Operational Requirements. The Client will adhere to the deadlines and other operational requirements set out in the Client Publications, to facilitate meeting the requirements of CSD's, Third Party Agents and Market Participants.

19.5 Client Review and Notification. In accordance with standard market practice, the Client will employ commercially reasonable review and control measures with respect to information provided by the Trustee under this Agreement and give the Trustee prompt written notice of any suspected error or omission or the Client's inability to access any such Information so as to prevent, stem or mitigate any Losses that may arise from the use of inaccurate data or the inaccessibility of data.

19.6 Fees. In consideration for the Services provided by the Trustee, the Client will pay the Fees as agreed in a written fee schedule or otherwise agreed in writing by the Parties from time to time. The Fees and any other amounts payable under this Agreement are stated exclusive of any sales, use, excise, value-added, services, consumption, withholding or other similar tax that is assessed on the supply of the Services under an agreement. Any such tax will be payable by the Client.

19.7 Client Publications. The Client will ensure that it provides the Trustee with and regularly

updates, as necessary, e-mail and other contact details for its representatives to enable timely distribution and receipt of the Client Publications.

20. MISCELLANEOUS.

20.1 Governing Law. To the extent not inconsistent with ERISA, and except as preempted by ERISA, as heretofore or hereafter amended, the provisions of this Trust Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Massachusetts. The Parties hereby submit to the jurisdiction of the State and Federal Courts located in a mutually agreeable venue including any appellate courts thereof.

20.2 Non-Alienation of Benefits. No benefit to which a participant or his beneficiary is or may become entitled under the Plan shall at any time be subject in any manner to alienation or encumbrance, nor be resorted to, appropriated or seized in any proceeding at law, in equity or otherwise. No participant or other person entitled to receive a benefit under a Plan shall, except as specifically provided in such Plan, have power in any manner to transfer, assign, alienate or in any way encumber such benefit under such Plan, or any part thereof, and any attempt to do so shall be void.

20.3 Duration of Trust. Unless sooner terminated, the Trust created under this Trust Agreement shall continue for the maximum period of time which the laws of the Commonwealth of Massachusetts shall permit.

20.4 No Guarantees. Neither the Client nor the Trustee guarantees the Trust Fund from loss or depreciation, nor the payment of any amount which may become due to any person under the Plan or this Trust Agreement.

20.5 Duty to Furnish Information. Both the Client and the Trustee shall furnish to the other any documents, reports, returns, statements, or other information that the other reasonably deems necessary to perform its duties imposed under the Plan or this Trust Agreement or otherwise imposed by law.

20.6 Parties Bound. This Trust Agreement shall be binding upon the Parties hereto, all participants in the Plan and persons claiming under or through them pursuant to the Plan, and, as the case may be, the heirs, executors, administrators, successors, and assigns of each of them. The provisions of Sections 6, 7, 8, 10, 15, 17, 20.1, 20.6, 20.7 and 20.13 shall survive termination of the Trust created under this Trust Agreement or resignation or removal of the Trustee for any reason.

In the event of the merger or consolidation of the Client or other circumstances whereby a successor person, firm or company shall continue to carry on all or a substantial part of its business, and such successor shall elect to carry on the provisions of the Plan applicable to such business, as therein provided, such successor shall be substituted hereunder for the Client, as the case may be, upon the filing in writing of its election so to do with the Trustee. The Trustee may, but need not, rely on the certification of an officer of the Client, and a certified copy of a resolution of the Board of Directors of such successor, reciting the facts, circumstances and consummation of such succession and the election of such successor to continue the said Plan as conclusive evidence thereof, without requiring any additional evidence.

20.7 Necessary Parties to Disputes. Necessary parties to any accounting, litigation or other proceedings shall include only the Trustee and the Client and the settlement or judgment in any such case in which the Client and the Trustee are duly served or cited shall be binding upon all participants in the Plan and their beneficiaries and estates, and upon all persons claiming by, through or under them.

20.8 Regulation GG. The Client hereby represents and warrants that it does not engage in an "internet gambling business", as such term is defined in Section 233.2(r) of Federal Reserve Regulation GG (12 CFR 233.1-233.7) ("Regulation GG"). The Client hereby covenants and agrees that it shall not engage in an internet gambling business. In accordance with Regulation GG, the Client is hereby notified that "restricted transactions," as such term is defined in Section 233.2(y) of Regulation GG, are prohibited in any dealings with the Trustee pursuant to this Trust Agreement or otherwise between or among any party

hereto.

20.9 Data Protection. The Trustee will comply with the Data Protection Addendum attached hereto as Appendix B.

20.10 Severability; No Waiver. If any provisions of this Trust Agreement shall be held by a court of competent jurisdiction to be invalid or unenforceable, the remaining provisions of this Trust Agreement shall continue to be fully effective. The failure of a Party hereto to insist upon strict adherence to any term of this Trust Agreement on any occasion or the failure of a Party hereto to exercise or any delay in exercising any right or remedy under this Trust Agreement shall not constitute a waiver of any of the term, right or remedy or a waiver of any other rights or remedies, and no single or partial exercise of any right or remedy under this Trust Agreement shall prevent any further exercise of the right or remedy or the exercise of any other right or remedy.

20.11 References. Unless the context clearly indicates to the contrary, a reference to a statute, regulation, document or provision shall be construed as referring to any subsequently enacted, adopted or executed counterpart.

20.12 Headings. Headings and subheadings in this Trust Agreement are inserted for convenience of reference only and are not to be considered in the construction of its provisions.

20.13 No Liability for Acts of Predecessor and Successor Trustees. The Trustee shall have no liability for the acts or omissions of any predecessors or successors in office.

20.14 Counterparts. This Trust Agreement may be executed in several counterparts, each of which shall be deemed to be an original, and all such counterparts taken together shall constitute one and the same Trust Agreement. Counterparts may be executed in either original or electronically transmitted form (e.g., faxes or emailed portable document format (PDF) form), and the Parties hereby adopt as original any signatures received in electronically transmitted form.

20.15 Assignment. This Trust Agreement may not be assigned by (a) Client without the prior written consent of Trustee, except as provided in Section 20.6, or (b) by Trustee without the prior written consent of Client, except that Trustee may assign this Trust Agreement to a successor of all or a substantial portion of its business, or to an Affiliate of Trustee. In the event this Trust Agreement is assigned to a successor under the prior sentence, the Trustee agrees to provide notice to the Client as soon as reasonably practicable.

20.16 Incompetent Payee. If a person to whom the Trustee is directed to make one or more payments is disabled from caring for his or her affairs because of mental condition, physical condition, or age, payment due such person may be made to such person's legally appointed guardian; conservator, or other legally appointed personal representative upon the Trustee's receipt of written notice from the Administrator that the Administrator has been provided evidence satisfactory to the Administrator of such legal appointment. The Trustee shall have no liability with respect to payments so made. The Trustee shall have no duty to make inquiry as to the competence of any person to whom it is directed to make payment.

20.17 Key Employees. As required by the Plan, no post-retirement health benefits shall be paid out of the Trust to or on behalf of any "key employee", as defined in Section 416(i) of the Code, unless a separate payment account has been established and maintained for such benefits by the Administrator, and the benefits are paid solely from that separate payment account pursuant to Proper Direction from the Administrator to the Trustee. The separate payment account described in this Section shall be for accounting purposes only and shall not require segregation of assets within the Trust, and the Administrator is solely responsible for the maintenance, administration and tracking of such separate payment account in accordance with the requirements of Section 401(h) of the Code.

21. NOTICES.

Email: benefits@epelectric.com

22. SHAREHOLDER COMMUNICATIONS ELECTION. SEC Rule 14b-2 requires banks that hold securities, as that term is used in federal securities laws, for the account of customers to respond to requests by issuers of securities for the names, addresses and holdings of beneficial owners of securities of that issuer held by the bank unless the beneficial owner has expressly objected to disclosure of this information. In order to comply with the rule, as may be applicable, the Trustee needs the Client to indicate whether it authorizes the Trustee to provide the Client's name, address, and share position to requesting companies whose securities the Client owns. If the Client tells the Trustee "no," the Trustee will not provide this information to requesting companies. If the Client tells the Trustee "yes" or does not check either "yes" or "no" below, the Trustee is required by the rule, as applicable, to treat the Client as consenting to disclosure of this information for all securities owned by the Client or any funds or accounts established by the Client. For the Client's protection, the rule, as applicable, prohibits the requesting company from using the Client's name and address for any purpose other than corporate communications. Please indicate below whether the Client consents or objects by checking one of the alternatives below.

YES [✓] The Trustee is authorized to release the Client's name, address, and share positions.

NO [ ] The Trustee is not authorized to release the Client's name, address, and share positions.

TRUST AGREEMENT

APPENDIX A
CUSTODY ADDENDUM TO TRUST AGREEMENT

WHEREAS, the Trustee, in holding assets delivered to it under the Trust Agreement, will also serve as a custodian (in such capacity, herein referred to as the "Custodian") of certain Property of the Trust, the Parties therefore agree to the following supplemental terms and conditions when Custodian is acting in such capacity:

1 Safekeeping Securities

1.1 Holding Securities. The Custodian will hold Securities delivered or credited to its account under this Agreement directly or through accounts at Subcustodians or CSDs. In turn, Subcustodians will hold Securities directly or through accounts at CSDs.

1.2 Client Entitlements and Segregation. The Custodian will take the following steps to reflect the Trust's ownership of Securities and to separately identify the Securities of the Trust from the proprietary assets of the Custodian, Subcustodians, and CSDs, in accordance with Local Market Practice:

1.2.1 Accounts at the Custodian. Open and maintain on the records of the Custodian one or more securities accounts in the name of the Trust or such other name as the Client may reasonably request (each, a "Securities Account") and credit Securities to them;

1.2.2 Accounts at the Subcustodians or CSDs. Open and maintain Securities Accounts at the Subcustodians or CSDs in which the Custodian is a direct participant, cause Subcustodians to open and maintain Securities Accounts at CSDs in which the Subcustodian is a participant, and cause Securities to be credited to the relevant accounts. Such accounts: (i) may be commingled (or omnibus) accounts for Securities of multiple customers of the Custodian (or Subcustodian, in the case of accounts opened by the Subcustodian at a CSD) or, in limited markets, segregated (or separate) accounts for Securities of the Client; and (ii) must not include any proprietary securities of the Custodian, the Subcustodian or the CSD;

1.2.3 Physical Securities. Physically segregate bearer Securities from the proprietary assets of the Custodian, and require that the Subcustodians physically segregate bearer Securities from the Subcustodian's and the Custodian's proprietary assets;

1.2.4 Registration Names. Register certificated Securities (other than bearer securities) in the name of the Trust or in the name of the Custodian, a Subcustodian, a CSD or a nominee of any of them, or otherwise in accordance with Local Market Practice and the laws and regulations applicable to the Custodian; and

1.2.5 Records of Transactions; Reconciliation. Maintain records of the Trust's transactions in the Securities Accounts and reconcile its records of clients' securities holdings against the records of its Subcustodians and CSDs in which it is a direct participant in accordance with the Custodian's standard procedures and Local Market Practice. Subcustodians will likewise maintain records of their clients' transactions and reconcile their records of the securities holdings of their clients against the records of the CSDs in which they are a direct participant in accordance with the Subcustodians' standard procedures and Local Market Practice.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

1.3 **Securities Interchangeable.** Securities of the Trust (whether held in separate or commingled accounts) are fungible with all other securities of the same issue held in such accounts by the Custodian and its Subcustodians. This means that the Trust's redelivery rights in respect of the Securities are not in respect of the Securities actually deposited with the Custodian or a Subcustodian from time to time, but rather in respect of Securities of the same number, class, denomination and issue as those Securities.

1.4 **Acceptance of Securities.** Except as otherwise agreed in writing with the Client or an Investment Manager, the Custodian will only accept custody of Securities and other assets that it is operationally equipped and licensed to hold in the relevant market where it provides custodial services either directly or through an existing Subcustodian and may decline to accept custody of certain securities or asset types that it determines present an unacceptable risk profile or that it or its Subcustodians are not operationally equipped or permitted to hold under any Law or regulation.

2 Cash

2.1 **Cash Accounts.** The Custodian will open and maintain in the name of the Trust one or more cash deposit accounts (each a "Cash Account") in such currencies as may be required in connection with the investment activity of the Trust.

2.2 **Location of Cash Deposits.** Cash received for the Trust will be deposited with the Custodian, or with a Subcustodian, depending on the currency and/or the market. The Custodian will designate each currency in a particular market as On Book Cash or Off Book Cash. "On Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, the Custodian (through any of its branches) and "Off Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, a Subcustodian (through any of its branches). The Custodian may change the designation of a currency as On Book or Off Book from time to time. Clients will find the designation of currencies as On Book Cash and Off Book Cash, and any changes to such designations, in the Client Publications.

2.3 **Cash Records.** The Custodian will reflect Cash balances held in all On Book and Off Book Cash Accounts on its books and records and report the balances to the Client.

2.4 **Banking Relationship.** In accepting deposits under this Agreement, the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash) acts as banker and does not hold the money deposited on trust or segregated from its proprietary assets. Accordingly, the Client is an unsecured creditor of the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash), subject to such rights as may arise in an Insolvency Event as determined under the laws of the jurisdiction of the Custodian or relevant Subcustodian. With respect to Off Book Cash, the Custodian is only responsible for returning the actual amount that the Custodian receives from the Subcustodian.

2.5 **Interest and Charges.** Cash Accounts may be interest bearing or non-interest bearing and may be subject to charges or Fees on the deposit balance or on a per account basis. The Custodian or the relevant Subcustodian will determine on a periodic basis:

2.5.1 the interest rates, if any, (which may be positive, zero or negative) or equivalent charges or Fees paid or charged to the Client from time to time with respect to a Cash Account; and

2.5.2 the overdraft rates or equivalent charges or Fees and the applicable overdraft thresholds (if any) that will trigger interest charges from time to time for overdrafts,

in each case, acting in their sole discretion, taking into account market conditions and other relevant commercial considerations. Interest and overdraft rates or other account charges or Fees will vary by currency. Details on current rates and deposit account charges are available upon request.

2.6 **Overdrafts.** The Trust must maintain sufficient funds in the Cash Accounts to settle all transactions in the applicable currencies in a timely manner. The Custodian or its Subcustodians may, but are not required to, extend credit under this Agreement. The Custodian reserves the right to decline to process any Proper Instruction or settle any transaction that would result in an overdraft of the Cash Account. If an overdraft arises in the Cash Account, the Client agrees to repay the principal amount of the overdraft upon demand by the Custodian or within five Business Days, whichever is earlier, plus any applicable overdraft Fees and interest on the principal overdraft.

3 Transaction Settlement

3.1 **Settlement**. The Custodian will settle all transactions in accordance with Local Market Practice, which may not always be on a delivery-versus-payment or receipt-versus-payment basis. Except as otherwise provided below regarding Contractual Settlement, the Custodian will credit or debit the appropriate Cash Account on an actual settlement or payment basis.

3.2 **Contractual Settlement.** In order to facilitate transaction settlement, the Custodian may provisionally credit settlement, maturity or redemption proceeds, or income, dividends and other distributions, on a contractual settlement or predetermined income basis ("Contractual Settlement"), for markets, Securities and eligible clients as determined and notified by the Custodian in the Client Publications. The Custodian can terminate or suspend Contractual Settlement for markets, Securities or particular clients at any time.

3.3 **Use of Funds.** Where Contractual Settlement applies, the Custodian will credit or debit the appropriate Cash Account on the contractual settlement date or payable date for the relevant transaction. This means that (i) the Client will have use of the funds from the date that a sale was contracted to settle or the payable date, which may be earlier than the date payment actually occurs and (ii) the Custodian will have use of the funds debited from the Cash Account from the date that a purchase was contracted to settle until the date that settlement actually occurs.

3.4 **Reversal.** The Custodian may reverse any Contractual Settlement credit at any time before actual receipt of the cash payment associated with the credit if the Custodian determines, in its reasonable judgement, that such payment will not be received within 30 days for that transaction or if the Custodian suspends or terminates the provision of Contractual Settlement for those Securities in that market. The Custodian will generally notify the Client two Business Days before any such reversal.

3.5 **Secured Liability.** To the extent that the Custodian has not received the cash payment associated with a credit, the amount credited remains a Secured Liability under this Agreement.

4 Corporate Actions

4.1 **Transmit Information.** The Custodian will promptly transmit or make available to the Client all material written information customarily provided by a professional global custodian regarding an applicable Corporate Action, or a brief synopsis of that information, affecting Securities then being held under this Agreement, where (i) that information is received directly from issuers of such Securities or from CSDs or Subcustodians or (ii) that information is publicly available in the relevant market from standard vendors routinely used by professional global custodians provided that the Custodian can verify the accuracy of such information. The Custodian will transmit or make available such Corporate Action data it receives from primary sources (issuers, CSDs and Subcustodians) without further review although it will generally note if such information is single sourced. The Custodian generally will not transmit or make available such Corporate Action data it receives from secondary sources (vendors) unless the accuracy of that information can be verified against at least one additional source.

4.2 **Exercise.** The Custodian will process the Client's or Investment Manager's (as applicable) elections with respect to any voluntary Corporate Action at the direction of the Client provided it has actual possession of the relevant Securities and it has received Proper Instructions by the deadline specified in the Custodian's Corporate Action notification ("Corporate Actions Deadline Date"). The Custodian will use reasonable efforts to effect Proper Instructions received after that deadline but will have no responsibility for any failure to exercise such instructions accurately or timely. In the absence of receiving Proper Instructions by the Corporate Actions Deadline Date, the Custodian may take the default action specified in the corporate action notification. In the event of a mandatory Corporate Action, the Custodian will act without Proper Instructions in accordance with Section 8.10.

4.3 **Class Actions.** The Custodian will transmit written information received by the Custodian regarding any class action litigation to the extent set out in the Client Publications. The Custodian will not support class action participation by the Client beyond such forwarding of written information. In no event will the Custodian act as a lead plaintiff in a class action.

4.4 **Fractional Positions.** Fractional positions resulting from Corporate Actions will be dealt with in accordance with the Client Publications.

5 Proxy Servicing

5.1 **Transmit Information.** The Custodian will forward to the Client or Investment Manager (as applicable) all proxies received by the Custodian relating to the Securities then held under this Agreement, for the markets designated in the Client Publications, unless otherwise instructed by the Client. The Custodian will use an agent to assist in the receipt and distribution of proxies and will share the Client's position and contact information to facilitate such collection and distribution.

5.2 **Voting.** The Custodian provides proxy voting services for the markets designated in the Client Publications. The Custodian will cause eligible proxies to be promptly executed by the

registered holder in accordance with Proper Instructions and delivered to the issuer of the Securities or its designated agent. In order for the Custodian to provide the voting services, the Custodian must have received such Proper Instructions, must have actual possession of the relevant Securities, and all requirements set out in the Client Publications must have been met, including where applicable receiving an executed power of attorney, in each case by the deadline specified in the Custodian's proxy notification.

6 Income Collection

6.1 **Monitoring and Crediting.** The Custodian will use reasonable efforts to monitor and collect on a timely basis, in accordance with Local Market Practice, all income and other payments to which the Trust is entitled in respect of the Securities held under this Agreement and Securities on loan through the securities lending program sponsored by the Custodian or its Affiliates. The Custodian will credit such amounts to the Cash Account of the Trust as received, except where Contractual Settlement applies.

6.2 **Repatriation of Income.** The Client or Investment Manager (as applicable) is responsible for directing the repatriation of income into the base currency of the Portfolio or another currency selected by the Client or Investment Manager (as applicable) and may enter into separate arrangements to do so, as set out in Section 11 of the Agreement.

7 Statements and Reports

7.1 **Contents.** The Custodian will make available reports to the Client regarding the Portfolio on a periodic basis as selected by the Client from certain online tools made available from time to time by the Custodian or as otherwise agreed with the Client. The reports will include Cash balances, an itemized statement of Securities and Cash and Securities transaction activity. Market values contained in these reports are unaudited and based on the Custodian's standard pricing vendors and practices. These reports will not include net asset value calculations.

7.2 **Cash and Securities Not Held.** The Custodian may agree to incorporate information in respect of cash or securities not held by the Custodian. In making available such information to the Client, the Custodian will rely upon the information provided by the Client or a third party without any requirement to verify the accuracy of such information. The Custodian will not perform any other Services in relation to such cash or securities.

8 Tax Withholding and Tax Relief

8.1 **Withholding**. The Custodian will withhold (or cause to be withheld) the amount of any tax which is required to be withheld by the Custodian or Subcustodian under the Law applicable to the Custodian or Subcustodian based on the Client's domicile and entity type in respect of any dividend, interest income or other distribution in relation to any Security, and/or the proceeds or income from the sale or other transfer of any Security held by the Custodian. If the Client has not provided the requisite information and documentation, the Custodian is obligated to arrange for maximum withholding. In certain markets, the Client will be required to hire a local tax agent to calculate withholding, as set out in the Client Publications.

8.2 **Tax Relief.** The Custodian will apply for a reduction of withholding tax and refund of any tax paid or tax credits in respect of income payments on Securities based on the Trust's entitlement under relevant tax treaties or laws which apply in each market that supports a standard tax reclaim process, in all cases as may be set out from time to time in the Client Publications. The

Custodian does not facilitate tax reclaims for tax transparent or pass-through (i.e., multiple-beneficiary) entities such as partnerships, LLCs, common trusts or any other types of entities that are generally ineligible for tax treaty or domestic law tax entitlements, even where the partners or beneficial holders of such entities may be eligible.

8.3 **Documentation.** In order for the Custodian to perform the services in this Section 8, the Client will provide the Custodian such information and documentation as may be required from time to time by the Custodian for tax purposes, including documentary evidence of its tax domicile, and its entity type and details of any special ruling or treatment to which the Trust may be entitled in relation to countries where the Trust engages or proposes to engage in investment activity or where Securities are or will be held. The Client or Investment Manager (as applicable) is responsible for ensuring the documentation and information provided is true and accurate in all material respects and will promptly provide the Custodian with all necessary corrections or updates upon becoming aware of any changes or inaccuracies in the documentation or information supplied. The provision of documentation and information under this Section 8.3 will be taken to be a Proper Instruction upon which the Custodian will be entitled to rely for all purposes under this Section 8, including calculating withholding and determining available tax relief, without the need to undertake any further inquiries or verification.

8.4 **Client Responsible for Taxes.** The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will be liable for all taxes, levies or similar obligations which arise as a result of the Trust's investment activity, including in relation to any Cash or Securities held by the Custodian on behalf of the Trust, or any related transactions. If any taxes become payable in relation to any prior payment made by the Custodian in connection with the Trust's investment activity, the Custodian may withhold any credit balance in the Trust's Cash Accounts to the extent necessary to satisfy such tax obligation. The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will also remain liable for any tax deficiency.

8.5 **No Tax Advice.** The Client acknowledges that the Custodian is not, and will not be deemed to be, providing tax advice or tax counsel.

9 Physical Safekeeping of Investment Documents

9.1 **Document Safekeeping.** The Custodian may agree to provide physical safekeeping for Investment Documents delivered to it and will return such Investment Documents to the Client upon receipt of Proper Instructions, subject to additional documentation and other requirements as the Custodian may specify from time to time.

9.2 **No Other Services.** The Custodian will not otherwise perform any other Services in relation to such Investment Documents.

10 Alternative Asset Servicing

10.1 **Alternative Assets.** The Custodian may agree to reflect the Trust's Alternative Assets on its books, records or statements. Unless otherwise agreed in writing, the Custodian will not perform any other services or assume any obligations in relation to Alternative Assets. The Custodian may, in limited cases, agree to register the Client's interests in Alternative Assets in the name of the Custodian, subject to additional documentation and other requirements as the Custodian may specify from time to time.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

11 Subcustodians

11.1 **Use of Subcustodians.** The Custodian is authorized to utilize Subcustodians in connection with its performance of the Services, and will notify the Client of the Subcustodians so employed from time to time through the Client Publications.

11.2 **Selection and Monitoring.** The Custodian will use reasonable skill, care and diligence in the selection, monitoring and continued utilization of Subcustodians by taking the following actions: (i) annually assessing the financial condition of each Subcustodian by reviewing their publicly available financial information, (ii) on a daily basis monitoring the performance by each Subcustodian' of its duties relative to the Services, and (iii) confirming on an annual basis that each Subcustodian is licensed to act as a subcustodian in its relevant market.

11.3 **Special Subcustodians.** At the request of the Client, the Custodian may agree to appoint one or more qualified banks, trust companies or other entities designated by the Client to act as a subcustodian (each a "Special Subcustodian") for purposes specified by the Client. In connection with the appointment of a Special Subcustodian, the Custodian shall enter into a tri-party subcustodian agreement with the Special Subcustodian and the Client in form and substance approved the Custodian, provided that such agreement shall comply with Law applicable to the Client and shall be consistent with the terms and provisions of this Agreement, to the extent practicable.

12 Central Securities Depositories

12.1 **Use of Central Securities Depositories.** The Custodian and its Subcustodians will use CSDs in connection with the performance of the Services, and will notify the Client of the CSDs so employed from time to time through the Client Publications.

12.2 **Rules of Central Securities Depositories.** Where the Custodian or its Subcustodians use CSDs, the Client acknowledges that they will do so in accordance with the terms and conditions of participation or membership in such CSDs and the rules and procedures governing the operation thereof.

13 Responsibility for Subcustodians

13.1 **Responsibility for Subcustodians.** The Custodian will be liable to the Client for the acts and omissions of its Subcustodians as if it had committed such acts and omissions itself; provided that:

13.1.1 compliance with the standard of care set out in Section 6.1 of the Agreement will be assessed in accordance with the standards and circumstances prevailing at the time of the act or omission in the local market or jurisdiction in which the Subcustodian is providing the relevant Services; and

13.1.2 the Custodian will have no liability for Losses resulting from the insolvency or other financial default of a Subcustodian that is not an Affiliate of the Custodian except to the extent that such Losses are caused by the failure of the Custodian to exercise reasonable skill, care and diligence in the selection, monitoring and continued utilization of the Subcustodian as required under Section 11.2 of this Appendix.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

13.2 Responsibility for Special Subcustodians. Notwithstanding the provisions of this Section 13.1 to the contrary, the Custodian shall not be liable to the Client for Losses suffered or incurred by the Client resulting from the acts or omissions of a Special Subcustodian, except to the extent such Losses are caused by the negligence, wilful default or fraud of the Custodian. In the event of any such Loss, the Custodian shall use commercially reasonable efforts to enforce such rights as it may have against any Special Subcustodian.

APPENDIX B
DATA PROTECTION ADDENDUM

1. Definitions

1.1. In this Data Protection Addendum: (a) terms used but not defined below have the meaning ascribed to them in the Trust Agreement between the parties; and (b) the following terms have the meaning ascribed to them below:

"Approved Sub Processor"	means each of: (a) Existing Sub-Processor; and (b) New Sub-Processor, to the extent that it meets the conditions set out in Paragraph 5.4;
"CCPA"	means the California Consumer Privacy Act of 2018, Cal. Civ. Code § 1798.100 et seq. (CCPA), as amended by the California Privacy Rights Act and its implementing regulations;
"Data Protection Laws"	means any Law or regulation regarding the processing, privacy, and use of Personal Data, as applicable to the Client, the Service Provider and/or the services provided by the Service Provider to the Client, including the Gramm-Leach-Bliley Act, US state data breach and data privacy laws, and the CCPA;
"Data Subject Request"	means a request made by a data subject to exercise any rights of data subjects under Data Protection Laws;
"Existing Sub-Processor(s)"	means any third party or Service Provider Affiliate which the Service Provider intends, at the Effective Date to engage to process any Personal Data as the Service Provider's sub-processor;
"New Sub-Processor(s)"	means any third party or Service Provider Affiliate, other than an Existing Sub-Processor, which the Service Provider wishes to engage to process any Personal Data as the Service Provider's sub-processor;
"Personal Data"	means any information that relates to an identified or identifiable natural person that is protected as "personal data", "personal information" or similar term by Data Protection Laws that is processed by the Service Provider or an Approved Sub-Processor on behalf of the Client pursuant to or in connection with the Agreement;
"Supervisory Authority"	means any state, local, national or multinational agency, department, official, parliament, public or statutory person or any government or professional body, regulatory or supervisory authority, board or other body responsible for administering Data Protection Laws.

2. Scope

2.1. The Parties agree that, from the Effective Date, the terms of this Data Protection Addendum will apply to any Personal Data that the Service Provider processes on behalf of the Client in the course of providing the Services under the Agreement.

2.2. Nothing in this Data Protection Addendum permits the Service Provider to process (or permit the processing of) Personal Data in a manner which is expressly prohibited by the Agreement.

3. Data Processing

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

3.1. The Service Provider will, and will procure that each Approved Sub-Processor will:

(a) comply with all applicable Data Protection Laws when processing Personal Data;

(b) only process Personal Data in accordance with the Client's documented instructions as set out in the Agreement, any related operating memoranda and side letters, and this Data Protection Addendum, unless processing is required by a law to which the Service Provider or Approved Sub-Processor is subject; and

(c) For purposes of the CCPA, Service Provider shall not (i) sell Personal Information it receives from or processes on behalf of Client ("Client Personal Information"); (ii) retain, use, or disclose Client Personal Information for any purpose (including a Commercial Purpose) other than for the specific purpose of performing the Services under the Agreement and except as otherwise permitted by the CCPA; and (iii) retain, use, or disclose Client Personal Information outside of the direct business relationship between the Parties. Service Provider agrees that Client has the right to take reasonable and appropriate steps to ensure that Service Provider uses Client Personal Information in a manner consistent with Client's obligations under the CCPA. Service Provider agrees that Client has the right to take reasonable and appropriate steps to stop and remediate Service Provider's unauthorized use of Client's Personal Information. Service Provider shall notify Client as soon as possible after Service Provider determines that it can no longer meet its obligations under the CCPA. The terms "Commercial Purpose," "Personal Information," "Sell," and "Service Provider" as used in this subsection 3.1(c) have the meanings defined in the CCPA. Service Provider hereby certifies that it understands and will comply with the requirements of this subsection 3.1 (c).

3.2. The Client:

(a) instructs, and grants a general written authorization for, the Service Provider and each Approved Sub-Processor to process Personal Data and, subject to Paragraph 5, to transfer Personal Data to any country or territory as reasonably necessary for the provision of the Services and consistent with the Agreement; and

(b) warrants and represents that it is and will at all times:

(i) remain duly and effectively authorized to give the instruction set out in Paragraph 3.2(a); and

(ii) have in place all fair processing notices and (where applicable) consent mechanisms for data subjects that are sufficient to ensure that all processing of Personal Data envisaged by this Data Protection Addendum and the Agreement will be lawful and will not contravene any Data Protection Laws.

4. Technical and Organizational Measures and Security

4.1. Service Provider will use appropriate safeguards designed to prevent any access, use or disclosure of Personal Data other than as permitted and described in this Data Protection Addendum. Such safeguards shall include, but not be limited to, reasonable administrative, physical, technical, procedural and organizational safeguards appropriate to protect the confidentiality, security, integrity and availability of Personal Data from unauthorized access, use, modification, disclosure, acquisition, transfer, destruction or loss in accordance with any and all Federal, state and local laws, statutes, rules and regulations now in effect or hereinafter adopted applicable to Service Provider's collection, use, storage, disclosure, disposal and other processing of the Personal Data in its possession, including the Gramm-Leach-Bliley Act, Massachusetts data security regulations codified at 201 C.M.R. § 17.00 et seq., and the GDPR, to the extent that such laws and regulations apply.

4.2. In assessing the appropriate level of security, the Service Provider will take into account the risks that are presented by processing the relevant Personal Data, in particular from a personal data breach.

4.3. The Service Provider will take reasonable steps to ensure the reliability of any employee, agent or contractor of the Service Provider or any Approved Sub-Processor who may have access to the

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

Personal Data, ensuring that all such individuals are subject to confidentiality undertakings or other contractual, professional or statutory obligations of confidentiality.

5. Approved Sub-Processors

5.1. The Client agrees that the Service Provider may use Approved Sub-Processors to process Personal Data.

5.2. The Service Provider may use its Existing Sub-Processors but will procure that, on or prior to the Effective Date the arrangement between it and each of its Existing Sub-Processors is governed by a written contract including terms which offer at least the same level of protection for Personal Data as set out in this Data Protection Addendum; and

5.3. With respect to each New Sub-Processor, the Service Provider will ensure that the arrangement between the Service Provider and the New Sub-Processor is governed by a written contract including terms which offer at least the same level of protection for Personal Data as those set out in this Data Protection Addendum.

6. Consumer Requests

6.1. The Service Provider will:

(a) promptly notify the Client if it or any Approved Sub-Processor receives a Data Subject Request or a Consumer Request (as defined by CCPA) in respect of any Personal Data; and

(b) taking into account the nature of the processing, assist the Client by appropriate technical and organizational measures, insofar as this is possible, for the fulfilment of the Client's obligation to respond to Data Subject Requests, provided that the Service Provider will be permitted to charge for such assistance at a reasonable rate to be agreed prior to such assistance being provided.

7. Incident and Breach Notification

7.1. Service Provider shall promptly, following discovery and allowing for a reasonable period of time for investigation, notify Client if: (1) any Personal Data is lost or cannot be accounted for; (2) there is an actual unauthorized access to or use of Personal Data; or (3) Personal Data in written or electronic form has been transmitted, disclosed, stored, or disposed of in violation of applicable law (any of which constitutes a "Security Incident"). In the event of a Security Incident, State Street will provide notice to the affected data subjects, regulatory agencies and law enforcement if Service Provider determines that such notice is required by applicable Data Protection Law or is appropriate under the circumstances in order to protect against a reasonably foreseeable harm to an affected data subject.

8. Deletion of Personal Data

8.1. Subject to Paragraph 8.2 below, the Service Provider will promptly, and to the extent technically possible, on the Client's written request, delete and procure the deletion of all copies of the Personal Data after its processing is no longer required for the purpose of the Service Provider's performance of its relevant obligations under this Data Protection Addendum or the Agreement.

8.2. The Parties agree that the Service Provider and its Approved Sub-Processors may retain Personal Data to the extent required by and for such period as required by Laws, provided that it ensures:

(a) the confidentiality of all such Personal Data; and

(b) such Personal Data is only processed as necessary for the purpose(s) specified in the Law requiring its retention.

9. Privacy Notice

9.1. State Street's Global Privacy Notice

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

SCHEDULE 1

DEFINITIONS

In this Trust Agreement:

"**Administrator**" means the El Paso Electric Company Benefits Oversight Committee or such other(s) duly appointed by the Client, who delegates to such its authorities and duties, as may determined by Client, to serve as "Administrator" of the Plan, who shall have the authorities and shall be subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement.

"Affiliate" means, with respect to any person, any other person Controlling, Controlled by, or under common Control with, such person at the time in question. For these purposes, "Control" and its derivatives "Controlled" and "Controlling" mean, with regard to any person: (i) the legal or beneficial ownership, directly or indirectly, of fifty percent (50%) or more of the issued share capital or capital stock of that person (or other ownership interest, if not a corporation); (ii) the ability to control, directly or indirectly, fifty per cent (50%) or more of the voting power in relation to that person; or (iii) the legal power to direct or cause the direction of the general management and policies of that person, provided that where Control is being determined with respect to a person that is a limited partnership, Control shall be determined by reference to the satisfaction of any of the above tests with respect to the general partner of the limited partnership.

"Alternative Assets" means derivatives, real estate, commodities, private placements, loans, infrastructure holdings, private equity holdings, hedge fund holdings or such other assets (i) not typically held in book-entry form and (ii) not typically held in accounts registered in the name of the Custodian or a Subcustodian, in each case as determined by the Custodian.

"**Authentication Procedures**" means the use of security codes, passwords, tested communications or other authentication procedures as may be agreed upon in writing by Parties from time to time for purposes of enabling the Trustee to verify that purported Proper Instructions have been originated by an Authorized Person, and will include a "Funds Transfer and Transaction Origination Policy Agreement".

"**Authorized Data Sources**" means third party sources of data and information utilized by the Trustee in the provision of the Services, including issuer and issuer group data; security characteristics and classifications; security prices (OTC and exchange traded); ratings (issuer and issue); exchange, interest, discount and coupon rates; corporate action, dividend, income and tax data; benchmark, index, composite and indice related data (including values, constituents, weights and performance); and other reference and market data and information necessary for the performance of the Services.

"**Authorized Person**" means a person authorized to give Proper Instructions and otherwise act on the Client's behalf in connection with this Trust Agreement.

"**Business Day**" means a day on which the Trustee or the relevant Subcustodian is open for business in the market or country in which a transaction or an action by a Party takes place.

"**Cash**" means cash in any currency from time to time deposited with the Custodian or Subcustodian under this Trust Agreement.

"**Cash Account**" has the meaning given to it in Section 2.1 of Appendix A.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

"**Client**" means the Party named in the preamble.

"Client Publications" means the general client publications of the Trustee from time to time available to clients and their investment managers, including the Investment Managers' Guide, Client Guide, Guide to Custody in World Markets, and FX Client Guide.

"**Code**" means the Internal Revenue Code of 1986, as amended.

"Collateral" has the meaning given to it in Section 10.1.

"Confidential Information" means all information provided by or on behalf of a party (the "Disclosing Party") to the other party (the "Receiving Party"), or collected by a Receiving Party, under or pursuant to this Trust Agreement that is marked "confidential", "restricted", "proprietary" or with a similar designation, or that the Receiving Party knows or reasonably should know is confidential, proprietary or a trade secret. The terms and conditions of this Trust Agreement (including any related fee schedule or arrangement) and any Fees will be treated as Confidential Information as to which each Party is a Disclosing Party. Confidential Information will not include information that: (i) is publicly available when provided or thereafter becomes publicly available, other than through a breach of this Trust Agreement: (ii) was known to the Receiving Party (without an obligation of confidentiality) prior to its disclosure; (iii) is independently developed by the Receiving Party without the use of other Confidential Information; (iv) is rightfully obtained on a non-confidential basis from a third party source.

"Contractual Settlement" has the meaning given to it in Section 3.2 of Appendix A.

"Corporate Actions" means warrant and option exercises, conversions, exchanges and other capital reorganizations, calls, odd lot tenders/credits, bonus rights, subscription offers/rights, puts, maturities of securities, redemptions, mergers, tender or exchange offers, and rights exercises and expirations. Corporate Actions do not include class actions.

"**Corporate Actions Deadline Date**" has the meaning given to it in Section 4.2 of Appendix A.

"**CSD**" or "**Central Securities Depository**" means an entity or generally recognised book-entry or other settlement system or clearing house, central clearing counterparty or agency, acting as a local securities depository, central securities depository or international securities depository, the use of which is customary for securities settlement activities in the jurisdiction(s) in which it holds Securities or Cash in connection with this Trust Agreement, and through which the Custodian may transfer, settle, clear, deposit or maintain Securities whether in certificated or uncertificated form and will include any services provided by any network service provider or carriers or settlement banks used by a CSD.

"**Data**" means any Confidential Information of the Trust relating to its holdings, transactions or other information that the Custodian obtains with respect to the Trust in connection with the provision of the Services under this Trust Agreement or any other agreement.

"**Delegate**" means any agent, subcontractor, consultant and other third party, whether affiliated or unaffiliated with the Custodian. The term Delegate does not include Subcustodians, CSDs, Authorized Data Sources, suppliers of information technology or related services, or Financial Market Utilities.

"**ERISA**" means the Employee Retirement Income Security Act of 1974, as amended.

"**Execution Documents**" has the meaning given to it in Section 5.1.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

"**Fees**" means the fees charged by the Trustee in consideration for providing the Services and the costs, expenses and disbursements of the Trustee to be reimbursed by the Trust or the Client, as agreed between the Parties from time to time in a separate written fee schedule, or as otherwise agreed in writing.

"**Financial Market Utility**" means any multilateral system for transferring, clearing, and settling payments, securities, and other financial transactions among or between financial institutions, including payment systems, central securities depositories, securities settlement systems, central counterparties and trade repositories.

"**Force Majeure Event**" means any event or circumstances beyond the reasonable control of the Trustee, including nationalization, expropriation, currency restrictions, suspension or disruption of the normal procedures and practices, or disruption of the infrastructure, of any securities market or CSD, interruptions in telecommunications or utilities, acts of war or terrorism, riots, revolution, acts of God or other similar events or acts.

"**Insolvency Event**" means the occurrence of any of the following events in relation to any person: (i) the person generally does not pay its debts as such debts become due, or admits in writing its inability to pay its debts generally, or makes a general assignment for the benefit of creditors; or (ii) any proceeding is instituted by or against such person seeking to adjudicate it a bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of it or its debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, or other similar official for it or for any substantial part of its property and, where any such proceeding is instituted against (but not by) such person, such person does not promptly seek dismissal of such proceeding or its motion or request to dismiss such proceeding is denied (whether or not on an initial, interim or final basis); or (iii) such person proposes or takes any corporate action to authorize any of the preceding actions or anything analogous to the foregoing events occurs in relation to such person under the laws of any jurisdiction.

"**Investment Account**" means one or more separate investment accounts within the Trust Fund, where the Administrator (in accordance with provisions of the Plan), may appoint pursuant to a written investment management agreement, one or more Investment Managers with investment discretion to direct the investment and reinvestment of all or a portion of the Trust Fund.

"**Investment Document**" means any agreement, subscription, assignment or other document evidencing in physical form an investment of the Trust, or providing for the ownership by the Trust, in each case that is acceptable to the Custodian. For the avoidance of doubt, it does not include any Security, instrument, certificate, title, agreement or other document that is accompanied by a stock power or instrument of assignment, endorsed to the Custodian or in blank.

"**Investment Fund**" means one or more separate investment accounts within the Trust Fund, that the Administrator, in accordance with provisions of the Plan, may direct the Trustee to establish.

"**Investment Manager**" means such person or entity specified as such by the Client, including its agents and delegates.

"**Law**" means any statute, ordinance, order, judgment, decree, subordinate legislation, rule or regulation promulgated by any regulatory, administrative or judicial authority or otherwise in force in any jurisdiction, applicable to a Party, that relates to the performance by such Party of the Services or obligations under this Trust Agreement.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

"**Local Market Practice**" means the customary or established practices, procedures and terms in the jurisdiction or market where a transaction occurs, including the rules and procedures of any exchange or over the counter market and any practical constraints that exist with respect to the exercise of shareholder rights, realisation of entitlements or the sale, exchange, purchase, transfer or delivery of Cash or Securities.

"**Losses**" means all losses, damages, claims, costs, expenses or other liabilities (including reasonable attorneys' fees and other litigation expenses).

"**Market Participant**" means any issuer, intermediary, exchange, transaction counterparty or other market participant.

"**Off Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**On Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**Parties**" means the parties set out at the beginning of this Trust Agreement.

"**Plan**" shall mean, unless the context indicates to the contrary, the tax qualified employee benefit plan of the Client that has adopted the trust as the funding vehicle for such plan.

"**Property**" means any Securities or other property, real or personal, or any partial interest therein, wherever situated, including, without limitation, governmental, corporate or personal obligations, trust and participation certificates, partnership interests, annuity or investment contracts issued by an insurance company, leaseholds, fee titles, mortgages and other interests in realty, preferred and common stocks, certificates of deposit, financial options and futures or any other form of option, evidences of indebtedness or ownership in foreign corporations or other enterprises or indebtedness of foreign governments, and any other evidences of indebtedness or ownership, including securities or other property of the Client, even though the same may not be legal investment for trustees under any law other than ERISA.

"**Portfolio**" means the Securities and Cash delivered to and held by the Custodian which comprise the assets of the Client over which the Custodian provides the Services pursuant to this Trust Agreement.

"**Proper Instructions**" means instructions (which may be standing instructions and which includes any security trade advice) received by the Trustee through an agreed Authentication Procedure in any of the following forms:

(i) in writing given by an Authorized Person including a facsimile transmission;

(ii) in an electronic communication as may be agreed upon between the Trustee and the Client in writing from time to time; or

(i) by such other means as may be agreed from time to time by the Trustee and the Client.

"**Representative**" has the meaning given to it in Section 18.3.1 of the Trust Agreement.

"**Schedule" or "Schedules"** are all of the schedules referenced herein and attached to this Trust Agreement.

"Secured Liabilities" means all liabilities or obligations owed by the Client (or the Plan) to the Trustee or its Affiliates relating to this Trust Agreement, including: (a) the obligations of the Client (or the Plan) to the Trustee or its Affiliates in relation to any advance of cash or securities or any other extension of credit for any purpose; (b) the obligations of the Client (or the Plan) to compensate the Trustee for the provision of the Services; and (c) the indemnity obligations of the Plan (to the extent permitted under ERISA) to the Trustee under Section 7.

EL PASO ELECTRIC COMPANY
RETIREMENT INCOME PLAN
TRUST AGREEMENT

"**Securities**" means securities and such other similar assets as the Custodian may from time to time accept into custody under this Trust Agreement.

"**Securities Account**" has the meaning given to it in Section 1.2 of Appendix A.

"**Services**" means the services to be provided by the Trustee to the Client in accordance with this Trust Agreement.

"**Special Subcustodian**" has the meaning given to it in Section 11.3 of Appendix A.

"**Subcustodian**" means any qualified bank, credit institution, trust company or other entity appointed by the Custodian to perform safekeeping, processing and other elements of the Services, including Affiliates or non-Affiliates of the Custodian.

"**Third Party Agent**" means any provider of services to the Client (other than the Custodian, a Subcustodian or Delegate under this Trust Agreement) including any Investment Manager, adviser or sub-advisor, distributor, broker, dealer, transfer agent, administrator, accounting agent, audit firm, tax firm, or law firm.

"**Trust**" means the trust set forth in the beginning of this Trust Agreement.

"**Trust Agreement**" means the agreement defined in the preamble.

"**Trust Fund**" means the assets held in the Trust.

"**Trustee**" means the Party named in the preamble.

Interpretation: Capitalized terms used in this Trust Agreement have the meanings given to them in this Schedule 1 unless otherwise defined. In this Trust Agreement references to "persons" will include legal as well as natural persons or entities, references importing the singular will include the plural (and vice versa), use of the masculine pronoun will include the feminine, use of the terms "include", "includes" or "including" shall be deemed to be followed by the phrase "without limitation" and any specific examples given following the use of such terms shall be illustrative and in no way limit the general meaning of the words preceding them and numbered schedules, exhibits or Sections will (unless the contrary intention appears) be construed as references to such schedules and exhibits hereto and Sections herein bearing those numbers and any sub-sections thereof. The schedules and exhibits hereto are hereby incorporated herein by reference.

EL PASO ELECTRIC COMPANY

BY: _____

TITLE: Victor Rueda, Vice President – Human Resources & Safety

DATE: September 11, 2023

Execution

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE

TRUST AGREEMENT

Between

EL PASO ELECTRIC COMPANY

and

STATE STREET BANK AND TRUST COMPANY

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

This post-retirement life insurance trust agreement (the "Trust Agreement" or "Agreement") made as of September 29, 2023, by and between EL PASO ELECTRIC COMPANY, a corporation organized under the laws of the State of Texas (the "Client") and STATE STREET BANK AND TRUST COMPANY, a trust company organized under the laws of the Commonwealth of Massachusetts (the "Trustee").

WITNESSETH:

WHEREAS, the Client maintains the El Paso Electric Company Retiree Welfare Benefits Plan (the "Plan") for the exclusive benefit of certain of its retired employees;

WHEREAS, the Client and its employees previously established a voluntary employees' beneficiary association trust pursuant to Section 501(c)(9) of the Internal Revenue Code of 1986, as amended (the "Code") to serve as the funding vehicle for the post-retirement life insurance benefits under the Plan (the "Trust");

WHEREAS, the authority to conduct the general operation and administration of the Plan is vested in the Benefits Oversight Committee who is the "Administrator" of the Plan and has the authorities and is subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement;

WHEREAS, the Client has appointed State Street Bank and Trust Company as successor trustee to Wells Fargo Bank, N.A. (subsequently acquired by Principal Trust Company) (the Prior Trustee"), effective August 10, 2023.

NOW, THEREFORE, the Client and the Trustee do hereby adopt this Trust Agreement as the funding vehicle for the Plan, upon the terms and conditions hereinafter set forth:

1. DEFINITIONS AND INTERPRETATION.

Defined terms and the general rules of interpretation agreed to by the Parties are set forth in Schedule 1.

2. TRUST FUND.

2.1 Trust Name. This Trust shall be known as the El Paso Electric Company Post-Retirement Life Insurance Trust.

2.2 Receipt of Assets. The Trustee shall receive and accept for the purposes hereof (a) those assets held in Trust by the Prior Trustee and (b) all sums of money and other Property paid to it by or at the direction of the Client, and shall hold, invest, reinvest, manage, administer and distribute such monies and other Property and the increments, proceeds, earnings and income thereof pursuant to the terms of this Trust Agreement and for the exclusive benefit of participants in the Plan and their beneficiaries. The Trustee need not inquire into the source of any money or Property transferred to it nor into the authority or right of the transferor of such money or Property to transfer such money or Property to the Trustee. Additional terms and conditions with respect to the custody of the assets held by the Trustee are set forth in Appendix A hereto.

2.3 Tax Exempt Status. The Client intends that the Plan and this Trust, as they may be amended from time to time, shall satisfy the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (" ERISA") and the Code, and that the Trust Fund shall be exempt from tax under Section 501 of the Code. The Client shall notify the Trustee in writing if and when the Internal Revenue Service makes any determination which is unfavorable to such exemption. Until advised to the contrary, the Trustee shall be entitled to assume that the Plan and this Trust so satisfy the applicable

provisions of ERISA and the Code and that the Trust is exempt from all federal and state income taxes, and to act in accordance with such assumptions.

2.4 No Trustee Duty Regarding Contributions. The Trustee shall not be under any duty to require payment of any contributions to the Trust Fund, or to see that any payment made to it is computed in accordance with the provisions of the Plan, or otherwise be responsible for the adequacy of the Trust Fund to meet and discharge any liabilities under the Plan. The named fiduciary responsible for ensuring timely payment of contributions to the Trust Fund is the Client.

2.5 Plan Amendments. This Trust incorporates and forms a part of Plan for which funds are held hereunder to provide post-retirement life benefits for the benefit of non-collectively bargained and collectively bargained retired and disabled employees and active non-collectively bargained and collectively bargained employees of the Company who die during the course of their employment with the Company (collectively referred to as "Retirees"), the proceeds of which will be payable to their eligible surviving spouses and dependents of collectively bargained retired and disabled employees (and their eligible spouses and dependents). The Client warrants that promptly upon the adoption of any amendment to the Plan it will furnish the Trustee with a copy of the executed amendment. The Client further agrees that no amendment of the Plan shall have the effect of changing the rights, duties, and liabilities of the Trustee without its written consent. The Trustee may rely on the latest Plan documents furnished it as above provided without further inquiry or verification. In the event of any conflict between the Plan and this Trust Agreement, with respect to the duties of the Trustee this Trust Agreement shall govern and control.

3. DISBURSEMENTS FROM THE TRUST FUND.

The Trustee shall from time to time on receipt of a Proper Instruction from the Administrator make payments out of the Trust Fund to such persons, including the Client, in such manner, in such amounts and for such purposes as may be specified in the directions of the Administrator.

The Administrator shall be responsible for ensuring that any payment directed under this Section conforms to the provisions of the Plan, this Trust Agreement, and the provisions of ERISA and the Code. Each Proper Instruction of the Administrator shall be in writing and shall be deemed to include a certification that any payment or other distribution directed thereby is one which the Administrator is authorized to direct, and the Trustee may conclusively rely on such deemed certification without further investigation. The Trustee shall not incur any liability or other damage on account of any payments or other distributions made by it pursuant to a Proper Instruction of the Administrator.

4. ADMINISTRATOR SELECTED INVESTMENT FUNDS.

4.1 In General. The Administrator, from time to time and in accordance with provisions of the Plan, may direct the Trustee to establish one or more Investment Funds, which may be invested in (i) shares of investment companies registered under the Investment Company Act of 1940, (ii) collective funds maintained by a bank or trust company, (iii) various classes of common stock of the Client, (iv) pools of insurance contracts, (v) funds managed by a registered investment manager, bank or insurance company, (vi) accounts managed by Investment Managers; and (vii) other investment funds or vehicles with the consent of the Trustee. The Trustee shall have no liability for any loss of any kind which may result by reason of the manner of division of the Trust Fund into Investment Funds, or for the investment management of these accounts, except as provided for in Section 4.4 respecting a Trustee managed investment account, if any. The Trustee shall transfer to each such Investment Fund such portion of the assets of the Trust Fund as the Administrator directs via Proper Instructions. The Trustee shall not incur any liability on account of following any Proper Instruction of the Administrator and the Trustee shall be under no duty to review the investment guidelines, objectives and restrictions so established.

All interest, dividends and other income received with respect to, and any proceeds received from the sale or other disposition of, Property held in an Investment Fund shall be credited to and reinvested in

such Investment Fund. All expenses of the Trust Fund which are allocable to a particular Investment Fund shall be so allocated and charged. The Administrator, or when so authorized, the Investment Manager, may direct the Trustee to eliminate an Investment Fund, and the Trustee shall thereupon dispose of the assets of such Investment Fund and reinvest the proceeds thereof in accordance with the directions of the Administrator or Investment Manager, as applicable.

4.2 Investment Manager Accounts. The Administrator, from time to time and in accordance with the provisions of the Plan, may appoint one or more Investment Managers with investment discretion over an Investment Account.

The Administrator shall be responsible for ascertaining that, while each Investment Manager is acting in that capacity hereunder, the following requirements are satisfied:

(a) The Investment Manager is either (i) registered as an investment adviser under the Investment Advisers Act of 1940; (ii) is not registered as an investment adviser under such Act by reason of paragraph (1) of Section 203A(a) of such Act, is registered as an investment adviser under the laws of the State (referred to in such paragraph (1)) in which it maintains its principal office and place of business, and, at the time the fiduciary last filed the registration form most recently filed by the fiduciary with such State in order to maintain the fiduciary's registration under the laws of such State, also filed a copy of such form with the Secretary of Labor, (iii) a bank as defined in that Act or (iv) an insurance company qualified to perform the services described in (b) below under the laws of more than one state;

(b) The Investment Manager has the power to manage, acquire or dispose of any assets of the Plan for which it is responsible hereunder;

(c) The Investment Manager has acknowledged in writing to the Administrator that it is a fiduciary with respect to the Plan within the meaning of Section 3(21)(A) of ERISA;

(d) The Plan provides for the appointment of the Investment Manager in accordance with Section 402(c)(3) of ERISA, and the Investment Manager is appointed as so provided;

(e) Any Investment Manager with authority to invest in assets which will be held outside the jurisdiction of the district courts of the United States is an entity described in ERISA regulations at 29 C.F.R. § 2550.404b-1(a)(2)(i).

The Administrator shall furnish the Trustee with written notice of the appointment of each Investment Manager hereunder, and of the termination of any such appointment. Such notice shall specify the assets which shall constitute the Investment Account of such Investment Manager. The Trustee shall be fully protected in relying upon the effectiveness of such appointment and the Investment Manager's continuing satisfaction of the requirements set forth above until it receives written notice from the Administrator to the contrary.

The Trustee shall conclusively presume that each Investment Manager, under its investment management agreement, is entitled to act, in directing the investment and reinvestment of the Investment Account for which it is responsible, in its sole and independent discretion and without limitation.

The Trustee shall have no liability (i) for the acts or omissions of any Investment Manager; (ii) for following Proper Instructions of an Investment Manager, the Administrator, or the Committee, which are given in accordance with this Trust Agreement; (iii) for failing to act in the absence of Investment Manager direction; or (iv) for any loss of any kind which may result by reason of the manner of division of the Trust Fund or Investment Fund into Investment Accounts.

An Investment Manager shall certify, at the request of the Trustee, the value of any Property held

in any Investment Account managed by such Investment Manager, and such certification shall be regarded as a direction with regard to such valuation. The Trustee shall be entitled to conclusively rely upon such valuation for all purposes under this Trust Agreement.

4.3 Client Managed Investment Accounts. The Trustee shall, if so directed in writing by the Administrator, segregate all or a portion of the Trust Fund held by it into one or more separate investment accounts over which the Administrator may exercise investment discretion ("Client Managed Investment Accounts"). The Administrator, by written notice to the Trustee, may at any time relinquish its powers under this Section 4.3 and direct that a Client Managed Investment Account shall no longer be maintained. In addition, during any time when there is no Investment Manager with respect to an Investment Account (such as before an investment management agreement takes effect or after it terminates), the Administrator shall direct the investment and reinvestment of such Investment Account. Whenever the Administrator is directing the investment and reinvestment of an Investment Account or a Client Managed Investment Account, the Administrator shall have the powers and duties which an Investment Manager would have under this Trust Agreement if an Investment Manager were then serving and the Trustee shall be protected in relying on the Administrator's directions without reviewing investments or making suggestions to the same extent as it would be protected under this Trust Agreement if it had relied on the directions of an Investment Manager.

4.4 Trustee Managed Investment Accounts. The Trustee shall have no investment discretion and no duty or responsibility to direct the investment and reinvestment of the Trust Fund, any Investment Fund or any Investment Account unless expressly agreed to in writing between the Trustee and the Administrator. In the event that the Trustee enters into such an agreement, it shall have the powers and duties of an Investment Manager under this Trust Agreement with regard to such Investment Account.

5. POWERS OF THE TRUSTEE.

5.1 Directed Investment Powers of the Trustee. The Trustee shall have and exercise the following powers and authority: (i) over Investment Accounts where it has express investment management discretion as provided in Section 4.4; (ii) upon direction of the Investment Manager of an Investment Account; or (iii) upon direction of the Administrator for a Client Managed Investment Account, in each case subject to receipt of Proper Instructions where applicable, the Custody Addendum set forth on Appendix A and any further restrictions noted below:

(a) To purchase, receive, or subscribe for any Property and to retain in trust such Property.

(b) To sell for cash or on credit, to grant options, convert, redeem, exchange for other Property, to enter into standby agreements for future investment, either with or without a standby fee, or otherwise to dispose of any Property at any time held by it.

(c) To settle, compromise or submit to arbitration any claims, debts, or damages, due or owing to or from the trust, to commence or defend suits or legal proceedings and to represent the trust in all suits or legal proceedings in any court of law or before any other body or tribunal.

(d) To trade in financial options and futures, including index options and options on futures and to execute in connection therewith such account agreements and other agreements in such form and upon such terms as the Investment Manager or the Administrator shall direct.

(e) To exercise all voting rights, tender or exchange rights, any conversion privileges, subscription rights and other rights and powers available in connection with any Property at any time held by it; to oppose or to consent to the reorganization, consolidation, merger, or readjustment of the finances of any corporation, company or association, or to the sale, mortgage, pledge or lease of the property of any corporation, company or association any of the Securities which may at any time be held by it and to do any act with reference

thereto, including the exercise of options, the making of agreements or subscriptions and the payment of expenses, assessments or subscriptions, which may be deemed necessary or advisable by the Investment Manager or Administrator in connection therewith, and to hold and retain any Property which it may so acquire; and to deposit any property with any protective, reorganization or similar committee, and to pay and agree to pay part of the expenses and compensation of any such committee and any assessments levied with respect to property so deposited.

(f) To borrow money in such amounts and upon such terms and conditions as shall be deemed advisable or proper by the Administrator or Investment Manager to carry out the purposes of the trust and to pledge any Property for the repayment of any such loan.

(g) To invest all or a portion of the Trust Fund in contracts issued by insurance companies, including contracts under which the insurance company holds Plan assets in a separate account or commingled separate account managed by the insurance company. The Trustee shall not be responsible for the terms of any insurance contract that it is directed to purchase and hold or for the selection of the issuer thereof or for performing any functions under such contract (other than the execution of any documents incidental thereto) as directed.

(h) To manage, administer, operate, lease for any number of years, develop, improve, repair, alter, demolish, mortgage, pledge, grant options with respect to, or otherwise deal with any real property or interest therein at any time held by it, and to hold any such real property in its own name or in the name of a nominee, with or without the addition of words indicating that such property is held in a fiduciary capacity, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(i) To renew, extend or participate in the renewal or extension of any mortgage, upon such terms as may be deemed advisable by the Investment Manager or Administrator, and to agree to a reduction in the rate of interest on any mortgage or of any guarantee pertaining thereto in any manner and to any extent that may be deemed advisable by the Investment Manager or Administrator for the protection of the Trust Fund or the preservation of the value of the investment; to waive any default, whether in the performance of any covenant or condition of any mortgage or in the performance of any guarantee, or to enforce any such default in such manner and to such extent as may be deemed advisable by the Investment Manager or Administrator; to exercise and enforce any and all rights of foreclosure, to bid on property on foreclosure, to take a deed in lieu of foreclosure with or without paying consideration therefor, and in connection therewith to release the obligation on the bond secured by such mortgage, and to exercise and enforce in any action, suit or proceeding at law or in equity any rights or remedies in respect to any such mortgage or guarantee.

(j) To hold part or all of the Trust Fund uninvested.

(k) To purchase and sell foreign currencies and enter into contracts for foreign exchange, including transactions entered into with State Street Bank and Trust Company, its agents or subcustodians.

(l) To form corporations and to create trusts to hold title to any Property, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(m) To register any Securities held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such Securities are held in a fiduciary capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(n) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases, or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(o) To deposit Cash at any bank, including State Street Bank and Trust Company (i) in any type of interest bearing investments (including, but not limited to savings accounts, money market accounts, certificates of deposit and repurchase agreements), (ii) in noninterest bearing accounts (including but not limited to checking accounts), and (iii) in common or collective investment funds managed by the Trustee.

(p) To invest in open-end and closed-end investment companies, regardless of the purposes for which such fund or funds were created, including those managed, serviced, or advised by the Trustee or an Affiliate of the Trustee, and in any partnership, limited or unlimited, joint venture and other forms of joint enterprise created for any lawful purpose.

Except as otherwise provided in this Trust Agreement, the Investment Manager of an Investment Account or the Administrator in the case of a Client Managed Investment Account shall have the power and authority, to be exercised in its sole discretion at any time and from time to time, to issue orders for the purchase or sale of Securities directly to a broker. Written notification of the issuance of each such order shall be given promptly to the Trustee by the Investment Manager or the Administrator and the confirmation of each such order shall be confirmed to the Trustee by the broker. Unless otherwise directed by the Administrator or Investment Manager through a Proper Instruction, such notification shall be authority for the Trustee to pay for Securities purchased or to deliver Securities sold as the case may be. Upon the direction of the Investment Manager or the Administrator through a Proper Instruction, the Trustee will execute and deliver appropriate trading authorizations, but no such authorization shall be deemed to increase the liability or responsibility of the Trustee under this Trust Agreement.

The Trustee shall process Corporate Actions and class actions in the manner described in the Custody Addendum set forth in Appendix A.

If the Trustee is directed by the Administrator or an Investment Manager through a Proper Instruction to purchase Securities issued by any foreign government or agency thereof, or by any corporation or other entity domiciled outside of the United States, it shall be the responsibility of the Administrator or Investment Manager, as the case may be, to advise the Trustee in writing with respect to any Laws or regulations of any foreign countries or any United States territory or possession which shall apply in any manner whatsoever to such Securities, including, without limitation, receipt by the Trustee of dividends, interest or other distributions on such Securities.

The Administrator reserves the power and authority, to be exercised in its sole discretion at any time and from time to time, to execute and deliver documents on behalf of the Trust to effect investment transactions (the "Execution Documents") in the case of a Client Managed Investment Account, and to authorize its duly appointed Investment Manager to execute Execution Documents in the case of an Investment Account. Copies of the Execution Documents will be provided to the Trustee by the Administrator or Investment Manager, as soon as practicable after execution, and the Administrator or Investment Manager shall maintain copies of the same in its own records. Subject to Section 1.4 of Appendix A, the Administrator hereby directs the Trustee to accept into the Trust all assets that are invested in by the Trust, pursuant to the execution of Execution Documents by the Administrator or the Investment Manager.

5.2 Administrative Powers of the Trustee. Notwithstanding the appointment of an Investment Manager, the Trustee shall have the following powers and authority, to be exercised in its sole discretion, with respect to the Trust Fund:

(a) To employ suitable agents, custodians and counsel and to pay their reasonable expenses

and compensation.

(b) To appoint ancillary trustees to hold any portion of the assets of the trust and to pay their reasonable expenses and compensation.

(c) To register any Securities held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such Securities are held in a fiduciary capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(d) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(e) Generally, to do all ministerial acts, whether or not expressly authorized, which the Trustee may deem necessary or desirable in carrying out its duties under this Trust Agreement.

Notwithstanding anything in the Plan or this Trust Agreement to the contrary, the Trustee shall not be required by the Client, the Administrator or any Investment Manager to engage in any action, nor make any investment which constitutes a prohibited transaction or is otherwise contrary to the provisions of ERISA or which is otherwise contrary to Law or to the terms of the Plan or this Trust Agreement.

5.3 Record Retention. The Trustee shall retain its records and accountings relating to the Trust as long as necessary for the proper administration thereof and at least for any period required by ERISA or other applicable law.

6. STANDARD OF CARE.

6.1 Standard of Care. The Trustee acknowledges that, in its capacity as a directed trustee, limited fiduciary status and duties apply to its performance of certain obligations pursuant to Section 403(a)(1) of ERISA when acting upon Proper Instructions. The Trustee agrees that, to the extent it performs duties under this Trust Agreement as a fiduciary under Section 3(21) of ERISA, it will perform its duties under this Trust Agreement with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Where the Trustee does not act as a fiduciary under Section 3(21) of ERISA, the Trustee will (a) in the performance of its duties set forth in Appendix A, exercise the reasonable skill, care and diligence expected of a professional provider of custody services to institutional investors and act in good faith and in accordance with generally applicable industry standards and practices, or (b) for all other purposes, exercise reasonable care.

6.2 Liability for Losses. Subject to the limitations and exclusions of liability in this Trust Agreement, the Trustee will be liable for Losses suffered or incurred by the Client to the extent such Losses are caused by the negligence, willful default, or fraud of the Trustee in the performance of its obligations under this Agreement. The parties agree that "negligence" will mean a breach by the Trustee of its obligation to exercise the standard of care described in Section 6.1 above.

6.3 Responsibility for Delegates. The Trustee will be liable to the Client for the acts and omissions of its Delegates as if it had committed such acts and omissions itself.

6.4 Force Majeure. Neither Party will be in breach of this Trust Agreement or liable for Losses arising by reason of the occurrence of a Force Majeure Event that prevents, hinders or delays it from or in performing its obligations under this Agreement, except, in the case of the Trustee, to the extent that such Losses are attributable to its breach of its business continuity obligations under this Trust Agreement.

6.5 No Liability for Certain Losses. Except as may be required by ERISA, the Trustee will not be liable to the Plan for any Losses to the extent they arise from or are caused by:

6.5.1 the Trustee acting upon any (i) Proper Instruction or (ii) if a Proper Instruction is not required in a particular circumstance, any other direction, instruction, information, notice, request, consent, certificate, instrument or other writing that the Trustee reasonably believes, subject to Section 8.5, below, to be genuine and to be signed or otherwise given by or on behalf of a person authorized to do so;

6.5.2 a delay in processing or any failure to process any Proper Instruction to the extent permitted under Section 8, subject to the satisfaction of the conditions set out in that Section, as applicable;

6.5.3 the failure of the Client or any Authorized Person to comply with the Client's obligations under this Agreement; or

6.5.4 any other acts and omissions of the Client, Investment Manager, any Authorized Person, or any third party, including any Third Party Agent, Market Participant, Authorized Data Source, CSD, or Financial Market Utility.

6.6 Mutual Exclusion of Indirect and Other Loss. Notwithstanding any other provision of this Trust Agreement, neither Party will be liable to the other for: (i) indirect, consequential, speculative, punitive or special Loss or (ii) loss of profit, revenue, opportunity, business, anticipated savings, goodwill and damage to reputation, or Loss of any similar kind; in each case whether or not a Party has been advised of or otherwise could have anticipated the possibility of such losses, except to the extent any such losses cannot be excluded or limited as a matter of Law applicable to either Party.

7. INDEMNITY.

7.1 Indemnity by Client. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Trust Agreement, including Section 6.6, the Plan (to the extent permitted by ERISA), and the Client (to the extent the Plan is not permitted to indemnify under ERISA) will indemnify the Trustee against any direct Losses incurred by the Trustee (including Losses incurred by Subcustodians or Delegates for which the Trustee is liable) in connection with the performance of its duties under this Trust Agreement, including acting on Proper Instructions and Losses incurred by virtue of being the holder of record of the Plan's assets, except, in each case, to the extent such Losses result from the Trustee's negligence, wilful default or fraud (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.2 Indemnity by Trustee. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Agreement, including Section 6.5 and 6.6, the Trustee will indemnify the Client and the Plan against any direct Losses incurred by the Client or Plan, in each case, to the extent such Losses result from the negligence, wilful default or fraud of the Trustee (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.3 Duty to Mitigate. Each Party will use reasonable efforts to mitigate any Losses in respect of which it claims indemnification under this Trust Agreement.

7.4 Notice of Claims. A Party seeking indemnification under this Section ("Indemnified Party") against a third-party claim ("Indemnified Claim") will promptly provide written notice of such claim to the Party obligated to indemnify ("Indemnifying Party"). The failure to notify the Indemnifying Party will not relieve such Party of any liability under this Section, except to the extent that such failure materially prejudices the investigation and/or defense of the Indemnified Claim.

7.5 Right to Control Third Party Claims. The Indemnifying Party will, at its own expense, be entitled but not obligated to control and direct the investigation and defense of any Indemnified Claim,

except where the Trustee is the Indemnified Party and is seeking indemnification from multiple customers for claims based on common facts or otherwise related to the Indemnified Claim, in which case the Trustee will have the right to control and direct the investigation and defense of such claim, at the expense of (i) the Indemnifying Party or (ii) all of the customers from which indemnification is sought, including the Indemnifying Party, pro rata, as appropriate. Where the Indemnifying Party controls and directs the investigation of the defence of the Indemnified Claim, the Indemnified Party may retain separate counsel at its own expense. If a conflict of interest exists between the Parties with respect to the defense of such claim, the reasonable cost of separate counsel will be an indemnified expense.

7.6 Settlement of Claims. Neither Party may settle an Indemnified Claim without the consent of the other Party, which consent will not be unreasonably withheld, conditioned or delayed, provided that the Indemnifying Party will have the right to settle an Indemnified Claim without the consent of the Indemnified Party if such settlement:

7.6.1 involves only the payment of money;

7.6.2 fully and unconditionally releases the Indemnified Party from any liability in exchange for the amount paid in settlement; and

7.6.3 does not include any admission of fault or liability in relation to the Indemnified Party.

7.7 Cooperation. In all cases, each Party will, as applicable, provide reasonable cooperation and assistance to the other Party and keep the other Party apprised as to the status of the Indemnified Claim, including any discussions relating to the settlement of the claim and the details of any settlement offer.

8. PROPER INSTRUCTIONS AND AUTHENTICATION PRODEDURES.

8.1 Dealings in Cash and Securities. The Trustee will conduct all transactions and dealings in Cash and Securities under this Trust Agreement in accordance with Proper Instructions, subject to any other rights it may have under this Trust Agreement.

8.2 Appointment of Authorized Persons. The Client and any Investment Manager will provide the Trustee with a list of the names and (if applicable) signatures, of Authorized Persons in a form agreed by the Parties from time to time. The Trustee may rely upon the authority of each Authorized Person until it receives written notice to the contrary from the Client and has had a reasonable time to act on such notice.

8.3 Authentication Procedures. The Trustee will implement Authentication Procedures with the Client and with any Investment Manager appointed by the Client. The Client acknowledges that the Authentication Procedures are intended to provide a commercially reasonable degree of protection against unauthorized transactions of certain types and are not designed to detect errors. Any purported Proper Instruction received by the Trustee in accordance with an Authentication Procedure will be taken to have originated from an Authorized Person and will constitute a Proper Instruction under this Trust Agreement for all purposes.

8.4 Security Measures by Client. The Client is responsible for ensuring that appropriate security measures are implemented to prevent unauthorized disclosure or use of any Authentication Procedure made available to it or an Investment Manager in connection with this Trust Agreement.

8.5 No Duty to Verify. Except to the extent the Trustee is required to comply with Authentication Procedures under Section 8.3 above, the Trustee has no duty to verify that personnel of the Client or any Investment Manager engaged in investment activity are authorized to do so or that any instructions received by the Trustee are duly authorized.

8.6 Decline/Delay in Processing. The Trustee reserves the right to decline to process or delay the processing of any purported Proper Instruction where:

8.6.1 the Trustee, in good faith, determines that the instruction may not have been properly authorized;

8.6.2 the instruction is inaccurate, incomplete or unclear;

8.6.3 the instruction conflicts with the terms of this Trust Agreement or any Law applicable to either Party, Local Market Practice or the Trustee's standard operating procedures; or

8.6.4 the Trustee has not been given a reasonable time period to effect the instruction.

In these circumstances, the Trustee will promptly seek authentication, clarification, correction or amendment of any Proper Instruction, as the case may be.

8.7 Cancellation and Amendment. The Trustee will use reasonable efforts to act on Proper Instructions to cancel or amend previously issued Proper Instructions if:

8.7.1 the Trustee has not already acted on the previously issued Proper Instructions; and

8.7.2 the Proper Instruction to cancel or amend is received before the applicable deadlines specified from time to time in the Client Publications or applicable event notification.

The Trustee is not responsible or liable if the request to cancel or amend cannot be satisfied.

8.8 Oral Instructions. If applicable, the Trustee may act on an oral instruction (given in accordance with an agreed Authentication Procedure) before receipt of any written confirmation and irrespective of whether any subsequent written confirmation conforms to the oral instruction.

8.9 Conflicting Claims. If there is a dispute or conflicting claim with respect to Securities or Cash held by the Trustee under this Trust Agreement, the Trustee is entitled to refuse to act on a Proper Instruction of the Client or any Investment Manager in relation to the particular Securities or Cash until either (i) the dispute or conflicting claims have been finally determined by a court of competent jurisdiction or settled by agreement between the conflicting parties, and the Trustee has received written evidence satisfactory to it of such determination or agreement, or (ii) the Trustee has received an indemnity, security or both, satisfactory to it and sufficient to hold it harmless from and against any and all Losses which the Trustee may incur as a result of its actions.

8.10 Matters Not Requiring Proper Instructions. The Client authorizes the Trustee in the absence of Proper Instructions to attend to all matters which may be necessary or appropriate to discharge its duties and give effect to the terms of this Trust Agreement, including the execution, in the Client's name or on its behalf, of any affidavits, certificates of ownership and other certificates and documents relating to Securities.

9. TAXES AND TRUSTEE COMPENSATION.

The Trustee shall pay out of the Trust Fund all real and personal property taxes, income taxes and other taxes of any and all kinds levied or assessed under existing or future laws against the Trust Fund. Until advised to the contrary by the Administrator, the Trustee shall assume that the Trust is exempt from all Federal and State income taxes, and shall act in accordance with that assumption.

The Trustee shall be paid such reasonable compensation in a written fee schedule or otherwise as shall from time to time be agreed upon by the Client and the Trustee in writing. Such compensation and

all reasonable and proper expenses of administration of the Trust, including counsel Fees, shall be withdrawn by the Trustee out of the Trust Fund unless paid by the Client, but such compensation and expenses shall be paid by the Client if the same cannot by operation of law be withdrawn from the Trust Fund.

Payments from the Trust Fund under this Section 9 may be made without approval or direction of the Administrator.

In connection with the performance of its obligations under this Trust Agreement, the Trustee will hold cash balances from time to time and will have no liability for interest from the date of receipt until the disbursement of such cash balances in accordance with Proper Instructions received from the Administrator, and the Trustee has had a reasonable opportunity to act thereon. The Trustee may also hold cash balances awaiting distribution from the Plan without liability for interest until checks issued by the Trustee are presented for payment by the payee or until a reasonable time after the Trustee is otherwise instructed as to the disposition of such assets, the timing of which is beyond the control of the Trustee. Any "float" earned by the Trustee shall constitute a part of the Trustee's overall compensation for performance of Services.

To assist the Administrator in estimating the amount of float earned by the Trustee, general information associated with account activity (including disbursement and investment activity) is available to the Client on MyStateStreet, and for such short-term U.S. balances, the rate of return earned by the Trustee is generally equivalent to the current Fed Funds rate, less FDIC insurance charges.

10. CREDITORS RIGHTS.

10.1 Security. To secure the full and timely satisfaction of all Secured Liabilities, the Client on behalf of the Plan hereby grants, to the maximum extent permitted by Law, including ERISA, to the Trustee a security interest in and a right of retention, sale and set off, as applicable, against (i) all of the Plan's Cash, Securities, and other assets, whether now existing or hereafter acquired, in the possession or under the control of the Trustee or its Subcustodians pursuant to this Trust Agreement and (ii) any and all cash proceeds of any of the above (collectively, the "Collateral").

10.2 Rights of the Trustee. In the event that the Plan fails to satisfy in full any of the Secured Liabilities as and when due and payable, the Trustee will have, in addition to all other rights and remedies arising under this Trust Agreement or under applicable Law, the rights and remedies of a secured party under applicable Law. Without prejudice to the Trustee's other rights and remedies, the Trustee will be entitled, in each case as and to the extent reasonably necessary to satisfy in full the Secured Liabilities and any related transaction expenses, to (a) exercise its right of retention and withhold delivery of any Collateral and otherwise refuse to act on any Proper Instruction relating to such Collateral, (b) sell or otherwise realize any Collateral, and (c) set off the net proceeds of such sale or realization of Collateral and/or the amount of any deposit balances standing to the credit of the Client in any Cash Account(s) against such Secured Liabilities.

10.3 Exercise of Rights. The Trustee may exercise its rights and remedies against the Collateral in any manner (including by any method, at any time or place, and on any terms) as it deems, in good faith, to be commercially reasonable under the circumstances, and will use reasonable efforts to effect any sale of Collateral at the prevailing market price in the relevant market. Without limiting the foregoing, the Client on behalf of the Plan acknowledges that it will be commercially reasonable for the Trustee to, among other things: (i) accelerate or cause the acceleration of the maturity of any fixed term deposits comprised in the Collateral and (ii) effect any necessary currency conversions through its own trading desk at such exchange rates as it determines in its reasonable discretion, which rates may include a mark-up from the rates the Trustee receives on the interbank market.

10.4 Notice. The Trustee will use reasonable efforts to give the Client (on behalf of the Plan)

prior notice of any exercise of the right to sell or otherwise realize Collateral set forth above, provided that the Trustee will not be obligated to give prior notice or delay exercising its rights pending or after the provision of such notice if, in its reasonable judgment, giving such notice or any such delay would prejudice its ability to obtain satisfaction in full of the Secured Liabilities.

11. FOREIGN EXCHANGE.

11.1 Generally. Upon receipt of Proper Instructions, the Trustee shall facilitate the processing and settlement of foreign exchange transactions. Such foreign exchange transactions do not constitute part of the Services provided by the Trustee under this Trust Agreement.

11.2 Client Elections. The Client or the Investment Manager (acting on behalf of the Plan) may elect to enter into and execute foreign exchange transactions with third parties that are not affiliated with the Trustee, with State Street Global Markets, which is the foreign exchange division of State Street Bank and Trust Company and its affiliated companies ("SSGM"), or with a subcustodian. Where the Client or the Investment Manager gives Proper Instructions for the execution of a foreign exchange transaction using an indirect foreign exchange service described in the Client Publications, the Client (or its Investment Manager) instructs the Trustee, on behalf of the Plan, to direct the execution of such foreign exchange transaction to SSGM or, when the relevant currency is not traded by SSGM, to the applicable subcustodian. The Trustee shall not have any agency (except as contemplated in the preceding sentence), trust or fiduciary obligation to the Client, or the Investment Manager or any other person in connection with the execution of any foreign exchange transaction. The Trustee shall have no responsibility under this Trust Agreement for the selection of the counterparty to, or the method of execution of, any foreign exchange transaction entered into by the Investment Manager or the Client (on behalf of the Plan) or the reasonableness of the execution rate on any such transaction.

11.3 Client Acknowledgement. The Client (on behalf of the Plan) acknowledges that in connection with all foreign exchange transactions entered into by the Client (or its Investment Manager acting on the Plan's behalf) with SSGM or any subcustodian, SSGM and each such subcustodian:

11.3.1 shall be acting in a principal capacity and not as broker, agent or fiduciary to the Client, the Plan or its Investment Manager;

11.3.2 shall seek to profit from such foreign exchange transactions, and are entitled to retain and not disclose any such profit to the Client, the Plan or its Investment Manager; and

11.3.3 shall enter into such foreign exchange transactions pursuant to the terms and conditions, including pricing or pricing methodology, (a) agreed with the Client or the Investment Manager on behalf of the Plan from time to time or (b) in the case of an indirect foreign exchange service (i) as established by SSGM and set forth in the Client Publications with respect to the particular foreign exchange execution services selected by the Client or the Investment Manager on behalf of the Plan or (ii) as established by the subcustodian from time to time.

11.4 Transactions by State Street. The Trustee or its affiliates, including SSGM, may trade based upon information that is not available to, and may enter into transactions for its own account or the account of clients in the same or opposite direction to the transactions entered into with the Client (or its Investment Manager acting on the Plan's behalf), and shall have no obligation under this Trust Agreement to share such information with or consider the interests of their respective counterparties, including, where applicable, the Client or the Investment Manager (acting on the Plan's behalf).

12. ACCOUNTS OF THE TRUSTEE.

The Trustee shall maintain or cause to be maintained suitable records, data and information relating to its functions hereunder.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

The Trustee shall keep accurate and detailed accounts of all investments, receipts, disbursements, and other actions hereunder, and such other records as the Administrator shall from time to time direct, as agreed to by the Trustee.

Within sixty (60) days after the close of each fiscal year of the Trust and at more frequent intervals if agreed to by the Parties hereto, and within sixty (60) days after the removal or resignation of the Trustee as provided hereunder, the Trustee shall render to the Client a written statement and account showing in reasonable summary the investments, receipts, disbursements, and other transactions engaged in during the preceding fiscal year or period, and setting forth the assets and liabilities of the Trust Fund. Unless the Client shall have filed with the Trustee written exceptions or objections to any such statement and account within sixty (60) days after receipt thereof, the Client shall be deemed to have approved such statement and account, and in such case or upon written approval by the Administrator of any such statement and account, the Trustee shall be released and discharged with respect to all matters and things embraced in such statement and account as though it had been settled by a decree of a court of competent jurisdiction in an action or proceeding in which the Client, all other necessary parties and all persons having any beneficial interest in the Trust Fund were parties.

The Trustee shall determine the fair market value of assets of the Trust Fund based upon valuations provided by Investment Managers, information and financial publications of general circulation, statistical and valuation services, records of security exchanges, appraisals by qualified persons, transactions and bona fide offers in assets of the type in question and other information customarily used in the valuation of property.

The Client or its delegate, each Investment Manager, and the Trustee shall file such descriptions and reports and make such other publications, disclosures, registrations and other filings as are required of them respectively by ERISA.

Nothing contained in this Trust Agreement or in the Plan shall deprive the Trustee of the right to have a judicial settlement of its account. In any proceeding for a judicial settlement of the Trustee's accounts or for instructions in connection with the Trust, the only necessary party thereto in addition to the Trustee shall be the Client, and no participant or other person having or claiming any interest in the Trust Fund shall be entitled to any notice or service of process (except as required by law). Any judgment, decision or award entered in any such proceeding or action shall be conclusive upon all interested persons.

13. AUDIT RIGHTS.

13.1 Client and Regulator Access. The Trustee will allow the Client and the Client's regulators or supervisory authorities to perform periodic on-site audits as may be reasonably required to examine the Trustee's performance of the Services.

13.2 Frequency and Scope. For inspections requested by the Client that are not the result of an audit of the Plan or Trust by the government, an administrative tribunal or a court (such request will include reasonable advance notice) and agreed to by the Trustee, the Trustee reserves the right to impose reasonable limitations on the number, frequency, timing, and scope of such audits.

13.3 Limitations on Disclosure. Nothing contained in this Section will obligate the Trustee to provide access to or otherwise disclose: (i) any information that is unrelated to the Client and the provision of the Services to the Client; (ii) any information that is treated as confidential under the Trustee's corporate policies, including, without limitation, internal audit reports, compliance or risk management plans or reports, work papers and other reports, and information relating to management functions; or (iii) any other documents, reports, or information that the Trustee is obligated or entitled to maintain in confidence as a matter of law or regulation. In addition, any access provided to technology will be limited to a demonstration by the Trustee of the functionality thereof and a reasonable opportunity to communicate with the Trustee's personnel regarding such technology.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

14. RESIGNATION AND REMOVAL OF TRUSTEE.

The Trustee may resign at any time by giving ninety (90) days' prior written notice to the Client, which notice may be waived by the Client. The Client may remove the Trustee at any time upon ninety (90) days' prior written notice to the Trustee, which notice may be waived by the Trustee. In case of the resignation or removal of the Trustee, the Client shall appoint a successor trustee. Any successor trustee shall have the same powers and duties as those conferred upon the Trustee named in this Trust Agreement. The removal of a Trustee and the appointment of a new Trustee shall be by a written instrument delivered to the Trustee. Upon the appointment of a successor trustee and after the final account of the resigning or removed Trustee has been approved or settled, the resigning or removed Trustee shall transfer or deliver the assets held in the Trust to such successor trustee, provided that the Trustee may reserve such reasonable amount as the Trustee may deem necessary for outstanding and accrued charges against the Trust Fund.

This Trust Agreement may be terminated by either the Trustee or the Client, without penalty, upon notice to the other party, with immediate effect or at such later date stated in the notice, in the event such other party commits any material and continuing breach under this Trust Agreement and such breach, although capable of remedy, has not been remedied within thirty (30) days of written notice by a party to the breaching party or, if such breach is not capable of cure within such thirty (30) day period, within a reasonable time mutually agreed to in writing by the Parties, provided that such breaching party commences to cure such breach within such thirty (30) day period and diligently pursues the cure of such breach to completion, provided, however, that no cure period will apply to a material and continuing breach that is incapable of cure.

In addition, Trustee may terminate this Trust Agreement, without penalty, upon notice to the Client with immediate effect or at such later date stated in the notice, in the event the Client does not satisfy Trustee's know-your-customer/anti-money laundering compliance policies.

15. AMENDMENT AND TERMINATION.

15.1 Prohibition on Diversion. Except as expressly provided in herein, at no time shall any part of the corpus or income of the Trust Fund be used for, or diverted to, purposes other than for the benefit of the members or their respective beneficiaries. The assets of the Trust Fund shall never inure to the benefit of the Client and shall be held for the exclusive purpose of providing benefits to such members and their respective beneficiaries and defraying reasonable expenses of administering the Plan and the Trust. No part of the net earnings of the Trust Fund shall inure to the benefit of any shareholder or individual other than through the payment of benefits under the Plan.

In the case of a contribution that is made by the Client by a mistake of fact, this Section shall not prohibit, at the written direction of the Client, the return to the Client of such contribution within one year after the payment of the contribution, but only to the extent the amount so returned is not subject to penalty under Section 4976 of the Code.

15.2 Amendment. Subject to Section 15.1, this Trust Agreement may be amended by written agreement between the Trustee and the Client at any time or from time to time, and in any manner by written agreement of the Client and Trustee.

15.3 Termination. If the Plan is terminated, this Trust Agreement shall nevertheless continue in effect until the Trust Fund has been distributed in accordance with the provisions of the Plan pursuant to directions under Section 3. In the event any assets remain after the satisfaction of all liabilities under the Plan, such assets shall be used for the exclusive benefit of employees of the Client and their beneficiaries, By way of example, and not limitation, any assets remaining in the Trust Fund after the payment of all benefits under the Plan may be used to provide other health and welfare benefits to employees, to provide

a premium holiday to employees with respect to other Client health and welfare plans or distributed to participants. The Trust Fund shall terminate when no such assets remain.

15.4 Transfer to Other Fund. If pursuant to directions under Section 3 the entire Trust Fund is transferred to a funding agency for the Plan that is not a trustee, this Trust shall thereupon terminate.

16. BUSINESS CONTINUITY, INTERNAL CONTROLS AND INFORMATION SECURITY.

16.1 Business Continuity Plans. The Trustee will at all times maintain a business contingency plan and a disaster recovery plan and will take commercially reasonable measures to maintain and periodically test such plans. The Trustee will implement such plans following the occurrence of an event which results in an interruption or suspension of the Services to be provided by the Trustee.

16.2 Internal Controls Review and Report. The Trustee will retain a firm of independent auditors to perform an annual review of certain internal controls and procedures employed by the Trustee in the provision of the Services and issue a standard System and Organization Controls 1 or equivalent report based on such review. The Trustee will provide a copy of the report to the Client upon request.

16.3 Information Security Systems and Controls. The Trustee will maintain commercially reasonable information security systems and controls, which include administrative, technical, and physical safeguards that are designed to: (i) maintain the security and confidentiality of the Client's data; (ii) protect against any anticipated threats or hazards to the security or integrity of the Client's data, including appropriate measures designed to meet legal and regulatory requirements applying to the Trustee; and (iii) protect against unauthorized access to or use of the Client's data.

16.4 Virus Detection. The Trustee will at all times employ a current version of one of the leading commercially available virus detection software programs to test the hardware and software applications used by it to deliver the Services for the presence of any computer code designed to disrupt, disable, harm, or otherwise impede operation.

17. CONFIDENTIALITY AND USE OF DATA.

17.1 Confidentiality.

17.1.1 No Disclosure Without Consent. Subject to Section 17.2 and Section 17.3, Confidential Information will not be disclosed by the Receiving Party to any third party without the prior consent of the Disclosing Party.

17.1.2 No limitations of obligations under Trust Agreement or at Law. Except as expressly contemplated by this Trust Agreement, nothing in this Section 17 will limit the confidentiality and data-protection obligations of the Trustee and its Affiliates under this Trust Agreement and Law applicable to the Trustee.

17.2 Use of Confidential Information and Data.

17.2.1 Use of Data of Confidential Information and Data Generally. Subject to this Section 17.2 and Section 17.3, all Confidential Information, including Data, will be used by the Receiving Party for the purpose of providing or receiving Services, as applicable, pursuant to this Trust Agreement or otherwise discharging its obligations under this Trust Agreement.

17.2.2 Use of Data for Indicators. The Trustee and its Affiliates may use Data to develop, publish or otherwise distribute to third parties certain investor behavior "indicators" or

"indices" that represent broad trends in the flow of investment funds into various markets, sectors or investment instruments (collectively, the "Indicators"), but only so long as (i) the Data is combined or aggregated with (A) information relating to other customers of the Trustee and/or (B) information derived from other sources, in each case such that the Indicators do not allow for attribution to or identification of such Data with the Client or the Plan, (ii) the Data represents less than a statistically meaningful portion of all of the data used to create the Indicators and (iii) the Trustee publishes or otherwise distributes to third parties only the Indicators and under no circumstance publishes, makes available, distributes or otherwise discloses any of the Data to any third party, whether aggregated, anonymized or otherwise, except as expressly permitted under this Trust Agreement.

17.2.3 Economic Benefit from Indicators. The Client acknowledges that the Trustee may seek and realize economic benefit from the publication or distribution of the Indicators.

17.3 Disclosure of Confidential Information and Data.

17.3.1 Disclosure of Confidential Information to Representatives. The Receiving Party may disclose the Disclosing Party's Confidential Information without the Disclosing Party's consent to its attorneys, accountants, auditors, consultants and other similar advisors that have a reasonable need to know such Confidential Information ("Representatives"), provided such Confidential Information is disclosed under obligations of confidentiality that prohibit the disclosure or use of such Confidential Information by the Representatives for any purpose other than the specific engagement with the Receiving Party for which the Representative has been retained and that are otherwise no less restrictive than the confidentiality obligations contained in this Trust Agreement. The Parties acknowledge that use of Confidential Information by a Representative to represent its other clients in dealing with the Disclosing Party would constitute a breach of this Section 17.3. Where the Trustee is the Receiving Party, "Representatives" will include its Affiliates and Service Providers (as defined below).

17.3.2 Disclosure and Use of Confidential Information by Trustee. The Trustee may disclose and permit use (as applicable) of Confidential Information of the Plan without the Client's consent:

17.3.2.1 to its Affiliates and any of its third-party agents and service providers ("Service Providers") in connection with the provision of Services, the discharge of its obligations under this Trust Agreement or the carrying out of any Proper Instruction, including in accordance with the standard practices or requirements of any Financial Market Utility or in connection with the settlement, holding or administration of Cash, Securities or other instruments;

17.3.2.2 to its Affiliates in connection with the management of the businesses of the Trustee and its Affiliates, including, but not limited to, financial and operational management and reporting, risk management, legal and regulatory compliance and client service management and marketing.

Where possible, such Confidential Information must be disclosed under obligations of confidentiality or in a manner consistent with industry practice.

17.3.3 Confidential Information and Cloud Computing and Storage. Each Party may store Confidential Information with third-party providers of information technology services, and permit access to Confidential Information by such providers as reasonably necessary for the receipt of cloud computing and storage services and related hardware and software maintenance and support. Such Confidential Information must be disclosed under obligations of confidentiality.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

17.3.4 Disclosure of Confidential Information to Comply with Law. The Receiving Party may disclose the Disclosing Party's Confidential Information to the extent such disclosure is required to satisfy any legal requirement (including in response to court-issued orders, investigative demands, subpoenas or similar processes or to satisfy the requirements of any applicable regulatory authority).

17.3.5 Harm of Unauthorized Disclosure of Confidential Information. Each Party acknowledges that the disclosure to any non-authorized third party of Confidential Information or the use of Confidential Information in breach of this Trust Agreement, may immediately give rise to continuing irreparable injury inadequately compensable in damages at law, and in such cases the Receiving Party agrees to waive any defense that an adequate remedy at law is available if the Disclosing Party seeks to obtain injunctive relief against any such breach or any threatened breach.

17.3.6 Responsibility for Representatives. Each Party will be responsible for any use or disclosure of Confidential Information of the Disclosing Party in breach of this Trust Agreement by its Representatives as though such Party had used or disclosed such Confidential Information itself.

17.3.7 No Disclosure to Trustee Asset Manager Division. Unless the Trustee or an Affiliate has been engaged to act as an Investment Manager for the Plan, in no event will the Trustee allow representatives of its asset management division or Affiliates engaged in asset management to have access to or to use Confidential Information of the Client, including Data.

18. DELEGATION.

18.1 Use of Delegates. The Trustee shall have the right, without prior notice to or the consent of the Client or the Plan, to employ Delegates to provide or assist it in the provision of any part of the Services other than Services required by Law applicable to either Party to be performed by a qualified custodian or CSD. Unless otherwise agreed in a fee schedule, the Trustee will be responsible for the compensation of its Delegates.

18.2 Provision of Information Regarding Delegates. The Trustee will provide or make available to the Client on a quarterly or other periodic basis information regarding its global operating model for the delivery of the Services, which information shall include the identities of Delegates affiliated with the Trustee that perform or may perform any part of the Services, and the locations from which such Delegates perform Services, as well as such other information about its Delegates as the Client may reasonably request from time to time.

18.3 Third Parties. Nothing in this Section limits or restricts the Trustee's right to use Affiliates or third parties to perform or discharge, or assist it in the performance or discharge of, any obligations or duties under this Trust Agreement other than the provision of the Services.

19. OBLIGATIONS OF THE CLIENT.

19.1 Provide Information. The Client will provide or cause to be provided to the Trustee all data, information, documents and instructions concerning the Client and the investment activity of the Client in relation to the Portfolio as may be reasonably necessary or as the Trustee may reasonably request, in each case in a complete, accurate and timely manner, in order to enable the Trustee to discharge its duties under this Agreement.

19.2 AML Compliance. The Client will comply with all applicable anti-money laundering,

sanctions or other financial crime legislation applicable to it and will provide the Trustee with all necessary sanctions questionnaires, declarations and other documentation in order for the Trustee to comply with its anti-money laundering policy.

19.3 Pass Through Representations. To the extent that the Trustee is required to give (or is deemed to have given) any representation, warranty or undertaking to a third party relating to the Client in accordance with normal market practice in connection with the execution of transaction documents or the issuance or transmission of trade notifications, confirmations and/or settlement instructions, whether using facsimile transmission, industry messaging or matching utilities and/or the proprietary software of Third Party Agents and Market Participants, CSDs or other Financial Market Utilities, the Client will be deemed to have made such representation, warranty or undertaking to the Trustee.

19.4 Operational Requirements. The Client will adhere to the deadlines and other operational requirements set out in the Client Publications, to facilitate meeting the requirements of CSD's, Third Party Agents and Market Participants.

19.5 Client Review and Notification. In accordance with standard market practice, the Client will employ commercially reasonable review and control measures with respect to information provided by the Trustee under this Agreement and give the Trustee prompt written notice of any suspected error or omission or the Client's inability to access any such Information so as to prevent, stem or mitigate any Losses that may arise from the use of inaccurate data or the inaccessibility of data.

19.6 Fees. In consideration for the Services provided by the Trustee, the Client will pay the Fees as agreed in a written fee schedule or otherwise agreed in writing by the Parties from time to time. The Fees and any other amounts payable under this Agreement are stated exclusive of any sales, use, excise, value-added, services, consumption, withholding or other similar tax that is assessed on the supply of the Services under an agreement. Any such tax will be payable by the Client.

19.7 Client Publications. The Client will ensure that it provides the Trustee with and regularly updates, as necessary, e-mail and other contact details for its representatives to enable timely distribution and receipt of the Client Publications.

20. MISCELLANEOUS.

20.1 Governing Law. To the extent not inconsistent with ERISA, and except as preempted by ERISA, as heretofore or hereafter amended, the provisions of this Trust Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Massachusetts. The Parties hereby submit to the jurisdiction of the State and Federal Courts located in a mutually agreeable venue including any appellate courts thereof.

20.2 Non-Alienation of Benefits. No benefit to which a participant or his beneficiary is or may become entitled under the Plan shall at any time be subject in any manner to alienation or encumbrance, nor be resorted to, appropriated or seized in any proceeding at law, in equity or otherwise. No participant or other person entitled to receive a benefit under the Plan shall, except as specifically provided in the Plan, have power in any manner to transfer, assign, alienate or in any way encumber such benefit under the Plan, or any part thereof, and any attempt to do so shall be void.

20.3 Duration of Trust. Unless sooner terminated, the Trust created under this Trust Agreement shall continue for the maximum period of time which the laws of the Commonwealth of Massachusetts shall permit.

20.4 No Guarantees. Neither the Client nor the Trustee guarantees the Trust Fund from loss or depreciation, nor the payment of any amount which may become due to any person under the Plan or this

Trust Agreement.

20.5 Duty to Furnish Information. Both the Client and the Trustee shall furnish to the other any documents, reports, returns, statements, or other information that the other reasonably deems necessary to perform its duties imposed under the Plan or this Trust Agreement or otherwise imposed by law.

20.6 Parties Bound. This Trust Agreement shall be binding upon the Parties hereto, all participants in the Plan and persons claiming under or through them pursuant to the Plan, and, as the case may be, the heirs, executors, administrators, successors, and assigns of each of them. The provisions of Sections 6, 7, 8, 10, 15, 17, 20.1, 20.6, 20.7, 20.9 and 20.14 shall survive termination of the Trust created under this Trust Agreement or resignation or removal of the Trustee for any reason.

In the event of the merger or consolidation of the Client or other circumstances whereby a successor person, firm or company shall continue to carry on all or a substantial part of its business, and such successor shall elect to carry on the provisions of the Plan applicable to such business, as therein provided, such successor shall be substituted hereunder for the Client, as the case may be, upon the filing in writing of its election so to do with the Trustee. The Trustee may, but need not, rely on the certification of an officer of the Client, and a certified copy of a resolution of the Board of Directors of such successor, reciting the facts, circumstances and consummation of such succession and the election of such successor to continue the said Plan as conclusive evidence thereof, without requiring any additional evidence.

20.7 Necessary Parties to Disputes. Necessary parties to any accounting, litigation or other proceedings shall include only the Trustee and the Client and the settlement or judgment in any such case in which the Client and the Trustee are duly served or cited shall be binding upon all participants in the Plan and their beneficiaries and estates, and upon all persons claiming by, through or under them.

20.8 Regulation GG. The Client hereby represents and warrants that it does not engage in an "internet gambling business", as such term is defined in Section 233.2(r) of Federal Reserve Regulation GG (12 CFR 233.1-233.7) ("Regulation GG"). The Client hereby covenants and agrees that it shall not engage in an internet gambling business. In accordance with Regulation GG, the Client is hereby notified that "restricted transactions," as such term is defined in Section 233.2(y) of Regulation GG, are prohibited in any dealings with the Trustee pursuant to this Trust Agreement or otherwise between or among any party hereto.

20.9 Data Protection. The Trustee will comply with the Data Protection Addendum attached hereto as Appendix B.

20.10 Key Employees. Notwithstanding any provisions of the Plan, medical or life insurance benefits within the meaning of Code section 419A(d)(1) shall not be paid out of the Trust to or on behalf of any "key employee", as defined in Section 416(i) of the Code, unless a separate payment account has been established and maintained for such benefits by the Administrator, and the benefits or premiums for such benefits are paid solely from that separate payment account pursuant to Proper Instructions from the Administrator to the Trustee. The separate payment account described in this Section shall be for accounting purposes only and shall not require segregation of assets within the Trust, and the Administrator is solely responsible for the maintenance, administration and tracking of such separate payment account in accordance with the requirements of Section 419A of the Code.

20.11 Severability; No Waiver. If any provisions of this Trust Agreement shall be held by a court of competent jurisdiction to be invalid or unenforceable, the remaining provisions of this Trust Agreement shall continue to be fully effective. The failure of a Party hereto to insist upon strict adherence to any term of this Trust Agreement on any occasion or the failure of a Party hereto to exercise or any delay in exercising any right or remedy under this Trust Agreement shall not constitute a waiver of any of the term, right or remedy or a waiver of any other rights or remedies, and no single or partial exercise of any right or remedy under this Trust Agreement shall prevent any further exercise of the right or remedy or the exercise of any other right or remedy.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

20.12 References. Unless the context clearly indicates to the contrary, a reference to a statute, regulation, document or provision shall be construed as referring to any subsequently enacted, adopted or executed counterpart.

20.13 Headings. Headings and subheadings in this Trust Agreement are inserted for convenience of reference only and are not to be considered in the construction of its provisions.

20.14 No Liability for Acts of Predecessor and Successor Trustees. The Trustee shall have no liability for the acts or omissions of any predecessors or successors in office.

20.15 Counterparts. This Trust Agreement may be executed in several counterparts, each of which shall be deemed to be an original, and all such counterparts taken together shall constitute one and the same Trust Agreement. Counterparts may be executed in either original or electronically transmitted form (e.g., faxes or emailed portable document format (PDF) form), and the Parties hereby adopt as original any signatures received in electronically transmitted form.

20.16 Assignment. This Trust Agreement may not be assigned by (a) Client without the prior written consent of Trustee, except as provided in Section 20.6 or (b) by Trustee without the prior written consent of Client, except that Trustee may assign this Trust Agreement to a successor of all or a substantial portion of its business, or to an Affiliate of Trustee. In the event this Trust Agreement is assigned to a successor under the prior sentence, the Trustee agrees to provide notice to the Client as soon as reasonably practicable.

21. NOTICES.

Any notice, instruction or other communication required to be given hereunder will, unless otherwise provided in this Trust Agreement, be in writing and may be sent by hand, facsimile transmission, electronic notification, or overnight delivery by any recognized delivery service, postage prepaid, to the parties at the following addresses or such other addresses as may be notified by any party from time to time. Electronic notification shall be deemed to include notice given via mystatestreet.com.

22. SHAREHOLDER COMMUNICATIONS ELECTION. SEC Rule 14b-2 requires banks that hold securities, as that term is used in federal securities laws, for the account of customers to respond to requests by issuers of securities for the names, addresses and holdings of beneficial owners of securities of that issuer held by the bank unless the beneficial owner has expressly objected to disclosure of this information. In order to comply with the rule, as may be applicable, the Trustee needs the Client to indicate whether it authorizes the Trustee to provide the Client's name, address, and share position to requesting companies whose securities the Client owns. If the Client tells the Trustee "no," the Trustee will not provide this information to requesting companies. If the Client tells the Trustee "yes" or does not check either "yes" or "no" below, the Trustee is required by the rule, as applicable, to treat the Client as consenting to disclosure of this information for all securities owned by the Client or any funds or accounts established by the Client. For the Client's protection, the rule, as applicable, prohibits the requesting company from using the Client's name and address for any purpose other than corporate communications. Please indicate below whether the Client consents or objects by checking one of the alternatives below.

YES [✓] The Trustee is authorized to release the Client's name, address, and share positions.

NO [ ] The Trustee is not authorized to release the Client's name, address, and share positions.

POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

APPENDIX A
CUSTODY ADDENDUM TO TRUST AGREEMENT

WHEREAS, the Trustee, in holding assets delivered to it under the Trust Agreement, will also serve as a custodian (in such capacity, herein referred to as the "Custodian") of certain Property of the Trust, the Parties therefore agree to the following supplemental terms and conditions when Custodian is acting in such capacity:

1 Safekeeping Securities

1.1 Holding Securities. The Custodian will hold Securities delivered or credited to its account under this Agreement directly or through accounts at Subcustodians or CSDs. In turn, Subcustodians will hold Securities directly or through accounts at CSDs.

1.2 Client Entitlements and Segregation. The Custodian will take the following steps to reflect the Trust's ownership of Securities and to separately identify the Securities of the Trust from the proprietary assets of the Custodian, Subcustodians, and CSDs, in accordance with Local Market Practice:

1.2.1 Accounts at the Custodian. Open and maintain on the records of the Custodian one or more securities accounts in the name of the Trust or such other name as the Client may reasonably request (each, a "Securities Account") and credit Securities to them;

1.2.2 Accounts at the Subcustodians or CSDs. Open and maintain Securities Accounts at the Subcustodians or CSDs in which the Custodian is a direct participant, cause Subcustodians to open and maintain Securities Accounts at CSDs in which the Subcustodian is a participant, and cause Securities to be credited to the relevant accounts. Such accounts: (i) may be commingled (or omnibus) accounts for Securities of multiple customers of the Custodian (or Subcustodian, in the case of accounts opened by the Subcustodian at a CSD) or, in limited markets, segregated (or separate) accounts for Securities of the Client; and (ii) must not include any proprietary securities of the Custodian, the Subcustodian or the CSD;

1.2.3 Physical Securities. Physically segregate bearer Securities from the proprietary assets of the Custodian, and require that the Subcustodians physically segregate bearer Securities from the Subcustodian's and the Custodian's proprietary assets;

1.2.4 Registration Names. Register certificated Securities (other than bearer securities) in the name of the Trust or in the name of the Custodian, a Subcustodian, a CSD or a nominee of any of them, or otherwise in accordance with Local Market Practice and the laws and regulations applicable to the Custodian; and

1.2.5 Records of Transactions; Reconciliation. Maintain records of the Trust's transactions in the Securities Accounts and reconcile its records of clients' securities holdings against the records of its Subcustodians and CSDs in which it is a direct participant in accordance with the Custodian's standard procedures and Local Market Practice. Subcustodians will likewise maintain records of their clients' transactions and reconcile their records of the securities holdings of their clients against the records of the CSDs in which they are a direct participant in accordance with the Subcustodians' standard procedures and Local Market Practice.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

1.3 **Securities Interchangeable.** Securities of the Trust (whether held in separate or commingled accounts) are fungible with all other securities of the same issue held in such accounts by the Custodian and its Subcustodians. This means that the Trust's redelivery rights in respect of the Securities are not in respect of the Securities actually deposited with the Custodian or a Subcustodian from time to time, but rather in respect of Securities of the same number, class, denomination and issue as those Securities.

1.4 **Acceptance of Securities.** Except as otherwise agreed in writing with the Client or an Investment Manager, the Custodian will only accept custody of Securities and other assets that it is operationally equipped and licensed to hold in the relevant market where it provides custodial services either directly or through an existing Subcustodian and may decline to accept custody of certain securities or asset types that it determines present an unacceptable risk profile or that it or its Subcustodians are not operationally equipped or permitted to hold under any Law or regulation.

2 Cash

2.1 **Cash Accounts.** The Custodian will open and maintain in the name of the Trust one or more cash deposit accounts (each a "Cash Account") in such currencies as may be required in connection with the investment activity of the Trust.

2.2 **Location of Cash Deposits.** Cash received for the Trust will be deposited with the Custodian, or with a Subcustodian, depending on the currency and/or the market. The Custodian will designate each currency in a particular market as On Book Cash or Off Book Cash. "On Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, the Custodian (through any of its branches) and "Off Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, a Subcustodian (through any of its branches). The Custodian may change the designation of a currency as On Book or Off Book from time to time. Clients will find the designation of currencies as On Book Cash and Off Book Cash, and any changes to such designations, in the Client Publications.

2.3 **Cash Records.** The Custodian will reflect Cash balances held in all On Book and Off Book Cash Accounts on its books and records and report the balances to the Client.

2.4 **Banking Relationship.** In accepting deposits under this Agreement, the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash) acts as banker and does not hold the money deposited on trust or segregated from its proprietary assets. Accordingly, the Client is an unsecured creditor of the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash), subject to such rights as may arise in an Insolvency Event as determined under the laws of the jurisdiction of the Custodian or relevant Subcustodian. With respect to Off Book Cash, the Custodian is only responsible for returning the actual amount that the Custodian receives from the Subcustodian.

2.5 **Interest and Charges.** Cash Accounts may be interest bearing or non-interest bearing and may be subject to charges or Fees on the deposit balance or on a per account basis. The Custodian or the relevant Subcustodian will determine on a periodic basis:

2.5.1 the interest rates, if any, (which may be positive, zero or negative) or equivalent charges or Fees paid or charged to the Client from time to time with respect to a Cash Account; and

2.5.2 the overdraft rates or equivalent charges or Fees and the applicable overdraft thresholds (if any) that will trigger interest charges from time to time for overdrafts,

in each case, acting in their sole discretion, taking into account market conditions and other relevant commercial considerations. Interest and overdraft rates or other account charges or Fees will vary by currency. Details on current rates and deposit account charges are available upon request.

2.6 **Overdrafts.** The Trust must maintain sufficient funds in the Cash Accounts to settle all transactions in the applicable currencies in a timely manner. The Custodian or its Subcustodians may, but are not required to, extend credit under this Agreement. The Custodian reserves the right to decline to process any Proper Instruction or settle any transaction that would result in an overdraft of the Cash Account. If an overdraft arises in the Cash Account, the Client agrees to repay the principal amount of the overdraft upon demand by the Custodian or within five (5) Business Days, whichever is earlier, plus any applicable overdraft Fees and interest on the principal overdraft.

3 Transaction Settlement

3.1 **Settlement.** The Custodian will settle all transactions in accordance with Local Market Practice, which may not always be on a delivery-versus-payment or receipt-versus-payment basis. Except as otherwise provided below regarding Contractual Settlement, the Custodian will credit or debit the appropriate Cash Account on an actual settlement or payment basis.

3.2 **Contractual Settlement.** In order to facilitate transaction settlement, the Custodian may provisionally credit settlement, maturity or redemption proceeds, or income, dividends and other distributions, on a contractual settlement or predetermined income basis ("Contractual Settlement"), for markets, Securities and eligible clients as determined and notified by the Custodian in the Client Publications. The Custodian can terminate or suspend Contractual Settlement for markets, Securities or particular clients at any time.

3.3 **Use of Funds.** Where Contractual Settlement applies, the Custodian will credit or debit the appropriate Cash Account on the contractual settlement date or payable date for the relevant transaction. This means that (i) the Client will have use of the funds from the date that a sale was contracted to settle or the payable date, which may be earlier than the date payment actually occurs and (ii) the Custodian will have use of the funds debited from the Cash Account from the date that a purchase was contracted to settle until the date that settlement actually occurs.

3.4 **Reversal.** The Custodian may reverse any Contractual Settlement credit at any time before actual receipt of the cash payment associated with the credit if the Custodian determines, in its reasonable judgement, that such payment will not be received within thirty (30) days for that transaction or if the Custodian suspends or terminates the provision of Contractual Settlement for those Securities in that market. The Custodian will generally notify the Client two (2) Business Days before any such reversal.

3.5 **Secured Liability.** To the extent that the Custodian has not received the cash payment associated with a credit, the amount credited remains a Secured Liability under this Agreement.

4 Corporate Actions

4.1 **Transmit Information.** The Custodian will promptly transmit or make available to the Client all material written information customarily provided by a professional global custodian regarding an applicable Corporate Action, or a brief synopsis of that information, affecting Securities then being held under this Agreement, where (i) that information is received directly from issuers of such Securities or from CSDs or Subcustodians or (ii) that information is publicly available in the relevant market from standard vendors routinely used by professional global custodians provided that the Custodian can verify the accuracy of such information. The Custodian will transmit or make available such Corporate Action data it receives from primary sources (issuers, CSDs and Subcustodians) without further review although it will generally note if such information is single sourced. The Custodian generally will not transmit or make available such Corporate Action data it receives from secondary sources (vendors) unless the accuracy of that information can be verified against at least one additional source.

4.2 **Exercise.** The Custodian will process the Client's or Investment Manager's (as applicable) elections with respect to any voluntary Corporate Action at the direction of the Client provided it has actual possession of the relevant Securities and it has received Proper Instructions by the deadline specified in the Custodian's Corporate Action notification ("Corporate Actions Deadline Date"). The Custodian will use reasonable efforts to effect Proper Instructions received after that deadline but will have no responsibility for any failure to exercise such instructions accurately or timely. In the absence of receiving Proper Instructions by the Corporate Actions Deadline Date, the Custodian may take the default action specified in the corporate action notification. In the event of a mandatory Corporate Action, the Custodian will act without Proper Instructions in accordance with Section 8.10.

4.3 **Class Actions.** The Custodian will transmit written information received by the Custodian regarding any class action litigation to the extent set out in the Client Publications. The Custodian will not support class action participation by the Client beyond such forwarding of written information. In no event will the Custodian act as a lead plaintiff in a class action.

4.4 **Fractional Positions.** Fractional positions resulting from Corporate Actions will be dealt with in accordance with the Client Publications.

5 Proxy Servicing

5.1 **Transmit Information.** The Custodian will forward to the Client or Investment Manager (as applicable) all proxies received by the Custodian relating to the Securities then held under this Agreement, for the markets designated in the Client Publications, unless otherwise instructed by the Client. The Custodian will use an agent to assist in the receipt and distribution of proxies and will share the Client's position and contact information to facilitate such collection and distribution.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

5.2 **Voting.** The Custodian provides proxy voting services for the markets designated in the Client Publications. The Custodian will cause eligible proxies to be promptly executed by the registered holder in accordance with Proper Instructions and delivered to the issuer of the Securities or its designated agent. In order for the Custodian to provide the voting services, the Custodian must have received such Proper Instructions, must have actual possession of the relevant Securities, and all requirements set out in the Client Publications must have been met, including where applicable receiving an executed power of attorney, in each case by the deadline specified in the Custodian's proxy notification.

6 Income Collection

6.1 **Monitoring and Crediting.** The Custodian will use reasonable efforts to monitor and collect on a timely basis, in accordance with Local Market Practice, all income and other payments to which the Trust is entitled in respect of the Securities held under this Agreement and Securities on loan through the securities lending program sponsored by the Custodian or its Affiliates. The Custodian will credit such amounts to the Cash Account of the Trust as received, except where Contractual Settlement applies.

6.2 **Repatriation of Income.** The Client or Investment Manager (as applicable) is responsible for directing the repatriation of income into the base currency of the Portfolio or another currency selected by the Client or Investment Manager (as applicable) and may enter into separate arrangements to do so, as set out in Section 11 of the Agreement.

7 Statements and Reports

7.1 **Contents.** The Custodian will make available reports to the Client regarding the Portfolio on a periodic basis as selected by the Client from certain online tools made available from time to time by the Custodian or as otherwise agreed with the Client. The reports will include Cash balances, an itemized statement of Securities and Cash and Securities transaction activity. Market values contained in these reports are unaudited and based on the Custodian's standard pricing vendors and practices. These reports will not include net asset value calculations.

7.2 **Cash and Securities Not Held.** The Custodian may agree to incorporate information in respect of cash or securities not held by the Custodian. In making available such information to the Client, the Custodian will rely upon the information provided by the Client or a third party without any requirement to verify the accuracy of such information. The Custodian will not perform any other Services in relation to such cash or securities.

8 Tax Withholding and Tax Relief

8.1 **Withholding.** The Custodian will withhold (or cause to be withheld) the amount of any tax which is required to be withheld by the Custodian or Subcustodian under the Law applicable to the Custodian or Subcustodian based on the Client's domicile and entity type in respect of any dividend, interest income or other distribution in relation to any Security, and/or the proceeds or income from the sale or other transfer of any Security held by the Custodian. If the Client has not provided the requisite information and documentation, the Custodian is obligated to arrange for maximum withholding. In certain markets, the Client will be required to hire a local tax agent to calculate withholding, as set out in the Client Publications.

8.2 **Tax Relief.** The Custodian will apply for a reduction of withholding tax and refund of any tax paid or tax credits in respect of income payments on Securities based on the Trust's entitlement under relevant tax treaties or laws which apply in each market that supports a standard tax reclaim process, in all cases as may be set out from time to time in the Client Publications. The Custodian does not facilitate tax reclaims for tax transparent or pass-through (i.e., multiple-beneficiary) entities such as partnerships, LLCs, common trusts or any other types of entities that are generally ineligible for tax treaty or domestic law tax entitlements, even where the partners or beneficial holders of such entities may be eligible.

8.3 **Documentation.** In order for the Custodian to perform the services in this Section 8, the Client will provide the Custodian such information and documentation as may be required from time to time by the Custodian for tax purposes, including documentary evidence of its tax domicile, and its entity type and details of any special ruling or treatment to which the Trust may be entitled in relation to countries where the Trust engages or proposes to engage in investment activity or where Securities are or will be held. The Client or Investment Manager (as applicable) is responsible for ensuring the documentation and information provided is true and accurate in all material respects and will promptly provide the Custodian with all necessary corrections or updates upon becoming aware of any changes or inaccuracies in the documentation or information supplied. The provision of documentation and information under this Section 8.3 will be taken to be a Proper Instruction upon which the Custodian will be entitled to rely for all purposes under this Section 8, including calculating withholding and determining available tax relief, without the need to undertake any further inquiries or verification.

8.4 **Client Responsible for Taxes.** The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will be liable for all taxes, levies or similar obligations which arise as a result of the Trust's investment activity, including in relation to any Cash or Securities held by the Custodian on behalf of the Trust, or any related transactions. If any taxes become payable in relation to any prior payment made by the Custodian in connection with the Trust's investment activity, the Custodian may withhold any credit balance in the Trust's Cash Accounts to the extent necessary to satisfy such tax obligation. The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will also remain liable for any tax deficiency.

8.5 **No Tax Advice.** The Client acknowledges that the Custodian is not, and will not be deemed to be, providing tax advice or tax counsel.

9 Physical Safekeeping of Investment Documents

9.1 **Document Safekeeping.** The Custodian may agree to provide physical safekeeping for Investment Documents delivered to it and will return such Investment Documents to the Client upon receipt of Proper Instructions, subject to additional documentation and other requirements as the Custodian may specify from time to time.

9.2 **No Other Services.** The Custodian will not otherwise perform any other Services in relation to such Investment Documents.

10 Alternative Asset Servicing

10.1 **Alternative Assets.** The Custodian may agree to reflect the Trust's Alternative Assets on its books, records or statements. Unless otherwise agreed in writing, the Custodian will not

perform any other services or assume any obligations in relation to Alternative Assets. The Custodian may, in limited cases, agree to register the Client's interests in Alternative Assets in the name of the Custodian, subject to additional documentation and other requirements as the Custodian may specify from time to time.

11 Subcustodians

11.1 **Use of Subcustodians.** The Custodian is authorized to utilize Subcustodians in connection with its performance of the Services, and will notify the Client of the Subcustodians so employed from time to time through the Client Publications.

11.2 **Selection and Monitoring.** The Custodian will use reasonable skill, care and diligence in the selection, monitoring and continued utilization of Subcustodians by taking the following actions: (i) annually assessing the financial condition of each Subcustodian by reviewing their publicly available financial information, (ii) on a daily basis monitoring the performance by each Subcustodian' of its duties relative to the Services, and (iii) confirming on an annual basis that each Subcustodian is licensed to act as a subcustodian in its relevant market.

11.3 **Special Subcustodians.** At the request of the Client, the Custodian may agree to appoint one or more qualified banks, trust companies or other entities designated by the Client to act as a subcustodian (each a "Special Subcustodian") for purposes specified by the Client. In connection with the appointment of a Special Subcustodian, the Custodian shall enter into a tri-party subcustodian agreement with the Special Subcustodian and the Client in form and substance approved the Custodian, provided that such agreement shall comply with Law applicable to the Client and shall be consistent with the terms and provisions of this Agreement, to the extent practicable.

12 Central Securities Depositories

12.1 **Use of Central Securities Depositories.** The Custodian and its Subcustodians will use CSDs in connection with the performance of the Services, and will notify the Client of the CSDs so employed from time to time through the Client Publications.

12.2 **Rules of Central Securities Depositories.** Where the Custodian or its Subcustodians use CSDs, the Client acknowledges that they will do so in accordance with the terms and conditions of participation or membership in such CSDs and the rules and procedures governing the operation thereof.

13 Responsibility for Subcustodians

13.1 **Responsibility for Subcustodians.** The Custodian will be liable to the Client for the acts and omissions of its Subcustodians as if it had committed such acts and omissions itself; provided that:

13.1.1 compliance with the standard of care set out in Section 6.1 of the Agreement will be assessed in accordance with the standards and circumstances prevailing at the time of the act or omission in the local market or jurisdiction in which the Subcustodian is providing the relevant Services; and

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

13.1.2 the Custodian will have no liability for Losses resulting from the insolvency or other financial default of a Subcustodian that is not an Affiliate of the Custodian except to the extent that such Losses are caused by the failure of the Custodian to exercise reasonable skill, care and diligence in the selection, monitoring and continued utilization of the Subcustodian as required under Section 11.2 of this Appendix.

13.2 **Responsibility for Special Subcustodians.** Notwithstanding the provisions of this Section 13.1 to the contrary, the Custodian shall not be liable to the Client for Losses suffered or incurred by the Client resulting from the acts or omissions of a Special Subcustodian, except to the extent such Losses are caused by the negligence, wilful default or fraud of the Custodian. In the event of any such Loss, the Custodian shall use commercially reasonable efforts to enforce such rights as it may have against any Special Subcustodian.

POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

APPENDIX B
DATA PROTECTION ADDENDUM

1. Definitions

1.1. In this Data Protection Addendum: (a) terms used but not defined below have the meaning ascribed to them in the Trust Agreement between the parties; and (b) the following terms have the meaning ascribed to them below:

"Approved Sub Processor"	means each of: (a) Existing Sub-Processor; and (b) New Sub-Processor, to the extent that it meets the conditions set out in Paragraph 5.4;
"CCPA"	means the California Consumer Privacy Act of 2018, Cal. Civ. Code § 1798.100 et seq. (CCPA), as amended by the California Privacy Rights Act and its implementing regulations;
"Data Protection Laws"	means any Law or regulation regarding the processing, privacy, and use of Personal Data, as applicable to the Client, the Service Provider and/or the services provided by the Service Provider to the Client, including the Gramm-Leach-Bliley Act, US state data breach and data privacy laws, and the CCPA;
"Data Subject Request"	means a request made by a data subject to exercise any rights of data subjects under Data Protection Laws;
"Existing Sub-Processor(s)"	means any third party or Service Provider Affiliate which the Service Provider intends, at the Effective Date to engage to process any Personal Data as the Service Provider's sub-processor;
"New Sub-Processor(s)"	means any third party or Service Provider Affiliate, other than an Existing Sub-Processor, which the Service Provider wishes to engage to process any Personal Data as the Service Provider's sub-processor;
"Personal Data"	means any information that relates to an identified or identifiable natural person that is protected as "personal data", "personal information" or similar term by Data Protection Laws that is processed by the Service Provider or an Approved Sub-Processor on behalf of the Client pursuant to or in connection with the Agreement;
"Supervisory Authority"	means any state, local, national or multinational agency, department, official, parliament, public or statutory person or any government or professional body, regulatory or supervisory authority, board or other body responsible for administering Data Protection Laws.

2. Scope

2.1. The Parties agree that, from the Effective Date, the terms of this Data Protection Addendum will apply to any Personal Data that the Service Provider processes on behalf of the Client in the course of providing the Services under the Agreement.

2.2. Nothing in this Data Protection Addendum permits the Service Provider to process (or permit the processing of) Personal Data in a manner which is expressly prohibited by the Agreement.

3. Data Processing

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

3.1. The Service Provider will, and will procure that each Approved Sub-Processor will:

(a) comply with all applicable Data Protection Laws when processing Personal Data;

(b) only process Personal Data in accordance with the Client's documented instructions as set out in the Agreement, any related operating memoranda and side letters, and this Data Protection Addendum, unless processing is required by a law to which the Service Provider or Approved Sub-Processor is subject; and

(c) For purposes of the CCPA, Service Provider shall not (i) sell Personal Information it receives from or processes on behalf of Client ("Client Personal Information"); (ii) retain, use, or disclose Client Personal Information for any purpose (including a Commercial Purpose) other than for the specific purpose of performing the Services under the Agreement and except as otherwise permitted by the CCPA; and (iii) retain, use, or disclose Client Personal Information outside of the direct business relationship between the Parties. Service Provider agrees that Client has the right to take reasonable and appropriate steps to ensure that Service Provider uses Client Personal Information in a manner consistent with Client's obligations under the CCPA. Service Provider agrees that Client has the right to take reasonable and appropriate steps to stop and remediate Service Provider's unauthorized use of Client's Personal Information. Service Provider shall notify Client as soon as possible after Service Provider determines that it can no longer meet its obligations under the CCPA. The terms "Commercial Purpose," "Personal Information," "Sell," and "Service Provider" as used in this subsection 3.1(c) have the meanings defined in the CCPA. Service Provider hereby certifies that it understands and will comply with the requirements of this subsection 3.1 (c).

3.2. The Client:

(a) instructs, and grants a general written authorization for, the Service Provider and each Approved Sub-Processor to process Personal Data and, subject to Paragraph 5, to transfer Personal Data to any country or territory as reasonably necessary for the provision of the Services and consistent with the Agreement; and

(b) warrants and represents that it is and will at all times:

(i) remain duly and effectively authorized to give the instruction set out in Paragraph 3.2(a); and

(ii) have in place all fair processing notices and (where applicable) consent mechanisms for data subjects that are sufficient to ensure that all processing of Personal Data envisaged by this Data Protection Addendum and the Agreement will be lawful and will not contravene any Data Protection Laws.

4. Technical and Organizational Measures and Security

4.1. Service Provider will use appropriate safeguards designed to prevent any access, use or disclosure of Personal Data other than as permitted and described in this Data Protection Addendum. Such safeguards shall include, but not be limited to, reasonable administrative, physical, technical, procedural and organizational safeguards appropriate to protect the confidentiality, security, integrity and availability of Personal Data from unauthorized access, use, modification, disclosure, acquisition, transfer, destruction or loss in accordance with any and all Federal, state and local laws, statutes, rules and regulations now in effect or hereinafter adopted applicable to Service Provider's collection, use, storage, disclosure, disposal and other processing of the Personal Data in its possession, including the Gramm-Leach-Bliley Act, Massachusetts data

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

security regulations codified at 201 C.M.R. § 17.00 et seq., and the GDPR, to the extent that such laws and regulations apply.

4.2. In assessing the appropriate level of security, the Service Provider will take into account the risks that are presented by processing the relevant Personal Data, in particular from a personal data breach.

4.3. The Service Provider will take reasonable steps to ensure the reliability of any employee, agent or contractor of the Service Provider or any Approved Sub-Processor who may have access to the Personal Data, ensuring that all such individuals are subject to confidentiality undertakings or other contractual, professional or statutory obligations of confidentiality.

5. Approved Sub-Processors

5.1. The Client agrees that the Service Provider may use Approved Sub-Processors to process Personal Data.

5.2. The Service Provider may use its Existing Sub-Processors but will procure that, on or prior to the Effective Date the arrangement between it and each of its Existing Sub-Processors is governed by a written contract including terms which offer at least the same level of protection for Personal Data as set out in this Data Protection Addendum; and

5.3. With respect to each New Sub-Processor, the Service Provider will ensure that the arrangement between the Service Provider and the New Sub-Processor is governed by a written contract including terms which offer at least the same level of protection for Personal Data as those set out in this Data Protection Addendum.

6. Consumer Requests

6.1. The Service Provider will:

(a) promptly notify the Client if it or any Approved Sub-Processor receives a Data Subject Request or a Consumer Request (as defined by CCPA) in respect of any Personal Data; and

(b) taking into account the nature of the processing, assist the Client by appropriate technical and organizational measures, insofar as this is possible, for the fulfilment of the Client's obligation to respond to Data Subject Requests, provided that the Service Provider will be permitted to charge for such assistance at a reasonable rate to be agreed prior to such assistance being provided.

7. Incident and Breach Notification

7.1. Service Provider shall promptly, following discovery and allowing for a reasonable period of time for investigation, notify Client if: (1) any Personal Data is lost or cannot be accounted for; (2) there is an actual unauthorized access to or use of Personal Data; or (3) Personal Data in written or electronic form has been transmitted, disclosed, stored, or disposed of in violation of applicable law (any of which constitutes a "Security Incident"). In the event of a Security Incident, State Street will provide notice to the affected data subjects, regulatory agencies and law enforcement if Service Provider determines that such notice is required by applicable Data Protection Law or is appropriate under the circumstances in order to protect against a reasonably foreseeable harm to an affected data subject.

8. Deletion of Personal Data

8.1. Subject to Paragraph 8.2 below, the Service Provider will promptly, and to the extent technically possible, on the Client's written request, delete and procure the deletion of all copies of the

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

Personal Data after its processing is no longer required for the purpose of the Service Provider's performance of its relevant obligations under this Data Protection Addendum or the Agreement.

8.2. The Parties agree that the Service Provider and its Approved Sub-Processors may retain Personal Data to the extent required by and for such period as required by Laws, provided that it ensures:

(a) the confidentiality of all such Personal Data; and

(b) such Personal Data is only processed as necessary for the purpose(s) specified in the Law requiring its retention.

9. Privacy Notice

9.1. State Street's Global Privacy Notice

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

SCHEDULE 1

DEFINITIONS

In this Trust Agreement:

"**Administrator**" means the Benefits Oversight Committee appointed by Client to serve as "Administrator" of the Plan, who shall have the authorities and shall be subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement.

"Affiliate" means, with respect to any person, any other person Controlling, Controlled by, or under common Control with, such person at the time in question. For these purposes, "Control" and its derivatives "Controlled" and "Controlling" mean, with regard to any person: (i) the legal or beneficial ownership, directly or indirectly, of fifty percent (50%) or more of the issued share capital or capital stock of that person (or other ownership interest, if not a corporation); (ii) the ability to control, directly or indirectly, fifty per cent (50%) or more of the voting power in relation to that person; or (iii) the legal power to direct or cause the direction of the general management and policies of that person, provided that where Control is being determined with respect to a person that is a limited partnership, Control shall be determined by reference to the satisfaction of any of the above tests with respect to the general partner of the limited partnership.

"Alternative Assets" means derivatives, real estate, commodities, private placements, loans, infrastructure holdings, private equity holdings, hedge fund holdings or such other assets (i) not typically held in book-entry form and (ii) not typically held in accounts registered in the name of the Custodian or a Subcustodian, in each case as determined by the Custodian.

"**Authentication Procedures**" means the use of security codes, passwords, tested communications or other authentication procedures as may be agreed upon in writing by Parties from time to time for purposes of enabling the Trustee to verify that purported Proper Instructions have been originated by an Authorized Person, and will include a "Funds Transfer and Transaction Origination Policy Agreement".

"**Authorized Data Sources**" means third party sources of data and information utilized by the Trustee in the provision of the Services, including issuer and issuer group data; security characteristics and classifications; security prices (OTC and exchange traded); ratings (issuer and issue); exchange, interest, discount and coupon rates; corporate action, dividend, income and tax data; benchmark, index, composite and indice related data (including values, constituents, weights and performance); and other reference and market data and information necessary for the performance of the Services.

"**Authorized Person**" means a person authorized to give Proper Instructions and otherwise act on the Client's behalf in connection with this Trust Agreement.

"**Business Day**" means a day on which the Trustee or the relevant Subcustodian is open for business in the market or country in which a transaction or an action by a Party takes place.

"**Cash**" means cash in any currency from time to time deposited with the Custodian or Subcustodian under this Trust Agreement.

"**Cash Account**" has the meaning given to it in Section 2.1 of Appendix A.

"**Client**" means the Party named in the preamble.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

"Client Publications" means the general client publications of the Trustee from time to time available to clients and their investment managers, including the Investment Managers' Guide, Client Guide, Guide to Custody in World Markets, and FX Client Guide.

"**Code**" means the Internal Revenue Code of 1986, as amended.

"Collateral" has the meaning given to it in Section 10.1.

"Confidential Information" means all information provided by or on behalf of a party (the "Disclosing Party") to the other party (the "Receiving Party"), or collected by a Receiving Party, under or pursuant to this Trust Agreement that is marked "confidential", "restricted", "proprietary" or with a similar designation, or that the Receiving Party knows or reasonably should know is confidential, proprietary or a trade secret. The terms and conditions of this Trust Agreement (including any related fee schedule or arrangement) and any Fees will be treated as Confidential Information as to which each Party is a Disclosing Party. Confidential Information will not include information that: (i) is publicly available when provided or thereafter becomes publicly available, other than through a breach of this Trust Agreement: (ii) was known to the Receiving Party (without an obligation of confidentiality) prior to its disclosure; (iii) is independently developed by the Receiving Party without the use of other Confidential Information; (iv) is rightfully obtained on a non-confidential basis from a third party source.

"Contractual Settlement" has the meaning given to it in Section 3.2 of Appendix A.

"Corporate Actions" means warrant and option exercises, conversions, exchanges and other capital reorganizations, calls, odd lot tenders/credits, bonus rights, subscription offers/rights, puts, maturities of securities, redemptions, mergers, tender or exchange offers, and rights exercises and expirations. Corporate Actions do not include class actions.

"**Corporate Actions Deadline Date**" has the meaning given to it in Section 4.2 of Appendix A.

"**CSD**" or "**Central Securities Depository**" means an entity or generally recognised book-entry or other settlement system or clearing house, central clearing counterparty or agency, acting as a local securities depository, central securities depository or international securities depository, the use of which is customary for securities settlement activities in the jurisdiction(s) in which it holds Securities or Cash in connection with this Trust Agreement, and through which the Custodian may transfer, settle, clear, deposit or maintain Securities whether in certificated or uncertificated form and will include any services provided by any network service provider or carriers or settlement banks used by a CSD.

"**Data**" means any Confidential Information of the Trust relating to its holdings, transactions or other information that the Custodian obtains with respect to the Trust in connection with the provision of the Services under this Trust Agreement or any other agreement.

"**Delegate**" means any agent, subcontractor, consultant and other third party, whether affiliated or unaffiliated with the Custodian. The term Delegate does not include Subcustodians, CSDs, Authorized Data Sources, suppliers of information technology or related services, or Financial Market Utilities.

"**ERISA**" means the Employee Retirement Income Security Act of 1974, as amended.

"**Execution Documents**" has the meaning given to it in Section 5.1.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

"**Fees**" means the fees charged by the Trustee in consideration for providing the Services and the costs, expenses and disbursements of the Trustee to be reimbursed by the Trust or the Client, as agreed between the Parties from time to time in a separate written fee schedule, or as otherwise agreed in writing.

"**Financial Market Utility**" means any multilateral system for transferring, clearing, and settling payments, securities, and other financial transactions among or between financial institutions, including payment systems, central securities depositories, securities settlement systems, central counterparties and trade repositories.

"**Force Majeure Event**" means any event or circumstances beyond the reasonable control of the Trustee, including nationalization, expropriation, currency restrictions, suspension or disruption of the normal procedures and practices, or disruption of the infrastructure, of any securities market or CSD, interruptions in telecommunications or utilities, acts of war or terrorism, riots, revolution, acts of God or other similar events or acts.

"**Insolvency Event**" means the occurrence of any of the following events in relation to any person: (i) the person generally does not pay its debts as such debts become due, or admits in writing its inability to pay its debts generally, or makes a general assignment for the benefit of creditors; or (ii) any proceeding is instituted by or against such person seeking to adjudicate it a bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of it or its debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, or other similar official for it or for any substantial part of its property and, where any such proceeding is instituted against (but not by) such person, such person does not promptly seek dismissal of such proceeding or its motion or request to dismiss such proceeding is denied (whether or not on an initial, interim or final basis); or (iii) such person proposes or takes any corporate action to authorize any of the preceding actions or anything analogous to the foregoing events occurs in relation to such person under the laws of any jurisdiction.

"**Investment Account**" means one or more separate investment accounts within the Trust Fund, where the Administrator (in accordance with provisions of the Plan), may appoint pursuant to a written investment management agreement, one or more Investment Managers with investment discretion to direct the investment and reinvestment of all or a portion of the Trust Fund.

"**Investment Document**" means any agreement, subscription, assignment or other document evidencing in physical form an investment of the Trust, or providing for the ownership by the Trust, in each case that is acceptable to the Custodian. For the avoidance of doubt, it does not include any Security, instrument, certificate, title, agreement or other document that is accompanied by a stock power or instrument of assignment, endorsed to the Custodian or in blank.

"**Investment Fund**" means one or more separate investment accounts within the Trust Fund, that the Administrator, in accordance with provisions of the Plan, may direct the Trustee to establish.

"**Investment Manager**" means such person or entity specified as such by the Client, including its agents and delegates.

"**Law**" means any statute, ordinance, order, judgment, decree, subordinate legislation, rule or regulation promulgated by any regulatory, administrative or judicial authority or otherwise in force in any jurisdiction, applicable to a Party, that relates to the performance by such Party of the Services or obligations under this Trust Agreement.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

"**Local Market Practice**" means the customary or established practices, procedures and terms in the jurisdiction or market where a transaction occurs, including the rules and procedures of any exchange or over the counter market and any practical constraints that exist with respect to the exercise of shareholder rights, realisation of entitlements or the sale, exchange, purchase, transfer or delivery of Cash or Securities.

"**Losses**" means all losses, damages, claims, costs, expenses or other liabilities (including reasonable attorneys' fees and other litigation expenses).

"**Market Participant**" means any issuer, intermediary, exchange, transaction counterparty or other market participant.

"**Off Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**On Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**Parties**" means the parties set out at the beginning of this Trust Agreement.

"**Plan**" shall mean, unless the context indicates to the contrary, the tax qualified employee welfare benefit plan of the Client that has adopted the trust as the funding vehicle for the plan.

"**Property**" means any Securities or other property, real or personal, or any partial interest therein, wherever situated, including, without limitation, governmental, corporate or personal obligations, trust and participation certificates, partnership interests, annuity or investment contracts issued by an insurance company, leaseholds, fee titles, mortgages and other interests in realty, preferred and common stocks, certificates of deposit, financial options and futures or any other form of option, evidences of indebtedness or ownership in foreign corporations or other enterprises or indebtedness of foreign governments, and any other evidences of indebtedness or ownership, including securities or other property of the Client, even though the same may not be legal investment for trustees under any law other than ERISA.

"**Portfolio**" means the Securities and Cash delivered to and held by the Custodian which comprise the assets of the Client over which the Custodian provides the Services pursuant to this Trust Agreement.

"**Proper Instructions**" means instructions (which may be standing instructions and which includes any security trade advice) received by the Trustee through an agreed Authentication Procedure in any of the following forms:

(i) in writing given by an Authorized Person including a facsimile transmission;

(ii) in an electronic communication as may be agreed upon between the Trustee and the Client in writing from time to time; or

(i) by such other means as may be agreed from time to time by the Trustee and the Client.

"**Representative**" has the meaning given to it in Section 17.3.1 of the Trust Agreement.

"**Schedule**" **or** "**Schedules**" are all of the schedules referenced herein and attached to this Trust Agreement.

"Secured Liabilities" means all liabilities or obligations owed by the Client (or the Plan) to the Trustee or its Affiliates relating to this Trust Agreement, including: (a) the obligations of the Client (or the Plan) to the Trustee or its Affiliates in relation to any advance of cash or securities or any other extension of credit for any purpose; (b) the obligations of the Client (or the Plan) to compensate the Trustee for the provision of

EL PASO ELECTRIC COMPANY
POST-RETIREMENT LIFE INSURANCE TRUST
TRUST AGREEMENT

the Services; and (c) the indemnity obligations of the Plan (to the extent permitted under ERISA) to the Trustee under Section 7.

"**Securities**" means securities and such other similar assets as the Custodian may from time to time accept into custody under this Trust Agreement.

"**Securities Account**" has the meaning given to it in Section 1.2 of Appendix A.

"**Services**" means the services to be provided by the Trustee to the Client in accordance with this Trust Agreement.

"**Special Subcustodian**" has the meaning given to it in Section 11.3 of Appendix A.

"**Subcustodian**" means any qualified bank, credit institution, trust company or other entity appointed by the Custodian to perform safekeeping, processing and other elements of the Services, including Affiliates or non-Affiliates of the Custodian.

"**Third Party Agent**" means any provider of services to the Client (other than the Custodian, a Subcustodian or Delegate under this Trust Agreement) including any Investment Manager, adviser or sub-advisor, distributor, broker, dealer, transfer agent, administrator, accounting agent, audit firm, tax firm, or law firm.

"**Trust**" means the trust set forth in the beginning of this Trust Agreement.

"**Trust Agreement**" means the agreement defined in the preamble.

"**Trust Fund**" means the assets held in the Trust.

"**Trustee**" means the Party named in the preamble.

Interpretation: Capitalized terms used in this Trust Agreement have the meanings given to them in this Schedule 1 unless otherwise defined. In this Trust Agreement references to "persons" will include legal as well as natural persons or entities, references importing the singular will include the plural (and vice versa), use of the masculine pronoun will include the feminine, use of the terms "include", "includes" or "including" shall be deemed to be followed by the phrase "without limitation" and any specific examples given following the use of such terms shall be illustrative and in no way limit the general meaning of the words preceding them and numbered schedules, exhibits or Sections will (unless the contrary intention appears) be construed as references to such schedules and exhibits hereto and Sections herein bearing those numbers and any sub-sections thereof. The schedules and exhibits hereto are hereby incorporated herein by reference.

INCUMBENCY CERTIFICATE

EL PASO ELECTRIC COMPANY (the "Client"), hereby certifies that the persons whose names appear below are authorized to act on its behalf, including the authorization to give instructions, with respect to the Post-Retirement Life Insurance Trust Agreement between the Client and STATE STREET BANK AND TRUST COMPANY, as Trustee, dated as of September 29, 2023. The Client further certifies that the true signature of each such person is set forth below opposite his name, and that the Trustee may rely upon this certificate until such time as it receives another certificate bearing a later date.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

TRUST AGREEMENT

Between

EL PASO ELECTRIC COMPANY

and

STATE STREET BANK AND TRUST COMPANY

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

TRUST AGREEMENT

This non-collectively bargained post-retirement health benefits trust agreement (the "Trust Agreement" or "Agreement") made as of September 29, 2023, by and between EL PASO ELECTRIC COMPANY, a corporation organized under the laws of the State of Texas (the "Client") and STATE STREET BANK AND TRUST COMPANY, a trust company organized under the laws of the Commonwealth of Massachusetts (the "Trustee").

WITNESSETH:

WHEREAS, the Client maintains the El Paso Electric Company Retiree Welfare Benefits Plan (the "Plan") for the exclusive benefit of certain of its retired employees;

WHEREAS, the Client and its employees previously established a voluntary employees' beneficiary association trust pursuant to Section 501(c)(9) of the Internal Revenue Code of 1986, as amended (the "Code") to serve as the funding vehicle for non-collectively bargained post-retirement life insurance benefits under the Plan (the "Trust");

WHEREAS, the authority to conduct the general operation and administration of the Plan is vested in the Benefits Oversight Committee who is the "Administrator" of the Plan, and has the authorities and is subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement;

WHEREAS, the Client has appointed State Street Bank and Trust Company as successor trustee to Wells Fargo Bank, N.A. (subsequently acquired by Principal Trust Company) (the "Prior Trustee"), effective August 10, 2023.

NOW, THEREFORE, the Client and the Trustee do hereby adopt this Trust Agreement as the funding vehicle for the Plan, upon the terms and conditions hereinafter set forth:

1. DEFINITIONS AND INTERPRETATION.

Defined terms and the general rules of interpretation agreed to by the Parties are set forth in Schedule 1.

2. TRUST FUND.

2.1 Trust Name. This Trust shall be known as the Retirees Group Welfare Benefit Trust.

2.2 Receipt of Assets. The Trustee shall receive and accept for the purposes hereof (a) those assets held in Trust by the Prior Trustee, and (b) all sums of money and other Property paid to it by or at the direction of the Client, and shall hold, invest, reinvest, manage, administer and distribute such monies and other Property and the increments, proceeds, earnings and income thereof pursuant to the terms of this Trust Agreement and for the exclusive benefit of participants in the Plan and their beneficiaries. The Trustee need not inquire into the source of any money or Property transferred to it nor into the authority or right of the transferor of such money or Property to transfer such money or Property to the Trustee. Additional terms and conditions with respect to the custody of the assets held by the Trustee are set forth in Appendix A hereto.

2.3 Tax Exempt Status. The Client intends that the Plan and this Trust, as they may be amended from time to time, shall satisfy the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Code, and that the Trust Fund shall not be exempt from tax under Section 501 of the Code. Until advised to the contrary, the Trustee shall be entitled to assume that the Plan and this Trust so satisfy the applicable provisions of ERISA and the Code and that the Trust is not exempt from federal and state income taxes, and to act in accordance with such

assumptions.

2.4 No Trustee Duty Regarding Contributions. The Trustee shall not be under any duty to require payment of any contributions to the Trust Fund, or to see that any payment made to it is computed in accordance with the provisions of the Plan, or otherwise be responsible for the adequacy of the Trust Fund to meet and discharge any liabilities under the Plan. The named fiduciary responsible for ensuring timely payment of contributions to the Trust Fund is the Client.

2.5 Plan Amendments This Trust incorporates and forms a part of Plan for which funds are held hereunder to provide post-retirement health benefits for the benefit of non-collectively bargained retired and disabled employees (and their eligible spouses and dependents) (collectively referred to as "Non-Collectively Bargained Retirees") and the eligible surviving spouses and dependents of active non-collectively bargained employees of the Company who die during the course of their employment with the Company (collectively "Non-Collectively Bargained Surviving Dependents") who are entitled to post-retirement health benefits under the Plan. The Client warrants that promptly upon the adoption of any amendment to the Plan it will furnish the Trustee with a copy of the executed amendment. The Client further agrees that no amendment of the Plan shall have the effect of changing the rights, duties, and liabilities of the Trustee without its written consent. The Trustee may rely on the latest Plan documents furnished it as above provided without further inquiry or verification. In the event of any conflict between the Plan and this Trust Agreement, with respect to the duties of the Trustee this Trust Agreement shall govern and control.

3. DISBURSEMENTS FROM THE TRUST FUND.

The Trustee shall from time to time on receipt of a Proper Instruction from the Administrator make payments out of the Trust Fund to such persons, including the Client, in such manner, in such amounts and for such purposes as may be specified in the directions of the Administrator.

The Administrator shall be responsible for ensuring that any payment directed under this Section conforms to the provisions of the Plan, this Trust Agreement, and the provisions of ERISA and the Code. Each Proper Instruction of the Administrator shall be in writing and shall be deemed to include a certification that any payment or other distribution directed thereby is one which the Administrator is authorized to direct, and the Trustee may conclusively rely on such deemed certification without further investigation. The Trustee shall not incur any liability or other damage on account of any payments or other distributions made by it pursuant to a Proper Instruction of the Administrator.

4. ADMINISTRATOR SELECTED INVESTMENT FUNDS.

4.1 In General. The Administrator, from time to time and in accordance with provisions of the Plan, may direct the Trustee to establish one or more Investment Funds, which may be invested in (i) shares of investment companies registered under the Investment Company Act of 1940, (ii) collective funds maintained by a bank or trust company, (iii) various classes of common stock of the Client, (iv) pools of insurance contracts, (v) funds managed by a registered investment manager, bank or insurance company, (vi) accounts managed by Investment Managers; and (vii) other investment funds or vehicles with the consent of the Trustee. The Trustee shall have no liability for any loss of any kind which may result by reason of the manner of division of the Trust Fund into Investment Funds, or for the investment management of these accounts, except as provided for in Section 4.4 respecting a Trustee managed investment account, if any. The Trustee shall transfer to each such Investment Fund such portion of the assets of the Trust Fund as the Administrator directs via Proper Instructions. The Trustee shall not incur any liability on account of following any Proper Instruction of the Administrator and the Trustee shall be under no duty to review the investment guidelines, objectives and restrictions so established.

All interest, dividends and other income received with respect to, and any proceeds received from the sale or other disposition of, Property held in an Investment Fund shall be credited to and reinvested in such Investment Fund. All expenses of the Trust Fund which are allocable to a particular Investment Fund shall be so allocated and charged. The Administrator, or when so authorized, the Investment Manager,

may direct the Trustee to eliminate an Investment Fund, and the Trustee shall thereupon dispose of the assets of such Investment Fund and reinvest the proceeds thereof in accordance with the directions of the Administrator or Investment Manager, as applicable.

4.2 Investment Manager Accounts. The Administrator, from time to time and in accordance with the provisions of the Plan, may appoint one or more Investment Managers with investment discretion over an Investment Account.

The Administrator shall be responsible for ascertaining that, while each Investment Manager is acting in that capacity hereunder, the following requirements are satisfied:

(a) The Investment Manager is either (i) registered as an investment adviser under the Investment Advisers Act of 1940; (ii) is not registered as an investment adviser under such Act by reason of paragraph (1) of Section 203A(a) of such Act, is registered as an investment adviser under the laws of the State (referred to in such paragraph (1)) in which it maintains its principal office and place of business, and, at the time the fiduciary last filed the registration form most recently filed by the fiduciary with such State in order to maintain the fiduciary's registration under the laws of such State, also filed a copy of such form with the Secretary of Labor, (iii) a bank as defined in that Act or (iv) an insurance company qualified to perform the services described in (b) below under the laws of more than one state;

(b) The Investment Manager has the power to manage, acquire or dispose of any assets of the Plan for which it is responsible hereunder;

(c) The Investment Manager has acknowledged in writing to the Administrator that it is a fiduciary with respect to the Plan within the meaning of Section 3(21)(A) of ERISA;

(d) The Plan provides for the appointment of the Investment Manager in accordance with Section 402(c)(3) of ERISA, and the Investment Manager is appointed as so provided;

(e) Any Investment Manager with authority to invest in assets which will be held outside the jurisdiction of the district courts of the United States is an entity described in ERISA regulations at 29 C.F.R. § 2550.404b-1(a)(2)(i).

The Administrator shall furnish the Trustee with written notice of the appointment of each Investment Manager hereunder, and of the termination of any such appointment. Such notice shall specify the assets which shall constitute the Investment Account of such Investment Manager. The Trustee shall be fully protected in relying upon the effectiveness of such appointment and the Investment Manager's continuing satisfaction of the requirements set forth above until it receives written notice from the Administrator to the contrary.

The Trustee shall conclusively presume that each Investment Manager, under its investment management agreement, is entitled to act, in directing the investment and reinvestment of the Investment Account for which it is responsible, in its sole and independent discretion and without limitation.

The Trustee shall have no liability (i) for the acts or omissions of any Investment Manager; (ii) for following Proper Instructions of an Investment Manager, the Administrator, or the Committee, which are given in accordance with this Trust Agreement; (iii) for failing to act in the absence of Investment Manager direction; or (iv) for any loss of any kind which may result by reason of the manner of division of the Trust Fund or Investment Fund into Investment Accounts.

An Investment Manager shall certify, at the request of the Trustee, the value of any Property held in any Investment Account managed by such Investment Manager, and such certification shall be regarded as a direction with regard to such valuation. The Trustee shall be entitled to conclusively rely upon such valuation for all purposes under this Trust Agreement.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

4.3 Client Managed Investment Accounts. The Trustee shall, if so directed in writing by the Administrator, segregate all or a portion of the Trust Fund held by it into one or more separate investment accounts over which the Administrator may exercise investment discretion ("Client Managed Investment Accounts"). The Administrator, by written notice to the Trustee, may at any time relinquish its powers under this Section 4.3 and direct that a Client Managed Investment Account shall no longer be maintained. In addition, during any time when there is no Investment Manager with respect to an Investment Account (such as before an investment management agreement takes effect or after it terminates), the Administrator shall direct the investment and reinvestment of such Investment Account. Whenever the Administrator is directing the investment and reinvestment of an Investment Account or a Client Managed Investment Account, the Administrator shall have the powers and duties which an Investment Manager would have under this Trust Agreement if an Investment Manager were then serving and the Trustee shall be protected in relying on the Administrator's directions without reviewing investments or making suggestions to the same extent as it would be protected under this Trust Agreement if it had relied on the directions of an Investment Manager.

4.4 Trustee Managed Investment Accounts. The Trustee shall have no investment discretion and no duty or responsibility to direct the investment and reinvestment of the Trust Fund, any Investment Fund or any Investment Account unless expressly agreed to in writing between the Trustee and the Administrator. In the event that the Trustee enters into such an agreement, it shall have the powers and duties of an Investment Manager under this Trust Agreement with regard to such Investment Account.

5. POWERS OF THE TRUSTEE.

5.1 Directed Investment Powers of the Trustee. The Trustee shall have and exercise the following powers and authority: (i) over Investment Accounts where it has express investment management discretion as provided in Section 4.4; (ii) upon direction of the Investment Manager of an Investment Account; or (iii) upon direction of the Administrator for a Client Managed Investment Account, in each case subject to receipt of Proper Instructions where applicable, the Custody Addendum set forth on Appendix A and any further restrictions noted below:

(a) To purchase, receive, or subscribe for any Property and to retain in trust such Property.

(b) To sell for cash or on credit, to grant options, convert, redeem, exchange for other Property, to enter into standby agreements for future investment, either with or without a standby fee, or otherwise to dispose of any Property at any time held by it.

(c) To settle, compromise or submit to arbitration any claims, debts, or damages, due or owing to or from the trust, to commence or defend suits or legal proceedings and to represent the trust in all suits or legal proceedings in any court of law or before any other body or tribunal.

(d) To trade in financial options and futures, including index options and options on futures and to execute in connection therewith such account agreements and other agreements in such form and upon such terms as the Investment Manager or the Administrator shall direct.

(e) To exercise all voting rights, tender or exchange rights, any conversion privileges, subscription rights and other rights and powers available in connection with any Property at any time held by it; to oppose or to consent to the reorganization, consolidation, merger, or readjustment of the finances of any corporation, company or association, or to the sale, mortgage, pledge or lease of the property of any corporation, company or association any of the Securities which may at any time be held by it and to do any act with reference thereto, including the exercise of options, the making of agreements or subscriptions and the payment of expenses, assessments or subscriptions, which may be deemed necessary or advisable by the Investment Manager or Administrator in connection therewith, and to hold and retain any Property which it may so acquire; and to deposit any property with any

protective, reorganization or similar committee, and to pay and agree to pay part of the expenses and compensation of any such committee and any assessments levied with respect to property so deposited.

(f) To borrow money in such amounts and upon such terms and conditions as shall be deemed advisable or proper by the Administrator or Investment Manager to carry out the purposes of the trust and to pledge any Property for the repayment of any such loan.

(g) To invest all or a portion of the Trust Fund in contracts issued by insurance companies, including contracts under which the insurance company holds Plan assets in a separate account or commingled separate account managed by the insurance company. The Trustee shall not be responsible for the terms of any insurance contract that it is directed to purchase and hold or for the selection of the issuer thereof or for performing any functions under such contract (other than the execution of any documents incidental thereto) as directed.

(h) To manage, administer, operate, lease for any number of years, develop, improve, repair, alter, demolish, mortgage, pledge, grant options with respect to, or otherwise deal with any real property or interest therein at any time held by it, and to hold any such real property in its own name or in the name of a nominee, with or without the addition of words indicating that such property is held in a fiduciary capacity, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(i) To renew, extend or participate in the renewal or extension of any mortgage, upon such terms as may be deemed advisable by the Investment Manager or Administrator, and to agree to a reduction in the rate of interest on any mortgage or of any guarantee pertaining thereto in any manner and to any extent that may be deemed advisable by the Investment Manager or Administrator for the protection of the Trust Fund or the preservation of the value of the investment; to waive any default, whether in the performance of any covenant or condition of any mortgage or in the performance of any guarantee, or to enforce any such default in such manner and to such extent as may be deemed advisable by the Investment Manager or Administrator; to exercise and enforce any and all rights of foreclosure, to bid on property on foreclosure, to take a deed in lieu of foreclosure with or without paying consideration therefor, and in connection therewith to release the obligation on the bond secured by such mortgage, and to exercise and enforce in any action, suit or proceeding at law or in equity any rights or remedies in respect to any such mortgage or guarantee.

(j) To hold part or all of the Trust Fund uninvested.

(k) To purchase and sell foreign currencies and enter into contracts for foreign exchange, including transactions entered into with State Street Bank and Trust Company, its agents or subcustodians.

(l) To form corporations and to create trusts to hold title to any Property, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(m) To register any Securities held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such Securities are held in a fiduciary capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(n) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases, or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(o) To deposit Cash at any bank, including State Street Bank and Trust Company (i) in any type of interest bearing investments (including, but not limited to savings accounts, money market accounts, certificates of deposit and repurchase agreements), (ii) in noninterest bearing accounts (including but not limited to checking accounts), and (iii) in common or collective investment funds managed by the Trustee.

(p) To invest in open-end and closed-end investment companies, regardless of the purposes for which such fund or funds were created, including those managed, serviced, or advised by the Trustee or an Affiliate of the Trustee, and in any partnership, limited or unlimited, joint venture and other forms of joint enterprise created for any lawful purpose.

Except as otherwise provided in this Trust Agreement, the Investment Manager of an Investment Account or the Administrator in the case of a Client Managed Investment Account shall have the power and authority, to be exercised in its sole discretion at any time and from time to time, to issue orders for the purchase or sale of Securities directly to a broker. Written notification of the issuance of each such order shall be given promptly to the Trustee by the Investment Manager or the Administrator and the confirmation of each such order shall be confirmed to the Trustee by the broker. Unless otherwise directed by the Administrator or Investment Manager through a Proper Instruction, such notification shall be authority for the Trustee to pay for Securities purchased or to deliver Securities sold as the case may be. Upon the direction of the Investment Manager or the Administrator through a Proper Instruction, the Trustee will execute and deliver appropriate trading authorizations, but no such authorization shall be deemed to increase the liability or responsibility of the Trustee under this Trust Agreement.

The Trustee shall process Corporate Actions and class actions in the manner described in the Custody Addendum set forth in Appendix A.

If the Trustee is directed by the Administrator or an Investment Manager through a Proper Instruction to purchase Securities issued by any foreign government or agency thereof, or by any corporation or other entity domiciled outside of the United States, it shall be the responsibility of the Administrator or Investment Manager, as the case may be, to advise the Trustee in writing with respect to any Laws or regulations of any foreign countries or any United States territory or possession which shall apply in any manner whatsoever to such Securities, including, without limitation, receipt by the Trustee of dividends, interest or other distributions on such Securities.

The Administrator reserves the power and authority, to be exercised in its sole discretion at any time and from time to time, to execute and deliver documents on behalf of the Trust to effect investment transactions (the "Execution Documents") in the case of a Client Managed Investment Account, and to authorize its duly appointed Investment Manager to execute Execution Documents in the case of an Investment Account. Copies of the Execution Documents will be provided to the Trustee by the Administrator or Investment Manager, as soon as practicable after execution, and the Administrator or Investment Manager shall maintain copies of the same in its own records. Subject to Section 1.4 of Appendix A, the Administrator hereby directs the Trustee to accept into the Trust all assets that are invested in by the Trust, pursuant to the execution of Execution Documents by the Administrator or the Investment Manager.

5.2 Administrative Powers of the Trustee. Notwithstanding the appointment of an Investment Manager, the Trustee shall have the following powers and authority, to be exercised in its sole discretion, with respect to the Trust Fund:

(a) To employ suitable agents, custodians and counsel and to pay their reasonable expenses and compensation.

(b) To appoint ancillary trustees to hold any portion of the assets of the trust and to pay their reasonable expenses and compensation.

(c) To register any Securities held by it hereunder in its own name or in the name of a nominee

with or without the addition of words indicating that such Securities are held in a fiduciary capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(d) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(e) Generally to do all ministerial acts, whether or not expressly authorized, which the Trustee may deem necessary or desirable in carrying out its duties under this Trust Agreement.

Notwithstanding anything in the Plan or this Trust Agreement to the contrary, the Trustee shall not be required by the Client, the Administrator or any Investment Manager to engage in any action, nor make any investment which constitutes a prohibited transaction or is otherwise contrary to the provisions of ERISA or which is otherwise contrary to Law or to the terms of the Plan or this Trust Agreement.

5.3 Record Retention. The Trustee shall retain its records and accountings relating to the Trust as long as necessary for the proper administration thereof and at least for any period required by ERISA or other applicable law.

6. STANDARD OF CARE.

6.1 Standard of Care. The Trustee acknowledges that, in its capacity as a directed trustee, limited fiduciary status and duties apply to its performance of certain obligations pursuant to Section 403(a)(1) of ERISA when acting upon Proper Instructions. The Trustee agrees that, to the extent it performs duties under this Trust Agreement as a fiduciary under Section 3(21) of ERISA, it will perform its duties under this Trust Agreement with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Where the Trustee does not act as a fiduciary under Section 3(21) of ERISA, the Trustee will (a) in the performance of its duties set forth in Appendix A, exercise the reasonable skill, care and diligence expected of a professional provider of custody services to institutional investors and act in good faith and in accordance with generally applicable industry standards and practices, or (b) for all other purposes, exercise reasonable care.

6.2 Liability for Losses. Subject to the limitations and exclusions of liability in this Trust Agreement, the Trustee will be liable for Losses suffered or incurred by the Client to the extent such Losses are caused by the negligence, willful default, or fraud of the Trustee in the performance of its obligations under this Agreement. The parties agree that "negligence" will mean a breach by the Trustee of its obligation to exercise the standard of care described in Section 6.1 above.

6.3 Responsibility for Delegates. The Trustee will be liable to the Client for the acts and omissions of its Delegates as if it had committed such acts and omissions itself.

6.4 Force Majeure. Neither Party will be in breach of this Trust Agreement or liable for Losses arising by reason of the occurrence of a Force Majeure Event that prevents, hinders or delays it from or in performing its obligations under this Agreement, except, in the case of the Trustee, to the extent that such Losses are attributable to its breach of its business continuity obligations under this Trust Agreement.

6.5 No Liability for Certain Losses. Except as may be required by ERISA, the Trustee will not be liable to the Plan for any Losses to the extent they arise from or are caused by:

6.5.1 the Trustee acting upon any (i) Proper Instruction or (ii) if a Proper Instruction is not required in a particular circumstance, any other direction, instruction, information, notice, request, consent, certificate, instrument or other writing that the Trustee reasonably believes, subject to Section 8.5, below, to be genuine and to be signed or otherwise given by or on behalf of

a person authorized to do so;

6.5.2 a delay in processing or any failure to process any Proper Instruction to the extent permitted under Section 8, subject to the satisfaction of the conditions set out in that Section, as applicable;

6.5.3 the failure of the Client or any Authorized Person to comply with the Client's obligations under this Agreement; or

6.5.4 any other acts and omissions of the Client, Investment Manager, any Authorized Person, or any third party, including any Third Party Agent, Market Participant, Authorized Data Source, CSD, or Financial Market Utility.

6.6 Mutual Exclusion of Indirect and Other Loss. Notwithstanding any other provision of this Trust Agreement, neither Party will be liable to the other for: (i) indirect, consequential, speculative, punitive or special Loss or (ii) loss of profit, revenue, opportunity, business, anticipated savings, goodwill and damage to reputation, or Loss of any similar kind; in each case whether or not a Party has been advised of or otherwise could have anticipated the possibility of such losses, except to the extent any such losses cannot be excluded or limited as a matter of Law applicable to either Party.

7. INDEMNITY.

7.1 Indemnity by Client. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Trust Agreement, including Section 6.6, the Plan (to the extent permitted by ERISA), and the Client (to the extent the Plan is not permitted to indemnify under ERISA) will indemnify the Trustee against any direct Losses incurred by the Trustee (including Losses incurred by Subcustodians or Delegates for which the Trustee is liable) in connection with the performance of its duties under this Trust Agreement, including acting on Proper Instructions and Losses incurred by virtue of being the holder of record of the Plan's assets, except, in each case, to the extent such Losses result from the Trustee's negligence, wilful default or fraud (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.2 Indemnity by Trustee. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Agreement, including Section 6.5 and 6.6, the Trustee will indemnify the Client and the Plan against any direct Losses incurred by the Client or Plan, in each case, to the extent such Losses result from the negligence, wilful default or fraud of the Trustee (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.3 Duty to Mitigate. Each Party will use reasonable efforts to mitigate any Losses in respect of which it claims indemnification under this Trust Agreement.

7.4 Notice of Claims. A Party seeking indemnification under this Section ("Indemnified Party") against a third-party claim ("Indemnified Claim") will promptly provide written notice of such claim to the Party obligated to indemnify ("Indemnifying Party"). The failure to notify the Indemnifying Party will not relieve such Party of any liability under this Section, except to the extent that such failure materially prejudices the investigation and/or defense of the Indemnified Claim.

7.5 Right to Control Third Party Claims. The Indemnifying Party will, at its own expense, be entitled but not obligated to control and direct the investigation and defense of any Indemnified Claim, except where the Trustee is the Indemnified Party and is seeking indemnification from multiple customers for claims based on common facts or otherwise related to the Indemnified Claim, in which case the Trustee will have the right to control and direct the investigation and defense of such claim, at the expense of (i) the Indemnifying Party or (ii) all of the customers from which indemnification is sought, including the Indemnifying Party, pro rata, as appropriate. Where the Indemnifying Party controls and directs the investigation of the defence of the Indemnified Claim, the Indemnified Party may retain separate counsel at its own expense. If a conflict of interest exists between the Parties with respect to the defense of such claim, the reasonable cost of separate counsel will be an indemnified expense.

7.6 Settlement of Claims. Neither Party may settle an Indemnified Claim without the consent of the other Party, which consent will not be unreasonably withheld, conditioned or delayed, provided that the Indemnifying Party will have the right to settle an Indemnified Claim without the consent of the Indemnified Party if such settlement:

7.6.1 involves only the payment of money;

7.6.2 fully and unconditionally releases the Indemnified Party from any liability in exchange for the amount paid in settlement; and

7.6.3 does not include any admission of fault or liability in relation to the Indemnified Party.

7.7 Cooperation. In all cases, each Party will, as applicable, provide reasonable cooperation and assistance to the other Party and keep the other Party apprised as to the status of the Indemnified Claim, including any discussions relating to the settlement of the claim and the details of any settlement offer.

8. PROPER INSTRUCTIONS AND AUTHENTICATION PRODEDURES.

8.1 Dealings in Cash and Securities. The Trustee will conduct all transactions and dealings in Cash and Securities under this Trust Agreement in accordance with Proper Instructions, subject to any other rights it may have under this Trust Agreement.

8.2 Appointment of Authorized Persons. The Client and any Investment Manager will provide the Trustee with a list of the names and (if applicable) signatures, of Authorized Persons in a form agreed by the Parties from time to time. The Trustee may rely upon the authority of each Authorized Person until it receives written notice to the contrary from the Client and has had a reasonable time to act on such notice.

8.3 Authentication Procedures. The Trustee will implement Authentication Procedures with the Client and with any Investment Manager appointed by the Client. The Client acknowledges that the Authentication Procedures are intended to provide a commercially reasonable degree of protection against unauthorized transactions of certain types and are not designed to detect errors. Any purported Proper Instruction received by the Trustee in accordance with an Authentication Procedure will be taken to have originated from an Authorized Person and will constitute a Proper Instruction under this Trust Agreement for all purposes.

8.4 Security Measures by Client. The Client is responsible for ensuring that appropriate security measures are implemented to prevent unauthorized disclosure or use of any Authentication Procedure made available to it or an Investment Manager in connection with this Trust Agreement.

8.5 No Duty to Verify. Except to the extent the Trustee is required to comply with Authentication Procedures under Section 8.3 above, the Trustee has no duty to verify that personnel of the Client or any Investment Manager engaged in investment activity are authorized to do so or that any instructions received by the Trustee are duly authorized.

8.6 Decline/Delay in Processing. The Trustee reserves the right to decline to process or delay the processing of any purported Proper Instruction where:

8.6.1 the Trustee, in good faith, determines that the instruction may not have been properly authorized;

8.6.2 the instruction is inaccurate, incomplete or unclear;

8.6.3 the instruction conflicts with the terms of this Trust Agreement or any Law applicable to either Party, Local Market Practice or the Trustee's standard operating procedures; or

8.6.4 the Trustee has not been given a reasonable time period to effect the instruction.

In these circumstances, the Trustee will promptly seek authentication, clarification, correction or amendment of any Proper Instruction, as the case may be.

8.7 Cancellation and Amendment. The Trustee will use reasonable efforts to act on Proper Instructions to cancel or amend previously issued Proper Instructions if:

8.7.1 the Trustee has not already acted on the previously issued Proper Instructions; and

8.7.2 the Proper Instruction to cancel or amend is received before the applicable deadlines specified from time to time in the Client Publications or applicable event notification.

The Trustee is not responsible or liable if the request to cancel or amend cannot be satisfied.

8.8 Oral Instructions. If applicable, the Trustee may act on an oral instruction (given in accordance with an agreed Authentication Procedure) before receipt of any written confirmation and irrespective of whether any subsequent written confirmation conforms to the oral instruction.

8.9 Conflicting Claims. If there is a dispute or conflicting claim with respect to Securities or Cash held by the Trustee under this Trust Agreement, the Trustee is entitled to refuse to act on a Proper Instruction of the Client or any Investment Manager in relation to the particular Securities or Cash until either (i) the dispute or conflicting claims have been finally determined by a court of competent jurisdiction or settled by agreement between the conflicting parties, and the Trustee has received written evidence satisfactory to it of such determination or agreement, or (ii) the Trustee has received an indemnity, security or both, satisfactory to it and sufficient to hold it harmless from and against any and all Losses which the Trustee may incur as a result of its actions.

8.10 Matters Not Requiring Proper Instructions. The Client authorizes the Trustee in the absence of Proper Instructions to attend to all matters which may be necessary or appropriate to discharge its duties and give effect to the terms of this Trust Agreement, including the execution, in the Client's name or on its behalf, of any affidavits, certificates of ownership and other certificates and documents relating to Securities.

9. TAXES AND TRUSTEE COMPENSATION.

The Trustee shall pay out of the Trust Fund all real and personal property taxes, income taxes and other taxes of any and all kinds levied or assessed under existing or future laws against the Trust Fund. Until advised to the contrary by the Administrator, the Trustee shall assume that the Trust is not exempt from all Federal and State income taxes, and shall act in accordance with that assumption. The Administrator shall timely file all Federal, State and local tax and information returns relating to the Plan and the Trust.

The Trustee shall be paid such reasonable compensation in a written fee schedule or otherwise as shall from time to time be agreed upon by the Client and the Trustee in writing. Such compensation and all reasonable and proper expenses of administration of the Trust, including counsel Fees, shall be withdrawn by the Trustee out of the Trust Fund unless paid by the Client, but such compensation and expenses shall be paid by the Client if the same cannot by operation of law be withdrawn from the Trust Fund.

Payments from the Trust Fund under this Section 9 may be made without approval or direction of the Administrator.

In connection with the performance of its obligations under this Trust Agreement, the Trustee will

hold cash balances from time to time and will have no liability for interest from the date of receipt until the disbursement of such cash balances in accordance with Proper Instructions received from the Administrator, and the Trustee has had a reasonable opportunity to act thereon. The Trustee may also hold cash balances awaiting distribution from the Plan without liability for interest until checks issued by the Trustee are presented for payment by the payee or until a reasonable time after the Trustee is otherwise instructed as to the disposition of such assets, the timing of which is beyond the control of the Trustee. Any "float" earned by the Trustee shall constitute a part of the Trustee's overall compensation for performance of Services.

To assist the Administrator in estimating the amount of float earned by the Trustee, general information associated with account activity (including disbursement and investment activity) is available to the Client on MyStateStreet, and for such short-term U.S. balances, the rate of return earned by the Trustee is generally equivalent to the current Fed Funds rate, less FDIC insurance charges.

10. CREDITORS RIGHTS.

10.1 Security. To secure the full and timely satisfaction of all Secured Liabilities, the Client on behalf of the Plan hereby grants, to the maximum extent permitted by Law, including ERISA, to the Trustee a security interest in and a right of retention, sale and set off, as applicable, against (i) all of the Plan's Cash, Securities, and other assets, whether now existing or hereafter acquired, in the possession or under the control of the Trustee or its Subcustodians pursuant to this Trust Agreement and (ii) any and all cash proceeds of any of the above (collectively, the "Collateral").

10.2 Rights of the Trustee. In the event that the Plan fails to satisfy in full any of the Secured Liabilities as and when due and payable, the Trustee will have, in addition to all other rights and remedies arising under this Trust Agreement or under applicable Law, the rights and remedies of a secured party under applicable Law. Without prejudice to the Trustee's other rights and remedies, the Trustee will be entitled, in each case as and to the extent reasonably necessary to satisfy in full the Secured Liabilities and any related transaction expenses, to (a) exercise its right of retention and withhold delivery of any Collateral and otherwise refuse to act on any Proper Instruction relating to such Collateral, (b) sell or otherwise realize any Collateral, and (c) set off the net proceeds of such sale or realization of Collateral and/or the amount of any deposit balances standing to the credit of the Client in any Cash Account(s) against such Secured Liabilities.

10.3 Exercise of Rights. The Trustee may exercise its rights and remedies against the Collateral in any manner (including by any method, at any time or place, and on any terms) as it deems, in good faith, to be commercially reasonable under the circumstances, and will use reasonable efforts to effect any sale of Collateral at the prevailing market price in the relevant market. Without limiting the foregoing, the Client on behalf of the Plan acknowledges that it will be commercially reasonable for the Trustee to, among other things: (i) accelerate or cause the acceleration of the maturity of any fixed term deposits comprised in the Collateral and (ii) effect any necessary currency conversions through its own trading desk at such exchange rates as it determines in its reasonable discretion, which rates may include a mark-up from the rates the Trustee receives on the interbank market.

10.4 Notice. The Trustee will use reasonable efforts to give the Client (on behalf of the Plan) prior notice of any exercise of the right to sell or otherwise realize Collateral set forth above, provided that the Trustee will not be obligated to give prior notice or delay exercising its rights pending or after the provision of such notice if, in its reasonable judgment, giving such notice or any such delay would prejudice its ability to obtain satisfaction in full of the Secured Liabilities.

11. FOREIGN EXCHANGE.

11.1 Generally. Upon receipt of Proper Instructions, the Trustee shall facilitate the processing and settlement of foreign exchange transactions. Such foreign exchange transactions do not constitute part of the Services provided by the Trustee under this Trust Agreement.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

11.2 Client Elections. The Client or the Investment Manager (acting on behalf of the Plan) may elect to enter into and execute foreign exchange transactions with third parties that are not affiliated with the Trustee, with State Street Global Markets, which is the foreign exchange division of State Street Bank and Trust Company and its affiliated companies ("SSGM"), or with a subcustodian. Where the Client or the Investment Manager gives Proper Instructions for the execution of a foreign exchange transaction using an indirect foreign exchange service described in the Client Publications, the Client (or its Investment Manager) instructs the Trustee, on behalf of the Plan, to direct the execution of such foreign exchange transaction to SSGM or, when the relevant currency is not traded by SSGM, to the applicable subcustodian. The Trustee shall not have any agency (except as contemplated in the preceding sentence), trust or fiduciary obligation to the Client, or the Investment Manager or any other person in connection with the execution of any foreign exchange transaction. The Trustee shall have no responsibility under this Trust Agreement for the selection of the counterparty to, or the method of execution of, any foreign exchange transaction entered into by the Investment Manager or the Client (on behalf of the Plan) or the reasonableness of the execution rate on any such transaction.

11.3 Client Acknowledgement. The Client (on behalf of the Plan) acknowledges that in connection with all foreign exchange transactions entered into by the Client (or its Investment Manager acting on the Plan's behalf) with SSGM or any subcustodian, SSGM and each such subcustodian:

11.3.1 shall be acting in a principal capacity and not as broker, agent or fiduciary to the Client, the Plan or its Investment Manager;

11.3.2 shall seek to profit from such foreign exchange transactions, and are entitled to retain and not disclose any such profit to the Client, the Plan or its Investment Manager; and

11.3.3 shall enter into such foreign exchange transactions pursuant to the terms and conditions, including pricing or pricing methodology, (a) agreed with the Client or the Investment Manager on behalf of the Plan from time to time or (b) in the case of an indirect foreign exchange service (i) as established by SSGM and set forth in the Client Publications with respect to the particular foreign exchange execution services selected by the Client or the Investment Manager on behalf of the Plan or (ii) as established by the subcustodian from time to time.

11.4 Transactions by State Street. The Trustee or its affiliates, including SSGM, may trade based upon information that is not available to, and may enter into transactions for its own account or the account of clients in the same or opposite direction to the transactions entered into with the Client (or its Investment Manager acting on the Plan's behalf), and shall have no obligation under this Trust Agreement to share such information with or consider the interests of their respective counterparties, including, where applicable, the Client or the Investment Manager (acting on the Plan's behalf).

12. ACCOUNTS OF THE TRUSTEE.

The Trustee shall maintain or cause to be maintained suitable records, data and information relating to its functions hereunder.

The Trustee shall keep accurate and detailed accounts of all investments, receipts, disbursements, and other actions hereunder, and such other records as the Administrator shall from time to time direct, as agreed to by the Trustee.

Within sixty (60) days after the close of each fiscal year of the Trust and at more frequent intervals if agreed to by the Parties hereto, and within sixty (60) days after the removal or resignation of the Trustee as provided hereunder, the Trustee shall render to the Client a written statement and account showing in reasonable summary the investments, receipts, disbursements, and other transactions engaged in during the preceding fiscal year or period, and setting forth the assets and liabilities of the Trust Fund. Unless the Client shall have filed with the Trustee written exceptions or objections to any such statement and account within sixty (60) days after receipt thereof, the Client shall be deemed to have approved such statement

and account, and in such case or upon written approval by the Administrator of any such statement and account, the Trustee shall be released and discharged with respect to all matters and things embraced in such statement and account as though it had been settled by a decree of a court of competent jurisdiction in an action or proceeding in which the Client, all other necessary parties and all persons having any beneficial interest in the Trust Fund were parties.

The Trustee shall determine the fair market value of assets of the Trust Fund based upon valuations provided by Investment Managers, information and financial publications of general circulation, statistical and valuation services, records of security exchanges, appraisals by qualified persons, transactions and bona fide offers in assets of the type in question and other information customarily used in the valuation of property.

The Client or its delegate, each Investment Manager, and the Trustee shall file such descriptions and reports and make such other publications, disclosures, registrations and other filings as are required of them respectively by ERISA.

Nothing contained in this Trust Agreement or in the Plan shall deprive the Trustee of the right to have a judicial settlement of its account. In any proceeding for a judicial settlement of the Trustee's accounts or for instructions in connection with the Trust, the only necessary party thereto in addition to the Trustee shall be the Client, and no participant or other person having or claiming any interest in the Trust Fund shall be entitled to any notice or service of process (except as required by law). Any judgment, decision or award entered in any such proceeding or action shall be conclusive upon all interested persons.

13. AUDIT RIGHTS.

13.1 Client and Regulator Access. The Trustee will allow the Client and the Client's regulators or supervisory authorities to perform periodic on-site audits as may be reasonably required to examine the Trustee's performance of the Services.

13.2 Frequency and Scope. For inspections requested by the Client that are not the result of an audit of the Plan or Trust by the government, an administrative tribunal or a court (such request will include reasonable advance notice) and agreed to by the Trustee, the Trustee reserves the right to impose reasonable limitations on the number, frequency, timing, and scope of such audits.

13.3 Limitations on Disclosure. Nothing contained in this Section will obligate the Trustee to provide access to or otherwise disclose: (i) any information that is unrelated to the Client and the provision of the Services to the Client; (ii) any information that is treated as confidential under the Trustee's corporate policies, including, without limitation, internal audit reports, compliance or risk management plans or reports, work papers and other reports, and information relating to management functions; or (iii) any other documents, reports, or information that the Trustee is obligated or entitled to maintain in confidence as a matter of law or regulation. In addition, any access provided to technology will be limited to a demonstration by the Trustee of the functionality thereof and a reasonable opportunity to communicate with the Trustee's personnel regarding such technology.

14. RESIGNATION AND REMOVAL OF TRUSTEE.

The Trustee may resign at any time by giving ninety (90) days' prior written notice to the Client, which notice may be waived by the Client. The Client may remove the Trustee at any time upon ninety (90) days' prior written notice to the Trustee, which notice may be waived by the Trustee. In case of the resignation or removal of the Trustee, the Client shall appoint a successor trustee. Any successor trustee shall have the same powers and duties as those conferred upon the Trustee named in this Trust Agreement. The removal of a Trustee and the appointment of a new Trustee shall be by a written instrument delivered to the Trustee. Upon the appointment of a successor trustee and after the final account of the resigning or removed Trustee has been approved or settled, the resigning or removed Trustee shall transfer or deliver the assets held in the Trust to such successor trustee, provided that the Trustee may reserve such reasonable amount as the Trustee may deem necessary for outstanding and accrued charges against the

Trust Fund.

This Trust Agreement may be terminated by either the Trustee or the Client, without penalty, upon notice to the other party, with immediate effect or at such later date stated in the notice, in the event such other party commits any material and continuing breach under this Trust Agreement and such breach, although capable of remedy, has not been remedied within thirty (30) days of written notice by a party to the breaching party or, if such breach is not capable of cure within such thirty (30) day period, within a reasonable time mutually agreed to in writing by the Parties, provided that such breaching party commences to cure such breach within such thirty (30) day period and diligently pursues the cure of such breach to completion, provided, however, that no cure period will apply to a material and continuing breach that is incapable of cure.

In addition, Trustee may terminate this Trust Agreement, without penalty, upon notice to the Client with immediate effect or at such later date stated in the notice, in the event the Client does not satisfy Trustee's know-your-customer/anti-money laundering compliance policies.

15. AMENDMENT AND TERMINATION.

15.1 Prohibition on Diversion. Except as expressly provided in herein, at no time shall any part of the corpus or income of the Trust Fund be used for, or diverted to, purposes other than for the benefit of the members or their respective beneficiaries. The assets of the Trust Fund shall never inure to the benefit of the Client and shall be held for the exclusive purpose of providing benefits to such members and their respective beneficiaries and defraying reasonable expenses of administering the Plan and the Trust. No part of the net earnings of the Trust Fund shall inure to the benefit of any shareholder or individual other than through the payment of benefits under the Plan.

In the case of a contribution that is made by the Client by a mistake of fact, this Section shall not prohibit, at the written direction of the Client, the return to the Client of such contribution within one year after the payment of the contribution, but only to the extent the amount so returned is not subject to penalty under Section 4976 of the Code.

15.2 Amendment. Subject to Section 15.1, this Trust Agreement may be amended by written agreement between the Trustee and the Client at any time or from time to time, and in any manner by written agreement of the Client and Trustee.

15.3 Termination. If the Plan is terminated, this Trust Agreement shall nevertheless continue in effect until the Trust Fund has been distributed in accordance with the provisions of the Plan pursuant to directions under Section 3. In the event any assets remain after the satisfaction of all liabilities under the Plan, such assets shall be used for the exclusive benefit of employees of the Client and their beneficiaries, By way of example, and not limitation, any assets remaining in the Trust Fund after the payment of all benefits under the Plan may be used to provide other health and welfare benefits to employees, to provide a premium holiday to employees with respect to other Client health and welfare plans or distributed to participants. The Trust Fund shall terminate when no such assets remain.

15.4 Transfer to Other Fund. If pursuant to directions under Section 3 the entire Trust Fund is transferred to a funding agency for the Plan that is not a trustee, this Trust shall thereupon terminate.

16. BUSINESS CONTINUITY, INTERNAL CONTROLS AND INFORMATION SECURITY.

16.1 Business Continuity Plans. The Trustee will at all times maintain a business contingency plan and a disaster recovery plan and will take commercially reasonable measures to maintain and periodically test such plans. The Trustee will implement such plans following the occurrence of an event which results in an interruption or suspension of the Services to be provided by the Trustee.

16.2 Internal Controls Review and Report. The Trustee will retain a firm of independent auditors to perform an annual review of certain internal controls and procedures employed by the Trustee in the provision of the Services and issue a standard System and Organization Controls 1 or equivalent report based on such review. The Trustee will provide a copy of the report to the Client upon request.

16.3 Information Security Systems and Controls. The Trustee will maintain commercially reasonable information security systems and controls, which include administrative, technical, and physical safeguards that are designed to: (i) maintain the security and confidentiality of the Client's data; (ii) protect against any anticipated threats or hazards to the security or integrity of the Client's data, including appropriate measures designed to meet legal and regulatory requirements applying to the Trustee; and (iii) protect against unauthorized access to or use of the Client's data.

16.4 Virus Detection. The Trustee will at all times employ a current version of one of the leading commercially available virus detection software programs to test the hardware and software applications used by it to deliver the Services for the presence of any computer code designed to disrupt, disable, harm, or otherwise impede operation.

17. CONFIDENTIALITY AND USE OF DATA.

17.1 Confidentiality.

17.1.1 No Disclosure Without Consent. Subject to Section 17.2 and Section 17.3, Confidential Information will not be disclosed by the Receiving Party to any third party without the prior consent of the Disclosing Party.

17.1.2 No limitations of obligations under Trust Agreement or at Law. Except as expressly contemplated by this Trust Agreement, nothing in this Section 17 will limit the confidentiality and data-protection obligations of the Trustee and its Affiliates under this Trust Agreement and Law applicable to the Trustee.

17.2 Use of Confidential Information and Data.

17.2.1 Use of Data of Confidential Information and Data Generally. Subject to this Section 17.2 and Section 17.3, all Confidential Information, including Data, will be used by the Receiving Party for the purpose of providing or receiving Services, as applicable, pursuant to this Trust Agreement or otherwise discharging its obligations under this Trust Agreement.

17.2.2 Use of Data for Indicators. The Trustee and its Affiliates may use Data to develop, publish or otherwise distribute to third parties certain investor behavior "indicators" or "indices" that represent broad trends in the flow of investment funds into various markets, sectors or investment instruments (collectively, the "Indicators"), but only so long as (i) the Data is combined or aggregated with (A) information relating to other customers of the Trustee and/or (B) information derived from other sources, in each case such that the Indicators do not allow for attribution to or identification of such Data with the Client or the Plan, (ii) the Data represents less than a statistically meaningful portion of all of the data used to create the Indicators and (iii) the Trustee publishes or otherwise distributes to third parties only the Indicators and under no circumstance publishes, makes available, distributes or otherwise discloses any of the Data to any third party, whether aggregated, anonymized or otherwise, except as expressly permitted under this Trust Agreement.

17.2.3 Economic Benefit from Indicators. The Client acknowledges that the Trustee may seek and realize economic benefit from the publication or distribution of the Indicators.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

17.3 Disclosure of Confidential Information and Data.

17.3.1 Disclosure of Confidential Information to Representatives. The Receiving Party may disclose the Disclosing Party's Confidential Information without the Disclosing Party's consent to its attorneys, accountants, auditors, consultants and other similar advisors that have a reasonable need to know such Confidential Information ("Representatives"), provided such Confidential Information is disclosed under obligations of confidentiality that prohibit the disclosure or use of such Confidential Information by the Representatives for any purpose other than the specific engagement with the Receiving Party for which the Representative has been retained and that are otherwise no less restrictive than the confidentiality obligations contained in this Trust Agreement. The Parties acknowledge that use of Confidential Information by a Representative to represent its other clients in dealing with the Disclosing Party would constitute a breach of this Section 17.3. Where the Trustee is the Receiving Party, "Representatives" will include its Affiliates and Service Providers (as defined below).

17.3.2 Disclosure and Use of Confidential Information by Trustee. The Trustee may disclose and permit use (as applicable) of Confidential Information of the Plan without the Client's consent:

17.3.2.1 to its Affiliates and any of its third-party agents and service providers ("Service Providers") in connection with the provision of Services, the discharge of its obligations under this Trust Agreement or the carrying out of any Proper Instruction, including in accordance with the standard practices or requirements of any Financial Market Utility or in connection with the settlement, holding or administration of Cash, Securities or other instruments;

17.3.2.2 to its Affiliates in connection with the management of the businesses of the Trustee and its Affiliates, including, but not limited to, financial and operational management and reporting, risk management, legal and regulatory compliance and client service management and marketing.

Where possible, such Confidential Information must be disclosed under obligations of confidentiality or in a manner consistent with industry practice.

17.3.3 Confidential Information and Cloud Computing and Storage. Each Party may store Confidential Information with third-party providers of information technology services, and permit access to Confidential Information by such providers as reasonably necessary for the receipt of cloud computing and storage services and related hardware and software maintenance and support. Such Confidential Information must be disclosed under obligations of confidentiality.

17.3.4 Disclosure of Confidential Information to Comply with Law. The Receiving Party may disclose the Disclosing Party's Confidential Information to the extent such disclosure is required to satisfy any legal requirement (including in response to court-issued orders, investigative demands, subpoenas or similar processes or to satisfy the requirements of any applicable regulatory authority).

17.3.5 Harm of Unauthorized Disclosure of Confidential Information. Each Party acknowledges that the disclosure to any non-authorized third party of Confidential Information or the use of Confidential Information in breach of this Trust Agreement, may immediately give rise to continuing irreparable injury inadequately compensable in damages at law, and in such cases the Receiving Party agrees to waive any defense that an adequate remedy at law is available if the Disclosing Party seeks to obtain injunctive relief against any such breach or any threatened breach.

17.3.6 Responsibility for Representatives. Each Party will be responsible for any use or disclosure of Confidential Information of the Disclosing Party in breach of this Trust Agreement by its Representatives as though such Party had used or disclosed such Confidential Information itself.

17.3.7 No Disclosure to Trustee Asset Manager Division. Unless the Trustee or an Affiliate has been engaged to act as an Investment Manager for the Plan, in no event will the Trustee allow representatives of its asset management division or Affiliates engaged in asset management to have access to or to use Confidential Information of the Client, including Data.

18. DELEGATION.

18.1 Use of Delegates. The Trustee shall have the right, without prior notice to or the consent of the Client or the Plan, to employ Delegates to provide or assist it in the provision of any part of the Services other than Services required by Law applicable to either Party to be performed by a qualified custodian or CSD. Unless otherwise agreed in a fee schedule, the Trustee will be responsible for the compensation of its Delegates.

18.2 Provision of Information Regarding Delegates. The Trustee will provide or make available to the Client on a quarterly or other periodic basis information regarding its global operating model for the delivery of the Services, which information shall include the identities of Delegates affiliated with the Trustee that perform or may perform any part of the Services, and the locations from which such Delegates perform Services, as well as such other information about its Delegates as the Client may reasonably request from time to time.

18.3 Third Parties. Nothing in this Section limits or restricts the Trustee's right to use Affiliates or third parties to perform or discharge, or assist it in the performance or discharge of, any obligations or duties under this Trust Agreement other than the provision of the Services.

19. OBLIGATIONS OF THE CLIENT.

19.1 Provide Information. The Client will provide or cause to be provided to the Trustee all data, information, documents and instructions concerning the Client and the investment activity of the Client in relation to the Portfolio as may be reasonably necessary or as the Trustee may reasonably request, in each case in a complete, accurate and timely manner, in order to enable the Trustee to discharge its duties under this Agreement.

19.2 AML Compliance. The Client will comply with all applicable anti-money laundering, sanctions or other financial crime legislation applicable to it and will provide the Trustee with all necessary sanctions questionnaires, declarations and other documentation in order for the Trustee to comply with its anti-money laundering policy.

19.3 Pass Through Representations. To the extent that the Trustee is required to give (or is deemed to have given) any representation, warranty or undertaking to a third party relating to the Client in accordance with normal market practice in connection with the execution of transaction documents or the issuance or transmission of trade notifications, confirmations and/or settlement instructions, whether using facsimile transmission, industry messaging or matching utilities and/or the proprietary software of Third Party Agents and Market Participants, CSDs or other Financial Market Utilities, the Client will be deemed to have made such representation, warranty or undertaking to the Trustee.

19.4 Operational Requirements. The Client will adhere to the deadlines and other operational requirements set out in the Client Publications, to facilitate meeting the requirements of CSD's, Third Party Agents and Market Participants.

19.5 Client Review and Notification. In accordance with standard market practice, the Client will employ commercially reasonable review and control measures with respect to information provided by the Trustee under this Agreement and give the Trustee prompt written notice of any suspected error or omission or the Client's inability to access any such Information so as to prevent, stem or mitigate any Losses that may arise from the use of inaccurate data or the inaccessibility of data.

19.6 Fees. In consideration for the Services provided by the Trustee, the Client will pay the Fees as agreed in a written fee schedule or otherwise agreed in writing by the Parties from time to time. The Fees and any other amounts payable under this Agreement are stated exclusive of any sales, use, excise, value-added, services, consumption, withholding or other similar tax that is assessed on the supply of the Services under an agreement. Any such tax will be payable by the Client.

19.7 Client Publications. The Client will ensure that it provides the Trustee with and regularly updates, as necessary, e-mail and other contact details for its representatives to enable timely distribution and receipt of the Client Publications.

20. MISCELLANEOUS.

20.1 Governing Law. To the extent not inconsistent with ERISA, and except as preempted by ERISA, as heretofore or hereafter amended, the provisions of this Trust Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Massachusetts. The Parties hereby submit to the jurisdiction of the State and Federal Courts located in a mutually agreeable venue including any appellate courts thereof.

20.2 Non-Alienation of Benefits. No benefit to which a participant or his beneficiary is or may become entitled under the Plan shall at any time be subject in any manner to alienation or encumbrance, nor be resorted to, appropriated or seized in any proceeding at law, in equity or otherwise. No participant or other person entitled to receive a benefit under the Plan shall, except as specifically provided in the Plan, have power in any manner to transfer, assign, alienate or in any way encumber such benefit under the Plan, or any part thereof, and any attempt to do so shall be void.

20.3 Duration of Trust. Unless sooner terminated, the Trust created under this Trust Agreement shall continue for the maximum period of time which the laws of the Commonwealth of Massachusetts shall permit.

20.4 No Guarantees. Neither the Client nor the Trustee guarantees the Trust Fund from loss or depreciation, nor the payment of any amount which may become due to any person under the Plan or this Trust Agreement.

20.5 Duty to Furnish Information. Both the Client and the Trustee shall furnish to the other any documents, reports, returns, statements, or other information that the other reasonably deems necessary to perform its duties imposed under the Plan or this Trust Agreement or otherwise imposed by law.

20.6 Parties Bound. This Trust Agreement shall be binding upon the Parties hereto, all participants in the Plan and persons claiming under or through them pursuant to the Plan, and, as the case may be, the heirs, executors, administrators, successors, and assigns of each of them. The provisions of Sections 6, 7, 8, 10, 15, 17, 20.1, 20.6, 20.7, 20.9 and 20.14 shall survive termination of the Trust created under this Trust Agreement or resignation or removal of the Trustee for any reason.

In the event of the merger or consolidation of the Client or other circumstances whereby a successor person, firm or company shall continue to carry on all or a substantial part of its business, and such successor shall elect to carry on the provisions of the Plan applicable to such business, as therein provided, such successor shall be substituted hereunder for the Client, as the case may be, upon the filing in writing of its election so to do with the Trustee. The Trustee may, but need not, rely on the certification

of an officer of the Client, and a certified copy of a resolution of the Board of Directors of such successor, reciting the facts, circumstances and consummation of such succession and the election of such successor to continue the said Plan as conclusive evidence thereof, without requiring any additional evidence.

20.7 Necessary Parties to Disputes. Necessary parties to any accounting, litigation or other proceedings shall include only the Trustee and the Client and the settlement or judgment in any such case in which the Client and the Trustee are duly served or cited shall be binding upon all participants in the Plan and their beneficiaries and estates, and upon all persons claiming by, through or under them.

20.8 Regulation GG. The Client hereby represents and warrants that it does not engage in an "internet gambling business", as such term is defined in Section 233.2(r) of Federal Reserve Regulation GG (12 CFR 233.1-233.7) ("Regulation GG"). The Client hereby covenants and agrees that it shall not engage in an internet gambling business. In accordance with Regulation GG, the Client is hereby notified that "restricted transactions," as such term is defined in Section 233.2(y) of Regulation GG, are prohibited in any dealings with the Trustee pursuant to this Trust Agreement or otherwise between or among any party hereto.

20.9 Data Protection. The Trustee will comply with the Data Protection Addendum attached hereto as Appendix B.

20.10 Key Employees. Notwithstanding any provisions of the Plan, medical or life insurance benefits within the meaning of Code section 419A(d)(1) shall not be paid out of the Trust to or on behalf of any "key employee", as defined in Section 416(i) of the Code, unless a separate payment account has been established and maintained for such benefits by the Administrator, and the benefits or premiums for such benefits are paid solely from that separate payment account pursuant to Proper Instructions from the Administrator to the Trustee. The separate payment account described in this Section shall be for accounting purposes only and shall not require segregation of assets within the Trust, and the Administrator is solely responsible for the maintenance, administration and tracking of such separate payment account in accordance with the requirements of Section 419A of the Code.

20.11 Severability; No Waiver. If any provisions of this Trust Agreement shall be held by a court of competent jurisdiction to be invalid or unenforceable, the remaining provisions of this Trust Agreement shall continue to be fully effective. The failure of a Party hereto to insist upon strict adherence to any term of this Trust Agreement on any occasion or the failure of a Party hereto to exercise or any delay in exercising any right or remedy under this Trust Agreement shall not constitute a waiver of any of the term, right or remedy or a waiver of any other rights or remedies, and no single or partial exercise of any right or remedy under this Trust Agreement shall prevent any further exercise of the right or remedy or the exercise of any other right or remedy.

20.12 References. Unless the context clearly indicates to the contrary, a reference to a statute, regulation, document or provision shall be construed as referring to any subsequently enacted, adopted or executed counterpart.

20.13 Headings. Headings and subheadings in this Trust Agreement are inserted for convenience of reference only and are not to be considered in the construction of its provisions.

20.14 No Liability for Acts of Predecessor and Successor Trustees. The Trustee shall have no liability for the acts or omissions of any predecessors or successors in office.

20.15 Counterparts. This Trust Agreement may be executed in several counterparts, each of which shall be deemed to be an original, and all such counterparts taken together shall constitute one and the same Trust Agreement. Counterparts may be executed in either original or electronically transmitted form (e.g., faxes or emailed portable document format (PDF) form), and the Parties hereby adopt as original any signatures received in electronically transmitted form.

20.16 Assignment. This Trust Agreement may not be assigned by (a) Client without the prior

written consent of Trustee, except as provided in Section 20.6, or (b) by Trustee without the prior written consent of Client, except that Trustee may assign this Trust Agreement to a successor of all or a substantial portion of its business, or to an Affiliate of Trustee. In the event this Trust Agreement is assigned to a successor under the prior sentence, the Trustee agrees to provide notice to the Client as soon as reasonably practicable.

21. NOTICES.

Any notice, instruction or other communication required to be given hereunder will, unless otherwise provided in this Trust Agreement, be in writing and may be sent by hand, facsimile transmission, electronic notification, or overnight delivery by any recognized delivery service, postage prepaid, to the parties at the following addresses or such other addresses as may be notified by any party from time to time. Electronic notification shall be deemed to include notice given via mystatestreet.com.

Email: victor.rueda@epelectric.com

22. SHAREHOLDER COMMUNICATIONS ELECTION. SEC Rule 14b-2 requires banks that hold securities, as that term is used in federal securities laws, for the account of customers to respond to requests by issuers of securities for the names, addresses and holdings of beneficial owners of securities of that issuer held by the bank unless the beneficial owner has expressly objected to disclosure of this information. In order to comply with the rule, as may be applicable, the Trustee needs the Client to indicate whether it authorizes the Trustee to provide the Client's name, address, and share position to requesting companies whose securities the Client owns. If the Client tells the Trustee "no," the Trustee will not provide this information to requesting companies. If the Client tells the Trustee "yes" or does not check either "yes" or "no" below, the Trustee is required by the rule, as applicable, to treat the Client as consenting to disclosure of this information for all securities owned by the Client or any funds or accounts established by the Client. For the Client's protection, the rule, as applicable, prohibits the requesting company from using the Client's name and address for any purpose other than corporate communications. Please indicate below whether the Client consents or objects by checking one of the alternatives below.

YES [✓] The Trustee is authorized to release the Client's name, address, and share positions.

NO [ ] The Trustee is not authorized to release the Client's name, address, and share positions.

APPENDIX A
CUSTODY ADDENDUM TO TRUST AGREEMENT

WHEREAS, the Trustee, in holding assets delivered to it under the Trust Agreement, will also serve as a custodian (in such capacity, herein referred to as the "Custodian") of certain Property of the Trust, the Parties therefore agree to the following supplemental terms and conditions when Custodian is acting in such capacity:

1 Safekeeping Securities

1.1 Holding Securities. The Custodian will hold Securities delivered or credited to its account under this Agreement directly or through accounts at Subcustodians or CSDs. In turn, Subcustodians will hold Securities directly or through accounts at CSDs.

1.2 Client Entitlements and Segregation. The Custodian will take the following steps to reflect the Trust's ownership of Securities and to separately identify the Securities of the Trust from the proprietary assets of the Custodian, Subcustodians, and CSDs, in accordance with Local Market Practice:

1.2.1 Accounts at the Custodian. Open and maintain on the records of the Custodian one or more securities accounts in the name of the Trust or such other name as the Client may reasonably request (each, a "Securities Account") and credit Securities to them;

1.2.2 Accounts at the Subcustodians or CSDs. Open and maintain Securities Accounts at the Subcustodians or CSDs in which the Custodian is a direct participant, cause Subcustodians to open and maintain Securities Accounts at CSDs in which the Subcustodian is a participant, and cause Securities to be credited to the relevant accounts. Such accounts: (i) may be commingled (or omnibus) accounts for Securities of multiple customers of the Custodian (or Subcustodian, in the case of accounts opened by the Subcustodian at a CSD) or, in limited markets, segregated (or separate) accounts for Securities of the Client; and (ii) must not include any proprietary securities of the Custodian, the Subcustodian or the CSD;

1.2.3 Physical Securities. Physically segregate bearer Securities from the proprietary assets of the Custodian, and require that the Subcustodians physically segregate bearer Securities from the Subcustodian's and the Custodian's proprietary assets;

1.2.4 Registration Names. Register certificated Securities (other than bearer securities) in the name of the Trust or in the name of the Custodian, a Subcustodian, a CSD or a nominee of any of them, or otherwise in accordance with Local Market Practice and the laws and regulations applicable to the Custodian; and

1.2.5 Records of Transactions; Reconciliation. Maintain records of the Trust's transactions in the Securities Accounts and reconcile its records of clients' securities holdings against the records of its Subcustodians and CSDs in which it is a direct participant in accordance with the Custodian's standard procedures and Local Market Practice. Subcustodians will likewise maintain records of their clients' transactions and reconcile their records of the securities holdings of their clients against the records of the CSDs in which they are a direct participant in accordance with the Subcustodians' standard procedures and Local Market Practice.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

1.3 **Securities Interchangeable.** Securities of the Trust (whether held in separate or commingled accounts) are fungible with all other securities of the same issue held in such accounts by the Custodian and its Subcustodians. This means that the Trust's redelivery rights in respect of the Securities are not in respect of the Securities actually deposited with the Custodian or a Subcustodian from time to time, but rather in respect of Securities of the same number, class, denomination and issue as those Securities.

1.4 **Acceptance of Securities.** Except as otherwise agreed in writing with the Client or an Investment Manager, the Custodian will only accept custody of Securities and other assets that it is operationally equipped and licensed to hold in the relevant market where it provides custodial services either directly or through an existing Subcustodian and may decline to accept custody of certain securities or asset types that it determines present an unacceptable risk profile or that it or its Subcustodians are not operationally equipped or permitted to hold under any Law or regulation.

2 Cash

2.1 **Cash Accounts.** The Custodian will open and maintain in the name of the Trust one or more cash deposit accounts (each a "Cash Account") in such currencies as may be required in connection with the investment activity of the Trust.

2.2 **Location of Cash Deposits.** Cash received for the Trust will be deposited with the Custodian, or with a Subcustodian, depending on the currency and/or the market. The Custodian will designate each currency in a particular market as On Book Cash or Off Book Cash. "On Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, the Custodian (through any of its branches) and "Off Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, a Subcustodian (through any of its branches). The Custodian may change the designation of a currency as On Book or Off Book from time to time. Clients will find the designation of currencies as On Book Cash and Off Book Cash, and any changes to such designations, in the Client Publications.

2.3 **Cash Records.** The Custodian will reflect Cash balances held in all On Book and Off Book Cash Accounts on its books and records and report the balances to the Client.

2.4 **Banking Relationship.** In accepting deposits under this Agreement, the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash) acts as banker and does not hold the money deposited on trust or segregated from its proprietary assets. Accordingly, the Client is an unsecured creditor of the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash), subject to such rights as may arise in an Insolvency Event as determined under the laws of the jurisdiction of the Custodian or relevant Subcustodian. With respect to Off Book Cash, the Custodian is only responsible for returning the actual amount that the Custodian receives from the Subcustodian.

2.5 **Interest and Charges.** Cash Accounts may be interest bearing or non-interest bearing and may be subject to charges or Fees on the deposit balance or on a per account basis. The Custodian or the relevant Subcustodian will determine on a periodic basis:

2.5.1 the interest rates, if any, (which may be positive, zero or negative) or equivalent charges or Fees paid or charged to the Client from time to time with respect to a Cash Account; and

2.5.2 the overdraft rates or equivalent charges or Fees and the applicable overdraft thresholds (if any) that will trigger interest charges from time to time for overdrafts,

in each case, acting in their sole discretion, taking into account market conditions and other relevant commercial considerations. Interest and overdraft rates or other account charges or Fees will vary by currency. Details on current rates and deposit account charges are available upon request.

2.6 **Overdrafts.** The Trust must maintain sufficient funds in the Cash Accounts to settle all transactions in the applicable currencies in a timely manner. The Custodian or its Subcustodians may, but are not required to, extend credit under this Agreement. The Custodian reserves the right to decline to process any Proper Instruction or settle any transaction that would result in an overdraft of the Cash Account. If an overdraft arises in the Cash Account, the Client agrees to repay the principal amount of the overdraft upon demand by the Custodian or within five Business Days, whichever is earlier, plus any applicable overdraft Fees and interest on the principal overdraft.

3 Transaction Settlement

3.1 **Settlement**. The Custodian will settle all transactions in accordance with Local Market Practice, which may not always be on a delivery-versus-payment or receipt-versus-payment basis. Except as otherwise provided below regarding Contractual Settlement, the Custodian will credit or debit the appropriate Cash Account on an actual settlement or payment basis.

3.2 **Contractual Settlement.** In order to facilitate transaction settlement, the Custodian may provisionally credit settlement, maturity or redemption proceeds, or income, dividends and other distributions, on a contractual settlement or predetermined income basis ("Contractual Settlement"), for markets, Securities and eligible clients as determined and notified by the Custodian in the Client Publications. The Custodian can terminate or suspend Contractual Settlement for markets, Securities or particular clients at any time.

3.3 **Use of Funds.** Where Contractual Settlement applies, the Custodian will credit or debit the appropriate Cash Account on the contractual settlement date or payable date for the relevant transaction. This means that (i) the Client will have use of the funds from the date that a sale was contracted to settle or the payable date, which may be earlier than the date payment actually occurs and (ii) the Custodian will have use of the funds debited from the Cash Account from the date that a purchase was contracted to settle until the date that settlement actually occurs.

3.4 **Reversal.** The Custodian may reverse any Contractual Settlement credit at any time before actual receipt of the cash payment associated with the credit if the Custodian determines, in its reasonable judgement, that such payment will not be received within 30 days for that transaction or if the Custodian suspends or terminates the provision of Contractual Settlement for those Securities in that market. The Custodian will generally notify the Client two Business Days before any such reversal.

3.5 **Secured Liability.** To the extent that the Custodian has not received the cash payment associated with a credit, the amount credited remains a Secured Liability under this Agreement.

4 Corporate Actions

4.1 **Transmit Information.** The Custodian will promptly transmit or make available to the Client all material written information customarily provided by a professional global custodian regarding an applicable Corporate Action, or a brief synopsis of that information, affecting Securities then being held under this Agreement, where (i) that information is received directly from issuers of such Securities or from CSDs or Subcustodians or (ii) that information is publicly available in the relevant market from standard vendors routinely used by professional global custodians provided that the Custodian can verify the accuracy of such information. The Custodian will transmit or make available such Corporate Action data it receives from primary sources (issuers, CSDs and Subcustodians) without further review although it will generally note if such information is single sourced. The Custodian generally will not transmit or make available such Corporate Action data it receives from secondary sources (vendors) unless the accuracy of that information can be verified against at least one additional source.

4.2 **Exercise.** The Custodian will process the Client's or Investment Manager's (as applicable) elections with respect to any voluntary Corporate Action at the direction of the Client provided it has actual possession of the relevant Securities and it has received Proper Instructions by the deadline specified in the Custodian's Corporate Action notification ("Corporate Actions Deadline Date"). The Custodian will use reasonable efforts to effect Proper Instructions received after that deadline but will have no responsibility for any failure to exercise such instructions accurately or timely. In the absence of receiving Proper Instructions by the Corporate Actions Deadline Date, the Custodian may take the default action specified in the corporate action notification. In the event of a mandatory Corporate Action, the Custodian will act without Proper Instructions in accordance with Section 8.10.

4.3 **Class Actions.** The Custodian will transmit written information received by the Custodian regarding any class action litigation to the extent set out in the Client Publications. The Custodian will not support class action participation by the Client beyond such forwarding of written information. In no event will the Custodian act as a lead plaintiff in a class action.

4.4 **Fractional Positions.** Fractional positions resulting from Corporate Actions will be dealt with in accordance with the Client Publications.

5 Proxy Servicing

5.1 **Transmit Information.** The Custodian will forward to the Client or Investment Manager (as applicable) all proxies received by the Custodian relating to the Securities then held under this Agreement, for the markets designated in the Client Publications, unless otherwise instructed by the Client. The Custodian will use an agent to assist in the receipt and distribution of proxies and will share the Client's position and contact information to facilitate such collection and distribution.

5.2 **Voting.** The Custodian provides proxy voting services for the markets designated in the Client Publications. The Custodian will cause eligible proxies to be promptly executed by the

registered holder in accordance with Proper Instructions and delivered to the issuer of the Securities or its designated agent. In order for the Custodian to provide the voting services, the Custodian must have received such Proper Instructions, must have actual possession of the relevant Securities, and all requirements set out in the Client Publications must have been met, including where applicable receiving an executed power of attorney, in each case by the deadline specified in the Custodian's proxy notification.

6 Income Collection

6.1 **Monitoring and Crediting.** The Custodian will use reasonable efforts to monitor and collect on a timely basis, in accordance with Local Market Practice, all income and other payments to which the Trust is entitled in respect of the Securities held under this Agreement and Securities on loan through the securities lending program sponsored by the Custodian or its Affiliates. The Custodian will credit such amounts to the Cash Account of the Trust as received, except where Contractual Settlement applies.

6.2 **Repatriation of Income.** The Client or Investment Manager (as applicable) is responsible for directing the repatriation of income into the base currency of the Portfolio or another currency selected by the Client or Investment Manager (as applicable) and may enter into separate arrangements to do so, as set out in Section 11 of the Agreement.

7 Statements and Reports

7.1 **Contents.** The Custodian will make available reports to the Client regarding the Portfolio on a periodic basis as selected by the Client from certain online tools made available from time to time by the Custodian or as otherwise agreed with the Client. The reports will include Cash balances, an itemized statement of Securities and Cash and Securities transaction activity. Market values contained in these reports are unaudited and based on the Custodian's standard pricing vendors and practices. These reports will not include net asset value calculations.

7.2 **Cash and Securities Not Held.** The Custodian may agree to incorporate information in respect of cash or securities not held by the Custodian. In making available such information to the Client, the Custodian will rely upon the information provided by the Client or a third party without any requirement to verify the accuracy of such information. The Custodian will not perform any other Services in relation to such cash or securities.

8 Tax Withholding and Tax Relief

8.1 **Withholding.** The Custodian will withhold (or cause to be withheld) the amount of any tax which is required to be withheld by the Custodian or Subcustodian under the Law applicable to the Custodian or Subcustodian based on the Client's domicile and entity type in respect of any dividend, interest income or other distribution in relation to any Security, and/or the proceeds or income from the sale or other transfer of any Security held by the Custodian. If the Client has not provided the requisite information and documentation, the Custodian is obligated to arrange for maximum withholding. In certain markets, the Client will be required to hire a local tax agent to calculate withholding, as set out in the Client Publications.

8.2 **Tax Relief.** The Custodian will apply for a reduction of withholding tax and refund of any tax paid or tax credits in respect of income payments on Securities based on the Trust's entitlement under relevant tax treaties or laws which apply in each market that supports a standard tax reclaim process, in all cases as may be set out from time to time in the Client Publications. The

Custodian does not facilitate tax reclaims for tax transparent or pass-through (i.e., multiple-beneficiary) entities such as partnerships, LLCs, common trusts or any other types of entities that are generally ineligible for tax treaty or domestic law tax entitlements, even where the partners or beneficial holders of such entities may be eligible.

8.3 **Documentation.** In order for the Custodian to perform the services in this Section 8, the Client will provide the Custodian such information and documentation as may be required from time to time by the Custodian for tax purposes, including documentary evidence of its tax domicile, and its entity type and details of any special ruling or treatment to which the Trust may be entitled in relation to countries where the Trust engages or proposes to engage in investment activity or where Securities are or will be held. The Client or Investment Manager (as applicable) is responsible for ensuring the documentation and information provided is true and accurate in all material respects and will promptly provide the Custodian with all necessary corrections or updates upon becoming aware of any changes or inaccuracies in the documentation or information supplied. The provision of documentation and information under this Section 8.3 will be taken to be a Proper Instruction upon which the Custodian will be entitled to rely for all purposes under this Section 8, including calculating withholding and determining available tax relief, without the need to undertake any further inquiries or verification.

8.4 **Client Responsible for Taxes.** The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will be liable for all taxes, levies or similar obligations which arise as a result of the Trust's investment activity, including in relation to any Cash or Securities held by the Custodian on behalf of the Trust, or any related transactions. If any taxes become payable in relation to any prior payment made by the Custodian in connection with the Trust's investment activity, the Custodian may withhold any credit balance in the Trust's Cash Accounts to the extent necessary to satisfy such tax obligation. The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will also remain liable for any tax deficiency.

8.5 **No Tax Advice.** The Client acknowledges that the Custodian is not, and will not be deemed to be, providing tax advice or tax counsel.

9 Physical Safekeeping of Investment Documents

9.1 **Document Safekeeping.** The Custodian may agree to provide physical safekeeping for Investment Documents delivered to it and will return such Investment Documents to the Client upon receipt of Proper Instructions, subject to additional documentation and other requirements as the Custodian may specify from time to time.

9.2 **No Other Services.** The Custodian will not otherwise perform any other Services in relation to such Investment Documents.

10 Alternative Asset Servicing

10.1 **Alternative Assets.** The Custodian may agree to reflect the Trust's Alternative Assets on its books, records or statements. Unless otherwise agreed in writing, the Custodian will not perform any other services or assume any obligations in relation to Alternative Assets. The Custodian may, in limited cases, agree to register the Client's interests in Alternative Assets in the name of the Custodian, subject to additional documentation and other requirements as the Custodian may specify from time to time.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

11 Subcustodians

11.1 **Use of Subcustodians.** The Custodian is authorized to utilize Subcustodians in connection with its performance of the Services, and will notify the Client of the Subcustodians so employed from time to time through the Client Publications.

11.2 **Selection and Monitoring.** The Custodian will use reasonable skill, care and diligence in the selection, monitoring and continued utilization of Subcustodians by taking the following actions: (i) annually assessing the financial condition of each Subcustodian by reviewing their publicly available financial information, (ii) on a daily basis monitoring the performance by each Subcustodian' of its duties relative to the Services, and (iii) confirming on an annual basis that each Subcustodian is licensed to act as a subcustodian in its relevant market.

11.3 **Special Subcustodians.** At the request of the Client, the Custodian may agree to appoint one or more qualified banks, trust companies or other entities designated by the Client to act as a subcustodian (each a "Special Subcustodian") for purposes specified by the Client. In connection with the appointment of a Special Subcustodian, the Custodian shall enter into a tri-party subcustodian agreement with the Special Subcustodian and the Client in form and substance approved the Custodian, provided that such agreement shall comply with Law applicable to the Client and shall be consistent with the terms and provisions of this Agreement, to the extent practicable.

12 Central Securities Depositories

12.1 **Use of Central Securities Depositories.** The Custodian and its Subcustodians will use CSDs in connection with the performance of the Services, and will notify the Client of the CSDs so employed from time to time through the Client Publications.

12.2 **Rules of Central Securities Depositories.** Where the Custodian or its Subcustodians use CSDs, the Client acknowledges that they will do so in accordance with the terms and conditions of participation or membership in such CSDs and the rules and procedures governing the operation thereof.

13 Responsibility for Subcustodians

13.1 **Responsibility for Subcustodians.** The Custodian will be liable to the Client for the acts and omissions of its Subcustodians as if it had committed such acts and omissions itself; provided that:

13.1.1 compliance with the standard of care set out in Section 6.1 of the Agreement will be assessed in accordance with the standards and circumstances prevailing at the time of the act or omission in the local market or jurisdiction in which the Subcustodian is providing the relevant Services; and

13.1.2 the Custodian will have no liability for Losses resulting from the insolvency or other financial default of a Subcustodian that is not an Affiliate of the Custodian except to the extent that such Losses are caused by the failure of the Custodian to exercise reasonable skill, care and diligence in the selection, monitoring and continued utilization of the Subcustodian as required under Section 11.2 of this Appendix.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

13.2 **Responsibility for Special Subcustodians.** Notwithstanding the provisions of this Section 13.1 to the contrary, the Custodian shall not be liable to the Client for Losses suffered or incurred by the Client resulting from the acts or omissions of a Special Subcustodian, except to the extent such Losses are caused by the negligence, wilful default or fraud of the Custodian. In the event of any such Loss, the Custodian shall use commercially reasonable efforts to enforce such rights as it may have against any Special Subcustodian.

APPENDIX B
DATA PROTECTION ADDENDUM

1. Definitions

1.1. In this Data Protection Addendum: (a) terms used but not defined below have the meaning ascribed to them in the Trust Agreement between the parties; and (b) the following terms have the meaning ascribed to them below:

"Approved Sub Processor"	means each of: (a) Existing Sub-Processor; and (b) New Sub-Processor, to the extent that it meets the conditions set out in Paragraph 5.4;
"CCPA"	means the California Consumer Privacy Act of 2018, Cal. Civ. Code § 1798.100 et seq. (CCPA), as amended by the California Privacy Rights Act and its implementing regulations;
"Data Protection Laws"	means any Law or regulation regarding the processing, privacy, and use of Personal Data, as applicable to the Client, the Service Provider and/or the services provided by the Service Provider to the Client, including the Gramm-Leach-Bliley Act, US state data breach and data privacy laws, and the CCPA;
"Data Subject Request"	means a request made by a data subject to exercise any rights of data subjects under Data Protection Laws;
"Existing Sub-Processor(s)"	means any third party or Service Provider Affiliate which the Service Provider intends, at the Effective Date to engage to process any Personal Data as the Service Provider's sub-processor;
"New Sub-Processor(s)"	means any third party or Service Provider Affiliate, other than an Existing Sub-Processor, which the Service Provider wishes to engage to process any Personal Data as the Service Provider's sub-processor;
"Personal Data"	means any information that relates to an identified or identifiable natural person that is protected as "personal data", "personal information" or similar term by Data Protection Laws that is processed by the Service Provider or an Approved Sub-Processor on behalf of the Client pursuant to or in connection with the Agreement;
"Supervisory Authority"	means any state, local, national or multinational agency, department, official, parliament, public or statutory person or any government or professional body, regulatory or supervisory authority, board or other body responsible for administering Data Protection Laws.

2. Scope

2.1. The Parties agree that, from the Effective Date, the terms of this Data Protection Addendum will apply to any Personal Data that the Service Provider processes on behalf of the Client in the course of providing the Services under the Agreement.

2.2. Nothing in this Data Protection Addendum permits the Service Provider to process (or permit the processing of) Personal Data in a manner which is expressly prohibited by the Agreement.

3. Data Processing

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

3.1. The Service Provider will, and will procure that each Approved Sub-Processor will:

(a) comply with all applicable Data Protection Laws when processing Personal Data;

(b) only process Personal Data in accordance with the Client's documented instructions as set out in the Agreement, any related operating memoranda and side letters, and this Data Protection Addendum, unless processing is required by a law to which the Service Provider or Approved Sub-Processor is subject; and

(c) For purposes of the CCPA, Service Provider shall not (i) sell Personal Information it receives from or processes on behalf of Client ("Client Personal Information"); (ii) retain, use, or disclose Client Personal Information for any purpose (including a Commercial Purpose) other than for the specific purpose of performing the Services under the Agreement and except as otherwise permitted by the CCPA; and (iii) retain, use, or disclose Client Personal Information outside of the direct business relationship between the Parties. Service Provider agrees that Client has the right to take reasonable and appropriate steps to ensure that Service Provider uses Client Personal Information in a manner consistent with Client's obligations under the CCPA. Service Provider agrees that Client has the right to take reasonable and appropriate steps to stop and remediate Service Provider's unauthorized use of Client's Personal Information. Service Provider shall notify Client as soon as possible after Service Provider determines that it can no longer meet its obligations under the CCPA. The terms "Commercial Purpose," "Personal Information," "Sell," and "Service Provider" as used in this subsection 3.1(c) have the meanings defined in the CCPA. Service Provider hereby certifies that it understands and will comply with the requirements of this subsection 3.1 (c).

3.2. The Client:

(a) instructs, and grants a general written authorization for, the Service Provider and each Approved Sub-Processor to process Personal Data and, subject to Paragraph 5, to transfer Personal Data to any country or territory as reasonably necessary for the provision of the Services and consistent with the Agreement; and

(b) warrants and represents that it is and will at all times:

(i) remain duly and effectively authorized to give the instruction set out in Paragraph 3.2(a); and

(ii) have in place all fair processing notices and (where applicable) consent mechanisms for data subjects that are sufficient to ensure that all processing of Personal Data envisaged by this Data Protection Addendum and the Agreement will be lawful and will not contravene any Data Protection Laws.

4. Technical and Organizational Measures and Security

4.1. Service Provider will use appropriate safeguards designed to prevent any access, use or disclosure of Personal Data other than as permitted and described in this Data Protection Addendum. Such safeguards shall include, but not be limited to, reasonable administrative, physical, technical, procedural and organizational safeguards appropriate to protect the confidentiality, security, integrity and availability of Personal Data from unauthorized access, use, modification, disclosure, acquisition, transfer, destruction or loss in accordance with any and all Federal, state and local laws, statutes, rules and regulations now in effect or hereinafter adopted applicable to Service Provider's collection, use, storage, disclosure, disposal and other processing of the Personal Data in its possession, including the Gramm-Leach-Bliley Act, Massachusetts data security regulations codified at 201 C.M.R. § 17.00 et seq., and the GDPR, to the extent that such laws and regulations apply.

4.2. In assessing the appropriate level of security, the Service Provider will take into account the risks that are presented by processing the relevant Personal Data, in particular from a personal data breach.

4.3. The Service Provider will take reasonable steps to ensure the reliability of any employee, agent or contractor of the Service Provider or any Approved Sub-Processor who may have access to the

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

Personal Data, ensuring that all such individuals are subject to confidentiality undertakings or other contractual, professional or statutory obligations of confidentiality.

5. Approved Sub-Processors

5.1. The Client agrees that the Service Provider may use Approved Sub-Processors to process Personal Data.

5.2. The Service Provider may use its Existing Sub-Processors but will procure that, on or prior to the Effective Date the arrangement between it and each of its Existing Sub-Processors is governed by a written contract including terms which offer at least the same level of protection for Personal Data as set out in this Data Protection Addendum; and

5.3. With respect to each New Sub-Processor, the Service Provider will ensure that the arrangement between the Service Provider and the New Sub-Processor is governed by a written contract including terms which offer at least the same level of protection for Personal Data as those set out in this Data Protection Addendum.

6. Consumer Requests

6.1. The Service Provider will:

(a) promptly notify the Client if it or any Approved Sub-Processor receives a Data Subject Request or a Consumer Request (as defined by CCPA) in respect of any Personal Data; and

(b) taking into account the nature of the processing, assist the Client by appropriate technical and organizational measures, insofar as this is possible, for the fulfilment of the Client's obligation to respond to Data Subject Requests, provided that the Service Provider will be permitted to charge for such assistance at a reasonable rate to be agreed prior to such assistance being provided.

7. Incident and Breach Notification

7.1. Service Provider shall promptly, following discovery and allowing for a reasonable period of time for investigation, notify Client if: (1) any Personal Data is lost or cannot be accounted for; (2) there is an actual unauthorized access to or use of Personal Data; or (3) Personal Data in written or electronic form has been transmitted, disclosed, stored, or disposed of in violation of applicable law (any of which constitutes a "Security Incident"). In the event of a Security Incident, State Street will provide notice to the affected data subjects, regulatory agencies and law enforcement if Service Provider determines that such notice is required by applicable Data Protection Law or is appropriate under the circumstances in order to protect against a reasonably foreseeable harm to an affected data subject.

8. Deletion of Personal Data

8.1. Subject to Paragraph 8.2 below, the Service Provider will promptly, and to the extent technically possible, on the Client's written request, delete and procure the deletion of all copies of the Personal Data after its processing is no longer required for the purpose of the Service Provider's performance of its relevant obligations under this Data Protection Addendum or the Agreement.

8.2. The Parties agree that the Service Provider and its Approved Sub-Processors may retain Personal Data to the extent required by and for such period as required by Laws, provided that it ensures:

(a) the confidentiality of all such Personal Data; and

(b) such Personal Data is only processed as necessary for the purpose(s) specified in the Law requiring its retention.

9. Privacy Notice

9.1. State Street's Global Privacy Notice

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

SCHEDULE 1

DEFINITIONS

In this Trust Agreement:

"**Administrator**" means the Benefits Oversight Committee appointed by Client to serve as "Administrator" of the Plan, who shall have the authorities and shall be subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement.

"Affiliate" means, with respect to any person, any other person Controlling, Controlled by, or under common Control with, such person at the time in question. For these purposes, "Control" and its derivatives "Controlled" and "Controlling" mean, with regard to any person: (i) the legal or beneficial ownership, directly or indirectly, of fifty percent (50%) or more of the issued share capital or capital stock of that person (or other ownership interest, if not a corporation); (ii) the ability to control, directly or indirectly, fifty per cent (50%) or more of the voting power in relation to that person; or (iii) the legal power to direct or cause the direction of the general management and policies of that person, provided that where Control is being determined with respect to a person that is a limited partnership, Control shall be determined by reference to the satisfaction of any of the above tests with respect to the general partner of the limited partnership.

"Alternative Assets" means derivatives, real estate, commodities, private placements, loans, infrastructure holdings, private equity holdings, hedge fund holdings or such other assets (i) not typically held in book-entry form and (ii) not typically held in accounts registered in the name of the Custodian or a Subcustodian, in each case as determined by the Custodian.

"**Authentication Procedures**" means the use of security codes, passwords, tested communications or other authentication procedures as may be agreed upon in writing by Parties from time to time for purposes of enabling the Trustee to verify that purported Proper Instructions have been originated by an Authorized Person, and will include a "Funds Transfer and Transaction Origination Policy Agreement".

"**Authorized Data Sources**" means third party sources of data and information utilized by the Trustee in the provision of the Services, including issuer and issuer group data; security characteristics and classifications; security prices (OTC and exchange traded); ratings (issuer and issue); exchange, interest, discount and coupon rates; corporate action, dividend, income and tax data; benchmark, index, composite and indice related data (including values, constituents, weights and performance); and other reference and market data and information necessary for the performance of the Services.

"**Authorized Person**" means a person authorized to give Proper Instructions and otherwise act on the Client's behalf in connection with this Trust Agreement.

"**Business Day**" means a day on which the Trustee or the relevant Subcustodian is open for business in the market or country in which a transaction or an action by a Party takes place.

"**Cash**" means cash in any currency from time to time deposited with the Custodian or Subcustodian under this Trust Agreement.

"**Cash Account**" has the meaning given to it in Section 2.1 of Appendix A.

"**Client**" means the Party named in the preamble.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

"Client Publications" means the general client publications of the Trustee from time to time available to clients and their investment managers, including the Investment Managers' Guide, Client Guide, Guide to Custody in World Markets, and FX Client Guide.

"**Code**" means the Internal Revenue Code of 1986, as amended.

"Collateral" has the meaning given to it in Section 10.1.

"Confidential Information" means all information provided by or on behalf of a party (the "Disclosing Party") to the other party (the "Receiving Party"), or collected by a Receiving Party, under or pursuant to this Trust Agreement that is marked "confidential", "restricted", "proprietary" or with a similar designation, or that the Receiving Party knows or reasonably should know is confidential, proprietary or a trade secret. The terms and conditions of this Trust Agreement (including any related fee schedule or arrangement) and any Fees will be treated as Confidential Information as to which each Party is a Disclosing Party. Confidential Information will not include information that: (i) is publicly available when provided or thereafter becomes publicly available, other than through a breach of this Trust Agreement: (ii) was known to the Receiving Party (without an obligation of confidentiality) prior to its disclosure; (iii) is independently developed by the Receiving Party without the use of other Confidential Information; (iv) is rightfully obtained on a non-confidential basis from a third party source.

"Contractual Settlement" has the meaning given to it in Section 3.2 of Appendix A.

"Corporate Actions" means warrant and option exercises, conversions, exchanges and other capital reorganizations, calls, odd lot tenders/credits, bonus rights, subscription offers/rights, puts, maturities of securities, redemptions, mergers, tender or exchange offers, and rights exercises and expirations. Corporate Actions do not include class actions.

"**Corporate Actions Deadline Date**" has the meaning given to it in Section 4.2 of Appendix A.

"**CSD**" or "**Central Securities Depository**" means an entity or generally recognised book-entry or other settlement system or clearing house, central clearing counterparty or agency, acting as a local securities depository, central securities depository or international securities depository, the use of which is customary for securities settlement activities in the jurisdiction(s) in which it holds Securities or Cash in connection with this Trust Agreement, and through which the Custodian may transfer, settle, clear, deposit or maintain Securities whether in certificated or uncertificated form and will include any services provided by any network service provider or carriers or settlement banks used by a CSD.

"**Data**" means any Confidential Information of the Trust relating to its holdings, transactions or other information that the Custodian obtains with respect to the Trust in connection with the provision of the Services under this Trust Agreement or any other agreement.

"**Delegate**" means any agent, subcontractor, consultant and other third party, whether affiliated or unaffiliated with the Custodian. The term Delegate does not include Subcustodians, CSDs, Authorized Data Sources, suppliers of information technology or related services, or Financial Market Utilities.

"**ERISA**" means the Employee Retirement Income Security Act of 1974, as amended.

"**Execution Documents**" has the meaning given to it in Section 5.1.

"**Fees**" means the fees charged by the Trustee in consideration for providing the Services and the costs, expenses and disbursements of the Trustee to be reimbursed by the Trust or the Client, as agreed between the Parties from time to time in a separate written fee schedule, or as otherwise agreed in writing.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

"**Financial Market Utility**" means any multilateral system for transferring, clearing, and settling payments, securities, and other financial transactions among or between financial institutions, including payment systems, central securities depositories, securities settlement systems, central counterparties and trade repositories.

"**Force Majeure Event**" means any event or circumstances beyond the reasonable control of the Trustee, including nationalization, expropriation, currency restrictions, suspension or disruption of the normal procedures and practices, or disruption of the infrastructure, of any securities market or CSD, interruptions in telecommunications or utilities, acts of war or terrorism, riots, revolution, acts of God or other similar events or acts.

"**Insolvency Event**" means the occurrence of any of the following events in relation to any person: (i) the person generally does not pay its debts as such debts become due, or admits in writing its inability to pay its debts generally, or makes a general assignment for the benefit of creditors; or (ii) any proceeding is instituted by or against such person seeking to adjudicate it a bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of it or its debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, or other similar official for it or for any substantial part of its property and, where any such proceeding is instituted against (but not by) such person, such person does not promptly seek dismissal of such proceeding or its motion or request to dismiss such proceeding is denied (whether or not on an initial, interim or final basis); or (iii) such person proposes or takes any corporate action to authorize any of the preceding actions or anything analogous to the foregoing events occurs in relation to such person under the laws of any jurisdiction.

"**Investment Account**" means one or more separate investment accounts within the Trust Fund, where the Administrator (in accordance with provisions of the Plan), may appoint pursuant to a written investment management agreement, one or more Investment Managers with investment discretion to direct the investment and reinvestment of all or a portion of the Trust Fund.

"**Investment Document**" means any agreement, subscription, assignment or other document evidencing in physical form an investment of the Trust, or providing for the ownership by the Trust, in each case that is acceptable to the Custodian. For the avoidance of doubt, it does not include any Security, instrument, certificate, title, agreement or other document that is accompanied by a stock power or instrument of assignment, endorsed to the Custodian or in blank.

"**Investment Fund**" means one or more separate investment accounts within the Trust Fund, that the Administrator, in accordance with provisions of the Plan, may direct the Trustee to establish.

"**Investment Manager**" means such person or entity specified as such by the Client, including its agents and delegates.

"**Law**" means any statute, ordinance, order, judgment, decree, subordinate legislation, rule or regulation promulgated by any regulatory, administrative or judicial authority or otherwise in force in any jurisdiction, applicable to a Party, that relates to the performance by such Party of the Services or obligations under this Trust Agreement.

"**Local Market Practice**" means the customary or established practices, procedures and terms in the jurisdiction or market where a transaction occurs, including the rules and procedures of any exchange or over the counter market and any practical constraints that exist with respect to the exercise of shareholder rights, realisation of entitlements or the sale, exchange, purchase, transfer or delivery of Cash or Securities.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

"**Losses**" means all losses, damages, claims, costs, expenses or other liabilities (including reasonable attorneys' fees and other litigation expenses).

"**Market Participant**" means any issuer, intermediary, exchange, transaction counterparty or other market participant.

"**Off Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**On Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**Parties**" means the parties set out at the beginning of this Trust Agreement.

"**Plan**" shall mean, unless the context indicates to the contrary, the tax qualified employee welfare benefit plan of the Client that has adopted the trust as the funding vehicle for the plan.

"**Property**" means any Securities or other property, real or personal, or any partial interest therein, wherever situated, including, without limitation, governmental, corporate or personal obligations, trust and participation certificates, partnership interests, annuity or investment contracts issued by an insurance company, leaseholds, fee titles, mortgages and other interests in realty, preferred and common stocks, certificates of deposit, financial options and futures or any other form of option, evidences of indebtedness or ownership in foreign corporations or other enterprises or indebtedness of foreign governments, and any other evidences of indebtedness or ownership, including securities or other property of the Client, even though the same may not be legal investment for trustees under any law other than ERISA.

"**Portfolio**" means the Securities and Cash delivered to and held by the Custodian which comprise the assets of the Client over which the Custodian provides the Services pursuant to this Trust Agreement.

"**Proper Instructions**" means instructions (which may be standing instructions and which includes any security trade advice) received by the Trustee through an agreed Authentication Procedure in any of the following forms:

(i) in writing given by an Authorized Person including a facsimile transmission;

(ii) in an electronic communication as may be agreed upon between the Trustee and the Client in writing from time to time; or

(i) by such other means as may be agreed from time to time by the Trustee and the Client.

"**Representative**" has the meaning given to it in Section 17.3.1 of the Trust Agreement.

"**Schedule" or "Schedules**" are all of the schedules referenced herein and attached to this Trust Agreement.

"**Secured Liabilities**" means all liabilities or obligations owed by the Client (or the Plan) to the Trustee or its Affiliates relating to this Trust Agreement, including: (a) the obligations of the Client (or the Plan) to the Trustee or its Affiliates in relation to any advance of cash or securities or any other extension of credit for any purpose; (b) the obligations of the Client (or the Plan) to compensate the Trustee for the provision of the Services; and (c) the indemnity obligations of the Plan (to the extent permitted under ERISA) to the Trustee under Section 7.

"**Securities**" means securities and such other similar assets as the Custodian may from time to time accept into custody under this Trust Agreement.

"**Securities Account**" has the meaning given to it in Section 1.2 of Appendix A.

EL PASO ELECTRIC COMPANY
RETIREES GROUP WELFARE BENEFIT TRUST

"**Services**" means the services to be provided by the Trustee to the Client in accordance with this Trust Agreement.

"**Special Subcustodian**" has the meaning given to it in Section 11.3 of Appendix A.

"**Subcustodian**" means any qualified bank, credit institution, trust company or other entity appointed by the Custodian to perform safekeeping, processing and other elements of the Services, including Affiliates or non-Affiliates of the Custodian.

"**Third Party Agent**" means any provider of services to the Client (other than the Custodian, a Subcustodian or Delegate under this Trust Agreement) including any Investment Manager, adviser or sub-advisor, distributor, broker, dealer, transfer agent, administrator, accounting agent, audit firm, tax firm, or law firm.

"**Trust**" means the trust set forth in the beginning of this Trust Agreement.

"**Trust Agreement**" means the agreement defined in the preamble.

"**Trust Fund**" means the assets held in the Trust.

"**Trustee**" means the Party named in the preamble.

Interpretation: Capitalized terms used in this Trust Agreement have the meanings given to them in this Schedule 1 unless otherwise defined. In this Trust Agreement references to "persons" will include legal as well as natural persons or entities, references importing the singular will include the plural (and vice versa), use of the masculine pronoun will include the feminine, use of the terms "include", "includes" or "including" shall be deemed to be followed by the phrase "without limitation" and any specific examples given following the use of such terms shall be illustrative and in no way limit the general meaning of the words preceding them and numbered schedules, exhibits or Sections will (unless the contrary intention appears) be construed as references to such schedules and exhibits hereto and Sections herein bearing those numbers and any sub-sections thereof. The schedules and exhibits hereto are hereby incorporated herein by reference.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES
TRUST AGREEMENT

Between

EL PASO ELECTRIC COMPANY

and

STATE STREET BANK AND TRUST COMPANY

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

TRUST AGREEMENT

This Post-Retirement Health Benefit Trust Agreement for Collectively Bargained For Employees (the "Trust Agreement" or "Agreement") made as of September 29, 2023, by and between EL PASO ELECTRIC COMPANY, a corporation organized under the laws of the State of Texas (the "Client") and STATE STREET BANK AND TRUST COMPANY, a trust company organized under the laws of the Commonwealth of Massachusetts (the "Trustee").

WITNESSETH:

WHEREAS, the Client maintains the El Paso Electric Company Retiree Welfare Benefits Plan (the "Plan") for the exclusive benefit of certain of its retired employees;

WHEREAS, the Client and its employees previously established a voluntary employees' beneficiary association trust pursuant to Section 501(c)(9) of the Internal Revenue Code of 1986, as amended (the "Code") to serve as the funding vehicle for the collectively bargained post-retirement health benefits under the Plan (the "Trust");

WHEREAS, the authority to conduct the general operation and administration of the Plan is vested in the Benefits Oversight Committee, who is the "Administrator" of the Plan, and has the authorities and is subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement;

WHEREAS, the Client has appointed State Street Bank and Trust Company as successor trustee to Wells Fargo Bank, N.A. (subsequently acquired by Principal Trust Company) (the "Prior Trustee"), effective August 10, 2023.

NOW, THEREFORE, the Client and the Trustee do hereby adopt this Trust Agreement as the funding vehicle for the Plan, upon the terms and conditions hereinafter set forth:

1. DEFINITIONS AND INTERPRETATION.

Defined terms and the general rules of interpretation agreed to by the Parties are set forth in Schedule 1.

2. TRUST FUND.

2.1 Trust Name. This Trust shall be known as the El Paso Electric Company Collectively Bargained Post-Retirement Health Benefits Trust.

2.2 Receipt of Assets. The Trustee shall receive and accept for the purposes hereof (a) those assets held in Trust by the Prior Trustee, and (b) all sums of money and other Property paid to it by or at the direction of the Client, and shall hold, invest, reinvest, manage, administer and distribute such monies and other Property and the increments, proceeds, earnings and income thereof pursuant to the terms of this Trust Agreement and for the exclusive benefit of participants in the Plan and their beneficiaries. The Trustee need not inquire into the source of any money or Property transferred to it nor into the authority or right of the transferor of such money or Property to transfer such money or Property to the Trustee. Additional terms and conditions with respect to the custody of the assets held by the Trustee are set forth in Appendix A hereto.

2.3 Tax Exempt Status. The Client intends that the Plan and this Trust, as they may be amended from time to time, shall satisfy the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Code, and that the Trust Fund shall be exempt from

tax under Section 501 of the Code. The Client shall notify the Trustee in writing if and when the Internal Revenue Service makes any determination which is unfavorable to such exemption. Until advised to the contrary, the Trustee shall be entitled to assume that the Plan and this Trust so satisfy the applicable provisions of ERISA and the Code and that the Trust is exempt from all federal and state income taxes, and to act in accordance with such assumptions.

2.4 No Trustee Duty Regarding Contributions. The Trustee shall not be under any duty to require payment of any contributions to the Trust Fund, or to see that any payment made to it is computed in accordance with the provisions of the Plan, or otherwise be responsible for the adequacy of the Trust Fund to meet and discharge any liabilities under the Plan. The named fiduciary responsible for ensuring timely payment of contributions to the Trust Fund is the Client.

2.5 Plan Amendments. This Trust incorporates and forms a part of Plan for which funds are held hereunder to provide post-retirement health benefits for the benefit of collectively bargained retired and disabled employees (and their eligible spouses and dependents) (collectively referred to as "Collectively Bargained Retirees") and the eligible surviving spouses and dependents of active collectively bargained employees of the Company who die during the course of their employment with the Company (collectively "Collectively Bargained Surviving Dependents") who are entitled to post-retirement health benefits under the Plan. The Client warrants that promptly upon the adoption of any amendment to the Plan it will furnish the Trustee with a copy of the executed amendment. The Client further agrees that no amendment of the Plan shall have the effect of changing the rights, duties, and liabilities of the Trustee without its written consent. The Trustee may rely on the latest Plan documents furnished it as above provided without further inquiry or verification. In the event of any conflict between the Plan and this Trust Agreement, with respect to the duties of the Trustee this Trust Agreement shall govern and control.

3. DISBURSEMENTS FROM THE TRUST FUND.

The Trustee shall from time to time on receipt of a Proper Instruction from the Administrator make payments out of the Trust Fund to such persons, including the Client, in such manner, in such amounts and for such purposes as may be specified in the directions of the Administrator.

The Administrator shall be responsible for ensuring that any payment directed under this Section conforms to the provisions of the Plan, this Trust Agreement, and the provisions of ERISA and the Code. Each Proper Instruction of the Administrator shall be in writing and shall be deemed to include a certification that any payment or other distribution directed thereby is one which the Administrator is authorized to direct, and the Trustee may conclusively rely on such deemed certification without further investigation. The Trustee shall not incur any liability or other damage on account of any payments or other distributions made by it pursuant to a Proper Instruction of the Administrator.

4. ADMINISTRATOR SELECTED INVESTMENT FUNDS.

4.1 In General. The Administrator, from time to time and in accordance with provisions of the Plan, may direct the Trustee to establish one or more Investment Funds, which may be invested in (i) shares of investment companies registered under the Investment Company Act of 1940, (ii) collective funds maintained by a bank or trust company, (iii) various classes of common stock of the Client, (iv) pools of insurance contracts, (v) funds managed by a registered investment manager, bank or insurance company, (vi) accounts managed by Investment Managers; and (vii) other investment funds or vehicles with the consent of the Trustee. The Trustee shall have no liability for any loss of any kind which may result by reason of the manner of division of the Trust Fund into Investment Funds, or for the investment management of these accounts, except as provided for in Section 4.4 respecting a Trustee managed investment account, if any. The Trustee shall transfer to each such Investment Fund such portion of the assets of the Trust Fund as the Administrator directs via Proper Instructions. The Trustee shall not incur any liability on account of following any Proper Instruction of the Administrator and the Trustee shall be under no duty to review the investment guidelines, objectives and restrictions so established.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

All interest, dividends and other income received with respect to, and any proceeds received from the sale or other disposition of, Property held in an Investment Fund shall be credited to and reinvested in such Investment Fund. All expenses of the Trust Fund which are allocable to a particular Investment Fund shall be so allocated and charged. The Administrator, or when so authorized, the Investment Manager, may direct the Trustee to eliminate an Investment Fund, and the Trustee shall thereupon dispose of the assets of such Investment Fund and reinvest the proceeds thereof in accordance with the directions of the Administrator or Investment Manager, as applicable.

4.2 Investment Manager Accounts. The Administrator, from time to time and in accordance with the provisions of the Plan, may appoint one or more Investment Managers with investment discretion over an Investment Account.

The Administrator shall be responsible for ascertaining that, while each Investment Manager is acting in that capacity hereunder, the following requirements are satisfied:

(a) The Investment Manager is either (i) registered as an investment adviser under the Investment Advisers Act of 1940; (ii) is not registered as an investment adviser under such Act by reason of paragraph (1) of Section 203A(a) of such Act, is registered as an investment adviser under the laws of the State (referred to in such paragraph (1)) in which it maintains its principal office and place of business, and, at the time the fiduciary last filed the registration form most recently filed by the fiduciary with such State in order to maintain the fiduciary's registration under the laws of such State, also filed a copy of such form with the Secretary of Labor, (iii) a bank as defined in that Act or (iv) an insurance company qualified to perform the services described in (b) below under the laws of more than one state;

(b) The Investment Manager has the power to manage, acquire or dispose of any assets of the Plan for which it is responsible hereunder;

(c) The Investment Manager has acknowledged in writing to the Administrator that it is a fiduciary with respect to the Plan within the meaning of Section 3(21)(A) of ERISA;

(d) The Plan provides for the appointment of the Investment Manager in accordance with Section 402(c)(3) of ERISA, and the Investment Manager is appointed as so provided;

(e) Any Investment Manager with authority to invest in assets which will be held outside the jurisdiction of the district courts of the United States is an entity described in ERISA regulations at 29 C.F.R. § 2550.404b-1(a)(2)(i).

The Administrator shall furnish the Trustee with written notice of the appointment of each Investment Manager hereunder, and of the termination of any such appointment. Such notice shall specify the assets which shall constitute the Investment Account of such Investment Manager. The Trustee shall be fully protected in relying upon the effectiveness of such appointment and the Investment Manager's continuing satisfaction of the requirements set forth above until it receives written notice from the Administrator to the contrary.

The Trustee shall conclusively presume that each Investment Manager, under its investment management agreement, is entitled to act, in directing the investment and reinvestment of the Investment Account for which it is responsible, in its sole and independent discretion and without limitation.

The Trustee shall have no liability (i) for the acts or omissions of any Investment Manager; (ii) for following Proper Instructions of an Investment Manager, the Administrator, or the Committee, which are given in accordance with this Trust Agreement; (iii) for failing to act in the absence of Investment Manager direction; or (iv) for any loss of any kind which may result by reason of the manner of division of the Trust Fund or Investment Fund into Investment Accounts.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

An Investment Manager shall certify, at the request of the Trustee, the value of any Property held in any Investment Account managed by such Investment Manager, and such certification shall be regarded as a direction with regard to such valuation. The Trustee shall be entitled to conclusively rely upon such valuation for all purposes under this Trust Agreement.

4.3 Client Managed Investment Accounts. The Trustee shall, if so directed in writing by the Administrator, segregate all or a portion of the Trust Fund held by it into one or more separate investment accounts over which the Administrator may exercise investment discretion ("Client Managed Investment Accounts"). The Administrator, by written notice to the Trustee, may at any time relinquish its powers under this Section 4.3 and direct that a Client Managed Investment Account shall no longer be maintained. In addition, during any time when there is no Investment Manager with respect to an Investment Account (such as before an investment management agreement takes effect or after it terminates), the Administrator shall direct the investment and reinvestment of such Investment Account. Whenever the Administrator is directing the investment and reinvestment of an Investment Account or a Client Managed Investment Account, the Administrator shall have the powers and duties which an Investment Manager would have under this Trust Agreement if an Investment Manager were then serving and the Trustee shall be protected in relying on the Administrator's directions without reviewing investments or making suggestions to the same extent as it would be protected under this Trust Agreement if it had relied on the directions of an Investment Manager.

4.4 Trustee Managed Investment Accounts. The Trustee shall have no investment discretion and no duty or responsibility to direct the investment and reinvestment of the Trust Fund, any Investment Fund or any Investment Account unless expressly agreed to in writing between the Trustee and the Administrator. In the event that the Trustee enters into such an agreement, it shall have the powers and duties of an Investment Manager under this Trust Agreement with regard to such Investment Account.

5. POWERS OF THE TRUSTEE.

5.1 Directed Investment Powers of the Trustee. The Trustee shall have and exercise the following powers and authority: (i) over Investment Accounts where it has express investment management discretion as provided in Section 4.4; (ii) upon direction of the Investment Manager of an Investment Account; or (iii) upon direction of the Administrator for a Client Managed Investment Account, in each case subject to receipt of Proper Instructions where applicable, the Custody Addendum set forth on Appendix A and any further restrictions noted below:

(a) To purchase, receive, or subscribe for any Property and to retain in trust such Property.

(b) To sell for cash or on credit, to grant options, convert, redeem, exchange for other Property, to enter into standby agreements for future investment, either with or without a standby fee, or otherwise to dispose of any Property at any time held by it.

(c) To settle, compromise or submit to arbitration any claims, debts, or damages, due or owing to or from the trust, to commence or defend suits or legal proceedings and to represent the trust in all suits or legal proceedings in any court of law or before any other body or tribunal.

(d) To trade in financial options and futures, including index options and options on futures and to execute in connection therewith such account agreements and other agreements in such form and upon such terms as the Investment Manager or the Administrator shall direct.

(e) To exercise all voting rights, tender or exchange rights, any conversion privileges, subscription rights and other rights and powers available in connection with any Property at any time held by it; to oppose or to consent to the reorganization, consolidation, merger, or readjustment of the finances of any corporation, company or association, or to the sale,

mortgage, pledge or lease of the property of any corporation, company or association any of the Securities which may at any time be held by it and to do any act with reference thereto, including the exercise of options, the making of agreements or subscriptions and the payment of expenses, assessments or subscriptions, which may be deemed necessary or advisable by the Investment Manager or Administrator in connection therewith, and to hold and retain any Property which it may so acquire; and to deposit any property with any protective, reorganization or similar committee, and to pay and agree to pay part of the expenses and compensation of any such committee and any assessments levied with respect to property so deposited.

(f) To borrow money in such amounts and upon such terms and conditions as shall be deemed advisable or proper by the Administrator or Investment Manager to carry out the purposes of the trust and to pledge any Property for the repayment of any such loan.

(g) To invest all or a portion of the Trust Fund in contracts issued by insurance companies, including contracts under which the insurance company holds Plan assets in a separate account or commingled separate account managed by the insurance company. The Trustee shall not be responsible for the terms of any insurance contract that it is directed to purchase and hold or for the selection of the issuer thereof or for performing any functions under such contract (other than the execution of any documents incidental thereto) as directed.

(h) To manage, administer, operate, lease for any number of years, develop, improve, repair, alter, demolish, mortgage, pledge, grant options with respect to, or otherwise deal with any real property or interest therein at any time held by it, and to hold any such real property in its own name or in the name of a nominee, with or without the addition of words indicating that such property is held in a fiduciary capacity, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(i) To renew, extend or participate in the renewal or extension of any mortgage, upon such terms as may be deemed advisable by the Investment Manager or Administrator, and to agree to a reduction in the rate of interest on any mortgage or of any guarantee pertaining thereto in any manner and to any extent that may be deemed advisable by the Investment Manager or Administrator for the protection of the Trust Fund or the preservation of the value of the investment; to waive any default, whether in the performance of any covenant or condition of any mortgage or in the performance of any guarantee, or to enforce any such default in such manner and to such extent as may be deemed advisable by the Investment Manager or Administrator; to exercise and enforce any and all rights of foreclosure, to bid on property on foreclosure, to take a deed in lieu of foreclosure with or without paying consideration therefor, and in connection therewith to release the obligation on the bond secured by such mortgage, and to exercise and enforce in any action, suit or proceeding at law or in equity any rights or remedies in respect to any such mortgage or guarantee.

(j) To hold part or all of the Trust Fund uninvested.

(k) To purchase and sell foreign currencies and enter into contracts for foreign exchange, including transactions entered into with State Street Bank and Trust Company, its agents or subcustodians.

(l) To form corporations and to create trusts to hold title to any Property, all upon such terms and conditions as may be deemed advisable by the Investment Manager or Administrator.

(m) To register any Securities held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such Securities are held in a fiduciary

capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(n) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases, or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(o) To deposit Cash at any bank, including State Street Bank and Trust Company (i) in any type of interest bearing investments (including, but not limited to savings accounts, money market accounts, certificates of deposit and repurchase agreements), (ii) in noninterest bearing accounts (including but not limited to checking accounts), and (iii) in common or collective investment funds managed by the Trustee.

(p) To invest in open-end and closed-end investment companies, regardless of the purposes for which such fund or funds were created, including those managed, serviced, or advised by the Trustee or an Affiliate of the Trustee, and in any partnership, limited or unlimited, joint venture and other forms of joint enterprise created for any lawful purpose.

Except as otherwise provided in this Trust Agreement, the Investment Manager of an Investment Account or the Administrator in the case of a Client Managed Investment Account shall have the power and authority, to be exercised in its sole discretion at any time and from time to time, to issue orders for the purchase or sale of Securities directly to a broker. Written notification of the issuance of each such order shall be given promptly to the Trustee by the Investment Manager or the Administrator and the confirmation of each such order shall be confirmed to the Trustee by the broker. Unless otherwise directed by the Administrator or Investment Manager through a Proper Instruction, such notification shall be authority for the Trustee to pay for Securities purchased or to deliver Securities sold as the case may be. Upon the direction of the Investment Manager or the Administrator through a Proper Instruction, the Trustee will execute and deliver appropriate trading authorizations, but no such authorization shall be deemed to increase the liability or responsibility of the Trustee under this Trust Agreement.

The Trustee shall process Corporate Actions and class actions in the manner described in the Custody Addendum set forth in Appendix A.

If the Trustee is directed by the Administrator or an Investment Manager through a Proper Instruction to purchase Securities issued by any foreign government or agency thereof, or by any corporation or other entity domiciled outside of the United States, it shall be the responsibility of the Administrator or Investment Manager, as the case may be, to advise the Trustee in writing with respect to any Laws or regulations of any foreign countries or any United States territory or possession which shall apply in any manner whatsoever to such Securities, including, without limitation, receipt by the Trustee of dividends, interest or other distributions on such Securities.

The Administrator reserves the power and authority, to be exercised in its sole discretion at any time and from time to time, to execute and deliver documents on behalf of the Trust to effect investment transactions (the "Execution Documents") in the case of a Client Managed Investment Account, and to authorize its duly appointed Investment Manager to execute Execution Documents in the case of an Investment Account. Copies of the Execution Documents will be provided to the Trustee by the Administrator or Investment Manager, as soon as practicable after execution, and the Administrator or Investment Manager shall maintain copies of the same in its own records. Subject to Section 1.4 of Appendix A, the Administrator hereby directs the Trustee to accept into the Trust all assets that are invested in by the Trust, pursuant to the execution of Execution Documents by the Administrator or the Investment Manager.

5.2 Administrative Powers of the Trustee. Notwithstanding the appointment of an Investment Manager, the Trustee shall have the following powers and authority, to be exercised in its sole discretion, with respect to the Trust Fund:

(a) To employ suitable agents, custodians and counsel and to pay their reasonable expenses and compensation.

(b) To appoint ancillary trustees to hold any portion of the assets of the trust and to pay their reasonable expenses and compensation.

(c) To register any Securities held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such Securities are held in a fiduciary capacity and to hold any Securities in bearer form and to deposit any Property in a depository or clearing corporation.

(d) To make, execute and deliver, as Trustee, any and all deeds, leases, mortgages, conveyances, waivers, releases or other instruments in writing necessary or desirable for the accomplishment of any of the foregoing powers.

(e) Generally, to do all ministerial acts, whether or not expressly authorized, which the Trustee may deem necessary or desirable in carrying out its duties under this Trust Agreement.

Notwithstanding anything in the Plan or this Trust Agreement to the contrary, the Trustee shall not be required by the Client, the Administrator or any Investment Manager to engage in any action, nor make any investment which constitutes a prohibited transaction or is otherwise contrary to the provisions of ERISA or which is otherwise contrary to Law or to the terms of the Plan or this Trust Agreement.

5.3 Record Retention. The Trustee shall retain its records and accountings relating to the Trust as long as necessary for the proper administration thereof and at least for any period required by ERISA or other applicable law.

6. STANDARD OF CARE.

6.1 Standard of Care. The Trustee acknowledges that, in its capacity as a directed trustee, limited fiduciary status and duties apply to its performance of certain obligations pursuant to Section 403(a)(1) of ERISA when acting upon Proper Instructions. The Trustee agrees that, to the extent it performs duties under this Trust Agreement as a fiduciary under Section 3(21) of ERISA, it will perform its duties under this Trust Agreement with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Where the Trustee does not act as a fiduciary under Section 3(21) of ERISA, the Trustee will (a) in the performance of its duties set forth in Appendix A, exercise the reasonable skill, care and diligence expected of a professional provider of custody services to institutional investors and act in good faith and in accordance with generally applicable industry standards and practices, or (b) for all other purposes, exercise reasonable care.

6.2 Liability for Losses. Subject to the limitations and exclusions of liability in this Trust Agreement, the Trustee will be liable for Losses suffered or incurred by the Client to the extent such Losses are caused by the negligence, willful default, or fraud of the Trustee in the performance of its obligations under this Agreement. The parties agree that "negligence" will mean a breach by the Trustee of its obligation to exercise the standard of care described in Section 6.1 above.

6.3 Responsibility for Delegates. The Trustee will be liable to the Client for the acts and omissions of its Delegates as if it had committed such acts and omissions itself.

6.4 Force Majeure. Neither Party will be in breach of this Trust Agreement or liable for Losses arising by reason of the occurrence of a Force Majeure Event that prevents, hinders or delays it from or in performing its obligations under this Agreement, except, in the case of the Trustee, to the extent that such

Losses are attributable to its breach of its business continuity obligations under this Trust Agreement.

6.5 No Liability for Certain Losses. Except as may be required by ERISA, the Trustee will not be liable to the Plan for any Losses to the extent they arise from or are caused by:

6.5.1 the Trustee acting upon any (i) Proper Instruction or (ii) if a Proper Instruction is not required in a particular circumstance, any other direction, instruction, information, notice, request, consent, certificate, instrument or other writing that the Trustee reasonably believes, subject to Section 8.5, below, to be genuine and to be signed or otherwise given by or on behalf of a person authorized to do so;

6.5.2 a delay in processing or any failure to process any Proper Instruction to the extent permitted under Section 8, subject to the satisfaction of the conditions set out in that Section, as applicable;

6.5.3 the failure of the Client or any Authorized Person to comply with the Client's obligations under this Agreement; or

6.5.4 any other acts and omissions of the Client, Investment Manager, any Authorized Person, or any third party, including any Third Party Agent, Market Participant, Authorized Data Source, CSD, or Financial Market Utility.

6.6 Mutual Exclusion of Indirect and Other Loss. Notwithstanding any other provision of this Trust Agreement, neither Party will be liable to the other for: (i) indirect, consequential, speculative, punitive or special Loss or (ii) loss of profit, revenue, opportunity, business, anticipated savings, goodwill and damage to reputation, or Loss of any similar kind; in each case whether or not a Party has been advised of or otherwise could have anticipated the possibility of such losses, except to the extent any such losses cannot be excluded or limited as a matter of Law applicable to either Party.

7. INDEMNITY.

7.1 Indemnity by Client. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Trust Agreement, including Section 6.6, the Plan (to the extent permitted by ERISA), and the Client (to the extent the Plan is not permitted to indemnify under ERISA) will indemnify the Trustee against any direct Losses incurred by the Trustee (including Losses incurred by Subcustodians or Delegates for which the Trustee is liable) in connection with the performance of its duties under this Trust Agreement, including acting on Proper Instructions and Losses incurred by virtue of being the holder of record of the Plan's assets, except, in each case, to the extent such Losses result from the Trustee's negligence, wilful default or fraud (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.2 Indemnity by Trustee. Subject to this Section 7 and the exclusions and limitations of liability elsewhere in this Agreement, including Section 6.5 and 6.6, the Trustee will indemnify the Client and the Plan against any direct Losses incurred by the Client or Plan, in each case, to the extent such Losses result from the negligence, wilful default or fraud of the Trustee (or that of its Subcustodians or Delegates) in the discharge of the Trustee's duties under this Trust Agreement.

7.3 Duty to Mitigate. Each Party will use reasonable efforts to mitigate any Losses in respect of which it claims indemnification under this Trust Agreement.

7.4 Notice of Claims. A Party seeking indemnification under this Section ("Indemnified Party") against a third-party claim ("Indemnified Claim") will promptly provide written notice of such claim to the Party obligated to indemnify ("Indemnifying Party"). The failure to notify the Indemnifying Party will not relieve such Party of any liability under this Section, except to the extent that such failure materially prejudices the investigation and/or defense of the Indemnified Claim.

7.5 Right to Control Third Party Claims. The Indemnifying Party will, at its own expense, be entitled but not obligated to control and direct the investigation and defense of any Indemnified Claim, except where the Trustee is the Indemnified Party and is seeking indemnification from multiple customers for claims based on common facts or otherwise related to the Indemnified Claim, in which case the Trustee will have the right to control and direct the investigation and defense of such claim, at the expense of (i) the Indemnifying Party or (ii) all of the customers from which indemnification is sought, including the Indemnifying Party, pro rata, as appropriate. Where the Indemnifying Party controls and directs the investigation of the defence of the Indemnified Claim, the Indemnified Party may retain separate counsel at its own expense. If a conflict of interest exists between the Parties with respect to the defense of such claim, the reasonable cost of separate counsel will be an indemnified expense.

7.6 Settlement of Claims. Neither Party may settle an Indemnified Claim without the consent of the other Party, which consent will not be unreasonably withheld, conditioned or delayed, provided that the Indemnifying Party will have the right to settle an Indemnified Claim without the consent of the Indemnified Party if such settlement:

7.6.1 involves only the payment of money;

7.6.2 fully and unconditionally releases the Indemnified Party from any liability in exchange for the amount paid in settlement; and

7.6.3 does not include any admission of fault or liability in relation to the Indemnified Party.

7.7 Cooperation. In all cases, each Party will, as applicable, provide reasonable cooperation and assistance to the other Party and keep the other Party apprised as to the status of the Indemnified Claim, including any discussions relating to the settlement of the claim and the details of any settlement offer.

8. PROPER INSTRUCTIONS AND AUTHENTICATION PRODEDURES.

8.1 Dealings in Cash and Securities. The Trustee will conduct all transactions and dealings in Cash and Securities under this Trust Agreement in accordance with Proper Instructions, subject to any other rights it may have under this Trust Agreement.

8.2 Appointment of Authorized Persons. The Client and any Investment Manager will provide the Trustee with a list of the names and (if applicable) signatures, of Authorized Persons in a form agreed by the Parties from time to time. The Trustee may rely upon the authority of each Authorized Person until it receives written notice to the contrary from the Client and has had a reasonable time to act on such notice.

8.3 Authentication Procedures. The Trustee will implement Authentication Procedures with the Client and with any Investment Manager appointed by the Client. The Client acknowledges that the Authentication Procedures are intended to provide a commercially reasonable degree of protection against unauthorized transactions of certain types and are not designed to detect errors. Any purported Proper Instruction received by the Trustee in accordance with an Authentication Procedure will be taken to have originated from an Authorized Person and will constitute a Proper Instruction under this Trust Agreement for all purposes.

8.4 Security Measures by Client. The Client is responsible for ensuring that appropriate security measures are implemented to prevent unauthorized disclosure or use of any Authentication Procedure made available to it or an Investment Manager in connection with this Trust Agreement.

8.5 No Duty to Verify. Except to the extent the Trustee is required to comply with Authentication Procedures under Section 8.3 above, the Trustee has no duty to verify that personnel of the Client or any Investment Manager engaged in investment activity are authorized to do so or that any

instructions received by the Trustee are duly authorized.

8.6 Decline/Delay in Processing. The Trustee reserves the right to decline to process or delay the processing of any purported Proper Instruction where:

8.6.1 the Trustee, in good faith, determines that the instruction may not have been properly authorized;

8.6.2 the instruction is inaccurate, incomplete or unclear;

8.6.3 the instruction conflicts with the terms of this Trust Agreement or any Law applicable to either Party, Local Market Practice or the Trustee's standard operating procedures; or

8.6.4 the Trustee has not been given a reasonable time period to effect the instruction.

In these circumstances, the Trustee will promptly seek authentication, clarification, correction or amendment of any Proper Instruction, as the case may be.

8.7 Cancellation and Amendment. The Trustee will use reasonable efforts to act on Proper Instructions to cancel or amend previously issued Proper Instructions if:

8.7.1 the Trustee has not already acted on the previously issued Proper Instructions; and

8.7.2 the Proper Instruction to cancel or amend is received before the applicable deadlines specified from time to time in the Client Publications or applicable event notification.

The Trustee is not responsible or liable if the request to cancel or amend cannot be satisfied.

8.8 Oral Instructions. If applicable, the Trustee may act on an oral instruction (given in accordance with an agreed Authentication Procedure) before receipt of any written confirmation and irrespective of whether any subsequent written confirmation conforms to the oral instruction.

8.9 Conflicting Claims. If there is a dispute or conflicting claim with respect to Securities or Cash held by the Trustee under this Trust Agreement, the Trustee is entitled to refuse to act on a Proper Instruction of the Client or any Investment Manager in relation to the particular Securities or Cash until either (i) the dispute or conflicting claims have been finally determined by a court of competent jurisdiction or settled by agreement between the conflicting parties, and the Trustee has received written evidence satisfactory to it of such determination or agreement, or (ii) the Trustee has received an indemnity, security or both, satisfactory to it and sufficient to hold it harmless from and against any and all Losses which the Trustee may incur as a result of its actions.

8.10 Matters Not Requiring Proper Instructions. The Client authorizes the Trustee in the absence of Proper Instructions to attend to all matters which may be necessary or appropriate to discharge its duties and give effect to the terms of this Trust Agreement, including the execution, in the Client's name or on its behalf, of any affidavits, certificates of ownership and other certificates and documents relating to Securities.

9. TAXES AND TRUSTEE COMPENSATION.

The Trustee shall pay out of the Trust Fund all real and personal property taxes, income taxes and other taxes of any and all kinds levied or assessed under existing or future laws against the Trust Fund. Until advised to the contrary by the Administrator, the Trustee shall assume that the Trust is exempt from all Federal and State income taxes, and shall act in accordance with that assumption.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

The Trustee shall be paid such reasonable compensation in a written fee schedule or otherwise as shall from time to time be agreed upon by the Client and the Trustee in writing. Such compensation and all reasonable and proper expenses of administration of the Trust, including counsel Fees, shall be withdrawn by the Trustee out of the Trust Fund unless paid by the Client, but such compensation and expenses shall be paid by the Client if the same cannot by operation of law be withdrawn from the Trust Fund.

Payments from the Trust Fund under this Section 9 may be made without approval or direction of the Administrator.

In connection with the performance of its obligations under this Trust Agreement, the Trustee will hold cash balances from time to time and will have no liability for interest from the date of receipt until the disbursement of such cash balances in accordance with Proper Instructions received from the Administrator, and the Trustee has had a reasonable opportunity to act thereon. The Trustee may also hold cash balances awaiting distribution from the Plan without liability for interest until checks issued by the Trustee are presented for payment by the payee or until a reasonable time after the Trustee is otherwise instructed as to the disposition of such assets, the timing of which is beyond the control of the Trustee. Any "float" earned by the Trustee shall constitute a part of the Trustee's overall compensation for performance of Services.

To assist the Administrator in estimating the amount of float earned by the Trustee, general information associated with account activity (including disbursement and investment activity) is available to the Client on MyStateStreet, and for such short-term U.S. balances, the rate of return earned by the Trustee is generally equivalent to the current Fed Funds rate, less FDIC insurance charges.

10. CREDITORS RIGHTS.

10.1 Security. To secure the full and timely satisfaction of all Secured Liabilities, the Client on behalf of the Plan hereby grants, to the maximum extent permitted by Law, including ERISA, to the Trustee a security interest in and a right of retention, sale and set off, as applicable, against (i) all of the Plan's Cash, Securities, and other assets, whether now existing or hereafter acquired, in the possession or under the control of the Trustee or its Subcustodians pursuant to this Trust Agreement and (ii) any and all cash proceeds of any of the above (collectively, the "Collateral").

10.2 Rights of the Trustee. In the event that the Plan fails to satisfy in full any of the Secured Liabilities as and when due and payable, the Trustee will have, in addition to all other rights and remedies arising under this Trust Agreement or under applicable Law, the rights and remedies of a secured party under applicable Law. Without prejudice to the Trustee's other rights and remedies, the Trustee will be entitled, in each case as and to the extent reasonably necessary to satisfy in full the Secured Liabilities and any related transaction expenses, to (a) exercise its right of retention and withhold delivery of any Collateral and otherwise refuse to act on any Proper Instruction relating to such Collateral, (b) sell or otherwise realize any Collateral, and (c) set off the net proceeds of such sale or realization of Collateral and/or the amount of any deposit balances standing to the credit of the Client in any Cash Account(s) against such Secured Liabilities.

10.3 Exercise of Rights. The Trustee may exercise its rights and remedies against the Collateral in any manner (including by any method, at any time or place, and on any terms) as it deems, in good faith, to be commercially reasonable under the circumstances, and will use reasonable efforts to effect any sale of Collateral at the prevailing market price in the relevant market. Without limiting the foregoing, the Client on behalf of the Plan acknowledges that it will be commercially reasonable for the Trustee to, among other things: (i) accelerate or cause the acceleration of the maturity of any fixed term deposits comprised in the Collateral and (ii) effect any necessary currency conversions through its own trading desk at such exchange rates as it determines in its reasonable discretion, which rates may include a mark-up from the rates the

Trustee receives on the interbank market.

10.4 Notice. The Trustee will use reasonable efforts to give the Client (on behalf of the Plan) prior notice of any exercise of the right to sell or otherwise realize Collateral set forth above, provided that the Trustee will not be obligated to give prior notice or delay exercising its rights pending or after the provision of such notice if, in its reasonable judgment, giving such notice or any such delay would prejudice its ability to obtain satisfaction in full of the Secured Liabilities.

11. FOREIGN EXCHANGE.

11.1 Generally. Upon receipt of Proper Instructions, the Trustee shall facilitate the processing and settlement of foreign exchange transactions. Such foreign exchange transactions do not constitute part of the Services provided by the Trustee under this Trust Agreement.

11.2 Client Elections. The Client or the Investment Manager (acting on behalf of the Plan) may elect to enter into and execute foreign exchange transactions with third parties that are not affiliated with the Trustee, with State Street Global Markets, which is the foreign exchange division of State Street Bank and Trust Company and its affiliated companies ("SSGM"), or with a subcustodian. Where the Client or the Investment Manager gives Proper Instructions for the execution of a foreign exchange transaction using an indirect foreign exchange service described in the Client Publications, the Client (or its Investment Manager) instructs the Trustee, on behalf of the Plan, to direct the execution of such foreign exchange transaction to SSGM or, when the relevant currency is not traded by SSGM, to the applicable subcustodian. The Trustee shall not have any agency (except as contemplated in the preceding sentence), trust or fiduciary obligation to the Client, or the Investment Manager or any other person in connection with the execution of any foreign exchange transaction. The Trustee shall have no responsibility under this Trust Agreement for the selection of the counterparty to, or the method of execution of, any foreign exchange transaction entered into by the Investment Manager or the Client (on behalf of the Plan) or the reasonableness of the execution rate on any such transaction.

11.3 Client Acknowledgement. The Client (on behalf of the Plan) acknowledges that in connection with all foreign exchange transactions entered into by the Client (or its Investment Manager acting on the Plan's behalf) with SSGM or any subcustodian, SSGM and each such subcustodian:

11.3.1 shall be acting in a principal capacity and not as broker, agent or fiduciary to the Client, the Plan or its Investment Manager;

11.3.2 shall seek to profit from such foreign exchange transactions, and are entitled to retain and not disclose any such profit to the Client, the Plan or its Investment Manager; and

11.3.3 shall enter into such foreign exchange transactions pursuant to the terms and conditions, including pricing or pricing methodology, (a) agreed with the Client or the Investment Manager on behalf of the Plan from time to time or (b) in the case of an indirect foreign exchange service (i) as established by SSGM and set forth in the Client Publications with respect to the particular foreign exchange execution services selected by the Client or the Investment Manager on behalf of the Plan or (ii) as established by the subcustodian from time to time.

11.4 Transactions by State Street. The Trustee or its affiliates, including SSGM, may trade based upon information that is not available to, and may enter into transactions for its own account or the account of clients in the same or opposite direction to the transactions entered into with the Client (or its Investment Manager acting on the Plan's behalf), and shall have no obligation under this Trust Agreement to share such information with or consider the interests of their respective counterparties, including, where applicable, the Client or the Investment Manager (acting on the Plan's behalf).

12. ACCOUNTS OF THE TRUSTEE.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

The Trustee shall maintain or cause to be maintained suitable records, data and information relating to its functions hereunder.

The Trustee shall keep accurate and detailed accounts of all investments, receipts, disbursements, and other actions hereunder, and such other records as the Administrator shall from time to time direct, as agreed to by the Trustee.

Within sixty (60) days after the close of each fiscal year of the Trust and at more frequent intervals if agreed to by the Parties hereto, and within sixty (60) days after the removal or resignation of the Trustee as provided hereunder, the Trustee shall render to the Client a written statement and account showing in reasonable summary the investments, receipts, disbursements, and other transactions engaged in during the preceding fiscal year or period, and setting forth the assets and liabilities of the Trust Fund. Unless the Client shall have filed with the Trustee written exceptions or objections to any such statement and account within sixty (60) days after receipt thereof, the Client shall be deemed to have approved such statement and account, and in such case or upon written approval by the Administrator of any such statement and account, the Trustee shall be released and discharged with respect to all matters and things embraced in such statement and account as though it had been settled by a decree of a court of competent jurisdiction in an action or proceeding in which the Client, all other necessary parties and all persons having any beneficial interest in the Trust Fund were parties.

The Trustee shall determine the fair market value of assets of the Trust Fund based upon valuations provided by Investment Managers, information and financial publications of general circulation, statistical and valuation services, records of security exchanges, appraisals by qualified persons, transactions and bona fide offers in assets of the type in question and other information customarily used in the valuation of property.

The Client or its delegate, each Investment Manager, and the Trustee shall file such descriptions and reports and make such other publications, disclosures, registrations and other filings as are required of them respectively by ERISA.

Nothing contained in this Trust Agreement or in the Plan shall deprive the Trustee of the right to have a judicial settlement of its account. In any proceeding for a judicial settlement of the Trustee's accounts or for instructions in connection with the Trust, the only necessary party thereto in addition to the Trustee shall be the Client, and no participant or other person having or claiming any interest in the Trust Fund shall be entitled to any notice or service of process (except as required by law). Any judgment, decision or award entered in any such proceeding or action shall be conclusive upon all interested persons.

13. AUDIT RIGHTS.

13.1 Client and Regulator Access. The Trustee will allow the Client and the Client's regulators or supervisory authorities to perform periodic on-site audits as may be reasonably required to examine the Trustee's performance of the Services.

13.2 Frequency and Scope. For inspections requested by the Client that are not the result of an audit of the Plan or Trust by the government, an administrative tribunal or a court (such request will include reasonable advance notice) and agreed to by the Trustee, the Trustee reserves the right to impose reasonable limitations on the number, frequency, timing, and scope of such audits.

13.3 Limitations on Disclosure. Nothing contained in this Section will obligate the Trustee to provide access to or otherwise disclose: (i) any information that is unrelated to the Client and the provision of the Services to the Client; (ii) any information that is treated as confidential under the Trustee's corporate policies, including, without limitation, internal audit reports, compliance or risk management plans or reports, work papers and other reports, and information relating to management functions; or (iii) any other documents, reports, or information that the Trustee is obligated or entitled to maintain in confidence as a

matter of law or regulation. In addition, any access provided to technology will be limited to a demonstration by the Trustee of the functionality thereof and a reasonable opportunity to communicate with the Trustee's personnel regarding such technology.

14. RESIGNATION AND REMOVAL OF TRUSTEE.

The Trustee may resign at any time by giving ninety (90) days' prior written notice to the Client, which notice may be waived by the Client. The Client may remove the Trustee at any time upon ninety (90) days' prior written notice to the Trustee, which notice may be waived by the Trustee. In case of the resignation or removal of the Trustee, the Client shall appoint a successor trustee. Any successor trustee shall have the same powers and duties as those conferred upon the Trustee named in this Trust Agreement. The removal of a Trustee and the appointment of a new Trustee shall be by a written instrument delivered to the Trustee. Upon the appointment of a successor trustee and after the final account of the resigning or removed Trustee has been approved or settled, the resigning or removed Trustee shall transfer or deliver the assets held in the Trust to such successor trustee, provided that the Trustee may reserve such reasonable amount as the Trustee may deem necessary for outstanding and accrued charges against the Trust Fund.

This Trust Agreement may be terminated by either the Trustee or the Client, without penalty, upon notice to the other party, with immediate effect or at such later date stated in the notice, in the event such other party commits any material and continuing breach under this Trust Agreement and such breach, although capable of remedy, has not been remedied within thirty (30) days of written notice by a party to the breaching party or, if such breach is not capable of cure within such thirty (30) day period, within a reasonable time mutually agreed to in writing by the Parties, provided that such breaching party commences to cure such breach within such thirty (30) day period and diligently pursues the cure of such breach to completion, provided, however, that no cure period will apply to a material and continuing breach that is incapable of cure.

In addition, Trustee may terminate this Trust Agreement, without penalty, upon notice to the Client with immediate effect or at such later date stated in the notice, in the event the Client does not satisfy Trustee's know-your-customer/anti-money laundering compliance policies.

15. AMENDMENT AND TERMINATION.

15.1 Prohibition on Diversion. Except as expressly provided in herein, at no time shall any part of the corpus or income of the Trust Fund be used for, or diverted to, purposes other than for the benefit of the members or their respective beneficiaries. The assets of the Trust Fund shall never inure to the benefit of the Client and shall be held for the exclusive purpose of providing benefits to such members and their respective beneficiaries and defraying reasonable expenses of administering the Plan and the Trust. No part of the net earnings of the Trust Fund shall inure to the benefit of any shareholder or individual other than through the payment of benefits under the Plan.

In the case of a contribution that is made by the Client by a mistake of fact, this Section shall not prohibit, at the written direction of the Client, the return to the Client of such contribution within one year after the payment of the contribution, but only to the extent the amount so returned is not subject to penalty under Section 4976 of the Code.

15.2 Amendment. Subject to Section 15.1, this Trust Agreement may be amended by written agreement between the Trustee and the Client at any time or from time to time, and in any manner by written agreement of the Client and Trustee.

15.3 Termination. If the Plan is terminated, this Trust Agreement shall nevertheless continue in effect until the Trust Fund has been distributed in accordance with the provisions of the Plan pursuant to directions under Section 3. In the event any assets remain after the satisfaction of all liabilities under the

Plan, such assets shall be used for the exclusive benefit of employees of the Client and their beneficiaries, By way of example, and not limitation, any assets remaining in the Trust Fund after the payment of all benefits under the Plan may be used to provide other health and welfare benefits to employees, to provide a premium holiday to employees with respect to other Client health and welfare plans or distributed to participants. The Trust Fund shall terminate when no such assets remain.

15.4 Transfer to Other Fund. If pursuant to directions under Section 3 the entire Trust Fund is transferred to a funding agency for the Plan that is not a trustee, this Trust shall thereupon terminate.

16. BUSINESS CONTINUITY, INTERNAL CONTROLS AND INFORMATION SECURITY.

16.1 Business Continuity Plans. The Trustee will at all times maintain a business contingency plan and a disaster recovery plan and will take commercially reasonable measures to maintain and periodically test such plans. The Trustee will implement such plans following the occurrence of an event which results in an interruption or suspension of the Services to be provided by the Trustee.

16.2 Internal Controls Review and Report. The Trustee will retain a firm of independent auditors to perform an annual review of certain internal controls and procedures employed by the Trustee in the provision of the Services and issue a standard System and Organization Controls 1 or equivalent report based on such review. The Trustee will provide a copy of the report to the Client upon request.

16.3 Information Security Systems and Controls. The Trustee will maintain commercially reasonable information security systems and controls, which include administrative, technical, and physical safeguards that are designed to: (i) maintain the security and confidentiality of the Client's data; (ii) protect against any anticipated threats or hazards to the security or integrity of the Client's data, including appropriate measures designed to meet legal and regulatory requirements applying to the Trustee; and (iii) protect against unauthorized access to or use of the Client's data.

16.4 Virus Detection. The Trustee will at all times employ a current version of one of the leading commercially available virus detection software programs to test the hardware and software applications used by it to deliver the Services for the presence of any computer code designed to disrupt, disable, harm, or otherwise impede operation.

17. CONFIDENTIALITY AND USE OF DATA.

17.1 Confidentiality.

17.1.1 No Disclosure Without Consent. Subject to Section 17.2 and Section 17.3, Confidential Information will not be disclosed by the Receiving Party to any third party without the prior consent of the Disclosing Party.

17.1.2 No limitations of obligations under Trust Agreement or at Law. Except as expressly contemplated by this Trust Agreement, nothing in this Section 17 will limit the confidentiality and data-protection obligations of the Trustee and its Affiliates under this Trust Agreement and Law applicable to the Trustee.

17.2 Use of Confidential Information and Data.

17.2.1 Use of Data of Confidential Information and Data Generally. Subject to this Section 17.2 and Section 17.3, all Confidential Information, including Data, will be used by the Receiving Party for the purpose of providing or receiving Services, as applicable, pursuant to this Trust Agreement or otherwise discharging its obligations under this Trust Agreement.

17.2.2 Use of Data for Indicators. The Trustee and its Affiliates may use Data to develop, publish or otherwise distribute to third parties certain investor behavior "indicators" or "indices" that represent broad trends in the flow of investment funds into various markets, sectors or investment instruments (collectively, the "Indicators"), but only so long as (i) the Data is combined or aggregated with (A) information relating to other customers of the Trustee and/or (B) information derived from other sources, in each case such that the Indicators do not allow for attribution to or identification of such Data with the Client or the Plan, (ii) the Data represents less than a statistically meaningful portion of all of the data used to create the Indicators and (iii) the Trustee publishes or otherwise distributes to third parties only the Indicators and under no circumstance publishes, makes available, distributes or otherwise discloses any of the Data to any third party, whether aggregated, anonymized or otherwise, except as expressly permitted under this Trust Agreement.

17.2.3 Economic Benefit from Indicators. The Client acknowledges that the Trustee may seek and realize economic benefit from the publication or distribution of the Indicators.

17.3 Disclosure of Confidential Information and Data.

17.3.1 Disclosure of Confidential Information to Representatives. The Receiving Party may disclose the Disclosing Party's Confidential Information without the Disclosing Party's consent to its attorneys, accountants, auditors, consultants and other similar advisors that have a reasonable need to know such Confidential Information ("Representatives"), provided such Confidential Information is disclosed under obligations of confidentiality that prohibit the disclosure or use of such Confidential Information by the Representatives for any purpose other than the specific engagement with the Receiving Party for which the Representative has been retained and that are otherwise no less restrictive than the confidentiality obligations contained in this Trust Agreement. The Parties acknowledge that use of Confidential Information by a Representative to represent its other clients in dealing with the Disclosing Party would constitute a breach of this Section 17.3. Where the Trustee is the Receiving Party, "Representatives" will include its Affiliates and Service Providers (as defined below).

17.3.2 Disclosure and Use of Confidential Information by Trustee. The Trustee may disclose and permit use (as applicable) of Confidential Information of the Plan without the Client's consent:

17.3.2.1 to its Affiliates and any of its third-party agents and service providers ("Service Providers") in connection with the provision of Services, the discharge of its obligations under this Trust Agreement or the carrying out of any Proper Instruction, including in accordance with the standard practices or requirements of any Financial Market Utility or in connection with the settlement, holding or administration of Cash, Securities or other instruments;

17.3.2.2 to its Affiliates in connection with the management of the businesses of the Trustee and its Affiliates, including, but not limited to, financial and operational management and reporting, risk management, legal and regulatory compliance and client service management and marketing.

Where possible, such Confidential Information must be disclosed under obligations of confidentiality or in a manner consistent with industry practice.

17.3.3 Confidential Information and Cloud Computing and Storage. Each Party may store Confidential Information with third-party providers of information technology services, and permit access to Confidential Information by such providers as reasonably necessary for the receipt of cloud computing and storage services and related hardware and software

maintenance and support. Such Confidential Information must be disclosed under obligations of confidentiality.

17.3.4 Disclosure of Confidential Information to Comply with Law. The Receiving Party may disclose the Disclosing Party's Confidential Information to the extent such disclosure is required to satisfy any legal requirement (including in response to court-issued orders, investigative demands, subpoenas or similar processes or to satisfy the requirements of any applicable regulatory authority).

17.3.5 Harm of Unauthorized Disclosure of Confidential Information. Each Party acknowledges that the disclosure to any non-authorized third party of Confidential Information or the use of Confidential Information in breach of this Trust Agreement, may immediately give rise to continuing irreparable injury inadequately compensable in damages at law, and in such cases the Receiving Party agrees to waive any defense that an adequate remedy at law is available if the Disclosing Party seeks to obtain injunctive relief against any such breach or any threatened breach.

17.3.6 Responsibility for Representatives. Each Party will be responsible for any use or disclosure of Confidential Information of the Disclosing Party in breach of this Trust Agreement by its Representatives as though such Party had used or disclosed such Confidential Information itself.

17.3.7 No Disclosure to Trustee Asset Manager Division. Unless the Trustee or an Affiliate has been engaged to act as an Investment Manager for the Plan, in no event will the Trustee allow representatives of its asset management division or Affiliates engaged in asset management to have access to or to use Confidential Information of the Client, including Data.

18. DELEGATION.

18.1 Use of Delegates. The Trustee shall have the right, without prior notice to or the consent of the Client or the Plan, to employ Delegates to provide or assist it in the provision of any part of the Services other than Services required by Law applicable to either Party to be performed by a qualified custodian or CSD. Unless otherwise agreed in a fee schedule, the Trustee will be responsible for the compensation of its Delegates.

18.2 Provision of Information Regarding Delegates. The Trustee will provide or make available to the Client on a quarterly or other periodic basis information regarding its global operating model for the delivery of the Services, which information shall include the identities of Delegates affiliated with the Trustee that perform or may perform any part of the Services, and the locations from which such Delegates perform Services, as well as such other information about its Delegates as the Client may reasonably request from time to time.

18.3 Third Parties. Nothing in this Section limits or restricts the Trustee's right to use Affiliates or third parties to perform or discharge, or assist it in the performance or discharge of, any obligations or duties under this Trust Agreement other than the provision of the Services.

19. OBLIGATIONS OF THE CLIENT.

19.1 Provide Information. The Client will provide or cause to be provided to the Trustee all data, information, documents and instructions concerning the Client and the investment activity of the Client in relation to the Portfolio as may be reasonably necessary or as the Trustee may reasonably request, in each case in a complete, accurate and timely manner, in order to enable the Trustee to discharge its duties under this Agreement.

19.2 AML Compliance. The Client will comply with all applicable anti-money laundering, sanctions or other financial crime legislation applicable to it and will provide the Trustee with all necessary sanctions questionnaires, declarations and other documentation in order for the Trustee to comply with its anti-money laundering policy.

19.3 Pass Through Representations. To the extent that the Trustee is required to give (or is deemed to have given) any representation, warranty or undertaking to a third party relating to the Client in accordance with normal market practice in connection with the execution of transaction documents or the issuance or transmission of trade notifications, confirmations and/or settlement instructions, whether using facsimile transmission, industry messaging or matching utilities and/or the proprietary software of Third Party Agents and Market Participants, CSDs or other Financial Market Utilities, the Client will be deemed to have made such representation, warranty or undertaking to the Trustee.

19.4 Operational Requirements. The Client will adhere to the deadlines and other operational requirements set out in the Client Publications, to facilitate meeting the requirements of CSD's, Third Party Agents and Market Participants.

19.5 Client Review and Notification. In accordance with standard market practice, the Client will employ commercially reasonable review and control measures with respect to information provided by the Trustee under this Agreement and give the Trustee prompt written notice of any suspected error or omission or the Client's inability to access any such information so as to prevent, stem or mitigate any Losses that may arise from the use of inaccurate data or the inaccessibility of data.

19.6 Fees. In consideration for the Services provided by the Trustee, the Client will pay the Fees as agreed in a written fee schedule or otherwise agreed in writing by the Parties from time to time. The Fees and any other amounts payable under this Agreement are stated exclusive of any sales, use, excise, value-added, services, consumption, withholding or other similar tax that is assessed on the supply of the Services under an agreement. Any such tax will be payable by the Client.

19.7 Client Publications. The Client will ensure that it provides the Trustee with and regularly updates, as necessary, e-mail and other contact details for its representatives to enable timely distribution and receipt of the Client Publications.

20. MISCELLANEOUS.

20.1 Governing Law. To the extent not inconsistent with ERISA, and except as preempted by ERISA, as heretofore or hereafter amended, the provisions of this Trust Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Massachusetts. The Parties hereby submit to the jurisdiction of the State and Federal Courts located in a mutually agreeable venue including any appellate courts thereof.

20.2 Non-Alienation of Benefits. No benefit to which a participant or his beneficiary is or may become entitled under the Plan shall at any time be subject in any manner to alienation or encumbrance, nor be resorted to, appropriated or seized in any proceeding at law, in equity or otherwise. No participant or other person entitled to receive a benefit under the Plan shall, except as specifically provided in the Plan, have power in any manner to transfer, assign, alienate or in any way encumber such benefit under the Plan, or any part thereof, and any attempt to do so shall be void.

20.3 Duration of Trust. Unless sooner terminated, the Trust created under this Trust Agreement shall continue for the maximum period of time which the laws of the Commonwealth of Massachusetts shall permit.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

20.4 No Guarantees. Neither the Client nor the Trustee guarantees the Trust Fund from loss or depreciation, nor the payment of any amount which may become due to any person under the Plan or this Trust Agreement.

20.5 Duty to Furnish Information. Both the Client and the Trustee shall furnish to the other any documents, reports, returns, statements, or other information that the other reasonably deems necessary to perform its duties imposed under the Plan or this Trust Agreement or otherwise imposed by law.

20.6 Parties Bound. This Trust Agreement shall be binding upon the Parties hereto, all participants in the Plan and persons claiming under or through them pursuant to the Plan, and, as the case may be, the heirs, executors, administrators, successors, and assigns of each of them. The provisions of Sections 6, 7, 8, 10, 15, 17, 20.1, 20.6, 20.7, 20.9 and 20.14 shall survive termination of the Trust created under this Trust Agreement or resignation or removal of the Trustee for any reason.

In the event of the merger or consolidation of the Client or other circumstances whereby a successor person, firm or company shall continue to carry on all or a substantial part of its business, and such successor shall elect to carry on the provisions of the Plan applicable to such business, as therein provided, such successor shall be substituted hereunder for the Client, as the case may be, upon the filing in writing of its election so to do with the Trustee. The Trustee may, but need not, rely on the certification of an officer of the Client, and a certified copy of a resolution of the Board of Directors of such successor, reciting the facts, circumstances and consummation of such succession and the election of such successor to continue the said Plan as conclusive evidence thereof, without requiring any additional evidence.

20.7 Necessary Parties to Disputes. Necessary parties to any accounting, litigation or other proceedings shall include only the Trustee and the Client and the settlement or judgment in any such case in which the Client and the Trustee are duly served or cited shall be binding upon all participants in the Plan and their beneficiaries and estates, and upon all persons claiming by, through or under them.

20.8 Regulation GG. The Client hereby represents and warrants that it does not engage in an "internet gambling business", as such term is defined in Section 233.2(r) of Federal Reserve Regulation GG (12 CFR 233.1-233.7) ("Regulation GG"). The Client hereby covenants and agrees that it shall not engage in an internet gambling business. In accordance with Regulation GG, the Client is hereby notified that "restricted transactions," as such term is defined in Section 233.2(y) of Regulation GG, are prohibited in any dealings with the Trustee pursuant to this Trust Agreement or otherwise between or among any party hereto.

20.9 Data Protection. The Trustee will comply with the Data Protection Addendum attached hereto as Appendix B.

20.10 Key Employees. Notwithstanding any provisions of the Plan, medical or life insurance benefits within the meaning of Code section 419A(d)(1) shall not be paid out of the Trust to or on behalf of any "key employee", as defined in Section 416(i) of the Code, unless a separate payment account has been established and maintained for such benefits by the Administrator, and the benefits or premiums for such benefits are paid solely from that separate payment account pursuant to Proper Instructions from the Administrator to the Trustee. The separate payment account described in this Section shall be for accounting purposes only and shall not require segregation of assets within the Trust, and the Administrator is solely responsible for the maintenance, administration and tracking of such separate payment account in accordance with the requirements of Section 419A of the Code.

20.11 Severability; No Waiver. If any provisions of this Trust Agreement shall be held by a court of competent jurisdiction to be invalid or unenforceable, the remaining provisions of this Trust Agreement shall continue to be fully effective. The failure of a Party hereto to insist upon strict adherence to any term of this Trust Agreement on any occasion or the failure of a Party hereto to exercise or any delay in exercising any right or remedy under this Trust Agreement shall not constitute a waiver of any of the term, right or remedy or a waiver of any other rights or remedies, and no single or partial exercise of any right or remedy

under this Trust Agreement shall prevent any further exercise of the right or remedy or the exercise of any other right or remedy.

20.12 References. Unless the context clearly indicates to the contrary, a reference to a statute, regulation, document or provision shall be construed as referring to any subsequently enacted, adopted or executed counterpart.

20.13 Headings. Headings and subheadings in this Trust Agreement are inserted for convenience of reference only and are not to be considered in the construction of its provisions.

20.14 No Liability for Acts of Predecessor and Successor Trustees. The Trustee shall have no liability for the acts or omissions of any predecessors or successors in office.

20.15 Counterparts. This Trust Agreement may be executed in several counterparts, each of which shall be deemed to be an original, and all such counterparts taken together shall constitute one and the same Trust Agreement. Counterparts may be executed in either original or electronically transmitted form (e.g., faxes or emailed portable document format (PDF) form), and the Parties hereby adopt as original any signatures received in electronically transmitted form.

20.16 Assignment. This Trust Agreement may not be assigned by (a) Client without the prior written consent of Trustee, except as provided in Section 20.6, or (b) by Trustee without the prior written consent of Client, except that Trustee may assign this Trust Agreement to a successor of all or a substantial portion of its business, or to an Affiliate of Trustee. In the event this Trust Agreement is assigned to a successor under the prior sentence, the Trustee agrees to provide notice to the Client as soon as reasonably practicable.

21. NOTICES.

Any notice, instruction or other communication required to be given hereunder will, unless otherwise provided in this Trust Agreement, be in writing and may be sent by hand, facsimile transmission, electronic notification, or overnight delivery by any recognized delivery service, postage prepaid, to the parties at the following addresses or such other addresses as may be notified by any party from time to time. Electronic notification shall be deemed to include notice given via mystatestreet.com.

22. SHAREHOLDER COMMUNICATIONS ELECTION. SEC Rule 14b-2 requires banks that hold securities, as that term is used in federal securities laws, for the account of customers to respond to requests by issuers of securities for the names, addresses and holdings of beneficial owners of securities of that issuer held by the bank unless the beneficial owner has expressly objected to disclosure of this information. In order to comply with the rule, as may be applicable, the Trustee needs the Client to indicate whether it authorizes the Trustee to provide the Client's name, address, and share position to requesting companies whose securities the Client owns. If the Client tells the Trustee "no," the Trustee will not provide this information to requesting companies. If the Client tells the Trustee "yes" or does not check either "yes" or "no" below, the Trustee is required by the rule, as applicable, to treat the Client as consenting to disclosure of this information for all securities owned by the Client or any funds or accounts established by the Client. For the Client's protection, the rule, as applicable, prohibits the requesting company from using the Client's name and address for any purpose other than corporate communications. Please indicate below whether the Client consents or objects by checking one of the alternatives below.

YES [✓] The Trustee is authorized to release the Client's name, address, and share positions.

NO [ ] The Trustee is not authorized to release the Client's name, address, and share positions.

APPENDIX A
CUSTODY ADDENDUM TO TRUST AGREEMENT

WHEREAS, the Trustee, in holding assets delivered to it under the Trust Agreement, will also serve as a custodian (in such capacity, herein referred to as the "Custodian") of certain Property of the Trust, the Parties therefore agree to the following supplemental terms and conditions when Custodian is acting in such capacity:

1 Safekeeping Securities

1.1 Holding Securities. The Custodian will hold Securities delivered or credited to its account under this Agreement directly or through accounts at Subcustodians or CSDs. In turn, Subcustodians will hold Securities directly or through accounts at CSDs.

1.2 Client Entitlements and Segregation. The Custodian will take the following steps to reflect the Trust's ownership of Securities and to separately identify the Securities of the Trust from the proprietary assets of the Custodian, Subcustodians, and CSDs, in accordance with Local Market Practice:

1.2.1 Accounts at the Custodian. Open and maintain on the records of the Custodian one or more securities accounts in the name of the Trust or such other name as the Client may reasonably request (each, a "Securities Account") and credit Securities to them;

1.2.2 Accounts at the Subcustodians or CSDs. Open and maintain Securities Accounts at the Subcustodians or CSDs in which the Custodian is a direct participant, cause Subcustodians to open and maintain Securities Accounts at CSDs in which the Subcustodian is a participant, and cause Securities to be credited to the relevant accounts. Such accounts: (i) may be commingled (or omnibus) accounts for Securities of multiple customers of the Custodian (or Subcustodian, in the case of accounts opened by the Subcustodian at a CSD) or, in limited markets, segregated (or separate) accounts for Securities of the Client; and (ii) must not include any proprietary securities of the Custodian, the Subcustodian or the CSD;

1.2.3 Physical Securities. Physically segregate bearer Securities from the proprietary assets of the Custodian, and require that the Subcustodians physically segregate bearer Securities from the Subcustodian's and the Custodian's proprietary assets;

1.2.4 Registration Names. Register certificated Securities (other than bearer securities) in the name of the Trust or in the name of the Custodian, a Subcustodian, a CSD or a nominee of any of them, or otherwise in accordance with Local Market Practice and the laws and regulations applicable to the Custodian; and

1.2.5 Records of Transactions; Reconciliation. Maintain records of the Trust's transactions in the Securities Accounts and reconcile its records of clients' securities holdings against the records of its Subcustodians and CSDs in which it is a direct participant in accordance with the Custodian's standard procedures and Local Market Practice. Subcustodians will likewise maintain records of their clients' transactions and reconcile their records of the securities holdings of their clients against the records of the CSDs in which they are a direct participant in accordance with the Subcustodians' standard procedures and Local Market Practice.

1.3 **Securities Interchangeable.** Securities of the Trust (whether held in separate or commingled accounts) are fungible with all other securities of the same issue held in such accounts by the Custodian and its Subcustodians. This means that the Trust's redelivery rights in respect of the Securities are not in respect of the Securities actually deposited with the Custodian or a Subcustodian from time to time, but rather in respect of Securities of the same number, class, denomination and issue as those Securities.

1.4 **Acceptance of Securities.** Except as otherwise agreed in writing with the Client or an Investment Manager, the Custodian will only accept custody of Securities and other assets that it is operationally equipped and licensed to hold in the relevant market where it provides custodial services either directly or through an existing Subcustodian and may decline to accept custody of certain securities or asset types that it determines present an unacceptable risk profile or that it or its Subcustodians are not operationally equipped or permitted to hold under any Law or regulation.

2 Cash

2.1 **Cash Accounts.** The Custodian will open and maintain in the name of the Trust one or more cash deposit accounts (each a "Cash Account") in such currencies as may be required in connection with the investment activity of the Trust.

2.2 **Location of Cash Deposits.** Cash received for the Trust will be deposited with the Custodian, or with a Subcustodian, depending on the currency and/or the market. The Custodian will designate each currency in a particular market as On Book Cash or Off Book Cash. "On Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, the Custodian (through any of its branches) and "Off Book Cash" means the currency is maintained in a deposit account with, and recorded as a liability on the balance sheet of, a Subcustodian (through any of its branches). The Custodian may change the designation of a currency as On Book or Off Book from time to time. Clients will find the designation of currencies as On Book Cash and Off Book Cash, and any changes to such designations, in the Client Publications.

2.3 **Cash Records.** The Custodian will reflect Cash balances held in all On Book and Off Book Cash Accounts on its books and records and report the balances to the Client.

2.4 **Banking Relationship.** In accepting deposits under this Agreement, the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash) acts as banker and does not hold the money deposited on trust or segregated from its proprietary assets. Accordingly, the Client is an unsecured creditor of the Custodian (for On Book Cash) or the relevant Subcustodian (for Off Book Cash), subject to such rights as may arise in an Insolvency Event as determined under the laws of the jurisdiction of the Custodian or relevant Subcustodian. With respect to Off Book Cash, the Custodian is only responsible for returning the actual amount that the Custodian receives from the Subcustodian.

2.5 **Interest and Charges.** Cash Accounts may be interest bearing or non-interest bearing and may be subject to charges or Fees on the deposit balance or on a per account basis. The Custodian or the relevant Subcustodian will determine on a periodic basis:

2.5.1 the interest rates, if any, (which may be positive, zero or negative) or equivalent charges or Fees paid or charged to the Client from time to time with respect to a Cash Account; and

2.5.2 the overdraft rates or equivalent charges or Fees and the applicable overdraft thresholds (if any) that will trigger interest charges from time to time for overdrafts,

in each case, acting in their sole discretion, taking into account market conditions and other relevant commercial considerations. Interest and overdraft rates or other account charges or Fees will vary by currency. Details on current rates and deposit account charges are available upon request.

2.6 **Overdrafts.** The Trust must maintain sufficient funds in the Cash Accounts to settle all transactions in the applicable currencies in a timely manner. The Custodian or its Subcustodians may, but are not required to, extend credit under this Agreement. The Custodian reserves the right to decline to process any Proper Instruction or settle any transaction that would result in an overdraft of the Cash Account. If an overdraft arises in the Cash Account, the Client agrees to repay the principal amount of the overdraft upon demand by the Custodian or within five Business Days, whichever is earlier, plus any applicable overdraft Fees and interest on the principal overdraft.

3 Transaction Settlement

3.1 **Settlement**. The Custodian will settle all transactions in accordance with Local Market Practice, which may not always be on a delivery-versus-payment or receipt-versus-payment basis. Except as otherwise provided below regarding Contractual Settlement, the Custodian will credit or debit the appropriate Cash Account on an actual settlement or payment basis.

3.2 **Contractual Settlement.** In order to facilitate transaction settlement, the Custodian may provisionally credit settlement, maturity or redemption proceeds, or income, dividends and other distributions, on a contractual settlement or predetermined income basis ("Contractual Settlement"), for markets, Securities and eligible clients as determined and notified by the Custodian in the Client Publications. The Custodian can terminate or suspend Contractual Settlement for markets, Securities or particular clients at any time.

3.3 **Use of Funds.** Where Contractual Settlement applies, the Custodian will credit or debit the appropriate Cash Account on the contractual settlement date or payable date for the relevant transaction. This means that (i) the Client will have use of the funds from the date that a sale was contracted to settle or the payable date, which may be earlier than the date payment actually occurs and (ii) the Custodian will have use of the funds debited from the Cash Account from the date that a purchase was contracted to settle until the date that settlement actually occurs.

3.4 **Reversal**. The Custodian may reverse any Contractual Settlement credit at any time before actual receipt of the cash payment associated with the credit if the Custodian determines, in its reasonable judgement, that such payment will not be received within 30 days for that transaction or if the Custodian suspends or terminates the provision of Contractual Settlement for those Securities in that market. The Custodian will generally notify the Client two Business Days before any such reversal.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

3.5 **Secured Liability.** To the extent that the Custodian has not received the cash payment associated with a credit, the amount credited remains a Secured Liability under this Agreement.

4 Corporate Actions

4.1 **Transmit Information.** The Custodian will promptly transmit or make available to the Client all material written information customarily provided by a professional global custodian regarding an applicable Corporate Action, or a brief synopsis of that information, affecting Securities then being held under this Agreement, where (i) that information is received directly from issuers of such Securities or from CSDs or Subcustodians or (ii) that information is publicly available in the relevant market from standard vendors routinely used by professional global custodians provided that the Custodian can verify the accuracy of such information. The Custodian will transmit or make available such Corporate Action data it receives from primary sources (issuers, CSDs and Subcustodians) without further review although it will generally note if such information is single sourced. The Custodian generally will not transmit or make available such Corporate Action data it receives from secondary sources (vendors) unless the accuracy of that information can be verified against at least one additional source.

4.2 **Exercise.** The Custodian will process the Client's or Investment Manager's (as applicable) elections with respect to any voluntary Corporate Action at the direction of the Client provided it has actual possession of the relevant Securities and it has received Proper Instructions by the deadline specified in the Custodian's Corporate Action notification ("Corporate Actions Deadline Date"). The Custodian will use reasonable efforts to effect Proper Instructions received after that deadline but will have no responsibility for any failure to exercise such instructions accurately or timely. In the absence of receiving Proper Instructions by the Corporate Actions Deadline Date, the Custodian may take the default action specified in the corporate action notification. In the event of a mandatory Corporate Action, the Custodian will act without Proper Instructions in accordance with Section 8.10.

4.3 **Class Actions.** The Custodian will transmit written information received by the Custodian regarding any class action litigation to the extent set out in the Client Publications. The Custodian will not support class action participation by the Client beyond such forwarding of written information. In no event will the Custodian act as a lead plaintiff in a class action.

4.4 **Fractional Positions.** Fractional positions resulting from Corporate Actions will be dealt with in accordance with the Client Publications.

5 Proxy Servicing

5.1 **Transmit Information.** The Custodian will forward to the Client or Investment Manager (as applicable) all proxies received by the Custodian relating to the Securities then held under this Agreement, for the markets designated in the Client Publications, unless otherwise instructed by the Client. The Custodian will use an agent to assist in the receipt and distribution of proxies and will share the Client's position and contact information to facilitate such collection and distribution.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

5.2 **Voting.** The Custodian provides proxy voting services for the markets designated in the Client Publications. The Custodian will cause eligible proxies to be promptly executed by the registered holder in accordance with Proper Instructions and delivered to the issuer of the Securities or its designated agent. In order for the Custodian to provide the voting services, the Custodian must have received such Proper Instructions, must have actual possession of the relevant Securities, and all requirements set out in the Client Publications must have been met, including where applicable receiving an executed power of attorney, in each case by the deadline specified in the Custodian's proxy notification.

6 Income Collection

6.1 **Monitoring and Crediting.** The Custodian will use reasonable efforts to monitor and collect on a timely basis, in accordance with Local Market Practice, all income and other payments to which the Trust is entitled in respect of the Securities held under this Agreement and Securities on loan through the securities lending program sponsored by the Custodian or its Affiliates. The Custodian will credit such amounts to the Cash Account of the Trust as received, except where Contractual Settlement applies.

6.2 **Repatriation of Income.** The Client or Investment Manager (as applicable) is responsible for directing the repatriation of income into the base currency of the Portfolio or another currency selected by the Client or Investment Manager (as applicable) and may enter into separate arrangements to do so, as set out in Section 11 of the Agreement.

7 Statements and Reports

7.1 **Contents.** The Custodian will make available reports to the Client regarding the Portfolio on a periodic basis as selected by the Client from certain online tools made available from time to time by the Custodian or as otherwise agreed with the Client. The reports will include Cash balances, an itemized statement of Securities and Cash and Securities transaction activity. Market values contained in these reports are unaudited and based on the Custodian's standard pricing vendors and practices. These reports will not include net asset value calculations.

7.2 **Cash and Securities Not Held.** The Custodian may agree to incorporate information in respect of cash or securities not held by the Custodian. In making available such information to the Client, the Custodian will rely upon the information provided by the Client or a third party without any requirement to verify the accuracy of such information. The Custodian will not perform any other Services in relation to such cash or securities.

8 Tax Withholding and Tax Relief

8.1 **Withholding.** The Custodian will withhold (or cause to be withheld) the amount of any tax which is required to be withheld by the Custodian or Subcustodian under the Law applicable to the Custodian or Subcustodian based on the Client's domicile and entity type in respect of any dividend, interest income or other distribution in relation to any Security, and/or the proceeds or income from the sale or other transfer of any Security held by the Custodian. If the Client has not provided the requisite information and documentation, the Custodian is obligated to arrange for maximum withholding. In certain markets, the Client will be required to hire a local tax agent to calculate withholding, as set out in the Client Publications.

8.2 **Tax Relief.** The Custodian will apply for a reduction of withholding tax and refund of any tax paid or tax credits in respect of income payments on Securities based on the Trust's entitlement under relevant tax treaties or laws which apply in each market that supports a standard tax reclaim process, in all cases as may be set out from time to time in the Client Publications. The Custodian does not facilitate tax reclaims for tax transparent or pass-through (i.e., multiple-beneficiary) entities such as partnerships, LLCs, common trusts or any other types of entities that are generally ineligible for tax treaty or domestic law tax entitlements, even where the partners or beneficial holders of such entities may be eligible.

8.3 **Documentation.** In order for the Custodian to perform the services in this Section 8, the Client will provide the Custodian such information and documentation as may be required from time to time by the Custodian for tax purposes, including documentary evidence of its tax domicile, and its entity type and details of any special ruling or treatment to which the Trust may be entitled in relation to countries where the Trust engages or proposes to engage in investment activity or where Securities are or will be held. The Client or Investment Manager (as applicable) is responsible for ensuring the documentation and information provided is true and accurate in all material respects and will promptly provide the Custodian with all necessary corrections or updates upon becoming aware of any changes or inaccuracies in the documentation or information supplied. The provision of documentation and information under this Section 8.3 will be taken to be a Proper Instruction upon which the Custodian will be entitled to rely for all purposes under this Section 8, including calculating withholding and determining available tax relief, without the need to undertake any further inquiries or verification.

8.4 **Client Responsible for Taxes.** The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will be liable for all taxes, levies or similar obligations which arise as a result of the Trust's investment activity, including in relation to any Cash or Securities held by the Custodian on behalf of the Trust, or any related transactions. If any taxes become payable in relation to any prior payment made by the Custodian in connection with the Trust's investment activity, the Custodian may withhold any credit balance in the Trust's Cash Accounts to the extent necessary to satisfy such tax obligation. The Trust (to the extent permissible under ERISA) or Investment Manager (as applicable) will also remain liable for any tax deficiency.

8.5 **No Tax Advice.** The Client acknowledges that the Custodian is not, and will not be deemed to be, providing tax advice or tax counsel.

9 Physical Safekeeping of Investment Documents

9.1 **Document Safekeeping.** The Custodian may agree to provide physical safekeeping for Investment Documents delivered to it and will return such Investment Documents to the Client upon receipt of Proper Instructions, subject to additional documentation and other requirements as the Custodian may specify from time to time.

9.2 **No Other Services.** The Custodian will not otherwise perform any other Services in relation to such Investment Documents.

10 Alternative Asset Servicing

10.1 **Alternative Assets.** The Custodian may agree to reflect the Trust's Alternative Assets on its books, records or statements. Unless otherwise agreed in writing, the Custodian will not

perform any other services or assume any obligations in relation to Alternative Assets. The Custodian may, in limited cases, agree to register the Client's interests in Alternative Assets in the name of the Custodian, subject to additional documentation and other requirements as the Custodian may specify from time to time.

11 Subcustodians

11.1 **Use of Subcustodians.** The Custodian is authorized to utilize Subcustodians in connection with its performance of the Services, and will notify the Client of the Subcustodians so employed from time to time through the Client Publications.

11.2 **Selection and Monitoring.** The Custodian will use reasonable skill, care and diligence in the selection, monitoring and continued utilization of Subcustodians by taking the following actions: (i) annually assessing the financial condition of each Subcustodian by reviewing their publicly available financial information, (ii) on a daily basis monitoring the performance by each Subcustodian' of its duties relative to the Services, and (iii) confirming on an annual basis that each Subcustodian is licensed to act as a subcustodian in its relevant market.

11.3 **Special Subcustodians.** At the request of the Client, the Custodian may agree to appoint one or more qualified banks, trust companies or other entities designated by the Client to act as a subcustodian (each a "Special Subcustodian") for purposes specified by the Client. In connection with the appointment of a Special Subcustodian, the Custodian shall enter into a tri-party subcustodian agreement with the Special Subcustodian and the Client in form and substance approved the Custodian, provided that such agreement shall comply with Law applicable to the Client and shall be consistent with the terms and provisions of this Agreement, to the extent practicable.

12 Central Securities Depositories

12.1 **Use of Central Securities Depositories.** The Custodian and its Subcustodians will use CSDs in connection with the performance of the Services, and will notify the Client of the CSDs so employed from time to time through the Client Publications.

12.2 **Rules of Central Securities Depositories.** Where the Custodian or its Subcustodians use CSDs, the Client acknowledges that they will do so in accordance with the terms and conditions of participation or membership in such CSDs and the rules and procedures governing the operation thereof.

13 Responsibility for Subcustodians

13.1 **Responsibility for Subcustodians.** The Custodian will be liable to the Client for the acts and omissions of its Subcustodians as if it had committed such acts and omissions itself; provided that:

13.1.1 compliance with the standard of care set out in Section 6.1 of the Agreement will be assessed in accordance with the standards and circumstances prevailing at the time of the act or omission in the local market or jurisdiction in which the Subcustodian is providing the relevant Services; and

13.1.2 the Custodian will have no liability for Losses resulting from the insolvency or other financial default of a Subcustodian that is not an Affiliate of the Custodian except to the extent that such Losses are caused by the failure of the Custodian to exercise reasonable skill, care and diligence in the selection, monitoring and continued utilization of the Subcustodian as required under Section 11.2 of this Appendix.

13.2 **Responsibility for Special Subcustodians.** Notwithstanding the provisions of this Section 13.1 to the contrary, the Custodian shall not be liable to the Client for Losses suffered or incurred by the Client resulting from the acts or omissions of a Special Subcustodian, except to the extent such Losses are caused by the negligence, wilful default or fraud of the Custodian. In the event of any such Loss, the Custodian shall use commercially reasonable efforts to enforce such rights as it may have against any Special Subcustodian.

FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

APPENDIX B
DATA PROTECTION ADDENDUM

1. Definitions

1.1. In this Data Protection Addendum: (a) terms used but not defined below have the meaning ascribed to them in the Trust Agreement between the parties; and (b) the following terms have the meaning ascribed to them below:

"Approved Sub Processor"	means each of: (a) Existing Sub-Processor; and (b) New Sub-Processor, to the extent that it meets the conditions set out in Paragraph 5.4;
"CCPA"	means the California Consumer Privacy Act of 2018, Cal. Civ. Code § 1798.100 et seq. (CCPA), as amended by the California Privacy Rights Act and its implementing regulations;
"Data Protection Laws"	means any Law or regulation regarding the processing, privacy, and use of Personal Data, as applicable to the Client, the Service Provider and/or the services provided by the Service Provider to the Client, including the Gramm-Leach-Bliley Act, US state data breach and data privacy laws, and the CCPA;
"Data Subject Request"	means a request made by a data subject to exercise any rights of data subjects under Data Protection Laws;
"Existing Sub-Processor(s)"	means any third party or Service Provider Affiliate which the Service Provider intends, at the Effective Date to engage to process any Personal Data as the Service Provider's sub-processor;
"New Sub-Processor(s)"	means any third party or Service Provider Affiliate, other than an Existing Sub-Processor, which the Service Provider wishes to engage to process any Personal Data as the Service Provider's sub-processor;
"Personal Data"	means any information that relates to an identified or identifiable natural person that is protected as "personal data", "personal information" or similar term by Data Protection Laws that is processed by the Service Provider or an Approved Sub-Processor on behalf of the Client pursuant to or in connection with the Agreement;
"Supervisory Authority"	means any state, local, national or multinational agency, department, official, parliament, public or statutory person or any government or professional body, regulatory or supervisory authority, board or other body responsible for administering Data Protection Laws.

2. Scope

2.1. The Parties agree that, from the Effective Date, the terms of this Data Protection Addendum will apply to any Personal Data that the Service Provider processes on behalf of the Client in the course of providing the Services under the Agreement.

2.2. Nothing in this Data Protection Addendum permits the Service Provider to process (or permit the processing of) Personal Data in a manner which is expressly prohibited by the Agreement.

3. Data Processing

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

3.1. The Service Provider will, and will procure that each Approved Sub-Processor will:

(a) comply with all applicable Data Protection Laws when processing Personal Data;

(b) only process Personal Data in accordance with the Client's documented instructions as set out in the Agreement, any related operating memoranda and side letters, and this Data Protection Addendum, unless processing is required by a law to which the Service Provider or Approved Sub-Processor is subject; and

(c) For purposes of the CCPA, Service Provider shall not (i) sell Personal Information it receives from or processes on behalf of Client ("Client Personal Information"); (ii) retain, use, or disclose Client Personal Information for any purpose (including a Commercial Purpose) other than for the specific purpose of performing the Services under the Agreement and except as otherwise permitted by the CCPA; and (iii) retain, use, or disclose Client Personal Information outside of the direct business relationship between the Parties. Service Provider agrees that Client has the right to take reasonable and appropriate steps to ensure that Service Provider uses Client Personal Information in a manner consistent with Client's obligations under the CCPA. Service Provider agrees that Client has the right to take reasonable and appropriate steps to stop and remediate Service Provider's unauthorized use of Client's Personal Information. Service Provider shall notify Client as soon as possible after Service Provider determines that it can no longer meet its obligations under the CCPA. The terms "Commercial Purpose," "Personal Information," "Sell," and "Service Provider" as used in this subsection 3.1(c) have the meanings defined in the CCPA. Service Provider hereby certifies that it understands and will comply with the requirements of this subsection 3.1 (c).

3.2. The Client:

(a) instructs, and grants a general written authorization for, the Service Provider and each Approved Sub-Processor to process Personal Data and, subject to Paragraph 5, to transfer Personal Data to any country or territory as reasonably necessary for the provision of the Services and consistent with the Agreement; and

(b) warrants and represents that it is and will at all times:

(i) remain duly and effectively authorized to give the instruction set out in Paragraph 3.2(a); and

(ii) have in place all fair processing notices and (where applicable) consent mechanisms for data subjects that are sufficient to ensure that all processing of Personal Data envisaged by this Data Protection Addendum and the Agreement will be lawful and will not contravene any Data Protection Laws.

4. Technical and Organizational Measures and Security

4.1. Service Provider will use appropriate safeguards designed to prevent any access, use or disclosure of Personal Data other than as permitted and described in this Data Protection Addendum. Such safeguards shall include, but not be limited to, reasonable administrative, physical, technical, procedural and organizational safeguards appropriate to protect the confidentiality, security, integrity and availability of Personal Data from unauthorized access, use, modification, disclosure, acquisition, transfer, destruction or loss in accordance with any and all Federal, state and local laws, statutes, rules and regulations now in effect or hereinafter adopted applicable to Service Provider's collection, use, storage, disclosure, disposal and other processing of the Personal Data in its possession, including the Gramm-Leach-Bliley Act, Massachusetts data

security regulations codified at 201 C.M.R. § 17.00 et seq., and the GDPR, to the extent that such laws and regulations apply.

4.2. In assessing the appropriate level of security, the Service Provider will take into account the risks that are presented by processing the relevant Personal Data, in particular from a personal data breach.

4.3. The Service Provider will take reasonable steps to ensure the reliability of any employee, agent or contractor of the Service Provider or any Approved Sub-Processor who may have access to the Personal Data, ensuring that all such individuals are subject to confidentiality undertakings or other contractual, professional or statutory obligations of confidentiality.

5. Approved Sub-Processors

5.1. The Client agrees that the Service Provider may use Approved Sub-Processors to process Personal Data.

5.2. The Service Provider may use its Existing Sub-Processors but will procure that, on or prior to the Effective Date the arrangement between it and each of its Existing Sub-Processors is governed by a written contract including terms which offer at least the same level of protection for Personal Data as set out in this Data Protection Addendum; and

5.3. With respect to each New Sub-Processor, the Service Provider will ensure that the arrangement between the Service Provider and the New Sub-Processor is governed by a written contract including terms which offer at least the same level of protection for Personal Data as those set out in this Data Protection Addendum.

6. Consumer Requests

6.1. The Service Provider will:

(a) promptly notify the Client if it or any Approved Sub-Processor receives a Data Subject Request or a Consumer Request (as defined by CCPA) in respect of any Personal Data; and

(b) taking into account the nature of the processing, assist the Client by appropriate technical and organizational measures, insofar as this is possible, for the fulfilment of the Client's obligation to respond to Data Subject Requests, provided that the Service Provider will be permitted to charge for such assistance at a reasonable rate to be agreed prior to such assistance being provided.

7. Incident and Breach Notification

7.1. Service Provider shall promptly, following discovery and allowing for a reasonable period of time for investigation, notify Client if: (1) any Personal Data is lost or cannot be accounted for; (2) there is an actual unauthorized access to or use of Personal Data; or (3) Personal Data in written or electronic form has been transmitted, disclosed, stored, or disposed of in violation of applicable law (any of which constitutes a "Security Incident"). In the event of a Security Incident, State Street will provide notice to the affected data subjects, regulatory agencies and law enforcement if Service Provider determines that such notice is required by applicable Data Protection Law or is appropriate under the circumstances in order to protect against a reasonably foreseeable harm to an affected data subject.

8. Deletion of Personal Data

8.1. Subject to Paragraph 8.2 below, the Service Provider will promptly, and to the extent technically possible, on the Client's written request, delete and procure the deletion of all copies of the

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

Personal Data after its processing is no longer required for the purpose of the Service Provider's performance of its relevant obligations under this Data Protection Addendum or the Agreement.

8.2. The Parties agree that the Service Provider and its Approved Sub-Processors may retain Personal Data to the extent required by and for such period as required by Laws, provided that it ensures:

(a) the confidentiality of all such Personal Data; and

(b) such Personal Data is only processed as necessary for the purpose(s) specified in the Law requiring its retention.

9. Privacy Notice

9.1. State Street's Global Privacy Notice

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

SCHEDULE 1

DEFINITIONS

In this Trust Agreement:

"**Administrator**" means the Benefits Oversight Committee appointed by Client to serve as "Administrator" of the Plan, who shall have the authorities and shall be subject to the duties with respect to the trust specified in the Plan and in this Trust Agreement.

"Affiliate" means, with respect to any person, any other person Controlling, Controlled by, or under common Control with, such person at the time in question. For these purposes, "Control" and its derivatives "Controlled" and "Controlling" mean, with regard to any person: (i) the legal or beneficial ownership, directly or indirectly, of fifty percent (50%) or more of the issued share capital or capital stock of that person (or other ownership interest, if not a corporation); (ii) the ability to control, directly or indirectly, fifty per cent (50%) or more of the voting power in relation to that person; or (iii) the legal power to direct or cause the direction of the general management and policies of that person, provided that where Control is being determined with respect to a person that is a limited partnership, Control shall be determined by reference to the satisfaction of any of the above tests with respect to the general partner of the limited partnership.

"Alternative Assets" means derivatives, real estate, commodities, private placements, loans, infrastructure holdings, private equity holdings, hedge fund holdings or such other assets (i) not typically held in book-entry form and (ii) not typically held in accounts registered in the name of the Custodian or a Subcustodian, in each case as determined by the Custodian.

"**Authentication Procedures**" means the use of security codes, passwords, tested communications or other authentication procedures as may be agreed upon in writing by Parties from time to time for purposes of enabling the Trustee to verify that purported Proper Instructions have been originated by an Authorized Person, and will include a "Funds Transfer and Transaction Origination Policy Agreement".

"**Authorized Data Sources**" means third party sources of data and information utilized by the Trustee in the provision of the Services, including issuer and issuer group data; security characteristics and classifications; security prices (OTC and exchange traded); ratings (issuer and issue); exchange, interest, discount and coupon rates; corporate action, dividend, income and tax data; benchmark, index, composite and indice related data (including values, constituents, weights and performance); and other reference and market data and information necessary for the performance of the Services.

"**Authorized Person**" means a person authorized to give Proper Instructions and otherwise act on the Client's behalf in connection with this Trust Agreement.

"**Business Day**" means a day on which the Trustee or the relevant Subcustodian is open for business in the market or country in which a transaction or an action by a Party takes place.

"**Cash**" means cash in any currency from time to time deposited with the Custodian or Subcustodian under this Trust Agreement.

"**Cash Account**" has the meaning given to it in Section 2.1 of Appendix A.

"**Client**" means the Party named in the preamble.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

"Client Publications" means the general client publications of the Trustee from time to time available to clients and their investment managers, including the Investment Managers' Guide, Client Guide, Guide to Custody in World Markets, and FX Client Guide.

"**Code**" means the Internal Revenue Code of 1986, as amended.

"Collateral" has the meaning given to it in Section 10.1.

"Confidential Information" means all information provided by or on behalf of a party (the "Disclosing Party") to the other party (the "Receiving Party"), or collected by a Receiving Party, under or pursuant to this Trust Agreement that is marked "confidential", "restricted", "proprietary" or with a similar designation, or that the Receiving Party knows or reasonably should know is confidential, proprietary or a trade secret. The terms and conditions of this Trust Agreement (including any related fee schedule or arrangement) and any Fees will be treated as Confidential Information as to which each Party is a Disclosing Party. Confidential Information will not include information that: (i) is publicly available when provided or thereafter becomes publicly available, other than through a breach of this Trust Agreement: (ii) was known to the Receiving Party (without an obligation of confidentiality) prior to its disclosure; (iii) is independently developed by the Receiving Party without the use of other Confidential Information; (iv) is rightfully obtained on a non-confidential basis from a third party source.

"Contractual Settlement" has the meaning given to it in Section 3.2 of Appendix A.

"Corporate Actions" means warrant and option exercises, conversions, exchanges and other capital reorganizations, calls, odd lot tenders/credits, bonus rights, subscription offers/rights, puts, maturities of securities, redemptions, mergers, tender or exchange offers, and rights exercises and expirations. Corporate Actions do not include class actions.

"**Corporate Actions Deadline Date**" has the meaning given to it in Section 4.2 of Appendix A.

"**CSD**" or "**Central Securities Depository**" means an entity or generally recognised book-entry or other settlement system or clearing house, central clearing counterparty or agency, acting as a local securities depository, central securities depository or international securities depository, the use of which is customary for securities settlement activities in the jurisdiction(s) in which it holds Securities or Cash in connection with this Trust Agreement, and through which the Custodian may transfer, settle, clear, deposit or maintain Securities whether in certificated or uncertificated form and will include any services provided by any network service provider or carriers or settlement banks used by a CSD.

"**Data**" means any Confidential Information of the Trust relating to its holdings, transactions or other information that the Custodian obtains with respect to the Trust in connection with the provision of the Services under this Trust Agreement or any other agreement.

"**Delegate**" means any agent, subcontractor, consultant and other third party, whether affiliated or unaffiliated with the Custodian. The term Delegate does not include Subcustodians, CSDs, Authorized Data Sources, suppliers of information technology or related services, or Financial Market Utilities.

"**ERISA**" means the Employee Retirement Income Security Act of 1974, as amended.

"**Execution Documents**" has the meaning given to it in Section 5.1.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

"**Fees**" means the fees charged by the Trustee in consideration for providing the Services and the costs, expenses and disbursements of the Trustee to be reimbursed by the Trust or the Client, as agreed between the Parties from time to time in a separate written fee schedule, or as otherwise agreed in writing.

"**Financial Market Utility**" means any multilateral system for transferring, clearing, and settling payments, securities, and other financial transactions among or between financial institutions, including payment systems, central securities depositories, securities settlement systems, central counterparties and trade repositories.

"**Force Majeure Event**" means any event or circumstances beyond the reasonable control of the Trustee, including nationalization, expropriation, currency restrictions, suspension or disruption of the normal procedures and practices, or disruption of the infrastructure, of any securities market or CSD, interruptions in telecommunications or utilities, acts of war or terrorism, riots, revolution, acts of God or other similar events or acts.

"**Insolvency Event**" means the occurrence of any of the following events in relation to any person: (i) the person generally does not pay its debts as such debts become due, or admits in writing its inability to pay its debts generally, or makes a general assignment for the benefit of creditors; or (ii) any proceeding is instituted by or against such person seeking to adjudicate it a bankrupt or insolvent, or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, or composition of it or its debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, or other similar official for it or for any substantial part of its property and, where any such proceeding is instituted against (but not by) such person, such person does not promptly seek dismissal of such proceeding or its motion or request to dismiss such proceeding is denied (whether or not on an initial, interim or final basis); or (iii) such person proposes or takes any corporate action to authorize any of the preceding actions or anything analogous to the foregoing events occurs in relation to such person under the laws of any jurisdiction.

"Investment Account" means one or more separate investment accounts within the Trust Fund, where the Administrator (in accordance with provisions of the Plan), may appoint pursuant to a written investment management agreement, one or more Investment Managers with investment discretion to direct the investment and reinvestment of all or a portion of the Trust Fund.

"**Investment Document**" means any agreement, subscription, assignment or other document evidencing in physical form an investment of the Trust, or providing for the ownership by the Trust, in each case that is acceptable to the Custodian. For the avoidance of doubt, it does not include any Security, instrument, certificate, title, agreement or other document that is accompanied by a stock power or instrument of assignment, endorsed to the Custodian or in blank.

"Investment Fund" means one or more separate investment accounts within the Trust Fund, that the Administrator, in accordance with provisions of the Plan, may direct the Trustee to establish.

"**Investment Manager**" means such person or entity specified as such by the Client, including its agents and delegates.

"**Law**" means any statute, ordinance, order, judgment, decree, subordinate legislation, rule or regulation promulgated by any regulatory, administrative or judicial authority or otherwise in force in any jurisdiction, applicable to a Party, that relates to the performance by such Party of the Services or obligations under this Trust Agreement.

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

"**Local Market Practice**" means the customary or established practices, procedures and terms in the jurisdiction or market where a transaction occurs, including the rules and procedures of any exchange or over the counter market and any practical constraints that exist with respect to the exercise of shareholder rights, realisation of entitlements or the sale, exchange, purchase, transfer or delivery of Cash or Securities.

"**Losses**" means all losses, damages, claims, costs, expenses or other liabilities (including reasonable attorneys' fees and other litigation expenses).

"**Market Participant**" means any issuer, intermediary, exchange, transaction counterparty or other market participant.

"**Off Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**On Book Cash**" has the meaning given to it in Section 2.2 of Appendix A.

"**Parties**" means the parties set out at the beginning of this Trust Agreement.

"**Plan**" shall mean, unless the context indicates to the contrary, the tax qualified employee welfare benefit plan of the Client that has adopted the trust as the funding vehicle for the plan.

"Property" means any Securities or other property, real or personal, or any partial interest therein, wherever situated, including, without limitation, governmental, corporate or personal obligations, trust and participation certificates, partnership interests, annuity or investment contracts issued by an insurance company, leaseholds, fee titles, mortgages and other interests in realty, preferred and common stocks, certificates of deposit, financial options and futures or any other form of option, evidences of indebtedness or ownership in foreign corporations or other enterprises or indebtedness of foreign governments, and any other evidences of indebtedness or ownership, including securities or other property of the Client, even though the same may not be legal investment for trustees under any law other than ERISA.

"**Portfolio**" means the Securities and Cash delivered to and held by the Custodian which comprise the assets of the Client over which the Custodian provides the Services pursuant to this Trust Agreement.

"**Proper Instructions**" means instructions (which may be standing instructions and which includes any security trade advice) received by the Trustee through an agreed Authentication Procedure in any of the following forms:

(i) in writing given by an Authorized Person including a facsimile transmission;

(ii) in an electronic communication as may be agreed upon between the Trustee and the Client in writing from time to time; or

(i) by such other means as may be agreed from time to time by the Trustee and the Client.

"**Representative**" has the meaning given to it in Section 17.3.1 of the Trust Agreement.

"**Schedule" or "Schedules**" are all of the schedules referenced herein and attached to this Trust Agreement.

"Secured Liabilities" means all liabilities or obligations owed by the Client (or the Plan) to the Trustee or its Affiliates relating to this Trust Agreement, including: (a) the obligations of the Client (or the Plan) to the Trustee or its Affiliates in relation to any advance of cash or securities or any other extension of credit for any purpose; (b) the obligations of the Client (or the Plan) to compensate the Trustee for the provision of

EL PASO ELECTRIC COMPANY
POST-RETIREMENT HEALTH BENEFIT TRUST
FOR COLLECTIVELY BARGAINED FOR EMPLOYEES

the Services; and (c) the indemnity obligations of the Plan (to the extent permitted under ERISA) to the Trustee under Section 7.

"**Securities**" means securities and such other similar assets as the Custodian may from time to time accept into custody under this Trust Agreement.

"**Securities Account**" has the meaning given to it in Section 1.2 of Appendix A.

"**Services**" means the services to be provided by the Trustee to the Client in accordance with this Trust Agreement.

"**Special Subcustodian**" has the meaning given to it in Section 11.3 of Appendix A.

"**Subcustodian**" means any qualified bank, credit institution, trust company or other entity appointed by the Custodian to perform safekeeping, processing and other elements of the Services, including Affiliates or non-Affiliates of the Custodian.

"**Third Party Agent**" means any provider of services to the Client (other than the Custodian, a Subcustodian or Delegate under this Trust Agreement) including any Investment Manager, adviser or sub-advisor, distributor, broker, dealer, transfer agent, administrator, accounting agent, audit firm, tax firm, or law firm.

"**Trust**" means the trust set forth in the beginning of this Trust Agreement.

"**Trust Agreement**" means the agreement defined in the preamble.

"**Trust Fund**" means the assets held in the Trust.

"**Trustee**" means the Party named in the preamble.

Interpretation: Capitalized terms used in this Trust Agreement have the meanings given to them in this Schedule 1 unless otherwise defined. In this Trust Agreement references to "persons" will include legal as well as natural persons or entities, references importing the singular will include the plural (and vice versa), use of the masculine pronoun will include the feminine, use of the terms "include", "includes" or "including" shall be deemed to be followed by the phrase "without limitation" and any specific examples given following the use of such terms shall be illustrative and in no way limit the general meaning of the words preceding them and numbered schedules, exhibits or Sections will (unless the contrary intention appears) be construed as references to such schedules and exhibits hereto and Sections herein bearing those numbers and any sub-sections thereof. The schedules and exhibits hereto are hereby incorporated herein by reference.

EL PASO ELECTRIC COMPANY

BY: _____

TITLE: Victor Rueda, Vice President – Human Resources & Safety

DATE: September 11, 2023

Trust Agreement

for the

El Paso Electric Company Savings Plan (the "Plan")

This Trust Agreement ("this Trust Agreement") for the Plan is effective on October 1, 2024 (the "Effective Date") and is made between El Paso Electric Company ("the Employer") and Fidelity Management Trust Company ("the Trustee") to establish terms for a trust for the Plan with the Trustee.

RECITALS

1. The Employer restated the terms of the Plan effective October 1, 2024, by executing an Adoption Agreement to a pre-approved defined contribution plan document (created under procedures established by the U.S. Internal Revenue Service ("IRS") and for which an affiliate of the Trustee is the pre-approved plan provider) (a "Fidelity Pre-Approved Document").

2. A Plan using a Fidelity Pre-Approved Document states the Plan's terms through an Adoption Agreement and a Basic Plan Document plus any additional amendments (the "Non-Trust Plan Documents").

3. The Plan must have a trust to hold Plan assets in order to remain qualified under Internal Revenue Code ("Code") Section 401.

4. In order to remain qualified under the Code, the Employer, on behalf of the Benefits Oversight Committee who is the administrator and investment fiduciary for the Plan (the "Administrator"), executes this document to evidence the terms of the Plan's trust and have the Trustee as trustee for the Plan's trust.

NOW, THEREFORE, the Employer and the Trustee agree as follows:

1. Appointment and Acceptance of Trust Responsibilities. By executing this Trust Agreement, the Employer continues the previous trust established under the Plan with the Trustee to hold the assets of the Plan that are invested in Permissible Investments. By executing this Trust Agreement, the Trustee agrees to accept the rights, duties and responsibilities set forth in this Trust Agreement. The Trustee shall have no liability for, and no duty to inquire into, the administration of the assets of the Plan for periods prior to the date such assets are transferred to the Trustee in its role as trustee for the Plan.

2. Establishment of Trust Fund. This Trust Agreement hereby establishes the terms of the Plan's trust with the Trustee as of the Effective Date. The Trustee shall open and maintain a trust account for the Plan and, as part thereof, Accounts for such individuals as the Employer shall from time to time notify the Trustee are Participants in the Plan. The Trustee shall accept and hold in the Trust Fund such contributions on behalf of Participants as it may receive from time to time from the Employer. The Trustee shall not accept assets that are not either in a medium proper for investment under the Plan, as set forth in the Plan and the Service Agreement, or in cash. The Trust Fund shall be fully invested and reinvested in accordance with the applicable provisions of the Plan in Fund Shares or as otherwise provided in Section 10 of this Trust Agreement.

3. Exclusive Benefit. The Trustee shall hold the assets of the Trust Fund for the exclusive purpose of providing benefits to Participants and Beneficiaries and defraying the reasonable expenses of administering the Plan. No assets of the Plan shall revert to the Employer except as specifically permitted by the terms of the Plan.

4. Powers of the Trustee. The Trustee shall act solely as directed trustee of the assets it holds for the Plan. In addition to and not in limitation of such powers as the Trustee has by law or under any other provisions of the Plan, the Trustee shall have the following powers, each of which the Trustee exercises solely as a directed trustee in accordance with the written direction of the Administrator or Employer except to the extent a Plan asset is subject to Participant direction of investment and provided that no such power shall be exercised in any manner inconsistent with the provisions of ERISA:

© 2020 FMR LLC

(a) to deal with all or any part of the Trust Fund and to invest all or a part of the Trust Fund in Permissible Investments, without regard to the law of any state regarding proper investment;

(b) to transfer to and invest all or any part of the Trust in any collective investment trust which is then maintained by a bank or trust company (or any affiliate), including the Trustee and any affiliate of the Trustee, and which is tax-exempt pursuant to Code Section 501(a) and Revenue Ruling 81-100, as amended; provided that such collective investment trust is a Permissible Investment; and provided, further, that the instrument establishing such collective investment trust, as amended from time to time, shall govern any investment therein, and is hereby made a part of the Plan and this Trust Agreement to the extent of such investment therein;

(c) to retain uninvested such cash as the Employer, Administrator or a named fiduciary under the Plan may, from time to time, direct;

(d) to sell, lease, convert, redeem, exchange, or otherwise dispose of all or any part of the assets constituting the Trust Fund;

(e) to borrow funds from a bank or other financial institution not affiliated with the Trustee in order to provide sufficient liquidity to process Plan transactions in a timely fashion, provided that the cost of borrowing shall be allocated in a reasonable fashion to the Permissible Investment(s) in need of liquidity and the Employer acknowledges that it has received the disclosure on the Trustee's line of credit program and credit allocation policy and a copy of the text of Prohibited Transaction Exemption 2002-55 prior to executing the Adoption Agreement, if applicable;

(f) to enforce by suit or otherwise, or to waive, its rights on behalf of the Trust, and to defend claims asserted against it or the Trust, provided that the Trustee is indemnified to its satisfaction against liability and expenses (including claims for delinquent contributions or repayments for which the Administrator, pursuant to its duties under Section 5.12 of the Basic Plan Document, has directed in writing the Trustee to pursue);

(g) to employ legal, accounting, clerical, and other assistance to carry out the provisions of this Trust Agreement and to pay the reasonable expenses of such employment, including compensation, from the Trust if not paid by the Employer;

(h) to compromise, adjust and settle any and all claims against or in favor of it or the Trust;

(i) to oppose, or participate in and consent to the reorganization, merger, consolidation, or readjustment of the finances of any enterprise, to pay assessments and expenses in connection therewith, and to deposit securities under deposit agreements;

(j) to apply for or purchase annuity contracts in accordance with Article 14 of the Basic Plan Document;

(k) to hold securities unregistered, or to register them in its own name or in the name of nominees in accordance with the provisions of Section 2550.403a-1(b) of Department of Labor Regulations;

(l) to appoint custodians to hold investments within the jurisdiction of the district courts of the United States and to deposit securities with stock clearing corporations or depositories or similar organizations;

(m) to make, execute, acknowledge and deliver any and all instruments that it deems necessary or appropriate to carry out the powers herein granted;

(n) generally to exercise any of the powers of an owner with respect to all or any part of the Trust Fund; and

(o) to take all such actions as may be necessary under the Trust Agreement, to the extent consistent with applicable law.

The Employer specifically acknowledges and authorizes that affiliates or subsidiaries of the Trustee may act as its agent in the performance of ministerial, nonfiduciary duties under the Trust; provided, however, that the Trustee will remain responsible for such duties as if it performed them itself.

The Trustee shall provide the Employer with reasonable notice it receives of any claim filed against the Plan or Trust or with regard to any related matter, or of any claim filed by the Trustee on behalf of the Plan or Trust or with regard to any related matter.

And unless specifically agreed to otherwise in writing by the Trustee, the Trustee shall have no discretion, responsibility, or authority with respect to the following items: (1) investment of the Trust Fund; (2) selection of Permissible Investments (the Trustee shall not render investment advice to any person in connection with the selection of Permissible Investments); (3) determination of the

© 2020 FMR LLC

correctness of the amounts contributed and remitted to the Trustee or determination of whether any contribution is payable under the Plan; or (4) responsibility for the collection of any contributions and loan repayments to the Plan. With respect to collection of any contributions and loan repayments to the Plan, the Administrator shall be the named fiduciary responsible for ensuring the Employer or participants, where relevant, remit contributions and loan repayments to the Trust and shall have the duty and responsibility for the collection of such contributions and repayments when not timely made provided that the Administrator may appoint another named fiduciary to handle such responsibility and notify the Trustee of such appointment in writing. The Trustee shall be authorized to provide information and records regarding contributions it has received to the Administrator or other named fiduciary and may accept contributions and/or carry out related allocation instructions from, such named fiduciary upon its request, as may be further described in the Service Agreement.

5. **Accounts.** The Trustee shall keep full accounts of all receipts and disbursements and other transactions hereunder. Within 120 days after the close of each Plan Year and at such other times as may be appropriate, the Trustee shall determine the then net fair market value of the Trust Fund as of the close of the Plan Year, as of the termination of the Trust, or as of such other time, whichever is applicable, and shall render to the Employer and the Administrator an account of its administration of the Trust during the period since the last such accounting, including all allocations made by it during such period.

6. **Approval of Accounts.** To the extent permitted by law, the written approval of any account by the Employer or the Administrator shall be final and binding, as to all matters and transactions stated or shown therein, upon the Employer, the Administrator, Participants and all persons who then are or thereafter become interested in the Trust. The failure of the Employer or the Administrator to notify the Trustee within six months after the receipt of any account of its objection to the account shall, to the extent permitted by law, be the equivalent of written approval. If the Employer or the Administrator files any objections within such six-month period with respect to any matters or transactions stated or shown in the account, and the Employer or the Administrator and the Trustee cannot amicably settle the question raised by such objections, the Trustee shall have the right to have such questions settled by judicial proceedings. Nothing herein contained shall be construed so as to deprive the Trustee of the right to have judicial settlement of its accounts. In any proceeding for a judicial settlement of any account or for instructions, the only necessary parties shall be the Trustee, the Employer and the Administrator.

7. **Distribution from Trust Fund.** The Trustee shall make such distributions from the Trust Fund as the Employer or the Administrator may direct in writing to the Trustee, consistent with the terms of the Plan and either for the exclusive benefit of Participants or their Beneficiaries, or for the payment of expenses of administering the Plan. The Trustee shall be under no duty to make any distributions other than those for which it has received satisfactory direction from the Employer or the Administrator. Notwithstanding the foregoing, if the Trustee attempts to make a distribution in accordance with instructions but is unable to make such distribution because the whereabouts of the distributee is unknown, the Trustee shall notify the Administrator of such situation and thereafter the Trustee shall be under no duty to make any further distributions to such distributee, except as otherwise provided in written instructions from the Administrator.

8. **Transfer of Amounts from Qualified Plan.** If the Employer directs in writing, amounts to be transferred to the Plan from another qualified plan or trust under Code Section 401(a), such transfer shall be made in accordance with the provisions of the Plan and with such rules as may be established by the Trustee. The Trustee shall only accept assets which are in a medium proper for investment under this Trust Agreement, the Non-Trust Plan Documents, and the Service Agreement or in cash, and that are accompanied in a timely manner, as agreed to by the Administrator and the Trustee, by instructions in writing (or such other medium as may be acceptable to the Trustee) showing separately the respective contributions by the prior employer and the transferring Employee, the records relating to such contributions, and identifying the assets attributable to such contributions. The Trustee shall hold such assets for investment in accordance with the provisions of this Trust Agreement. The Trustee shall establish such accounts as may be necessary or appropriate to reflect such contributions under the Plan and shall in accordance with the instructions provided in writing of the Employer make appropriate credits to the Accounts of the Participants for whose benefit assets have been transferred. The Trustee shall have no liability for and no duty to inquire into the administration of such transferred assets for periods prior to the transfer.

9. **Transfer of Assets from Trust.** Subject to the provisions of the Plan, the Employer may direct the Trustee in writing to transfer all or a specified portion of the Trust assets to any other plan or plans maintained by the Employer or the employer or employers of an Inactive Participant or Participants, provided that the Trustee has received evidence satisfactory to it that such other plan meets all applicable requirements of the Code. The assets so transferred shall be accompanied by written instructions from the Employer naming the persons for whose benefit such assets have been transferred, showing separately the respective contributions by

© 2020 FMR LLC

the Employer and by each Participant, if any, and identifying the assets attributable to the various contributions. The Trustee shall have no further liabilities with respect to assets so transferred.

10. Separate Trust or Fund. Subject to agreement in writing with the Trustee or with an affiliate of the Trustee, the Employer may maintain a trust or fund (including a group annuity contract) under the Plan for Permissible Investments for which the Trustee will not take responsibility under this Trust Agreement as indicated in the Service Agreement. Any Permissible Investments for which the Trustee has not agreed to take responsibility shall not be governed by the terms of this Trust Agreement (including Sections 11 and 12 of this Trust Agreement) but rather shall be subject to procedures established in the Service Agreement to govern contributions, distributions and exchanges between such Permissible Investments and any other Permissible Investments for the Plan. In addition, the Employer may also appoint a trustee to establish a separate trust for claims on behalf of the Trust for delinquent contributions or loan repayments under the Plan. The Trustee shall have no authority and no responsibility for the Plan assets held in such separate trust or fund. The Employer shall be responsible for assuring that such separate trust or fund is maintained pursuant to a separate trust or custodial agreement signed by the Employer and any such trustee or custodian, to the extent such an agreement is required. The duties and responsibilities of the trustee of a separate trust shall be provided by the separate trust agreement, between the Employer and the trustee of the separate trust.

Notwithstanding the preceding paragraph, the Trustee or an affiliate of the Trustee may agree in writing to provide ministerial, non-fiduciary recordkeeping services for assets held outside of this Trust Agreement.

The Trustee shall not be the owner of any insurance contract purchased for the Plan. All insurance contract(s) must provide that proceeds shall be payable to the Plan; provided, however, that the policy holder shall be required to pay over all proceeds of the contract(s) to the Participant's designated Beneficiary in accordance with the distribution provisions of this Plan. A Participant's Spouse shall be the designated Beneficiary of the proceeds in all circumstances unless a qualified election has been made in accordance with Article 14 of the Basic Plan Document. Under no circumstances shall the policy holder retain any part of the proceeds. In the event of any conflict between the terms of the Plan and the terms of any insurance contract purchased hereunder, the Plan provisions shall control.

Any life insurance contracts held in the Trust Fund or in the separate trust are subject to the following limits:

(a) Ordinary life - For purposes of these incidental insurance provisions, ordinary life insurance contracts are contracts with both nondecreasing death benefits and nonincreasing premiums. If such contracts are held, less than 1/2 of the aggregate employer contributions allocated to any Participant shall be used to pay the premiums attributable to them.

(b) Term and universal life - No more than 1/4 of the aggregate employer contributions allocated to any participant shall be used to pay the premiums on term life insurance contracts, universal life insurance contracts, and all other life insurance contracts which are not ordinary life.

(c) Combination - The sum of 1/2 of the ordinary life insurance premiums and all other life insurance premiums shall not exceed 1/4 of the aggregate employer contributions allocated to any Participant.

11. Self-Directed Brokerage Option. If one of the Permissible Investments under the Plan is Fidelity BrokerageLink®, a self-directed brokerage option ("BrokerageLink"), the Service Agreement provides the Employer's direction to the Trustee for investment and recordkeeping of Plan assets that a Participant directs into BrokerageLink.

12. Employer Stock Investment Option. If one of the Permissible Investments is equity securities issued by the Employer or a Related Employer ("Employer Stock"), such Employer Stock must be publicly traded and "qualifying employer securities" within the meaning of ERISA Section 407(d)(5). Plan investments in Employer Stock shall be administered in accordance with this Section 12 unless the Service Agreement provides otherwise. Plan investments in Employer Stock shall be administered via the Employer Stock Investment Fund (the "Stock Fund"), which shall consist of either (i) the shares of Employer Stock held for each Participant who participates in the Stock Fund (a "Share Accounting Stock Fund"), or (ii) a combination of shares of Employer Stock and short-term liquid investments, consisting of mutual fund shares or commingled money market pool units as agreed to by the Employer and the Trustee, which are necessary to satisfy the Stock Fund's cash needs for transfers and payments (a "Unitized Stock Fund"). Dividends received by the Stock Fund are reinvested in additional shares of Employer Stock or, in the case of a Unitized Stock Fund, in short- term liquid investments. The determination of whether each Participant's interest in the Stock Fund is administered on a share- accounting or a unitized basis shall be determined by the Employer's election in the Service Agreement.

© 2020 FMR LLC

In the case of a Unitized Stock Fund, such units shall represent a proportionate interest in all assets of the Unitized Stock Fund, which includes shares of Employer Stock, short-term investments, and at times, receivables for dividends and/or Employer Stock sold and payables for Employer Stock purchased. A net asset value per unit shall be determined daily for each cash unit outstanding of the Unitized Stock Fund. The return earned by the Unitized Stock Fund shall represent a combination of the dividends paid on the shares of Employer Stock held by the Unitized Stock Fund, gains or losses realized on sales of Employer Stock, appreciation or depreciation in the market price of those shares owned, and interest on the short-term investments held by the Unitized Stock Fund. A target range for the short-term liquid investments shall be maintained for the Unitized Stock Fund. The named fiduciary shall, after consultation with the Trustee, establish and communicate to the Trustee in writing such target range and a drift allowance for such short-term liquid investments. Such target range and drift allowance may be changed by the named fiduciary, after consultation with the Trustee, provided any such change is communicated to the Trustee in writing. The Trustee is responsible for ensuring that the actual short-term liquid investments held in the Unitized Stock Fund fall within the agreed upon target range over time, subject to the Trustee's ability to execute open-market trades in Employer Stock or to otherwise trade with the Employer.

Investments in Employer Stock shall be subject to the following limitations:

(a) Acquisition Limit. Pursuant to the Plan, the Trust may be invested in Employer Stock to the extent necessary to comply with investment directions under Section 8.02 of the Basic Plan Document. Notwithstanding the foregoing, effective for Deferral Contributions made for Plan Years beginning on or after January 1, 1999, the portion of a Participant's Deferral Contributions that the Employer may require to be invested in Employer Stock for a Plan Year cannot exceed one percent of such Participant's Compensation for the Plan Year.

(b) Fiduciary Duty of Named Fiduciary. The Administrator or any person designated by the Administrator as a named fiduciary under Section 19.01 of the Basic Plan Document (the "named fiduciary") shall continuously monitor compliance with the fiduciary duty rules of ERISA Section 404(a)(1) (as modified by ERISA Section 404(a)(2)) of acquiring and holding Employer Stock. The Trustee shall not be liable for any loss, or by reason of any breach, which arises from the directions of the named fiduciary with respect to the acquisition and holding of Employer Stock, unless it is clear on their face that the actions to be taken under those directions would be prohibited by the foregoing fiduciary duty rules or would be contrary to the terms of the Plan or this Trust Agreement.

(c) Execution of Purchases and Sales. Purchases and sales of Employer Stock shall be made on the open market on the date on which the Trustee receives in good order all information and documentation necessary to accurately effect such purchases and sales or (i) if later, in the case of purchases, the date on which the Trustee has received a transfer of the funds necessary to make such purchases, (ii) as otherwise provided in the Service Agreement, or (iii) as provided in Subsection (d) below. Such general rules shall not apply in the following circumstances:

(1) If the Trustee is unable to determine the number of shares required to be purchased or sold on such day;

(2) If the Trustee is unable to purchase or sell the total number of shares required to be purchased or sold on such day as a result of market conditions; or

(3) If the Trustee is prohibited by the Securities and Exchange Commission, the New York Stock Exchange, or any other regulatory body from purchasing or selling any or all of the shares required to be purchased or sold on such day.

In the event of the occurrence of the circumstances described in (1), (2), or (3) above, the Trustee shall purchase or sell such shares as soon as possible thereafter and, in the case of a Share Accounting Stock Fund, shall determine the price of such purchases or sales to be the average purchase or sales price of all such shares purchased or sold, respectively.

(d) Purchases and Sales from or to Employer. If directed by the Employer in writing prior to the trading date, the Trustee may purchase or sell Employer Stock from or to the Employer if the purchase or sale is for adequate consideration (within the meaning of ERISA Section 3(18)) and no commission is charged. If Employer contributions or contributions made by the Employer on behalf of the Participants under the Plan are to be invested in Employer Stock, the Employer may transfer Employer Stock in lieu of cash to the Trust. In such case, the shares of Employer Stock to be transferred to the Trust will be valued at a price that constitutes adequate consideration (within the meaning of ERISA Section 3(18)).

(e) Use of Broker to Purchase Employer Stock. The Employer hereby directs the Trustee to use Fidelity Capital Markets, Inc., an affiliate of the Trustee, or any other affiliate of the Trustee (collectively, "Capital Markets"), to provide

© 2020 FMR LLC

brokerage services in connection with all market purchases and sales of Employer Stock for the Stock Fund, except in circumstances where the Trustee has determined, in accordance with its standard trading guidelines or pursuant to Employer direction, to seek expedited settlement of trades. The Trustee shall provide the Employer with the commission schedule for such transactions and a copy of Capital Markets' brokerage placement practices. The following shall apply as well:

(1) Any successor organization of Capital Markets through reorganization, consolidation, merger, or similar transactions, shall, upon consummation of such transaction, become the successor broker in accordance with the terms of this provision.

(2) The Trustee shall continue to rely on this Employer direction until notified to the contrary in writing. The Employer reserves the right to terminate this authorization upon sixty (60) days written notice to Capital Markets (or its successor) and the Trustee and the Employer and the Trustee shall decide on a mutually agreeable alternative procedure for handling brokerage transactions on behalf of the Stock Fund.

(f) Securities Law Reports. The named fiduciary shall be responsible for filing all reports required under Federal or state securities laws with respect to the Trust's ownership of Employer Stock; including, without limitation, any reports required under Section 13 or 16 of the Securities Exchange Act of 1934 and shall immediately notify the Trustee in writing of any requirement to stop purchases or sales of Employer Stock pending the filing of any report. Notwithstanding any provision in this Trust Agreement to the contrary, the Trustee shall provide to the named fiduciary such information on the Trust's ownership of Employer Stock as the named fiduciary may reasonably request in order to comply with Federal or state securities laws, including, without limitation, information needed by Employer for reporting related to tender offers.

(g) Voting and Tender Offers. Notwithstanding any other provision of the Trust Agreement the provisions of this Subsection shall govern the voting and tendering of Employer Stock. For purposes of this Subsection, each Participant shall be designated as a named fiduciary under ERISA with respect to shares of Employer Stock that reflect that portion, if any, of the Participant's interest in the Stock Fund not acquired at the direction of the Participant in accordance with ERISA Section 404(c).

The Employer shall pay for all printing, mailing, tabulation and other costs associated with the voting and tendering of Employer Stock. The Trustee, after consultation with the Employer, shall prepare any necessary documents associated with the voting and tendering of Employer Stock for the Trust.

(1) Voting.

(A) When the issuer of the Employer Stock prepares for any annual or special meeting, the Employer shall notify the Trustee at least thirty (30) days in advance of the intended record date and shall cause a copy of all proxy solicitation materials to be sent to the Trustee. If requested by the Trustee, the Employer shall certify to the Trustee that the aforementioned materials represent the same information distributed to shareholders of Employer Stock. The Employer shall cause proxy solicitation materials to be provided to each Participant with an interest in Employer Stock held in the Trust, together with an instruction form to be returned to the Trustee or a designee. The form shall show the proportional interest in the number of full and fractional shares of Employer Stock credited to the Participant's sub-accounts held in the Stock Fund.

(B) Each Participant with an interest in the Stock Fund shall have the right to direct the Trustee as to the manner in which the Trustee is to vote (including not to vote) that number of shares of Employer Stock that is credited to his Account, if the Plan uses share accounting, or, if accounting is by units of participation, that reflects such Participant's proportional interest in the Stock Fund (both vested and unvested). Directions from a Participant to the Trustee concerning the voting of Employer Stock shall be communicated in writing, or by such other means agreed upon by the Trustee and the Employer. These directions shall be held in confidence by the Trustee and shall not be divulged to the Employer, or any officer or employee thereof, or any other person, except to the extent that the consequences of such directions are reflected in reports regularly communicated to any such persons in the ordinary course of the performance of the Trustee's services hereunder. Upon its receipt of the directions, the Trustee shall vote the shares of Employer Stock that reflect the Participant's interest in the Stock Fund as directed by the Participant. The Trustee shall not vote shares of Employer Stock that reflect a Participant's interest in the

© 2020 FMR LLC

Stock Fund for which the Trustee has received no direction from the Participant, except as required by law, or to the extent that the Employer or the Administrator directs the Trustee in writing to vote shares of Employer Stock that reflect a Participant's interest in the Stock Fund for which the Trustee has received no directions from the Participant in the same proportion on each issue as it votes those shares that reflect all Participants' interests in the Stock Fund (in the aggregate) for which it received voting instructions from Participants.

(C) Except as otherwise required by law, the Trustee shall vote that number of shares of Employer Stock not credited to Participants' Accounts in the same proportion on each issue as it votes those shares credited to Participants' Accounts for which it received voting directions from Participants.

(2) Tender Offers.

(A) Upon commencement of a tender offer for any securities held in the Trust that are Employer Stock, the Employer shall timely notify the Trustee in advance of the intended tender date and shall cause a copy of all materials to be sent to the Trustee. The Employer shall certify to the Trustee that the aforementioned materials represent the same information distributed to shareholders of Employer Stock. Based on these materials, the Trustee shall prepare a tender instruction form. The tender instruction form shall show the number of full and fractional shares of Employer Stock credited to the Participant's Account, if the Plan uses share accounting, or, if accounting is by units of participation, that reflect the Participant's proportional interest in the Stock Fund (both vested and unvested). The Employer shall cause tender materials to be sent to each Participant with an interest in the Stock Fund, together with the foregoing tender instruction form, such materials and form to be returned to the Trustee or a designee.

(B) Each Participant with an interest in the Stock Fund shall have the right to direct the Trustee to tender or not to tender some or all of the shares of Employer Stock that are credited to his Account, if the Plan uses share accounting, or, if accounting is by units of participation, that reflect such Participant's proportional interest in the Stock Fund (both vested and unvested). Directions from a Participant to the Trustee concerning the tender of Employer Stock shall be communicated in writing, or by such other means agreed upon by the Trustee and the Employer. These directions shall be held in confidence by the Trustee and shall not be divulged to the Employer, or any officer or employee thereof, or any other person, except to the extent that the consequences of such directions are reflected in reports regularly communicated to any such persons in the ordinary course of the performance of the Trustee's services hereunder including, without limitation, any information needed by the Employer for any governmentally required reporting of the Employer, such as reporting to the Securities and Exchange Commission. The Trustee shall tender, or not tender, shares of Employer Stock as directed by the Participant. Except as otherwise required by law, the Trustee shall not tender shares of Employer Stock that are credited to a Participant's Account, if the Plan uses share accounting, or, if accounting is by units of participation, that reflect a Participant's proportional interest in the Stock Fund for which the Trustee has received no direction from the Participant.

(C) Except as otherwise required by law, the Trustee shall tender shares of Employer Stock not credited to Participants' accounts in the same proportion as it tenders shares of Employer Stock credited to Participants' accounts.

(D) A Participant who has directed the Trustee to tender some or all of the shares of Employer Stock that reflect the Participant's proportional interest in the Stock Fund may, at any time prior to the tender offer withdrawal date, direct the Trustee to withdraw some or all of such tendered shares, and the Trustee shall withdraw the directed number of shares from the tender offer prior to the tender offer withdrawal deadline. Prior to the withdrawal deadline, if any shares of Employer Stock not credited to Participants' accounts have been tendered, the Trustee shall redetermine the number of shares of Employer Stock that would be tendered under the previous paragraph if the date of the foregoing withdrawal were the date of determination, and withdraw from the tender offer the number of shares of Employer Stock not credited to Participants' accounts necessary to reduce the amount of tendered Employer Stock not credited to Participants' accounts to the amount so redetermined. A Participant shall not be limited as to the number of directions to tender or withdraw that the Participant may give to the Trustee.

© 2020 FMR LLC

(E) A direction by a Participant to the Trustee to tender shares of Employer Stock that reflect the Participant's proportional interest in the Stock Fund shall not be considered a written election under the Plan by the Participant to withdraw, or have distributed, any or all of his withdrawable shares. If the Plan uses share accounting, the Trustee shall credit to the Participant's Account the proceeds received by the Trustee in exchange for the shares of Employer Stock tendered from the Participant's Account. If accounting is by units of participation, the Trustee shall credit to each proportional interest of the Participant from which the tendered shares were taken the proceeds received by the Trustee in exchange for the shares of Employer Stock tendered from that interest. Pending receipt of direction (through the Administrator) from the Participant or the named fiduciary, as provided in the Plan, as to which of the remaining Permissible Investments the proceeds should be invested in, the Trustee shall invest the proceeds in the Permissible Investment specified for such purposes in the Service Agreement.

(h) Shares Credited. If accounting with respect to the Stock Fund is by units of participation, then for all purposes of this Section 12, the number of shares of Employer Stock deemed "reflected" in a Participant's proportional interest shall be determined as of the last preceding valuation date. The trade date is the date the transaction is valued.

(i) General. With respect to all rights other than the right to vote, the right to tender, and the right to withdraw shares previously tendered, in the case of Employer Stock credited to a Participant's Account or proportional interest in the Stock Fund, the Trustee shall follow the directions of the Participant and if no such directions are received, the directions of the named fiduciary. The Trustee shall have no duty to solicit directions from Participants. The Administrator is responsible for ensuring that (i) the procedures established in accordance with the provisions of Subsection 12(g) are sufficient to safeguard the confidentiality of the information described therein, (ii) such procedures are being followed, and (iii) an independent fiduciary, as described in regulations issued under ERISA Section 404(c), is appointed when needed in accordance with those regulations.

(j) Conversion. All provisions in this Section 12 shall also apply to any securities received as a result of a conversion to Employer Stock.

13. Voting; Delivery of Information. The Trustee shall deliver, or cause to be executed and delivered, to the Employer or the Administrator all notices, prospectuses, financial statements, proxies and proxy soliciting materials received by the Trustee relating to securities held by the Trust or, if applicable, deliver these materials to the appropriate Participant or the Beneficiary of a deceased Participant. Unless provided otherwise in the Service Agreement, the Trustee shall vote any securities held by the Trust in accordance with the instructions of the Participant or the Beneficiary of a deceased Participant and shall not vote securities for which it has not received instructions.

14. Compensation and Expenses of the Trustee. The Trustee's fee for performing its duties hereunder shall be such reasonable amounts as approved by the Administrator or Employer and reflected in the Service Agreement or any other written agreement with the Employer. Such fee, any taxes of any kind which may be levied or assessed upon or with respect to the Trust Fund, and any and all expenses, including without limitation legal fees and expenses of administrative and judicial proceedings, reasonably incurred by the Trustee in connection with its duties and responsibilities hereunder shall, unless some or all have been paid by the Employer, be paid from the Trust in the method specified in the Service Agreement.

15. Reliance by the Trustee on Other Persons. The Trustee may rely upon and act upon any writing from any person authorized by the Employer or the Administrator pursuant to the Service Agreement or any other written direction to give instructions concerning the Plan and may conclusively rely upon and be protected in acting upon any written order from the Employer or the Administrator or upon any other notice, request, consent, certificate, or other instructions or paper reasonably believed by it to have been executed by a duly authorized person, so long as it acts in good faith in taking or omitting to take any such action. The Trustee need not inquire as to the basis in fact of any statement in writing received from the Employer or the Administrator.

The Trustee shall be entitled to rely on the latest certificate it has received from the Employer or the Administrator as to any person or persons authorized to act for the Employer or the Administrator hereunder and to sign on behalf of the Employer or the Administrator any directions or instructions, until it receives from the Employer or the Administrator written notice that such authority has been revoked.

Except with respect to instructions from a Participant as to the Participant's Account that are otherwise authorized under the Plan, the Trustee shall be under no duty to take any action with respect to any Participant's Account (other than as specified herein)

© 2020 FMR LLC

unless and until the Employer or the Administrator furnishes the Trustee with written instructions on a form acceptable to the Trustee, and the Trustee agrees thereto in writing. The Trustee shall not be liable for any action taken pursuant to the Employer's or the Administrator's written instructions (nor the purpose or propriety of any distribution made thereunder).

16. Indemnification. The Employer shall indemnify the Trustee with respect to any third-party claims or regulatory proceedings asserted or commenced against the Trustee to the extent such claim or proceeding is the result of any act done, or an act failed to be done, by any individual or person with respect to the Plan or the Trust, excepting only those Losses asserted as part of such claim or proceeding that result from the Trustee's negligence or willful misconduct under, or breach of the terms of, this Trust Agreement. The Trustee shall indemnify the Employer with respect to any third-party claims or regulatory proceedings asserted or commenced against the Employer to the extent Losses asserted as part of such any such claim or proceeding result from the Trustee's negligence or willful misconduct under, or breach of the terms of, this Trust Agreement. Any reference to the Employer or the Trustee as an indemnified Party shall be deemed to include their respective directors, officers, affiliates, and subsidiaries. "Losses" shall mean and include any and all liability, loss, damage, claim, expense, cost, fine, fee, penalty, obligation or injury including those resulting from any and all actions, suits, proceedings, demands, assessments or judgments, together with reasonable costs and expenses including the attorneys' fees and other legal costs and expenses relating thereto.

17. Consultation by the Trustee with Counsel. The Trustee may consult with legal counsel (who may be but need not be counsel for the Employer or the Administrator) concerning any question which may arise with respect to its rights and duties under the Plan and Trust, and the opinion of such counsel shall, to the extent permitted by law, be full and complete protection in respect of any action taken or omitted by the Trustee hereunder in good faith and in accordance with the opinion of such counsel.

18. Persons Dealing with the Trustee. No person dealing with the Trustee shall be bound to see to the application of any money or property paid or delivered to the Trustee or to inquire into the validity or propriety of any transactions.

19. Effective Period of the Trust Agreement and Resignation or Removal of the Trustee. This Trust Agreement shall be effective starting on the Effective Date and shall remain in effect (even if the Plan is restated onto a different Fidelity Pre-Approved Document) until (1) the Trust Agreement is restated, at which time the Trust shall be governed by the terms of the restated agreement or (2) the Trustee no longer holds any of the Trust's assets.

The Trustee may resign at any time by written notice to the Employer, which resignation shall be effective 60 days after delivery to the Employer. The Trustee may be removed by the Employer by written notice to the Trustee, which removal shall be effective 60 days after delivery to the Trustee or such shorter period as may be mutually agreed upon by the Employer and the Trustee. Except in the case of Plan termination, upon resignation or removal of the Trustee, the Employer shall appoint a successor trustee. Any such successor trustee shall, upon written acceptance of his appointment, become vested with the estate, rights, powers, discretion, duties and obligations of the Trustee hereunder as if he had been originally named as Trustee in this Agreement.

Upon resignation by or removal of the Trustee, the Employer shall no longer participate in the Fidelity Pre-Approved Plan created by the Non-Trust Plan Documents and shall be deemed to have adopted an individually designed plan. In such event, the Employer shall appoint a successor trustee within said 60-day period and the Trustee shall transfer the assets of the Trust to the successor trustee upon receipt of sufficient evidence (such as a determination letter or opinion letter from the Internal Revenue Service or an opinion of counsel satisfactory to the Trustee) that such trust shall be a qualified trust under the Code.

The appointment of a successor trustee shall be accomplished by delivery to the Trustee in writing of a notice that the Employer has appointed such successor trustee, and written acceptance of such appointment by the successor trustee. The Trustee may, upon transfer and delivery of the Trust Fund to a successor trustee, reserve such reasonable amount as it shall deem necessary to provide for its fees, compensation, costs and expenses, or for the payment of any other liabilities chargeable against the Trust Fund for which it may be liable. The Trustee shall not be liable for the acts or omissions of any successor trustee.

20. Fiscal Year of the Trust. The fiscal year of the Trust shall coincide with the Plan Year.

21. Amendment. In accordance with provisions of the Plan, and subject to the limitations set forth therein, this Trust Agreement may be amended by the Employer and the Trustee executing an amendment in writing signed by the parties. No amendment to this Trust Agreement shall divert any part of the Trust Fund to any purpose other than as provided in Section 3.

22. Plan Termination. Upon termination or partial termination of the Plan or complete discontinuance of contributions thereunder, the Trustee shall make distributions to the Participants or other persons entitled to distributions as the Employer or the

© 2020 FMR LLC

Administrator directs in accordance with the provisions of the Plan. In the absence of such instructions and unless the Plan otherwise provides, the Trustee shall notify the Employer or the Administrator of such situation and the Trustee shall be under no duty to make any distributions under the Plan until it receives written instructions from the Employer or the Administrator. Upon the completion of such distributions, the Trust shall terminate, the Trustee shall be relieved from all liability under the Trust, and no Participant or other person shall have any claims thereunder, except as required by applicable law.

23. **Permitted Reversion of Funds to Employer.** If it is determined by the IRS that the Plan does not initially qualify under Code Section 401, all assets then held under the Plan shall be returned by the Trustee, as directed by the Administrator, to the Employer, but only if the application for determination is made by the time prescribed by law for filing the Employer's return for the taxable year in which the Plan was adopted or such later date as may be prescribed by regulations. Such distribution shall be made within one year after the date the initial qualification is denied. Upon such distribution the Plan shall be considered to be rescinded and to be of no force or effect.

Contributions under the Plan are conditioned upon their deductibility under Code Section 404. In the event the deduction of a contribution made by the Employer is disallowed under Code Section 404, such contribution (to the extent disallowed) must be returned to the Employer within one year of the disallowance of the deduction.

Any contribution made by the Employer because of a mistake of fact must be returned to the Employer within one year of the contribution.

24. **Governing Law.** This Trust Agreement shall be construed, administered and enforced according to ERISA and, to the extent not preempted thereby, the laws of the State or Commonwealth in which the Trustee has its principal place of business.

25. **Assignment and Successors.** This Trust Agreement, and any of its rights and obligations hereunder, may not be assigned by any party without the prior written consent of the other party(ies), and such consent may be withheld in any party's sole discretion. Notwithstanding the foregoing, the Trustee may assign this Agreement in whole or in part, and any of its rights and obligations hereunder, to a subsidiary or affiliate of the Trustee without consent of the Employer. Any successor to the Trustee or successor trustee, either through sale or transfer of the business or trust department of the Trustee or successor trustee, or through reorganization, consolidation, or merger, or any similar transaction of either the Trustee or successor trustee, shall, upon consummation of the transaction, become the successor trustee under this Agreement. All provisions in this Trust Agreement shall extend to and be binding upon the parties hereto and their respective successors and permitted assigns. Neither Party may assign this Agreement without the prior written consent of the other Party; provided, either Party may assign this Agreement to a subsidiary or Affiliate of the assigning Party, or to a successor entity in connection with a corporate reorganization, acquisition or merger, provided that such subsidiary or affiliate or successor entity is sufficiently well capitalized to meet the assigning Party’s obligations hereunder and that notice is provided within a reasonable time after the assignment.

26. Interpretation and Construction. Unless defined herein in this Trust Agreement or a different meaning is clearly required by the context, capitalized terms used herein shall have the meanings set forth in the Non-Trust Plan Documents. Any reference to the "terms of the Plan" refers to the provisions of the Non-Trust Plan Documents and this Trust Agreement, including any amendments to any of those documents. Any reference to an action allowed under this Trust Agreement being "in writing" means in such form and subject to such procedures as the parties may agree to from time to time. Any reference to an action of "the Employer," such as the Employer's direction, may be given by any authorized agent of Employer, including Employer's agents who are not its employees. In the event of any conflict between the terms of the Non-Trust Plan Documents and any provision contained in this Trust Agreement, the terms of the Non-Trust Plan Documents will govern.

By signing below, the parties agree to the terms of this Trust Agreement and the undersigned represent that they are authorized to execute this Trust Agreement on behalf of the respective parties.

ADDENDUM RE: THE BIPARTISAN BUDGET ACT OF 2018, AND CODE SECTIONS 401(K) AND 401(M) 2019 FINAL HARDSHIP REGULATIONS 65

Preamble.

This Pre-Approved Plan consists of two parts: (1) an Adoption Agreement that is a separate document incorporated by reference into this Basic Plan Document; and (2) this Basic Plan Document. Each part of the Pre-Approved Plan contains substantive provisions that are integral to the operation of the plan. The Adoption Agreement is the means by which an adopting Employer elects the optional provisions that shall apply under its plan. The Basic Plan Document describes the standard provisions elected in the Adoption Agreement. The Pre-Approved Plan is intended to qualify under Code Section 401(a). Depending upon the Adoption Agreement completed by an adopting Employer, the Pre-Approved Plan may be used to implement a profit sharing plan with or without a cash or deferred arrangement intended to qualify under Code Section 401(k). To the extent the Employer selects provisions available to it through an Addendum to the Adoption Agreement, such Addendum will be included with the Plan's Adoption Agreement and the provisions in such Addendum will supplement or alter provisions appearing in the Adoption Agreement in the manner described within that Addendum. Provisions appearing on the Plan Superseding Provisions Addendum of the Adoption Agreement, if present, supersede any conflicting provisions appearing in the Adoption Agreement, Basic Plan Document or any addendum to either in the manner described therein.

Article 1. Adoption Agreement.

Article 2. Definitions.

2.01. Definitions.

Wherever used herein, the following terms have the meanings set forth below, unless a different meaning is clearly required by the context:

(a) **"Account"** means an account established for the purpose of recording any contributions made on behalf of a Participant and any income, expenses, gains, or losses incurred thereon. The Administrator shall establish and maintain sub-accounts within a Participant's Account as necessary to depict accurately a Participant's interest under the Plan.

(b) **"Active Participant"** means any Eligible Employee who has met the requirements of Article 4 to participate in the Plan and who may be entitled to receive allocations under the Plan.

(c) **"Administrator"** means the Employer adopting this Plan, as listed in Subsection 1.02(a) of the Adoption Agreement, or another person or entity designated by the Employer in Subsection 1.01(c) of the Adoption Agreement.

(d) **"Adoption Agreement"** means Article 1, under which the Employer establishes and adopts, or amends the Plan and designates the optional provisions selected by the Employer. The provisions of the Adoption Agreement shall be an integral part of the Plan.

(e) **"Annuity Starting Date"** means the first day of the first period for which an amount is payable as an annuity or in any other form permitted under the Plan.

(f) **"Basic Plan Document"** means this Fidelity Pre-Approved Plan document, qualified with the Internal Revenue Service as Basic Plan Document No. 17.

(g) **"Beneficiary"** means the person or persons (including a trust) entitled under Section 11.04 or 14.04 to receive benefits under the Plan upon the death of a Participant.

(h) **"Break in Vesting Service"** means, unless provided otherwise in the Adoption Agreement, a 12-consecutive-month period beginning on an Employee's Severance Date or any anniversary thereof in which the Employee is not credited with an Hour of Service. Notwithstanding the foregoing, the following special rules apply in determining whether an Employee who is on leave has incurred a Break in Vesting Service:

(1) If an individual is absent from work because of maternity/paternity leave on the first anniversary of his Severance Date, the 12-consecutive-month period beginning on the individual's Severance Date shall not constitute a Break in Vesting Service. For purposes of this paragraph, "maternity/paternity leave" means a leave of absence (i) by reason of the pregnancy of the individual, (ii) by reason of the birth of a

child of the individual, (iii) by reason of the placement of a child with the individual in connection with the adoption of such child by the individual, or (iv) for purposes of caring for a child for the period beginning immediately following such birth or placement.

(2) If an individual is absent from work because of FMLA leave and returns to employment with the Employer or a Related Employer following such FMLA leave, he shall not incur a Break in Vesting Service due to such FMLA leave. For purposes of this paragraph, "FMLA leave" means an approved leave of absence pursuant to the Family and Medical Leave Act of 1993.

(i) **"Catch-Up Contribution"** means any Deferral Contribution made to the Plan by the Employer in accordance with the provisions of Subsection 5.03(a).

(j) **"Code"** means the Internal Revenue Code of 1986, as amended from time to time.

(k) **"Compensation"** means the base compensation described in (1) below paid or made available to an Eligible Employee by the Employer (in the course of the Employer's trade or business) for services to the Employer as an Eligible Employee with the adjustments described in (2) below.

(1) Base Compensation. One of the following shall be elected by the Employer in Subsection 1.05(a) as the base compensation:

(A) The W-2 definition shall include wages as defined in Code Section 3401(a) (for purposes of income tax withholding at the source) plus amounts that would be included in wages but for an election under Code Section 125(a), 132(f)(4), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b) and all other payments of compensation to an Eligible Employee for which the Employer is required to furnish the Eligible Employee a written statement under Code Sections 6041(d), 6051(a)(3) and 6052. Compensation must be determined without regard to any rules under Code Section 3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in Code Section 3401(a)(2)).

(B) The Code Section 3401(a) wages definition shall include wages within the meaning of Code Section 3401(a) for the purposes of income tax withholding at the source but determined without regard to any rules that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in Code Section 3401(a)(2)) plus amounts that would be included in wages but for an election under Code Section 125(a), 132(f)(4), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b).

(C) The Code Section 415 definition shall include wages, salaries, and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the employer maintaining the plan to the extent that the amounts are includible in gross income (or would have been includible in gross income but for the Eligible Employee's election under Code Section 125, 132(f)(4), 402(e)(3), 402(h)(1)(B), 403(b), or 457(b)), including, but not limited to, commissions paid salespersons, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, and reimbursements, or other expense allowances under a nonaccountable plan (as described in Section 1.62-2(c)of the Income Tax Regulations), and excluding the following:

(i) Employer contributions (other than elective contributions described in Code Section 402(e)(3), 408(k)(6), 408(p)(2)(A)(i), or 457(b)) to a plan of deferred compensation (including a simplified employee pension described in Code Section 408(k) or a simple retirement account described in Code Section 408(p), and whether or not qualified) to the extent such contributions are not includible in the employee's gross income for the taxable year in which contributed, and any distributions (whether or not includible in gross income when distributed) from a plan of deferred compensation (whether or not qualified), other than, if the employer so elects in the Compensation Addendum to the Adoption Agreement, amounts received during the year by an

employee pursuant to a nonqualified unfunded deferred compensation plan to the extent includible in gross income;

(ii) Amounts realized from the exercise of a nonstatutory stock option (that is, an option other than a statutory stock option as defined in Section 1.421-1(b) of the Treasury Regulations), or when restricted stock (or property) held by the employee either becomes freely transferable or is no longer subject to a substantial risk of forfeiture;

(iii) Amounts realized from the sale, exchange or other disposition of stock acquired under a statutory stock option;

(iv) Other amounts that receive special tax benefits, such as premiums for group-term life insurance (but only to the extent that the premiums are not includible in the gross income of the employee and are not salary reduction amounts that are described in Code Section 125);

(v) Other items of remuneration that are similar to any of the items listed in (i) through (iv).

(2) Adjustments. Self-Employed Individuals will have the Compensation described in (A) below. Unless specifically excluded by the Employer's election in Subsection 1.05(b), the amounts described in (B) shall be included in Compensation. Additionally, Compensation excludes any amounts elected by the Employer in Subsection 1.05(b) or (c), as applicable, of the Adoption Agreement and any severance amounts (for purposes of this Subsection 2.01(j), "severance amounts" are amounts paid after severance from employment except any such amounts described in (B) below). Deemed Code Section 125 compensation (amounts under a plan of the Employer that are not available to a Participant in cash in lieu of group health coverage, because the Participant is unable to certify that he has other health coverage) shall only be included in the definition of Compensation if so elected by the Employer on the Compensation Addendum to the Adoption Agreement.

(A) Self-Employed Individuals. Notwithstanding the foregoing, for any Self-Employed Individual, Compensation means Earned Income; provided, however, that if the Employer elects to exclude specified items from Compensation, such Earned Income shall be adjusted in a similar manner so that it is equivalent under regulations issued under Code Section 414(s) to Compensation for Participants who are not Self-Employed Individuals. "Earned Income" means the net earnings of a Self-Employed Individual derived from the trade or business with respect to which the Plan is established and for which the personal services of such individual are a material income-providing factor, excluding any items not included in gross income and the deductions allocated to such items, except that net earnings shall be determined with regard to the deduction allowed under Code Section 164(f), to the extent applicable to the Employer. Net earnings shall be reduced by contributions of the Employer to any qualified plan, to the extent a deduction is allowed to the Employer for such contributions under Code Section 404.

(B) Includable Amounts. Unless otherwise elected by the Employer in Subsection 1.05(b) or (c), as applicable, of the Adoption Agreement, Compensation includes the following:

(i) Differential Wages as defined below; and

(ii) any of the following, provided payment is made within the post-severance period defined below:

(I) a payment of regular compensation for services during the Eligible Employee's regular working hours, or compensation for services outside the Eligible Employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments to the extent such payment would have been made prior to a severance from employment if the Eligible Employee had continued in employment with the Employer;

(II) payments for "unused leave" (i.e., unused accrued bona fide sick, vacation, or other leave, but only if the Eligible Employee would have been able to use the leave if employment had continued); and

(III) payments received by a Participant pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid to the Participant at the same time if the Participant had not severed employment and only to the extent that the payment is includible in the Participant's gross income.

The following terms have the following meanings:

(C) An Eligible Employee has a "severance from employment" when (i) the employee ceases to be an employee of an employer (applying the aggregation rules in Code Section 414) maintaining a plan and (ii) in connection with a change of employment, the individual's new employer does not maintain such plan with respect to the individual. The determination of whether an Eligible Employee ceases to be an employee of an employer maintaining a plan is based on all of the relevant facts and circumstances.

(D) "Differential Wages" means Compensation paid to an Employee by the Employer with regard to military service meeting the definition of differential wage payment found in Code Section 3401(h)(2).

(E) The "post-severance period" means the period beginning on the Eligible Employee's severance from employment and ending on the later of (i) 2-1/2 months after or (ii) the end of the Limitation Year that includes the date of the Eligible Employee's severance from employment.

(3) Timing Rules. Compensation shall generally be based on the amount actually paid or made available to the Eligible Employee during the Plan Year or, for purposes of Article 5, if so elected by the Employer in Subsection 1.05(c) of the Adoption Agreement, during that portion of the Plan Year during which the Eligible Employee is an Active Participant. Compensation is treated as paid on a date if it is actually paid on that date or it would have been paid on that date but for an election under Code Section 125, 132(f)(4), 401(k), 403(b), 408(k), 408(p)(2)(A)(i), or 457(b). If the Plan Year and the Limitation Year are based on the same 12-month period, Compensation may include amounts earned, but not paid during the Plan Year solely because of the timing of pay periods and pay dates, provided:

(A) such amounts are paid during the first few weeks of the next Plan Year;

(B) such amounts are included on a uniform and consistent basis with respect to all similarly situated Participants; and

(C) no such amounts are included in more than one Plan Year.

(4) Short Plan Years. If the initial Plan Year of a new plan consists of fewer than 12 months, calculated from the Effective Date listed in Subsection 1.01(g)(1) of the Adoption Agreement through the end of such initial Plan Year, Compensation for such initial Plan Year shall be determined from such Effective Date through the end of the initial Plan Year. Notwithstanding the foregoing, if selected in Subsection 1.05 of the Adoption Agreement, for purposes of allocating Nonelective Employer Contributions under Section 1.12 of the Adoption Agreement (other than 401(k) Safe Harbor Nonelective Employer Contributions), Compensation for the initial Plan Year shall be determined by using the 12-month period ending on the last day of the Plan Year.

(5) Annual Compensation Limit (Code Section 401(a)(17) Limit). The annual Compensation of each Active Participant taken into account for determining benefits provided under the Plan for any 12-month determination period shall not exceed the annual Compensation limit under Code Section 401(a)(17) as in effect on the first day of the determination period (e.g., $275,000 for determination periods beginning in 2018). A "determination period" means the Plan Year or other 12-consecutive-month period over which Compensation is otherwise determined for purposes of the Plan (e.g., the Limitation Year).

The annual Compensation limit under Code Section 401(a)(17) shall be adjusted by the Secretary to reflect increases in the cost of living, as provided in Code Section 401(a)(17)(B); provided, however, that the dollar increase in effect on January 1 of any calendar year is effective for determination periods beginning in such calendar year. If a Plan determines Compensation over a determination period that contains fewer than 12 calendar months (a "short determination period"), then the Compensation limit for such "short determination period" is equal to the Compensation limit for the calendar year in which the "short determination period" begins multiplied by the ratio obtained by dividing the number of months (counting any portion of a month as a whole month) in the "short determination period" by 12; provided, however, that such proration shall not apply if there is a "short determination period" due to the Employer's election in Subsection 1.05(c) of the Adoption Agreement to determine contributions based only on Compensation paid during the portion of the Plan Year during which an individual was an Active Participant.

Rather than requiring an Active Participant to cease making Deferral Contributions for a Plan Year after his Compensation has reached the annual Compensation limit under Code Section 401(a)(17), an Active Participant may make Deferral Contributions until his total Deferral Contributions for a Plan Year equals the product of (i) such Active Participant's Compensation for the Plan Year up to the annual Compensation limit multiplied by (ii) the deferral limit specified in Subsection 1.07(a)(1)(A) of the Adoption Agreement or Subsection 5.03(a), as applicable. Also, rather than requiring an Active Participant to cease making Employee Contributions once the annual Compensation limit is reached, an Active Participant may make Employee Contributions until his total Employee Contributions for a Plan Year equals the product of (i) such Active Participant's Compensation for the Plan Year up to the annual Compensation limit multiplied by (ii) the contribution limit specified in Subsection 1.08(a) of the Adoption Agreement or Section 6.05, as applicable.

(l) **"Contribution Period"** means the period for which Matching Employer and Nonelective Employer Contributions are made and calculated. The Contribution Period for Matching Employer Contributions described in Subsection 1.11 of the Adoption Agreement is the period specified by the Employer in Subsection 1.11(d) of the Adoption Agreement.

The Contribution Period for Nonelective Employer Contributions is the Plan Year, unless the Employer designates a different Contribution Period in Subsection 1.12(c) of the Adoption Agreement.

(m) **"Deferral Contribution"** means any contribution made to the Plan by the Employer in accordance with the provisions of Section 5.03.

(n) **"Early Retirement Age"** means the early retirement age specified in Subsection 1.14(b) of the Adoption Agreement, if any.

(o) **"Effective Date"** means the effective date specified by the Employer in Subsection 1.01(g)(1). The Employer may select special Effective Dates with respect to specified Plan provisions, as set forth in Section (a) of the Special Effective Dates Addendum to the Adoption Agreement. In the event that another plan is merged into and made a part of the Plan, the effective date of the merger shall be reflected in the Plan Mergers Addendum to the Adoption Agreement. Any Effective Date which is given in the Plan shall be construed to mean that the prior provision or merging plan existed until the last minute of the last day prior to that Effective Date and that the new provision or merger is effective on the first minute of the stated Effective Date.

(p) **"Eligibility Computation Period"** means each 12-consecutive-month period beginning with an Employee's Employment Commencement Date and each anniversary thereof.

(q) **"Eligibility Service"** means an Employee's service that is taken into account in determining his eligibility to participate in the Plan as may be required under Subsection 1.04(b) of the Adoption Agreement. Eligibility Service shall be credited in accordance with Article 3.

(r) **"Eligible Employee"** means any Employee of the Employer who is in the class of Employees eligible to participate in the Plan. The Employer must specify in Subsection 1.04(d) of the Adoption Agreement any Employee or class of Employees not eligible to participate in the Plan. Regardless of the provisions of Subsection 1.04(d), the following Employees are automatically excluded from eligibility to participate in the Plan:

(1) any individual who is a signatory to a contract, letter of agreement, or other document that acknowledges his status as an independent contractor not entitled to benefits under the Plan or any individual (other than a Self-Employed Individual) who is not otherwise classified by the Employer as a common law employee, even if such independent contractor or other individual is later determined to be a common law employee; and

(2) any Employee who is a resident of Puerto Rico.

If the Employer elects, in Subsection 1.04(d)(2)(A) of the Adoption Agreement, to exclude collective bargaining employees from the eligible class, the exclusion applies to any Employee of the Employer included in any unit of Employees covered by a collective bargaining agreement between employee representatives and one or more employers, unless the collective bargaining agreement requires the Employee to be covered under the Plan. The term "employee representatives" does not include any organization more than half the members of which are owners, officers, or executives of the Employer.

If the Employer does not elect, in Subsection 1.04(d)(2)(C) of the Adoption Agreement, to exclude Leased Employees from the eligible class, contributions or benefits provided by the leasing organization which are attributable to services performed for the Employer shall be treated as provided by the Employer and there shall be no duplication of benefits under this Plan.

Anything to the contrary herein notwithstanding, unless the Employer elects to exclude statutory employees who are full-time life insurance salespersons (as described in Code Section 7701(a)(20)) from the eligible class in Subsection 1.04(d)(2)(E) of the Adoption Agreement, such statutory employees are Eligible Employees.

(s) **"Employee"** means any common law employee (or statutory employee who is a full-time life insurance salesperson as described in Code Section 7701(a)(20)) of the Employer or a Related Employer, any Self-Employed Individual, and any Leased Employee. Notwithstanding the foregoing, a Leased Employee shall not be considered an Employee if Leased Employees do not constitute more than 20 percent of the Employer's non-highly compensated work-force (taking into account all Related Employers) and the Leased Employee is covered by a money purchase pension plan maintained by the leasing organization and providing (1) a nonintegrated employer contribution rate of at least 10 percent of compensation, as defined for purposes of Code Section 415(c)(3), (2) full and immediate vesting, and (3) immediate participation by each employee of the leasing organization.

(t) **"Employee Contribution"** means any after-tax contribution made by an Active Participant to the Plan.

(u) **"Employer"** means the employer named in Subsection 1.02(a) of the Adoption Agreement and any Related Employer designated in the Participating Employers Addendum to the Adoption Agreement. If the Employer has elected in Subsection (c) of the Participating Employers Addendum to the Adoption Agreement that the term "Employer" includes all Related Employers, an employer that becomes a Related Employer as a result of an asset or stock acquisition, merger or other similar transaction shall not be included in the term "Employer" for periods prior to the first day of the second Plan Year beginning after the date of such transaction, unless the Employer has designated therein to accept such Related Employer as a participating employer prior to that date. Notwithstanding the foregoing, the term "Employer" for purposes of authorizing any particular action under the Plan means solely the employer named in Subsection 1.02(a).

If the organization or other entity named in the Adoption Agreement is a sole proprietor or a professional corporation and the sole proprietor of such proprietorship or the sole shareholder of the professional corporation dies, then the legal representative of such sole proprietor or shareholder shall be deemed to be the Employer until such time as, through the disposition of such sole proprietor's or sole shareholder's estate or otherwise, any organization or other entity succeeds to the interests of the sole proprietor in the proprietorship or the sole shareholder in the professional corporation. The legal representative of a sole proprietor or shareholder shall be (1) the person appointed as such by the sole proprietor or shareholder prior to his death under a legally enforceable power of attorney, or, if none, (2) the executor or administrator of the sole proprietor's or shareholder's estate.

If a participating Employer designated through Subsection 1.02(b) of the Adoption Agreement is not related to the Employer (hereinafter "un-Related Employer"), the term "Employer" includes such un-Related Employer and the provisions of Section 18.05 shall apply.

(v) **"Employment Commencement Date"** means the date on which an Employee first performs an Hour of Service.

(w) **"Entry Date"** means the date(s) specified by the Employer in Subsection 1.04(e) of the Adoption Agreement as of which an Eligible Employee who has met the applicable eligibility requirements begins to participate in the Plan. The Employer may specify different Entry Dates for purposes of eligibility to participate in the Plan for purposes of (1) making Deferral Contributions and (2) receiving allocations of Matching and/or Nonelective Employer Contributions.

(x) **"ERISA"** means the Employee Retirement Income Security Act of 1974, as from time to time amended.

(y) "**401(k) Safe Harbor Matching Employer Contribution"** means any Matching Employer Contribution made by the Employer to the Plan in accordance with Subsection 1.11(a)(3) or the Matching Employer Contributions Addendum to the Adoption Agreement, Section 5.08, and Section 6.09, that is intended to satisfy the requirements of Code Section 401(k)(12)(B) or 401(k)(13)(D)(i)(I). 401(k) Safe Harbor Matching Employer Contributions are subject to the same distribution restrictions as Qualified Matching Employer Contributions pursuant to applicable regulations and will only satisfy the "ACP" test if the requirements of Section 6.10 are met.

(z) "**401(k) Safe Harbor Nonelective Employer Contribution"** means any Nonelective Employer Contribution made by the Employer to the Plan in accordance with Subsection 1.12(a)(3) or the Nonelective Employer Contributions Addendum to the Adoption Agreement, Section 5.10, and Section 6.09, that is intended to satisfy the requirements of Code Section 401(k)(12)(C) or 401(k)(13)(D)(i)(II). 401(k) Safe Harbor Nonelective Employer Contributions are subject to the same distribution restrictions as Qualified Nonelective Employer Contributions pursuant to applicable regulations and will only satisfy the "ACP" test if the requirements of Section 6.10 are met.

(aa) **"Fund Share"** means the share, unit, or other evidence of ownership in a Permissible Investment.

(bb) **"Highly Compensated Employee"** means both highly compensated active Employees and highly compensated former Employees.

A highly compensated active Employee includes any Employee who performs service for the Employer during the "determination year" and who (1) at any time during the "determination year" or the "look-back year" was a five percent owner or (2) received "415 Compensation" (as defined in Section 6.01(m)) from the Employer during the "look-back year" in excess of the dollar amount specified in Code Section 414(q)(1)(B)(i) adjusted pursuant to Code Section 415(d) (e.g., $120,000 for "determination years" beginning in 2018 and "look-back years" beginning in 2017) and, if elected by the Employer in Subsection 1.06(d)(1) of the Adoption Agreement, was a member of the top-paid group for such year.

For this purpose, the "determination year" shall be the Plan Year. The "look-back year" shall be the twelve-month period immediately preceding the "determination year", unless the Employer has elected in Subsection 1.06(c)(1) of the Adoption Agreement to make the "look-back year" the calendar year beginning within the preceding Plan Year.

A highly compensated former Employee includes any Employee who separated from service (or was deemed to have separated) prior to the "determination year", performs no service for the Employer during the "determination year", and was a highly compensated active Employee for either the separation year or any "determination year" ending on or after the Employee's 55th birthday, as determined under the rules in effect for determining Highly Compensated Employees for such separation year or "determination year".

The determination of who is a Highly Compensated Employee, including the determinations of the number and identity of Employees in the top-paid group, shall be made in accordance with Code Section 414(q) and the Treasury Regulations issued thereunder.

For purposes of this Subsection 2.01(bb), if the initial Plan Year of a new plan consists of fewer than 12 months, calculated from the Effective Date listed in Subsection 1.01(g)(1) of the Adoption Agreement through the end of such initial Plan Year, Compensation for such initial Plan Year shall be determined over the 12-month period ending on the last day of the Plan Year.

(cc) **"Hour of Service"**, with respect to any individual, means:

(1) Each hour for which the individual is directly or indirectly paid, or entitled to payment, for the performance of duties for the Employer or a Related Employer, each such hour to be credited to the individual for the Eligibility Computation Period in which the duties were performed;

(2) Each hour for which the individual is directly or indirectly paid, or entitled to payment, by the Employer or a Related Employer (including payments made or due from a trust fund or insurer to which the Employer contributes or pays premiums) on account of a period of time during which no duties are performed (irrespective of whether the employment relationship has terminated) due to vacation, holiday, illness, incapacity, disability, layoff, jury duty, military duty, or leave of absence, each such hour to be credited to the individual for the Eligibility Computation Period in which such period of time occurs, subject to the following rules:

(A) No more than 501 Hours of Service shall be credited under this paragraph (2) on account of any single continuous period during which the individual performs no duties, unless the individual performs no duties because of military duty, the individual's employment rights are protected by law, and the individual returns to employment with the Employer or a Related Employer during the period that his employment rights are protected under Federal law;

(B) Hours of Service shall not be credited under this paragraph (2) for a payment which solely reimburses the individual for medically-related expenses, or which is made or due under a plan maintained solely for the purpose of complying with applicable worker's compensation, unemployment compensation or disability insurance laws; and

(C) If the period during which the individual performs no duties falls within two or more Eligibility Computation Periods and if the payment made on account of such period is not calculated on the basis of units of time, the Hours of Service credited with respect to such period shall be allocated between not more than the first two such Eligibility Computation Periods on any reasonable basis consistently applied with respect to similarly situated individuals;

(3) Each hour not counted under paragraph (1) or (2) for which he would have been scheduled to work for the Employer or a Related Employer during the period that he is absent from work because of military duty, provided the individual's employment rights are protected under Federal law and the individual returns to work with the Employer or a Related Employer during the period that his employment rights are protected, each such hour to be credited to the individual for the Eligibility Computation Period for which he would have been scheduled to work; and

(4) Each hour not counted under paragraph (1), (2), or (3) for which back pay, irrespective of mitigation of damages, has been either awarded or agreed to be paid by the Employer or a Related Employer, shall be credited to the individual for the Eligibility Computation Period to which the award or agreement pertains rather than the Eligibility Computation Period in which the award, agreement, or payment is made.

Hours of Service attributable to a predecessor employer pursuant to Section 3.05 shall be considered as Hours of Service attributable to the Employer. For purposes of paragraphs (2) and (4) above, Hours of Service shall be calculated in accordance with the provisions of Section 2530.200b-2(b) and (c) of the Department of Labor regulations, which are incorporated herein by reference.

If the Employer does not maintain records that accurately reflect the actual Hours of Service to be credited to an Employee, 190 Hours of Service will be credited to the Employee for each month worked, unless the Employer has elected to credit Hours of Service in accordance with one of the other equivalencies set forth in paragraph (e) of Department of Labor Regulation Section 2530.200b-3, as provided in the Eligibility, Service and Vesting Addendum to the Adoption Agreement.

(dd) **"Inactive Participant"** means any individual who was an Active Participant, but is no longer an Eligible Employee and who has an Account under the Plan.

(ee) **"Investment Fiduciary"** means the Administrator or another person or entity designated by the Employer in Subsection 1.01(c) of the Adoption Agreement having the responsibility for all investment-related decisions described throughout the Plan, other than those made by Participants and Beneficiaries pursuant to Section 1.24 of the Adoption Agreement.

(ff) **"Leased Employee"** means any individual who provides services to the Employer or a Related Employer (the "recipient") but is not otherwise an employee of the recipient if (1) such services are provided pursuant to an agreement between the recipient and any other person (the "leasing organization"), (2) such individual has performed services for the recipient (or for the recipient and any related persons within the meaning of Code Section 414(n)(6)) on a substantially full-time basis for at least one year, and (3) such services are performed under primary direction of or control by the recipient. The determination of who is a Leased Employee shall be made in accordance with any rules and regulations issued by the Secretary of the Treasury or his delegate.

(gg) **"Limitation Year"** means the 12-consecutive-month period designated by the Employer in Subsection 1.01(f) of the Adoption Agreement. If no other Limitation Year is designated by the Employer, the Limitation Year shall be the calendar year. All qualified plans of the Employer and any Related Employer must use the same Limitation Year. If the Limitation Year is amended to a different 12-consecutive-month period, the new Limitation Year must begin on a date within the Limitation Year in which the amendment is made.

(hh) **"Matching Employer Contribution"** means any contribution made by the Employer to the Plan in accordance with Section 5.08 or 5.09 on account of an Active Participant's eligible contributions, as elected by the Employer in Subsection 1.11(c) of the Adoption Agreement.

(ii) **"Nonelective Employer Contribution"** means any contribution made by the Employer to the Plan in accordance with Section 5.10.

(jj) **"Non-Highly Compensated Employee"** means any Employee who is not a Highly Compensated Employee.

(kk) **"Normal Retirement Age"** means the normal retirement age specified in Subsection 1.14(a) of the Adoption Agreement. If the Employer enforces a mandatory retirement age in accordance with Federal law, the Normal Retirement Age is the lesser of that mandatory age or the age specified in Subsection 1.14(a).

(ll) **"Participant"** means any individual who is either an Active Participant or an Inactive Participant.

(mm) **"Permissible Investment"** means each investment available for investment of assets of the Plan as generally described in the Service Agreement.

(nn) **"Plan"** means the plan established by the Employer in the form of the Pre-Approved Plan, as set forth herein as a new plan or as an amendment to an existing plan, by executing the Adoption Agreement, together with any and all amendments hereto.

(oo) **"Plan Year"** means the 12-consecutive-month period ending on the date designated in Subsection 1.01(d) of the Adoption Agreement, except that the initial Plan Year of a new Plan may consist of fewer than 12 months, calculated from the Effective Date listed in Subsection 1.01(g)(1) of the Adoption Agreement through the end of such initial Plan Year, in which event Compensation for such initial Plan Year shall be treated as provided in Subsection 2.01(k). Additionally, in the event the Plan has a short Plan year, *i.e.*, a Plan Year consisting of fewer than 12 months, otherwise applicable limits and requirements that are applied on a Plan Year basis shall be prorated, but only if and to the extent required by law.

(pp) **"Pre-Approved Plan"** means the Pre-Approved Provider’s plan as approved by the IRS.

(qq) **"Pre-Approved Plan Provider"** means FMR LLC or its successor.

(rr) **"Qualified Matching Employer Contribution"** means any contribution made by the Employer to the Plan on account of Deferral Contributions or Employee Contributions made by or on behalf of Active Participants in accordance with Section 5.09, that may be included in determining whether the Plan meets the "ADP" test described in Section 6.03.

(ss) **"Qualified Nonelective Employer Contribution"** means any contribution made by the Employer to the Plan in accordance with Section 5.07.

(tt) **"Reemployment Commencement Date"** means the date on which an Employee who terminates employment with the Employer and all Related Employers first performs an Hour of Service following such termination of employment.

(uu) **"Related Employer"** means any employer other than the Employer named in Subsection 1.02(a) of the Adoption Agreement if the Employer and such other employer are members of a controlled group of corporations (as defined in Code Section 414(b)) or an affiliated service group (as defined in Code Section 414(m)), or are trades or businesses (whether or not incorporated) which are under common control (as defined in Code Section 414(c)), or such other employer is required to be aggregated with the Employer pursuant to regulations issued under Code Section 414(o).

(vv) **"Required Beginning Date"** means:

(1) for a Participant who is not a five percent owner, April 1 of the calendar year following the calendar year in which occurs the later of (i) the Participant's retirement or (ii) the Participant's attainment of age 70 1/2; provided, however, that a Participant may elect to have his Required Beginning Date determined without regard to the provisions of clause (i).

(2) for a Participant who is a five percent owner, April 1 of the calendar year following the calendar year in which the Participant attains age 70 1/2.

Once the Required Beginning Date of a five percent owner or a Participant who has elected to have his Required Beginning Date determined in accordance with the provisions of Section 2.01(vv)(1)(ii) has occurred, such Required Beginning Date shall not be re-determined, even if the Participant ceases to be a five percent owner in a subsequent year or continues in employment with the Employer or a Related Employer.

For purposes of this Subsection 2.01(vv), a Participant is treated as a five percent owner if such Participant is a five percent owner as defined in Code Section 416(i) (determined in accordance with Code Section 416 but without regard to whether the Plan is top-heavy) at any time during the Plan Year ending with or within the calendar year in which such owner attains age 70 1/2.

(ww) **"Rollover Contribution"** means any distribution from an eligible retirement plan, as described in Section 5.06, that an Employee or Participant elects to contribute to the Plan, or have considered as contributed, in accordance with the provisions of Section 5.06.

(xx) **"Roth 401(k) Contribution"** means any Deferral Contribution made to the Plan by the Employer in accordance with the provisions of Subsection 5.03(b) that is not excludable from gross income and is intended to satisfy the requirements of Code Section 402A.

(yy) **"Self-Employed Individual"** means an individual who has Earned Income for the taxable year from the Employer or who would have had Earned Income but for the fact that the trade or business had no net profits for the taxable year, including, but not limited to, a partner in a partnership, a sole proprietor, a member in a limited liability company or a shareholder in a subchapter S corporation.

(zz) **"Service Agreement"** means the agreement between the Employer and the Pre-Approved Plan Provider (or an agent or affiliate of the Pre-Approved Plan Provider) relating to the provision of investment and other services to the Plan and shall include any addendum to the agreement and any other separate written agreement between the Employer and the Pre-Approved Plan Provider (or an agent or affiliate of the Pre-Approved Plan Provider) relating to the provision of services to the Plan.

(aaa) **"Severance Date"** means the earlier of (i) the date an Employee retires, dies, quits, or is discharged from employment with the Employer and all Related Employers or (ii) the 12-month anniversary of the date on which the Employee was otherwise first absent from employment; provided, however, that if an individual terminates or is absent from employment with the Employer and all Related Employers because of military duty, such individual shall not incur a Severance Date if his employment rights are protected under Federal law and he returns to employment with the Employer or a Related Employer within the period during which he retains such employment

rights, but, if he does not return to such employment within such period, his Severance Date shall be the earlier of (1) the first anniversary of the date his absence commenced or (2) the last day of the period during which he retains such employment rights.

(bbb) **"Spouse"** means the person to whom an individual is married for purposes of Federal income taxes.

(ccc) **"Trust"** means the trust created by the Employer and the Trustee to hold the assets of the Plan. The provisions of the Plan override any conflicting provision contained in the Trust or any other custodial account or trust documents used with the Plan.

(ddd) **"Trust Agreement"** means the separate agreement between the Employer and the Trustee under which the assets of the Plan are held, administered, and managed.

(eee) **"Trustee"** means the individual(s) or entity designated as the Trustee under the Trust Agreement, or its successor or permitted assigns. The term Trustee shall include any delegate of the Trustee as may be provided in the Trust Agreement.

(fff) **"Trust Fund"** means the property held in Trust by the Trustee for the benefit of Participants and their Beneficiaries.

(ggg) **"Vesting Service"** means an Employee's service that is taken into account in determining his vested interest in his Matching Employer and Nonelective Employer Contributions sub-accounts as may be required under Section 1.16 of the Adoption Agreement. Vesting Service shall be credited in accordance with Article 3.

2.02. Interpretation and Construction of Terms. Where required by the context, the noun, verb, adjective, and adverb forms of each defined term shall include any of its other forms. Pronouns used in the Plan are in the masculine gender but include all individuals. Wherever used herein, the singular shall include the plural, and the plural shall include the singular, unless the context requires otherwise. Any titles, headings and/or subheadings used in the Plan have been inserted for convenience of reference and are to be ignored in any construction of the Plan's provisions.

2.03. Special Effective Dates. Some provisions of the Plan are only effective beginning as of a specified date or until a specified date. Any such special effective dates are specified within Plan text where applicable and are exceptions to the general Plan Effective Date as defined in Section 2.01(o).

Article 3. Service.

3.01. Crediting of Eligibility Service. If the Employer has selected an Eligibility Service requirement in Subsection 1.04(b) of the Adoption Agreement for an Eligible Employee to become an Active Participant, Eligibility Service shall be credited to an Employee as follows:

(a) If the Employer has selected the one year or two years requirement, an Employee shall be credited with a year of Eligibility Service for each Eligibility Computation Period during which the Employee has been credited with the number of Hours of Service specified in that Subsection, as applicable. An Eligible Employee who has attained the required number of Hours of Service shall be credited with that year of service on the last day of that Eligibility Computation Period. When the Employer has selected an eligibility requirement with a specified number of Hours of Service, such Hours of Service must be attained during an Eligibility Computation Period.

(b) If the Employer has specified a number of months which requires a minimum number of Hours of Service during the Eligibility Computation Period as the requirement, an Employee shall be credited with Eligibility Service for each Eligibility Computation Period during which the Employee has been credited with the number of months specified within which the requisite number of Hours of Service has been earned or has earned the maximum number of Hours of Service specified, as applicable.

(c) If the Employer has selected a days or months requirement which does not require a minimum number of Hours of Service during the Eligibility Computation Period, an Employee shall be credited with Eligibility Service for the aggregate of the periods beginning with the Employee's Employment Commencement Date (or Reemployment Commencement Date) and ending on his subsequent Severance Date; provided, however, that an Employee who has a Reemployment Commencement Date within the 12-consecutive-month period following the earlier of the first date of his absence or his Severance Date shall be credited with Eligibility Service for the period

between his Severance Date and his Reemployment Commencement Date. A day of Eligibility Service shall be credited for each day on which an Employee is credited with Eligibility Service. Months of Eligibility Service shall be measured from the Employee's Employment Commencement Date or Reemployment Commencement Date to the corresponding date in the applicable following month.

3.02. Re-Crediting of Eligibility Service Following Termination of Employment. An Employee whose employment with the Employer and all Related Employers terminates and who is subsequently reemployed by the Employer or a Related Employer shall be re-credited upon reemployment with his Eligibility Service earned prior to his termination of employment.

3.03. Crediting of Vesting Service. If the Plan provides for Matching Employer and/or Nonelective Employer Contributions that are not 100 percent vested when made, Vesting Service shall be credited to an Employee, subject to any modifications elected by the Employer in Section 1.16 of the Adoption Agreement, for the aggregate of the periods beginning with the Employee's Employment Commencement Date (or Reemployment Commencement Date) and ending on his subsequent Severance Date; provided, however, that an Employee who has a Reemployment Commencement Date within the 12-consecutive-month period following the earlier of the first date of his absence or his Severance Date shall be credited with Vesting Service for the period between his Severance Date and his Reemployment Commencement Date. Fractional periods of a year shall be expressed in terms of days.

3.04. Application of Vesting Service to a Participant's Account Following a Break in Vesting Service. The following rules describe how Vesting Service earned before and after a Break in Vesting Service shall be applied for purposes of determining a Participant's vested interest in his Matching Employer and Nonelective Employer Contributions sub-accounts:

(a) If a Participant incurs five-consecutive Breaks in Vesting Service, all years of Vesting Service earned by the Employee after such Breaks in Service shall be disregarded in determining the Participant's vested interest in his Matching Employer and Nonelective Employer Contributions sub-account balances attributable to employment before such Breaks in Vesting Service. However, Vesting Service earned both before and after such Breaks in Vesting Service shall be included in determining the Participant's vested interest in his Matching Employer and Nonelective Employer Contributions sub-account balances attributable to employment after such Breaks in Vesting Service.

(b) If a Participant incurs fewer than five-consecutive Breaks in Vesting Service, Vesting Service earned both before and after such Breaks in Vesting Service shall be included in determining the Participant's vested interest in his Matching Employer and Nonelective Employer Contributions sub-account balances attributable to employment both before and after such Breaks in Vesting Service.

3.05. Service with Predecessor Employer. If the Plan is the plan of a predecessor employer, an Employee's Eligibility and Vesting Service shall include years of service with such predecessor employer. If elected in Section 1.17 of the Adoption Agreement, in any case in which the Plan is not the plan maintained by a predecessor employer, service for any employer described in Section 1.17 shall be treated as Eligibility and Vesting Service as indicated therein.

3.06. Change in Service Crediting. Unless provided otherwise in the Adoption Agreement, if an amendment to the Plan or a transfer from employment as an Employee covered under another qualified plan maintained by the Employer or a Related Employer results in a change in the method of crediting Eligibility and/or Vesting Service with respect to a Participant between the Hours of Service crediting method set forth in Section 2530.200b-2 of the Department of Labor Regulations and the elapsed-time crediting method set forth in Section 1.410(a)-7 of the Treasury Regulations, each Participant with respect to whom the method of crediting Eligibility and/or Vesting Service is changed shall have his Eligibility and/or Vesting Service determined in the manner set forth in Section 1.410(a)-7(f)(1) of the Treasury Regulations.

Article 4. Participation.

4.01. Date of Participation. If the Plan is an amendment, as indicated in Subsection 1.01(g)(2)(B) of the Adoption Agreement, all employees who were active participants in the Plan immediately prior to the Effective Date shall continue as Active Participants on the Effective Date, provided that they are Eligible Employees on the Effective Date. If elected by the Employer in Subsection 1.04(f) of the Adoption Agreement, all Eligible Employees who are in the service of the Employer on the date specified in Subsection 1.04(f) (and, if this is an amendment, as indicated in Subsection 1.01(g)(2)(B), were not active participants in the Plan immediately prior to that date) shall become Active Participants on the date elected by the Employer in Subsection 1.04(f). Any other Eligible Employee shall become an Active Participant in the Plan on the Entry

Date coinciding with or immediately following the date on which he first satisfies the eligibility requirements set forth in Subsections 1.04(a) and (b) of the Adoption Agreement.

Any age and/or Eligibility Service requirement that the Employer elects to apply in determining an Eligible Employee's eligibility to make Deferral Contributions shall also apply in determining an Eligible Employee's eligibility to make Employee Contributions, if Employee Contributions are permitted under the Plan, and to receive Qualified Nonelective Employer Contributions. An Eligible Employee who has met the eligibility requirements with respect to certain contributions, but who has not met the eligibility requirements with respect to other contributions, shall become an Active Participant in accordance with the provisions of the preceding paragraph, but only with respect to the contributions for which he has met the eligibility requirements.

Notwithstanding any other provision of the Plan, if the Employer selects in Subsection 1.01(g)(5) of the Adoption Agreement that the Plan is a frozen plan, no Employee who was not already an Active Participant on the date the Plan was frozen shall become an Active Participant while the Plan is frozen. If the Employer amends the Plan to remove the freeze, Employees shall again become Active Participants in accordance with the provisions of the amended Plan.

4.02. Transfers Out of Covered Employment. If any Active Participant ceases to be an Eligible Employee, but continues in the employ of the Employer or a Related Employer, such Employee shall cease to be an Active Participant, but shall continue as an Inactive Participant until his entire Account balance is forfeited or distributed. An Inactive Participant shall not be entitled to receive an allocation of contributions or forfeitures under the Plan for the period that he is not an Eligible Employee and wages and other payments made to him by the Employer or a Related Employer for services other than as an Eligible Employee shall not be included in Compensation for purposes of determining the amount and allocation of any contributions to the Account of such Inactive Participant. Such Inactive Participant shall continue to receive credit for Vesting Service completed during the period that he continues in the employ of the Employer or a Related Employer.

4.03. Transfers Into Covered Employment. If an Employee who is not an Eligible Employee becomes an Eligible Employee, such Eligible Employee shall become an Active Participant immediately as of his transfer date if such Eligible Employee has already satisfied the eligibility requirements and would have otherwise previously become an Active Participant in accordance with Section 4.01. Otherwise, such Eligible Employee shall become an Active Participant in accordance with Section 4.01.

Wages and other payments made to an Employee prior to his becoming an Eligible Employee by the Employer or a Related Employer for services other than as an Eligible Employee shall not be included in Compensation for purposes of determining the amount and allocation of any contributions to the Account of such Eligible Employee.

4.04. Resumption of Participation Following Reemployment. If a Participant who terminates employment with the Employer and all Related Employers is reemployed as an Eligible Employee, he shall again become an Active Participant on his Reemployment Commencement Date. If a former Employee is reemployed as an Eligible Employee on or after an Entry Date coinciding with or following the date on which he met the age and service requirements elected by the Employer in Section 1.04 of the Adoption Agreement, he shall become an Active Participant on his Reemployment Commencement Date. Any other former Employee who is reemployed as an Eligible Employee shall become an Active Participant as provided in Section 4.01 or 4.03. Any distribution which a Participant is receiving under the Plan at the time he is reemployed by the Employer or a Related Employer shall cease, except as otherwise required under Section 12.04.

Article 5. Contributions.

5.01. Contributions Subject to Limitations. All contributions made to the Plan under this Article 5 shall be subject to the limitations contained in Article 6.

5.02. Compensation Taken into Account in Determining Contributions. Compensation for purposes of determining contributions other than minimum contributions described in Section 15.03 shall be determined in accordance with Section 1.05 of the Adoption Agreement.

5.03. Deferral Contributions. If so provided in Subsection 1.07(a) of the Adoption Agreement, each Active Participant may elect to execute a salary reduction agreement with the Employer to reduce his Compensation by an amount, as specified in Subsection 1.07(a), for each payroll period or to reduce some portion of his Compensation in accordance with procedures determined by the Administrator which shall be uniform and nondiscriminatory with regard to all Participants (except as permitted pursuant to Section 6.05). Except as specifically elected by the Employer within Subsections 1.07(a) with respect

to each payroll period, an Active Participant may not elect to make Deferral Contributions in excess of the percentage of Compensation specified by the Employer in Subsection 1.07(a)(1)(A) and Subsection 5.03(a) below. Notwithstanding the foregoing, if the Employer has elected 401(k) Safe Harbor Matching Contributions in Option 1.11(a)(3) of the Adoption Agreement, a Participant must be permitted to make Deferral Contributions under the Plan sufficient to receive the full 401(k) Safe Harbor Matching Employer Contribution provided under such Option and/or the Matching Employer Contributions Addendum to the Adoption Agreement, as applicable. To satisfy the ADP and/or ACP tests (described in Article 6) on the basis of 401(k) Safe Harbor Matching Employer Contributions, the Plan may not limit Deferral Contributions except as permitted under Treasury Regulations Section 1.401(k)-3(c)(6).

An Active Participant's salary reduction agreement shall become effective on the first day of the first payroll period for which the Employer can reasonably process the request, but not earlier than the later of (a) the effective date of the provisions permitting Deferral Contributions or (b) the date the Employer adopts such provisions. The Employer shall make a Deferral Contribution on behalf of the Participant corresponding to the amount of said reduction. Under no circumstances may a salary reduction agreement be adopted retroactively.

An Active Participant may elect to change or discontinue the amount by which his Compensation is reduced by notice to the Employer as provided in Subsection 1.07(a)(1)(C) or (D). Notwithstanding the Employer's election in Subsection 1.07(a)(1)(C) or (D), if the Employer has elected 401(k) Safe Harbor Matching Employer Contributions in Subsection 1.11(a)(3) or 401(k) Safe Harbor Nonelective Employer Contributions in Subsection 1.12(a)(3) of the Adoption Agreement, an Active Participant may elect to change or discontinue the amount by which his Compensation is reduced by notice to the Employer within a reasonable period, as specified by the Employer (but not less than 30 days), of receiving the notice described in Section 6.09.

Based upon the Employer's elections in Subsection 1.07(a), the following special types of Deferral Contributions may be made to the Plan:

(a) Catch-Up Contributions. If elected by the Employer in Subsection 1.07(a)(2) of the Adoption Agreement, an Active Participant who has attained or is expected to attain age 50 before the close of the taxable year shall be eligible to make Catch-Up Contributions to the Plan in excess of an otherwise applicable Plan limit, but not in excess of (i) the dollar limit in effect under Code Section 414(v)(2)(B)(i) for the taxable year or (ii) when added to the other Deferral Contributions made by the Participant for the taxable year, the limit specified in 1.07(a)(2), which cannot exceed 100 percent of the Participant's "effectively available Compensation," as defined in this Section 5.03. An otherwise applicable Plan limit is a limit that applies to Deferral Contributions without regard to Catch-Up Contributions, including, but not limited to, (1) the dollar limitation on Deferral Contributions under Code Section 402(g), described in Section 6.02, (2) the limitations on annual additions in effect under Code Section 415, described in Section 6.12, (3) the limitation on Deferral Contributions for Highly Compensated Employees under Code Section 401(k)(3), described in Section 6.03, and (4) the limitation on Deferral Contributions for Highly Compensated Employees which the Administrator may impose, in accordance with the provisions of Section 6.05

In the event that the deferral limit described in Subsection 1.07(a)(1)(A) or the administrative limit described in Section 6.05, as applicable, is changed during the Plan Year, for purposes of determining Catch-Up Contributions for the Plan Year, such limit shall be determined using the time-weighted average method described in Section 1.414(v)-1(b)(2)(i)(B)(1) of the Treasury Regulations, applying the alternative definition of compensation permitted under Section 1.414(v)-1(b)(2)(i)(B)(2) of the Treasury Regulations.

(b) Roth 401(k) Contributions. Notwithstanding any other provision of the Plan to the contrary, if the Employer elects in Subsection 1.07(a)(3) of the Adoption Agreement to permit Roth 401(k) Contributions, then a Participant may irrevocably designate all or a portion of his Deferral Contributions made pursuant to Subsection 1.07(a) as Deferral Contributions that are includible in the Participant’s gross income at the time deferred, pursuant to Code Section 402A and any applicable guidance or regulations issued thereunder (“Roth 401(k) Contributions”). A Participant may change his designation prospectively with respect to future Deferral Contributions as of the date or dates elected by the Employer in Subsection 1.07(a)(1)(C). The Administrator will maintain all such contributions made pursuant to Code Section 402A separately and make distributions in accordance with the Plan unless required to do otherwise by Code Section 402A and any applicable guidance or regulations issued thereunder.

(c) Automatic Enrollment Contributions. If the Employer elected Option 1.07(a)(4) of the Adoption Agreement, for each Eligible Employee to whom the Employer has elected to apply the automatic enrollment

contribution provisions, such Eligible Employee's Compensation shall be reduced as soon as administratively feasible in accordance with the Administrator's separate written procedures and the Automatic Enrollment Addendum, if applicable. The Administrator's separate procedures shall be drafted to be in accord with the Automatic Enrollment Addendum, if applicable, and cover specifics surrounding automatic enrollment (including but not limited to, deferral and increase rates and timing, differences among different groups of employees and coverage for an EACA). The Administrator's separate procedures may provide that a Participant's affirmative election out of automatic enrollment expires annually and, in such case, if a Participant fails to complete a new affirmative election subsequent to their prior election expiring, the Participant becomes subject to the default deferral percentage as outlined in the Administrator's separate procedures; provided, however, that each year, the Participant can always complete a new affirmative election and designate a new deferral percentage. These amounts shall be contributed to the Plan on behalf of such an Eligible Employee as Deferral Contributions. If the Employer has designated in Subsection 1.07(a)(4)(B) that the Plan has an EACA, then the Employer shall also provide to each Eligible Employee covered by the EACA a comprehensive notice, written in a manner calculated to be understood by the average Participant, of the Eligible Employee's rights and obligations under the Plan within the time described in Section 6.09 for a safe harbor contribution notice. If the Employer has elected through the Automatic Enrollment Addendum, then a Participant who has made automatic enrollment contributions pursuant to the EACA has a permissible withdrawal available pursuant to the following:

(1) The EACA Participant must make any such election within ninety days of the date of his automatic enrollment indicated therein. Upon making such an election, the EACA Participant's Deferral Contribution election will be set to zero until such time as the EACA Participant's Deferral Contribution rate has changed pursuant to Subsection 1.07(a)(1).

(2) The amount of such withdrawal shall be equal to the amount of the EACA Deferrals through the end of the fifteen-day period beginning on the date the Participant makes the election described in (1) above, adjusted for allocable gains and losses to the date of such withdrawal.

(3) Any amounts attributable to Employer Matching Contributions allocated to the Account of an EACA Participant with respect to EACA Deferrals that have been withdrawn pursuant to such permissible withdrawal shall be forfeited. In the event that Employer Matching Contributions would otherwise be allocated to the EACA Participant's Account with respect to EACA Deferrals that have been so withdrawn, the Employer shall not contribute such Employer Matching Contributions to the Plan.

(4) In the event such withdrawal provision is removed from the Plan via an amendment, the transaction continues to be available to EACA Participants who were covered by this provision and who were enrolled automatically prior to the effective date of the provision's removal.

Except as provided in paragraph (1) above with respect to an EACA Participant who elects a permissible withdrawal, an Active Participant's Compensation shall continue to be reduced and Deferral Contributions made to the Plan on his behalf until the Active Participant elects to change or discontinue the percentage by which his Compensation is reduced by notice to the Plan Administrator in accordance with procedures the Plan Administrator has developed for that purpose. An Eligible Employee may affirmatively elect not to have his Compensation reduced in accordance with this Subsection 5.03(c) by notice to the Plan Administrator within a reasonable period ending no later than the date Compensation subject to reduction hereunder becomes available to the Eligible Employee.

Notwithstanding any other provision of this Section or of any Participant's salary reduction agreement, in no event shall a Participant be permitted to make Deferral Contributions in excess of his "effectively available Compensation." A Participant's "effectively available Compensation" is his Compensation remaining after all applicable amounts have been withheld (e.g., tax-withholding and withholding of contributions to a cafeteria plan).

5.04. Employee Contributions. If so provided by the Employer in Subsection 1.08(a) of the Adoption Agreement, each Active Participant may elect to make non-deductible Employee Contributions to the Plan in accordance with the rules and procedures established by the Employer and subject to the limits provided through Subsection 1.08(a).

5.05. No Deductible Employee Contributions. No deductible Employee Contributions may be made to the Plan. Deductible Employee Contributions made prior to January 1, 1987 shall be maintained in a separate sub-account. No part of the deductible Employee Contributions sub-account shall be used to purchase life insurance.

5.06. Rollover Contributions. If so provided by the Employer in Subsection 1.09 of the Adoption Agreement, subject to any limits or modifications provided therein, an Eligible Employee or Participant who is or was entitled to receive a distribution that is eligible for rollover to a qualified plan under Code Section 408(d)(3) or an eligible rollover distribution, as defined in Code Section 402(c)(4) and Treasury Regulations issued thereunder, including an eligible rollover distribution received by such Eligible Employee or Participant as a surviving Spouse or as a Spouse or former Spouse who is an alternate payee under a qualified domestic relations order, from an eligible retirement plan, as defined in Section 13.04 (except that such definition shall also include for these purposes a qualified defined benefit plan described in Code Section 401(a)), may elect to contribute all or any portion of such distribution to the Trust directly from such eligible retirement plan (a "direct rollover"). Except as otherwise provided in Subsection 1.09(b) of the Adoption Agreement and to the extent permitted by the Trustee, Rollover Contributions shall be made in the form of cash, Fund Shares, or promissory notes evidencing a plan loan to the Eligible Employee.

Notwithstanding the foregoing, the Plan shall not accept the following as Rollover Contributions:

(a) the contributions excluded by the Employer, if any, in Subsection 1.09(a);

(b) any rollover of after-tax employee contributions that is not made by a direct rollover;

(c) any rollover from an individual retirement account or annuity described in Code Section 408(a) or (b) (including a Roth IRA under Code Section 408A) to the extent such amount would not otherwise be includible in the Employee's income; or

(d) except as provided in Subsection 1.09(b), any rollover amounts which are not “designated Roth contributions” which are to be contributed to the Plan as “designated Roth contributions.”

To the extent the Plan accepts Rollover Contributions of after-tax employee contributions, the Plan will separately account for such contributions, including separate accounting for the portion of the Rollover Contribution that is includible in gross income and the portion that is not includible in gross income.

Except with regard to a rollover made pursuant to Subsection 1.09(b), any rollover of "designated Roth contributions", as defined in Subsection 6.01(e), shall be subject to the requirements of Code Section 402(c). To the extent the Plan accepts Rollover Contributions of "designated Roth contributions", the Plan will separately account for such contributions in accordance with the provisions of Section 7.01, including separate accounting for the portion of the Rollover Contribution that is includible in gross income and the portion that is not includible in gross income, if applicable. If the Plan accepts a direct rollover of "designated Roth contributions", the Trustee and the Plan Administrator shall be entitled to rely on a statement from the distributing plan's administrator identifying (i) the Eligible Employee's basis in the rolled over amounts and (ii) the date on which the Eligible Employee's 5-taxable-year period of participation (as required under Code Section 402A(d)(2) for a qualified distribution of "designated Roth contributions") started under the distributing plan. If the 5-taxable-year period of participation under the distributing plan would end sooner than the Eligible Employee's 5-taxable-year period of participation under the Plan, the 5-taxable-year period of participation applicable under the distributing plan shall continue to apply with respect to the Rollover Contribution.

Notwithstanding the above, if so provided in Subsection 1.09(b), and as limited as provided therein, a Participant or Beneficiary may elect to have any portion of his Account otherwise distributable under the terms of the Plan, which is not “designated Roth contributions” under the Plan and meets the definition of an “eligible rollover distribution” found in Section 13.04(c), be considered “designated Roth contributions” for purposes of the Plan. Any assets converted in such a way shall be separately accounted for and shall still be subject to distribution constraints found in Article 14 applicable to them prior to the conversion. Such assets shall also retain any distribution rights, such as those found in Article 10, applicable to them prior to the conversion and shall be treated as Rollover Contributions for purposes of withdrawal pursuant to Section 10.03. Each such in-plan rollover shall be subject to its own 5-taxable year period of participation and subject to the requirements of Code Section 408A(d)(3)(F). Also, if elected by the Employer in Section 1.09(c) of the Adoption Agreement, any Participant meeting the requirements set forth in Section 1.09(c) may elect to have any part of the portions of his Account as may be described and limited therein, which are not “designated Roth contributions” and are not currently distributable under the Plan, be considered “designated Roth contributions” for purposes of the Plan. Any assets converted in such a way shall be considered a rollover only for purposes of this Section, be separately accounted for, be maintained in such records as are necessary for the proper reporting thereof, and have any distribution constraints, such as those found in Article 14, applicable

to them prior to the conversion continue to apply to them. A conversion in accordance with the preceding sentence will not eliminate any Code Section 411(d)(6) protected distribution rights attributable to the amount being converted.

If so elected in Option 1.09(a)(1)(A), an Eligible Employee who has not yet become an Active Participant in the Plan in accordance with the provisions of Article 3 may make a Rollover Contribution to the Plan. Such Eligible Employee shall be treated as a Participant under the Plan for all purposes of the Plan, except eligibility to have Deferral Contributions made on his behalf and to receive an allocation of Matching Employer or Nonelective Employer Contributions.

The Administrator shall require such information from Eligible Employees as it deems necessary to ensure that amounts contributed under this Section 5.06 meet the requirements for tax-deferred rollovers established by this Section and by Code Section 402(c) and develop procedures to govern the Plan's acceptance of Rollover Contributions.

If a Rollover Contribution made under this Section is later determined by the Administrator not to have met the requirements of this Section or of the Code or Treasury regulations, the Trustee shall, within a reasonable time after such determination is made, and on instructions from the Administrator, distribute to the Employee the amounts then held in the Trust attributable to such Rollover Contribution.

A Participant's Rollover Contributions sub-account shall be subject to the terms of the Plan, including Article 14, except as otherwise provided in this Section.

5.07. Qualified Nonelective Employer Contributions. The Employer may, in its discretion, make a Qualified Nonelective Employer Contribution for the Plan Year in any amount it deems necessary for a permissible purpose. Unless another allocation method will be utilized to address a correction in accordance with the Employee Plans Compliance Resolution System (EPCRS, as described in Revenue Procedure 2016-51 and any subsequent guidance), any Qualified Nonelective Employer Contribution shall be allocated to Participants in accordance with Subsection 1.10(a) of the Adoption Agreement.

Participants shall not be required to satisfy any Hours of Service or employment requirement for the Plan Year in order to receive an allocation of Qualified Nonelective Employer Contributions.

Qualified Nonelective Employer Contributions shall be distributable only in accordance with Section 1.401(k)-6 of the Treasury Regulations.

5.08. Matching Employer Contributions. If so provided by the Employer in Section 1.11(a) of the Adoption Agreement, the Employer shall make Matching Employer Contributions on behalf of each of its "eligible" Participants as indicated therein. The amount of the Matching Employer Contribution shall be determined in accordance with Subsections 1.11(a) and/or the Matching Employer Contributions Addendum to the Adoption Agreement, as applicable. If the Employer has elected to make Matching Employer Contributions in accordance with Subsection 1.11(a)(2) or 1.11(b) of the Adoption Agreement, then such contributions shall be made in the amount and frequency described within timely-adopted governance from that Employer's board of directors or other governing body under applicable local law. If the Employer has selected Subsection 1.11(d)(5) with respect to discretionary Matching Employer Contributions made in accordance with Subsection 1.11(a)(2), such governance shall also specify the period for which discretionary Matching Employer Contributions will be made. After such adoption, the Employer must provide the Administrator written instructions describing (1) how the Matching Employer Contribution will be allocated to "eligible" Participants, (2) the Contribution Period(s) to which the Matching Employer Contribution allocation(s) apply(-ies), and (3) if applicable, a description of the designated groups of "eligible" Participants receiving such allocation(s). Additionally, for Plan Years beginning after the Effective Date listed in Section 1.01(g)(1) of the Adoption Agreement, a summary of these instructions must be communicated to Participants who receive discretionary Matching Employer Contributions. The summary must be communicated to Participants no later than 60 days following the date on which the last discretionary Matching Employer Contribution is made to the Plan for the Plan Year.

Notwithstanding the foregoing, unless otherwise elected in Subsection 1.11(c)(1)(A) of the Adoption Agreement, the Employer shall ***not*** make Matching Employer Contributions, other than 401(k) Safe Harbor Matching Employer Contributions, with respect to an "eligible" Participant's Catch-Up Contributions. If, due to application of a Plan limit, Matching Employer Contributions other than 401(k) Safe Harbor Matching Employer Contributions are attributable to Catch-Up Contributions, such Matching Employer Contributions, plus any income and minus any loss allocable thereto, shall be forfeited and applied as provided in Section 11.09.

5.09. Qualified Matching Employer Contributions. If so provided by the Employer in Subsection 1.11(f) of the Adoption Agreement, prior to making its Matching Employer Contribution (other than any 401(k) Safe Harbor Matching Employer Contribution) to the Plan, the Employer may designate all or a portion of such Matching Employer Contribution as a Qualified Matching Employer Contribution. The Employer shall notify the Trustee of such designation at the time it makes its Matching Employer Contribution. Qualified Matching Employer Contributions shall be distributable only in accordance with Section 1.401(k)-6 of the Treasury Regulations.

If the amount of an Employer's Qualified Matching Employer Contribution is determined based on a Participant's Compensation, and the Qualified Matching Employer Contribution is necessary to satisfy the "ADP" test described in Section 6.03, the compensation used in determining the amount of the Qualified Matching Employer Contribution shall be "testing compensation", as defined in Subsection 6.01(s). If the Qualified Matching Employer Contribution is not necessary to satisfy the "ADP" test described in Section 6.03, the compensation used to determine the amount of the Qualified Matching Employer Contribution shall be Compensation as defined in Subsection 2.01(k).

5.10. Nonelective Employer Contributions. If so provided by the Employer in Subsection 1.12(a) and/or (b) of the Adoption Agreement, the Employer shall make Nonelective Employer Contributions to the Trust in accordance with Section 1.12 of the Adoption Agreement to be allocated among "eligible" Participants as indicated therein. Nonelective Employer Contributions shall be allocated as follows:

(a) If the Employer has elected a fixed contribution formula, Nonelective Employer Contributions shall be allocated among "eligible" Participants in the manner specified in Section 1.12 or the Nonelective Employer Contributions Addendum to the Adoption Agreement, as applicable.

(b) If the Employer has elected a discretionary contribution amount, Nonelective Employer Contributions shall be allocated among "eligible" Participants, as determined in accordance with Section 1.12, as follows:

(1) If the non-integrated formula is elected in Subsection 1.12(b)(1), Nonelective Employer Contributions shall be allocated to "eligible" Participants in the ratio that each "eligible" Participant's Compensation bears to the total Compensation paid to all "eligible" Participants for the Contribution Period.

(2) If the integrated formula is elected in Subsection 1.12(b)(2), Nonelective Employer Contributions shall be allocated in the following steps:

(A) First, to each "eligible" Participant in the same ratio that the sum of the "eligible" Participant's Compensation and "excess Compensation" for the Plan Year bears to the sum of the Compensation and "excess Compensation" of all "eligible" Participants for the Plan Year. This allocation as a percentage of the sum of each "eligible" Participant's Compensation and "excess Compensation" shall not exceed the "permitted disparity limit", as defined in Section 1.12.

Notwithstanding the foregoing, if in any Plan Year an "eligible" Participant has reached the "cumulative permitted disparity limit", such "eligible" Participant shall receive an allocation under this Subsection 5.10(b)(2)(A) based on two times his Compensation for the Plan Year, rather than the sum of his Compensation and "excess Compensation" for the Plan Year. If an "eligible" Participant did not benefit under a qualified defined benefit plan or target benefit plan for any Plan Year beginning on or after January 1, 1994, the "eligible" Participant shall have no "cumulative disparity limit".

(B) Second, if any Nonelective Employer Contributions remain after the allocation in Subsection 5.10(b)(2)(A), the remaining Nonelective Employer Contributions shall be allocated to each "eligible" Participant in the same ratio that the "eligible" Participant's Compensation for the Plan Year bears to the total Compensation of all "eligible" Participants for the Plan Year.

Notwithstanding the provisions of Subsections 5.10(b)(2)(A) and (B) above, if in any Plan Year an "eligible" Participant benefits under another qualified plan or simplified employee pension, as defined in Code Section 408(k), that provides for or imputes permitted disparity, the Nonelective Employer Contributions for the Plan Year allocated to such "eligible" Participant shall be in the ratio that his Compensation for the Plan Year bears to the total Compensation paid to all "eligible" Participants.

For purposes of this Subsection 5.10(b)(2), the following definitions shall apply:

(C) **"Cumulative permitted disparity limit"** means 35 multiplied by the sum of an "eligible" Participant's annual permitted disparity fractions, as defined in Sections 1.401(l)-5(b)(3) through (b)(7) of the Treasury Regulations, attributable to the "eligible" Participant's total years of service under the Plan and any other qualified plan or simplified employee pension, as defined in Code Section 408(k), maintained by the Employer or a Related Employer. For each Plan Year commencing prior to January 1, 1989, the annual permitted disparity fraction shall be deemed to be one, unless the Participant never accrued a benefit under any qualified plan or simplified employee pension maintained by the Employer or a Related Employer during any such Plan Year. In determining the annual permitted disparity fraction for any Plan Year, the Employer may elect to assume that the full disparity limit has been used for such Plan Year.

(D) **"Excess Compensation"** means Compensation in excess of the "integration level" specified by the Employer in Subsection 1.12(b)(2) of the Adoption Agreement.

5.11. Vested Interest in Contributions.

(a) Participant's vested interest in the following sub-accounts shall be 100 percent:

(1) his Deferral Contributions sub-account;

(2) his Qualified Nonelective Employer Contributions sub-account;

(3) his Qualified Matching Employer Contributions sub-account;

(4) his 401(k) Safe Harbor Nonelective Employer Contributions sub-account (unless such sub-account is attributable to a QACA in such case Subsection 5.11(b) shall apply);

(5) his 401(k) Safe Harbor Matching Employer Contributions sub-account (unless such sub-account is attributable to a QACA in such case Subsection 5.11(b) shall apply);

(6) his Rollover Contributions sub-account;

(7) his Employee Contributions sub-account; and

(8) his deductible Employee Contributions sub-account

(b) Contributions attributable to a QACA shall become 100% vested no later than upon a Participant's completion of two Years of Service.

Except as otherwise specifically provided in the Eligibility, Service and Vesting Addendum to the Adoption Agreement or as may be required under Section 15.05, a Participant's vested interest in his Nonelective Employer Contributions sub-account attributable to Nonelective Employer Contributions other than those described in Subsection 5.11(a)(4) above, shall be determined in accordance with the vesting schedule elected by the Employer in Subsection 1.16(c)(1) of the Adoption Agreement. Except as otherwise specifically provided in the Eligibility, Service and Vesting Addendum to the Adoption Agreement, a Participant's vested interest in his Matching Employer Contributions sub-account attributable to Matching Employer Contributions other than those described in Subsection 5.11(a)(5) above, shall be determined in accordance with the vesting schedule elected by the Employer in Subsection 1.16(c)(2) of the Adoption Agreement.

5.12. Time for Making Contributions. The Employer shall pay its contribution for each Plan Year not later than the time prescribed by law for filing the Employer's Federal income tax return for the fiscal (or taxable) year with or within which such Plan Year ends (including extensions thereof).

If the Employer has elected the payroll period as the Contribution Period in Subsection 1.11(d) of the Adoption Agreement, the Employer shall remit any 401(k) Safe Harbor Matching Employer Contributions made during a Plan Year quarter to the Trustee no later than the last day of the immediately following Plan Year quarter.

The Employer must remit Employee Contributions and Deferral Contributions to the Trustee as of the earliest date on which such contributions can reasonably be segregated from the Employer's general assets, but not later than the 15th

business day of the calendar month following the month in which such amount otherwise would have been paid to the Participant, or within such other time frame as may be determined by applicable regulation or legislation.

The Trustee shall have no authority to inquire into the correctness of the amounts contributed and remitted to the Trustee or to determine whether any contribution is payable under this Article 5. The Administrator shall be the named fiduciary responsible for ensuring the Employer remits contributions and loan repayments to the Trust and shall have the duty and responsibility for the collection of such contributions and repayments when not timely made by the Employer, provided that the Administrator may appoint another named fiduciary to handle such responsibility and notify the Trustee of such appointment in writing.

5.13. Exclusive Benefit and Return of Employer Contributions. In accordance with Code Section 401(a)(2) and ERISA Section 403(c) (if applicable), Plan assets shall be held for the exclusive purpose of providing benefits to Participants and Beneficiaries and defraying the reasonable expenses of administering the Plan, and no such assets shall ever revert to the Employer except that if the Employer or the Plan Administrator so direct:

(a) contributions made by the Employer by mistake of fact may be returned to the Employer within 1 year of the date of payment,

(b) contributions that are conditioned on the deductibility thereof under Code Section 404 may be returned to the Employer within 1 year of the disallowance of the deduction, and

(c) contributions that are conditioned on the initial qualification of the Plan under the Code may be returned to the Employer within 1 year after such qualification is denied by determination of the Internal Revenue Service, but only if an application for determination of such qualification is made within the time prescribed by law for filing the Employer's federal income tax return for its taxable year in which the Plan is adopted, or such later date as the Secretary of the Treasury may prescribe.

All contributions under the Plan are hereby expressly conditioned on the initial qualification of the Plan and their deductibility under the Code.

5.14. Frozen Plan. If the Employer has elected Subsection 1.01(g)(5) of the Adoption Agreement, then in accordance therewith and notwithstanding any other provision of the Plan to the contrary, the Plan is a frozen plan. If the Employer amends the Plan to remove the freeze, contributions shall resume in accordance with the provisions of the amended Plan.

Article 6. Limitations on Contributions.

6.01. Special Definitions. For purposes of this Article, the following definitions shall apply:

(a) **"Annual additions"** mean the sum of the following amounts allocated to an Active Participant for a Limitation Year:

(1) all employer contributions allocated to an Active Participant's account under qualified defined contribution plans maintained by the "415 employer", including amounts applied to reduce employer contributions as provided under Section 11.09, but excluding amounts treated as Catch-Up Contributions;

(2) all employee contributions allocated to an Active Participant's account under a qualified defined contribution plan or a qualified defined benefit plan maintained by the "415 employer" if separate accounts are maintained with respect to such Active Participant under the defined benefit plan;

(3) all forfeitures allocated to an Active Participant's account under a qualified defined contribution plan maintained by the "415 employer";

(4) all amounts allocated to an "individual medical benefit account" which is part of a pension or annuity plan maintained by the "415 employer";

(5) all amounts derived from contributions paid or accrued after December 31, 1985, in taxable years ending after such date, which are attributable to post-retirement medical benefits allocated to the separate account of a key employee, as defined in Code Section 419A(d)(3), under a "welfare benefit fund" maintained by the "415 employer"; and

(6) all allocations to an Active Participant under a "simplified employee pension".

(b) **"Contribution percentage"** means the ratio (expressed as a percentage) of (1) the "contribution percentage amounts" allocated to an "eligible participant's" Accounts for the Plan Year to (2) the "eligible participant's" "testing compensation" for the Plan Year.

(c) **"Contribution percentage amounts"** mean those amounts included in applying the "ACP" test.

(1) "Contribution percentage amounts" include the following:

(A) any Employee Contributions made by an "eligible participant" to the Plan;

(B) any Matching Employer Contributions on eligible contributions as elected by the Employer in Subsection 1.11(c) of the Adoption Agreement, made for the Plan Year, but excluding (A) Qualified Matching Employer Contributions that are taken into account in satisfying the "ADP" test described in Section 6.03 and (B) Matching Employer Contributions that are forfeited (to the extent the forfeiture is completed prior to applying the “ACP” test) either to correct "excess aggregate contributions" or because the contributions to which they relate are "excess deferrals", "excess contributions", "excess aggregate contributions", or Catch-Up Contributions (in the event the Plan does not provide for Matching Employer Contributions with respect to Catch-Up Contributions);

(C) Qualified Nonelective Employer Contributions allocated as of a date within the “testing year” and designated at the time of contribution as applying for the “ACP” test;

(D) 401(k) Safe Harbor Nonelective Employer Contributions may be included to the extent such contributions are not required to satisfy the safe harbor contribution requirements under Section 1.401(k)-3(b) of the Treasury Regulations, excluding 401(k) Safe Harbor Nonelective Employer Contributions that are taken into account in satisfying the "ADP" test described in Section 6.03; and

(E) Deferral Contributions, when necessary to pass the “ACP” test, provided that the "ADP" test described in Section 6.03 is satisfied or treated as satisfied (except as in accordance with Section 6.09) both including Deferral Contributions included as "contribution percentage amounts" and excluding such Deferral Contributions.

(2) Notwithstanding the foregoing, for any Plan Year in which the "ADP" test described in Section 6.03 is deemed satisfied pursuant to Section 6.09 with respect to some or all Deferral Contributions, "contribution percentage amounts":

(A) shall not include any Deferral Contributions with respect to which the "ADP" test is deemed satisfied; and

(B) may have the following Matching Employer Contributions excluded:

(i) if the requirements described in Section 6.10 for deemed satisfaction of the "ACP" test with respect to some or all Matching Employer Contributions are met, those Matching Employer Contributions with respect to which the "ACP" test is deemed satisfied; or

(ii) if the "ADP" test is deemed satisfied using 401(k) Safe Harbor Matching Employer Contributions, but the requirements described in Section 6.10 for deemed satisfaction of the "ACP" test with respect to Matching Employer Contributions are not met, any Matching Employer Contributions made on behalf of an "eligible participant" for the Plan Year that do not exceed four percent of the "eligible participant's" Compensation for the Plan Year.

(3) Notwithstanding any other provisions of this Subsection, if an Employer elects to change from the current year testing method described in Subsection 1.06(a)(1) of the Adoption Agreement to the prior year testing method described in Subsection 1.06(a)(2) of the Adoption Agreement, the following shall not be considered "contribution percentage amounts" for purposes of determining the "contribution percentages"

of Non-Highly Compensated Employees for the prior year immediately preceding the Plan Year in which the change is effective:

(A) Qualified Matching Employer Contributions that were taken into account in satisfying the "ADP" test described in Section 6.03 for such prior year;

(B) Qualified Nonelective Employer Contributions that were taken into account in satisfying the "ADP" test described in Section 6.03 or the "ACP" test described in Section 6.06 for such prior year; and

(C) 401(k) Safe Harbor Nonelective Employer Contributions that were taken into account in satisfying the "ADP" test described in Section 6.03 or the "ACP" test described in Section 6.06 for such prior year or that were required to satisfy the safe harbor contribution requirements under Section 1.401(k)-3(b) of the Treasury Regulations for such prior year.;

To be included in determining an "eligible participant's" "contribution percentage" for a Plan Year, Employee Contributions must be made to the Plan before the end of such Plan Year and other "contribution percentage amounts" must be allocated to the "eligible participant's" Account as of a date within such Plan Year and made before the last day of the 12-month period immediately following the Plan Year to which the "contribution percentage amounts" relate. If an Employer has elected the prior year testing method described in Subsection 1.06(a)(2) of the Adoption Agreement, "contribution percentage amounts" that are taken into account for purposes of determining the "contribution percentages" of Non-Highly Compensated Employees for the prior year relate to such prior year. Therefore, such "contribution percentage amounts" must be made before the last day of the Plan Year being tested.

(d) **"Deferral ratio"** means the ratio (expressed as a percentage) of (1) the amount of "includable contributions" made on behalf of an Active Participant for the Plan Year to (2) the Active Participant's "testing compensation" for such Plan Year. An Active Participant who does not receive "includable contributions" for a Plan Year shall have a "deferral ratio" of zero.

(e) **"Designated Roth contributions"** mean any Roth 401(k) Contributions made to the Plan and any "elective deferrals" made to another plan that would be excludable from a Participant's income, but for the Participant's election to designate such contributions as Roth contributions and include them in income.

(f) **"Determination year"** means (1) for purposes of determining income or loss with respect to "excess deferrals", the calendar year in which the "excess deferrals" were made and (2) for purposes of determining income or loss with respect to "excess contributions", and "excess aggregate contributions", the Plan Year in which such "excess contributions" or "excess aggregate contributions" were made.

(g) **"Elective deferrals"** mean all employer contributions, other than Deferral Contributions, made on behalf of a Participant pursuant to an election to defer under any qualified cash or deferred arrangement as described in Code Section 401(k), any simplified employee pension cash or deferred arrangement as described in Code Section 402(h)(1)(B), any eligible deferred compensation plan under Code Section 457, any plan as described under Code Section 501(c)(18), and any employer contributions made on behalf of a Participant pursuant to a salary reduction agreement for the purchase of an annuity contract under Code Section 403(b). "Elective deferrals" include "designated Roth contributions" made to another plan. "Elective deferrals" do not include any deferrals properly distributed as excess "annual additions" or any deferrals treated as catch-up contributions in accordance with the provisions of Code Section 414(v).

(h) **"Eligible participant"** means any Active Participant who is eligible to make Employee Contributions, or Deferral Contributions (if the Employer takes such contributions into account in calculating "contribution percentages"), or to receive a Matching Employer Contribution. Notwithstanding the foregoing, the term "eligible participant" shall not include any Active Participant who is included in a unit of Employees covered by an agreement which the Secretary of Labor finds to be a collective bargaining agreement between employee representatives and one or more employers.

(i) **"Excess aggregate contributions"** with respect to any Plan Year mean the excess of

(1) The aggregate "contribution percentage amounts" actually taken into account in computing the average "contribution percentages" of "eligible participants" who are Highly Compensated Employees for such Plan Year, over

(2) The maximum amount of "contribution percentage amounts" permitted to be made on behalf of Highly Compensated Employees under Section 6.06 (determined by reducing "contribution percentage amounts" made for the Plan Year on behalf of "eligible participants" who are Highly Compensated Employees in order of their "contribution percentages" beginning with the highest of such "contribution percentages").

"Excess aggregate contributions" shall be determined after first determining "excess deferrals" and then determining "excess contributions".

(j) **"Excess contributions"** with respect to any Plan Year mean the excess of

(1) The aggregate amount of "includable contributions" actually taken into account in computing the average "deferral percentage" of Active Participants who are Highly Compensated Employees for such Plan Year, over

(2) The maximum amount of "includable contributions" permitted to be made on behalf of Highly Compensated Employees under Section 6.03 (determined by reducing "includable contributions" made for the Plan Year on behalf of Active Participants who are Highly Compensated Employees in order of their "deferral ratios", beginning with the highest of such "deferral ratios").

(k) **"Excess deferrals"** mean those Deferral Contributions and/or "elective deferrals" that are includable in a Participant's gross income under Code Section 402(g) to the extent such Participant's Deferral Contributions and/or "elective deferrals" for a calendar year exceed the dollar limitation under such Code Section for such calendar year.

(l) **"Excess 415 amount"** means the excess of an Active Participant's "annual additions" for the Limitation Year over the "maximum permissible amount".

(m) **“415 compensation”** means Compensation (as defined in Section 2.01(k)), subject to the following:

(1) "415 compensation" does ***not*** exclude any amounts elected by the Employer in Subsection 1.05(b) of the Adoption Agreement.

(2) “415 compensation” shall be based on compensation for all services to the "415 employer."

(3) “415 compensation” shall be based on the amount actually paid or made available to the Participant (or, if earlier, includible in the gross income of the Participant) during the Limitation Year.

(4) An Eligible Employee's severance from employment, as defined in Section 2.01(k), shall be applied using the modification to the employer aggregation rules prescribed in Code Section 415(h).

(5) “415 compensation” may include amounts earned, but not paid during the Limitation Year solely because of the timing of pay periods and pay dates, provided

(A) such amounts are paid during the first few weeks of the next Limitation Year;

(B) such amounts are included on a uniform and consistent basis with respect to all similarly situated Participants; and

(C) no such amounts are included in more than one Limitation Year.

(6) If the initial Plan Year of a new plan consists of fewer than 12 months, calculated from the Effective Date listed in Subsection 1.01(g)(1) of the Adoption Agreement through the end of such initial Plan Year and if the Employer has designated in Subsection 1.01(f) of the Adoption Agreement that the Limitation Year is based on the Plan Year, for purposes of determining Compensation for such initial Plan Year, the Limitation Year shall be the 12-month period ending on the last day of the Plan Year.

In addition, “415 compensation” shall not reflect compensation for a Limitation Year greater than the limit under Code Section 401(a)(17) that applies to that Limitation Year.

(n) **"415 employer"** means the Employer and any other employers which constitute a controlled group of corporations (as defined in Code Section 414(b) as modified by Code Section 415(h)) or which constitute trades or businesses (whether or not incorporated) which are under common control (as defined in Code Section 414(c) as modified by Code Section 415(h)) or which constitute an affiliated service group (as defined in Code Section 414(m)) and any other entity required to be aggregated with the Employer pursuant to regulations issued under Code Section 414(o).

(o) **"Includable contributions"** mean those amounts included in applying the "ADP" test.

(1) "Includable contributions" include the following:

(A) any Deferral Contributions made on behalf of an Active Participant, including "excess deferrals" of Highly Compensated Employees and "designated Roth contributions", except as specifically provided in Subsection 6.01(o)(2);

(B) Qualified Nonelective Employer Contributions allocated as of a date within the “testing year” and designated at the time of contribution as applying for the "ADP" test; and

(C) to the extent necessary to satisfy the “ADP” test, Qualified Matching Employer Contributions on Deferral Contributions or Employee Contributions made for the Plan Year allocated as of a date within the “testing year” and so designated at the time of contribution; provided, however, that the maximum amount of Qualified Matching Employer Contributions included in "includable contributions" with respect to an Active Participant shall not exceed the greater of 5% of the Active Participant's "testing compensation" or 100% of his Deferral Contributions for the Plan Year.

(2) "Includable contributions" shall not include the following:

(A) Catch-Up Contributions, except to the extent that a Participant's Deferral Contributions are classified as Catch-Up Contributions as provided in Section 6.04 solely because of a failure of the "ADP" test described in Section 6.03;

(B) "excess deferrals" of Non-Highly Compensated Employees that arise solely from Deferral Contributions made under the Plan or plans maintained by the Employer or a Related Employer;

(C) Deferral Contributions that are taken into account in satisfying the "ACP" test described in Section 6.06;

(D) additional elective contributions made pursuant to Code Section 414(u) that are treated as Deferral Contributions;

(E) for any Plan Year in which the "ADP" test described in Section 6.03 is deemed satisfied pursuant to Section 6.09 with respect to some or all Deferral Contributions, the following:

(i) any Deferral Contributions with respect to which the "ADP" test is deemed satisfied; and

(ii) Qualified Matching Employer Contributions, except to the extent that the "ADP" test described in Section 6.03 must be satisfied with respect to some Deferral Contributions and such Qualified Matching Employer Contributions are used in applying the "ADP" test.

(3) Notwithstanding any other provision of this Subsection, if an Employer elects to change from the current year testing method described in Subsection 1.06(a)(1) of the Adoption Agreement to the prior year testing method described in Subsection 1.06(a)(2) of the Adoption Agreement, the following shall not be considered "includable contributions" for purposes of determining the "deferral ratios" of Non-Highly Compensated Employees for the prior year immediately preceding the Plan Year in which the change is effective:

(A) Deferral Contributions that were taken into account in satisfying the "ACP" test described in Section 6.06 for such prior year pursuant to Subsection 6.01(c)(1)(E) above;

(B) Qualified Nonelective Employer Contributions that were taken into account in satisfying the "ADP" test described in Section 6.03 or the "ACP" test described in Section 6.06 for such prior year;

(C) 401(k) Safe Harbor Nonelective Employer Contributions that were taken into account in satisfying the "ADP" test described in Section 6.03 or the "ACP" test described in Section 6.06 for such prior year or that were required to satisfy the safe harbor contribution requirements under Section 1.401(k)-3(b) of the Treasury Regulations for such prior year;

(D) 401(k) Safe Harbor Matching Employer Contributions that were taken into account in satisfying the "ADP" test described in Section 6.03 for such prior year or that were required to satisfy the safe harbor contribution requirements under Section 1.401(k)-3(c) of the Treasury Regulations for such prior year; and

(E) Qualified Matching Employer Contributions that were taken into account in satisfying the "ADP" test described in Section 6.03 or the "ACP" test described in Section 6.06 for such prior year.

To be included in determining an Active Participant's "deferral ratio" for a Plan Year, "includable contributions" must be allocated to the Participant's Account as of a date within such Plan Year and made before the last day of the 12-month period immediately following the Plan Year to which the "includable contributions" relate. If an Employer has elected the prior year testing method described in Subsection 1.06(a)(2), "includable contributions" that are taken into account for purposes of determining the "deferral ratios" of Non-Highly Compensated Employees for the prior year relate to such prior year. Therefore, such "includable contributions" must be made before the last day of the Plan Year being tested.

(p) **"Individual medical benefit account"** means an individual medical benefit account as defined in Code Section 415(l)(2).

(q) **"Maximum permissible amount"** means for a Limitation Year with respect to any Active Participant the lesser of (1) the maximum dollar amount permitted for the Limitation Year under Code Section 415(c)(1)(A) adjusted as provided in Code Section 415(d) (e.g., $51,000 for the Limitation Year ending in 2013) or (2) 100 percent of the Active Participant's "415 compensation" for the Limitation Year. If a short Limitation Year is created because of an amendment changing the Limitation Year to a different 12-consecutive-month period, the dollar limitation specified in clause (1) above shall be adjusted by multiplying it by a fraction the numerator of which is the number of months (counting any portion of a month as a whole month) in the short Limitation Year and the denominator of which is 12.

The limitation specified in clause (2) above shall not apply to any contribution for medical benefits within the meaning of Code Section 401(h) or 419A(f)(2) after separation from service which is otherwise treated as an "annual addition" under Code Section 419A(d)(2) or 415(l)(1).

(r) **"Simplified employee pension"** means a simplified employee pension as defined in Code Section 408(k).

(s) **"Testing compensation"** means the base compensation definition elected by the Employer in Subsection 1.05(a), as described in Subsection 2.01(k)(1) or, in the case of a Self-Employed Individual, Earned Income as described in Subsection 2.01(k)(1)(A)(without any Compensation exclusions described in that Subsection). However in lieu of such definition and at the option of the Employer or Plan Administrator, the Employer or Plan Administrator may specify any other definition of compensation allowable under Code Section 414(s) or applicable guidance or regulations issued thereunder. "Testing compensation" shall be based on the amount actually paid to a Participant during the "testing year" or, at the option of the Employer or Plan Administrator, during that portion of the "testing year" during which the Participant is an Active Participant; provided, however, that if the Employer elected different Eligibility Service requirements for purposes of eligibility to make Deferral Contributions and to receive Matching Employer Contributions, then "testing compensation" must be based on the amount paid to a Participant during the full "testing year".

The annual "testing compensation" of each Active Participant taken into account in applying the "ADP" test described in Section 6.03 and the "ACP" test described in Section 6.06 for any "testing year" shall not exceed the annual compensation limit under Code Section 401(a)(17) as in effect on the first day of the "testing year" (e.g., $255,000 for the "testing year" beginning in 2013). This limit shall be adjusted by the Secretary to reflect increases in the cost of living, as provided in Code Section 401(a)(17)(B); provided, however, that the dollar increase in effect on January 1 of any calendar year is effective for "testing years" beginning in such calendar year. If a Plan determines "testing compensation" over a period that contains fewer than 12 calendar months (a "short determination period"), then the Compensation limit for such "short determination period" is equal to the Compensation limit for the calendar year in which the "short determination period" begins multiplied by the ratio obtained by dividing the number of full months in the "short determination period" by 12; provided, however, that such proration shall not apply if there is a "short determination period" because an election was made, in accordance with any rules and regulations issued by the Secretary of the Treasury or his delegate, to apply the "ADP" test described in Section 6.03 and/or the "ACP" test described in Section 6.06 based only on “testing compensation” paid during the portion of the "testing year" during which an individual was an Active Participant.

(t) **"Testing year"** means:

(1) if the Employer has elected the current year testing method in Subsection 1.06(a)(1) of the Adoption Agreement, the Plan Year being tested.

(2) if the Employer has elected the prior year testing method in Subsection 1.06(a)(2) of the Adoption Agreement, the Plan Year immediately preceding the Plan Year being tested.

(u) **"Welfare benefit fund"** means a welfare benefit fund as defined in Code Section 419(e).

To the extent that types of contributions defined in Section 2.01 are referred to in this Article 6, the defined term includes similar contributions made under other plans where the context so requires.

6.02. Code Section 402(g) Limit on Deferral Contributions. In no event shall the amount of Deferral Contributions, other than Catch-Up Contributions, made under the Plan for a calendar year, when aggregated with the "elective deferrals" made under any other plan maintained by the Employer or a Related Employer, exceed the dollar limitation contained in Code Section 402(g) in effect at the beginning of such calendar year.

A Participant may assign to the Plan any "excess deferrals" made during a calendar year by notifying the Administrator on or before March 15 following the calendar year in which the "excess deferrals" were made of the amount of the "excess deferrals" to be assigned to the Plan. A Participant is deemed to notify the Administrator of any "excess deferrals" that arise by taking into account only those Deferral Contributions made to the Plan and those "elective deferrals" made to any other plan maintained by the Employer or a Related Employer. Notwithstanding any other provision of the Plan, "excess deferrals", plus any income and minus any loss allocable thereto, as determined under Section 6.08, shall be distributed no later than April 15 to any Participant to whose Account "excess deferrals" were so assigned for the preceding calendar year and who claims "excess deferrals" for such calendar year. In the event that "excess deferrals" are allocated to a Participant's Deferral Contributions sub-accounts, such "excess deferrals" will be distributed first from the Participant's Deferral Contributions for the Plan Year other than his Roth 401(k) Contributions then from his Roth 401(k) Contributions unless provided otherwise in the Adoption Agreement.

"Excess deferrals" to be distributed to a Participant for a calendar year shall be reduced by any "excess contributions" for the Plan Year beginning within such calendar year that were previously distributed or re-characterized in accordance with the provisions of Section 6.04.

Any Matching Employer Contributions attributable to "excess deferrals", plus any income and minus any loss allocable thereto, as determined under Section 6.08, shall be forfeited and applied as provided in Section 11.09.

"Excess deferrals" shall be treated as "annual additions" under the Plan, unless such amounts are distributed no later than the first April 15 following the close of the calendar year in which the "excess deferrals" were made.

6.03. Additional Limit on Deferral Contributions ("ADP" Test). Except to the extent the Employer has elected in Subsection 1.11(a)(3) or Subsection 1.12(a)(3) of the Adoption Agreement to make 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions for a Plan Year and the "ADP" test is deemed satisfied in accordance with Section 6.09, notwithstanding any other provision of the Plan to the contrary, the Deferral

Contributions, excluding additional elective contributions made pursuant to Code Section 414(u) that are treated as Deferral Contributions and Catch-Up Contributions (except to the extent that a Participant's Deferral Contributions are classified as Catch-Up Contributions as provided in Section 6.04 solely because of a failure of the "ADP" test described herein), made with respect to the Plan Year on behalf of Active Participants who are Highly Compensated Employees for such Plan Year may not result in an average "deferral ratio" for such Active Participants that exceeds the greater of:

(a) the average "deferral ratio" for the "testing year" of Active Participants who are Non-Highly Compensated Employees for the "testing year" multiplied by 1.25; or

(b) the average "deferral ratio" for the "testing year" of Active Participants who are Non-Highly Compensated Employees for the "testing year" multiplied by two, provided that the average "deferral ratio" for Active Participants who are Highly Compensated Employees for the Plan Year being tested does not exceed the average "deferral ratio" for Participants who are Non-Highly Compensated Employees for the "testing year" by more than two percentage points.

For the first Plan Year in which the Plan provides a cash or deferred arrangement, the average "deferral ratio" for Active Participants who are Non-Highly Compensated Employees used in determining the limits applicable under Subsections 6.03(a) and (b) shall be either three percent or the actual average "deferral ratio" for such Active Participants for such first Plan Year, as elected by the Employer in Section 1.06(b) of the Adoption Agreement.

The "deferral ratios" of Active Participants who are included in a unit of Employees covered by an agreement which the Secretary of Labor finds to be a collective bargaining agreement shall be disaggregated from the "deferral ratios" of other Active Participants and the provisions of this Section 6.03 shall be applied separately with respect to each group.

The "deferral ratio" for any Active Participant who is a Highly Compensated Employee for the Plan Year being tested and who is eligible to have "includable contributions" allocated to his accounts under two or more cash or deferred arrangements described in Code Section 401(k) that are maintained by the Employer or a Related Employer, shall be determined as if such "includable contributions" were made under the Plan. If a Highly Compensated Employee participates in two or more cash or deferred arrangements that have different plan years, all "includable contributions" made during the Plan Year under all such arrangements shall be treated as having been made under the Plan. Notwithstanding the foregoing, certain plans, and contributions made thereto, shall be treated as separate if mandatorily disaggregated under regulations under Code Section 401(k).

If this Plan satisfies the requirements of Code Section 401(k), 401(a)(4), or 410(b) only if aggregated with one or more other plans, or if one or more other plans satisfy the requirements of such Code Sections only if aggregated with this Plan, then this Section shall be applied by determining the "deferral ratios" of Employees as if all such plans were a single plan. Plans may be aggregated in order to satisfy Code Section 401(k) only if they have the same plan year and use the same method to satisfy the "ADP" test.

Notwithstanding anything herein to the contrary, if the Plan permits Employees to make Deferral Contributions prior to the time the Employees have completed the minimum age and service requirements of Code Section 410(a)(1)(A) and the Employer elects, pursuant to Code Section 410(b)(4)(B), to disaggregate the Plan into two component plans for purposes of complying with Code Section 410(b)(1), one benefiting Employees who have completed such minimum age and service requirements and the other benefiting Employees who have not, the Plan must be disaggregated in the same manner for ADP testing purposes, unless the Plan applies the alternative rule in Code Section 401(k)(3)(F). In determining the component plans for purposes of such disaggregation, the Employer may apply the maximum entry dates permitted under Code Section 410(a)(4) and may utilize the Plan Year for purposes of determining Hours of Service.

The Employer shall maintain records sufficient to demonstrate satisfaction of the "ADP" test and the amount of Qualified Nonelective Employer Contributions and/or Qualified Matching Employer Contributions used in such test.

6.04. Allocation and Distribution of "Excess Contributions". Unless provided otherwise in the Adoption Agreement, the "excess contributions" allocable to the Account of a Participant, plus any income and minus any loss allocable thereto, as determined under Section 6.08, shall be distributed to the Participant no later than the last day of the Plan Year immediately following the Plan Year in which the "excess contributions" were made, unless the Employer elected Catch-Up Contributions in Subsection 1.07(a)(2) of the Adoption Agreement and such "excess contributions" are classified as Catch-Up Contributions.

If "excess contributions" are to be distributed from the Plan and such "excess contributions" are distributed more than 2 1/2 months (this period may be 6 months if the Plan has adopted an EACA within Subsection 1.07(a)(4) of the Adoption Agreement and has elected, pursuant to the Administrator's separate written procedures established pursuant to Subsection 5.03(c), to cover all Eligible Employees by the EACA) after the last day of the Plan Year in which the "excess contributions" were made, a ten percent excise tax shall be imposed on the Employer maintaining the Plan with respect to such amounts.

The "excess contributions" allocable to a Participant's Account shall be determined by reducing the "includable contributions" made for the Plan Year on behalf of Active Participants who are Highly Compensated Employees in order of the dollar amount of such "includable contributions", beginning with the highest such dollar amount. "Excess contributions" allocated to a Participant for a Plan Year shall be reduced by the amount of any "excess deferrals" previously distributed for the calendar year ending in such Plan Year.

"Excess contributions" shall be treated as "annual additions".

For purposes of distribution, "excess contributions" shall be considered allocated among a Participant's Deferral Contributions sub-accounts and, if applicable, the Participant's Qualified Nonelective Employer Contributions sub-account and/or Qualified Matching Employer Contributions sub-account in the order prescribed and communicated to the Trustee, which order shall be uniform with respect to all Participants and nondiscriminatory. In the event that "excess contributions" are allocated to a Participant's Deferral Contributions sub-accounts, such "excess contributions" will be distributed first from the Participant's Deferral Contributions for the Plan Year other than his Roth 401(k) Contributions then from his Roth 401(k) Contributions unless provided otherwise in the Adoption Agreement.

Any Matching Employer Contributions attributable to "excess contributions", plus any income and minus any loss allocable thereto, as determined under Section 6.08, shall be forfeited and applied as provided in Section 11.09.

6.05. Reductions in Deferral or Employee Contributions to Meet Code Requirements. If the Administrator anticipates that the Plan will not satisfy the "ADP" and/or "ACP" test for the year, the Administrator may reduce the rate of Deferral Contributions and/or Employee Contributions of Participants who are Highly Compensated Employees to an amount determined by the Administrator to be necessary to satisfy the "ADP" and/or "ACP" test.

6.06. Limit on Matching Employer Contributions and Employee Contributions ("ACP" Test). The provisions of this Section 6.06 shall not apply to Active Participants who are included in a unit of Employees covered by an agreement which the Secretary of Labor finds to be a collective bargaining agreement between employee representatives and one or more employers. The provisions of this Section shall not apply to Matching Employer Contributions made on account of amounts deferred pursuant to Code Section 457 under a separate eligible deferred compensation plan.

Except to the extent the Employer has elected in Subsection 1.11(a)(3) or Subsection 1.12(a)(3) of the Adoption Agreement to make 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions for a Plan Year and the "ACP" test is deemed satisfied in accordance with Section 6.10, notwithstanding any other provision of the Plan to the contrary, Matching Employer Contributions and Employee Contributions made with respect to a Plan Year by or on behalf of "eligible participants" who are Highly Compensated Employees for such Plan Year may not result in an average "contribution percentage" for such "eligible participants" that exceeds the greater of:

(a) the average "contribution percentage" for the "testing year" of "eligible participants" who are Non-Highly Compensated Employees for the "testing year" multiplied by 1.25; or

(b) the average "contribution percentage" for the "testing year" of "eligible participants" who are Non-Highly Compensated Employees for the "testing year" multiplied by two, provided that the average "contribution percentage" for the Plan Year being tested of "eligible participants" who are Highly Compensated Employees does not exceed the average "contribution percentage" for the "testing year" of "eligible participants" who are Non-Highly Compensated Employees for the "testing year" by more than two percentage points.

For the first Plan Year in which the Plan provides for "contribution percentage amounts" to be made, the "ACP" for "eligible participants" who are Non-Highly Compensated Employees used in determining the limits applicable under paragraphs (a) and (b) of this Section shall be either three percent or the actual "ACP" of such eligible participants for such first Plan Year, as elected by the Employer in Section 1.06(b) of the Adoption Agreement.

The "contribution percentage" for any "eligible participant" who is a Highly Compensated Employee for the Plan Year and who is eligible to have "contribution percentage amounts" allocated to his accounts under two or more plans described in Code Section 401(a) that are maintained by the Employer or a Related Employer, shall be determined as if such "contribution percentage amounts" were contributed to the Plan. If a Highly Compensated Employee participates in two or more such plans that have different plan years, all "contribution percentage amounts" made during the Plan Year under such other plans shall be treated as having been contributed to the Plan. Notwithstanding the foregoing, certain plans shall be treated as separate if mandatorily disaggregated under Treasury Regulations issued under Code Section 401(m).

If this Plan satisfies the requirements of Code Section 401(m), 401(a)(4) or 410(b) only if aggregated with one or more other plans, or if one or more other plans satisfy the requirements of such Code Sections only if aggregated with this Plan, then this Section shall be applied by determining the "contribution percentages" of Employees as if all such plans were a single plan. Plans may be aggregated in order to satisfy Code Section 401(m) only if they have the same plan year and use the same method to satisfy the "ACP" test.

Notwithstanding anything herein to the contrary, if the Plan permits Employees to make Employee Contributions and/or receive Matching Employer Contributions prior to the time the Employees have completed the minimum age and service requirements of Code Section 410(a)(1)(A) and the Employer elects, pursuant to Code Section 410(b)(4)(B), to disaggregate the Plan into two component plans for purposes of complying with Code Section 410(b)(1), one benefiting Employees who have completed such minimum age and service requirements and the other benefiting Employees who have not, the Plan must be disaggregated in the same manner for ACP testing purposes, unless the Plan applies the alternative rule in Code Section 401(m)(5)(C). In determining the component plans for purposes of such disaggregation, the Employer may apply the maximum entry dates permitted under Code Section 410(a)(4).

The Employer shall maintain records sufficient to demonstrate satisfaction of the "ACP" test and the amount of Deferral Contributions, Qualified Nonelective Employer Contributions, and/or Qualified Matching Employer Contributions used in such test.

6.07. Allocation, Distribution, and Forfeiture of "Excess Aggregate Contributions". Notwithstanding any other provision of the Plan, the "excess aggregate contributions" allocable to the Account of a Participant, plus any income and minus any loss allocable thereto, as determined under Section 6.08, shall be forfeited, if forfeitable, or if not forfeitable, distributed to the Participant no later than the last day of the Plan Year immediately following the Plan Year in which the "excess aggregate contributions" were made. If such excess amounts are distributed more than 2 1/2 months (this period may be 6 months if the Plan has adopted an EACA within Subsection 1.07(a)(4)(B) of the Adoption Agreement and has elected, pursuant to the Administrator's separate written procedures established pursuant to Subsection 5.03(c), to cover all Eligible Employees by the EACA) after the last day of the Plan Year in which such "excess aggregate contributions" were made, a ten percent excise tax shall be imposed on the Employer maintaining the Plan with respect to such amounts.

The "excess aggregate contributions" allocable to a Participant's Account shall be determined by reducing the "contribution percentage amounts" made for the Plan Year on behalf of "eligible participants" who are Highly Compensated Employees in order of the dollar amount of such "contribution percentage amounts", beginning with the highest such dollar amount.

"Excess aggregate contributions" shall be treated as "annual additions".

"Excess aggregate contributions" shall be forfeited or distributed from a Participant's Employee Contributions sub-account, Matching Employer Contributions sub-account and, if applicable, the Participant's Deferral Contributions sub-account and/or Qualified Nonelective Employer Contributions sub-account in the order prescribed and communicated to the Trustee, which order shall be uniform with respect to all Participants and nondiscriminatory. In the event that "excess aggregate contributions" are allocated to a Participant's Deferral Contributions sub-accounts, such "excess aggregated contributions" will be distributed first from the Participant's Deferral Contributions for the Plan Year other than his Roth 401(k) Contributions then from his Roth 401(k) Contributions unless provided otherwise in the Adoption Agreement.

Forfeitures of "excess aggregate contributions" shall be applied as provided in Section 11.09.

6.08. Income or Loss on Distributable Contributions. The income or loss allocable to "excess deferrals", "excess contributions", and "excess aggregate contributions" shall be determined under one of the following methods:

(a) the income or loss attributable to such distributable contributions shall be the income or loss for the "determination year" allocable to the Participant's Account to which such contributions were made multiplied by a fraction, the numerator of which is the amount of the distributable contributions and the denominator of which is the balance of the Participant's Account to which such contributions were made, determined as of the end of the "determination year" without regard to any income or loss occurring during the "determination year"; or

(b) the income or loss attributable to such distributable contributions shall be the income or loss on such contributions for the "determination year", determined under any other reasonable method. Any reasonable method used to determine income or loss hereunder shall be used consistently for all Participants in determining the income or loss allocable to distributable contributions hereunder and shall be the same method that is used by the Plan in allocating income or loss to Participants' Accounts.

6.09. Deemed Satisfaction of "ADP" Test. Notwithstanding any other provision of this Article 6 to the contrary, if the Employer has elected in Subsection 1.11(a)(3) or Subsection 1.12(a)(3) of the Adoption Agreement to make 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions, the portion of the Plan for which the election applies shall be deemed to have satisfied the "ADP" test described in Section 6.03 for a Plan Year provided all of the following requirements are met with regard to the Active Participants within such portion of the Plan:

(a) The 401(k) Safe Harbor Matching Employer Contribution or 401(k) Safe Harbor Nonelective Employer Contribution must be allocated to an Active Participant's Account, unless provided otherwise in the Adoption Agreement, as of a date within such Plan Year and must be made before the last day of the 12-month period immediately following such Plan Year.

(b) If the Employer has elected to make 401(k) Safe Harbor Matching Employer Contributions, such 401(k) Safe Harbor Matching Employer Contributions must be made with respect to Deferral Contributions made by the Active Participant for such Plan Year.

(c) The Employer shall provide to each Active Participant during the Plan Year a comprehensive notice, written in a manner calculated to be understood by the average Active Participant, of the Active Participant's rights and obligations under the Plan. If the Employer either (i) is considering amending its Plan to satisfy the "ADP" test using 401(k) Safe Harbor Nonelective Employer Contributions, as provided in Section 6.11, or (ii) has selected 401(k) Safe Harbor Nonelective Employer Contributions under Subsection 1.12(a)(3)(B), the notice shall include a statement that the Plan may be amended to provide a 401(k) Safe Harbor Nonelective Employer Contribution for the Plan Year. The notice shall be provided to each Active Participant within one of the following periods, whichever is applicable:

(1) if the Employee is an Active Participant 90 days before the beginning of the Plan Year, within the period beginning 90 days and ending 30 days, or any other reasonable period as required by Sections l.401(k)-3 and 1.401(m)-3 of the Treasury Regulations, before the first day of the Plan Year; or

(2) if the Employee becomes an Active Participant after the date described in paragraph (1) above, within the period beginning 90 days before and ending on the date he becomes an Active Participant.

However, in the case of a notice for an automatic contribution arrangement pursuant to Code Section 401(k)(13), the notice must be provided sufficiently early to allow an Eligible Employee to make an election to avoid the contribution pursuant to Section 5.03(c). Notwithstanding the preceding requirement, the Administrator cannot make a Participant’s default contribution pursuant to Section 5.03(c) effective any later than the earlier of (i) the pay date for the second payroll period that begins after the date the notice is provided; or, (ii) the first pay date that occurs at least 30 days after the notice is provided.

If the notice provides that the Plan may be amended to provide a 401(k) Safe Harbor Nonelective Employer Contribution for the Plan Year and the Plan is amended to provide such contribution, a supplemental notice shall be provided to all Active Participants stating that a 401(k) Safe Harbor Nonelective Employer Contribution in the specified amount shall be made for the Plan Year. Such supplemental notice shall be provided to Active Participants at least 30 days before the last day of the Plan Year.

(d) If the Employer has elected to make 401(k) Safe Harbor Matching Employer Contributions, the ratio of Matching Employer Contributions made on behalf of each Highly Compensated Employee for the Plan Year to each

such Highly Compensated Employee's eligible contributions for the Plan Year is not greater than the ratio of Matching Employer Contributions to eligible contributions that would apply to any Non-Highly Compensated Employee for whom such eligible contributions are the same percentage of Compensation, adjusted as provided in Section 5.02, for the Plan Year.

(e) Except as otherwise provided in Subsection 6.11(b) or with respect to a Plan Year described in (2) below, the Plan is amended to provide for 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions before the first day of such Plan Year and, except as otherwise provided in Subsection 6.11(d) or with respect to a Plan Year described in (1) through (4) below, such provisions remain in effect for an entire 12-month Plan Year. The 12-month Plan Year requirement shall not apply to:

(1) The first Plan Year of a newly established Plan (other than a successor plan) if such Plan Year is at least 3 months long, provided that the 3-month requirement shall not apply in the case of a newly established employer that establishes a plan as soon as administratively feasible;

(2) The Plan Year in which a cash or deferred arrangement is first added to an existing plan (other than a successor plan) if the cash or deferred arrangement is effective no later than 3 months before the end of such Plan Year;

(3) Any short Plan Year resulting from a change in Plan Year if (i) the Plan satisfied the safe harbor requirements for the immediately preceding Plan Year and (ii) the Plan satisfies the safe harbor requirements for the immediately following Plan Year (or the immediately following 12 months, if the following Plan Year has fewer than 12 months);

(4) The final Plan Year of a terminating Plan if any of the following applies: (i) the Plan would satisfy the provisions of paragraph Subsection 6.11(d) below, other than the provisions of paragraph Subsection 6.11(d)(3), treating the termination as an election to reduce or suspend 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions; (ii) the termination is in connection with a transaction described in Code Section 410(b)(6)(C); or (iii) the Employer incurs a substantial business hardship comparable to a substantial business hardship described in Code Section 412(d).

Notwithstanding any other provision of this Section, if the Employer has elected a more stringent eligibility requirement in Section 1.04 of the Adoption Agreement for 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions than for Deferral Contributions, the Plan shall be disaggregated in accordance with Section 6.03 and treated as two separate plans pursuant to Code Section 410(b)(4)(B). The separate disaggregated plan that satisfies Code Section 401(k)(12) shall be deemed to have satisfied the "ADP" test. The other disaggregated plan shall be subjected to the "ADP" test described in Section 6.03. If the Employer has elected Option 1.11(a)(3)(D) or 1.12(a)(3)(C) to exclude some Participants from receiving 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions, the Plan shall be deemed to have satisfied the "ADP" test only with respect to those employees who are eligible to receive such contributions. The remainder of the Plan shall be subjected to the "ADP" test described in Section 6.03.

Except as otherwise provided in Subsection 6.11(d) regarding amendments suspending or eliminating 401(k) Safe Harbor Matching Contributions or 401(k) Safe Harbor Nonelective Employer Contributions, a plan that does not meet the requirements specified in (a) through (e) above with respect to a Plan Year may not default to ADP testing in accordance with Section 6.03 above.

6.10. Deemed Satisfaction of "ACP" Test With Respect to Matching Employer Contributions. The portion of the Plan that is deemed to satisfy the "ADP" test pursuant to Section 6.09 shall also be deemed to have satisfied the "ACP" test described in Section 6.06 with respect to Matching Employer Contributions, if Matching Employer Contributions to the Plan for the Plan Year meet all of the following requirements:

(a) Matching Employer Contributions meet the requirements of Subsections 6.09(a) and (b) as if they were 401(k) Safe Harbor Matching Employer Contributions;

(b) the percentage of eligible contributions matched does not increase as the percentage of Compensation contributed increases;

(c) the ratio of Matching Employer Contributions made on behalf of each Highly Compensated Employee for the Plan Year to each such Highly Compensated Employee's eligible contributions for the Plan Year is not greater than the ratio of Matching Employer Contributions to eligible contributions that would apply to each Non-Highly Compensated Employee for whom such eligible contributions are the same percentage of Compensation, adjusted as provided in Section 5.02, for the Plan Year;

(d) eligible contributions matched do not exceed six percent of a Participant's Compensation; and

(e) if the Employer elected in Subsection 1.11(a)(2) or 1.11(b) of the Adoption Agreement to provide discretionary Matching Employer Contributions, the Employer also limited the dollar amount of such discretionary Matching Employer Contributions allocated to a Participant for the Plan Year to no more than four percent of such Participant's Compensation for the Plan Year.

The portion of the Plan not deemed to have satisfied the "ACP" test pursuant to this Section shall be subject to the "ACP" test described in Section 6.06 with respect to Matching Employer Contributions.

If the Plan provides for Employee Contributions, the "ACP" test described in Section 6.06 must be applied with respect to such Employee Contributions.

6.11. Changing Testing Methods. In accordance with Treas. Regs. 1.401(k)-1(e)(7) and 1.401(m)-1(c)(2), it is impermissible for the Employer to use "ADP" and "ACP" testing for a Plan Year in which it is intended for the Plan through its written terms to be a Code Section 401(k) safe harbor plan and Code Section 401(m) safe harbor plan and the Employer fails to satisfy the requirements of such safe harbors for the Plan Year. Notwithstanding any other provisions of the Plan, if the Employer elects to change between the "ADP" testing method and the safe harbor testing method, the following shall apply:

(a) Except as otherwise specifically provided in this Section or Subsection 6.09, or applicable regulation, the Employer may not change from the "ADP" testing method to the safe harbor testing method unless Plan provisions adopting the safe harbor testing method are adopted before the first day of the Plan Year in which they are to be effective and remain in effect for an entire 12-month Plan Year.

(b) A Plan may be amended during a Plan Year to make 401(k) Safe Harbor Nonelective Employer Contributions to satisfy the testing rules for such Plan Year if:

(1) The Employer provides both the initial and subsequent notices described in Section 6.09 for such Plan Year within the time period prescribed in Section 6.09.

(2) The Employer amends its Adoption Agreement no later than 30 days prior to the end of such Plan Year to provide for 401(k) Safe Harbor Nonelective Employer Contribution in accordance with the provisions of Option 1.12(a)(3)(B).

(c) Except as otherwise specifically provided in this Section, a Plan may not be amended during the Plan Year to discontinue 401(k) Safe Harbor Nonelective or Matching Employer Contributions and revert to the "ADP" testing method for such Plan Year.

(d) A Plan may be amended to reduce or suspend 401(k) Safe Harbor Matching Contributions or 401(k) Safe Harbor Nonelective Employer Contributions for a Plan year, if the Employer provides in the notice described in Section 6.09(b) that the plan may be amended during the Plan Year to reduce or suspend such contributions or the Employer is operating at an economic loss (as described in Code Section 412(c)(2)(A)), and revert to the "ADP" testing method (and, if applicable, the “ACP” testing method) for such Plan Year if:

(1) All Eligible Employees are provided notice of the reduction or suspension describing (i) the consequences of the amendment, (ii) the procedures for changing their salary reduction agreements, and (iii) the effective date of the reduction or suspension.

(2) The reduction or suspension of such contributions is no earlier than the later of (i) 30 days after the date the notice described in paragraph (1) is provided to Eligible Employees or (ii) the date the amendment is adopted.

(3) Active Participants are given a reasonable opportunity before the reduction or suspension occurs, including a reasonable period after the notice described in paragraph (1) is provided to Eligible Employees, to change amounts elected or deemed elected under Section 5.03 and, if applicable, Section 5.04.

(4) With regard to 401(k) Safe Harbor Matching Employer Contributions, the Plan satisfies the 401(k) Safe Harbor Matching Employer Contributions provisions of the Adoption Agreement in effect prior to the amendment with respect amounts elected or deemed elected under Section 5.03 and, if applicable, Section 5.04 made through the effective date of the amendment.

(5) With regard to 401(k) Safe Harbor Nonelective Employer Contributions, the Plan satisfies the 401(k) Safe Harbor Nonelective Employer Contributions provisions of the Adoption Agreement in effect prior to the amendment with respect to the safe harbor compensation (compensation meeting the requirements of Section 1.401(k)-3(b)(2) of the Treasury Regulations) paid through the effective date of the amendment.

If the Employer amends its Plan in accordance with the provisions of this paragraph (d), the "ADP" test described in Section 6.03 and the "ACP" test described in Section 6.06 shall be applied as if they had been in effect for the entire Plan Year using the current year testing method in Subsection 1.06(a)(1) of the Adoption Agreement.

6.12. Code Section 415 Limitations. Notwithstanding any other provisions of the Plan, the following limitations shall apply:

(a) Employer Maintains Single Plan. If the "415 employer" does not maintain any other qualified defined contribution plan or any "welfare benefit fund", "individual medical benefit account", or "simplified employee pension" in addition to the Plan, the provisions of this Subsection 6.12(a) shall apply.

(1) If a Participant does not participate in, and has never participated in any other qualified defined contribution plan, "welfare benefit fund", "individual medical benefit account", or "simplified employee pension" maintained by the "415 employer", which provides an "annual addition", the amount of "annual additions" to the Participant's Account for a Limitation Year shall not exceed the lesser of the "maximum permissible amount" or any other limitation contained in the Plan. If a contribution that would otherwise be contributed or allocated to the Participant's Account would cause the "annual additions" for the Limitation Year to exceed the "maximum permissible amount", the amount contributed or allocated shall be reduced so that the "annual additions" for the Limitation Year shall equal the "maximum permissible amount".

(2) Prior to the determination of a Participant's actual "415 compensation" for a Limitation Year, the "maximum permissible amount" may be determined on the basis of a reasonable estimation of the Participant's "415 compensation" for such Limitation Year, uniformly determined for all Participants similarly situated. Any Employer contributions to be made based on estimated annual "415 compensation" shall be reduced by any "excess 415 amounts" carried over from prior Limitation Years.

(3) As soon as is administratively feasible after the end of the Limitation Year, the "maximum permissible amount" for such Limitation Year shall be determined on the basis of the Participant's actual "415 compensation" for such Limitation Year.

(b) Employer Maintains Multiple Defined Contribution Type Plans. Unless the Employer specifies another method for limiting "annual additions" in the 415 Correction Addendum to the Adoption Agreement, if the "415 employer" maintains any other qualified defined contribution plan or any "welfare benefit fund", "individual medical benefit account", or "simplified employee pension" in addition to the Plan, the provisions of this Subsection 6.12(b) shall apply.

(1) If a Participant is covered under any other qualified defined contribution plan or any "welfare benefit fund", "individual medical benefit account", or "simplified employee pension" maintained by the "415 employer", that provides an "annual addition", the amount of "annual additions" to the Participant's Account for a Limitation Year shall not exceed the lesser of:

(A) the "maximum permissible amount", reduced by the sum of any "annual additions" to the Participant's accounts for the same Limitation Year under such other qualified defined

contribution plans and "welfare benefit funds", "individual medical benefit accounts", and "simplified employee pensions", or

(B) any other limitation contained in the Plan.

If the "annual additions" with respect to a Participant under other qualified defined contribution plans, "welfare benefit funds", "individual medical benefit accounts", and "simplified employee pensions" maintained by the "415 employer" are less than the "maximum permissible amount" and a contribution that would otherwise be contributed or allocated to the Participant's Account under the Plan would cause the "annual additions" for the Limitation Year to exceed the "maximum permissible amount", the amount to be contributed or allocated shall be reduced so that the "annual additions" for the Limitation Year shall equal the "maximum permissible amount". If the "annual additions" with respect to the Participant under such other qualified defined contribution plans, "welfare benefit funds", "individual medical benefit accounts", and "simplified employee pensions" in the aggregate are equal to or greater than the "maximum permissible amount", no amount shall be contributed or allocated to the Participant's Account under the Plan for the Limitation Year.

(2) Prior to the determination of a Participant's actual "415 compensation" for the Limitation Year, the amounts referred to in Subsection 6.12(b)(1)(A) above may be determined on the basis of a reasonable estimation of the Participant's "415 compensation" for such Limitation Year, uniformly determined for all Participants similarly situated. Any Employer contribution to be made based on estimated annual "415 compensation" shall be reduced by any "excess 415 amounts" carried over from prior Limitation Years.

(3) As soon as is administratively feasible after the end of the Limitation Year, the amounts referred to in Subsection 6.12(b)(1)(A) shall be determined on the basis of the Participant's actual "415 compensation" for such Limitation Year.

(c) Corrections. In correcting an "excess 415 amount" in a Limitation Year, the Employer may use any appropriate correction under the Employee Plans Compliance Resolution System, or any successor thereto.

(d) Exclusion from Annual Additions. Restorative payments allocated to a Participant's Account, which include payments made to restore losses to the Plan resulting from actions (or a failure to act) by a fiduciary for which there is a reasonable risk of liability under Title I of ERISA or under other applicable federal or state law, where similarly situated Participants are similarly treated do not give rise to an "annual addition" for any Limitation Year.

Article 7. Participants' Accounts.

7.01. Individual Accounts. The Administrator shall establish and maintain an Account for each Participant that shall reflect Employer and Employee contributions made on behalf of the Participant and earnings, expenses, gains and losses attributable thereto, and investments made with amounts in the Participant's Account. The Administrator shall separately account for any Deferral Contributions made on behalf of a Participant and the earnings, expenses, gains and losses attributable thereto. The Administrator shall establish and maintain such other accounts, including plan-level accounts not specifically described within the Plan, and records as it decides in its discretion to be reasonably required or appropriate in order to discharge its duties under the Plan. The Administrator shall notify the Trustee of all Accounts established and maintained under the Plan.

If "designated Roth contributions", as defined in Section 6.01, are held under the Plan either as Rollover Contributions or because of an Active Participant's election to make Roth 401(k) Contributions under the terms of the Plan, separate accounts shall be maintained with respect to such "designated Roth contributions." Contributions and withdrawals of "designated Roth contributions" will be credited and debited to the "designated Roth contributions" sub-account maintained for each Participant within the Participant's Account. The Plan will maintain a record of the amount of "designated Roth contributions" in each such sub-account. Gains, losses, and other credits or charges will be separately allocated on a reasonable and consistent basis to each Participant's "designated Roth contributions" sub-account and the Participant's other sub-accounts within the Participant's Account under the Plan. No contributions other than "designated Roth contributions" and properly attributable earnings will be credited to each Participant's "designated Roth contributions" sub-account.

7.02. Valuation of Accounts. Participant Accounts shall be valued at their fair market value at least annually as of a "determination date", as defined in Subsection 15.01(a), in accordance with a method consistently followed and uniformly applied, and on such date earnings, expenses, gains and losses on investments made with amounts in each Participant's Account shall be allocated to such Account.

Article 8. Investment of Contributions.

8.01. Manner of Investment. All contributions made to the Accounts of Participants shall be held for investment by the Trustee. The Accounts of Participants shall be invested and reinvested only in Permissible Investments generally described in the Service Agreement.

8.02. Investment Decisions. Investments in Participant Accounts shall be directed in accordance with the Employer's election in Subsection 1.24 of the Adoption Agreement.

(a) With respect to those Participant Accounts for which Investment Fiduciary investment direction is elected, the Investment Fiduciary shall direct the Trustee with respect to the investment and reinvestment of assets in the Permissible Investments.

(b) With respect to those Participant Accounts for which Participant investment direction is elected, each Participant shall direct the investment of his Account among the Permissible Investments.

(1) While any balance remains in the Account of a Participant after his death, the Beneficiary of the Participant shall make decisions as to the investment of the Account as though the Beneficiary were the Participant. To the extent not prohibited by a qualified domestic relations order as defined in Code Section 414(p), an alternate payee shall make investment decisions with respect to any segregated account established in the name of the alternate payee as provided in Section 18.04.

(2) If the Trustee receives any contribution under the Plan as to which investment instructions have not been provided, such amount shall be invested in the Permissible Investment(s) directed by the Investment Fiduciary.

To the extent that the Employer elects to allow Participants to direct the investment of their Account in Section 1.24 of the Adoption Agreement, the Plan is intended to constitute a plan described in ERISA Section 404(c)(1) and regulations issued thereunder. The fiduciaries of the Plan shall be relieved of liability for any losses that are the direct and necessary result of investment instructions given by the Participant, his Beneficiary, or an alternate payee under a qualified domestic relations order.

If one of the Permissible Investments for the Plan is employer securities (as defined in Section 407(d)(1) of ERISA) of a publicly traded company or one treated as publicly traded pursuant to Section 401(a)(35)(F) of the Code, the Plan must have no fewer than three Permissible Investments, other than such employer securities, each of which must be diversified and have materially different risk and return characteristics. To the extent contributions to the Plan have been required to be invested in such employer securities through Section 1.24(b) and subject to any restrictions described therein, a Participant or Beneficiary must be permitted to direct the investment of the proceeds from an exchange out of employer securities into one of the Permissible Investments described in this paragraph. Except as provided in Reg. Section 1.401(a)(35)-1 and other applicable guidance, the Plan shall not impose restrictions or conditions with respect to the investment of employer securities that are not imposed on the other Permissible Investments, except any restrictions or conditions imposed by reason of the application of securities laws.

(c) All dividends, interest, gains and distributions of any nature received in respect of Fund Shares shall be reinvested in additional shares of that Permissible Investment, except as otherwise directed by the Investment Fiduciary.

(d) Expenses attributable to the acquisition of investments shall be charged to the Account of the Participant for which such investment is made as directed by the Investment Fiduciary.

The Investment Fiduciary, as named fiduciary for the Plan, may appoint one or more investment managers (as defined under Section 3(38) of ERISA) who may have such duties as the Investment Fiduciary in its sole discretion shall determine in its appointment and agreement with such investment manager(s), up to and including any

authority to determine what shall be the Permissible Investments for the Plan at any given time, what restrictions will exist upon those and how unallocated accounts under the Plan and contributions described in Section 8.02(b)(2) of the Plan shall be invested. Such agreement(s) may limit, to the extent permissible under ERISA, the Investment Fiduciary's authority and responsibility for the Plan's Permissible Investments so delegated to the investment manager(s). The Investment Fiduciary shall retain the authority to revoke any such appointment of an investment manager and, if such investment manager is not the Trustee, shall notify the Trustee of any such revocation in a mutually agreed upon form and manner. The Investment Fiduciary may appoint an investment manager (which may be an affiliate of the Trustee) to determine the allocation of amounts held in Participants' Accounts among various investment options (the "Managed Account" option) for Participants who direct the Trustee to invest any portion of their accounts in the Managed Account option. The investment options utilized under the Managed Account option may be those generally available under the Plan or may be as selected by the investment manager for use under the Managed Account option. Participation in the Managed Account option shall be subject to such conditions and limitations (including account minimums) as may be imposed by the investment manager. Notwithstanding anything else herein to the contrary, an investment manager (which may be the Trustee or an affiliate of the Trustee) may also be appointed to manage any Permissible Investment subject to management by such investment manager.

The Investment Fiduciary may also, by written instrument, allocate and delegate its fiduciary responsibilities in accordance with ERISA Section 405.

8.03. Participant Directions to Trustee. The method and frequency for change of investments shall be determined under the rules applicable to the Permissible Investments, including any additional rules limiting the frequency of investment changes, as may be agreed upon by the recordkeeper. The Trustee shall have no duty to inquire into the investment decisions of a Participant, Beneficiary, or alternate payee or to advise such individual regarding the purchase, retention, or sale of assets credited to his Account.

8.04. Life Insurance. All insurance contracts must provide that proceeds shall be payable to the Plan; provided, however, that the policy holder shall be required to pay over all proceeds of any such contract to the Participant's designated Beneficiary in accordance with the distribution provisions of this Plan. A Participant's Spouse shall be the designated Beneficiary of the proceeds in all circumstances unless a qualified election has been made in accordance with Article 14. Under no circumstances shall the policy holder retain any part of the proceeds. In the event of any conflict between the terms of the Plan and the terms of any insurance contract purchased hereunder, the Plan provisions shall control.

Any life insurance contracts held for the Plan are subject to the following limits:

(a) Ordinary life - For purposes of these incidental insurance provisions, ordinary life insurance contracts are contracts with both nondecreasing death benefits and nonincreasing premiums. If such contracts are held, less than 1/2 of the aggregate employer contributions allocated to any Participant shall be used to pay the premiums attributable to them.

(b) Term and universal life - No more than 1/4 of the aggregate employer contributions allocated to any participant shall be used to pay the premiums on term life insurance contracts, universal life insurance contracts, and all other life insurance contracts which are not ordinary life.

(c) Combination - The sum of 1/2 of the ordinary life insurance premiums and all other life insurance premiums shall not exceed 1/4 of the aggregate employer contributions allocated to any Participant.

Article 9. Participant Loans.

9.01. Special Definition. For purposes of this Article, a "**participant**" is any Participant or Beneficiary, including an alternate payee under a qualified domestic relations order, as defined in Code Section 414(p), who is a party-in-interest (as determined under ERISA Section 3(14)) with respect to the Plan.

9.02. Participant Loans. If so provided by the Employer in Section 1.18 of the Adoption Agreement, the Administrator shall allow "participants" to apply for a loan from their Accounts under the Plan, subject to the provisions of this Article 9.

9.03. Separate Loan Procedures. All Plan loans shall be made and administered in accordance with separate loan procedures that are hereby incorporated into the Plan by reference. The separate loan procedures shall describe the portions of a Participant's Account from which loans may be calculated or taken.

9.04. **Availability of Loans.** Loans shall be made available to all "participants" on a reasonably equivalent basis. Loans shall not be made available to "participants" who are Highly Compensated Employees in an amount greater than the amount made available to other "participants".

9.05. **Limitation on Loan Amount.** No loan to any "participant" shall be made to the extent that such loan when added to the outstanding balance of all other loans to the "participant" would exceed the lesser of (a) $50,000 reduced by the excess (if any) of the highest outstanding balance of plan loans during the one-year period ending on the day before the loan is made over the outstanding balance of plan loans on the date the loan is made, or (b) one-half the present value of the "participant's" vested interest in his Account. For purposes of the above limitation, plan loans include all loans from all plans maintained by the Employer and any Related Employer.

9.06. **Interest Rate.** Subject to the requirements of the Servicemembers Civil Relief Act, all loans shall bear a reasonable rate of interest as determined by the Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances.

9.07. **Level Amortization.** All loans shall by their terms require that repayment (principal and interest) be amortized in level payments, not less frequently than quarterly, over a period not extending beyond five years from the date of the loan unless such loan is for the purchase of a "participant's" primary residence. Notwithstanding the foregoing, the amortization requirement may be waived while a "participant" is on a leave of absence from employment with the Employer and any Related Employer either without pay or at a rate of pay which, after withholding for employment and income taxes, is less than the amount of the installment payments required under the terms of the loan, provided that the period of such waiver shall not exceed one year, unless the "participant" is absent because of military leave during which the "participant" performs services with the uniformed services (as defined in chapter 43 of title 38 of the United States Code), regardless of whether such military leave is a qualified military leave in accordance with the provisions of Code Section 414(u). Installment payments must resume after such leave of absence ends or, if earlier, after the first year of such leave of absence, in an amount that is not less than the amount of the installment payments required under the terms of the original loan. Unless a "participant" is absent because of military leave, as discussed below, no waiver of the amortization requirements shall extend the period of the loan beyond five years from the date of the loan, unless the loan is for purchase of the "participant's" primary residence. If a "participant" is absent because of military leave during which the "participant" performs services with the uniformed services (as defined in chapter 43 of title 38 of the United States Code), regardless of whether such military leave is a qualified military leave in accordance with the provisions of Code Section 414(u), waiver of the amortization requirements may extend the period of the loan to the maximum period permitted for such loan under the separate loan procedures extended by the period of such military leave.

9.08. **Security.** Loans must be secured by the "participant's" vested interest in his Account not to exceed 50 percent of such vested interest. If the provisions of Section 14.04 apply to a Participant, a Participant must obtain the consent of his or her Spouse, if any, to use his vested interest in his Account as security for the loan. Spousal consent shall be obtained no earlier than the beginning of the 180-day period that ends on the date on which the loan is to be so secured. The consent must be in writing, must acknowledge the effect of the loan, and must be witnessed by a Plan representative or notary public. Such consent shall thereafter be binding with respect to the consenting Spouse or any subsequent Spouse with respect to that loan. Any revision of such a loan permitted by Q & A 24(c) of Section 1.401(a)-20 of the Treasury Regulations and the Plan's separate loan procedures shall be treated as a new loan made on the date of such revision for purposes of spousal consent.

9.09. **Loan Repayments.** If a "participant's" loan is being repaid through payroll withholding, the Employer shall remit any such loan repayment to the Trustee as of the earliest date on which such amount can reasonably be segregated from the Employer's general assets, but not later than the earlier of (a) the close of the period specified in the separate loan procedures for preventing a default or (b) the 15th business day of the calendar month following the month in which such amount otherwise would have been paid to the "participant".

9.10. **Default.** The Administrator shall treat a loan in default if:

(a) any scheduled repayment remains unpaid at the end of the cure period specified in the separate loan procedures for that payment (unless payment is not made due to a waiver of the amortization schedule for a "participant" who is on a leave of absence, as described in Section 9.07), or

(b) there is an outstanding principal balance existing on a loan after the last scheduled repayment date.

Upon default, the entire outstanding principal and accrued interest shall be immediately due and payable. If a distributable event (as defined by the Code) has occurred, the Administrator shall direct the Trustee to foreclose on the promissory note and offset the "participant's" vested interest in his Account by the outstanding balance of the loan. If a distributable event has not occurred, the Administrator shall direct the Trustee to foreclose on the promissory note and offset the "participant's" vested interest in his Account as soon as a distributable event occurs. The Trustee shall have no obligation to foreclose on the promissory note and offset the outstanding balance of the loan except as directed by the Administrator.

9.11. Effect of Termination Where Participant has Outstanding Loan Balance. If so provided in Section 1.18(a) of the Adoption Agreement, if a Participant has an outstanding loan balance at the time his employment terminates, the entire outstanding principal and accrued interest shall be due and payable by the end of the cure period specified in the separate loan procedures. Any outstanding loan amounts that are immediately due and payable hereunder shall be treated in accordance with the provisions of Sections 9.10 and 9.12 as if the Participant had defaulted on the outstanding loan.

9.12. Deemed Distributions Under Code Section 72(p). Notwithstanding the provisions of Section 9.10, if a "participant's" loan is in default, the "participant" shall be treated as having received a taxable "deemed distribution" for purposes of Code Section 72(p), whether or not a distributable event has occurred. The tax treatment of that portion of a defaulted loan that is secured by Roth 401(k) Contributions shall be determined in accordance with Code Section 402A and guidance issued thereunder.

The amount of a loan that is a deemed distribution ceases to be an outstanding loan for purposes of Code Section 72, except as otherwise specifically provided herein, and a Participant shall not be treated as having received a taxable distribution when the Participant's Account is offset by the outstanding balance of the loan amount as provided in Section 9.10. In addition, interest that accrues on a loan after it is deemed distributed shall not be treated as an additional loan to the Participant and shall not be included in the income of the Participant as a deemed distribution. Notwithstanding the foregoing, unless a Participant repays a loan that has been deemed distributed, with interest thereon, the amount of such loan, with interest, shall be considered an outstanding loan under Code Section 72(p) for purposes of determining the applicable limitation on subsequent loans under Section 9.05.

If a Participant makes payments on a loan that has been deemed distributed, payments made on the loan after the date it was deemed distributed shall be treated as Employee Contributions to the Plan for purposes of increasing the Participant's tax basis in his Account, but shall not be treated as Employee Contributions for any other purpose under the Plan, including application of the "ACP" test described in Section 6.06 and application of the Code Section 415 limitations described in Section 6.12.

The provisions of this Section 9.12 regarding treatment of loans that are deemed distributed shall not apply to loans made prior to January 1, 2002, except to the extent provided under the transition rules in Q & A 22(c)(2) of Section 1.72(p)-l of the Treasury Regulations.

9.13. Determination of Vested Interest Upon Distribution Where Plan Loan is Outstanding. Notwithstanding any other provision of the Plan, the portion of a "participant's" vested interest in his Account that is held by the Plan as security for a loan outstanding to the "participant" in accordance with the provisions of this Article shall reduce the amount of the Account payable at the time of death or distribution, but only if the reduction is used as repayment of the loan. If less than 100 percent of a "participant's" vested interest in his Account (determined without regard to the preceding sentence) is payable to the "participant's" surviving Spouse or other Beneficiary, then the Account shall be adjusted by first reducing the "participant's" vested interest in his Account by the amount of the security used as repayment of the loan, and then determining the benefit payable to the surviving Spouse or other Beneficiary.

Article 10. In-Service Withdrawals.

10.01. Availability of In-Service Withdrawals. Except as otherwise provided in this Article, as permitted under Section 11.02 with respect to Participants who continue in employment past Normal Retirement Age, or as required under Section 12.04 with respect to Participants who continue in employment past their Required Beginning Date, a Participant shall not be permitted to make a withdrawal from his Account under the Plan prior to retirement or termination of employment with the Employer and all Related Employers, if any.

(a) Active Military Distribution (HEART Act): If so provided by the Employer in Subsection 1.19(c)(3), a Participant performing service in the uniformed services as described in Code Section 3401(h)(2)(A) shall be treated

as having been severed from employment with the Employer for purposes of Code Section 401(k)(2)(B)(i)(I) and shall, as long as that service in the uniformed services continues, have the option to request a distribution of all or any part of his or her Account restricted from distribution only due to Code Section 401(k)(2)(B)(i)(I). Any distribution taken by a Participant pursuant to the previous sentence shall be considered an eligible rollover distribution pursuant to Section 13.04(c) of the Plan and any Participant taking a distribution under this Subsection shall be suspended from making Deferral Contributions and Employee Contributions under the Plan for a period of 6 months following the date of any such distribution.

10.02. Withdrawal of Employee Contributions. A Participant may elect to withdraw up to 100 percent of the amount then credited to his Employee Contributions sub-account. Such withdrawals may be made in accordance with the frequency constraints selected through Subsection 1.19(c) of the Adoption Agreement.

10.03. Withdrawal of Rollover Contributions. A Participant may elect to withdraw up to 100 percent of the amount then credited to his Rollover Contributions sub-account. Such withdrawals may be made at any time.

10.04. Age 59 1/2 Withdrawals. If so provided by the Employer in Subsection 1.19(b) of the Adoption Agreement or the In-Service Withdrawals Addendum to the Adoption Agreement, a Participant who continues in employment as an Employee and who has attained the age of 59 1/2 is permitted to withdraw upon request all or any portion of his Accounts specified by the Employer in Subsection 1.19(b) of the Adoption Agreement or the In-Service Withdrawals Addendum to the Adoption Agreement, as applicable and as may be limited therein.

10.05. Hardship Withdrawals. If so provided by the Employer in Subsection 1.19(a) of the Adoption Agreement, a Participant who continues in employment as an Employee may apply for a hardship withdrawal. Unless provided otherwise in the Service Agreement, the Participant may apply by certifying to the Administrator all of the required criteria specified in this Section. Such certification shall represent that the Participant has documentation substantiating the hardship. Such a hardship withdrawal may include all or any portion of the Accounts specified by the Employer in Subsection 1.19(a)(1) of the Adoption Agreement and the In-Service Withdrawals Addendum to the Adoption Agreement, if applicable, excluding any earnings on the Deferral Contributions sub-account accrued after the later of December 31, 1988 or the last day of the last Plan Year ending before July 1, 1989. The minimum amount, if any, that a Participant may withdraw because of hardship is the dollar amount specified by the Employer in Subsection 1.19(a).

For purposes of this Section 10.05, a withdrawal is made on account of hardship if made on account of an immediate and heavy financial need of the Participant where such Participant lacks other available resources. The Administrator shall direct the Trustee with respect to hardship withdrawals and those withdrawals shall be based on the following special rules:

(a) The following are the only financial needs considered immediate and heavy:

(1) expenses incurred or necessary for medical care (that would be deductible under Code Section 213(d), determined without regard to whether the expenses exceed any applicable income limit) of the Participant, the Participant's Spouse, children, or dependents, or a primary beneficiary of the Participant;

(2) costs directly related to the purchase (excluding mortgage payments) of a principal residence for the Participant;

(3) payment of tuition, related educational fees, and room and board for the next 12 months of post-secondary education for the Participant, the Participant's Spouse, children or dependents (as defined in Code Section 152, without regard to subsections (b)(1), (b)(2), and (d)(1)(B) thereof), or a primary beneficiary of the Participant;

(4) payments necessary to prevent the eviction of the Participant from, or a foreclosure on the mortgage on, the Participant's principal residence;

(5) payments for funeral or burial expenses for the Participant's deceased parent, Spouse, child, or dependent (as defined in Code Section 152, without regard to subsection (d)(1)(B) thereof), or a primary beneficiary of the Participant;

(6) expenses for the repair of damage to the Participant's principal residence that would qualify for a casualty loss deduction under Code Section 165 (determined without regard to whether the loss exceeds any applicable income limit); or

(7) any other financial need determined to be immediate and heavy under rules and regulations issued by the Secretary of the Treasury or his delegate; provided, however, that any such financial need shall constitute an immediate and heavy need under this paragraph (7) no sooner than administratively practicable following the date such rule or regulation is issued.

For purposes of this Section, the term "primary beneficiary" means a Beneficiary under the Plan who has an unconditional right to all or a portion of the Participant's Account upon the death of the Participant.

(b) A distribution shall be considered as necessary to satisfy an immediate and heavy financial need of the Participant only if:

(1) The Participant has obtained all distributions, other than the hardship withdrawal, and all nontaxable (at the time of the loan) loans currently available under all plans maintained by the Employer or any Related Employer;

(2) The Participant suspends Deferral Contributions and Employee Contributions to the Plan for the 6-month period following receipt of his hardship withdrawal. The suspension must also apply to all elective contributions and employee contributions to all other qualified plans and non-qualified plans maintained by the Employer or any Related Employer, other than any mandatory employee contribution portion of a defined benefit plan, including stock option, stock purchase, and other similar plans, but not including health and welfare benefit plans (other than the cash or deferred arrangement portion of a cafeteria plan); and

(3) The withdrawal amount is not in excess of the amount of an immediate and heavy financial need (including amounts necessary to pay any Federal, state or local income taxes or penalties reasonably anticipated to result from the distribution).

10.06. Additional In-Service Withdrawal Rules. To the extent required under Code Section 411(d)(6), in-service withdrawals that were available under a prior plan shall be available under the Plan and indicated using Subsection 1.19(g) of the Adoption Agreement. The Employer may also elect additional in-service withdrawal options using Section 1.19(g).

10.07. Restrictions on In-Service Withdrawals. The following restrictions apply to any in-service withdrawal made from a Participant's Account under this Article:

(a) Except with regard to a rollover made pursuant to Subsection 1.09(b), if the provisions of Section 14.04 apply to a Participant's Account, the Participant must obtain the consent of his Spouse, if any, to obtain an in-service withdrawal.

(b) The Participant may elect to receive in-service withdrawals under this Article in any form of distribution described in Section 1.20 of the Adoption Agreement. However, if the provisions of Section 14.04 apply to a Participant's Account, the Participant shall receive the in-service withdrawal in the form of a "qualified joint and survivor annuity", as defined in Subsection 14.01(a), unless the consent rules in Section 14.05 are satisfied, or the Participant has elected to receive the in-service withdrawal in the form of a "qualified optional survivor annuity", as defined in Subsection 14.01(b).

(c) Notwithstanding any other provision of the Plan to the contrary other than the provisions of Section 10.09, 11.02 or 12.04, a Participant shall not be permitted to make an in-service withdrawal from his Account of amounts attributable to contributions made to a money purchase pension plan, except employee and/or rollover contributions that were held in a separate account(s) under such plan.

10.08. Qualified Reservist Distributions. If so elected by the Employer in Section 1.19(d) of the Adoption Agreement, and notwithstanding anything herein to the contrary, a Participant ordered or called to active duty for a period in excess of 179 days or for an indefinite period by reason of being a member of a reserve component (as defined in Section 101 of Title 37, United States Code), shall be eligible to elect to receive a Qualified Reservist Distribution. A "Qualified Reservist Distribution" means a distribution from the Participant's Account of amounts attributable to Deferral Contributions, provided

such distribution is made during the period beginning on the date of the order or call to active duty and ending at the close of the active duty period.

10.09. Age 62 Distribution of Money Purchase Benefits. If so elected by the Employer in Section 1.19(e) of the Adoption Agreement, a Participant who has attained at least age 62 shall be eligible to elect to receive a distribution of vested benefit amounts accrued as a result of the Participant's participation in a money purchase pension plan (due to a merger into this Plan of money purchase pension plan assets), if any.

Article 11. Right to Benefits.

11.01. Normal or Early Retirement. Each Participant who continues in employment as an Employee until his Normal Retirement Age or, if so elected by the Employer in Subsection 1.14(b) of the Adoption Agreement, Early Retirement Age, shall have a vested interest in his Account of 100 percent regardless of any vesting schedule elected in Section 1.16 of the Adoption Agreement. If a Participant retires upon the attainment of Normal or Early Retirement Age, such retirement is referred to as a normal retirement.

11.02. Late Retirement. If a Participant continues in employment as an Employee after his Normal Retirement Age, he shall continue to have a 100 percent vested interest in his Account and shall continue to participate in the Plan until the date he establishes with the Employer for his late retirement. If so elected by the Employer in Section 1.19(f) of the Adoption Agreement, until he retires, he has a continuing right to elect to receive distribution of all or any portion of his Account in accordance with the provisions of Articles 12 and 13; provided, however, that a Participant may not receive any portion of his Deferral Contributions, Qualified Nonelective Employer Contributions, Qualified Matching Employer Contributions, 401(k) Safe Harbor Matching Employer Contributions, or 401(k) Safe Harbor Nonelective Employer Contributions sub-accounts prior to his attainment of age 59 1/2.

11.03. Disability Retirement. If so elected by the Employer in Subsection 1.14(c) of the Adoption Agreement, a Participant who becomes disabled while employed as an Employee, or, unless provided otherwise in the Additional Provisions Addendum to the Adoption Agreement, while performing qualified military service as defined in Code Section 414(u)(5), shall have a 100 percent vested interest in his Account regardless of any vesting schedule elected in Section 1.16 of the Adoption Agreement. An Employee is considered disabled if he satisfies any of the requirements for disability retirement selected by the Employer in Section 1.15 of the Adoption Agreement and terminates his employment with the Employer. Such termination of employment is referred to as a disability retirement.

11.04. Death. A Participant who dies while employed as an Employee, or while performing qualified military service as defined in Code Section 414(u)(5), shall have a 100 percent vested interest in his Account and his designated Beneficiary shall be entitled to receive the balance of his Account, plus any amounts thereafter credited to his Account. If a Participant whose employment as an Employee has terminated dies, his designated Beneficiary shall be entitled to receive the Participant's vested interest in his Account.

A copy of the death notice or other sufficient documentation must be provided to the Administrator using procedures established by the Administrator. If upon the death of the Participant there is, in the opinion of the Administrator, no designated Beneficiary for part or all of the Participant's Account, such amount shall be paid to his surviving Spouse or, if none, to his estate (such Spouse or estate shall be deemed to be the Beneficiary for purposes of the Plan). If a Beneficiary dies after benefits to such Beneficiary have commenced, but before they have been completed, and, in the opinion of the Administrator, no person has been designated to receive such remaining benefits, then such benefits shall be paid in a lump sum to the deceased Beneficiary's estate.

Subject to the requirements of Section 14.04, a Participant may designate a Beneficiary, or change any prior designation of Beneficiary by giving notice to the Administrator using procedures established by the Administrator. If more than one person is designated as the Beneficiary, their respective interests shall be as indicated on the designation form. In the case of a married Participant, the Participant's Spouse shall be deemed to be the designated Beneficiary unless the Participant's Spouse has consented to another designation in the manner described in Section 14.06. Notwithstanding the foregoing, if a Participant's Account is subject to the requirements of Section 14.04 and the Employer has specified in the Forms of Payment Addendum to the Adoption Agreement that less than 100 percent of the Participant's Account that is subject to Section 14.04 shall be used to purchase the "qualified preretirement survivor annuity", as defined in Section 14.01, the Participant may designate a Beneficiary other than his Spouse for the portion of his Account that would not be used to purchase the "qualified preretirement survivor annuity," regardless of whether the Spouse consents to such designation.

11.05. Other Termination of Employment. If a Participant terminates his employment with the Employer and all Related Employers, if any, for any reason other than death or normal, late, or disability retirement, he shall be entitled to a termination benefit equal to the sum of (a) his vested interest in the balance of his Matching Employer and/or Nonelective Employer Contributions sub-account(s), such vested interest to be determined in accordance with Section 5.11 and the vesting schedule(s) selected by the Employer in Section 1.16 of the Adoption Agreement and/or the Eligibility, Service and Vesting Addendum to the Adoption Agreement, and (b) the balance of his Deferral, Employee, Qualified Nonelective Employer, Qualified Matching Employer, and Rollover Contributions sub-accounts.

11.06. Application for Distribution. Except as provided in Subsection 1.21(a) of the Adoption Agreement, a Participant (or his Beneficiary, if the Participant has died) who is entitled to a distribution hereunder must request such distribution, using procedures established by the Administrator, unless the Employer has elected in Subsection 1.20(e)(1) of the Adoption Agreement to cash out de minimus Accounts and the Participant's vested interest in his Account does not exceed the amount subject to automatic distribution pursuant to Section 13.02.

11.07. Application of Vesting Schedule Following Partial Distribution. If a distribution from a Participant's Matching Employer and/or Nonelective Employer Contributions sub-account has been made to him at a time when his vested interest in such Account balance is less than 100 percent, the vesting schedule(s) in Section 1.16 of the Adoption Agreement shall thereafter apply only to the balance of his Account attributable to Matching Employer and/or Nonelective Employer Contributions allocated after such distribution. The balance of the Account from which such distribution was made shall be transferred to a separate account immediately following such distribution.

At any relevant time prior to a forfeiture of any portion thereof under Section 11.08, a Participant's vested interest in such separate account shall be equal to P(AB+(RxD))-(RxD), where P is the Participant's vested interest expressed as a percentage at the relevant time determined under Section 11.05; AB is the account balance of the separate account at the relevant time; D is the amount of the distribution; and R is the ratio of the account balance at the relevant time to the account balance after distribution. Following a forfeiture of any portion of such separate account under Section 11.08 below, the Participant's vested interest in any balance in such separate account shall remain 100 percent.

11.08. Forfeitures. If a Participant terminates his employment with the Employer and all Related Employers before his vested interest in his Matching Employer and/or Nonelective Employer Contributions sub-accounts is 100 percent, the non-vested portion of his Account (including any amounts credited after his termination of employment) shall be forfeited by him as follows:

(a) If the Inactive Participant elects to receive distribution of his entire vested interest in his Account, the non-vested portion of his Account shall be forfeited upon the complete distribution of such vested interest, subject to the possibility of reinstatement as provided in Section 11.10. For purposes of this Subsection, if the value of an Employee's vested interest in his Account balance is zero, the Employee shall be deemed to have received a distribution of his vested interest immediately following termination of employment.

(b) If the Inactive Participant elects not to receive distribution of his vested interest in his Account following his termination of employment, the non-vested portion of his Account shall be forfeited after the Participant has incurred five consecutive Breaks in Vesting Service.

Except as otherwise provided in the Adoption Agreement, no forfeitures shall occur solely as a result of a Participant's withdrawal of Employee Contributions.

11.09. Application of Forfeitures. Any forfeitures occurring during a Plan Year may be used to pay administrative expenses under the Plan at any time, if so directed by the Administrator. Except as provided otherwise in the Adoption Agreement, any forfeitures not used to pay administrative expenses under the Plan shall be applied to reduce the contributions of the Employer for the immediately following Plan Year and held and applied in accordance with this Section 11.09.

Pending application, forfeitures shall be invested as directed by the Investment Fiduciary.

Except as permitted pursuant to EPCRS and notwithstanding any other provision of the Plan to the contrary, in no event may forfeitures be used to reduce the Employer's obligation to remit to the Trust (or other appropriate Plan funding vehicle) loan repayments made pursuant to Article 9, Deferral Contributions, or Employee Contributions.

11.10. Reinstatement of Forfeitures. If a Participant forfeits any portion of his Account under Subsection 11.08(a) because of distribution of his complete vested interest in his Account, but again becomes an Eligible Employee, then the amount so forfeited, without any adjustment for the earnings, expenses, losses, or gains of the assets credited to his Account since the date forfeited, shall be recredited to his Account (or to a separate account as described in Section 11.07, if applicable) if he repays the entire amount of his distribution not attributable to Employee Contributions or Rollover Contributions before the earlier of:

(a) his incurring five-consecutive Breaks in Vesting Service following the date complete distribution of his vested interest was made to him; or

(b) five years after his Reemployment Commencement Date.

If an Employee is deemed to have received distribution of his complete vested interest as provided in Section 11.08, the Employee shall be deemed to have repaid such distribution on his Reemployment Commencement Date.

Upon such an actual or deemed repayment, the provisions of the Plan (including Section 11.07) shall thereafter apply as if no forfeiture had occurred. The amount to be recredited pursuant to this paragraph shall be derived first from the forfeitures, if any, which as of the date of recrediting have yet to be applied as provided in Section 11.09 and, to the extent such forfeitures are insufficient, from a special contribution to be made by the Employer.

11.11. Adjustment for Investment Experience. If any distribution under this Article 11 is not made in a single payment, the amount retained by the Trustee after the distribution shall be subject to adjustment until distributed to reflect the income and gain or loss on the investments in which such amount is invested and any expenses properly charged under the Plan and Trust to such amounts.

Article 12. Distributions.

12.01. Restrictions on Distributions.

(a) Severance from Employment Rule. A Participant, or his Beneficiary, may not receive a distribution from the Participant's Deferral Contributions, Qualified Nonelective Employer Contributions, Qualified Matching Employer Contributions, 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions sub-accounts earlier than upon the Participant's severance from employment with the Employer and all Related Employers, death, or disability, except as otherwise provided in Article 10, Section 11.02 or Section 12.04. If the Employer elected Subsection 1.21(b) of the Adoption Agreement, distribution from the Participant's Deferral Contributions, Qualified Nonelective Employer Contributions, Qualified Matching Employer Contributions, 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions sub-accounts may be further postponed in accordance with the provisions of Subsection 12.01(b) below.

(b) Same Desk Rule. If the Employer elected in Subsection 1.21(b) of the Adoption Agreement to preserve the separation from service rules in effect for Plan Years beginning before January 1, 2002, a Participant, or his Beneficiary, may not receive a distribution from the Participant's Deferral Contributions, Qualified Nonelective Employer Contributions, Qualified Matching Employer Contributions, 401(k) Safe Harbor Matching Employer Contributions or 401(k) Safe Harbor Nonelective Employer Contributions sub-accounts earlier than upon the Participant's separation from service with the Employer and all Related Employers, death, or disability, except as otherwise provided in Article 10, Section 11.02 or Section 12.04. Notwithstanding the foregoing, amounts may also be distributed from such sub-accounts, in the form of a lump sum only, upon:

(1) The disposition by a corporation to an unrelated corporation of substantially all of the assets (within the meaning of Code Section 409(d)(2)) used in a trade or business of such corporation if such corporation continues to maintain the Plan with respect to the Participant after the disposition, but only with respect to former Employees who continue employment with the corporation acquiring such assets.

(2) The disposition by a corporation to an unrelated entity of such corporation's interest in a subsidiary (within the meaning of Code Section 409(d)(3)) if such corporation continues to maintain the Plan with respect to the Participant, but only with respect to former Employees who continue employment with such subsidiary.

In addition to the distribution events described in paragraph (a) or (b) above, as applicable, such amounts may also be distributed upon the termination of the Plan provided that the Employer does not maintain another defined contribution plan (other than an employee stock ownership plan as defined in Code Section 4975(e)(7) or 409(a), a simplified employee pension plan as defined in Code Section 408(k), a SIMPLE IRA plan as defined in Code Section 408(p), a plan or contract described in Code Section 403(b) or a plan described in Code Section 457(b) or (f)) at any time during the period beginning on the date of plan termination and ending 12 months after all assets have been distributed from the Plan. Subject to Section 14.04, such a distribution must be made in a lump sum.

12.02. Timing of Distribution Following Retirement or Termination of Employment. The balance of a Participant's vested interest in his Account shall be distributable upon his termination of employment with the Employer and all Related Employers, if any, because of death, normal, early, or disability retirement (as permitted under the Plan), or other termination of employment. Notwithstanding the foregoing, a Participant may elect to postpone distribution of his Account until the date in Subsection 1.21(a) of the Adoption Agreement, unless the Employer has elected in Subsection 1.20(e)(1) of the Adoption Agreement to cash out de minimus Accounts and the Participant's vested interest in his Account does not exceed the amount subject to automatic distribution pursuant to Section 13.02. A Participant who elects to postpone distribution has a continuing election to receive such distribution prior to the date as of which distribution is required, unless such Participant is reemployed as an Employee.

Consistent with the provisions of Section 11.06, if a Participant (or his Beneficiary, if the Participant has died) whose Account is not subject to cash out in accordance with Section 13.02 does not request a distribution when his Account becomes distributable hereunder, he shall be deemed to have elected to postpone distribution of his Account until the earlier of the date he requests distribution or the date in Subsection 1.21(a).

12.03. Participant Consent to Distribution. As required under Code Section 411(a)(11)(A) and consistent with Section 11.06, no distribution shall be made to the Participant before he reaches his Normal Retirement Age (or age 62, if later) without the Participant's consent, unless the Employer has elected in Subsection 1.20(e)(1) of the Adoption Agreement to cash out de minimus Accounts and the Participant's vested interest in his Account does not exceed the amount subject to automatic distribution pursuant to Section 13.02. Such consent shall be made within the 180-day period ending on the Participant's Annuity Starting Date. Once a Participant reaches his Normal Retirement Age (or age 62, if later), distribution shall be made upon the Participant's request, as provided in Section 12.02.

If a Participant's vested interest in his Account exceeds the maximum cash out limit permitted under Code Section 411(a)(11)(A) ($5,000 as of January 1, 2018), the consent of the Participant's Spouse must also be obtained if the Participant's Account is subject to the provisions of Section 14.04 and distribution is made before the Participant reaches his Normal Retirement Age (or age 62, if later), unless the distribution shall be made in the form of a "qualified joint and survivor annuity" or "qualified preretirement survivor annuity" as those terms are defined in Section 14.01. A Spouse's consent to early distribution, if required, must satisfy the requirements of Section 14.06.

Notwithstanding any other provision of the Plan to the contrary, neither the consent of the Participant nor the Participant's Spouse shall be required to the extent that a distribution is required to satisfy Code Section 401(a)(9) or Code Section 415. In addition, upon termination of the Plan if it does not offer an annuity option (purchased from a commercial provider) and if the Employer or any Related Employer does not maintain another defined contribution plan (other than an employee stock ownership plan as defined in Code Section 4975(e)(7)) the Participant's Account shall, without the Participant's consent, be distributed to the Participant. However, if any Related Employer maintains another defined contribution plan (other than an employee stock ownership plan as defined in Code Section 4975(e)(7)) then the Participant's Account shall be transferred, without the Participant's consent, to the other plan if the Participant does not consent to an immediate distribution.

12.04. Required Commencement of Distribution to Participants. In no event shall distribution to a Participant commence later than the date in Section 1.21(a) of the Adoption Agreement, which date shall not be later than the earlier of the dates described in (a) and (b) below:

(a) unless the Participant (and his Spouse, if appropriate) elects otherwise, the 60th day after the close of the Plan Year in which occurs the latest of (i) the date on which the Participant attains Normal Retirement Age, or age 65, if earlier, (ii) the date on which the Participant's employment with the Employer and all Related Employers ceases, or (iii) the 10th anniversary of the year in which the Participant commenced participation in the Plan; and

(b) the Participant's Required Beginning Date.

Notwithstanding the provisions of Subsection 12.04(a) above, the failure of a Participant (and the Participant's Spouse, if applicable) to consent to a distribution shall be deemed to be an election to defer commencement of payment as provided in Section 12.02 above.

12.05. Required Commencement of Distribution to Beneficiaries. Subject to the requirements of Subsection 12.05(a) below, if a Participant dies before his Annuity Starting Date, the Participant's Beneficiary shall receive distribution of the Participant's vested interest in his Account in the form provided under Article 13 or 14, as applicable, beginning as soon as reasonably practicable following the date the Beneficiary's application for distribution is filed with the Administrator. If distribution is to be made to a Participant's Spouse, it shall be made available within a reasonable period of time after the Participant's death that is no less favorable than the period of time applicable to other distributions.

(a) Death of Participant Before Distributions Begin. If the Participant dies before distributions begin, the Participant's entire vested interest will be distributed, or begin to be distributed, no later than as follows:

(1) If the Participant's surviving Spouse is the Participant's sole "designated beneficiary," then, except as otherwise elected under Subsection 12.05(b), minimum distributions, as described in Section 13.03, will begin to the surviving Spouse by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have attained age 70 ½, if later.

(2) If the Participant's surviving Spouse is not the Participant's sole "designated beneficiary," then, except as otherwise elected under Subsection 12.05(b), minimum distributions, as described in Section 13.03, will begin to the "designated beneficiary" by December 31 of the calendar year immediately following the calendar year in which the Participant died.

(3) If there is no "designated beneficiary" as of September 30 of the year following the year of the Participant's death, the Participant's entire vested interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(4) If the Participant's surviving Spouse is the Participant's sole "designated beneficiary" and the surviving Spouse dies after the Participant but before distributions to the surviving Spouse begin, this Subsection 12.05(a), other than Subsection 12.05(a)(1), will apply as if the surviving Spouse were the Participant.

For purposes of this Subsection 12.05(a), unless Subsection 12.05(a)(4) applies, distributions are considered to begin on the Participant's Required Beginning Date. If Subsection 12.05(a)(4) applies, distributions are considered to begin on the date distributions are required to begin to the surviving Spouse under Subsection 12.05(a)(1). If distributions under an annuity purchased from an insurance company irrevocably commence to the Participant before the Participant's Required Beginning Date (or to the Participant's surviving Spouse before the date distributions are required to begin to the surviving Spouse under Subsection 12.05(a)(1)), the date distributions are considered to begin is the date distributions actually commence.

(b) Election of 5-Year Rule. Participants or Beneficiaries may elect on an individual basis whether the 5-year rule described in Subsection 12.05(a)(3) or the minimum distribution rule described in Section 13.03 applies to distributions after the death of a Participant who has a "designated beneficiary." The election must be made no later than the earlier of September 30 of the calendar year in which distribution would be required to begin under Subsection 12.05(a), or by September 30 of the calendar year which contains the fifth anniversary of the Participant's (or, if applicable, the surviving Spouse's) death. If neither the Participant nor the Beneficiary makes an election under this Subsection 12.05(b), distributions will be made in accordance with Subsection 12.05(a) and Section 13.03.

Subject to the requirements of Subsection 12.05(a) above, if a Participant dies on or after his Annuity Starting Date, but before his entire vested interest in his Account is distributed, his Beneficiary shall receive distribution of the remainder of the Participant's vested interest in his Account beginning as soon as reasonably practicable following the Participant's date of death in a form that provides for distribution at least as rapidly as under the form in which the Participant was receiving distribution.

For purposes of this Section 12.05, "designated beneficiary" is as defined in Subsection 13.03(c)(1).

12.06. Whereabouts of Participants and Beneficiaries. The Administrator shall at all times be responsible for determining the whereabouts of each Participant or Beneficiary who may be entitled to benefits under the Plan and shall direct the Trustee as to the maintenance of a current address of each such Participant or Beneficiary.

If the Administrator is unable after diligent attempts to locate a Participant or Beneficiary who is entitled to a benefit under the Plan, the benefit otherwise payable to such Participant or Beneficiary shall be forfeited and applied as provided in Section 11.09. If a benefit is forfeited because the Administrator determines that the Participant or Beneficiary cannot be found, such benefit shall be reinstated by the Employer if a claim is filed by the Participant or Beneficiary with the Administrator and the Administrator confirms the claim to the Employer.

Article 13. Form of Distribution.

13.01. Normal Form of Distribution Under Profit Sharing Plan. Unless a Participant's Account is subject to the requirements of Section 14.03 or 14.04, distributions to a Participant shall be made in a lump sum or, if elected by the Participant and provided by the Employer in Section 1.20 of the Adoption Agreement, under a systematic withdrawal plan (installments). Subject to the requirements of Article 14, if applicable, a Participant may elect other forms of distribution which appear in the Adoption Agreement. The recipient of payments under a systematic withdrawal plan may, with regard to all remaining payments or any portion thereof, elect to accelerate installment payments, decelerate installment payments, stop such payments altogether, or receive a lump sum distribution of the remainder of his Account balance, as long as, in any event, the requirements of Code Section 401(a)(9) are satisfied. If the Employer elects partial withdrawals in Section 1.20(c) of the Adoption Agreement, the preceding sentence applies to a Participant who elects installment payments with respect to such a withdrawal. Beneficiaries and alternate payees as provided in Section 18.04 may elect any form of distribution available to a Participant, except that annuities may only be elected by Beneficiaries in accordance with the provisions of Article 14.

Notwithstanding anything herein to the contrary, if distribution to a Participant commences on the Participant's Required Beginning Date as determined under Subsection 2.01(vv), the Participant may elect to receive distributions under a systematic withdrawal plan that provides the minimum distributions required under Code Section 401(a)(9), as described in Section 13.03.

A Participant whose distribution includes an outstanding loan balance may roll over that outstanding loan in-kind to a plan which agrees to accept such an outstanding loan in accordance with the provisions of Section 9.11.

13.02. Cash Out Of Small Accounts. Notwithstanding any other provision of the Plan to the contrary, if the Employer elected to cash out small Accounts as provided in and pursuant to Subsection 1.20(e)(1) of the Adoption Agreement, the Participant's vested interest in his Account shall be distributed following the Participant's termination of employment because of retirement, disability, or other termination of employment. For purposes of determining whether an amount being distributed pursuant to this Section 13.02 will be subject to a direct rollover by the Administrator, a Participant's "designated Roth contributions", as defined in Subsection 6.01(e), will be considered separately from the amount within the Participant's non-Roth sub-account.

If the Employer elected to cash out small Accounts as provided in Subsection 1.20(e)(1) and if distribution is to be made to a Participant's Beneficiary following the death of the Participant and the Beneficiary's vested interest in the Participant's Account does not exceed the maximum cash out limit permitted under Code Section 411(a)(11)(A), distribution shall be made to the Beneficiary in a lump sum following the Participant's death.

13.03. Minimum Distributions. Unless a Participant's vested interest in his Account is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the Participant's Required Beginning Date, as of the first "distribution calendar year" distributions will be made in accordance with this Section. If a Participant's Account is subject to the provisions of Section 14.04, in lieu of the minimum distribution required hereunder, the Administrator may distribute the Participant's full vested interest in his Account in the form of an annuity purchased from an insurance company. Any annuity purchased on behalf of a Participant will provide for distributions thereunder to be made in accordance with the requirements of Code Section 401(a)(9) and the Treasury Regulations issued thereunder and the minimum distribution incidental benefit requirement of Code Section 401(a)(9)(G).

Notwithstanding the foregoing or any other provisions of this Section, distributions may be made under a designation made before January 1, 1984, in accordance with Section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act (TEFRA) and the provisions of Subsection 13.03(d) below.

(a) Required Minimum Distributions During a Participant's Lifetime. During a Participant's lifetime, the minimum amount that will be distributed for each "distribution calendar year" is the lesser of:

(1) the quotient obtained by dividing the Participant's "account balance" by the distribution period in the Uniform Lifetime Table set forth in Q & A 2 of Section 1.401(a)(9)-9 of the Treasury Regulations, using the Participant's age as of the Participant's birthday in the "distribution calendar year"; or

(2) if the Participant's sole "designated beneficiary" for the "distribution calendar year" is the Participant's Spouse, the quotient obtained by dividing the Participant's "account balance" by the number in the Joint and Last Survivor Table set forth in Q & A 3 of Section 1.401(a)(9)-9 of the Treasury Regulations, using the Participant's and Spouse's attained ages as of the Participant's and Spouse's birthdays in the "distribution calendar year."

Required minimum distributions will be determined under this Subsection 13.03(a) beginning with the first "distribution calendar year" and up to and including the "distribution calendar year" that includes the Participant's date of death. A Participant who has retired may elect at any time to take any portion of his Account in excess of the amount required to be paid pursuant to this Subsection 13.03(a).

(b) Required Minimum Distributions After Participant's Death.

(1) If a Participant dies on or after the date distributions begin and there is a "designated beneficiary," the minimum amount that will be distributed for each "distribution calendar year" after the year of the Participant's death is the quotient obtained by dividing the Participant's "account balance" by the longer of the remaining "life expectancy" of the Participant or the remaining "life expectancy" of the Participant's "designated beneficiary," determined as follows:

(A) The Participant's remaining "life expectancy" is calculated using the age of the Participant in the year of death, reduced by one for each subsequent year.

(B) If the Participant's surviving Spouse is the Participant's sole "designated beneficiary," the remaining life expectancy of the surviving Spouse is calculated for each distribution calendar year after the year of the Participant's death using the surviving Spouse's age as of the Spouse's birthday in that year. For "distribution calendar years" after the year of the surviving Spouse's death, the remaining "life expectancy" of the surviving Spouse is calculated using the age of the surviving Spouse as of the Spouse's birthday in the calendar year of the Spouse's death, reduced by one for each subsequent calendar year.

(C) If the Participant's surviving Spouse is not the Participant's sole "designated beneficiary," the "designated beneficiary's" remaining "life expectancy" is calculated using the age of the "designated beneficiary" in the year following the year of the Participant's death, reduced by one for each subsequent year.

(2) If the Participant dies on or after the date distributions begin and there is no "designated beneficiary" as of September 30 of the year after the year of the Participant's death, the minimum amount that will be distributed for each "distribution calendar year" after the year of the Participant's death is the quotient obtained by dividing the Participant's "account balance" by the Participant's remaining "life expectancy" calculated using the age of the Participant in the year of death, reduced by one for each subsequent year.

(3) Unless the Participant or Beneficiary elects otherwise in accordance with Subsection 12.05(b), if the Participant dies before the date distributions begin and there is a "designated beneficiary," the minimum amount that will be distributed for each "distribution calendar year" after the year of the Participant's death is the quotient obtained by dividing the Participant's "account balance" by the remaining "life expectancy" of the Participant's "designated beneficiary," determined as provided in Subsection 13.03(b)(1).

(4) If the Participant dies before the date distributions begin and there is no "designated beneficiary" as of September 30 of the year following the year of the Participant's death, distribution of the Participant's full vested interest in his Account will be completed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(5) If the Participant dies before the date distributions begin, the Participant's surviving Spouse is the Participant's sole "designated beneficiary," and the surviving Spouse dies before distributions are required to begin to the surviving Spouse under Subsection 12.05(a)(1), Subsections 13.03(b)(3) and (4) will apply as if the surviving Spouse were the Participant.

For purposes of this Subsection 13.03(b), unless Subsection 13.03(b)(5) applies, distributions are considered to begin on the Participant's Required Beginning Date. If Subsection 13.03(b)(5) applies, distributions are considered to begin on the date distributions are required to begin to the surviving Spouse under Subsection 12.05(a)(1). If distributions under an annuity purchased from an insurance company irrevocably commence to the Participant before the Participant's Required Beginning Date (or to the Participant's surviving Spouse before the date distributions are required to begin to the surviving Spouse under Subsection 12.05(a)(1)), the date distributions are considered to begin is the date distributions actually commence.

(c) Definitions. For purposes of this Section 13.03, the following special definitions shall apply:

(1) "**Designated beneficiary**" means the individual who is the Participant's Beneficiary as defined under Section 2.01(g) and is the designated beneficiary under Code Section 401(a)(9) and Section 1.401(a)(9)-4 of the Treasury Regulations.

(2) "**Distribution calendar year**" means a calendar year for which a minimum distribution is required. For distributions beginning before the Participant's death, the first "distribution calendar year" is the calendar year immediately preceding the calendar year which contains the Participant's Required Beginning Date. For distributions beginning after the Participant's death, the first "distribution calendar year" is the calendar year in which distributions are required to begin under Subsection 12.05(a). The required minimum distribution for the Participant's first "distribution calendar year" will be made on or before the Participant's Required Beginning Date. The required minimum distribution for other "distribution calendar years," including the required minimum distribution for the "distribution calendar year" in which the Participant's Required Beginning Date occurs, will be made on or before December 31 of that "distribution calendar year."

(3) "**Life expectancy**" means life expectancy as computed by use of the Single Life Table in Q & A - 1 of Section 1.401(a)(9)-9 of the Treasury Regulations.

(4) A Participant's "**account balance**" means the balance of the Participant's vested interest in his Account as of the last valuation date in the calendar year immediately preceding the "distribution calendar year" (valuation calendar year) increased by the amount of any contributions made and allocated or forfeitures allocated to the Account as of dates in the valuation calendar year after the valuation date and decreased by distributions made in the valuation calendar year after the valuation date. The "account balance" for the valuation calendar year includes any amounts rolled over or transferred to the Plan either in the valuation calendar year or in the "distribution calendar year" if distributed or transferred in the valuation calendar year.

(d) Section 242(b)(2) Elections. Notwithstanding any other provisions of this Section and subject to the requirements of Article 14, if applicable, distribution on behalf of a Participant, including a five-percent owner, may be made pursuant to an election under Section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act of 1982 and in accordance with all of the following requirements:

(1) The distribution is one which would not have disqualified the Trust under Code Section 401(a)(9), if applicable, or any other provisions of Code Section 401(a), as in effect prior to the effective date of Section 242(a) of the Tax Equity and Fiscal Responsibility Act of 1982.

(2) The distribution is in accordance with a method of distribution elected by the Participant whose vested interest in his Account is being distributed or, if the Participant is deceased, by a Beneficiary of such Participant.

(3) Such election was in writing, was signed by the Participant or the Beneficiary, and was made before January 1, 1984.

(4) The Participant had accrued a benefit under the Plan as of December 31, 1983.

(5) The method of distribution elected by the Participant or the Beneficiary specifies the form of the distribution, the time at which distribution will commence, the period over which distribution will be made, and in the case of any distribution upon the Participant's death, the Beneficiaries of the Participant listed in order of priority.

A distribution upon death shall not be made under this Subsection 13.03(d) unless the information in the election contains the required information described above with respect to the distributions to be made upon the death of the Participant. For any distribution which commences before January 1, 1984, but continues after December 31, 1983, the Participant or the Beneficiary to whom such distribution is being made will be presumed to have designated the method of distribution under which the distribution is being made, if this method of distribution was specified in writing and the distribution satisfies the requirements in Subsections 13.03(d)(1) and (5). If an election is revoked, any subsequent distribution will be in accordance with the other provisions of the Plan. Any changes in the election will be considered to be a revocation of the election. However, the mere substitution or addition of another Beneficiary (one not designated as a Beneficiary in the election), under the election will not be considered to be a revocation of the election, so long as such substitution or addition does not alter the period over which distributions are to be made under the election directly, or indirectly (for example, by altering the relevant measuring life).

The Administrator shall direct the Trustee regarding distributions necessary to comply with the minimum distribution rules set forth in this Section 13.03.

13.04. Direct Rollovers.

Notwithstanding any other provision of the Plan to the contrary, a "distributee" may elect, at the time and in the manner prescribed by the Administrator, to have any portion or all of an "eligible rollover distribution" paid directly to an "eligible retirement plan" specified by the "distributee" in a direct rollover; provided, however, that a "distributee" may not elect a direct rollover with respect to a portion of an "eligible rollover distribution" if such portion totals less than $500. In applying the $500 minimum on rollovers of a portion of a distribution, any "eligible rollover distribution" from a Participant's “designated Roth contributions”, as defined in Subsection 6.01(e), will be considered separately from any "eligible rollover distribution" from the Participant's non-Roth sub-accounts.

The portion of any "eligible rollover distribution" consisting of Employee Contributions may only be rolled over to an individual retirement account or annuity described in Code Section 408(a) or (b) or to a qualified defined contribution plan described in Code Section 401(a), 403(a) or 403(b) that provides for separate accounting with respect to such accounts, including separate accounting for the portion of such "eligible rollover distribution" that is includible in income (including the earnings on the portion that is not so includible) and the portion that is not includible in income. That portion of any "eligible rollover distribution" consisting of Roth 401(k) Contributions, may only be rolled over to another designated Roth account established for the individual under an applicable retirement plan described in Code Section 402A(e)(1) that provides for "designated Roth contributions", as defined in Section 6.01, or to a Roth individual retirement account described in Code Section 408A, subject to the rules of Code Section 402(c).

For purposes of this Section 13.04, the following definitions shall apply:

(a) "Distributee" means a Participant, the Participant's surviving Spouse, and the Participant's Spouse or former Spouse who is the alternate payee under a qualified domestic relations order, who is entitled to receive a distribution from the Participant's vested interest in his Account. The term “distributee” shall also include a designated beneficiary (as defined in Code Section 401(a)(9)(E)) of a Participant who is not the surviving Spouse of the Participant who may only elect to roll over such a distribution to an individual retirement plan described in clause (i) or (ii) of paragraph (8)(B) of Code Section 402(c) established for the purposes of receiving such distribution.

(b) "Eligible retirement plan" means an individual retirement account described in Code Section 408(a), an individual retirement annuity described in Code Section 408(b), an annuity plan described in Code Section 403(a), a qualified defined contribution plan described in Code Section 401(a), an annuity contract described in Code Section 403(b), an eligible deferred compensation plan described in Code Section 457(b) that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state, provided that such 457 plan provides for separate accounting with respect to such rolled over amounts, that accepts "eligible rollover distributions", or a Roth individual retirement account described in Code Section 408A However, for a "distributee" who is a designated beneficiary of the Participant (and not the Participant's surviving Spouse), the definition of "eligible retirement plan" shall be limited as described in (a) above.

(c) "Eligible rollover distribution" means any distribution of all or any portion of the balance to the credit of the "distributee", except that an "eligible rollover distribution" does not include the following:

(1) any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the "distributee" or the joint lives (or joint life expectancies) of the "distributee" and the "distributee's" designated beneficiary, or for a specified period of ten years or more;

(2) any distribution to the extent such distribution is required under Code Section 401(a)(9); or

(3) any hardship withdrawal made in accordance with the provisions of Section 10.05 or the In-Service Withdrawals Addendum to the Adoption Agreement.

13.05. Notice Regarding Timing and Form of Distribution. Within the period beginning 180 days before a Participant's Annuity Starting Date and ending 30 days before such date, the Administrator shall provide such Participant with written notice containing a general description of the material features of each form of distribution available under the Plan and an explanation of the financial effect of electing each form of distribution available under the Plan. The notice shall also inform the Participant of his right to defer receipt of the distribution until the date in Subsection 1.21(a) of the Adoption Agreement, the consequences of failing to defer, and his right to make a direct rollover.

Distribution may commence fewer than 30 days after such notice is given, provided that:

(a) the Administrator clearly informs the Participant that the Participant has a right to a period of at least 30 days after receiving the notice to consider the decision of whether or not to elect a distribution (and, if applicable, a particular distribution option);

(b) the Participant, after receiving the notice, affirmatively elects a distribution, with his Spouse's written consent, if necessary;

(c) if the Participant's Account is subject to the requirements of Section 14.04, the following additional requirements apply:

(1) the Participant is permitted to revoke his affirmative distribution election at any time prior to the later of (A) his Annuity Starting Date or (B) the expiration of the seven-day period beginning the day after such notice is provided to him; and

(2) distribution does not begin to such Participant until such revocation period ends.

13.06. Determination of Method of Distribution. Subject to Section 13.02, the Participant shall determine the method of distribution of benefits to himself and may determine the method of distribution to his Beneficiary. If the Participant does not determine the method of distribution to his Beneficiary or if the Participant permits his Beneficiary to override his determination, the Beneficiary, in the event of the Participant's death, shall determine the method of distribution of benefits to himself as if he were the Participant. A determination by the Beneficiary must be made no later than the close of the calendar year in which distribution would be required to begin under Section 12.05 or, if earlier, the close of the calendar year in which the fifth anniversary of the death of the Participant occurs.

13.07. Notice to Trustee. The Administrator shall notify the Trustee in any medium acceptable to the Trustee, which may be specified in the Service Agreement, whenever any Participant or Beneficiary is entitled to receive benefits under the Plan. To facilitate distributions, the Administrator shall develop processes and procedures to communicate to the Trustee the form

of payment of benefits that such Participant or Beneficiary shall receive, the name of any designated Beneficiary or Beneficiaries, and any such other information as the Trustee shall require.

Article 14. Superseding Annuity Distribution Provisions.

14.01. Special Definitions. For purposes of this Article, the following special definitions shall apply:

(a) **"Qualified joint and survivor annuity"** means (1) if the Participant is not married on his Annuity Starting Date, an immediate annuity payable for the life of the Participant or (2) if the Participant is married on his Annuity Starting Date, an immediate annuity for the life of the Participant with a survivor annuity for the life of the Participant's Spouse (to whom the Participant was married on the Annuity Starting Date) equal to 50 percent (or the percentage designated in the Forms of Payment Addendum to the Adoption Agreement) of the amount of the annuity which is payable during the joint lives of the Participant and such Spouse, provided that the survivor annuity shall not be payable to a Participant's Spouse if such Spouse is not the same Spouse to whom the Participant was married on his Annuity Starting Date.

(b) **"Qualified optional survivor annuity"** means a joint and survivor annuity that the Participant, subject to the spousal consent rules described in Section 14.05, may elect and which (1) if the survivor annuity portion of the Plan's qualified joint and survivor annuity (as defined in (a) above) is less than 75%, then has a survivor annuity portion of 75% or (2) if the survivor annuity portion of the Plan's qualified joint and survivor annuity (as defined in (a) above) is greater than or equal to 75%, then has a survivor annuity portion of 50%. The "qualified optional survivor annuity" shall be designated in the Forms of Payment Addendum as a joint and survivor annuity.

(c) **"Qualified preretirement survivor annuity"** means an annuity purchased with at least 50 percent of a Participant's vested interest in his Account that is payable for the life of a Participant's surviving Spouse. The Employer shall specify that portion of a Participant's vested interest in his Account that is to be used to purchase the "qualified preretirement survivor annuity" in the Forms of Payment Addendum to the Adoption Agreement.

14.02. Applicability. Except as otherwise specifically provided in the Plan, the provisions of this Article shall apply to a Participant's Account only if:

(a) the Plan includes assets transferred from a money purchase pension plan;

(b) the Plan is an amendment and restatement of a plan that provided an annuity form of payment and such form of payment has ***not*** been eliminated;

(c) the Plan is an amendment and restatement of a plan that provided an annuity form of payment and such form of payment ***has*** been eliminated, but the Participant elected a life annuity form of payment before the effective date of the elimination;

(d) the Participant's Account contains assets attributable to amounts directly or indirectly transferred from a plan that provided an annuity form of payment and such form of payment has ***not*** been eliminated;

(e) the Participant's Account contains assets attributable to amounts directly or indirectly transferred from a plan that provided an annuity form of payment and such form of payment ***has*** been eliminated, but the Participant elected a life annuity form of payment before the effective date of the elimination.

14.03. Annuity Form of Payment. To the extent provided through Section 1.20 of the Adoption Agreement, a Participant may elect distributions made in whole or in part in the form of an annuity contract. Any annuity contract distributed under the Plan shall be subject to the provisions of this Section 14.03 and, to the extent provided therein, Sections 14.04 through 14.09.

(a) At the direction of the Administrator, the Trustee shall purchase the annuity contract on behalf of a Participant or Beneficiary from an insurance company. Such annuity contract shall be nontransferable.

(b) The terms of the annuity contract shall comply with the requirements of the Plan and distributions under such contract shall be made in accordance with Code Section 401(a)(9) and the Treasury Regulations issued thereunder.

(c) The annuity contract may provide for payment over the life of the Participant and, upon the death of the Participant, may provide a survivor annuity continuing for the life of the Participant's designated Beneficiary. Such an annuity may provide for an annuity certain feature for a period not exceeding the life expectancy of the Participant or, if the annuity is payable to the Participant and a designated Beneficiary, the joint life and last survivor expectancy of the Participant and such Beneficiary. If the Participant dies prior to his Annuity Starting Date, the annuity contract distributed to the Participant's Beneficiary may provide for payment over the life of the Beneficiary, and may provide for an annuity certain feature for a period not exceeding the life expectancy of the Beneficiary. The types of annuity contracts provided under the Plan shall be limited to the types of annuities described in Section 1.20 of the Adoption Agreement and the Forms of Payment Addendum to the Adoption Agreement.

(d) The annuity contract must provide for non-increasing payments.

14.04. "Qualified Joint and Survivor Annuity" and "Qualified Preretirement Survivor Annuity" Requirements. The requirements of this Section 14.04 apply to a Participant's Account if:

(a) the Plan includes assets transferred from a money purchase pension plan;

(b) the Employer has selected in Subsection 1.20(d)(2) of the Adoption Agreement that distribution in the form of a life annuity is the normal form of distribution with respect to such Participant's Account; or

(c) the Employer has indicated on the Forms of Payment Addendum to the Adoption Agreement that distribution in the form of a life annuity is an optional form of distribution with respect to such Participant's Account and the Participant is permitted to elect and has elected distribution in the form of an annuity contract payable over the life of the Participant.

If a Participant's Account is subject to the requirements of this Section, distribution shall be made to the Participant with respect to such Account in the form of a "qualified joint and survivor annuity" (with a survivor annuity in the percentage amount specified by the Employer in the Forms of Payment Addendum to the Adoption Agreement) in the amount that can be purchased with such Account, unless the Participant waives the "qualified joint and survivor annuity" as provided in Section 14.05. If the Participant dies prior to his Annuity Starting Date, distribution shall be made to the Participant's surviving Spouse, if any, in the form of a "qualified preretirement survivor annuity" in the amount that can be purchased with such Account, unless the Participant waives the "qualified preretirement survivor annuity" as provided in Section 14.05, or the Participant's surviving Spouse elects in writing to receive distribution in one of the other forms of payment provided under the Plan. A Participant's Account that is subject to the requirements of this Section shall be used to purchase the "qualified preretirement survivor annuity" and the balance of the Participant's vested interest in his Account that is not used to purchase the "qualified preretirement survivor annuity" shall be distributed to the Participant's designated Beneficiary in accordance with the provisions of Sections 11.04 and 12.05.

14.05. Waiver of the "Qualified Joint and Survivor Annuity" and/or "Qualified Preretirement Survivor Annuity" Rights. A Participant may waive the "qualified joint and survivor annuity" described in Section 14.04 and elect another form of distribution permitted under the Plan at any time during the 180-day period ending on his Annuity Starting Date; provided, however, that if the Participant is married, his Spouse must consent in writing to such election as provided in Section 14.06. A Participant may waive or revoke a waiver of the "qualified joint and survivor annuity" described in Section 14.04 and elect another form of distribution permitted under the Plan at any time and any number of times during the 180-day period ending on his Annuity Starting Date; provided, however, that if the Participant is married and is electing a form of distribution other than the "qualified joint and survivor annuity" or the "qualified optional survivor annuity", his Spouse must consent in writing to such election as provided in Section 14.06.

A Participant may waive the "qualified preretirement survivor annuity" and designate a non-Spouse Beneficiary at any time during the "applicable election period"; provided, however, that the Participant's Spouse must consent in writing to such election as provided in Section 14.06. The "applicable election period" begins on the later of (1) the date the Participant's Account becomes subject to the requirements of Section 14.04 or (2) the first day of the Plan Year in which the Participant attains age 35 or, if he terminates employment prior to such date, the date he terminates employment with the Employer and all Related Employers. The "applicable election period" ends on the earlier of the Participant's Annuity Starting Date or the date of the Participant's death. A Participant whose employment has not terminated may elect to waive the "qualified preretirement survivor annuity" prior to the Plan Year in which he attains age 35, provided that any such waiver shall cease to be effective as of the first day of the Plan Year in which the Participant attains age 35.

A Participant's waiver of the "qualified joint and survivor annuity" or "qualified preretirement survivor annuity" shall be valid only if the applicable notice described in Section 14.07 or 14.08 has been provided to the Participant.

14.06. Spouse's Consent to Waiver. A Spouse's written consent must acknowledge the effect of the Participant's election and must be witnessed by a Plan representative or a notary public. In addition, the Spouse's written consent must either (a) specify any non-Spouse Beneficiary designated by the Participant and that such designation may not be changed without written spousal consent or (b) acknowledge that the Spouse has the right to limit consent as provided in clause (a) above, but permit the Participant to change the designated Beneficiary without the Spouse's further consent.

A Participant's Spouse shall be deemed to have given written consent to a Participant's waiver if the Participant establishes to the satisfaction of a Plan representative that spousal consent cannot be obtained because the Spouse cannot be located or because of other circumstances set forth in Code Section 401(a)(11) and Treasury Regulations issued thereunder.

Any written consent given or deemed to have been given by a Participant's Spouse hereunder shall be irrevocable and shall be effective only with respect to such Spouse and not with respect to any subsequent Spouse.

In addition, with regard to a Participant's waiver of the "qualified joint and survivor annuity" form of distribution, the Spouse's written consent must either (a) specify the form of distribution elected instead of the "qualified joint and survivor annuity", and that such form may not be changed (except to a "qualified joint and survivor annuity") without written spousal consent or (b) acknowledge that the Spouse has the right to limit consent as provided in clause (a) above, but permit the Participant to change the form of distribution elected without the Spouse's further consent. To the extent a Participant's Account is subject to the requirements of Section 14.04, a Spouse's consent to a Participant's waiver shall be valid only if the applicable notice described in Section 14.07 or 14.08 has been provided to the Participant.

14.07. Notice Regarding "Qualified Joint and Survivor Annuity". The notice provided to a Participant under Section 14.05 shall include a written explanation that satisfies the requirements of Code Section 417(a)(3) and regulations issued thereunder. The notice will include a description of the following: (i) the terms and conditions of a qualified joint and survivor annuity and the qualified optional survivor annuity; (ii) the participant's right to make and the effect of any election to waive the qualified joint and survivor annuity form of benefit; (iii) the rights of a participant's spouse; and (iv) the right to make, and the effect of, a revocation of a previous election to waive the qualified joint and survivor annuity.

14.08. Notice Regarding "Qualified Preretirement Survivor Annuity". If a Participant's Account is subject to the requirements of Section 14.04, the Participant shall be provided with a written explanation of the "qualified preretirement survivor annuity" comparable to the written explanation provided with respect to the "qualified joint and survivor annuity", as described in Section 14.07. Such explanation shall be furnished within whichever of the following periods ends last:

(a) the period beginning with the first day of the Plan Year in which the Participant reaches age 32 and ending with the end of the Plan Year preceding the Plan Year in which he reaches age 35;

(b) a reasonable period ending after the Employee becomes an Active Participant;

(c) a reasonable period ending after Section 14.04 first becomes applicable to the Participant's Account; or

(d) in the case of a Participant who separates from service before age 35, a reasonable period ending after such separation from service.

For purposes of the preceding sentence, the two-year period beginning one year prior to the date of the event described in Subsection 14.08(b), (c) or (d) above, whichever is applicable, and ending one year after such date shall be considered reasonable, provided, that in the case of a Participant who separates from service under Subsection 14.08(d) above and subsequently recommences employment with the Employer, the applicable period for such Participant shall be re-determined in accordance with this Section 14.08.

14.09. Former Spouse. For purposes of this Article, a former Spouse of a Participant shall be treated as the Spouse or surviving Spouse of the Participant, and a current Spouse shall not be so treated, to the extent required under a qualified domestic relations order, as defined in Code Section 414(p).

Article 15. Top-Heavy Provisions.

15.01. Definitions. For purposes of this Article, the following special definitions shall apply:

(a) "**Determination date**" means, for any Plan Year subsequent to the first Plan Year, the last day of the preceding Plan Year. For the first Plan Year of the Plan, "determination date" means the last day of that Plan Year.

(b) "**Determination period**" means the Plan Year containing the "determination date".

(c) "**Distribution period**" means (i) for any distribution made to an employee on account of severance from employment, death, disability, or termination of a plan which would have been part of the "required aggregation group" had it not been terminated, the one-year period ending on the "determination date" and (ii) for any other distribution, the five-year period ending on the "determination date".

(d) "**Key employee**" means any Employee or former Employee (including any deceased Employee) who at any time during the "determination period" was (1) an officer of the Employer or a Related Employer having annual Compensation greater than the dollar amount specified in Code Section 416(i)(1)(A)(I) adjusted under Code Section 416(i)(1) for Plan Years beginning after December 31, 2002 (e.g., $175,000 for Plan Years beginning in 2018), (2) a five-percent owner of the Employer or a Related Employer, or (3) a one-percent owner of the Employer or a Related Employer having annual Compensation of more than $150,000. The determination of who is a "key employee" shall be made in accordance with Code Section 416(i)(1) and any applicable guidance or regulations issued thereunder.

(e) "**Permissive aggregation group**" means the "required aggregation group" plus any other qualified plans of the Employer or a Related Employer which, when considered as a group with the "required aggregation group", would continue to satisfy the requirements of Code Sections 401(a)(4) and 410.

(f) "**Required aggregation group**" means:

(1) Each qualified plan of the Employer or Related Employer in which at least one "key employee" participates, or has participated at any time during the "determination period" or, unless and until modified by future Treasury guidance, any of the four preceding Plan Years (regardless of whether the plan has terminated), and

(2) any other qualified plan of the Employer or Related Employer which enables a plan described in Subsection 15.01(f)(1) above to meet the requirements of Code Section 401(a)(4) or 410.

(g) "**Top-heavy plan**" means a plan in which any of the following conditions exists:

(1) the "top-heavy ratio" for the plan exceeds 60 percent and the plan is not part of any "required aggregation group" or "permissive aggregation group";

(2) the plan is a part of a "required aggregation group" but not part of a "permissive aggregation group" and the "top-heavy ratio" for the "required aggregation group" exceeds 60 percent; or

(3) the plan is a part of a "required aggregation group" and a "permissive aggregation group" and the "top-heavy ratio" for both groups exceeds 60 percent.

Notwithstanding the foregoing, a plan is not a "top-heavy plan" for a Plan Year if it consists solely of a cash or deferred arrangement that satisfies the nondiscrimination requirements under Code Section 401(k) by application of Code Section 401(k)(12) or 401(k)(13) and, if matching contributions are provided under such plan, satisfies the nondiscrimination requirements under Code Section 401(m) by application of Code Section 401(m)(11) or 401(m)(12).

(h) **"Top-heavy ratio"** means:

(1) With respect to the Plan, or with respect to any "required aggregation group" or "permissive aggregation group" that consists solely of defined contribution plans (including any simplified employee pension, as defined in Code Section 408(k)), a fraction, the numerator of which is the sum of the account balances of all "key employees" under the plans as of the "determination date" (including any part of any account balance distributed during the "distribution period"), and the denominator of which is the sum of all account balances (including any part of any account balance distributed during the "distribution period") of all participants under the plans as of the "determination date". Both the numerator and denominator of the "top-heavy ratio" shall be increased, to the extent required by Code Section 416, to reflect any contribution which is due but unpaid as of the "determination date".

(2) With respect to any "required aggregation group" or "permissive aggregation group" that includes one or more defined benefit plans which, during the "determination period", has covered or could cover an Active Participant in the Plan, a fraction, the numerator of which is the sum of the account balances under the defined contribution plans for all "key employees" and the present value of accrued benefits under the defined benefit plans for all "key employees", and the denominator of which is the sum of the account balances under the defined contribution plans for all participants and the present value of accrued benefits under the defined benefit plans for all participants. Both the numerator and denominator of the "top-heavy ratio" shall be increased for any distribution of an account balance or an accrued benefit made during the "distribution period" and any contribution due but unpaid as of the "determination date".

For purposes of Subsections 15.01(h)(1) and (2) above, the value of accounts shall be determined as of the most recent "determination date" and the present value of accrued benefits shall be determined as of the date used for computing plan costs for minimum funding that falls within 12 months of the most recent "determination date", except as provided in Code Section 416 and the regulations issued thereunder for the first and second plan years of a defined benefit plan. When aggregating plans, the value of accounts and accrued benefits shall be calculated with reference to the "determination dates" that fall within the same calendar year.

The accounts and accrued benefits of a Participant who is not a "key employee" but who was a "key employee" in a prior year, or who has not performed services for the Employer or any Related Employer at any time during the one-year period ending on the "determination date", shall be disregarded. The calculation of the "top-heavy ratio", and the extent to which distributions, rollovers, and transfers are taken into account, shall be made in accordance with Code Section 416 and the regulations issued thereunder. Deductible employee contributions shall not be taken into account for purposes of computing the "top-heavy ratio".

For purposes of determining if the Plan, or any other plan included in a "required aggregation group" of which the Plan is a part, is a "top-heavy plan", the accrued benefit in a defined benefit plan of an Employee other than a "key employee" shall be determined under the method, if any, that uniformly applies for accrual purposes under all plans maintained by the Employer or a Related Employer, or, if there is no such method, as if such benefit accrued not more rapidly than the slowest accrual rate permitted under the fractional accrual rate of Code Section 411(b)(1)(C).

Notwithstanding any other provision herein to the contrary, Compensation for purposes of this Article 15 shall be based on the amount actually paid or made available to the Participant (or, if earlier, includible in the gross income of the Participant) during the Plan Year, does ***not*** exclude any amounts elected by the Employer in Subsection 1.05(b) of the Adoption Agreement except moving expenses paid or reimbursed by the Employer if it is reasonable to believe they are deductible by the Employee, and shall include Differential Wages as defined in Section 2.01(k)(2)(B)(i).

15.02. Application. If the Plan is or becomes a "top-heavy plan" in any Plan Year or is automatically deemed to be a "top-heavy plan" in accordance with the Employer's selection in Subsection 1.22(a)(1) of the Adoption Agreement, the provisions of this Article shall apply and shall supersede any conflicting provision in the Plan. Notwithstanding the foregoing, the provisions of this Article shall not apply if Subsection 1.22(a)(3) of the Adoption Agreement is selected.

15.03. Minimum Contribution. Except as otherwise specifically provided in this Section 15.03, the Nonelective Employer Contributions made for the Plan Year on behalf of any Active Participant who is not a "key employee", when combined with the Matching Employer Contributions made on behalf of such Active Participant for the Plan Year, shall not be less than the lesser of three percent (or five percent, if selected by the Employer in Subsection 1.22(b) of the Adoption Agreement) of such Participant's Compensation for the Plan Year or, in the case where neither the Employer nor any Related Employer maintains a defined benefit plan which uses the Plan to satisfy Code Section 401(a)(4) or 410, the largest percentage of Employer contributions made on behalf of any "key employee" for the Plan Year, expressed as a percentage of the "key employee's" Compensation for the Plan Year. Catch-Up Contributions made on behalf of a "key employee" for the Plan Year shall not be taken into account for purposes of determining the amount of the minimum contribution required hereunder.

If an Active Participant is entitled to receive a minimum contribution under another qualified plan maintained by the Employer or a Related Employer that is a "top-heavy plan", no minimum contribution shall be made hereunder unless the Employer has provided in Subsection 1.22(b)(1) of the Adoption Agreement that the minimum contribution shall be made under this Plan in any event. If the Employer has provided in Subsection 1.22(b)(2) that an alternative means shall be used to

satisfy the minimum contribution requirements where an Active Participant is covered under multiple plans that are "top-heavy plans", no minimum contribution shall be required under this Section, except as provided under the 416 Contributions Addendum to the Adoption Agreement. If a minimum contribution is required to be made under the Plan for the Plan Year on behalf of an Active Participant who is not a "key employee" and who is a participant in a defined benefit plan maintained by the Employer or a Related Employer that is aggregated with the Plan, the minimum contribution shall not be less than five percent of such Participant's Compensation for the Plan Year.

The minimum contribution required under this Section shall be made to the Account of an Active Participant even though, under other Plan provisions, the Active Participant would not otherwise be entitled to receive a contribution, or would have received a lesser contribution for the Plan Year, because (a) the Active Participant failed to complete the Hours of Service requirement selected by the Employer in Subsection 1.11(e) or 1.12(d) of the Adoption Agreement, or (b) the Participant's Compensation was less than a stated amount; provided, however, that no minimum contribution shall be made for a Plan Year to the Account of an Active Participant who is not employed by the Employer or a Related Employer on the last day of the Plan Year.

That portion of a Participant's Account that is attributable to minimum contributions required under this Section 15.03, to the extent required to be nonforfeitable under Code Section 416(b), may not be forfeited under Code Section 411(a)(3)(B).

15.04. Determination of Minimum Required Contribution. For purposes of determining the amount of any minimum contribution required to be made on behalf of a Participant who is not a "key employee" for a Plan Year, the Matching Employer Contributions made on behalf of such Participant and the Nonelective Employer Contributions allocated to such Participant for the Plan Year shall be aggregated. If the aggregate amount of such contributions, when expressed as a percentage of such Participant's Compensation for the Plan Year, is less than the minimum contribution required to be made to such Participant under Section 15.03, the Employer shall make an additional contribution on behalf of such Participant in an amount that, when aggregated with the Qualified Nonelective Contributions, Matching Employer Contributions and Nonelective Employer Contributions previously allocated to such Participant, will equal the minimum contribution required to be made to such Participant under Section 15.03.

15.05. Accelerated Vesting. If applicable, for any Plan Year in which the Plan is or is deemed to be a "top-heavy plan" and all Plan Years thereafter, the top-heavy vesting schedule described within Subsection 1.22(c) of the Adoption Agreement shall automatically apply in lieu of any less favorable schedule specified in the Eligibility, Service and Vesting Addendum to the Adoption Agreement. The top-heavy vesting schedule applies to all benefits within the meaning of Code Section 411(a)(7) except those already subject to a vesting schedule which vests at least as rapidly in all cases as the schedule described within Subsection 1.22(c), including benefits accrued before the Plan becomes a "top-heavy plan". Notwithstanding the foregoing provisions of this Section 15.05, the top-heavy vesting schedule does not apply to the Account of any Participant who does not have an Hour of Service after the Plan initially becomes or is deemed to have become a "top-heavy plan" and such Employee's Account attributable to Employer Contributions shall be determined without regard to this Section.

15.06. Exclusion of Collectively-Bargained Employees. Notwithstanding any other provision of this Article 15, Employees who are included in a unit covered by a collective bargaining agreement between employee representatives and one or more employers may be included in determining whether or not the Plan is a "top-heavy plan"; provided, however, that if a "key employee" is covered by a collective bargaining agreement for the "determination period," all Employees covered by such agreement shall be included. No Employees in a unit covered by a collective bargaining agreement shall be entitled to a minimum contribution under Section 15.03 or accelerated vesting under Section 15.05, unless otherwise provided in the collective bargaining agreement.

Article 16. Amendment and Termination.

16.01. Amendments by the Employer that do not Affect Pre-Approved Status. The Employer reserves the authority through a board of directors' resolution or similar action, subject to the provisions of Article 1 and Section 16.04, to amend the Plan as provided herein, and such amendment shall not affect the status of the Plan as a pre-approved plan.

(a) The Employer may amend the Adoption Agreement to make a change or changes in the provisions previously elected by it. Such amendment may be made either by (1) completing an amended Adoption Agreement,

or (2) adopting an amendment in the form provided by the Pre-Approved Plan Provider. Any such amendment must be filed with the Trustee.

(b) The Employer may adopt certain model amendments published by the Internal Revenue Service which specifically provide that their adoption shall not cause the Plan to be treated as an individually designed plan.

(c) The Employer may adopt or change the separate loan procedures described in Section 9.03 by a board of directors' resolution or similar action, or any procedure established thereby.

16.02. Amendments by the Employer Adopting Provisions not Included in Pre-Approved Plan, through the Plan Superseding Provisions Addendum. The Employer reserves the authority, subject to the provisions of Section 16.04, to amend the Plan by adopting provisions that are not included in the Pre-Approved Plan. Such amendment(s) shall be made through use of the Plan Superseding Provisions Addendum to the Adoption Agreement. In accordance with Section 1.26(a), the following amendments will not impact reliance on the opinion letter:

(a) Amendments to administrative provisions of the plan such as provisions relating to investments, plan claims procedures, and employer contact information provided the amended provisions are not in conflict with any other provision of the plan and do not cause the plan to fail to qualify under Code Section 401(a).

(b) Interim amendments or discretionary amendments that are related to a change in qualification requirements.

An Employer that amends the Plan for any other reason will no longer have reliance on the opinion letter.

16.03. Amendment by the Pre-Approved Plan Provider. Effective as of the date the Pre-Approved Plan Provider receives approval from the Internal Revenue Service of the Pre-Approved Plan, the Pre-Approved Plan Provider may in its discretion amend the Pre-Approved Plan at any time, which amendment may also apply to the Plan maintained by the Employer. The Pre-Approved Plan Provider shall satisfy any recordkeeping and notice requirements imposed by the Internal Revenue Service in order to maintain its amendment authority. The Pre-Approved Plan Provider shall provide a copy of any such amendment to each Employer adopting its Pre-Approved Plan at the Employer's last known address as shown on the books maintained by the Pre-Approved Plan Provider or its affiliates.

The Pre-Approved Plan Provider will no longer have the authority to amend the Plan on behalf of an adopting Employer as of the earlier of (a) the date of the adoption of an Employer amendment to the Plan to incorporate a provision that is not allowable in the pre-approved plan program, as described in Section 6.03 of Rev. Proc. 2017-41 (or the successor thereto), or (b) the date the Internal Revenue Service gives notice that the Plan is being treated as an individually-designed plan due to the nature and extent of amendments, pursuant to Section 8.06(3) of Rev. Proc. 2017-41 (or the successor thereto).

16.04. Amendments Affecting Vested Interest and/or Accrued Benefits. Except as permitted by Section 16.05, Section 1.20(d) of the Adoption Agreement, and/or Code Section 411(d)(6) and regulations issued thereunder, no amendment to the Plan shall be effective to the extent that it has the effect of decreasing a Participant's Account or eliminating an optional form of benefit with respect to benefits attributable to service before the amendment. Furthermore, if the vesting schedule of the Plan is amended, the nonforfeitable interest of a Participant in his Account, determined as of the later of the date the amendment is adopted or the date it becomes effective, shall not be less than the Participant's nonforfeitable interest in his Account determined without regard to such amendment.

If the Plan's vesting schedule is amended because of a change to "top-heavy plan" status, as described in Subsection 15.01(g), the accelerated vesting provisions of Section 15.05 shall continue to apply for all Plan Years thereafter, regardless of whether the Plan is a "top-heavy plan" for such Plan Year.

16.05. Retroactive Amendments made by Pre-Approved Plan Provider. An amendment made by the Pre-Approved Plan Provider in accordance with Section 16.03 may be made effective on a date prior to the first day of the Plan Year in which it is adopted if, in published guidance, the Internal Revenue Service either permits or requires such an amendment to be made to enable the Plan and Trust to satisfy the applicable requirements of the Code and all requirements for the retroactive amendment are satisfied.

16.06. Termination and Discontinuation of Contributions. The Employer has adopted the Plan with the intention and expectation that assets shall continue to be held under the Plan on behalf of Participants and their Beneficiaries indefinitely and, unless the Plan is a frozen plan as provided in Subsection 1.01(g)(5) of the Adoption Agreement, that contributions

under the Plan shall be continued indefinitely. However, said Employer has no obligation or liability whatsoever to maintain the Plan for any length of time and may amend the Plan to discontinue contributions under the Plan or terminate the Plan at any time without any liability hereunder for any such discontinuance or termination.

If the Plan is not already a frozen plan, the Employer may amend the Plan to discontinue further contributions to the Plan by selecting Subsection 1.01(g)(5) of the Adoption Agreement. An Employer that has selected in Subsection 1.01(g)(5) may change its selection and provide for contributions under the Plan to recommence with the intention that such contributions continue indefinitely, as provided in the preceding paragraph.

The Employer may terminate the Plan by written notice delivered to the Trustee. Notwithstanding the effective date of the termination of the Plan, loan payments being made pursuant to Section 9.07 shall continue to be remitted to the Trust until the loan has been defaulted or distributed pursuant to Sections 9.10 and 9.11 or Section 9.13, respectively.

16.07. Distribution upon Termination of the Plan. Upon termination or partial termination of the Plan or complete discontinuance of contributions thereunder, each Participant (including a terminated Participant with respect to amounts not previously forfeited by him) who is affected by such termination or partial termination or discontinuance shall have a vested interest in his Account of 100 percent. Subject to Section 12.01 and Article 14, upon receipt of instructions from the Administrator, the Trustee shall distribute to each Participant or other person entitled to distribution the balance of the Participant's Account in a single lump sum payment. In the absence of such instructions, the Trustee shall notify the Administrator of such situation and the Trustee shall be under no duty to make any distributions under the Plan until it receives instructions from the Administrator. Upon the completion of such distributions, the Trust shall terminate, the Trustee shall be relieved from all liability under the Trust, and no Participant or other person shall have any claims thereunder, except as required by applicable law.

If distribution is to be made to a Participant or Beneficiary who cannot be located, following the Administrator's completion of such search methods as described in applicable Department of Labor guidance, the Administrator shall give instructions to the Trustee to roll over the distribution to an individual retirement account established by the Administrator in the name of the missing Participant or Beneficiary, which account shall satisfy the requirements of the Department of Labor automatic rollover safe harbor generally applicable to amounts less than or equal to the maximum cashout amount specified in Code Section 401(a)(31)(B)(ii) ($5,000 as of January 1, 2018) that are mandatorily distributed from the Plan. In the alternative, the Employer may direct the Trustee, subject to applicable guidance, to transfer the Account of any such missing Participant or Beneficiary, regardless of the amount of any such Account to the Pension Benefit Guarantee Corporation. In the absence of such instructions, the Trustee shall make no distribution to the distributee.

16.08. Merger or Consolidation of Plan; Transfer of Plan Assets. In case of any merger or consolidation of the Plan with, or transfer of assets and liabilities of the Plan to, any other plan, provision must be made so that each Participant would, if the Plan then terminated, receive a benefit immediately after the merger, consolidation or transfer which is equal to or greater than the benefit he would have been entitled to receive immediately before the merger, consolidation or transfer if the Plan had then terminated.

Article 17. Amendment and Continuation of Prior Plan; Transfer of Funds to or from Other Qualified Plans.

17.01. Amendment and Continuation of Prior Plan. In the event the Employer has previously established a plan (the "prior plan") which is a defined contribution plan under the Code and which on the date of adoption of the Plan meets the applicable requirements of Code Section 401(a), the Employer may, in accordance with the provisions of the prior plan, amend and restate the prior plan in the form of the Plan and become the Employer hereunder, subject to the following:

(a) Subject to the provisions of the Plan, each individual who was a Participant in the prior plan immediately prior to the effective date of such amendment and restatement shall become a Participant in the Plan on the effective date of the amendment and restatement, provided he is an Eligible Employee as of that date.

(b) Except as provided in Section 16.04, no election may be made under the vesting provisions of the Adoption Agreement if such election would reduce the benefits of a Participant under the Plan to less than the benefits to which he would have been entitled if he voluntarily separated from the service of the Employer immediately prior to such amendment and restatement.

(c) No amendment to the Plan shall decrease a Participant's accrued benefit or eliminate an optional form of benefit, except as permitted under Subsection 1.20(d) of the Adoption Agreement.

(d) The amounts standing to the credit of a Participant's account immediately prior to such amendment and restatement which represent the amounts properly attributable to (1) contributions by the Participant and (2) contributions by the Employer and forfeitures shall constitute the opening balance of his Account or Accounts under the Plan.

(e) Amounts being paid to an Inactive Participant or to a Beneficiary in accordance with the provisions of the prior plan shall continue to be paid in accordance with such provisions.

(f) Any election and waiver of the "qualified preretirement survivor annuity", as defined in Section 14.01, in effect after August 23, 1984, under the prior plan immediately before such amendment and restatement shall be deemed a valid election and waiver of Beneficiary under Section 14.04 if such designation satisfies the requirements of Sections 14.05 and 14.06, unless and until the Participant revokes such election and waiver under the Plan.

(g) Except as otherwise agreed within the Service Agreement, all assets of the predecessor trust shall be invested by the Trustee as soon as reasonably practicable pursuant to Article 8. The Employer agrees to assist the Trustee in any way requested by the Trustee in order to facilitate the transfer of assets from the predecessor trust to the Trust Fund.

17.02. **Transfer of Funds from an Existing Plan.** The Employer may from time to time direct the Trustee, in accordance with such rules as the Trustee may establish, to accept cash, Fund Shares or participant loan promissory notes transferred for the benefit of Participants from a trust forming part of another qualified plan under the Code, provided such plan is a defined contribution plan. Such transferred assets shall become assets of the Trust as of the date they are received by the Trustee. Such transferred assets shall be credited to Participants' Accounts in accordance with their respective interests immediately upon receipt by the Trustee. A Participant's vested interest under the Plan in transferred assets which were fully vested and nonforfeitable under the transferring plan or which were transferred to the Plan in a manner intended to satisfy the requirements of subsection (b) of this Section shall be fully vested and nonforfeitable at all times. A Participant's interest under the Plan in transferred assets which were transferred to the Plan in a manner intended to satisfy the requirements of subsection (a) of this Section shall be determined in accordance with the terms of the Plan, but applying the Plan's vesting schedule or the transferor plan's vesting schedule, whichever is more favorable, for each year of Vesting Service completed by the Participant. Such transferred assets shall be invested by the Trustee in accordance with the provisions of Subsection 17.01(g) as if such assets were transferred from a prior plan, as defined in Section 17.01. Except as otherwise provided below, no transfer of assets in accordance with this Section 17.02 may cause a loss of an accrued or optional form of benefit protected by Code Section 411(d)(6).

The terms of the Plan as in effect at the time of the transfer shall apply to amounts transferred to the Plan from another defined contribution plan regardless of whether such application would have the effect of eliminating or reducing an optional form of benefit provided by such other plan that is protected by Code Section 411(d)(6) and that was previously available with respect to the transferred amount, provided that such transfer satisfies the requirements set forth in either (a) or (b):

(a) (1) The transfer is conditioned upon a voluntary, fully informed election by the Participant to transfer his entire account balance to the Plan. As an alternative to the transfer, the Participant is offered the opportunity to retain the form of benefit previously available to him (or, if the transferor plan is terminated, to receive any optional form of benefit for which the participant is eligible under the transferor plan as required by Code Section 411(d)(6));

(2) The amounts being transferred are not part of either (i) a qualified cash or deferred arrangement or (ii) an employee stock ownership plan, as defined in Code Section 4975(e)(7);

(3) The defined contribution plan from which the transfer is made is not a money purchase pension plan and

(4) The transfer is made either in connection with an asset or stock acquisition, merger or other similar transaction involving a change in employer of the employees of a trade or business (i.e., an acquisition or disposition within the meaning of Section 1.410(b)-2(f) of the Treasury Regulations) or in connection with the participant's change in employment status such that the participant is not entitled to additional allocations under the transferor plan.

(b) (1) The transfer satisfies the requirements of subsection (a)(1) of this Section 17.02;

(2) The transfer occurs at a time when the Participant is eligible, under the terms of the transferor plan, to receive an immediate distribution of his account;

(3) The transfer occurs at a time when the participant is not eligible to receive an immediate distribution of his entire nonforfeitable account balance in a single sum distribution that would consist entirely of an eligible rollover distribution within the meaning of Code Section 401(a)(31)(C); and

(4) The amount transferred, together with the amount of any contemporaneous Code Section 401(a)(31) direct rollover to the Plan, equals the entire nonforfeitable account of the participant whose account is being transferred.

It is the Employer's obligation to ensure that all assets of the Plan, other than those maintained in a separate trust or fund, are transferred to the Trustee.

17.03. Transfer of Assets from Trust. The Employer may direct the Trustee to transfer all or a specified portion of the Trust assets to any other plan or plans maintained by the Employer or the employer or employers of an Inactive Participant or Participants, provided that the Trustee has received evidence satisfactory to it that such other plan meets all applicable requirements of the Code, subject to the following:

(a) The assets so transferred shall be accompanied by instructions from the Employer naming the persons for whose benefit such assets have been transferred, showing separately the respective contributions by the Employer and by each Inactive Participant, if any, and identifying the assets attributable to the various contributions. The Trustee shall not transfer assets hereunder until all applicable filing requirements are met. The Trustee shall have no further liabilities with respect to assets so transferred.

(b) A transfer of assets made pursuant to this Section may result in the elimination or reduction of an optional form of benefit protected by Code Section 411(d)(6), provided that the transfer satisfies the requirements set forth in either (1) or (2):

(1) (i) The transfer is conditioned upon a voluntary, fully informed election by the Participant to transfer his entire Account to the other defined contribution plan. As an alternative to the transfer, the Participant is offered the opportunity to retain the form of benefit previously available to him (or, if the Plan is terminated, to receive any optional form of benefit for which the Participant is eligible under the Plan as required by Code Section 411(d)(6));

(ii) If the Plan includes a qualified cash or deferred arrangement under Code Section 401(k), the defined contribution plan to which the transfer is made must include a qualified cash or deferred arrangement; and

(iii) The transfer is made either in connection with an asset or stock acquisition, merger or other similar transaction involving a change in employer of the employees of a trade or business (i.e., an acquisition or disposition within the meaning of Section 1.410(b)-2(f) of the Treasury Regulations) or in connection with the Participant's change in employment status such that the Participant becomes an Inactive Participant.

(2) (i) The transfer satisfies the requirements of subsection (1)(i) of this Section;

(ii) The transfer occurs at a time when the Participant is eligible, under the terms of the Plan, to receive an immediate distribution of his benefit;

(iii) The transfer occurs at a time when the Participant is not eligible to receive an immediate distribution of his entire nonforfeitable Account in a single sum distribution that would consist entirely of an eligible rollover distribution within the meaning of Code Section 401(a)(31)(C);

(iv) The Participant is fully vested in the transferred amount in the transferee plan; and

(v) The amount transferred, together with the amount of any contemporaneous Code Section 401(a)(31) direct rollover to the transferee plan, equals the entire nonforfeitable Account of the Participant whose Account is being transferred.

Article 18. Miscellaneous.

18.01. Communication to Participants. The Plan shall be communicated to all Eligible Employees by the Employer promptly after the Plan is adopted.

18.02. Limitation of Rights. Neither the establishment of the Plan and the Trust, nor any amendment thereof, nor the creation of any fund or account, nor the payment of any benefits, shall be construed as giving to any Participant or other person any legal or equitable right against the Employer, Administrator or Trustee, except as provided herein; and in no event shall the terms of employment or service of any Participant be modified or in any way affected hereby. It is a condition of the Plan, and each Participant expressly agrees by his participation herein, that each Participant shall look solely to the assets held in the Trust for the payment of any benefit to which he is entitled under the Plan.

No Participant or Beneficiary shall have or acquire any right, title or interest in or to the Plan assets or any portion of the Plan assets, except by the actual payment or distribution from the Plan to such Participant or Beneficiary of such Participant's or Beneficiary's benefit to which he or she is entitled under the provisions of the Plan. Whenever the Plan pays a benefit in excess of the maximum amount of payment required under the provisions of the Plan, the Administrator will have the right to recover any such excess payment, plus earnings at the Administrator's discretion, on behalf of the Plan from the Participant and/or Beneficiary, as the case may be. Notwithstanding anything to the contrary herein stated, this right of recovery includes, but is not limited to, a right of offset against future benefit payments to be paid under the Plan to the Participant and/or Beneficiary, as the case may be, which the Administrator may exercise in its sole discretion.

18.03. Nonalienability of Benefits. Except as provided in Code Sections 401(a)(13)(C) and (D)(relating to offsets ordered or required under a criminal conviction involving the Plan, a civil judgment in connection with a violation or alleged violation of fiduciary responsibilities under ERISA, or a settlement agreement between the Participant and the Department of Labor in connection with a violation or alleged violation of fiduciary responsibilities under ERISA), Section 1.401(a)-13(b)(2) of the Treasury Regulations (relating to Federal tax levies), or as otherwise required by law, the benefits provided hereunder shall not be subject to alienation, assignment, garnishment, attachment, execution or levy of any kind, either voluntarily or involuntarily, and any attempt to cause such benefits to be so subjected shall not be recognized. The preceding sentence shall also apply to the creation, assignment, or recognition of a right to any benefit payable with respect to a Participant pursuant to a domestic relations order, unless such order is determined in accordance with procedures established by the Administrator to be a qualified domestic relations order, as defined in Code Section 414(p), or any domestic relations order entered before January 1, 1985.

18.04. Qualified Domestic Relations Orders Procedures. The Administrator must establish reasonable procedures to determine the qualified status of a domestic relations order. Upon receiving a domestic relations order, the Participant and any alternate payee named in the order shall be notified, in writing, of the receipt of the order and the Plan's procedures for determining the qualified status of the order. Within a reasonable period of time after receiving the domestic relations order, the Administrator must determine the qualified status of the order. The Participant and each alternate payee shall be provided notice of such determination by mailing to the individual's address specified in the domestic relations order, or in a manner consistent with the Department of Labor regulations.

If any portion of the Participant's Account is payable during the period the Administrator is making its determination of the qualified status of the domestic relations order, the Administrator must make a separate accounting of the amounts payable. If the Administrator determines the order is a qualified domestic relations order within 18 months of the date amounts first are payable following receipt of the order, the Administrator shall direct the Trustee to distribute the payable amounts in accordance with the order. If the determination of the qualified status of the order is not made within the 18-month determination period, the Administrator shall direct the Trustee to distribute the payable amounts in the manner the Plan would distribute if the order did not exist and shall apply the order prospectively if the Administrator later determines that the order is a qualified domestic relations order.

The Trustee shall set up segregated accounts for each alternate payee as directed by the Administrator.

A domestic relations order shall not fail to be deemed a qualified domestic relations order merely because it permits distribution or requires segregation of all or part of a Participant's Account with respect to an alternate payee prior to the Participant's earliest retirement age (as defined in Code Section 414(p)) under the Plan. A distribution to an alternate payee prior to the Participant's attainment of the earliest retirement age is available only if the alternate payee consents to a distribution occurring prior to the Participant's attainment of earliest retirement age.

Notwithstanding any other provisions of this Section or of a domestic relations order, if the Employer has elected to cash out small Accounts as provided in Subsection 1.20(e)(1) of the Adoption Agreement and the alternate payee's benefits under the Plan do not exceed the maximum cash out limit permitted under Code Section 411(a)(11)(A), distribution shall be made to the alternate payee in a lump sum as soon as practicable following the Administrator's determination that the order is a qualified domestic relations order.

18.05. Application of Plan Provisions for Multiple Employer Plans. When elected in the Participating Employers Addendum to the Adoption Agreement, and notwithstanding any other provision of the Plan to the contrary, if one of the Employers designated in the Participating Employers Addendum is not or has ceased to be a Related Employer (hereinafter "un-Related Employer"), the Plan shall be treated as a multiple employer plan (as defined in Code Section 413(c)) in accordance with applicable guidance. Any subsequent removal of an un-Related Employer will not be treated as a termination of the Plan with regard to that un-Related Employer and not be considered a distributable event for Participants still employed with that un-Related Employer.

For the period, if any, that the Plan is a multiple employer plan, each un-Related Employer shall be treated as a separate Employer for purposes of contributions, application of the "ADP" and "ACP" tests described in Sections 6.03 and 6.06, application of the Code Section 415 limitations described in Section 6.12, top-heavy determinations and application of the top-heavy requirements under Article 15, and application of such other Plan provisions as the Employers determine to be appropriate. For any such period, the Pre-Approved Plan Provider shall continue to treat the Employer as an adopter of this Pre-Approved Plan for purposes of notice or other communications in connection with the Plan, and other Plan-related services. The Administrator shall be responsible for administering the Plan as a multiple employer plan.

18.06. Veterans Reemployment Rights. Notwithstanding any other provision of the Plan to the contrary, contributions, benefits, and service credit with respect to qualified military service shall be provided in accordance with Code Section 414(u) and the regulations thereunder. The Administrator shall notify the Trustee of any Participant with respect to whom additional contributions are made because of qualified military service. Additional contributions made to the Plan pursuant to Code Section 414(u) shall be treated as Deferral Contributions (if Option 1.07(a)(3) is selected in the Adoption Agreement, including, to the extent designated by the Participant, Roth 401(k) Contributions), Employee Contributions, Matching Employer Contributions, Qualified Matching Employer Contributions, Qualified Nonelective Employer Contributions, or Nonelective Employer Contributions based on the character of the contribution they are intended to replace; provided, however, that the Plan shall not be treated as failing to meet the requirements of Code Section 401(a)(4), 401(k)(3), 401(k)(12), 401(m), 410(b), or 416 by reason of the making of or the right to make such contribution. Notwithstanding the foregoing, Participants dying and/or becoming disabled while performing qualified military service as defined in Code Section 414(u)(5) shall not be treated as having resumed employment pursuant to this Section on the day prior to dying or becoming disabled for purposes of calculating contributions pursuant to Code Section 414(u)(9).

18.07. Facility of Payment. In the event the Administrator determines, on the basis of medical reports or other evidence satisfactory to the Administrator, that the recipient of any benefit payments under the Plan is incapable of handling his affairs by reason of minority, illness, infirmity or other incapacity, the Administrator may direct the Trustee to disburse such payments to a person or institution designated by a court which has jurisdiction over such recipient or a person or institution otherwise having the legal authority under state law for the care and control of such recipient. The receipt by such person or institution of any such payments shall be complete acquittance therefore, and any such payment to the extent thereof, shall discharge the liability of the Trust for the payment of benefits hereunder to such recipient.

18.08. Information between Employer and/or Administrator and Trustee. The Employer and/or Administrator will furnish the Trustee, and the Trustee will furnish the Employer and/or Administrator, with such information relating to the Plan and Trust as may be required by the other in order to carry out their respective duties hereunder, including without limitation information required under the Code and any regulations issued or forms adopted by the Treasury Department thereunder or under the provisions of ERISA and any regulations issued or forms adopted by the Department of Labor thereunder.

18.09. Effect of Failure to Qualify Under Code. Notwithstanding any other provision contained herein, if the Employer's plan fails to be a qualified plan under the Code, such plan can no longer participate in this pre-approved plan arrangement and shall be considered an individually designed plan.

18.10. Directions, Notices and Disclosure. Any notice or other communication in connection with this Plan shall be deemed delivered in writing if addressed as follows and if either actually delivered at said address or, in the case of a letter,

three business days shall have elapsed after the same shall have been deposited in the United States mail, first-class postage prepaid and registered or certified:

(a) If to the Employer or Administrator, to it at such address as the Administrator shall direct pursuant to the Service Agreement;

(b) If to the Trustee, to it at the address set forth in Section 1.29 of the Adoption Agreement;

or, in each case at such other address as the addressee shall have specified by written notice delivered in accordance with the foregoing to the addressor's then effective notice address.

Any direction, notice or other communication provided to the Employer, the Administrator or the Trustee by another party which is stipulated to be in written form under the provisions of this Plan may also be provided in any medium which is permitted under applicable law or regulation. Any written communication or disclosure to Participants required under the provisions of this Plan may be provided in any other medium (electronic, telephone or otherwise) that is permitted under applicable law or regulation.

18.11. Governing Law. Unless provided otherwise in the Adoption Agreement, the Plan shall be construed, administered and enforced according to ERISA, and to the extent not preempted thereby, the laws of the Commonwealth of Massachusetts.

18.12. Discharge of Duties by Fiduciaries. The Trustee, the Employer and any other fiduciary shall discharge their duties under the Plan in accordance with the requirements of ERISA solely in the interests of Participants and their Beneficiaries and with the care, skill, prudence, and diligence under the applicable circumstances that a prudent man acting in a like capacity and familiar with such matters would use in conducting an enterprise of like character with like aims.

Article 19. Plan Administration.

19.01. Powers and Responsibilities of the Administrator. The Administrator has the full power and the full responsibility to administer the Plan in all of its details, subject, however, to the requirements of ERISA. The Administrator is the agent for service of legal process for the Plan. In addition to the powers and authorities expressly conferred upon it in the Plan, the Administrator shall have all such powers and authorities as may be necessary to carry out the provisions of the Plan, including the discretionary power and authority to interpret and construe the provisions of the Plan, such interpretation to be final and conclusive on all persons claiming benefits under the Plan; to make benefit determinations; to utilize the correction programs or systems established by the Internal Revenue Service (such as the Employee Plans Compliance and Resolution System) or the Department of Labor; and to resolve any disputes arising under the Plan. The Employer may elect through Section 1.01(c) of the Adoption Agreement to allocate the responsibilities of the Administrator among one or more persons or entities as indicated therein or within the Fiduciary Addendum to the Adoption Agreement. The Administrator may also, by written instrument, allocate and delegate its fiduciary responsibilities in accordance with ERISA Section 405, including allocation of such responsibilities to an administrative committee or committees formed to administer the Plan.

19.02. Nondiscriminatory Exercise of Authority. Whenever, in the administration of the Plan, any discretionary action by the Administrator, Investment Fiduciary or other fiduciary named on the Fiduciary Addendum to the Adoption Agreement is required, such fiduciary shall exercise its authority in a nondiscriminatory manner so that all persons similarly situated shall receive substantially the same treatment.

19.03. Claims and Review Procedures. As required under Section 2560.503-1(b)(2) of Regulations issued by the Department of Labor, the claims and review procedures are described in detail in the summary plan description for the Plan. Unless provided otherwise in the Adoption Agreement, claims will also be subject to the restrictions described below.

A Participant, Beneficiary or alternate payee (collectively referred to as "Claimant" in this section) seeking judicial review of an adverse benefit determination under the Plan, whether in whole or in part, is required to exhaust all claims and review procedures under the Plan as described in the summary plan description for the Plan before filing suit in state or federal court. The Claimant must file any suit or legal action (including, without limitation, a civil action under Section 502(a) of ERISA) within 12 months of the date the final adverse benefit determination is issued. Notwithstanding the foregoing, any Claimant that fails to engage in or exhaust the claims and review procedures must file any suit or legal action within 12 months of the date of the alleged facts or conduct giving rise to the claim (including, without limitation, the date the Claimant alleges he or she became entitled to the Plan benefits requested in the suit or legal action). A Claimant who fails to file such suit or legal action within the 12 months limitations period will lose any rights to bring any such suit or legal action thereafter. In any

such suit or legal action, a Claimant is prohibited from presenting any evidence not timely presented as part of the Plan's administrative claims review process.

19.04. Named Fiduciary. The Administrator is a "named fiduciary" for purposes of ERISA Section 402(a)(1) and has the powers and responsibilities with respect to the management and operation of the Plan described herein.

19.05. Costs of Administration. All reasonable costs and expenses (including legal, accounting, and employee communication fees) incurred by the Administrator and the Trustee in administering the Plan and Trust may be paid from the forfeitures (if any) resulting under Section 11.08, from the ERISA account established under this Section, if any, or from the remaining Trust Fund. All such costs and expenses paid from the remaining Trust Fund shall, unless allocable to the Accounts of particular Participants, be charged against the Accounts of all Participants as directed by the Administrator. Amounts a service provider agrees to credit to the Plan in recognition of the service provider's compensation for Plan services may be allocated to an ERISA account from which the Administrator may pay Plan expenses and/or allocate amounts to the Accounts of Participants and Beneficiaries pro rata based on their Account balances in the Trust or as set forth in the Fiduciary Addendum to the Adoption Agreement.

PRE-APPROVED DEFINED CONTRIBUTION PLAN

Addendum
RE: The Bipartisan Budget Act of 2018, and Code Sections 401(k) and 401(m) 2019 Final Hardship Regulations

Amendments for Fidelity Basic Plan Document No. 17

PREAMBLE

Adoption and Effective Date of Amendment. This amendment of the Plan is adopted to reflect statutory changes pursuant to the Bipartisan Budget Act of 2018 (BBA) and Code Sections 401(k) and 401(m) 2019 Final Hardship Regulations and any related guidance. This amendment is intended as good faith compliance with the requirements of the BBA and those final regulations and is to be construed in accordance with guidance issued thereunder.

Except as provided otherwise below, the amendments contained herein shall be effective for Plan Years beginning after December 31, 2018.

Supersession of Inconsistent Provisions. This amendment shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions of this amendment.

Article 1. Qualified Matching Employer Contributions. Section 5.09 is amended by replacing the first paragraph in its entirety with the following:

If so provided by the Employer in Subsection 1.11(f) of the Adoption Agreement, prior to making its Matching Employer Contribution (other than any 401(k) Safe Harbor Matching Employer Contribution) to the Plan, the Employer may designate all or a portion of such Matching Employer Contribution as a Qualified Matching Employer Contribution. The Employer shall notify the Trustee of such designation at the time it makes its Matching Employer Contribution. Qualified Matching Employer Contributions shall be distributable only in accordance with the distribution provisions that are applicable to Deferral Contributions; provided, however, that a Participant shall not be permitted to take Qualified Matching Employer Contributions as part of a Qualified Reservist Distribution pursuant to Section 10.08. Qualified Matching Employer Contributions shall not be included in the amounts available for hardship withdrawals unless specified in the In-Service Withdrawals Addendum.

Article 2. Qualified Nonelective Employer Contributions Section 5.07 is amended by replacing the last paragraph it in its entirety with the following:

Qualified Nonelective Employer Contributions shall be distributable only in accordance with the distribution provisions that are applicable to Deferral Contributions; provided, however, that a Participant shall not be permitted to take Qualified Nonelective Employer Contributions as part of a Qualified Reservist Distribution pursuant to Section 10.08. Qualified Nonelective Employer Contributions shall not be included in the amounts available for hardship withdrawals unless specified in the In-Service Withdrawals Addendum.

Article 3. Hardship Distributions Section 10.05 is amended and replaced in its entirety with the following:

If so provided by the Employer in Subsection 1.19(a) of the Adoption Agreement, a Participant who continues in employment as an Employee may apply for a hardship withdrawal. Unless provided otherwise in the Service Agreement, the Participant may apply by certifying to the Administrator all of the required criteria specified in this Section. Such certification shall represent that the Participant has documentation substantiating the hardship. Such a hardship withdrawal may include all or any portion of the Accounts specified by the Employer in Subsection 1.19(a)(1) of the Adoption Agreement and the In-Service Withdrawals Addendum to the Adoption Agreement, if applicable. The minimum amount, if any, that a Participant may withdraw because of hardship is the dollar amount specified by the Employer in Subsection 1.19(a) of the Adoption Agreement.

For purposes of this Section 10.05, a withdrawal is made on account of hardship if made on account of an immediate and heavy financial need of the Participant where such Participant lacks other available resources. The Administrator shall direct the Trustee with respect to hardship withdrawals and those withdrawals shall be based on the following special rules:

(a) The following are the only financial needs considered immediate and heavy:

(1) expenses incurred or necessary for medical care (that would be deductible under Code Section 213(d), determined without regard to whether the expenses exceed any applicable income limit) of the Participant, the Participant's Spouse, children, or dependents, or a primary beneficiary of the Participant;

(2) costs directly related to the purchase (excluding mortgage payments) of a principal residence for the Participant;

(3) payment of tuition, related educational fees, and room and board for the next 12 months of postsecondary education for the Participant, the Participant's Spouse, children or dependents (as defined in Code Section 152, without regard to subsections (b)(1), (b)(2), and (d)(1)(B) thereof), or a primary beneficiary of the Participant;

(4) payments necessary to prevent the eviction of the Participant from, or a foreclosure on the mortgage on, the Participant's principal residence;

(5) payments for funeral or burial expenses for the Participant's deceased parent, Spouse, child, or dependent (as defined in Code Section 152, without regard to subsection (d)(1)(B) thereof), or a primary beneficiary of the Participant;

(6) expenses for the repair of damage to the Participant's principal residence that would qualify for a casualty loss deduction under Code Section 165 (determined without regard to Code Section 165(h)(5) and whether the loss exceeds any applicable income limit);

(7) expenses and losses (including loss of income) incurred by the Participant on account of a disaster declared by the Federal Emergency Management Agency (FEMA) under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 100-707, provided that

(8) the employee's principal residence or principal place of employment at the time of the disaster was located in an area designated by FEMA for individual assistance with respect to the disaster; or any other financial need determined to be immediate and heavy under rules and regulations issued by the Secretary of the Treasury or his delegate; provided, however, that any such financial need shall constitute an immediate and heavy need under this paragraph (8) no sooner than administratively practicable following the date such rule or regulation is issued.

For purposes of this Section, the term “primary beneficiary” means a Beneficiary under the Plan who has an unconditional right to all or a portion of the Participant’s Account upon the death of the Participant.

(b) Except to the extent provided otherwise on the Adoption Agreement Addendum regarding the Bipartisan Budget Act of 2018, and Code Sections 401(k) and 401(m) 2019 Final Hardship Regulations, the distribution shall be considered as necessary to satisfy an immediate and heavy financial need of the Participant only if:

(1) The Participant has obtained all distributions, other than the hardship withdrawal.

(2) The withdrawal amount is not in excess of the amount of an immediate and heavy financial need (including amounts necessary to pay any Federal, state or local income taxes or penalties reasonably anticipated to result from the distribution).

The Pre-Approved Plan Provider (Fidelity Management & Research Company) executed this Amendment by separate resolution on July 29, 2020.

Purposes of valuation

El Paso Electric Company (the Company) engaged Willis Towers Watson US LLC ("WTW") to value the Company's pension plan.

As requested by the Company, this report documents the results of an actuarial valuation of the Retirement Income Plan for Employees of El Paso Electric Company (the Plan) as of January 1, 2025.

The primary purpose of this valuation is to determine the Net Periodic Benefit Cost/(Income) (Benefit Cost), in accordance with FASB Accounting Standards Codification Topic 715 (ASC 715) for the fiscal year ending December 31, 2025. It is anticipated that a separate report will be prepared for year-end financial reporting purposes.

Limitations

This valuation has been conducted for the purposes described above and may not be suitable for any other purpose. In particular, please note the following:

1. The expected contributions to the qualified pension plan(s) were set at $9,000,000 as provided by El Paso Electric Company.

   Note that any significant change in the amounts contributed or expected to be contributed in 2025 from what is disclosed at December 31, 2024 may require disclosure in the interim financial statements, but should not affect the expected return on plan assets absent a remeasurement for another purpose.
2. There may be certain events that have occurred since the valuation date that are not reflected in the current valuation. See Subsequent Events in the Basis for Valuation section below for more information.
3. This report is not intended to constitute a certification of the Adjusted Funding Target Attainment Percentage (AFTAP) under IRC §436 for any plan year.
4. This report does not determine funding requirements under IRC §430.
5. This report does not provide information for plan accounting and financial reporting under ASC 960.
6. This report does not present liabilities on a plan termination basis, for which a separate extensive analysis would be required. No funded status measure included in this report is intended to assess, and none may be appropriate for assessing, the sufficiency of plan assets to cover the estimated cost of settling benefit obligations, as all such measures differ in some way from plan termination obligations. In addition, funded status measures shown in this report do not reflect the current costs of settling obligations by offering immediate lump sum payments to participants and/or purchasing annuity contracts for the remaining participants (e.g., insurer profit, insurer pricing of contingent benefits and/or provision for anti-selection in the choice of a lump sum vs. an annuity).

7. The comparisons of plan obligations as determined for accounting and financial reporting purposes to plan assets presented in this report cannot be relied upon to determine the need for nor the amount of required future plan contributions. Nevertheless, such comparisons may be useful to assess the need for future contributions because they reflect current interest rates at the measurement date in determining benefit obligations. However, asset gains and losses, demographic experience different from assumed, changes in interest rates, future benefit accruals, if any, and other factors will all affect the need for and amount of future contributions. In addition, if a plan is not required by law to be funded, benefit payments may also be paid directly by the plan sponsor as they come due.

Section 1 : Summary of key results

1.1 Benefit cost, plan assets & obligations

All monetary amounts shown in US Dollars

Fiscal Year Beginning		01/01/2025	01/01/2024
Benefit Cost/ (Income)	Net Periodic Benefit Cost/(Income)	9,601,116	4,332,211
	Benefit Cost/(Income) due to Special Events	0	0
	Total Benefit Cost/(Income)	9,601,116	4,332,211
Measurement Date		**01/01/2025**	**01/01/2024**
Plan Assets	Fair Value of Plan Assets (FVA)	277,036,771	277,810,445
	Market Related Value of Plan Assets (MRVA)	276,097,107	312,266,391
	Actual Return on Fair Value of Plan Assets during Prior Year	5.90%	10.36%
Benefit Obligations	Accumulated Benefit Obligation (ABO)	(297,784,571)	(306,143,191)
	Projected Benefit Obligation (PBO)	(306,041,261)	(315,581,208)
Funded Ratios	Fair Value of Plan Assets to ABO	93.0%	90.7%
	Fair Value of Plan Assets to PBO	90.5%	88.0%
Accumulated Other Comprehensive (Income)/Loss (Pre-tax)	Net Prior Service Cost/(Credit)	0	0
	Net Loss/(Gain)	81,161,207	89,259,691
	Total Accumulated Other Comprehensive (Income)/Loss (pre-tax)	81,161,207	89,259,691
Assumptions	Equivalent Single Discount Rate for Benefit Obligations	5.71%	5.20%
	Equivalent Single Discount Rate for Service Cost	5.89%	5.35%
	Equivalent Single Discount Rate for Interest Cost	5.41%	5.10%
	Expected Long-Term Rate of Return on Plan Assets	7.00%	7.00%
	Rate of Compensation Increase	Graded Scale	Graded Scale
Participant Data	Census Date	01/01/2025	01/01/2024

1.2 Comments on results

The actuarial gains/(losses) due to demographic experience, including any assumption changes, and investment return different from assumed during the prior year were $11,521,262 and $(2,972,623) respectively.

Change in net periodic cost and funded position

The net periodic cost increased from $4,332,211 in fiscal 2024 to $9,601,116 in fiscal 2025 and the funded position improved from $(37,770,763) to $(29,004,490).

Significant reasons for these changes include the following:

- The actual return on the fair value of plan assets since the prior measurement date was less than the expected return on plan assets, which caused the funded position to deteriorate.
- Cash contributions to the plan improved the funded position.
- Updated January 1, 2025 census data caused the funded position to deteriorate.
- The single equivalent discount rate used to measure PBO increased 51 basis points compared to the prior year, which reduced the net periodic cost and improved the funded position.

1.3 Basis for valuation

Appendix A summarizes the assumptions, methods and models used in the valuation. Appendix B summarizes our understanding of the principal provisions of the plan being valued. Both of these appendices include a summary of any changes since the prior valuation. Unless otherwise described below under Subsequent Events, assumptions were selected based on information known as of the measurement date.

Subsequent events

None.

Additional information

None.

Actuarial certification

This valuation has been conducted in accordance with generally accepted actuarial principles and practices. However, please note the information described below regarding this valuation.

Reliances

In preparing the results presented in this report, we have relied on information regarding plan provisions, participants, assets, and sponsor accounting policies and methods provided by the Company and other persons or organizations designated by the Company. See the Sources of Data and Other Information section of Appendix A for further details. We have relied on all the data and information provided as complete and accurate. We have reviewed this information for overall reasonableness and consistency, but have neither audited nor independently verified this information. Based on discussions with and concurrence by the plan sponsor, assumptions or estimates may have been made if data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations. The results presented in this report are directly dependent upon the accuracy and completeness of the underlying data and information. Any material inaccuracy in the data, assets, plan provisions or other information provided to us may have produced results that are not suitable for the purposes of this report and such inaccuracies, as corrected by the Company, may produce materially different results that could require that a revised report be issued.

Measurement of benefit obligations, plan assets and balance sheet adjustments

Census date/measurement date

The measurement date is January 1, 2025. The benefit obligations were measured as of January 1, 2025 and are based on participant data as of the census date, January 1, 2025.

Plan assets and balance sheet adjustments

Information about the fair value of plan assets and the general ledger account balances for the benefit plan cost at December 31, 2024, which reflect the expected funded status of the plan was reviewed for reasonableness and consistency, but no audit was performed.

Accumulated other comprehensive (income)/loss amounts shown in the report are shown prior to adjustment for tax effects. Any tax effects in AOCI should be determined by the Company in consultation with its tax advisors and independent accountants.

Assumptions and methods under U.S. GAAP

As required by U.S. GAAP, the actuarial assumptions and methods employed in the development of the benefit cost and other financial reporting have been selected by the Company. WTW has evaluated the assumptions used and believes that they do not significantly conflict with what would be reasonable. In addition, we believe that the combined effect of assumptions is expected to have no significant bias. See Appendix A for a description of each significant assumption used and our rationale for concluding that it does not significantly conflict with what would be reasonable.

U.S. GAAP requires that each significant assumption "individually represent the best estimate of the plan's future experience solely with respect to that assumption."

The results shown in this report have been developed based on actuarial assumptions that, to the extent evaluated by WTW, we believe do not significantly conflict with what would be reasonable. Other actuarial assumptions could also be considered to not significantly conflict with what would be reasonable. Thus, reasonable results differing from those presented in this report could have been developed by selecting different reasonable assumptions.

A summary of the assumptions, methods and sources of data and other information used is provided in Appendix A. Note that any subsequent changes in methods or assumptions for the January 1, 2025 measurement date will change the results shown in this report.

Certain models (as described in ASOP No. 56) were used in preparing the information presented herein. Further information on these models can be found in Appendix A.

Nature of actuarial calculations

The results shown in this report are estimates based on data that may be imperfect and on assumptions about future events that cannot be predicted with any certainty. The effects of certain plan provisions may be approximated, or determined to be insignificant and therefore not valued. Reasonable efforts were made in preparing this valuation to confirm that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and are not excluded or included inappropriately. Any rounding (or lack thereof) used for displaying numbers in this report is not intended to imply a degree of precision, which is not a characteristic of actuarial calculations.

If overall future plan experience produces higher benefit payments or lower investment returns than assumed, the relative level of plan costs reported in this valuation will likely increase in future valuations (and vice versa). Future actuarial measurements may differ significantly from the current measurements presented in this report due to many factors, including: plan experience differing from that anticipated by the economic or demographic assumptions, changes in economic or demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period), and changes in plan provisions or applicable law. Due to the limited scope of our assignment, we did not perform an analysis of the potential range of such future measurements.

See Basis for Valuation in Section 1 above for a discussion of any material events that have occurred after the valuation date that are not reflected in this valuation.

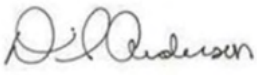
Limitations on use

This report is provided subject to the terms set out herein and in our engagement letter dated January 24, 2023 and any accompanying or referenced terms and conditions.



The information contained in this report was prepared for the internal use of the Company and its independent accountants in connection with our actuarial valuation of the pension plan as described in Purposes of Valuation above. It is not intended for and may not be used for other purposes, and we accept no responsibility or liability in this regard. The Company may distribute this actuarial valuation report to the appropriate authorities who have the legal right to require the Company to provide them this report, in which case the Company will use best efforts to notify WTW in advance of this distribution. Further distribution to, or use by, other parties of all or part of this report is expressly prohibited without WTW's prior written consent. WTW accepts no responsibility for any consequences arising from any party other than El Paso Electric Company relying on this report or any advice relating to its contents.

Professional qualifications

The undersigned are members of the Society of Actuaries and meet the "Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States" relating to pension plans. Our objectivity is not impaired by any relationship between the plan sponsor and our employer, Willis Towers Watson US LLC.

Section 2 : Accounting exhibits

2.1 Balance sheet asset/(liability)

All monetary amounts shown in US Dollars

Measurement Date		01/01/2025	01/01/2024
A	**Development of Balance Sheet Asset/(Liability)[1]**		
1	Projected benefit obligation (PBO)	(306,041,261)	(315,581,208)
2	Fair value of plan assets (FVA) [2]	277,036,771	277,810,445
3	Net balance sheet asset/(liability)	(29,004,490)	(37,770,763)
B	**Current and Noncurrent Classification[3]**		
1	Noncurrent asset	0	0
2	Current liability	0	0
3	Noncurrent liability	(29,004,490)	(37,770,763)
4	Net balance sheet asset/(liability)	(29,004,490)	(37,770,763)
C	**Accumulated Benefit Obligation (ABO)**	(297,784,571)	(306,143,191)
D	**Accumulated Other Comprehensive (Income)/Loss**		
1	Net prior service cost/(credit)	0	0
2	Net loss/(gain)	81,161,207	89,259,691
3	Accumulated other comprehensive (income)/loss[4]	81,161,207	89,259,691
E	**Assumptions and Dates**		
1	Equivalent single discount rate for benefit obligations	5.71%	5.20%
2	Rate of compensation increase	Graded Scale	Graded Scale
3	Cash balance interest crediting rate	4.78%	4.03%
4	Census date	01/01/2025	01/01/2024

1 Whether any amounts in this table that differ from those disclosed at year-end must be disclosed in subsequent interim financial statements should be determined.
2 Excludes receivable contributions.
3 The current liability (for each underfunded plan) was measured as the discounted value of benefits expected to be paid over the next 12 months in excess of the fair value of the plan's assets at the measurement date.
4 Amount shown is pre-tax and should be adjusted by plan sponsor for tax effects.

2.2 Changes in plan obligations and assets

All monetary amounts shown in US Dollars

Period Beginning		01/01/2025	01/01/2024
A	**Change in Projected Benefit Obligation (PBO)**

Appendix A : Statement of actuarial assumptions, methods and data sources

Plan Sponsor

El Paso Electric Company

Statement of Assumptions

The assumptions disclosed in this Appendix are for the fiscal year 2025 benefit cost.

Assumptions and methods for pension cost purposes

Economic Assumptions	
Pre-tax rate of return on assets for	7.00%
Discount rate:	
• Equivalent single discount rate for benefit obligations	5.71%
• Equivalent single discount rate for service cost	5.89%
• Equivalent single discount rate for interest cost	5.41%
Annual rates of increase:	
• Inflation	2.50%
• Compensation:	

Age	Rate of Base Pay Increase
25	8.00%
30	7.00%
35	6.00%
40	5.00%
45	4.00%
50	3.50%
55	3.00%
60	2.50%
65+	2.00%

• Statutory limits on compensation and benefits	2.50%
• Cash balance interest credit rate	4.78%

Annuity conversion	Cash balances are converted to annuities using “annuity substitution” with valuation interest rates and the “applicable mortality table” under Code Section 417(e)(B)

The return on assets shown above is gross of investment expenses. Administrative expenses are accounted for as an addition to Service Cost, as described below.

As required by the U.S. GAAP accounting standard, the yield curve reflecting returns on high quality corporate bonds (AA and AAA) is used to determine the obligations and service cost, and thus the net periodic benefit cost for the plan. Because these assumptions are required by the U.S. GAAP accounting standard, and reflect current market conditions (specifically, the market conditions as of the measurement date) they may from time to time be inconsistent with other economic assumptions used in the valuation, which may reflect both current economic conditions and assumed future conditions.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Termination

The rates at which participants are assumed to terminate employment by age are shown below:

Representative Termination Rates

Percentage leaving during the year	
Attained Age	Males and Females
20	7.00%
25	6.40%
30	5.65%
35	4.90%
40	4.15%
45	3.40%
50	2.65%

wtw

© 2025 WTW. Proprietary and confidential.
For WTW and WTW client use only
wtwco.com

Disability

The rates at which participants become disabled by age and gender are shown below:

Percentage becoming disabled during the year	
Age	Males and Females
20	0.14%
25	0.15%
30	0.16%
35	0.19%
40	0.30%
45	0.45%
50	0.69%

Retirement

Rates varying by age.

Percentage assumed to retire during the year				
	Active Participants			
	Final Average Pay			
Age	Reduced Early Retirement	Unreduced Retirement	Cash Balance	Terminated Vested Participants
55 - 59	4%	6%	8%	0%
60 - 61	4%	10%	8%	0%
62	12%	20%	8%	0%
63 - 64	12%	12%	12%	0%
65	20%	20%	20%	90%
66-69	20%	20%	20%	0%
70+	100%	100%	100%	100%

Benefit commencement date:

- Preretirement death benefit: The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit: For participants under 65, assumed commencement age 65; otherwise, age 70
- Disability benefit: Upon disablement.
- Retirement benefit: Upon termination of employment.

Form of payment

- Final Average Pay Participants: 50% are assumed to elect a Single Life Annuity and 50% are assumed to elect a 100% Joint and Survivor Annuity

- Cash Balance Participants — 90% of participants are assumed to elect a lump sum form of payment and 10% are assumed to elect a Single Life Annuity. Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

Lump Sum & Annuity Conversion — Cash balances are converted to annuities using "annuity substitution" with valuation interest rates and the "applicable mortality table" under Code Section 417(e)(B). Cash balance participants' frozen FAP benefits are converted to lump sum using "annuity substitution" with valuation interest rates and the "applicable mortality table" under Code Section 417(e)(B).

Percent married — 75% of participants eligible for pre-retirement death benefits are assumed to have an eligible spouse.

Spouse age — Wife three years younger than husband.

Covered pay — Assumed plan compensation for the year beginning on the valuation date was determined as an employee's annualized rate of basic compensation, excluding overtime, bonuses, expense allowances, profit sharing, and any other extra compensation in any form.

Mortality:

- Healthy mortality rates — Base Mortality Table (Male Table used for males; Female Table used for Females)
  1. Base table: Pri-2012
  2. Base mortality table year: 2012
  3. Table type: White Collar for non-union participants, Blue-Collar for union participants, and Total Dataset for participants with an unknown union status
  4. Healthy or Disabled: Healthy
  5. Table weighting: Benefit
  6. Blending of annuitants and non-annuitants: Separate rates for annuitants and non-annuitants (based on Employees table)
  7. Blending of retirees and contingent annuitants: Retiree mortality is used for both retirees and contingent annuitants.

  Mortality Improvement Scale (Male Table used for males; Female Table used for Females)
  1. Base scale: MP-2021
  2. Projection Type: Generational

wtw

© 2025 WTW. Proprietary and confidential.
For WTW and WTW client use only
wtwco.com

- Disabled life mortality rates

Base Mortality Table

1. Base table: Pri-2012 Disabled Retiree
2. Base mortality table year: 2012
3. Table type: No Collar
4. Healthy or Disabled: Disabled
5. Blending of annuitants and non-annuitants: Single blended table of rates for annuitants and non-annuitants

Mortality Improvement Scale

1. Base scale: MP-2021
2. Projection Type: Generational

Additional Assumptions

Administrative expenses

Service cost includes a load for administrative expenses expected to be paid from the trust during the current year, equal to 60 basis points of the market value of assets.

Cash flow

- Decrement timing

The assumptions used are collectively called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

- Timing of benefit payments

Benefit payments are assumed to be made uniformly throughout the year and, on average, at mid-year.

- Amount and timing of contributions

Contributions are assumed to be made on the schedule specified by the Company.

Funding policy

El Paso Electric Company's funding policy is to contribute an amount equal to the minimum required contribution with consideration for amounts included in customer rates. El Paso Electric Company considers each year whether to contribute additional amounts (e.g., to reach certain funded status thresholds to avoid benefit restrictions, at-risk status, ERISA §4010 filings or other requirements).

Methods – Pension Cost Position

Census date	January 1, 2025.
Measurement date	January 1, 2025.
Service cost and projected benefit obligation	The Unit Credit Cost Method is used to determine the Projected Benefit Obligation (PBO) and related current service cost. Under this method, the accrued benefit is calculated based upon service as of the measurement date. The PBO is the present value of this benefit and the service cost is the present value of the increase in the benefit due to service in the upcoming year. In normal circumstances the "accrued benefit" is based upon the Plan's accrual formula. However, if service in later years leads to a materially higher level of benefit than in earlier years, the "accrued benefit" is calculated by attributing benefits on a straight-line basis over the relevant period. The benefits described above are used to determine both ABO and PBO except that final average pay is assumed to remain constant in the future when calculating ABO. PBO and service cost are measured by separately discounting the projected benefit payments underlying these measures, determined using the methodology described above, using the spot rates on the December 31, 2024 WTW RATE:Link 40:90 yield curve. Interest cost was measured by summing the individual interest costs associated with each future benefit payment underlying the PBO and service cost. These individual interest costs are developed by multiplying the present value of each benefit payment, discounted using the applicable spot rate on the yield curve relating to the future benefit payment, by that spot rate. Equivalent single discount rates that would reproducing the resulting benefit obligation, service cost and interest cost have been determined and disclosed.
Market-related value of assets	The market-related value of assets is determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last 2 years at the rate of 33% per year. Expected investment return is a component of NPBC.

wtwco.com

Amortization of unamortized amounts:

- Recognition of past service cost/(credit)

  Amortization of net prior service cost/(credit) resulting from a plan change is included as a component of Net Periodic Benefit Cost/(Income) in the year first recognized and every year thereafter until it is fully amortized. The annual amortization payment is determined in the first year as the increase in PBO due to the plan change divided by the average remaining service period of active participants expected to receive benefits under the plan.

  However, when a plan change reduces the PBO, existing positive prior service costs are reduced or eliminated starting with the earliest established before a new prior service credit base is established.

- Recognition of gains or losses

  Amortization of the net gain or loss resulting from experience different from that assumed and from changes in assumptions (excluding asset gains and losses not yet reflected in market-related value) is included as a component of Net Periodic Benefit Cost/(Income) for a year.

  If, as of the beginning of the year, that net gain or loss exceeds 10% of the greater of the PBO and the market-related value of plan assets, the amortization is that excess divided by the average remaining service period of active plan participants.

  Under this methodology, the gain/loss amounts recognized in AOCI are not expected to be fully recognized in benefit cost until the plan is terminated (or an earlier event, like a settlement, triggers recognition) because the average expected remaining service of active participants expected to benefit under the plan over which the amounts are amortized is redetermined each year and amounts that fall within the corridor described above are not amortized.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. A summary of these assumptions can be found in our email dated June 6, 2025.

Accumulated other comprehensive (income)/loss amounts shown in the report are shown prior to adjustment for deferred taxes. Any deferred tax effects in AOCI should be determined in consultation with the Company's tax advisors and auditors.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate(s)	As required by U.S. GAAP the discount rate methodology was chosen by the plan sponsor based on market information on the measurement date. Based on WTW's interest rate model, RATE:Link, that uses a yield curve derived from current, high quality (rated AA and above) corporate bonds to discount expected pension cash flows, and thus determine discount rates, we believe the discount rate chosen does not significantly conflict with what would be reasonable.
Expected return on plan assets	We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions. WTW was unable to evaluate this assumption because relevant information was not provided.
Cash balance interest crediting rate	The interest crediting rate is equal to the daily 30-year treasury rate at the December 31 measurement date, but with a minimum interest credit rate of 3.80%. We believe this assumption does not significantly conflict with what would be reasonable.
Annuity conversion rate	Cash balances are converted to annuities using "annuity substitution". We believe this assumption does not significantly conflict with what would be reasonable.
Rates of increase in compensation	Assumed increases were chosen by the plan sponsor based on an experience study conducted in 2023 and, as required by U.S. GAAP they represent an estimate of future experience. We believe this assumption does not significantly conflict with what would be reasonable.

wtw

wtwco.com

Administrative expenses	Administrative expenses are estimated based on an assumption of past expenses paid from the trust assets as a percentage of held assets. We believe this assumption does not significantly conflict with what would be reasonable.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions were selected by the plan sponsor and, as required by U.S. GAAP represent a best estimate of future experience. We believe this assumption does not significantly conflict with what would be reasonable.
Disabled Mortality	Assumptions used for accounting purposes were selected by the plan sponsor and, as required by U.S. GAAP represent a best estimate of future experience. We believe this assumption does not significantly conflict with what would be reasonable.
Termination	Termination rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. We believe this assumption does not significantly conflict with what would be reasonable.
Disability	Disability rates were selected by the plan sponsor with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. We believe this assumption does not significantly conflict with what would be reasonable.
Retirement	Retirement rates were based on an experience study conducted in 2023, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. We believe this assumption does not significantly conflict with what would be reasonable.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

• Deferred vested benefit	Based on plan sponsor's historical experience reviewed during the 2023 experience study, and expectations for the future with periodic adjustment based on observed gains and losses.
Form of payment	The percentage of retiring participants assumed to take lump sums or an annuity is based on historical experience reviewed during the 2023 experience study, and best expectations for the future with consideration of whether any conditions have changed that would be expected to produce different results in the future.
Percent married	The assumed percentage married is based on historical experience of marital statuses, with consideration of changes expected to occur in marriage patterns of retirement age individuals in the future.
Spouse age	The assumed age difference for spouses is based on plan sponsor expectations.

Source of Prescribed Methods (Required for ASOP compliance, otherwise optional)

Accounting methods	The methods used for accounting purposes as described in Appendix A, including the method of determining the market-related value of plan assets, are "prescribed methods set by another party", as defined in the actuarial standards of practice (ASOPs). As required by U.S. GAAP, these methods were selected by the plan sponsor.

Changes in Assumptions, Methods and Estimation Techniques

Change in assumptions since prior valuation	The single equivalent PBO discount rate increased from 5.20% as of January 1, 2024 to 5.71% as of January 1, 2025 to reflect the change in yields on high-quality corporate bonds. The single equivalent service cost discount rate increased from 5.35% as of January 1, 2024 to 5.89% as of January 1, 2025 to reflect the change in yields on high-quality corporate bonds. The single equivalent interest cost discount rate increased from 5.10% as of January 1, 2024 to 5.41% as of January 1, 2025 to reflect the change in yields on high-quality corporate bonds. The "applicable mortality table" under Code Section 417(e)(B) used for lump sum conversions was updated to reflect an additional year of data. The interest crediting rate was updated from 4.03% to 4.78%.
Change in methods since prior valuation	None.

Change in estimation techniques since prior valuation	None.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the WTW centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

RateCalc/RATE:Link	**RateCalc** is used as one component in developing the single equivalent discount rate that reflects the characteristics of the client's employee benefit plan. It references a yield curve (often a RATE:Link curve) and expected plan benefit payments. The projected benefit payments from the client's plan are matched to the spot rates along the yield curve to determine their present values. A single equivalent discount rate is then solved for, which produces the same total present value as the spot rates. **RATE:Link** is a methodology to develop spot rates to be used for liability and cost measurements related to employee benefit plans. The same core methodology is used to develop all RATE:Link curves. The RATE:Link process develops term structures of interest rates from corporate bond data for each covered geography (e.g., the U.S. for this valuation). The construction of RATE:Link yield curves relies on bond data collected as of the measurement date. Information regarding quoted bond prices, yields and other bond related data is from Bloomberg Finance L.P.
Published Demographic Tables	Certain demographic tables described above are standard published tables or are based on standard published tables from models developed by organizations with the requisite expertise.

Appendix B : Summary of principal plan provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on April 1, 2014.

Covered employees	All employees.
Participation date	Prior to April 1, 2014, each employee who has completed a year of Eligibility Service shall become a Member in the plan. An employee receives a year of Eligibility Service if he completes 1,000 or more Hours of Service within a 12-month period commencing with his date of employment or any anniversary date. Effective April 1, 2014, an employee hired or re-hired on or after April 1, 2014 shall become a Cash Balance Member on his employment commencement date or re-employment commencement date. An employee hired or re-hired before December 31, 2013 could affirmatively elect to become a Cash Balance Member on April 1, 2014 to accrue future benefits under the Plan as a Cash Balance Benefits rather than as final average pay benefits. An employee who is hired or re-hired after December 31, 2013 and before April 1, 2014 shall become a Cash Balance Member on April 1, 2014.

Definitions

Vesting service	One year for each 1,000-hour calendar year of employment with El Paso Electric Company.
Benefit service:	
• Final Average Pay	One year for each 1,000-hour calendar year of employment.
• Cash Balance	Prior to January 1, 2014, a Member receives credit for one full year for each Plan Year in which he completes 1,000 or more hours of service. A Cash Balance Member (other than a Cash Balance Member who is hired or re-hired after December 31, 2013 and before April 1, 2014) who completes at least one Hour of Service during the period beginning January 1,2014 and ending March 31, 2014 shall receive credit for 0.25 year of Benefit Accrual Service for the 2014 Plan Year. After March 31, 2014, no additional Benefit Service shall be earned by a Cash Balance Member.

Pensionable pay

An employee's annualized rate of basic compensation, excluding overtime, bonuses, expense allowances, profit sharing, and any other extra compensation in any form.

Average earnings:

- Final Average Pay

The monthly average of a participant’s pensionable pay computed by summing his pensionable pay as of any date and for each of the days beginning the four years preceding such date and dividing by sixty.

- Cash Balance

For a Cash Balance Member who is employed by the employer as of April 1, 2014 and becomes a Cash Balance Member as of April 1, 2014, the monthly average of a Member’s pensionable pay computed by summing his pensionable pay as of March 31, 2014 and as of March 31 of the preceding four calendar years and dividing by sixty.

Normal retirement date (NRD)

First day of the month coinciding with or next following the attainment of age 65 with five years of benefit service.

Accrued benefit:

- Final Average Pay

The monthly accrued benefit payable as a single life annuity upon Normal Retirement is the greater of (a), (b), (c) or (d) below, less any frozen benefit provided under group annuity contracts deemed

purchased prior to August 1, 1989 as illustrated in Appendix A of the plan document:

(a) 1-1/4% of Average Monthly Earnings multiplied by years of benefit service.

(b) $25.00 multiplied by years of projected benefit service at normal retirement date, not to exceed 10.

This amount multiplied by the ratio of years

of benefit service earned to date,

divided by years of projected benefit service at normal retirement date. This benefit shall be no greater than $250 per month.

(c) Amount of benefit payable in accordance with the Plan in effect on June 30, 1982 with Earnings frozen at the rate on June 30, 1982.

(d) Amount of accrued benefit earned as of October 17, 1990 under the prior benefit formula

© 2025 WTW. Proprietary and confidential.
For WTW and WTW client use only
wtwco.com

Cash Balance

The Accrued Benefit for a Cash Balance Member is

(a) plus (b), as follows:

(a) The benefit accrued under the Plan prior to becoming a Cash Balance Member, as determined under the Final Average Pay formula above.

(b) The Cash Balance Account, consisting of pay credits and interest credits.

Pay Credits

For each Plan Year beginning on January 1, 2014, a Cash Balance Member shall receive a pay credit to his Cash Balance Account as of the last day of the Plan year (or termination date, if earlier). The pay crediting rate is based on the member's age and years of Vesting Service, as shown below:

Age Plus Vesting Service	Percentage of Base Pay for the Plan Year
Less than 30	3.00%
30-39	4.00%
40-49	5.00%
50-59	6.00%
60-69	7.00%
70-79	8.00%
80 or More	9.00%

Interest Credits

Interest credits are allocated to the Cash Balance Account as of the last day of each month. The interest credit is determined by multiplying the Cash Balance Account as of the last day of the preceding month by the 30-Year Treasury Bond Rate for the month, which when compounded monthly for the 12 months of the Plan Year, is equal to the 30-Year Treasury Bond Rate for August of the preceding year (but no less than 3.80% for the Plan Year, compounded monthly).

Monthly preretirement death benefit:	
• Before Normal Retirement Age	Payable upon the death of a participant employed by the company who had completed 5 years of Vesting Service. If the participant dies before attaining age 50 with 10 years of service, the amount payable to the spouse, to whom the participant was legally married during the one year period immediately preceding his death, is 50% of the amount the participant would have been entitled to had the participant separated from service on the date of his death, survived to the earliest retirement age, retired with an immediate qualified joint and survivor annuity and died the day after the earliest retirement age. If the participant dies after attaining age 50 with 10 years of service, the amount payable to the eligible spouse is 50% of the participant's Accrued Benefit, commencing immediately.
• After Normal Retirement Age	If the participant dies after his Normal Retirement Age but before benefit payments commence, survivorship benefits will be paid in accordance with the form in which the participant's benefits would be paid if he had retired on the first day of the month following his date of death.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement:	
• Final Average Pay	After attainment of age 55 and completion of 5 years of Vesting Service, the participant may elect to commence his Accrued Benefit on a reduced basis prior to age 65. If the participant retires with at least 20 years of Vesting Service, he may receive his Accrued benefit as early as age 62 without any reduction. If the sum of the participant's age and years of Vesting Service equals or exceeds 85, he may receive his Accrued Benefit without any reduction.
• Cash Balance	Early retirement under the plan is age 55 and completion of 3 years of Vesting Service.
Postponed retirement	Retirement after NRD.
Deferred vested termination	Termination for reasons other than death or retirement after completing five years of vesting service for a Final Average Pay participant or three years of vesting service for a Cash Balance Member.

© 2025 WTW. Proprietary and confidential.
For WTW and WTW client use only
wtwco.com

Disability	Permanent and total disability prior to NRD, and participant is receiving a Social Security disability benefit.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit determined as of NRD.
Early retirement:	
• Final Average Pay	The monthly pension benefit determined as of NRD reduced 6.667% for each of the first five years and 3.333% for each of the next five years that payment precedes the participant's NRD.
• Cash Balance	The frozen accrued benefit excluding his Cash Balance Benefits determined as of NRD actuarially reduced to the commencement date. The Cash Balance Benefit determined as of the commencement date will be actuarially reduced to be equivalent to the member's Cash Balance Account.
Postponed retirement	The monthly pension benefit determined as of the actual retirement date.
Deferred vested termination:	
• Final Average Pay	The participant may elect to commence as early as their Early Retirement with the monthly pension benefit determined as of NRD reduced 6.667% for each of the first five years and 3.333% for each of the next five years that payment precedes the participant's NRD.
• Cash Balance	The frozen accrued benefit excluding Cash Balance Benefits will be payable as of NRD or may elect to commence at any time after termination with actuarial reductions. 100% of the Cash Balance account is payable on the first day of any month following termination.
Disablement:	
• Final Average Pay	Payable to a participant beginning at NRD after becoming totally and permanently disabled while employed by the company. The annuity payable is based on Average Monthly Earnings at date of Disability and Benefit Service, including all credit for all years while disabled, at NRD. The qualified joint and spouse survivor death benefit will apply.

• Cash Balance	Payable to a participant immediately after becoming totally and permanently disabled while employed by the company. The benefit payable is the Frozen Final Average Pay Accrued Benefit as of March 31, 2014 and the Cash Balance Account based on Earnings and Vesting Service through date of Disability.
Preretirement death	If participant has attained age 50 and earned at least 10 years of vesting service, then the monthly preretirement death benefit payable on behalf of an active employee is unreduced for form of payment and early retirement. In all other cases, the monthly preretirement death benefit payable is reduced 6.667% for each of the first five years and 3.333% for each of the next five years that payment precedes the participant's NRD.

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 25%, 75% and 100% joint and survivor annuity, a ten-year certain and life annuity, (for married participants) a life annuity, or (for Cash Balance Members) a lump sum distribution. Actuarial equivalence for annuity forms uses the 1971 Group Annuity Mortality Table for males, set back three years, and an interest rate of 6% compounded annually. Actuarial equivalence for lump sum purposes is the "applicable mortality table" under Code Section 417(e)(3)(B) and the "applicable interest rate" under Code Section 417(e)(3)(C) determined as of the fifth month immediately preceding the first day of the Plan Year in which the distribution is being made.
Pension Increases	None.
Plan participants' contributions	None.
Automatic Cash Out	Upon termination of service, if the lump sum value of the accrued benefit is less than $1,000, the lump sum amount is paid as soon as practical after termination.

Maximum limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes take effect.

Future Plan Changes

No future plan changes were recognized in determining pension cost requirements. WTW is not aware of any future plan changes that are required to be reflected.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

Purposes of valuation

El Paso Electric Company (the Company) engaged Willis Towers Watson US LLC (“WTW”) to value the Company’s other postretirement benefit plan.

As requested by the Company, this report documents the results of an actuarial valuation of the Postretirment Benefit Programs for Employees of El Paso Electric Company (the Plan) as of January 1, 2025.

The primary purpose of this valuation is to determine the Net Periodic Postretirement Benefit Cost/(Income) (Benefit Cost), in accordance with FASB Accounting Standards Codification Topic 715 (ASC 715) for the fiscal year ending December 31, 2025. It is anticipated that a separate report will be prepared for year-end financial reporting purposes.

Limitations

This valuation has been conducted for the purposes described above and may not be suitable for any other purpose. In particular, please note the following:

1. The expected contributions to the other postretirement benefits plan(s) were set at $1,200,000

   Note that any significant change in the amounts contributed or expected to be contributed in 2025 from what is disclosed at December 31, 2024 may require disclosure in the interim financial statements, but should not affect the expected return on plan assets absent a remeasurement for another purpose.
2. There may be certain events that have occurred since the valuation date that are not reflected in the current valuation. See Subsequent Events in the Basis for Valuation section below for more information.
3. This report does not provide information for plan accounting and financial reporting under ASC 960 or ASC 965.
4. The comparisons of plan obligations as determined for accounting and financial reporting purposes to plan assets presented in this report cannot be relied upon to determine the need for nor the amount of required future plan contributions. Nevertheless, such comparisons may be useful to assess the need for future contributions because they reflect current interest rates at the measurement date in determining benefit obligations. However, asset gains and losses, demographic experience different from assumed, changes in interest rates, future benefit accruals, if any, andother factors will all affect the need for and amount of future contributions. In addition, if a plan is not required by law to be funded, benefit payments may also be paid directly by the plan sponsor as they come due.

Section 1 : Summary of key results

1.1 Benefit cost, plan assets & obligations

All monetary amounts shown in US Dollars

Fiscal Year Beginning		01/01/2025	01/01/2024
Benefit Cost/ (Income)	Net Periodic Postretirement Benefit Cost/(Income)	(5,955,036)	(6,562,378)
	Benefit Cost/(Income) due to Special Events	0	0
	Total Benefit Cost/(Income)	(5,955,036)	(6,562,378)
Measurement Date		**01/01/2025**	**01/01/2024**
Plan Assets	Fair Value of Plan Assets (FVA)	47,288,002	43,975,366
	Actual Return on Fair Value of Plan Assets during Prior Year	8.41%	13.56%
Benefit Obligations	Accumulated Postretirement Benefit Obligation (APBO)	(39,120,780)	(34,675,532)
Funded Ratio	Fair Value of Plan Assets to APBO	120.9%	126.8%
Accumulated Other Comprehensive (Income)/Loss (Pre-tax)	Net Prior Service Cost/(Credit)	(9,803,181)	(13,052,770)
	Net Loss/(Gain)	(51,938,603)	(57,987,433)
	Total Accumulated Other Comprehensive (Income)/Loss (pre-tax)	(61,741,784)	(71,040,203)
Assumptions	Equivalent Single Discount Rate for Benefit Obligations	5.78%	5.26%
	Equivalent Single Discount Rate for Service Cost	5.95%	5.39%
	Equivalent Single Discount Rate for Interest Cost	5.47%	5.12%
	Expected Long-Term Rate of Return on Plan Assets	6.63%	6.72%
Participant Data	Census Date	01/01/2025	01/01/2024

1.2 Comments on results

The actuarial gains/(losses) due to demographic experience, including any assumption changes, and investment return different from assumed during the prior year were $(3,053,317) and $766,161 respectively.

Change in net periodic cost and funded position

The net periodic cost increased from $(6,562,378) in fiscal 2024 to $(5,955,036) in fiscal 2025 and the funded position declined from $9,299,834 to $8,167,222.

Significant reasons for these changes include the following:

- The pre- and post-65 claim cost assumptions were updated for 2025 based on claims experience which increased net periodic cost and reduced the funded position.
- The actual return on the fair value of plan assets since the prior measurement date was greater than the expected return on plan assets, which improved the funded position.
- The discount rate used to measure APBO increased 52 basis points compared to the prior year, which reduced the net periodic cost and improved the funded position.

Effects of Health Care Reform

This valuation reflects our understanding of the relevant provisions of the Patient Protection and Affordable Care Act (PPACA) and Health Care and Education Reconciliation Act (HCERA), and subsequent legislation (the SECURE Act of 2019) that eliminated the Cadillac tax, medical device tax and health insurance issuer tax. It also reflects our understanding of the effects of the Inflation Reduction Act of 2022 on retiree medical costs. The IRS and the Centers for Medicare Services (CMS) have yet to issue final guidance with respect to many aspects of these laws. It is possible that future guidance may conflict with our understanding of these laws based on currently available guidance and could therefore affect the results shown in this report. The valuation does not anticipate the effects of any additional possible future changes.

1.3 Basis for valuation

Appendix A summarizes the assumptions, methods and models used in the valuation. Appendix B summarizes our understanding of the principal provisions of the plan being valued. Both of these appendices include a summary of any changes since the prior valuation Unless otherwise described below under Subsequent Events, assumptions were selected based on information known as of the measurement date.

Subsequent events

None

Additional information

The Inflation Reduction Act (IRA) was signed on August 16, 2022. This new law includes health care provisions related to Medicare and healthcare financing. While guidance is still forthcoming, the potential effect of the new legislation has been considered in preparing these results. Based on the information available, and the specific plan provisions, changes were not made to assumptions. Additional changes may be reflected in future valuations as more guidance becomes available and actual plan experience is used to inform future expectations.

Actuarial certification

This valuation has been conducted in accordance with generally accepted actuarial principles and practices. However, please note the information described below regarding this valuation.

Reliances

In preparing the results presented in this report, we have relied on information regarding plan provisions, participants, assets, and sponsor accounting policies and methods provided by the Company and other persons or organizations designated by the Company. See the Sources of Data and Other Information section of Appendix A for further details. We have relied on all the data and information provided as complete and accurate. We have reviewed this information for overall reasonableness and consistency, but have neither audited nor independently verified this information. Based on discussions with and concurrence by the plan sponsor, assumptions or estimates may have been made if data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations. The results presented in this report are directly dependent upon the accuracy and completeness of the underlying data and information. Any material inaccuracy in the data, assets, plan provisions or other information provided to us may have produced results that are not suitable for the purposes of this report and such inaccuracies, as corrected by the Company, may produce materially different results that could require that a revised report be issued.

Measurement of benefit obligations, plan assets and balance sheet adjustments

Census date/measurement date

The measurement date is January 1, 2025. The benefit obligations were measured as of January 1, 2025 and are based on participant data as of the census date, January 1, 2025.

Plan assets and balance sheet adjustments

Information about the fair value of plan assets and the general ledger account balances for the other postretirement benefit plan cost at December 31, 2024, which reflect the expected funded status of the plan before adjustment to reflect the funded status based on the year-end measurements, was reviewed for reasonableness and consistency, but no audit was performed.

Accumulated other comprehensive (income)/loss amounts shown in the report are shown prior to adjustment for tax effects. Any tax effects in AOCI should be determined by the Company in consultation with its tax advisors and independent accountants.

Assumptions and methods under U.S. GAAP

As required by U.S. GAAP, the actuarial assumptions and methods employed in the development of the benefit cost and other financial reporting have been selected by the Company. WTW has evaluated the assumptions used and believes that they do not significantly conflict with what would be reasonable. In addition, we believe that the combined effect of assumptions is expected to have no significant bias. See Appendix A for a description of each significant assumption used and our rationale for concluding that it does not significantly conflict with what would be reasonable.

U.S. GAAP requires that each significant assumption "individually represent the best estimate of the plan's future experience solely with respect to that assumption."

The results shown in this report have been developed based on actuarial assumptions that, to the extent evaluated by WTW, we believe do not significantly conflict with what would be reasonable. Other actuarial assumptions could also be considered to not significantly conflict with what would be reasonable. Thus, reasonable results differing from those presented in this report could have been developed by selecting different reasonable assumptions.

A summary of the assumptions, methods and sources of data and other information used is provided in Appendix A. Note that any subsequent changes in methods or assumptions for the January 1, 2025 measurement date will change the results shown in this report.

Certain models (as described in ASOP No. 56) were used in preparing the information presented herein. Further information on these models can be found in Appendix A.

Nature of actuarial calculations

The results shown in this report are estimates based on data that may be imperfect and on assumptions about future events that cannot be predicted with any certainty. The effects of certain plan provisions may be approximated, or determined to be insignificant and therefore not valued. Reasonable efforts were made in preparing this valuation to confirm that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and are not excluded or included inappropriately. Any rounding (or lack thereof) used for displaying numbers in this report is not intended to imply a degree of precision, which is not a characteristic of actuarial calculations
