FEDERAL TAX CREDIT FACTOR

NM PUBLIC REGULATION COMMISSION
RECORDS MANAGEMENT BUREAU

APPLICABILITY:

This Federal Tax Credit Factor ("FTCF") is applicable to all customers taking service under a retail rate listed below.

In compliance with the New Mexico Public Regulation Commission order in Case No. 18-00016-UT, El Paso Electric Company (EPE) is to reduce customer rates to reflect the prospective impact of the federal corporate tax rate reduction established in the Tax Cuts and Jobs Act of 2017 on EPE's annual revenue requirement. Customers entering the Company's system during the term of this schedule will receive the refund credit in billings from their entry date. Customers leaving the Company's system during the term of this schedule will receive the credit through their exit date within the timeframe allocated in this schedule.

TERRITORY:

Areas served by the EPE in Dona Ana, Sierra, Otero and Luna Counties.

TERM:

The FTCF will be discontinued upon the effective date of rates in EPE's next base rate case.

MONTHLY RATE FACTOR:

The FTCF reflected in this tariff is calculated for each rate class as a percent (%) factor and then applied to the non-fuel base rate charges of the customer bill. The Tax Adjustment provision of each rate schedule will apply to the resulting adjusted non-fuel base rate charges. The reduction will appear as a separate line item on the customer's monthly bill and shall be titled "Federal Tax Credit".
