

EL PASO ELECTRIC COMPANY

SCHEDULE NO. AMS

ADVANCED METERING SYSTEM SURCHARGE

APPLICABILITY

The Advanced Metering System (“AMS”) Surcharge recovers the Company’s costs incurred to deploy an AMS during the cost recovery period approved by the Public Utility Commission of Texas. Retail electric service customers connected to the Company’s system receiving metered service, except those taking service under transmission voltage rates, will be subject to Schedule No. AMS. The AMS Surcharge will appear in the Customer bill as “AMS Surcharge” as a line-item surcharge. The AMS Surcharge applicable to each rate class is provided in the Monthly Surcharge section and calculated in accordance with the requirements of 16 Texas Admin. Code (“TAC”) § 25.130. The effective date will be the first billing cycle following approval of the revised AMS deployment plan, and the ending date is subject to change based on the results of any proceeding to adjust the AMS surcharges or a reconciliation proceeding.
