

Instructions for Energy Efficiency Identification Notice Form for Distribution Voltage Industrial Customers Pursuant to P.U.C. Subst. R. 25.181(w)

Note: This form applies only to a for-profit entity engaged in an industrial process taking electric service at distribution voltage that qualifies for a tax exemption under Tax Code §151.317. Do not use this form if you intend to allow the facilities identified in this notice to participate in any utility-sponsored energy efficiency programs provided by El Paso Electric Company (“EPE”) for the three years following the effective date.

- A. A completed notice form shall consist of the following.
 - 1. A completed Energy Efficiency Identification Notice Form for Distribution Voltage Industrial Customers; and
 - 2. A copy of the customer’s Texas Sales and Use Tax Exemption Certification (pursuant to Tax Code §151.317).
- B. The identification notice is limited solely to the metered point of delivery of the industrial process taking place at the consuming facilities. A metered point of delivery is identified by an EPE account number and a unique meter number where the industrial process is taking place.
- C. Eligible meter points are those metered points of delivery for a for-profit entity that is engaged in an industrial process taking electric service at distribution voltage that qualifies for a tax exemption under Tax Code §151.317.
- D. Identification Notices shall be submitted not later than February 1st to be effective for the following program year. For example, the Energy Efficiency Identification Notice Form must be submitted by February 1st, for the qualifying meter point to be effective beginning January of the following program year.
- E. Identification Notices are effective for a three-year period and must be renewed every three years.
- F. Identification Notices will be treated as confidential, highly sensitive protected material by the utility.
- G. The signed and completed notice shall be submitted to the address below. One form is required for each meter point.

El Paso Electric Company
