

February 13, 2018

Integrated Resource Plan  
Public Advisory Group: Public Input and Requests  
Meeting Date: January 11, 2018

**Questions received in notecards during PAG meeting**

**PAG Q1:** Please state why or why not EPE would

- A) Study
- B) Join the power pool SPP and/or MWTG

**EPE Response:** EPE is monitoring various wholesale market activities which include, but are not exclusive to, MWTG/SPP. There are many variables which impact the possibility of joining any of these entities. A significant factor is EPE's connectivity to the transmission systems in question and EPE's ability to interface with the market in question.
